CirTran Corporation and Subsidiary

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE A - BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of CirTran Corporation and Subsidiary (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB. Accordingly, these financial statements do not include all of the information and footnote disclosures required by generally accepted accounting principles for complete financial statements. These financial statements and footnote disclosures should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2000. In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to fairly present the Company's consolidated financial position as of March 31, 2001, its consolidated results of operations and cash flows for the three months ended March 31, 2001 and 2000. The results of operations for the three months ended March 31, 2001 and 2000, may not be indicative of the results that may be expected for the year ending December 31, 2001.

NOTE B - INVENTORIES

Inventories consist of the following at March 31:

	2001	2000
Raw materials	\$ 1,903,604	\$ 1,609,731
Work-in process	116,210	1,015,925
Finished goods	466,561	822,003
	2,486,375	3,447,659
Less reserve for obsolescence	(402,308)	(489,903)
	\$ 2,084,067	\$ 2,957,756

6

NOTE C - MERGER AGREEMENT

Effective July 1, 2000, all of the assets and certain liabilities of Circuit Technology Corporation (Circuit) were acquired by CTI Systems, Inc. (CTISI), a wholly owned subsidiary of Vermillion Ventures, Inc. (VVI). Circuit received 10,000,000 shares of VVI common stock in the transaction of which 800,000 shares were paid by Circuit to Cogent Capital Corp. for services performed in facilitating the transaction. CTISI subsequently changed its name to CirTran Corporation.

The merger was accounted for as a reverse acquisition of CirTran Corporation by Circuit. Although CirTran Corporation will be the surviving legal entity, for accounting purposes Circuit was treated as the continuing entity. The equity at March 31, 2000 was adjusted to give affect to this reverse acquisition.

Edgar Filing: CIRTRAN CORP - Form 10QSB

NOTE D - LITIGATION

Circuit is a defendant in an alleged breach of a facilities sublease agreement in Colorado. A lawsuit was filed in which the plaintiff seeks to recover past due rent, future rent, and other lease charges. The range of potential loss is estimated at between \$0 and \$2,500,000. The wide range is due to two rent calculation methods written in the master lease. Under one calculation, the amount would be minimal. Under the other calculation, the amount would represent all future rent (reduced by rent received from future tenants). Currently, a new tenant on a short-term lease occupies the premises. This new tenant's lease includes rent at two times the monthly rate of the original lease under suit. Circuit has also filed a countersuit against the landlord for missing equipment. The amount of the countersuit claim exceeds \$500,000.

Circuit is also the defendant in numerous legal actions primarily resulting from nonpayment of vendors for goods and services received. Circuit has accrued the payables and is currently in the process of negotiating settlements with these vendors.

7

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

CirTran Corporation provides a mixture of high and medium size volume turnkey manufacturing services using surface mount technology (SMT), ball-grid array (BGA) assembly, pin-through-hole (PTH) and custom injection molded cabling for leading electronics OEMs in the communications, networking, peripherals, gaming, consumer products, telecommunications, automotive, medical, and semiconductor industries. CirTran provides a wide variety of pre-manufacturing, manufacturing and post-manufacturing services. Through its subsidiary, Racore Technology Corporation, CirTran designs, manufactures, and markets high performance Local Area Network products with emphasis on Fiber Optics and 10/100 Ethernet technologies. Our goal is to offer customers the significant competitive advantages that can be obtained from manufacture outsourcing, such as access to advanced manufacturing technologies, shortened product time-to-market, reduced cost of production, more effective asset utilization, improved inventory management, and increased purchasing power.

Results of Operations

Net Sales decreased 10.7% to \$650,485 for the three months ended March 31, 2001 as compared to \$728,537 for the same period in 2000. The decrease is due to a shift in our marketing effort to focus on small and mid-sized customers that place orders of 100 to 5,000 pieces, which produce a higher gross profit, rather

Edgar Filing: CIRTRAN CORP - Form 10QSB

than large volume sales with low gross profit. Cost of sales for the three-month period ended March 31, 2001, was \$460,401, a 73.7% decrease as compared to \$1,749,105 incurred during the comparable three-month period for the prior year. Such costs as a percentage of revenue were 70.8% during 2001 as compared to 240.1% during 2000. This redirection of Cirtran's marketing effort resulted in a gross profit of \$190,084 for the three months ended March 31, 2001, as compared to a gross loss of \$1,020,568 for the three months ended March 31, 2000.

CirTran uses just-in-time manufacturing, which is a production technique that minimizes work-in-process inventory and manufacturing cycle time while enabling the Company to deliver products to customers in the quantities and time frame required. This manufacturing technique requires Cirtran to maintain an inventory of component parts to meet customer orders. Inventory at March 31, 2001, was \$2,084,067 as compared to \$2,056,686 at March 31, 2000. Management believes the amount of its inventory that may be considered obsolete or slow moving is properly reserved and that Cirtran will be able to maintain a gross profit of at least 15% through the remainder of 2001 based on current prices for assembled circuit boards and the cost of inventory.

During the three-month period ended March 31, 2001, selling, general and administrative expenses were \$645,153, versus \$583,409 for the comparable period in 2000, a 10.6% increase. The increase is attributable to increased interest expense and professional fees. Interest expense for the three months ended March 31, 2001, was \$110,054 as compared to \$2,247 for the comparable period in 2000. The substantial increase in interest expense is attributable to the restructuring during the last calendar quarter of 2000 of Citran's accounts payable accrued in 2000 to installment obligations bearing interest.

8

As a result of the above factors, the overall net loss decreased 63.1% to \$580,373 for the three months ended March 31, 2001, as compared to \$1,573,791 for the three months ended March 31, 2000.

Liquidity and Capital Resources

Cirtran's current ratio at March 31, 2001 was 0.37:1 and at March 31, 2000, was 0.41:1. The primary reason for the change was the reduction of trade accounts receivable from \$883,825 at March 31, 2000, to \$554,743 at March 31, 2001. Cirtran had a working capital deficit of \$4,749,518 at March 31, 2001, and has recognized a net loss from operations through 2000 and the first three months of 2001. These factors raise substantial doubt about the ability of Cirtran to continue as a going concern.

To address this issue, CirTran plans on working with vendors to convert approximately 72 percent of trade payables into long-term notes and common stock and cure defaults with lenders through forbearance agreements that the Company will be able to service. Also, Abacus Ventures, Inc., purchased the Company's line of credit from the lending institution and, based on certain criteria, has indicated its willingness to exchange the debt for common stock. If successful, these plans will add significant equity to the Company. During the last six months of 2000,

Edgar Filing: CIRTRAN CORP - Form 10QSB

CirTran successfully extended payment terms on \$940,000 of trade payables to monthly installment obligations with interest accruing at the rate of 8% per annum. It settled \$646,283 of trade payables with another creditor by paying \$83,000 in cash, issuing a non-interest bearing note in the principal amount of \$166,000 due in two installments in December 2000 and March 2001 (which has been paid), issuing a promissory note in the principal amount of \$73,000 bearing interest at 6% per annum payable in 18 monthly installments, and converting the remaining \$324,283 to 352,070 shares of common stock. CirTran will continue to pursue these restructuring efforts to improve its financial condition, but there is no assurance that management will be successful in these efforts.

Year 2000 Compliance

Cirtran experienced no significant disruptions in mission critical information technology and manufacturing systems and believes those systems successfully responded to the Year 2000 date change. The costs associated with Year 2000 compliance were nominal. Cirtran is not aware of any material problems resulting from Year 2000 issues with its internal systems or the services of third parties. Cirtran will continue to monitor its mission critical computer applications and those of its supplier and vendors throughout the year to ensure that any latent Year 2000 matters that may arise are addressed properly.

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1985 provides a safe harbor for forward-looking statements made by Cirtran, except where such statements are made in connection with an initial public offering. All statements, other than statements of historical fact, which address activities, actions, goals, prospects, or new developments that Cirtran expects or anticipates will or may occur in the future, including such things as improvement in results of operations and other such matters are forward-looking statements. Any one or a combination of factors could materially affect Cirtran's operations and financial condition. These factors include competitive pressures, success or failure of marketing programs, changes in pricing and availability of parts inventory, creditor actions, and conditions in the capital markets. Forward-looking statements made by Cirtran are based on knowledge of its business and the environment in which it operates as of the date of this report.

9

Because of the factors listed above, as well as other factors beyond its control, actual results may differ from those in the forward-looking statements.
