#### NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

#### 1. CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of management, the unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the consolidated financial position of American River Bankshares (the "Company") at September 30, 2018 and December 31, 2017, the results of its operations and statement of comprehensive income for the three-month and nine-month periods ended September 30, 2018 and 2017 and its statement of changes in shareholders' equity for the nine-month sended September 30, 2018 and 2017 in conformity with accounting principles generally accepted in the United States of America.

Certain disclosures normally presented in the notes to the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The Company believes that the disclosures are adequate to make the information not misleading. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2017. The results of operations for the three-month and nine-month periods ended September 30, 2018 may not necessarily be indicative of the operating results for the full year.

In preparing such financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ significantly from those estimates.

Management has determined that since all of the banking products and services offered by the Company are available in each branch office of American River Bank, all branch offices are located within the same economic environment and management does not allocate resources based on the performance of different lending or transaction activities, it is appropriate to aggregate all of the branch offices and report them as a single operating segment. No client accounts for more than ten percent (10%) of revenues for the Company or American River Bank.

#### 2. STOCK-BASED COMPENSATION

#### **Equity Plans**

On March 17, 2010, the Board of Directors adopted the 2010 Equity Incentive Plan (the "2010 Plan"). The 2010 Plan was approved by the Company's shareholders on May 20, 2010. In 2000, the Board of Directors adopted and the Company's shareholders approved a stock option plan (the "2000 Plan"), under which 18,041 options remain outstanding at September 30, 2018. At September 30, 2018, under the 2010 Plan, there were 31,008 stock options and 41,457 restricted shares outstanding and the total number of authorized shares that remain available for issuance was 1,290,590. The 2010 Plan provides for the following types of stock-based awards: incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, restricted performance stock, unrestricted Company stock, and performance units. Awards under the 2000 Plan were either incentive stock options or nonqualified stock options. Under the 2010 Plan, the awards may be granted to employees and directors under incentive and nonqualified option agreements, restricted stock agreements, and other awards agreements. The unvested restricted stock under the 2010 Plan have dividend and voting rights. The 2010 Plan and the 2000 Plan (collectively the "Plans") require that the option price may not be less than the fair market value of the stock at the date the option is awarded. The option awards under the Plans expire on dates determined by the Board of Directors, but not later than ten years from the date of award. The vesting period is generally five years; however, the vesting period can be modified at the discretion of the Company's Board of Directors. Outstanding option awards under the Plans are exercisable until their expiration, however, no new options may be awarded under the 2000 Plan. New shares are issued upon exercise of an option.

The award date fair value of awards is determined by the market price of the Company's common stock on the date of award and is recognized ratably as compensation expense or director expense over the vesting periods. The shares of common stock awarded pursuant to such agreements vest in increments over one to five years from the date of award. The shares awarded to employees and directors under the restricted stock agreements vest on the applicable vesting dates only to the extent the recipient of the shares is then an employee or a director of the Company or one of its subsidiaries, and each recipient will forfeit all of the shares that have not vested on the date his or her employment or service is terminated.

#### **Other Equity Awards**

There were no stock appreciation rights, restricted performance stock, unrestricted Company stock, or performance units awarded during the three-month or nine-month month periods ended September 30, 2018 or 2017 or outstanding at September 30, 2018 or December 31, 2017.

The intrinsic value used for stock options and restricted stock awards was derived from the market price of the Company's common stock of \$15.32 as of September 30, 2018.

## 3. COMMITMENTS AND CONTINGENCIES

In the normal course of business there are outstanding various commitments to extend credit which are not reflected in the financial statements, including loan commitments of approximately \$30,266,000 and standby letters of credit of approximately \$121,000 at September 30, 2018 and loan commitments of approximately \$10,923,000 and standby letters of credit of approximately \$121,000 at December 31, 2017. Such commitments relate primarily to real estate construction loans, revolving lines of credit and other commercial loans. However, all such commitments will not necessarily culminate in actual extensions of credit by the Company during 2018 as some of these are expected to expire without being fully drawn upon.

Standby letters of credit are commitments issued to guarantee the performance or financial obligation of a client to a third party. These guarantees are issued primarily relating to purchases of inventory, insurance programs, performance obligations to government agencies, or as security for real estate rents by commercial clients and are typically short-term in nature. Credit risk is similar to that involved in extending loan commitments to clients and accordingly, evaluation and collateral requirements similar to those for loan commitments are used. The majority of all such commitments are collateralized. The fair value of the liability related to these standby letters of credit, which represents the fees received for issuing the guarantees, was not significant at September 30, 2018 or December 31, 2017.

#### 4. EARNINGS PER SHARE COMPUTATION

Basic earnings per share is computed by dividing net income by the weighted average common shares outstanding for the period (5,823,345 and 5,886,977 shares for the three-month and nine-month periods ended September 30, 2018, and 6,299,914 and 6,402,647 shares for the three-month and nine-month periods ended September 30, 2017). Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options or restricted stock, result in the issuance of common stock. Diluted earnings per share is computed by dividing net income by the weighted average common shares outstanding for the period plus the dilutive effect of stock based awards. There were 41,482 and 38,700, respectively, dilutive shares for the three-month and nine-month periods ended September 30, 2018 and 66,118 and 78,922, respectively, dilutive shares for the three-month and nine-month periods ended September 30, 2017. For the three-month periods ended September 30, 2018 and 2017, there were zero and 32,448 stock options, respectively, that were excluded from the calculation as they were considered antidilutive. For the nine-month periods ended September 30, 2018 and 2017, there were zero and 32,448 stock options, respectively, if applicable, for all periods presented.

There were no held-to-maturity investment securities with unrealized losses as of September 30, 2018 or December 31, 2017. At September 30, 2018, the Company held 218 securities of which 79 were in a loss position for less than

twelve months and 71 were in a loss position for twelve months or more. Of the 79 securities in a loss position for less than twelve months, 70 were U.S. Government Agencies and Sponsored Entities securities, six were obligations of states or political subdivisions, two were US treasuries, and one was a corporate bond and of the 71 securities that were in a loss position for greater than twelve months, 65 were U.S. Government Agencies and Sponsored Entities securities, six were obligations of states or political subdivisions, and one was a corporate bond.

At December 31, 2017, the Company held 217 securities of which 64 were in a loss position for less than twelve months and 35 were in a loss position for twelve months or more. Of the 35 securities in a loss position for greater than twelve months at December 31, 2017, four were municipal securities and 31 were US Government Agencies and Sponsored Agencies securities.

The unrealized loss on the Company's investment securities is primarily driven by interest rates. Because the decline in market value is attributable to a change in interest rates and not credit quality, and because the Company has the ability and intent to hold these investments until recovery of fair value, which may be until maturity, management does not consider these investments to be other-than-temporarily impaired.

The amortized cost and estimated fair values of investment securities at September 30, 2018 by contractual maturity are shown below (dollars in thousands).

#### 7. TROUBLED DEBT RESTRUCTURINGS

During the three and nine-month periods ended September 30, 2018, there was one \$18,000 commercial loan that was modified as a troubled debt restructuring. The loan was a term out of a line of credit to an amortizing loan with a rate reduction. During the three and nine-month periods ended September 30, 2017, there was one loan that was modified as a troubled debt restructuring. The modification of the terms of the loan included a reduction of the stated interest rate for eighteen months according to a bankruptcy court-order as part of a debtor-in-possession financing agreement. The loan had a pre-modification and post-modification outstanding recorded investment of \$2,692,000. After principal payments of \$57,000 and charge-downs of \$1,073,000, the June 30, 2018 balance was \$1,562,000. Subsequent to modification the loan went into payment default. During the third quarter of 2018 the loan was written-down by an additional \$213,000 and sold with no further loss. There were no payment defaults on troubled debt restructurings within 12 months following the modification for the three-month and nine-month periods ended September 30, 2018 and December 31, 2017, there were no unfunded commitments on those loans considered troubled debt restructures.
