Item 1.01 Entry into a Material Definitive Agreement.

On May 25, 2011, Plug Power Inc. (the Company) entered into an underwriting agreement (the Underwriting Agreement) with Roth Capital Partners, LLC as the sole manager (the Underwriter), related to the public offering of (i) an aggregate of 8,265,000 shares of the Company's common stock, par value \$0.01 per share (Common Stock), and (ii) warrants to purchase an aggregate of 6,198,750 shares of Common Stock (the Warrants). The shares of Common Stock and Warrants are being sold together as a fixed combination, each consisting of one share of Common Stock and 0.75 of a Warrant to purchase one share of Common Stock, at a public offering price of \$2.42 per combination, less the underwriting discounts and commissions payable by the Company (the Offering). The Underwriter will purchase the Common Stock and Warrants at a discounted price of \$2.299 per combination, representing a five percent (5.0%) discount to the public offering price. The Company has granted the Underwriter the option to purchase, at the same discounted price, an aggregate of up to an additional (i) 1,239,750 shares of Common Stock and/or (ii) Warrants to purchase up to 929,813 shares of Common Stock as may be necessary to cover over-allotments made in connection with the Offering. The Common Stock and/or Warrants purchased under this option may be sold either together or separately in any combination to be determined by the Underwriter.

The Warrants to be issued in the Offering are exercisable beginning on the date of issuance and will expire on May 31, 2016. The exercise price of the Warrants is \$3.00 per share of Common Stock. The exercise price and number of shares of Common Stock issuable upon exercise of the Warrants will be subject to adjustment in the event of any stock split, reverse stock split, stock dividend, recapitalization, reorganization or similar transaction, among other events as described in the Warrants. The Warrants also include weighted-average anti-dilution protection in the event of the issuance of any common stock, securities convertible into common stock, or certain other issuances at a price below the then-current exercise price of the Warrants, with certain exceptions. In the event of a sale of the Company, each holder of Warrants has the right, exercisable at its option, to require the Company to purchase such holder's Warrants at a price determined using a Black-Scholes option pricing model as described in the Warrants.

The Offering is expected to close on May 31, 2011, subject to the satisfaction of customary closing conditions. The net proceeds to the Company are expected to be approximately \$18.3 million, assuming no exercise of the Warrants and after deducting underwriting discounts and commissions and estimated expenses payable by the Company associated with the Offering. The Offering is being made pursuant to the Company's existing shelf registration statement on Form S-3 (File No. 333-173268), which was filed with the Securities and Exchange Commission (the Commission) on April 1, 2011 and declared effective by the Commission on April 8, 2011 and is described in more detail in a prospectus supplement dated May 25, 2011 and an accompanying base prospectus dated April 1, 2011.

The Underwriting Agreement contains customary representations, warranties, and agreements by the Company, and customary conditions to closing, indemnification obligations of the Company and the Underwriter, including for liabilities under the Securities Act of 1933, as amended, other obligations of the parties, and termination provisions.

Pursuant to the Underwriting Agreement, the Company agreed, subject to certain exceptions, not to offer, issue or sell any shares of Common Stock or securities convertible into or exercisable or exchangeable for shares of Common Stock for a period of ninety (90) days following the Offering without the prior written consent of the Underwriter.

The Underwriting Agreement has been attached hereto as an exhibit to provide investors and security holders with information regarding its terms. It is not intended to provide any other factual information about the Company. The representations, warranties and covenants contained in the Underwriting Agreement were made only for purposes of the Underwriting Agreement and as of specific dates, were solely for the benefit of the parties to the Underwriting Agreement, and may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the Underwriting Agreement.
