UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016
or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-13779

W. P. CAREY INC.

(Exact name of registrant as specified in its charter)

Maryland

45-4549771

(State of incorporation)

(I.R.S. Employer Identification No.)

50 Rockefeller Plaza

New York, New York

10020

(Address of principal executive offices) (Zip Code)

Investor Relations (212) 492-8920

(212) 492-1100

(Registrant's telephone numbers, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Registrant has 106,280,575 shares of common stock, \$0.001 par value, outstanding at October 28, 2016.

Forward-Looking Statements

This Quarterly Report on Form 10-Q, or this Report, including Management’s Discussion and Analysis of Financial Condition and Results of Operations in Item 2 of Part I of this Report, contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements generally are identified by the words “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “plan,” “may,” “should,” “will,” “would,” “will be,” “will likely result,” and similar expressions. These forward-looking statements include, but are not limited to, statements regarding: capital markets; tenant credit quality; the general economic outlook; our expected range of Adjusted funds from operations, or AFFO; our corporate strategy; our capital structure; our portfolio lease terms; our international exposure and acquisition volume, including the effects of the United Kingdom’s referendum to approve an exit from the European Union; our expectations about tenant bankruptcies and interest coverage; statements regarding estimated or future economic performance and results, including our underlying assumptions, occupancy rate, credit ratings, and possible new acquisitions and dispositions by us and our investment management programs; the Managed Programs discussed herein, including their earnings; statements that we make regarding our ability to remain qualified for taxation as a real estate investment trust, or REIT; the impact of a recently-issued pronouncement regarding accounting for leases; the amount and timing of any future dividends; our existing or future leverage and debt service obligations; our ability to sell shares under our “at the market” program and the use of proceeds from that program; our future prospects for growth; our projected assets under management; our future capital expenditure levels; our future financing transactions; our estimates of growth; and our plans to fund our future liquidity needs. These statements are based on the current expectations of our management. It is important to note that our actual results could be materially different from those projected in such forward-looking statements. There are a number of risks and uncertainties that could cause actual results to differ materially from these forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on our business, financial condition, liquidity, results of operations, AFFO, and prospects. You should exercise caution in relying on forward-looking statements as they involve known and unknown risks, uncertainties, and other factors that may materially affect our future results, performance, achievements or transactions. Information on factors that could impact actual results and cause them to differ from what is anticipated in the forward-looking statements contained herein is included in this Report as well as in our other filings with the Securities and Exchange Commission, or the SEC, including but not limited to those described in Item

1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2015, as filed with the SEC on February 26, 2016, or the 2015 Annual Report, and in our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2016, as filed with the SEC on August 4, 2016. Moreover, because we operate in a very competitive and rapidly-changing environment, new risks are likely to emerge from time to time. Given these risks and uncertainties, potential investors are cautioned not to place undue reliance on these forward-looking statements as a prediction of future results, which speak only as of the date of this Report, unless noted otherwise. Except as required by federal securities laws and the rules and regulations of the SEC, we do not undertake to revise or update any forward-looking statements.

W. P. Carey 9/30/2016 10-Q – 1

All references to “Notes” throughout the document refer to the footnotes to the consolidated financial statements of the registrant in Part I, Item 1. Financial Statements (Unaudited).

W. P. CAREY INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1. Business and Organization

W. P. Carey Inc., or W. P. Carey, is, together with its consolidated subsidiaries, a REIT that provides long-term financing via sale-leaseback and build-to-suit transactions for companies worldwide and manages a global investment portfolio. We invest primarily in commercial properties domestically and internationally. We earn revenue principally by leasing the properties we own to single corporate tenants, primarily on a triple-net lease basis, which generally requires each tenant to pay substantially all of the costs associated with operating and maintaining the property.

Originally founded in 1973, we reorganized as a REIT in September 2012 in connection with our merger with Corporate Property Associates 15 Incorporated. We refer to that merger as the CPA[®]:15 Merger. On January 31, 2014, Corporate Property Associates 16 – Global Incorporated, or CPA[®]:16 – Global, merged with and into us, which we refer to as the CPA[®]:16 Merger. Our shares of common stock are listed on the New York Stock Exchange under the symbol “WPC.”

We have elected to be taxed as a REIT under Section 856 through 860 of the Internal Revenue Code. As a REIT, we are not generally subject to United States federal income taxation other than from our taxable REIT subsidiaries, or TRSs, as long as we satisfy certain requirements, principally relating to the nature of our income and the level of our distributions, as well as other factors. We hold all of our real estate assets attributable to our Owned Real Estate segment under the REIT structure, while the activities conducted by our Investment Management segment subsidiaries have been organized under TRSs.

Through our TRSs, we also earn revenue as the advisor to publicly owned, non-listed REITs, which are sponsored by us under the Corporate Property Associates, or CPA[®], brand name and invest in similar properties. At September 30, 2016, we were the advisor to Corporate Property Associates 17 – Global Incorporated, or CPA[®]:17 – Global, and Corporate Property Associates 18 – Global Incorporated, or CPA[®]:18 – Global. We refer to CPA[®]:17 – Global and CPA[®]:18 – Global together as the CPA[®] REITs. At September 30, 2016, we were also the advisor to Carey Watermark Investors Incorporated, or CWI 1, and Carey Watermark Investors 2 Incorporated, or CWI 2, two publicly owned, non-listed REITs that invest in lodging and lodging-related properties. We refer to CWI 1 and CWI 2 together as the CWI REITs and, together with the CPA[®] REITs, as the Managed REITs (Note 3). At September 30, 2016, we also served as the advisor to Carey Credit Income Fund, or CCIF, a business development company, or BDC, and three feeder funds of CCIF, or the CCIF Feeder Funds, which are also BDCs (Note 6). In May 2016, one of the CCIF Feeder Funds, Carey Credit Income Fund 2017 T, filed a registration statement on Form N-2 with the SEC to sell up to 106,382,978 shares of its beneficial interest in an initial public offering, with the proceeds to be invested in shares of CCIF. The registration statement was declared effective by the SEC in October 2016 but fundraising has not yet commenced. We refer to CCIF and the CCIF Feeder Funds collectively as the Managed BDCs. At September 30, 2016, we were also the advisor to Carey European Student Housing Fund I, L.P., or CESH I, a limited partnership we formed for the purpose of developing, owning, and operating student housing properties and similar investments in Europe. We refer to the Managed REITs, Managed BDCs, and CESH I collectively as the Managed Programs.

On May 4, 2016, we filed a registration statement with the SEC for Corporate Property Associates 19 – Global Incorporated, or CPA[®]:19 – Global, a diversified non-traded REIT, for a capital raise of up to \$2.0 billion, which includes \$500.0 million of shares allocated to CPA[®]:19 – Global’s distribution reinvestment plan. CPA[®]:19 – Global’s registration statement remains subject to review by the SEC and state securities regulators, so there can be no assurances as to whether or when the related offering will commence. Through September 30, 2016, the financial activity of CPA[®]:19 – Global, which has no significant assets, liabilities, or operations, was included in our consolidated financial statements. We will continue to consolidate the financial activity of CPA[®]:19 – Global until the

point at which it has sufficient equity to finance its operations.

Reportable Segments

Owned Real Estate — We own and invest in commercial properties principally in the United States, Europe, Australia, and Asia that are then leased to companies, primarily on a triple-net lease basis. We have also invested in several operating properties, such as lodging and self-storage properties. We earn lease revenues from our wholly-owned and co-owned real estate investments that we control. In addition, we generate equity income through co-owned real estate investments that we do not control and through our ownership of shares of the Managed Programs (Note 6). Through our special member interests in the operating partnerships of the Managed REITs, we also participate in their cash flows (Note 3). At September 30, 2016, our owned portfolio was comprised of our full or partial ownership interests in 910 properties, totaling approximately 91.8 million square feet, substantially all of which were net leased to 222 tenants, with an occupancy rate of 99.1%.

W. P. Carey 9/30/2016 10-Q – 9

Notes to Consolidated Financial Statements (Unaudited)

Investment Management — Through TRSs, we structure and negotiate investments and debt placement transactions for the Managed REITs, for which we earn structuring revenue, and manage their portfolios of real estate investments, for which we earn asset management revenue. We earn asset management revenue from CCIF based on the average of its gross assets at fair value. We also earn asset management revenue from CESH I based on gross assets at fair value as determined on the last day of each calendar quarter. We may earn disposition revenue when we negotiate and structure the sale of properties on behalf of the Managed REITs, and we may also earn incentive revenue and receive other compensation through our advisory agreements with certain of the Managed Programs, including in connection with providing liquidity events for the Managed REITs' stockholders. At September 30, 2016, CPA[®]:17 – Global and CPA[®]:18 – Global collectively owned all or a portion of 439 properties, including certain properties in which we have an ownership interest. Substantially all of these properties, totaling approximately 50.1 million square feet, were net leased to 210 tenants, with an average occupancy rate of approximately 99.7%. The Managed REITs and CESH I also had interests in 156 operating properties, totaling approximately 19.6 million square feet, in the aggregate. We continue to explore alternatives for expanding our investment management operations beyond advising the existing Managed Programs. Any such expansion could involve the purchase of properties or other investments as principal, either for our owned portfolio or with the intention of transferring such investments to a newly-created fund. These new funds could invest primarily in assets other than net-lease real estate and could include funds raised through private placements, such as CESH I, or publicly traded vehicles, either in the United States or internationally.

Note 2. Basis of Presentation

Basis of Presentation

Our interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not necessarily include all information and footnotes necessary for a fair statement of our consolidated financial position, results of operations, and cash flows in accordance with generally accepted accounting principles in the United States, or GAAP.

In the opinion of management, the unaudited financial information for the interim periods presented in this Report reflects all normal and recurring adjustments necessary for a fair statement of financial position, results of operations, and cash flows. Our interim consolidated financial statements should be read in conjunction with our audited consolidated financial statements and accompanying notes for the year ended December 31, 2015, which are included in the 2015 Annual Report, as certain disclosures that would substantially duplicate those contained in the audited consolidated financial statements have not been included in this Report. Operating results for interim periods are not necessarily indicative of operating results for an entire year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in our consolidated financial statements and the accompanying notes. Actual results could differ from those estimates.

Basis of Consolidation

Our consolidated financial statements reflect all of our accounts, including those of our controlled subsidiaries and our tenancy-in-common interest as described below. The portions of equity in consolidated subsidiaries that are not attributable, directly or indirectly, to us are presented as noncontrolling interests. All significant intercompany accounts and transactions have been eliminated.

On January 1, 2016, we adopted the Financial Accounting Standards Board's, or FASB's, Accounting Standards Update, or ASU, 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis, as described in the

Recent Accounting Pronouncements section below, which amends the current consolidation guidance, including introducing a separate consolidation analysis specific to limited partnerships and other similar entities. When we obtain an economic interest in an entity, we evaluate the entity to determine if it should be deemed a variable interest entity, or VIE, and, if so, whether we are the primary beneficiary and are therefore required to consolidate the entity. We apply accounting guidance for consolidation of VIEs to certain entities in which the equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. Fixed price purchase and renewal options within a lease, as well as certain decision-making rights within a loan or joint-venture agreement, can cause us to consider an entity a VIE. Limited partnerships and other similar entities that operate as a partnership will be considered a VIE unless the limited partners hold substantive kick-out rights or participation rights. Significant judgment is required to determine whether a VIE should be consolidated. We review the contractual arrangements provided for in the partnership agreement or other related contracts to determine whether the entity is considered a VIE, and to

W. P. Carey 9/30/2016 10-Q – 10

Notes to Consolidated Financial Statements (Unaudited)

establish whether we have any variable interests in the VIE. We then compare our variable interests, if any, to those of the other variable interest holders to determine which party is the primary beneficiary of the VIE based on whether the entity (i) has the power to direct the activities that most significantly impact the economic performance of the VIE and (ii) has the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE. We performed this analysis on all of our subsidiary entities following the guidance in ASU 2015-02 to determine whether they qualify as VIEs and whether they should be consolidated or accounted for as equity investments in an unconsolidated venture. As a result of this change in guidance, we determined that 13 entities that were previously classified as voting interest entities should now be classified as VIEs as of January 1, 2016 and therefore included in our VIE disclosures. However, there was no change in determining whether or not we consolidate these entities as a result of the new guidance. We elected to retrospectively adopt ASU 2015-02, which resulted in changes to our VIE disclosures within the consolidated balance sheets. There were no other changes to our consolidated balance sheets or results of operations for the periods presented. The liabilities of these VIEs are non-recourse to us and can only be satisfied from each VIE's respective assets.

At September 30, 2016, we considered 33 entities VIEs, 26 of which we consolidated as we are considered the primary beneficiary. The following table presents a summary of selected financial data of the consolidated VIEs included in the consolidated balance sheets (in thousands):

	September 30, 2016	December 31, 2015
Net investments in properties	\$ 874,736	\$ 890,454
Net investments in direct financing leases	61,672	61,454
In-place lease and tenant relationship intangible assets, net	206,908	214,924
Above-market rent intangible assets, net	75,570	80,901
Total assets	1,268,451	1,297,276
Non-recourse debt, net	\$ 425,706	\$ 439,285
Total liabilities	570,170	590,596

At September 30, 2016 and December 31, 2015, our seven unconsolidated VIEs included our interests in six unconsolidated real estate investments and one unconsolidated entity among our interests in the Managed Programs, all of which we account for under the equity method of accounting. We do not consolidate these entities because we are not the primary beneficiary and the nature of our involvement in the activities of these entities allows us to exercise significant influence but does not give us power over decisions that significantly affect the economic performance of these entities. As of September 30, 2016 and December 31, 2015, the net carrying amount of our investments in these entities was \$153.6 million and \$154.8 million, respectively, and our maximum exposure to loss in these entities was limited to our investments.

At September 30, 2016, we had an investment in a tenancy-in-common interest in various underlying international properties. Consolidation of this investment is not required as such interest does not qualify as a VIE and does not meet the control requirement for consolidation. Accordingly, we account for this investment using the equity method of accounting. We use the equity method of accounting because the shared decision-making involved in a tenancy-in-common interest investment provides us with significant influence on the operating and financial decisions of this investment.

At times, the carrying value of our equity investments may fall below zero for certain investments. We intend to fund our share of the jointly-owned investments' future operating deficits should the need arise. However, we have no legal obligation to pay for any of the liabilities of such investments nor do we have any legal obligation to fund operating deficits. At September 30, 2016, none of our equity investments had carrying values below zero.

On April 20, 2016, we formed a limited partnership, CESH I, for the purpose of developing, owning, and operating student housing properties and similar investments in Europe. CESH I commenced fundraising in July 2016 through a private placement with an initial offering of \$100.0 million and a maximum offering of \$150.0 million. Through August 30, 2016, the financial results and balances of CESH I were included in our consolidated financial statements, and we had collected \$14.2 million of net proceeds from limited partnership units issued in the private placement offering primarily to independent investors. On August 31, 2016, we determined that CESH I had sufficient equity to finance its operations, and as a result we deconsolidated CESH I and began to account for our interest in it at fair value by electing the equity method fair value option available under U.S. GAAP. As of August 31, 2016, CESH I had assets totaling \$30.3 million on our consolidated balance sheet, including \$14.9 million in Other assets, net and \$15.4 million in Cash and cash equivalents. In connection with the deconsolidation, we recorded offsetting amounts of \$14.2 million for the nine months ended September 30, 2016 in

W. P. Carey 9/30/2016 10-Q – 11

Notes to Consolidated Financial Statements (Unaudited)

Contributions from noncontrolling interests and Deconsolidation of affiliate in the consolidated statements of equity, and in Proceeds from limited partnership units issued by affiliates and Deconsolidation of affiliate in the consolidated statements of cash flows. We recognized a gain on deconsolidation of \$1.9 million, which is included in Other income and (expenses) in the consolidated statements of income for the three and nine months ended September 30, 2016. The deconsolidation did not have a material impact on our financial position or results of operations. Following the deconsolidation, we continued to serve as advisor to CESH I (Note 3).

As of September 30, 2016, CPA[®]:19 – Global had not yet commenced fundraising through its offering. Therefore, we included the financial activity of CPA[®]:19 – Global in our consolidated financial statements and eliminated all intercompany accounts and transactions in consolidation. For the three and nine months ended September 30, 2016, the consolidated results of operations from CPA[®]:19 – Global were insignificant. All assets and liabilities of CPA[®]:19 – Global were insignificant as of September 30, 2016.

Out-of-Period Adjustments

During the second quarter of 2016, we identified and recorded out-of-period adjustments related to adjustments to prior period income tax returns. We concluded that these adjustments were not material to our consolidated financial statements for any of the current or prior periods presented. The net adjustment is reflected as a \$3.0 million reduction of our Benefit from income taxes in the consolidated statements of income for the nine months ended September 30, 2016, with a net increase to Accounts payable, accrued expenses and other liabilities and Accumulated other comprehensive loss in the consolidated balance sheet as of September 30, 2016.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation.

During the year ended December 31, 2015, we determined that our presentation of common shares repurchased should be classified as a reduction to Common stock, for the par amount of the common shares repurchased, Additional paid-in capital, and Distributions in excess of accumulated earnings, and included as shares unissued within the consolidated financial statements. We previously classified common shares repurchased as Treasury stock in the consolidated financial statements. We evaluated the impact of this correction on previously-issued financial statements and concluded that they were not materially misstated. In order to conform previously-issued financial statements to the current period, we elected to revise previously-issued financial statements the next time such financial statements are filed to include the elimination of Treasury stock of \$60.9 million, with corresponding reductions of Common stock and Additional paid-in capital of \$28.8 million, and Distributions in excess of accumulated earnings of \$32.1 million as of September 30, 2015. These revisions resulted in no change in Total equity within the consolidated balance sheet as of September 30, 2015 and the consolidated statement of equity for the nine months ended September 30, 2015. The accompanying consolidated statement of equity for the nine months ended September 30, 2015 has been revised accordingly. The misclassification had no impact on the previously-reported consolidated statements of income, consolidated statements of comprehensive income, or consolidated statements of cash flows.

On January 1, 2016, we adopted ASU 2015-03, Interest-Imputation of Interest (Subtopic 835-30) as described in the Recent Accounting Pronouncements section below. ASU 2015-03 changes the presentation of debt issuance costs, which were previously recognized as an asset and requires that they be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. As a result of adopting this guidance, we reclassified \$12.6 million of deferred financing costs, net from Other assets, net to Non-recourse debt, net, Senior Unsecured Notes, net, and Senior Unsecured Credit Facility - Term Loan, net as of December 31, 2015.

W. P. Carey 9/30/2016 10-Q – 12

Notes to Consolidated Financial Statements (Unaudited)

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 does not apply to our lease revenues, but will apply to reimbursed tenant costs and revenues generated from our operating properties and our Investment Management business. Additionally, this guidance modifies disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, the FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 for all entities by one year, beginning in 2018, with early adoption permitted but not before 2017, the original public company effective date. We are currently evaluating the impact of ASU 2014-09 on our consolidated financial statements and have not yet determined the method by which we will adopt the standard.

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810). ASU 2015-02 amends the current consolidation guidance, including modification of the guidance for evaluating whether limited partnerships and similar legal entities are VIEs or voting interest entities. The guidance does not amend the existing disclosure requirements for VIEs or voting interest model entities. The guidance, however, modified the requirements to qualify under the voting interest model. Under the revised guidance, ASU 2015-02 requires an entity to classify a limited liability company or a limited partnership as a VIE unless the partnership provides partners with either substantive kick-out rights or substantive participating rights over the managing member or general partner. Please refer to the discussion in the Basis of Consolidation section above.

In April 2015, the FASB issued ASU 2015-03, Interest-Imputation of Interest (Subtopic 835-30). ASU 2015-03 changes the presentation of debt issuance costs, which were previously recognized as an asset, and requires that they be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. ASU 2015-03 does not affect the recognition and measurement guidance for debt issuance costs. ASU 2015-03 is effective for periods beginning after December 15, 2015, and retrospective application is required. We adopted ASU 2015-03 on January 1, 2016 and have disclosed the reclassification of our debt issuance costs in the Reclassifications section above.

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805). ASU 2015-16 eliminates the requirement that an acquirer in a business combination account for measurement period adjustments retrospectively. Instead, an acquirer will recognize a measurement period adjustment during the period in which it determines the amount of the adjustment, including the effect on earnings of any amounts it would have recorded in previous periods if the accounting had been completed at the acquisition date. ASU 2015-16 is effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years, early adoption is permitted and prospective application is required for adjustments that are identified after the effective date of this update. We elected to early adopt ASU 2015-16 and implemented the standard prospectively beginning July 1, 2015. The adoption and implementation of the standard did not have a material impact on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). ASU 2016-02 outlines a new model for accounting by lessees, whereby their rights and obligations under substantially all leases, existing and new, would be capitalized and recorded on the balance sheet. For lessors, however, the accounting remains largely unchanged from the current model, with the distinction between operating and financing leases retained, but updated to align with certain changes to the lessee model and the new revenue recognition standard. The new standard also replaces existing sale-leaseback guidance with a new model applicable to both lessees and lessors. Additionally, the new standard requires extensive quantitative and qualitative disclosures. ASU 2016-02 is effective for U.S. GAAP public companies for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years; for all other

entities, the final lease standard will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early application will be permitted for all entities. The new standard must be adopted using a modified retrospective transition of the new guidance and provides for certain practical expedients. Transition will require application of the new model at the beginning of the earliest comparative period presented. We are evaluating the impact of the new standard and have not yet determined if it will have a material impact on our business or our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-05, Derivatives and Hedging (Topic 815): Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships. ASU 2016-05 clarifies that a change in counterparty to a derivative contract, in and of itself, does not require the dedesignation of a hedging relationship. ASU 2016-05 is effective for fiscal years beginning after December 15, 2016, including interim periods within those years. Early adoption is permitted and entities have the option of adopting this guidance on a prospective basis to new derivative contracts or on a modified retrospective basis. We elected to

W. P. Carey 9/30/2016 10-Q – 13

Notes to Consolidated Financial Statements (Unaudited)

early adopt ASU 2016-05 on January 1, 2016 on a prospective basis, and there was no impact on our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-07, Investments – Equity Method and Joint Ventures (Topic 323). ASU 2016-07 simplifies the transition to the equity method of accounting. ASU 2016-07 eliminates the requirement to apply the equity method of accounting retrospectively when a reporting entity obtains significant influence over a previously held investment. Instead the equity method of accounting will be applied prospectively from the date significant influence is obtained. The new standard should be applied prospectively for investments that qualify for the equity method of accounting in interim and annual periods beginning after December 15, 2016. Early adoption is permitted, and we elected to early adopt this standard as of January 1, 2016. The adoption of this standard had no impact on our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 amends Accounting Standards Codification Topic 718, Compensation-Stock Based Compensation to simplify various aspects of how share-based payments are accounted for and presented in the financial statements including (i) reflecting income tax effects of share-based payments through the income statement, (ii) allowing statutory tax withholding requirements at the employees' maximum individual tax rate without requiring awards to be classified as liabilities and (iii) permitting an entity to make an accounting policy election for the impact of forfeitures on the recognition of expense. ASU 2016-09 is effective for public business entities for annual reporting periods beginning after December 15, 2016, and interim periods within that reporting period, with early adoption permitted. We are in the process of evaluating the impact of adopting ASU 2016-09 on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses. ASU 2016-13 introduces a new model for estimating credit losses for certain types of financial instruments, including loans receivable, held-to-maturity debt securities, and net investments in direct financing leases, amongst other financial instruments. ASU 2016-13 also modifies the impairment model for available-for-sale debt securities and expands the disclosure requirements regarding an entity's assumptions, models, and methods for estimating the allowance for losses. ASU 2016-13 will be effective for public business entities in fiscal years beginning after December 15, 2019, including interim periods within those fiscal years, with early application of the guidance permitted. We are in the process of evaluating the impact of adopting ASU 2016-13 on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 intends to reduce diversity in practice for certain cash flow classifications, including, but not limited to (i) debt prepayment or debt extinguishment costs, (ii) contingent consideration payments made after a business combination, (iii) proceeds from the settlement of insurance claims, and (iv) distributions received from equity method investees. ASU 2016-15 will be effective for public business entities in fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, with early application of the guidance permitted. We are in the process of evaluating the impact of adopting ASU 2016-15 on our consolidated financial statements.

In October 2016, the FASB issued ASU 2016-17, Consolidation (Topic 810): Interests Held through Related Parties That Are under Common Control. ASU 2016-17 changes how a reporting entity that is a decision maker should consider indirect interests in a VIE held through an entity under common control. If a decision maker must evaluate whether it is the primary beneficiary of a VIE, it will only need to consider its proportionate indirect interest in the VIE held through a common control party. ASU 2016-17 amends ASU 2015-02, which we adopted on January 1, 2016, and which currently directs the decision maker to treat the common control party's interest in the VIE as if the decision maker held the interest itself. ASU 2016-17 will be effective for public business entities in fiscal years

beginning after December 15, 2016, including interim periods within those fiscal years, with early adoption permitted. We are in the process of evaluating the impact of adopting ASU 2016-17 on our consolidated financial statements.

Note 3. Agreements and Transactions with Related Parties

Advisory Agreements with the Managed Programs

We have advisory agreements with each of the Managed Programs, pursuant to which we earn fees and are entitled to receive reimbursement for fund management expenses, as well as cash distributions. We also earn fees for serving as the dealer-manager of the offerings of the Managed Programs. The advisory agreements with each of the Managed REITs have terms of one year, may be renewed for successive one-year periods, and are scheduled to expire on December 31, 2016, unless otherwise renewed. The advisory agreement with CCIF, which commenced February 27, 2015, is subject to renewal on or before February 26, 2017. The advisory agreement with CESH I, which commenced June 3, 2016, will continue until terminated pursuant to its terms.

W. P. Carey 9/30/2016 10-Q – 14

Notes to Consolidated Financial Statements (Unaudited)

The following tables present a summary of revenue earned and/or cash received from the Managed Programs for the periods indicated, included in the consolidated financial statements. Asset management revenue excludes amounts received from third parties (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Asset management revenue	\$15,955	\$12,981	\$45,535	\$36,167
Reimbursable costs from affiliates	14,540	11,155	46,372	28,401
Structuring revenue	12,301	8,207	30,990	67,735
Distributions of Available Cash	10,876	10,182	32,018	28,244
Dealer manager fees	1,835	1,124	5,379	2,704
Other advisory revenue	522	—	522	203
Interest income on deferred acquisition fees and loans to affiliates	130	576	492	1,172
	\$56,159	\$44,225	\$161,308	\$164,626

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
CPA [®] :17 – Global	\$16,616	\$17,654	\$51,820	\$59,815

	\$ 51,508	\$ 62,218

Notes to Consolidated Financial Statements (Unaudited)

Asset Management Revenue

Under the advisory agreements with the Managed Programs, we earn asset management revenue for managing their investment portfolios. The following table presents a summary of our asset management fee arrangements with the Managed Programs:

Managed Program	Rate	Payable	Description
CPA [®] :17 – Global	0.5% - 1.75%	50% in cash and 50% in shares of its common stock	Rate depends on the type of investment and is based on the average market or average equity value, as applicable
CPA [®] :18 – Global	0.5% - 1.5%	In shares of its class A common stock	Rate depends on the type of investment and is based on the average market or average equity value, as applicable
CWI 1	0.5%	In cash	Rate is based on the average market value of the investment; we are required to pay 20% of the asset management revenue we receive to the subadvisor
CWI 2	0.55%	In shares of its class A common stock	Rate is based on the average market value of the investment; we are required to pay 25% of the asset management revenue we receive to the subadvisor
CCIF	1.75% - 2.00%	In cash	Based on the average of gross assets at fair value; we are required to pay 50% of the asset management revenue we receive to the subadvisor
CESH I	1.0%	In cash	Based on gross assets at fair value

Incentive Fees

We are entitled to receive a quarterly incentive fee on income from CCIF equal to 100% of quarterly net investment income, before incentive fee payments, in excess of 1.875% of CCIF's average adjusted capital up to a limit of 2.344%, plus 20% of net investment income, before incentive fee payments, in excess of 2.344% of average adjusted capital. We are also entitled to receive from CCIF an incentive fee on realized capital gains of 20%, net of (i) all realized capital losses and unrealized depreciation on a cumulative basis, and (ii) the aggregate amount, if any, of previously paid incentive fees on capital gains since inception.

Notes to Consolidated Financial Statements (Unaudited)

Structuring Revenue

Under the terms of the advisory agreements with the Managed REITs and CESH I, we earn revenue for structuring and negotiating investments and related financing. We do not earn any structuring revenue from the Managed BDCs. The following table presents a summary of our structuring fee arrangements with the Managed REITs and CESH I:

Managed Program	Rate	Payable	Description
CPA [®] :17 – Global	1% - 1.75%, 4.5%	In cash; for non net-lease investments, 1% - 1.75% upon completion; for net-lease investments, 2.5% upon completion, with 2% deferred and payable in three interest-bearing annual installments	Based on the total aggregate cost of the net-lease investments made; also based on the total aggregate cost of the non net-lease investments made; total limited to 6% of the contract prices in aggregate
CPA [®] :18 – Global	4.5%	In cash; for all investments, other than readily marketable real estate securities for which we will not receive any acquisition fees, 2.5% upon completion, with 2% deferred and payable in three interest-bearing annual installments	Based on the total aggregate cost of the investments made; total limited to 6% of the contract prices in aggregate
CWI REITs	2.5%	In cash upon completion	Based on the total aggregate cost of the lodging investments made; loan refinancing transactions up to 1% of the principal amount; we are required to pay 20% and 25% to the subadvisor of CWI 1 and CWI 2, respectively; total for each CWI REIT limited to 6% of the contract prices in aggregate
CESH I	2.0%	In cash upon completion	Based on the total aggregate cost of investments made, including the acquisition, development, construction, or re-development of the investments

Reimbursable Costs from Affiliates

The Managed Programs reimburse us for certain costs that we incur on their behalf, which consist primarily of broker-dealer commissions, marketing costs, an annual distribution and shareholder servicing fee, or Shareholder Servicing Fee, and certain personnel and overhead costs, as applicable. The following tables present summaries of such fee arrangements:

Broker-Dealer Selling Commissions

Managed Program	Rate	Payable	Description
CWI 2 Class A Shares	\$0.70	In cash upon share settlement; 100% re-allowed to broker-dealers	Per share sold
CPA [®] :18 – Global Class C Shares	\$0.14	In cash upon share settlement; 100% re-allowed to broker-dealers	Per share sold; this offering closed in April 2015
CWI 2 Class T Shares	\$0.19	In cash upon share settlement; 100% re-allowed to broker-dealers	Per share sold
CCIF Feeder Funds	0% - 3%	In cash upon share settlement; 100% re-allowed to broker-dealers	Based on the selling price of each share sold
CESH I	Up to 7.0% of gross offering proceeds	In cash upon limited partnership unit settlement; 100% re-allowed to broker-dealers	Based on the selling price of each limited partnership unit sold

W. P. Carey 9/30/2016 10-Q – 17

Notes to Consolidated Financial Statements (Unaudited)

Dealer Manager Fees

Managed Program	Rate	Payable	Description
CWI 2 Class A Shares	\$0.30	Per share sold	In cash upon share settlement; a portion may be re-allowed to broker-dealers
CPA [®] :18 – Global Class C Shares	\$0.21	Per share sold	In cash upon share settlement; a portion may be re-allowed to broker-dealers; this offering closed in April 2015
CWI 2 Class T Shares	\$0.26	Per share sold	In cash upon share settlement; a portion may be re-allowed to broker-dealers
CCIF Feeder Funds	2.75% - 3.0%	Based on the selling price of each share sold	In cash upon share settlement; a portion may be re-allowed to broker-dealers
CESH I	Up to 3.0% of gross offering proceeds	Per limited partnership unit sold	In cash upon limited partnership unit settlement; a portion may be re-allowed to broker-dealers

Annual Distribution and Shareholder Servicing Fee

Managed Program	Rate	Payable	Description
CPA [®] :18 – Global Class C Shares	1.0%	Accrued daily and payable quarterly in arrears in cash; a portion may be re-allowed to selected dealers	Based on the purchase price per share sold or, once it was reported, the net asset value per share; cease paying when underwriting compensation from all sources equals 10% of gross offering proceeds
CWI 2 Class T Shares	1.0%	Accrued daily and payable quarterly in arrears in cash; a portion may be re-allowed to selected dealers	Based on the purchase price per share sold or, once it was reported, the net asset value per share; cease paying on the earlier of six years or when underwriting compensation from all sources equals 10% of gross offering proceeds

Personnel and Overhead Costs

Managed Program	Payable	Description
CPA [®] :17 – Global and CPA [®] :18 – Global	In cash	Personnel and overhead costs, excluding those related to our legal transactions group, our senior management, and our investments team, are charged to the CPA [®] REITs based on the average of the trailing 12-month aggregate reported revenues of the Managed Programs and us, and are capped at 2.2% and 2.4% of each CPA [®] REIT's pro rata lease revenues for 2016 and 2015, respectively; for the legal transactions group, costs are charged according to a fee schedule
CWI 1	In cash	Actual expenses incurred; allocated between the CWI REITs based on the percentage of their total pro rata hotel revenues for the most recently completed quarter
CWI 2	In cash	Actual expenses incurred; allocated between the CWI REITs based on the percentage of their total pro rata hotel revenues for the most recently completed quarter
CCIF and CCIF Feeder Funds	In cash	Actual expenses incurred
CESH I	In cash	Actual expenses incurred

Notes to Consolidated Financial Statements (Unaudited)

Organization and Offering Costs

Managed Program	Payable	Description
CWI 2	In cash; within 60 days after the end of the quarter in which the offering terminates	Actual costs incurred from 1.5% through 4.0% of the gross offering proceeds, depending on the amount raised
CCIF and CCIF Feeder Funds	In cash; payable monthly	Up to 1.5% of the gross offering proceeds
CESH I	N/A	In lieu of reimbursing us for organization and offering costs, CESH I will pay us limited partnership units, as described below under Other Advisory Revenue

For CCIF, total reimbursements to us for personnel and overhead costs and organization and offering costs may not exceed 18% of total Front End Fees, as defined in its Declaration of Trust, so that total funds available for investment may not be lower than 82% of total gross proceeds.

Other Advisory Revenue

Under the limited partnership agreement we have with CESH I, we pay all organization and offering costs regarding CESH I, and instead of being reimbursed by CESH I on a dollar-for-dollar basis for those costs, we receive limited partnership units of CESH I equal to 2.5% of its gross offering proceeds. This revenue is included in Other advisory revenue in the consolidated statements of income and totaled \$0.5 million for both the three and nine months ended September 30, 2016, representing activity following the deconsolidation of CESH I on August 31, 2016 ([Note 2](#)).

Expense Support and Conditional Reimbursements

Under the expense support and conditional reimbursement agreement we have with each of the CCIF Feeder Funds, we and the CCIF subadvisor are obligated to reimburse the CCIF Feeder Funds for 50% of the excess of the cumulative distributions paid to the CCIF Feeder Funds' shareholders over the available operating funds on a monthly basis. Following any month in which the available operating funds exceed the cumulative distributions paid to its shareholders, the excess operating funds are used to reimburse us and the CCIF subadvisor for any expense payment we made within three years prior to the last business day of such months that have not been previously reimbursed by the CCIF Feeder Fund, up to the lesser of (i) 1.75% of each CCIF Feeder Fund's average net assets or (ii) the percentage of each CCIF Feeder Fund's average net assets attributable to its common shares represented by other operating expenses during the fiscal year in which such expense support payment from us and the CCIF's subadvisor was made, provided that the effective rate of distributions per share at the time of reimbursement is not less than such rate at the time of expense payment.

Distributions of Available Cash

We are entitled to receive distributions of up to 10% of the Available Cash (as defined in the respective advisory agreements) from the operating partnerships of each of the Managed REITs, as described in their respective operating partnership agreements, payable quarterly in arrears.

Other Transactions with Affiliates

Loans to Affiliates

Edgar Filing: W. P. Carey Inc. - Form 10-Q

During 2015 and 2014, our board of directors approved unsecured loans from us to CPA[®]:17 – Global of up to \$75.0 million, CPA[®]:18 – Global of up to \$100.0 million, CWI 1 and CWI 2 of up to \$110.0 million in the aggregate, and CCIF of up to \$50.0 million, at our sole discretion, with each loan at a rate equal to the rate at which we are able to borrow funds under our senior credit facility (Note 10), for the purpose of facilitating acquisitions approved by their respective investment committees that they would not otherwise have had sufficient available funds to complete. In April 2016, our board of directors approved unsecured loans from us to CESH I of up to \$35.0 million, under the same terms and for the same purpose.

W. P. Carey 9/30/2016 10-Q – 19

Notes to Consolidated Financial Statements (Unaudited)

During 2015, various loans aggregating \$185.4 million were made to the Managed Programs, all of which were repaid during 2015. All of the loans were made at an interest rate equal to the London Interbank Offered Rate, or LIBOR, as of the issue date, plus 1.1%. During 2015, we arranged credit agreements for each of CPA[®]:17 – Global, CWI 1, and CCIF, and our board of directors terminated its previous authorizations to provide loans to CPA[®]:17 – Global and CWI 1. In January 2016, our board of directors terminated its previous authorizations to provide loans to CPA[®]:18 – Global and CCIF. However, in July 2016, our board of directors approved unsecured loans from us to CPA[®]:18 – Global of up to \$50.0 million, at our sole discretion, with a rate equal to the rate at which we are able to borrow funds under our senior credit facility (Note 10), for the purpose of facilitating investments approved by CPA[®]:18 – Global’s investment committee. See Note 17, Subsequent Events.

On January 20, 2016, we made a \$20.0 million loan to CWI 2, which was repaid in full on February 20, 2016.

In May 2016, we made a total of \$17.1 million in loans to CESH I, at an annual interest rate of LIBOR plus 1.1%, which were repaid in full in September 2016, subsequent to the commencement of CESH I’s private placement offering (Note 2).

Other

On February 2, 2016, an entity in which we, one of our employees, and third parties owned 38.3%, 0.5%, and 61.2%, respectively, and which we consolidated, sold a self-storage property (Note 15). In connection with the sale, we made a distribution of \$0.1 million to the employee, representing the employee’s share of the net proceeds from the sale.

At September 30, 2016, we owned interests ranging from 3% to 90% in jointly-owned investments, including a jointly-controlled tenancy-in-common interest in several properties, with the remaining interests generally held by affiliates, stock of each of the Managed REITs and CCIF, and limited partnership units of CESH I. We consolidate certain of these investments and account for the remainder either (i) under the equity method of accounting or (ii) at fair value by electing the equity method fair value option available under U.S. GAAP (Note 6).

Note 4. Net Investments in Properties

Real Estate

Real estate, which consists of land and buildings leased to others, at cost, and which are subject to operating leases, and real estate under construction, is summarized as follows (in thousands):

	September 30, December 31,	
	2016	2015
Land	\$ 1,119,158	\$ 1,160,567
Buildings	4,065,395	4,147,644
Real estate under construction	37,433	1,714
Less: Accumulated depreciation	(444,538)	(372,735)
	\$ 4,777,448	\$ 4,937,190

During the nine months ended September 30, 2016, the U.S. dollar strengthened against the British pound sterling, as the end-of-period rate for the U.S. dollar in relation to the British pound sterling at September 30, 2016 decreased by 12.6% to \$1.2962 from \$1.4833 at December 31, 2015. Additionally, during the same period the U.S. dollar weakened against the euro, as the end-of-period rate for the U.S. dollar in relation to the euro increased by 2.5% to \$1.1161 from \$1.0887. As a result of these fluctuations in foreign exchange rates, the carrying value of our real estate decreased by \$1.5 million from December 31, 2015 to September 30, 2016, with the impact of the U.S. dollar strengthening against

the British pound sterling more than offsetting the impact of the weakening of the U.S. dollar against the euro.

Depreciation expense for Net investments in properties was \$36.5 million and \$35.7 million for the three months ended September 30, 2016 and 2015, respectively, and \$110.5 million and \$105.5 million for the nine months ended September 30, 2016 and 2015, respectively.

W. P. Carey 9/30/2016 10-Q – 20

Notes to Consolidated Financial Statements (Unaudited)

Acquisitions of Real Estate

During the nine months ended September 30, 2016, we entered into the following investments, which were deemed to be real estate asset acquisitions because we acquired the sellers' properties and simultaneously entered into new leases in connection with the acquisitions, at a total cost of \$385.8 million, including land of \$103.7 million, buildings of \$213.1 million (including acquisition-related costs of \$1.8 million, which were capitalized), and net lease intangibles of \$69.0 million (Note 7):

- an investment of \$167.7 million for three private school campuses in Coconut Creek, Florida on April 1, 2016 and in Windermere, Florida and Houston, Texas on May 31, 2016. We also committed to fund an additional \$128.1 million of build-to-suit financing over the next four years in order to fund expansions of the existing facilities; and
- an investment of \$218.2 million for 43 manufacturing facilities in various locations in the United States and six manufacturing facilities in various locations in Canada on April 5 and 14, 2016.

Real Estate Under Construction

During the nine months ended September 30, 2016, we capitalized real estate under construction totaling \$46.4 million, including accrued costs of \$8.6 million, primarily related to construction projects on our properties. Of this total, \$14.3 million related to an expansion of one of the three private school campuses that we acquired during the nine months ended September 30, 2016. As of September 30, 2016, we had three construction projects in progress. As of December 31, 2015, we had an outstanding commitment related to a tenant expansion allowance, for which construction had not yet commenced, and no other open construction projects. Aggregate unfunded commitments totaled approximately \$119.2 million and \$12.2 million as of September 30, 2016 and December 31, 2015, respectively.

Dispositions of Real Estate

During the nine months ended September 30, 2016, we sold eight properties and a parcel of vacant land, excluding the sale of one property that was classified as held for sale as of December 31, 2015, transferred ownership of another property to the related mortgage lender, and disposed of another property through foreclosure (Note 15). As a result, the carrying value of our real estate decreased by \$280.5 million from December 31, 2015 to September 30, 2016.

Future Dispositions of Real Estate

During the nine months ended September 30, 2016, two tenants each exercised an option to repurchase their respective properties during 2017 for an aggregate of \$21.6 million. At September 30, 2016, the properties had an aggregate asset carrying value of \$16.6 million. There is no accounting impact during 2016 related to the exercise of these options.

Operating Real Estate

At September 30, 2016, Operating real estate consisted of our investments in two hotels. At December 31, 2015, Operating real estate consisted of our investments in two hotels and one self-storage property. During the first quarter of 2016, we sold our remaining self-storage property, and as a result, the carrying value of our Operating real estate decreased by \$2.3 million from December 31, 2015 to September 30, 2016 (Note 15). Below is a summary of our Operating real estate (in thousands):

Edgar Filing: W. P. Carey Inc. - Form 10-Q

	September 30, 2016	December 31, 2015
Land	\$ 6,041	\$ 6,578
Buildings	75,624	76,171
Less: Accumulated depreciation	(11,075)	(8,794)
	\$ 70,590	\$ 73,955

W. P. Carey 9/30/2016 10-Q – 21

Notes to Consolidated Financial Statements (Unaudited)

Assets Held for Sale, Net

Below is a summary of our properties held for sale (in thousands):

	September 30, 2016	December 31, 2015
Real estate, net	\$ 117,504	\$ 59,046
Intangible assets and liabilities, net	9,938	—
Goodwill	1,020	—
Assets held for sale, net	\$ 128,462	\$ 59,046

At September 30, 2016, we had 16 properties classified as Assets held for sale, net, including:

a portfolio of 14 international properties with a carrying value of \$115.4 million. These properties were disposed of subsequent to September 30, 2016 ([Note 17](#)); and

two international properties with an aggregate carrying value of \$13.1 million. These properties were disposed of subsequent to September 30, 2016 ([Note 17](#)).

At December 31, 2015, we had two properties classified as Assets held for sale, net, one of which was sold during the nine months ended September 30, 2016 ([Note 15](#)).

Note 5. Finance Receivables

Assets representing rights to receive money on demand or at fixed or determinable dates are referred to as finance receivables. Our finance receivables portfolio consists of our Net investments in direct financing leases, notes receivable, and deferred acquisition fees. Operating leases are not included in finance receivables as such amounts are not recognized as an asset in the consolidated financial statements.

Net Investments in Direct Financing Leases

Interest income from direct financing leases, which was included in Lease revenues in the consolidated financial statements, was \$17.6 million and \$18.7 million for the three months ended September 30, 2016 and 2015, respectively, and \$53.9 million and \$56.1 million for the nine months ended September 30, 2016 and 2015, respectively. During the nine months ended September 30, 2016, the U.S. dollar weakened against the euro and strengthened against the British pound sterling, resulting in a \$3.1 million increase in the carrying value of Net investments in direct financing leases from December 31, 2015 to September 30, 2016, with the impact of the weakening of the U.S. dollar against the euro more than offsetting the impact of the U.S. dollar strengthening against the British pound sterling. During the nine months ended September 30, 2016, we reclassified 31 properties with a carrying value of \$9.7 million from Net investments in direct financing leases to Real estate, at cost, in connection with the extensions of the underlying leases.

Note Receivable

At September 30, 2016 and December 31, 2015, we had a note receivable with an outstanding balance of \$10.4 million and \$10.7 million, respectively, representing the expected future payments under a sales type lease, which was included in Other assets, net in the consolidated financial statements. Earnings from our note receivable are included in Lease termination income and other in the consolidated financial statements.

Deferred Acquisition Fees Receivable

As described in Note 3, we earn revenue in connection with structuring and negotiating investments and related mortgage financing for the CPA[®] REITs. A portion of this revenue is due in equal annual installments over three years, provided the CPA[®] REITs meet their respective performance criteria. Unpaid deferred installments, including accrued interest, from the CPA[®] REITs were included in Due from affiliates in the consolidated financial statements.

Credit Quality of Finance Receivables

We generally seek investments in facilities that we believe are critical to a tenant's business and that we believe have a low risk of tenant default. As of September 30, 2016 and December 31, 2015, we had allowances for credit losses of \$15.8 million and

W. P. Carey 9/30/2016 10-Q – 22

Notes to Consolidated Financial Statements (Unaudited)

\$8.7 million, respectively, on a single direct financing lease. During the nine months ended September 30, 2016, we increased the allowance by \$7.1 million, which was recorded in Property expenses, excluding reimbursable tenant costs in the consolidated financial statements, due to a decline in the estimated amount of future payments we will receive from the tenant, including the possible early termination of the direct financing lease. At both September 30, 2016 and December 31, 2015, none of the balances of our finance receivables were past due. Other than the lease extensions noted under Net Investments in Direct Financing Leases above and the allowance for credit losses discussed above, there were no modifications of finance receivables during the nine months ended September 30, 2016 or the year ended December 31, 2015. We evaluate the credit quality of our finance receivables utilizing an internal five-point credit rating scale, with one representing the highest credit quality and five representing the lowest. A credit quality of one through three indicates a range of investment grade to stable. A credit quality of four through five indicates a range of watch list to risk of default. The credit quality evaluation of our finance receivables was last updated in the third quarter of 2016. We believe the credit quality of our deferred acquisition fees receivable falls under category one, as the CPA[®] REITs are expected to have the available cash to make such payments.

A summary of our finance receivables by internal credit quality rating, excluding our deferred acquisition fees receivable, is as follows (dollars in thousands):

Internal Credit Quality Indicator	Number of Tenants / Obligors at		Carrying Value at	
	September 30, 2016	December 31, 2015	September 30, 2016	December 31, 2015
1 - 3	27	28	\$640,359	\$ 657,034
4	6	6	109,092	110,002
5	1	—	1,731	—
			\$751,182	\$ 767,036

Note 6. Equity Investments in the Managed Programs and Real Estate

We own interests in certain unconsolidated real estate investments with the Managed Programs and also own interests in the Managed Programs. We account for our interests in these investments under the equity method of accounting (i.e., at cost, increased or decreased by our share of earnings or losses, less distributions, plus contributions and other adjustments required by equity method accounting, such as basis differences).

The following table presents Equity in earnings of equity method investments in the Managed Programs and real estate, which represents our proportionate share of the income or losses of these investments, as well as certain adjustments related to amortization of basis differences related to purchase accounting adjustments (in thousands):

	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2016	2015	2016	2015
Distributions of Available Cash (<u>Note 3</u>)	\$10,876	\$10,182	\$32,018	\$28,244
Proportionate share of earnings (losses) from equity investments in the Managed Programs	2,962	(431)	7,396	565
Amortization of basis differences on equity investments in the Managed Programs	(265)	(208)	(756)	(582)
Total equity earnings from the Managed Programs	13,573	9,543	38,658	28,227
Equity earnings from other equity investments	4,197	4,034	12,456	13,188
Amortization of basis differences on other equity investments	(967)	(942)	(2,871)	(2,785)
Equity in earnings of equity method investments in the Managed Programs and real estate	\$16,803	\$12,635	\$48,243	\$38,630

Managed Programs

We own interests in the Managed Programs and account for these interests under the equity method because, as their advisor and through our ownership of their common stock, we do not exert control over, but we do have the ability to exercise significant influence on, the Managed Programs. Operating results of the Managed REITs and CESH I are included in the Owned Real Estate segment and operating results of CCIF are included in the Investment Management segment.

W. P. Carey 9/30/2016 10-Q – 23

Notes to Consolidated Financial Statements (Unaudited)

The following table sets forth certain information about our investments in the Managed Programs (dollars in thousands):

Fund	% of Outstanding Interests Owned at		Carrying Amount of Investment at			
	September 30, 2016	December 31, 2015	September 30, 2016	December 31, 2015

					\$ 154,711	\$ 133,482

(a) Investment is accounted for at fair value.

CPA[®]:17 – Global — The carrying value of our investment in CPA[®]:17 – Global at September 30, 2016 includes asset management fees receivable, for which 119,368 shares of CPA[®]:17 – Global common stock were issued during the fourth quarter of 2016. We received distributions from this investment during the nine months ended September 30, 2016 and 2015 of \$5.5 million and \$4.5 million, respectively. We received distributions from our investment in the CPA[®]:17 – Global operating partnership during the nine months ended September 30, 2016 and 2015 of \$17.8 million and \$17.7 million, respectively.

CPA[®]:18 – Global — The carrying value of our investment in CPA[®]:18 – Global at September 30, 2016 includes asset management fees receivable, for which 107,154 shares of CPA[®]:18 – Global class A common stock were issued during the fourth quarter of 2016. We received distributions from this investment during the nine months ended September 30, 2016 and 2015 of \$0.6 million and \$0.1 million, respectively. We received distributions from our investment in the CPA[®]:18 – Global operating partnership during the nine months ended September 30, 2016 and 2015 of \$5.3 million and \$2.3 million, respectively.

CWI 1 — We received distributions from this investment during both the nine months ended September 30, 2016 and 2015 of \$0.6 million. We received distributions from our investment in the CWI 1 operating partnership during the nine months ended September 30, 2016 and 2015 of \$6.9 million and \$6.4 million, respectively.

CWI 2 — The carrying value of our investment in CWI 2 at September 30, 2016 includes asset management fees receivable, for which 46,042 shares of CWI 2 class A common stock were issued during the fourth quarter of 2016. We received distributions from this investment during the nine months ended September 30, 2016 of less than \$0.1 million. We did not receive distributions from this investment during the nine months ended September 30, 2015. On March 27, 2015, we purchased a 0.015% special general partnership interest in the CWI 2 operating partnership for \$0.3 million. This special general partnership interest entitles us to receive distributions of our proportionate share of earnings up to 10% of the Available Cash from the CWI 2 operating partnership (Note 3). We received distributions from our investment in the CWI 2 operating partnership during the nine months ended September 30, 2016 and 2015 of \$2.0 million and \$0.2 million, respectively.

CCIF — We received \$0.6 million of distributions from our investment in CCIF during the nine months ended September 30, 2016. We did not receive distributions from this investment during the nine months ended September 30, 2015.

CESH I — Under the limited partnership agreement we have with CESH I, we pay all organization and offering costs regarding CESH I, and instead of being reimbursed by CESH I on a dollar-for-dollar basis for those costs, we receive limited partnership units of CESH I equal to 2.5% of its gross offering proceeds (Note 3). We have elected to account for our investment in CESH I at fair value by selecting the equity method fair value option available under U.S. GAAP. We did not receive distributions from this investment during the nine months ended September 30, 2016 or 2015.

W. P. Carey 9/30/2016 10-Q – 24

Notes to Consolidated Financial Statements (Unaudited)

At September 30, 2016 and December 31, 2015, the aggregate unamortized basis differences on our equity investments in the Managed Programs were \$30.7 million and \$27.4 million, respectively.

Interests in Other Unconsolidated Real Estate Investments

We own equity interests in single-tenant net-leased properties that are generally leased to companies through noncontrolling interests (i) in partnerships and limited liability companies that we do not control but over which we exercise significant influence or (ii) as tenants-in-common subject to common control. Generally, the underlying investments are jointly-owned with affiliates. We account for these investments under the equity method of accounting. Earnings for each investment are recognized in accordance with each respective investment agreement.

The following table sets forth our ownership interests in our equity investments in real estate, excluding the Managed Programs, and their respective carrying values (dollars in thousands):

Lessee	Co-owner	Ownership Interest	Carrying Value at	
			September 30, 2016	December 31, 2015
The New York Times Company	CPA®:17 – Global	45%	\$69,772	\$ 70,976
Frontier Spinning Mills, Inc.	CPA®:17 – Global	40%	24,149	24,288
Beach House JV, LLC ^(a)	Third Party	N/A	15,105	15,318
Actebis Peacock GmbH ^(b)	CPA®:17 – Global	30%	11,981	12,186
C1000 Logistiek Vastgoed B.V. ^{(b) (c)}	CPA®:17 – Global	15%	9,481	9,381
Waldaschaff Automotive GmbH and Wagon Automotive Nagold GmbH ^(b)	CPA®:17 – Global	33%	9,113	9,507
Wanbishi Archives Co. Ltd. ^(d)	CPA®:17 – Global	3%	378	335
			\$139,979	\$ 141,991

(a) This investment is a preferred equity position.

(b) The carrying value of this investment is affected by fluctuations in the exchange rate of the euro.

This investment represents a tenancy-in-common interest, whereby the property is encumbered by the debt for which we are jointly and severally liable. The co-obligor is CPA®:17 – Global and the amount due under the arrangement was approximately \$72.8 million at September 30, 2016. Of this amount, \$10.9 million represents the amount we agreed to pay and is included within the carrying value of the investment at September 30, 2016.

(d) The carrying value of this investment is affected by fluctuations in the exchange rate of the yen.

We received aggregate distributions of \$12.4 million and \$9.7 million from our other unconsolidated real estate investments for the nine months ended September 30, 2016 and 2015, respectively. At September 30, 2016 and December 31, 2015, the aggregate unamortized basis differences on our unconsolidated real estate investments were \$6.6 million and \$6.7 million, respectively.

Note 7. Goodwill and Other Intangibles

We have recorded net lease and internal-use software development intangibles that are being amortized over periods ranging from one year to 40 years. In addition, we have several ground lease intangibles that are being amortized over

periods of up to 99 years. In-place lease and tenant relationship intangibles are included in In-place lease and tenant relationship intangible assets, net in the consolidated financial statements. Above-market rent intangibles are included in Above-market rent intangible assets, net in the consolidated financial statements. Below-market ground lease (as lessee), trade name, management contracts, and internal-use software development intangibles are included in Other assets, net in the consolidated financial statements. Below-market rent, above-market ground lease (as lessee), and below-market purchase option intangibles are included in Below-market rent and other intangible liabilities, net in the consolidated financial statements.

W. P. Carey 9/30/2016 10-Q – 25

Notes to Consolidated Financial Statements (Unaudited)

In connection with our investment activity during the nine months ended September 30, 2016, we recorded net lease intangibles comprised as follows (life in years, dollars in thousands):

	Weighted-Average Life	Amount
Amortizable Intangible Assets		
In-place lease	22.2	\$68,996

The following table presents a reconciliation of our goodwill (in thousands):

	Owned Real Estate	Investment Management	Total
Balance at January 1, 2016	\$618,202	\$ 63,607	\$681,809
Allocation of goodwill to the cost basis of properties sold or classified as held for sale	(33,981)	—	(33,981)
Impairment charges (Note 8)	(10,191)	—	(10,191)
Foreign currency translation adjustments	2,668	—	2,668
Balance at September 30, 2016	\$576,698	\$ 63,607	\$640,305

Intangible assets, intangible liabilities, and goodwill are summarized as follows (in thousands):

	September 30, 2016			December 31, 2015

------------------------------	--------------	-----------	--------------	--------------	-----------	--------------

W. P. Carey 9/30/2016 10-Q – 26

Notes to Consolidated Financial Statements (Unaudited)

Net amortization of intangibles, including the effect of foreign currency translation, was \$38.1 million and \$50.1 million for the three months ended September 30, 2016 and 2015, respectively, and \$125.6 million and \$136.4 million for the nine months ended September 30, 2016 and 2015, respectively. Amortization of below-market rent and above-market rent intangibles is recorded as an adjustment to Lease revenues; amortization of internal-use software development and in-place lease and tenant relationship intangibles is included in Depreciation and amortization; and amortization of above-market ground lease and below-market ground lease intangibles is included in Property expenses, excluding reimbursable tenant costs.

Note 8. Fair Value Measurements

The fair value of an asset is defined as the exit price, which is the amount that would either be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guidance establishes a three-tier fair value hierarchy based on the inputs used in measuring fair value. These tiers are: Level 1, for which quoted market prices for identical instruments are available in active markets, such as money market funds, equity securities, and U.S. Treasury securities; Level 2, for which there are inputs other than quoted prices included within Level 1 that are observable for the instrument, such as certain derivative instruments including interest rate caps, interest rate swaps, foreign currency forward contracts, and foreign currency collars; and Level 3, for securities that do not fall into Level 1 or Level 2 and for which little or no market data exists, therefore requiring us to develop our own assumptions.

Items Measured at Fair Value on a Recurring Basis

The methods and assumptions described below were used to estimate the fair value of each class of financial instrument. For significant Level 3 items, we have also provided the unobservable inputs along with their weighted-average ranges.

Money Market Funds — Our money market funds, which are included in Cash and cash equivalents in the consolidated financial statements, are comprised of government securities and U.S. Treasury bills. These funds were classified as Level 1 as we used quoted prices from active markets to determine their fair values.

Derivative Assets — Our derivative assets, which are included in Other assets, net in the consolidated financial statements, are comprised of interest rate caps, stock warrants, foreign currency forward contracts, and foreign currency collars (Note 9). The interest rate caps, foreign currency forward contracts, and foreign currency collars were measured at fair value using readily observable market inputs, such as quotations on interest rates, and were classified as Level 2 as these instruments are custom, over-the-counter contracts with various bank counterparties that are not traded in an active market. The stock warrants were measured at fair value using valuation models that incorporate market inputs and our own assumptions about future cash flows. We classified these assets as Level 3 because these assets are not traded in an active market.

Derivative Liabilities — Our derivative liabilities, which are included in Accounts payable, accrued expenses and other liabilities in the consolidated financial statements, are comprised of interest rate swaps and foreign currency collars (Note 9). These derivative instruments were measured at fair value using readily observable market inputs, such as quotations on interest rates, and were classified as Level 2 because they are custom, over-the-counter contracts with various bank counterparties that are not traded in an active market.

Redeemable Noncontrolling Interest — We account for the noncontrolling interest in W. P. Carey International, LLC, or WPCI, held by a third party as a redeemable noncontrolling interest (Note 13). We determined the valuation of redeemable noncontrolling interest using widely accepted valuation techniques, including comparable transaction

analysis, comparable public company analysis, and discounted cash flow analysis. We classified this liability as Level 3.

We did not have any transfers into or out of Level 1, Level 2, and Level 3 category of measurements during either the three or nine months ended September 30, 2016 or 2015.

Our other financial instruments had the following carrying values and fair values as of the dates shown (dollars in thousands):

	Level	September 30, 2016		December 31, 2015	
		Carrying Value	Fair Value	Carrying Value	Fair Value
Non-recourse debt, net ^(a) ^(b) ^(c)	3	\$ 1,926,331	\$ 1,962,315	\$ 2,269,421	\$ 2,293,542
Senior Unsecured Notes, net ^(a) ^(b) ^(d)	2	1,837,216	1,901,954	1,476,084	1,459,544
Note receivable ^(c)	3	10,437	10,135	10,689	10,610

W. P. Carey 9/30/2016 10-Q – 27

Notes to Consolidated Financial Statements (Unaudited)

In accordance with ASU 2015-03, we reclassified deferred financing costs from Other assets, net to Non-recourse debt, net and Senior Unsecured Notes, net as of December 31, 2015 (Note 2). The carrying value of Non-recourse debt, net includes unamortized deferred financing costs of \$1.2 million and \$1.8 million at September 30, 2016 and (a) December 31, 2015, respectively. The carrying value of Senior Unsecured Notes, net includes unamortized deferred financing costs of \$12.6 million and \$10.5 million at September 30, 2016 and December 31, 2015, respectively.

The carrying value of Non-recourse debt, net includes unamortized premium of \$0.1 million and \$3.8 million at September 30, 2016 and December 31, 2015, respectively. The carrying value of Senior Unsecured Notes, net (b) includes unamortized discount of \$8.2 million and \$7.8 million at September 30, 2016 and December 31, 2015, respectively.

We determined the estimated fair value of these financial instruments using a discounted cash flow model that estimates the present value of the future loan payments by discounting such payments at current estimated market (c) interest rates. The estimated market interest rates take into account interest rate risk and the value of the underlying collateral, which includes quality of the collateral, the credit quality of the tenant/obligor, and the time until maturity.

We determined the estimated fair value of the Senior Unsecured Notes (Note 10) using quoted market prices in an open market with limited trading volume where available. In cases where there was no trading volume, we (d) determined the estimated fair value using a discounted cash flow model using a rate that reflects the average yield of similar market participants.

We estimated that our other financial assets and liabilities (excluding net investments in direct financing leases) had fair values that approximated their carrying values at both September 30, 2016 and December 31, 2015.

Items Measured at Fair Value on a Non-Recurring Basis (Including Impairment Charges)

We periodically assess whether there are any indicators that the value of our real estate investments may be impaired or that their carrying value may not be recoverable. For investments in real estate held for use for which an impairment indicator is identified, we follow a two-step process to determine whether the investment is impaired and to determine the amount of the charge. First, we compare the carrying value of the property's asset group to the future undiscounted net cash flows that we expect the property's asset group will generate, including any estimated proceeds from the eventual sale of the property's asset group. If this amount is less than the carrying value, the property's asset group is considered to be not recoverable. We then measure the impairment charge as the excess of the carrying value of the property's asset group over the estimated fair value of the property's asset group, which is primarily determined using market information such as recent comparable sales, broker quotes, or third-party appraisals. If relevant market information is not available or is not deemed appropriate, we perform a future net cash flow analysis, discounted for inherent risk associated with each investment. We determined that the significant inputs used to value these investments fall within Level 3 for fair value reporting. As a result of our assessments, we calculated impairment charges based on market conditions and assumptions that existed at the time. The valuation of real estate is subject to significant judgment and actual results may differ materially if market conditions or the underlying assumptions change.

The following table presents information about our assets for which we recorded an impairment charge that were measured at fair value on a non-recurring basis (in thousands):

Three Months Ended September 30, 2016		Three Months Ended September 30, 2015

		\$ 49,870		\$ 22,711

W. P. Carey 9/30/2016 10-Q – 28

Notes to Consolidated Financial Statements (Unaudited)

During the three months ended September 30, 2016, we recognized impairment charges totaling \$14.4 million, inclusive of an amount attributable to a noncontrolling interest of \$0.6 million, on 18 properties, including a portfolio of 14 properties, in order to reduce the carrying values of the properties to their estimated fair values. The impairment charges recognized on the portfolio of 14 properties were in addition to charges recognized on the portfolio during the six months ended June 30, 2016, as described below, based on the purchase and sale agreement for the portfolio received during the current period. The fair value measurements for the properties approximated their estimated selling prices, less estimated costs to sell. We used available information, including third-party broker information and internal discounted cash flow models (Level 3 inputs), in determining the fair value of these properties. At September 30, 2016, the portfolio of 14 properties was classified as held for sale, and all were sold subsequent to September 30, 2016 (Note 4, Note 17).

During the nine months ended September 30, 2016, we recognized impairment charges totaling \$49.9 million, inclusive of an amount attributable to a noncontrolling interest of \$0.6 million, on 18 properties in order to reduce the carrying values of the properties to their estimated fair values. In addition to the impairment charges of \$14.4 million recognized during the three months ended September 30, 2016, we had recognized impairment charges totaling \$35.4 million, including \$10.2 million allocated to goodwill, on the portfolio of 14 properties during the six months ended June 30, 2016 in order to reduce the carrying values of the properties to their estimated fair values, at that time. The fair value measurements for the properties approximated their estimated selling prices, less estimated costs to sell. We used available information, including third-party broker information and internal discounted cash flow models (Level 3 inputs), in determining the fair value of these properties.

During the three months ended September 30, 2015, we recognized impairment charges totaling \$19.4 million on four properties in order to reduce the carrying values of the properties to their estimated fair values. The fair value measurements for two of the properties approximated their estimated selling prices; therefore, we recognized impairment charges totaling \$3.8 million on these properties. At September 30, 2016, one of these properties was classified as held for sale and disposed of subsequent to September 30, 2016 (Note 4, Note 17). We reduced the estimated holding period for another property due to the expected termination of its related lease within one year after September 30, 2015 and recognized an impairment charge of \$8.7 million on the property. The fair value measurement related to the impairment charge was determined by estimating discounted cash flows using three significant unobservable inputs: the cash flow discount rate of 9.25%, the residual discount rate of 9.75%, and the residual capitalization rate 8.5%. Significant increases or decreases to these inputs in isolation would result in a significant change in the fair value measurement. The building located on the remaining property was demolished in connection with the redevelopment of the property, which commenced in December 2015, and the fair value of the building was reduced to zero. We recognized an impairment charge of \$6.9 million on this property.

During the nine months ended September 30, 2015, we recognized impairment charges totaling \$22.7 million on six properties and a parcel of vacant land in order to reduce the carrying values of the properties to their estimated fair values. In addition to the impairment charges of \$19.4 million recognized on four properties during the three months ended September 30, 2015, as described above, we recognized impairment charges totaling \$3.3 million on two properties and the parcel of vacant land, since their fair value measurements approximated their estimated selling prices. These two properties were sold during 2015 and the parcel of vacant land was sold during the nine months ended September 30, 2016.

Note 9. Risk Management and Use of Derivative Financial Instruments

Risk Management

In the normal course of our ongoing business operations, we encounter economic risk. There are four main components of economic risk that impact us: interest rate risk, credit risk, market risk, and foreign currency risk. We are primarily subject to interest rate risk on our interest-bearing liabilities, including our Senior Unsecured Credit Facility and Senior Unsecured Notes (Note 10). Credit risk is the risk of default on our operations and our tenants' inability or unwillingness to make contractually required payments. Market risk includes changes in the value of our properties and related loans, as well as changes in the value of our other securities and the shares we hold in the Managed Programs due to changes in interest rates or other market factors. We own investments in Europe, Asia, Australia, Canada, and Mexico and are subject to risks associated with fluctuating foreign currency exchange rates.

Derivative Financial Instruments

When we use derivative instruments, it is generally to reduce our exposure to fluctuations in interest rates and foreign currency exchange rate movements. We have not entered into, and do not plan to enter into, financial instruments for trading or speculative purposes. In addition to entering into derivative instruments on our own behalf, we may also be a party to derivative instruments that are embedded in other contracts, and we may be granted common stock warrants by lessees when structuring

W. P. Carey 9/30/2016 10-Q – 29

Notes to Consolidated Financial Statements (Unaudited)

lease transactions, which are considered to be derivative instruments. The primary risks related to our use of derivative instruments include a counterparty to a hedging arrangement defaulting on its obligation and a downgrade in the credit quality of a counterparty to such an extent that our ability to sell or assign our side of the hedging transaction is impaired. While we seek to mitigate these risks by entering into hedging arrangements with large financial institutions that we deem to be creditworthy, it is possible that our hedging transactions, which are intended to limit losses, could adversely affect our earnings. Furthermore, if we terminate a hedging arrangement, we may be obligated to pay certain costs, such as transaction or breakage fees. We have established policies and procedures for risk assessment and the approval, reporting, and monitoring of derivative financial instrument activities.

We measure derivative instruments at fair value and record them as assets or liabilities, depending on our rights or obligations under the applicable derivative contract. Derivatives that are not designated as hedges must be adjusted to fair value through earnings. For a derivative designated, and that qualified, as a cash flow hedge, the effective portion of the change in fair value of the derivative is recognized in Other comprehensive loss until the hedged item is recognized in earnings. For a derivative designated, and that qualified, as a net investment hedge, the effective portion of the change in the fair value and/or the net settlement of the derivative is reported in Other comprehensive loss as part of the cumulative foreign currency translation adjustment. Amounts are reclassified out of Other comprehensive loss into earnings when the hedged investment is either sold or substantially liquidated. The ineffective portion of the change in fair value of any derivative is immediately recognized in earnings.

The following table sets forth certain information regarding our derivative instruments (in thousands):

Derivatives Designated as Hedging Instruments	Balance Sheet Location	Asset Derivatives Fair Value		Liabilities Derivatives Fair Value	
		September 30, 2016	December 31, 2015	September 30, 2016	December 31, 2015
Foreign currency forward contracts	Other assets, net	\$28,094	\$38,975	\$—	\$—
Foreign currency collars	Other assets, net	11,500	7,718	—	—
Interest rate caps	Other assets, net	26	—	—	—
Interest rate swaps	Accounts payable, accrued expenses and other liabilities	—	—	(5,881)	(4,762)
Foreign currency collars	Accounts payable, accrued expenses and other liabilities	—	—	(160)	—
Derivatives Not Designated as Hedging Instruments					
Stock warrants	Other assets, net	3,752	3,618	—	—
Interest rate swaps ^(a)	Other assets, net	—	9	—	—
Interest rate swaps ^(a)	Accounts payable, accrued expenses and other liabilities	—	—	(16)	(2,612)
Total derivatives		\$43,372	\$50,320	\$(6,057)	\$(7,374)

^(a) These interest rate swaps do not qualify for hedge accounting; however, they do protect against fluctuations in interest rates related to the underlying variable-rate debt.

All derivative transactions with an individual counterparty are governed by a master International Swap and Derivatives Association agreement, which can be considered as a master netting arrangement; however, we report all our derivative instruments on a gross basis on our consolidated financial statements. At both September 30, 2016 and December 31, 2015, no cash collateral had been posted nor received for any of our derivative positions.

Notes to Consolidated Financial Statements (Unaudited)

The following tables present the impact of our derivative instruments in the consolidated financial statements (in thousands):

	Amount of Gain (Loss) Recognized on Derivatives in Other Comprehensive (Loss) Income (Effective Portion) ^(a)

Total		\$1,915	\$970	\$4,844	\$3,838

Excludes net gains of less than \$0.1 million and net losses of less than \$0.1 million recognized on unconsolidated (a) jointly-owned investments for the three months ended September 30, 2016 and 2015, respectively, and net losses of \$0.2 million and net gains of \$0.9 million for the nine months ended September 30, 2016 and 2015, respectively.

The effective portion of the change in fair value and the settlement of these contracts are reported in the foreign (b) currency translation adjustment section of Other comprehensive loss until the underlying investment is sold, at which time we reclassify the gain or loss to earnings.

Notes to Consolidated Financial Statements (Unaudited)

Amounts reported in Other comprehensive loss related to interest rate swaps will be reclassified to Interest expense as interest is incurred on our variable-rate debt. Amounts reported in Other comprehensive loss related to foreign currency derivative contracts will be reclassified to Other income and (expenses) when the hedged foreign currency contracts are settled. As of September 30, 2016, we estimate that an additional \$0.9 million and \$9.7 million will be reclassified as interest expense and other income, respectively, during the next 12 months.

(a) Relates to the ineffective portion of the hedging relationship.

See below for information on our purposes for entering into derivative instruments and for information on derivative instruments owned by unconsolidated investments, which are excluded from the tables above.

Interest Rate Swaps and Caps

We are exposed to the impact of interest rate changes primarily through our borrowing activities. To limit this exposure, we attempt to obtain mortgage financing on a long-term, fixed-rate basis. However, from time to time, we or our investment partners may obtain variable-rate, non-recourse mortgage loans and, as a result, we have entered into, and may continue to enter into, interest rate swap agreements or interest rate cap agreements with counterparties. Interest rate swaps, which effectively convert the variable-rate debt service obligations of a loan to a fixed rate, are agreements in which one party exchanges a stream of interest payments for a counterparty's stream of cash flow over a specific period. The notional, or face, amount on which the swaps are based is not exchanged. Interest rate caps limit the effective borrowing rate of variable-rate debt obligations while allowing participants to share in downward shifts in interest rates. Our objective in using these derivatives is to limit our exposure to interest rate movements.

Notes to Consolidated Financial Statements (Unaudited)

The interest rate swaps and caps that our consolidated subsidiaries had outstanding at September 30, 2016 are summarized as follows (currency in thousands):

Interest Rate Derivatives	Number of Instruments	Notional Amount	Fair Value at September 30, 2016 ^(a)
Designated as Cash Flow Hedging Instruments			
Interest rate swaps	13	119,157 USD	\$ (5,454)
Interest rate swap	1	5,928 EUR	(427)
Interest rate caps	2	68,810 EUR	26
Not Designated as Cash Flow Hedging Instruments			
Interest rate swap ^(b)	1	3,028 USD	(16)
			\$ (5,871)

(a) Fair value amounts are based on the exchange rate of the euro at September 30, 2016, as applicable.

(b) This interest rate swap does not qualify for hedge accounting; however, it does protect against fluctuations in interest rates related to the underlying variable-rate debt.

Foreign Currency Contracts and Collars

We are exposed to foreign currency exchange rate movements, primarily in the euro and, to a lesser extent, the British pound sterling, the Australian dollar, and certain other currencies. We manage foreign currency exchange rate movements by generally placing our debt service obligation on an investment in the same currency as the tenant's rental obligation to us. This reduces our overall exposure to the net cash flow from that investment. However, we are subject to foreign currency exchange rate movements to the extent that there is a difference in the timing and amount of the rental obligation and the debt service. Realized and unrealized gains and losses recognized in earnings related to foreign currency transactions are included in Other income and (expenses) in the consolidated financial statements.

In order to hedge certain of our foreign currency cash flow exposures, we enter into foreign currency forward contracts and collars. A foreign currency forward contract is a commitment to deliver a certain amount of currency at a certain price on a specific date in the future. A foreign currency collar consists of a written call option and a purchased put option to sell the foreign currency at a range of predetermined exchange rates. By entering into forward contracts and holding them to maturity, we are locked into a future currency exchange rate for the term of the contract. A foreign currency collar guarantees that the exchange rate of the currency will not fluctuate beyond the range of the options' strike prices. Our foreign currency forward contracts and foreign currency collars have maturities of 78 months or less.

The following table presents the foreign currency derivative contracts we had outstanding at September 30, 2016, which were designated as cash flow hedges (currency in thousands):

Foreign Currency Derivatives	Number of Instruments	Notional Amount	Fair Value at September 30, 2016
Designated as Cash Flow Hedging Instruments			
Foreign currency forward contracts	40	106,066 EUR	\$ 21,148
Foreign currency collars	16	40,950 GBP	9,374
Foreign currency collars	16	68,275 EUR	1,966
Foreign currency forward contracts	9	4,820 GBP	1,260
Foreign currency forward contracts	13	16,436 AUD	1,076
Designated as Net Investment Hedging Instruments			

Edgar Filing: W. P. Carey Inc. - Form 10-Q

Foreign currency forward contracts	4	79,658 AUD 4,610
		\$ 39,434

W. P. Carey 9/30/2016 10-Q – 33

Notes to Consolidated Financial Statements (Unaudited)

Credit Risk-Related Contingent Features

We measure our credit exposure on a counterparty basis as the net positive aggregate estimated fair value of our derivatives, net of any collateral received. No collateral was received as of September 30, 2016. At September 30, 2016, our total credit exposure and the maximum exposure to any single counterparty was \$20.0 million and \$14.1 million, respectively.

Some of the agreements we have with our derivative counterparties contain cross-default provisions that could trigger a declaration of default on our derivative obligations if we default, or are capable of being declared in default, on certain of our indebtedness. At September 30, 2016, we had not been declared in default on any of our derivative obligations. The estimated fair value of our derivatives in a net liability position was \$6.3 million and \$8.2 million at September 30, 2016 and December 31, 2015, respectively, which included accrued interest and any nonperformance risk adjustments. If we had breached any of these provisions at September 30, 2016 or December 31, 2015, we could have been required to settle our obligations under these agreements at their aggregate termination value of \$6.7 million and \$8.3 million, respectively.

Net Investment Hedges

At September 30, 2016 and December 31, 2015, the amounts borrowed in euro outstanding under our Revolver (Note 10) were €339.0 million and €361.0 million, respectively. Additionally, we have issued euro-denominated senior notes with a principal amount of €500.0 million (Note 10), which we refer to as the 2% Senior Euro Notes. These borrowings are designated as, and are effective as, economic hedges of our net investments in foreign entities. Variability in the exchange rates of the foreign currencies with respect to the U.S. dollar impacts our financial results as the financial results of our foreign subsidiaries are translated to U.S. dollars each period, with the effect of changes in the foreign currencies to U.S. dollar exchange rates being recorded in Other comprehensive loss as part of the cumulative foreign currency translation adjustment. As a result, the borrowings in euro under our Revolver are recorded at cost in the consolidated financial statements and all changes in the value related to changes in the spot rates will be reported in the same manner as a translation adjustment, which is recorded in Other comprehensive loss as part of the cumulative foreign currency translation adjustment.

At September 30, 2016, we had foreign currency forward contracts that were designated as net investment hedges, as discussed in “Derivative Financial Instruments” above.

Note 10. Debt

Senior Unsecured Credit Facility

As of September 30, 2016, we had a senior credit facility that provided for a \$1.5 billion unsecured revolving credit facility, or our Revolver, and a \$250.0 million term loan facility, or our Term Loan Facility, which we refer to collectively as the Senior Unsecured Credit Facility. The Senior Unsecured Credit Facility also contains a \$500.0 million accordion feature that, if exercised, subject to lender commitments, would allow us to increase our maximum borrowing capacity under our Revolver from \$1.5 billion to \$2.0 billion and under the Senior Unsecured Credit Facility in the aggregate to \$2.25 billion. At September 30, 2016, the Senior Unsecured Credit Facility also permitted (i) up to \$750.0 million under our Revolver to be borrowed in certain currencies other than the U.S. dollar, (ii) swing line loans up to \$50.0 million under our Revolver, and (iii) the issuance of letters of credit under our Revolver in an aggregate amount not to exceed \$50.0 million. The Senior Unsecured Credit Facility is being used for working capital needs, to refinance our existing indebtedness, for new investments, and for other general corporate purposes.

We exercised a prior accordion feature for the Senior Unsecured Credit Facility on January 15, 2015, which allowed us to increase the maximum borrowing capacity of our Revolver from \$1.0 billion to \$1.5 billion. In connection with the exercise of this accordion feature, we incurred financing costs totaling \$3.1 million, which are being amortized to Interest expense in the consolidated financial statements over the remaining terms of the facility.

At September 30, 2016, our Revolver had unused capacity of \$1.1 billion, excluding amounts reserved for outstanding letters of credit. As of September 30, 2016, our lenders had issued letters of credit totaling \$0.6 million on our behalf in connection with certain contractual obligations, which reduce amounts that may be drawn under our Revolver by the same amount. We also incur a facility fee of 0.20% of the total commitment on our Revolver. On January 29, 2016, we exercised an option to extend our Term Loan Facility by an additional year to January 31, 2017. We have options to extend the maturity dates of the Revolver and Term Loan Facility by another year, subject to the conditions provided in the Second Amended and Restated Credit Agreement dated January 31, 2014, as amended, or the Credit Agreement.

W. P. Carey 9/30/2016 10-Q – 34

Notes to Consolidated Financial Statements (Unaudited)

The following table presents a summary of our Senior Unsecured Credit Facility (dollars in millions):

Senior Unsecured Credit Facility	Interest Rate at September 30, 2016 ^(a)	Maturity Date	Principal Outstanding Balance at	
			September 30, 2016	December 31, 2015
Revolver:				
Revolver - borrowing in euros ^(b)	EURIBOR + 1.10%	1/31/2018	\$ 378.4	\$ 393.0
Revolver - borrowing in U.S. dollars	N/A	1/31/2018	—	92.0
			378.4	485.0
Term Loan Facility ^(c)	LIBOR + 1.25%	1/31/2017	250.0	250.0
			\$ 628.4	\$ 735.0

(a) Interest rate at September 30, 2016 is based on our credit rating of BBB/Baa2.

(b) EURIBOR means Euro Interbank Offered Rate.

(c) Balance excludes unamortized deferred financing costs of \$0.1 million and \$0.3 million at September 30, 2016 and December 31, 2015, respectively (Note 2).

Senior Unsecured Notes

As of September 30, 2016, we have senior unsecured notes outstanding with an aggregate principal balance outstanding of \$1.9 billion. We refer to these notes collectively as the Senior Unsecured Notes. On September 12, 2016, we issued \$350.0 million of 4.25% Senior Notes, at a price of 99.682% of par value, in a registered public offering. These 4.25% Senior Notes have a ten-year term and are scheduled to mature on October 1, 2026.

Interest on the Senior Unsecured Notes is payable annually in arrears for our euro-denominated notes and semi-annually for U.S. dollar-denominated notes. The Senior Unsecured Notes can be redeemed at par within three months of their respective maturities, or we can call the notes at any time for the principal, accrued interest, and a make-whole amount based upon the applicable government bond yield plus 30 to 35 basis points. The following table presents a summary of our Senior Unsecured Notes (currency in millions):

Senior Unsecured Notes, net ^(a)	Issue Date	Principal Amount	Price of Par Value	Original Effective		Coupon Rate	Maturity Date	Principal Outstanding Balance at	
				Issue Discount	Interest Rate			September 30, 2016	December 31, 2015
2.0% Senior Euro Notes	1/21/2015	€ 500.0	99.220%	\$ 4.6	2.107%	2.0%	1/20/2023	\$ 558.1	\$ 544.4
4.6% Senior Notes	3/14/2014	\$ 500.0	99.639%	\$ 1.8	4.645%	4.6%	4/1/2024	500.0	500.0
4.0% Senior Notes	1/26/2015	\$ 450.0	99.372%	\$ 2.8	4.077%	4.0%	2/3/2025	450.0	450.0
4.25% Senior Notes	9/12/2016	\$ 350.0	99.682%	\$ 1.1	4.290%	4.25%	10/1/2026	350.0	—
								\$ 1,858.1	\$ 1,494.4

Aggregate balance excludes unamortized deferred financing costs totaling \$12.7 million and \$10.5 million (Note 2), and unamortized discount totaling \$8.2 million and \$7.8 million, at September 30, 2016 and December 31, 2015, respectively.

Proceeds from the issuances of these notes were used primarily to partially pay down the amounts then outstanding under our Revolver. In connection with the offerings of the 2.0% Senior Euro Notes and 4.0% Senior Notes, we incurred financing costs totaling \$7.8 million during the nine months ended September 30, 2015, and in connection with the offering of the 4.25% Senior Notes, we incurred financing costs totaling \$3.1 million during the nine months ended September 30, 2016, all of which are included in Senior unsecured notes, net in the consolidated financial statements in accordance with our adoption of ASU 2015-03 (Note 2), and are being amortized to Interest expense over the respective terms of the Senior Unsecured Notes.

Covenants

The Senior Unsecured Credit Facility and the Senior Unsecured Notes include customary financial maintenance covenants that require us to maintain certain ratios and benchmarks at the end of each quarter. The Senior Unsecured Credit Facility also contains various customary affirmative and negative covenants applicable to us and our subsidiaries, subject to materiality and other qualifications, baskets, and exceptions as outlined in the Credit Agreement.

Notes to Consolidated Financial Statements (Unaudited)

We are required to ensure that the total Restricted Payments (as defined in the Credit Agreement) in an aggregate amount in any fiscal year does not exceed the greater of (i) 95% of Adjusted Funds from Operations (as defined in the Credit Agreement) and (ii) the amount of Restricted Payments required in order for us to maintain our REIT status. Restricted Payments include quarterly dividends and the total amount of shares repurchased by us, if any, in excess of \$100.0 million per year.

Obligations under the Senior Unsecured Credit Facility may be declared immediately due and payable upon the occurrence of certain events of default as defined in the Credit Agreement, including failure to pay any principal when due and payable, failure to pay interest within five business days after becoming due, failure to comply with any covenant, representation or condition of any loan document, any change of control, cross-defaults, and certain other events as set forth in the Credit Agreement, with grace periods in some cases.

The Credit Agreement stipulates several financial covenants that require us to maintain certain ratios and benchmarks at the end of each quarter, as defined in the Credit Agreement. We were in compliance with all of these covenants at September 30, 2016.

Non-Recourse Debt

At September 30, 2016, our mortgage notes payable bore interest at fixed annual rates ranging from 2.0% to 7.8% and variable contractual annual rates ranging from 0.7% to 6.9%, with maturity dates ranging from October 2016 to June 2027.

During the nine months ended September 30, 2016, we prepaid 15 non-recourse mortgage loans totaling \$193.0 million, including a mortgage loan of \$50.8 million encumbering a property held for sale as of June 30, 2016. This property was sold in August 2016 ([Note 15](#)). In addition, we made a balloon payment at maturity on a non-recourse mortgage loan of \$18.5 million during this period. In connection with these payments, during the nine months ended September 30, 2016 we recognized a loss on extinguishment of debt of \$3.9 million, which was included in Other income and (expenses) in the consolidated financial statements.

On July 29, 2016, a jointly-owned investment with CPA[®]:17 – Global, which we consolidate, refinanced a non-recourse mortgage loan that had an outstanding balance of \$33.8 million with new financing of \$34.6 million, inclusive of the amount attributable to a noncontrolling interest of \$17.0 million. The previous loan had an interest rate of 5.9% and a maturity date of July 31, 2016. The new loan has a rate of EURIBOR plus a 3.3% margin and a term of five years.

Foreign Currency Exchange Rate Impact

During the nine months ended September 30, 2016, the U.S. dollar weakened against the euro and strengthened against the British pound sterling, resulting in an aggregate increase of \$42.1 million in the aggregate carrying values of our Non-recourse debt, net, Senior Unsecured Credit Facility - Revolver, and Senior unsecured notes, net from December 31, 2015 to September 30, 2016, with the impact of the weakening of the U.S. dollar against the euro more than offsetting the impact of the U.S. dollar strengthening against the British pound sterling.

Scheduled Debt Principal Payments

Scheduled debt principal payments during the remainder of 2016, each of the next four calendar years following December 31, 2016, and thereafter through 2027 are as follows (in thousands):

Years Ending December 31, Total ^(a)

Edgar Filing: W. P. Carey Inc. - Form 10-Q

2016 (remainder)	\$94,036
2017	878,564
2018	649,558
2019	99,962
2020	219,767
Thereafter through 2027	2,471,905
	4,413,792
Deferred financing costs ^(b)	(13,879)
Unamortized discount, net ^(c)	(8,093)
Total	\$4,391,820

W. P. Carey 9/30/2016 10-Q – 36

Notes to Consolidated Financial Statements (Unaudited)

(a) Certain amounts are based on the applicable foreign currency exchange rate at September 30, 2016.

In accordance with ASU 2015-03, we reclassified deferred financing costs from Other assets, net to Non-recourse (b) debt, net, Senior Unsecured Notes, net, and Senior Unsecured Credit Facility - Term Loan, net as of December 31, 2015 (Note 2).

Represents the unamortized discount on the Senior Unsecured Notes of \$8.2 million, partially offset by (c) unamortized premium of \$0.1 million in the aggregate resulting from the assumption of property-level debt in connection with the CPA[®]:15 Merger and CPA[®]:16 Merger (Note 1).

Note 11. Commitments and Contingencies

At September 30, 2016, we were not involved in any material litigation. Various claims and lawsuits arising in the normal course of business are pending against us. The results of these proceedings are not expected to have a material adverse effect on our consolidated financial position or results of operations.

Note 12. Restructuring and Other Compensation

In connection with the resignation of our then-Chief Executive Officer, Trevor P. Bond, we and Mr. Bond entered into a letter agreement, dated February 10, 2016. Under the terms of the agreement, subject to certain conditions, Mr. Bond will be entitled to receive the severance benefits provided for in his employment agreement and, subject to satisfaction of applicable performance conditions and proration, vesting of his outstanding unvested performance stock units, or PSUs, in accordance with their terms. In addition, the portion of his previously-granted restricted stock units, or RSUs, that were scheduled to vest on February 15, 2016, which would have been forfeited upon separation pursuant to their terms, were allowed to vest on that date. In connection with the separation agreement, we recorded \$5.1 million of severance-related expenses during the nine months ended September 30, 2016, which are included in Restructuring and other compensation in the consolidated financial statements.

In February 2016, we entered into an agreement with Catherine D. Rice, our former Chief Financial Officer, in connection with the termination of her employment, which provides for the continued vesting of her outstanding RSUs and PSUs pursuant to their terms as though her employment had continued through their respective vesting dates. In connection with the modification of these award terms, we recorded incremental stock-based compensation expense of \$2.4 million during the nine months ended September 30, 2016, which is included in Restructuring and other compensation in the consolidated financial statements.

In March 2016, as part of a cost savings initiative, we undertook a reduction in force, or RIF, and realigned and consolidated certain positions within the company, resulting in employee headcount reductions. As a result of these reductions in headcount and the separations described above, during the nine months ended September 30, 2016, we recorded \$8.2 million of severance and benefits, \$3.2 million of stock-based compensation, and \$0.5 million of other related costs, which are all included in Restructuring and other compensation in the consolidated financial statements.

As of September 30, 2016, the accrued liability for these severance obligations was \$4.3 million and is included within Accounts payable, accrued expenses and other liabilities in the consolidated financial statements.

Note 13. Stock-Based Compensation and Equity

Stock-Based Compensation

We maintain several stock-based compensation plans, which are more fully described in the 2015 Annual Report. There have been no significant changes to the terms and conditions of any of our stock-based compensation plans or arrangements during the nine months ended September 30, 2016. During the nine months ended September 30, 2016 and 2015, we recorded stock-based compensation expense of \$18.2 million and \$16.1 million, respectively, of which \$3.2 million was included in Restructuring and other compensation for the nine months ended September 30, 2016 (Note 12).

W. P. Carey 9/30/2016 10-Q – 37

Notes to Consolidated Financial Statements (Unaudited)

Restricted and Conditional Awards

Nonvested restricted stock awards, or RSAs, RSUs, and PSUs at September 30, 2016 and changes during the nine months ended September 30, 2016 were as follows:

	RSA and RSU Awards		PSU Awards	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Nonvested at January 1, 2016	356,771	\$ 64.09	340,358	\$ 52.26
Granted ^(a)	277,813	58.27	200,005	73.18
Vested ^(b)	(214,682)	61.22	(180,683)	80.22
Forfeited	(44,514)	62.08	(35,241)	75.33
Adjustment ^(c)	—	—	41,097	93.23
Nonvested at September 30, 2016 ^(d)	375,388	\$ 61.66	365,536	\$ 72.52

The grant date fair value of RSAs and RSUs reflect our stock price on the date of grant. The grant date fair value of PSUs were determined utilizing a Monte Carlo simulation model to generate a range of possible future stock prices for both us and the plan defined peer index over the three-year performance period. To estimate the fair value of ^(a) PSUs granted during the nine months ended September 30, 2016, we used risk-free interest rates ranging from 0.9% - 1.1% and expected volatility rates ranging from 18.2% - 19.1% (the plan defined peer index assumes a range of 15.0% - 15.6%) and assumed a dividend yield of zero.

The total fair value of shares vested during the nine months ended September 30, 2016 was \$27.6 million.

Employees have the option to take immediate delivery of the shares upon vesting or defer receipt to a future date, pursuant to previously-made deferral elections. At September 30, 2016 and December 31, 2015, we had an ^(b) obligation to issue 1,219,502 and 1,395,907 shares, respectively, of our common stock underlying such deferred awards, which is recorded within W. P. Carey stockholders' equity as a Deferred compensation obligation of \$50.6 million and \$56.0 million, respectively.

Vesting and payment of the PSUs is conditioned upon certain company and/or market performance goals being met during the relevant three-year performance period. The ultimate number of PSUs to be vested will depend on the ^(c) extent to which the performance goals are met and can range from zero to three times the original awards. As a result, we recorded adjustments to reflect the number of shares expected to be issued when the PSUs vest.

At September 30, 2016, total unrecognized compensation expense related to these awards was approximately \$27.3 ^(d) million, with an aggregate weighted-average remaining term of 2.1 years.

During the three and nine months ended September 30, 2016, 6,396 and 103,694 stock options, respectively, were exercised with an aggregate intrinsic value of \$0.2 million and \$3.5 million, respectively. At September 30, 2016, there were 154,831 stock options outstanding, of which 144,573 were exercisable.

Notes to Consolidated Financial Statements (Unaudited)

Earnings Per Share

Under current authoritative guidance for determining earnings per share, all nonvested share-based payment awards that contain non-forfeitable rights to distributions are considered to be participating securities and therefore are included in the computation of earnings per share under the two-class method. The two-class method is an earnings allocation formula that determines earnings per share for each class of common shares and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings. Our nonvested RSUs and RSAs contain rights to receive non-forfeitable distribution equivalents or distributions, respectively, and therefore we apply the two-class method of computing earnings per share. The calculation of earnings per share below excludes the income attributable to the nonvested RSUs and RSAs from the numerator and such nonvested shares in the denominator. The following table summarizes basic and diluted earnings (in thousands, except share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Net income attributable to W. P. Carey	\$ 110,943	\$ 21,745	\$ 220,043	\$ 121,209
Allocation of distribution equivalents paid on nonvested RSUs and RSAs in excess of income	(386)	(73)	(766)	(408)
Net income – basic and diluted	\$ 110,557	\$ 21,672	\$ 219,277	\$ 120,801
Weighted-average shares outstanding – basic	107,221,668	105,813,237	106,493,145	105,627,423
Effect of dilutive securities	246,361	523,803	360,029	830,072
Weighted-average shares outstanding – diluted	107,468,029	106,337,040	106,853,174	106,457,495

For the three and nine months ended September 30, 2016 and 2015, there were no potentially dilutive securities excluded from the computation of diluted earnings per share.

At-The-Market Equity Offering Program

On June 3, 2015, we filed a prospectus supplement with the SEC pursuant to which we may offer and sell shares of our common stock, up to an aggregate gross sales price of \$400.0 million, through an “at-the-market,” or ATM, offering program with a consortium of banks as sales agents. During the three and nine months ended September 30, 2016, we issued 968,535 and 1,249,836 shares, respectively, of our common stock under the ATM program at a weighted-average price of \$68.54 and \$68.52 per share, respectively, for net proceeds of \$65.4 million and \$84.4 million, respectively. As of September 30, 2016, \$314.4 million remained available for issuance under our ATM program.

Redeemable Noncontrolling Interest

We account for the noncontrolling interest in WPCI held by a third party as a redeemable noncontrolling interest, because, pursuant to a put option held by the third party, we had an obligation to redeem the interest at fair value, subject to certain conditions. This obligation was required to be settled in shares of our common stock. On October 1, 2013, we received a notice from the holder of the noncontrolling interest in WPCI regarding the exercise of the put option, pursuant to which we were required to purchase the third party’s 7.7% interest in WPCI. Pursuant to the terms of the related put agreement, the value of that interest was determined based on a third-party valuation as of October 31, 2013, which is the end of the month that the put option was exercised. In March 2016, we issued 217,011 shares of our common stock to the holder of the redeemable noncontrolling interest, which had a value of \$13.4 million at the date of issuance pursuant to a formula set forth in the put agreement. Through the date of this Report, the third party has not transferred his interests in WPCI to us pursuant to the put agreement because of a dispute regarding any

amounts that may still be owed to him.

W. P. Carey 9/30/2016 10-Q – 39

Notes to Consolidated Financial Statements (Unaudited)

Distributions Declared

During the third quarter of 2016, we declared a quarterly distribution of \$0.9850 per share, which was paid on October 14, 2016 to stockholders of record on October 3, 2016, in the aggregate amount of \$106.5 million.

During the nine months ended September 30, 2016, we declared distributions totaling \$2.9392 per share in the aggregate amount of \$315.4 million.

Note 14. Income Taxes

We elected to be treated as a REIT and believe that we have been organized and have operated in such a manner to maintain our qualification as a REIT for federal and state income tax purposes. As a REIT, we are generally not

subject to corporate level federal income taxes on earnings distributed to our stockholders. Since inception, we have distributed at least 100% of our taxable income annually and intend to do so for the tax year ending December 31, 2016. Accordingly, we have not included any provisions for federal income taxes related to the REIT in the accompanying consolidated financial statements for the three and nine months ended September 30, 2016 and 2015.

Certain of our subsidiaries have elected TRS status. A TRS may provide certain services considered impermissible for REITs and may hold assets that REITs may not hold directly. We also own real property in jurisdictions outside the United States through foreign subsidiaries and are subject to income taxes on our pre-tax income earned from properties in such countries.

W. P. Carey 9/30/2016 10-Q – 41

Notes to Consolidated Financial Statements (Unaudited)

The accompanying consolidated financial statements include an interim tax provision for our TRSs and foreign subsidiaries, as necessary, for the three and nine months ended September 30, 2016 and 2015. Current income tax expense was \$4.8 million for both the three months ended September 30, 2016 and 2015, and \$14.7 million and \$24.9 million for the nine months ended September 30, 2016 and 2015, respectively.

During the second quarter of 2016, we identified and recorded out-of-period adjustments related to adjustments to prior period income tax returns. This adjustment is reflected as a \$3.0 million reduction of our Benefit from income taxes in the consolidated statements of income for the nine months ended September 30, 2016 (Note 2), and is included in current income tax expense for the nine months ended September 30, 2016.

Our TRSs and foreign subsidiaries are subject to U.S. federal, state, and foreign income taxes. As such, deferred tax assets and liabilities are established for temporary differences between the financial reporting basis and the tax basis of assets and liabilities at the enacted tax rates expected to be in effect when the temporary differences reverse. A valuation allowance for deferred tax assets is provided if we believe that more likely than not we will not realize the deferred tax asset based on available evidence at the time the determination is made. A change in circumstances may cause us to change our judgment about whether a deferred tax asset will more likely than not be realized. We generally report any change in the valuation allowance through our income statement in the period in which such changes in circumstances occur. Deferred tax assets (net of valuation allowance) and liabilities for our TRSs and foreign subsidiaries were recorded, as necessary, as of September 30, 2016 and December 31, 2015. The majority of our deferred tax assets relate to the timing difference between the financial reporting basis and tax basis for stock based compensation expense. The majority of our deferred tax liabilities relate to differences between the tax basis and financial reporting basis of the assets acquired in acquisitions treated as business combinations under GAAP and in which the tax basis of such assets was not stepped up to fair value for income tax purposes. Provision for income taxes included deferred income tax benefits of \$1.6 million and \$1.4 million for the three months ended September 30, 2016 and 2015, respectively, and \$19.2 million and \$4.5 million for the nine months ended September 30, 2016 and 2015, respectively.

Note 15. Property Dispositions

From time to time, we may decide to sell a property. We have an active capital recycling program, with a goal of extending the average lease term through reinvestment, improving portfolio credit quality through dispositions and acquisitions of assets, increasing the asset criticality factor in our portfolio, and/or executing strategic dispositions of assets. We may make a decision to dispose of a property when it is vacant as a result of tenants vacating space, tenants electing not to renew their leases, tenant insolvency, or lease rejection in the bankruptcy process. In such cases, we assess whether we can obtain the highest value from the property by selling it, as opposed to re-leasing it. We may also sell a property when we receive an unsolicited offer or negotiate a price for an investment that is consistent with our strategy for that investment. When it is appropriate to do so, we classify the property as an asset held for sale on our consolidated balance sheet. All property dispositions are recorded within our Owned Real Estate segment.

The results of operations for properties that have been sold or classified as held for sale are included in the consolidated financial statements and are summarized as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Revenues	\$16,242	\$21,292	\$90,264	\$63,880
Expenses	(1,872)	(13,733)	(40,330)	(39,128)
Gain on sale of real estate, net of tax	48,929	1,779	67,873	2,980

Edgar Filing: W. P. Carey Inc. - Form 10-Q

Impairment charges	(5,524)	(1,389)	(40,952)	(4,071)
(Loss) gain on extinguishment of debt	(2,058)	2,281	(3,999)	2,281
Benefit from (provision for) income taxes	836	(1,050)	11,260	(3,121)
Income from properties sold or classified as held for sale, net of income taxes ^(a)	\$56,553	\$9,180	\$84,116	\$22,821

Amounts included net income attributable to noncontrolling interests of \$1.5 million and \$2.0 million for the nine (a) months ended September 30, 2016 and 2015, respectively. We did not recognize net income attributable to noncontrolling interests for the three months ended September 30, 2016 and 2015.

W. P. Carey 9/30/2016 10-Q – 42

Notes to Consolidated Financial Statements (Unaudited)

2016 — During the three and nine months ended September 30, 2016, we sold three properties, and ten properties and a parcel of vacant land, respectively, for total proceeds of \$192.0 million and \$392.6 million, respectively, net of selling costs, and recognized a net gain on these sales of \$37.4 million and \$39.9 million, respectively, inclusive of amounts attributable to noncontrolling interests of \$0.9 million for the nine months ended September 30, 2016. In April 2016, we transferred ownership of a vacant international property and the related non-recourse mortgage loan, which had a carrying value of \$39.8 million and an outstanding balance of \$60.9 million, respectively, on the date of transfer, to the mortgage lender, resulting in a net gain of \$16.4 million. In addition, in July 2016, a vacant domestic property with an asset carrying value of \$13.7 million, which was encumbered by a \$27.0 million mortgage loan, was foreclosed upon by the mortgage lender, resulting in a net gain of \$11.6 million.

In connection with those sales that constituted businesses, during the nine months ended September 30, 2016 we allocated goodwill totaling \$32.9 million to the cost basis of the properties for our Owned Real Estate segment based on the relative fair value at the time of the sale (Note 7). At September 30, 2016, we had 16 properties classified as assets held for sale (Note 4). During the three and nine months ended September 30, 2016, we recognized impairment charges totaling \$5.5 million and \$41.0 million, respectively, on a portfolio of 14 of these properties (Note 8).

In the fourth quarter of 2015, we executed a lease amendment with a tenant in a domestic office building. The amendment extended the lease term an additional 15 years to January 31, 2037 and provided a one-time rent payment of \$25.0 million, which was paid to us on December 18, 2015. The lease amendment also provided an option to terminate the lease effective February 29, 2016, with additional lease termination fees of \$22.2 million to be paid to us on or five days before February 29, 2016 upon exercise of the option. The tenant exercised the option on January 1, 2016. The aggregate of the additional rent payment of \$25.0 million and the lease termination fees of \$22.2 million were amortized to lease termination income from the lease amendment date on December 4, 2015 through the end of the non-cancelable lease term on February 29, 2016, resulting in \$15.0 million recognized during the year ended December 31, 2015 and \$32.2 million recognized during the three months ended March 31, 2016 within Lease termination income and other in the consolidated financial statements. In connection with the lease amendment, we defeased the mortgage loan encumbering the property with a principal balance of \$36.5 million and recognized a loss on extinguishment of debt of \$5.3 million, which was included in Other income and (expenses) in the consolidated financial statements for the year ended December 31, 2015. In addition, during the fourth quarter of 2015, we entered into an agreement to sell the property to a third party and the buyer placed a deposit of \$12.7 million for the purchase of the property that was held in escrow. At December 31, 2015, this property was classified as held for sale (Note 4). During the three months ended March 31, 2016, we sold the property for proceeds of \$44.4 million, net of selling costs, and recognized a loss on the sale of \$10.7 million.

2015 — During the nine months ended September 30, 2015, we sold 11 properties for total proceeds of \$28.8 million, net of selling costs, and we recognized a net gain on these sales of \$2.4 million. In addition, during July 2015, a domestic vacant property was foreclosed upon and sold for \$1.4 million. We recognized a gain on sale of \$0.6 million in connection with that disposition. In connection with those sales that constituted a business, during the nine months ended September 30, 2015 we allocated goodwill totaling \$1.1 million to the cost basis of the properties, for our Owned Real Estate segment, based on the relative fair value at the time of the sale (Note 7).

Notes to Consolidated Financial Statements (Unaudited)

Note 16. Segment Reporting

We evaluate our results from operations through our two major business segments — Owned Real Estate and Investment Management (Note 1). The following tables present a summary of comparative results and assets for these business segments (in thousands):

In accordance with ASU 2015-03, we reclassified deferred financing costs from Other assets, net to Non-recourse debt, net, Senior Unsecured Notes, net, and Senior Unsecured Credit Facility - Term Loan, net as of December 31, 2015 (Note 2).

Note 17. Subsequent Events

Dispositions

In October 2016, we sold 16 international properties, including 15 international properties that were held for sale at September 30, 2016 (Note 4), for gross proceeds of \$132.3 million. At closing, we repaid the mortgage loans encumbering the properties with an aggregate principal balance of \$40.7 million.

In addition, on October 13, 2016, we transferred ownership of an international property and the related non-recourse mortgage loan to the mortgage lender. The property was held for sale at September 30, 2016 (Note 4). At the date of the transfer, the property had an asset carrying value of \$3.4 million and the related non-recourse mortgage loan had an outstanding balance of \$4.5 million.

Loan to Affiliate

On October 31, 2016, we made a \$27.5 million loan to CPA[®]:18 – Global at an annual interest rate of LIBOR plus 1.1% with a scheduled maturity date of October 31, 2017 for the purpose of facilitating an investment approved by CPA[®]:18 – Global’s investment committee (Note 3).

Mortgage Loan Repayments

On November 1, 2016, we repaid four non-recourse mortgage loans with an aggregate principal balance of \$30.1 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to provide the reader with information that will assist in understanding our financial statements and the reasons for changes in certain key components of our financial statements from period to period. Management's Discussion and Analysis of Financial Condition and Results of Operations also provides the reader with our perspective on our financial position and liquidity, as well as certain other factors that may affect our future results. The discussion also provides information about the financial results of the segments of our business to provide a better understanding of how these segments and their results affect our financial condition and results of operations. Our Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the 2015 Annual Report and subsequent reports filed under the Securities Exchange Act of 1934.

Business Overview

As described in more detail in Item 1 of the 2015 Annual Report, we provide long-term financing via sale-leaseback and build-to-suit transactions for companies worldwide and, as of September 30, 2016, manage a global investment portfolio of 1,369 properties, including 910 net-leased properties and two operating properties within our owned real estate portfolio. Our business operates in two segments – Owned Real Estate and Investment Management.

Significant Developments

Management Changes

On September 21, 2016, we announced that Mr. Mark A. Alexander, age 58, and Mr. Chris Niehaus, age 57, were appointed to our board of directors. We also announced the retirement of two directors, Mr. Robert Mittelstaedt, Jr., age 73, and Dr. Karsten von Köller, age 76, from the board, effective as of the same date.

On September 22, 2016, we announced that Mr. Hisham A. Kader resigned as our Chief Financial Officer. Ms. ToniAnn Sanzone, our Chief Accounting Officer, was appointed interim Chief Financial Officer, having served as Chief Accounting Officer since 2015. Ms. Sanzone joined us in 2013 as Controller. We have engaged a recruiting firm in our search for a successor Chief Financial Officer.

On October 5, 2016, we announced that Mr. Arjun Mahalingam was appointed Chief Accounting Officer, succeeding Ms. Sanzone in that role. Mr. Mahalingam joined us in 2013 and has served as our Controller since 2015.

Issuance of Senior Unsecured Notes

On September 12, 2016, we issued \$350.0 million of 4.25% Senior Notes, at a price of 99.682% of par value, in a registered public offering. These 4.25% Senior Notes have a ten-year term and are scheduled to mature on October 1, 2026 ([Note 10](#)).

At-The-Market Equity Offering Program

During the three and nine months ended September 30, 2016, we issued 968,535 and 1,249,836 shares, respectively, of our common stock under the ATM program at a weighted-average price of \$68.54 and \$68.52 per share, respectively, for net proceeds of \$65.4 million and \$84.4 million, respectively ([Note 13](#)). As of September 30, 2016, \$314.4 million remained available for issuance under our ATM program.

Foreign Currency Fluctuation

We own investments outside the United States, primarily in Europe, Australia, and Asia, and as a result, are subject to risk from exchange rate fluctuations in various foreign currencies, primarily the euro, and to a lesser extent the British pound sterling. The average exchange rate of the U.S. dollar in relation to the euro did not substantially change during the three and nine months ended September 30, 2016 as compared to the same periods in 2015. The average exchange rate of the U.S. dollar in relation to the British pound sterling decreased by approximately 15.2% and 9.0% during the three and nine months ended September 30, 2016, respectively, as compared to the same periods in 2015, primarily as a result of the referendum held in June 2016 in which voters in the United Kingdom approved an exit from the European Union, known as Brexit. In October 2016, an announcement by the Prime Minister of the United Kingdom that the formal withdrawal process would be triggered by the first quarter of 2017 resulted in a decrease in the exchange rate between the U.S. dollar and the British pound sterling.

W. P. Carey 9/30/2016 10-Q – 47

We try to manage our exposure related to fluctuations in exchange rates of the U.S. dollar relative to the respective currencies of our foreign operations by entering into hedging arrangements utilizing derivatives instruments such as foreign currency forward contracts and collars. We also try to manage our exposure related to fluctuations in the exchange rate between the U.S. dollar and foreign currencies by incurring debt denominated in foreign currencies, including non-recourse debt, the Senior Euro Notes, and our ability to draw down on our Revolver.

Financial Update

Our results for the three and nine months ended September 30, 2016 as compared to the same periods in 2015 included the following significant items:

Properties acquired or placed into service in 2015 and 2016 generated increases in lease revenues and Property level contribution of \$11.1 million and \$6.2 million, respectively, for the three months ended September 30, 2016 as compared to the same period in 2015, and by \$30.8 million and \$16.2 million, respectively, for the nine months ended September 30, 2016 as compared to the same period in 2015;

We recognized an aggregate gain on sale of real estate of \$49.1 million and \$68.1 million during the three and nine months ended September 30, 2016, respectively, in connection with the disposition of properties ([Note 15](#));

We recognized lease termination income of \$32.2 million related to a property sold during the nine months ended September 30, 2016 ([Note 15](#));

Interest expense decreased by \$5.3 million and \$5.8 million for the three and nine months ended September 30, 2016, respectively, as compared to the same periods in 2015, primarily due to a lower weighted-average interest rate on our debt during the current year periods as a result of paying off certain non-recourse mortgage loans with our Revolver, which bears interest at a lower rate than our mortgage loans ([Note 10](#));

Structuring revenue decreased by \$36.7 million for the nine months ended September 30, 2016 as compared to the same period in 2015 due to lower investment volume for the Managed REITs during the current year period;

Asset management revenue increased by \$3.0 million and \$9.4 million for the three and nine months ended September 30, 2016, respectively, as compared to the same periods in 2015, primarily as a result of the growth in assets under management for the Managed Programs;

We incurred \$11.9 million of Restructuring and other compensation expenses during the nine months ended September 30, 2016 resulting from the RIF and other employee severance arrangements ([Note 12](#));

General and administrative expenses decreased by \$7.1 million and \$20.9 million for the three and nine months ended September 30, 2016, respectively, as compared to the same periods in 2015, due to lower commissions to investment officers resulting from lower investment volume and lower compensation and professional fees resulting from the RIF and other cost savings initiatives;

We recognized impairment charges on real estate assets totaling \$14.4 million and \$49.9 million during the three and nine months ended September 30, 2016, respectively ([Note 8](#)); and

We provided an allowance for credit losses of \$7.1 million on a direct financing lease during the nine months ended September 30, 2016 ([Note 5](#)).

We consider the performance metrics listed above, including Adjusted funds from operations, or AFFO, a supplemental measure that is not defined by GAAP, referred to as a non-GAAP measure, to be important measures in the evaluation of our results of operations and capital resources. We evaluate our results of operations with a primary focus on the ability to generate cash flow necessary to meet our objective of funding distributions to stockholders. See Supplemental Financial Measures below for our definition of this non-GAAP measure and a reconciliation to its most directly comparable GAAP measure.

Consolidated Results

Revenues and Net Income Attributable to W. P. Carey

Total revenues increased for the three months ended September 30, 2016 as compared to the same period in 2015, primarily due to higher revenues within our Investment Management segment, partially offset by lower revenues

within our Owned Real Estate segment. Investment Management revenue increased primarily as a result of an increase in structuring revenue due to higher investment volume for the Managed REITs during the current year period and an increase in asset management revenue, primarily as a result of growth in assets under management for the Managed Programs. The decrease in revenues within our

W. P. Carey 9/30/2016 10-Q – 49

Owned Real Estate segment was primarily due to lower lease termination income during the current year period and lower lease revenue due to dispositions of properties since September 30, 2015.

Total revenues increased for the nine months ended September 30, 2016 as compared to the same period in 2015, primarily due to higher revenues within our Owned Real Estate segment, partially offset by lower revenues within our Investment Management segment. The growth in revenues within our Owned Real Estate segment was generated substantially from lease termination income related to a domestic property sold during the nine months ended September 30, 2016 (Note 15), as well as from new acquisitions in 2015 and 2016. Investment Management revenue declined primarily as a result of a decrease in structuring revenue due to lower investment volume for the Managed REITs during the current year period, partially offset by an increase in asset management revenue.

Net income attributable to W. P. Carey increased for the three and nine months ended September 30, 2016 as compared to the same periods in 2015, primarily due to the aggregate gain on sale of real estate recognized during the current year periods (Note 15), an overall decline in general and administrative expenses, decreases in interest expense due to a lower weighted-average interest rate on our debt during the current year periods, and the increases in total revenues described above. The increases in Net income attributable to W. P. Carey for the nine months ended September 30, 2016 as compared to the same period in 2015 were partially offset by impairment charges and other compensation-related expenses resulting from the RIF and employment severance arrangements recognized during the current year period. These drivers also resulted in a decline in income taxes, generating an income tax benefit in the current year period as compared to an income tax expense in the prior year period.

Net Cash Provided by Operating Activities

Net cash provided by operating activities increased for the nine months ended September 30, 2016 as compared to the same period in 2015, primarily due to the lease termination income received in connection with the sale of a property during the nine months ended September 30, 2016, an increase in operating cash flow generated from new acquisitions in 2015 and 2016, and higher Distributions of Available Cash received from the Managed REITs, partially offset by a decrease in structuring revenue received in cash from the Managed REITs due to lower investment volume during the current year period.

AFFO

AFFO increased for the three and nine months ended September 30, 2016 as compared to the same periods in 2015, primarily due to the increases in total revenues described above, higher Distributions of Available Cash received from the Managed REITs, lower general and administrative expenses, and lower interest expense, as well as a decrease in current income tax expense for the nine months ended September 30, 2016 as compared to the same period in 2015.

Distributions

Our cash distributions totaled \$2.9188 per share during the nine months ended September 30, 2016, comprised of three quarterly cash distributions of \$0.9646, \$0.9742, and \$0.9800 per share paid on January 15, April 15, and July 15, 2016, respectively. In addition, during the third quarter of 2016, our board of directors declared a quarterly distribution of \$0.9850 per share, or \$3.94 on an annualized basis, which was paid on October 14, 2016 to stockholders of record on October 3, 2016.

Owned Real Estate

Acquisitions

Edgar Filing: W. P. Carey Inc. - Form 10-Q

During the nine months ended September 30, 2016, we acquired two investments totaling \$385.8 million, with an additional commitment for \$128.1 million of build-to-suit financing (Note 4), which included:

- one investment of \$167.7 million in three private school campuses in Coconut Creek and Windermere, Florida and Houston, Texas, with a commitment to fund \$128.1 million of build-to-suit financing over the next four years in order to fund expansions of the existing facilities; and
- one investment of \$218.2 million in 43 manufacturing facilities in various locations in the United States and six manufacturing facilities in various locations in Canada.

W. P. Carey 9/30/2016 10-Q – 50

Dispositions

During the nine months ended September 30, 2016, we sold ten properties and a parcel of vacant land from our Owned Real Estate portfolio for total proceeds of \$392.6 million, net of selling costs, and recorded a net gain on sale of real estate of \$39.9 million, inclusive of amounts attributable to noncontrolling interests of \$0.9 million. In connection with the sale of one of these properties, we recognized \$32.2 million of lease termination income during the nine months ended September 30, 2016. We transferred ownership of a vacant international property and the related non-recourse mortgage loan, which had a carrying value of \$39.8 million and an outstanding balance of \$60.9 million, respectively, on the date of transfer, to the mortgage lender, resulting in a net gain of \$16.4 million. In addition, in July 2016, a vacant domestic property with an asset carrying value of \$13.7 million, which was encumbered by a \$27.0 million mortgage loan, was foreclosed upon by the mortgage lender, resulting in a net gain of \$11.6 million (Note 15).

Financing Transactions

During the nine months ended September 30, 2016, we entered into the following financing transactions (Note 10):

On September 12, 2016, we issued \$350.0 million of 4.25% Senior Notes, at a price of 99.682% of par value, in a registered public offering. These 4.25% Senior Notes have a ten-year term and are scheduled to mature on October 1, 2026.

On July 29, 2016, a jointly-owned investment with CPA[®]:17 – Global, which we consolidate, refinanced a non-recourse mortgage loan that had an outstanding balance of \$33.8 million with new financing of \$34.6 million, inclusive of the amount attributable to a noncontrolling interest of \$17.0 million. The previous loan had an interest rate of 5.9% and a maturity date of July 31, 2016. The new loan has a rate of EURIBOR plus a 3.3% margin and a term of five years.

During the nine months ended September 30, 2016, we prepaid 15 non-recourse mortgage loans totaling \$193.0 million, including a mortgage loan of \$50.8 million encumbering a property that was sold in August 2016 (Note 15). In addition, we made a balloon payment at maturity on a non-recourse mortgage loan of \$18.5 million during this period. In connection with these payments, during the nine months ended September 30, 2016 we recognized a loss on extinguishment of debt of \$3.9 million, which was included in Other income and (expenses) in the consolidated financial statements.

Composition

As of September 30, 2016, our Owned Real Estate portfolio consisted of 910 net-lease properties, comprising 91.8 million square feet leased to 222 tenants, and two hotels, which are classified as operating properties. As of that date, the weighted-average lease term of the net-lease portfolio was 9.4 years and the occupancy rate was 99.1%.

Investment Management

During the nine months ended September 30, 2016, we managed CPA[®]:17 – Global, CPA[®]:18 – Global, CWI 1, CWI 2, CCIF, and CESH I. As of September 30, 2016, these Managed Programs had total assets under management of approximately \$12.2 billion.

Investment Transactions

During the nine months ended September 30, 2016, we structured new investments totaling \$1.0 billion on behalf of the Managed REITs and CESH I, on which we earned \$31.0 million in structuring revenue.

We structured investments in five domestic hotels for \$646.2 million, inclusive of acquisition-related costs, on behalf of CWI 2.

We structured investments in nine properties for an aggregate of \$156.8 million, inclusive of acquisition-related costs, on behalf of CPA[®]:18 – Global. Approximately \$81.2 million was invested internationally and \$75.6 million was invested in the United States.

We structured investments in two domestic hotels and a property adjacent to one of these hotels for an aggregate of \$108.6 million, inclusive of acquisition-related costs, on behalf of CWI 1.

We structured investments in 16 properties and a build-to-suit expansion on an existing property for an aggregate of \$105.5 million, inclusive of acquisition-related costs, on behalf of CPA[®]:17 – Global. Approximately \$95.9 million was invested in the United States and \$9.6 million was invested internationally.

W. P. Carey 9/30/2016 10-Q – 51

We structured one investment in an international property for \$30.6 million, inclusive of acquisition-related costs, on behalf of CESH I.

Financing Transactions

During the nine months ended September 30, 2016, we arranged financing totaling \$387.6 million for CWI 2, \$324.8 million for CWI 1, \$222.2 million for CPA[®]:17 – Global, and \$145.7 million for CPA[®]:18 – Global.

Investor Capital Inflows

CWI 2 commenced its initial public offering in the first quarter of 2015 and began to admit new stockholders on May 15, 2015. Through September 30, 2016, CWI 2 had raised approximately \$535.8 million through its offering, of which \$288.8 million was raised during the nine months ended September 30, 2016. We earned \$3.6 million in Dealer manager fees during the nine months ended September 30, 2016 related to this offering.

Two of the CCIF Feeder Funds commenced their respective initial public offerings in the third quarter of 2015 and invest the proceeds that they raise in the master fund, CCIF. Through September 30, 2016, these funds have invested \$91.2 million in CCIF, of which \$89.2 million was invested during the nine months ended September 30, 2016. We earned \$1.3 million in Dealer manager fees during the nine months ended September 30, 2016 related to this offering. In May 2016, a new feeder fund of CCIF, Carey Credit Income Fund 2017 T, filed a registration statement on Form N-2 with the SEC to sell up to 106,382,978 shares of common stock and intends to invest the net proceeds from the public offering in CCIF. The registration statement was declared effective by the SEC in October 2016 but fundraising has not yet commenced.

CESH I commenced its private placement offering in July 2016. We earned \$0.4 million in Dealer manager fees during the nine months ended September 30, 2016 related to this offering.

Portfolio Overview

We intend to continue to acquire a diversified portfolio of income-producing commercial real estate properties and other real estate-related assets. We expect to make these investments both domestically and internationally. Portfolio information is provided on a pro rata basis, unless otherwise noted below, to better illustrate the economic impact of our various net-leased jointly-owned investments. See Terms and Definitions below for a description of pro rata amounts.

Portfolio Summary

Occupancy (net-leased properties)	99.1	%	98.8	%
Weighted-average lease term (net-leased properties, in years)	9.4		9.0	
Number of countries	19		19	
Total assets (consolidated basis, in thousands)	\$8,468,285		\$8,742,089	
Net investments in real estate (consolidated basis, in thousands)	5,717,245		5,826,544	
			Nine Months Ended	
			September 30,	
			2016	2015
Financing obtained — consolidated (in million ^(b))			\$384.6	\$1,541.7
Financing obtained — pro rata (in million ^(b))			367.6	1,541.7
Acquisition volume (in millions, pro rata amount equals consolidated amount) ^(c)			385.8	543.3
Average U.S. dollar/euro exchange rate			1.1161	1.1148
Average U.S. dollar/British pound sterling exchange rate ^(d)			1.3939	1.5324
Change in the U.S. CPI ^(e)			2.1	% 1.3
Change in the German CPI ^(e)			0.7	% 0.3
Change in the French CPI ^(e)			0.3	% 0.1
Change in the Finnish CPI ^(e)			0.6	% (0.1)
Change in the Spanish CPI ^(e)			(0.5))% (0.7)

At September 30, 2016, operating properties consisted of two hotel properties with an average occupancy of 84.0% (a) for the nine months ended September 30, 2016. During the nine months ended September 30, 2016, we sold our remaining self-storage property (Note 15).

Both the consolidated and pro rata amounts for the nine months ended September 30, 2016 include the issuance of \$350.0 million of 4.25% Senior Notes in September 2016. The consolidated amount for the nine months ended September 30, 2016 includes the refinancing of a non-recourse mortgage loan for \$34.6 million, while the pro rata amount for the nine months ended September 30, 2016 includes our proportionate share of the refinancing of \$17.6 million. The amount for the nine months ended September 30, 2015 represents the exercise of the accordion feature under our Senior Unsecured Credit Facility in January 2015, which increased our borrowing capacity under our Revolver by \$500.0 million, and the issuances of the €500.0 million 2.0% Senior Euro Notes and \$450.0 million 4.0% Senior Notes in January 2015 (Note 10).

(c) For the nine months ended September 30, 2016, amount excludes a commitment for \$128.1 million of build-to-suit financing (Note 4). For the nine months ended September 30, 2015, amount includes acquisition-related costs for

business combinations, which were expensed in the consolidated financial statements.

The average exchange rate for the U.S. dollar in relation to the British pound sterling decreased by 9.0% during the (d) nine months ended September 30, 2016 as compared to the same period in 2015, resulting in a negative impact on earnings in 2016 from our British pound sterling-denominated investments.

(e) Many of our lease agreements include contractual increases indexed to changes in the U.S. Consumer Price Index, or CPI, or similar indices in the jurisdictions in which the properties are located.

W. P. Carey 9/30/2016 10-Q – 53

Net-Leased Portfolio

The tables below represent information about our net-leased portfolio at September 30, 2016 on a pro rata basis and, accordingly, exclude all operating properties. See Terms and Definitions below for a description of pro rata amounts and ABR.

(a) Assumes tenant does not exercise renewal option.

(b) Two month-to-month leases with ABR totaling \$0.3 million are included in 2016 ABR.

(c) For these periods, includes ABR totaling \$26.6 million from a tenant in 15 properties that were held for sale as of September 30, 2016, including \$23.8 million from leases expiring in 2018. The properties were sold subsequent to September 30, 2016 (Note 17).

Terms and Definitions

Pro Rata Metrics — The portfolio information above contains certain metrics prepared under the pro rata consolidation method. We refer to these metrics as pro rata metrics. We have a number of investments, usually with our affiliates, in which our economic ownership is less than 100%. Under the full consolidation method, we report 100% of the assets, liabilities, revenues, and expenses of those investments that are deemed to be under our control or for which we are deemed to be the primary beneficiary, even if our ownership is less than 100%. Also, for all other jointly-owned investments, which we do not control, we report our net investment and our net income or loss from that investment. Under the pro rata consolidation method, we present our proportionate share, based on our economic ownership of these jointly-owned investments, of the portfolio metrics of those investments.

ABR — ABR represents contractual minimum annualized base rent for our net-leased properties and reflects exchange rates as of the date of this Report. If there is a rent abatement, we annualize the first monthly contractual base rent following the free rent period. ABR is not applicable to operating properties.

Results of Operations

We operate in two reportable segments: Owned Real Estate and Investment Management. We evaluate our results of operations with a primary focus on increasing and enhancing the value, quality, and number of properties in our Owned Real Estate segment, as well as assets owned by the Managed Programs, which are managed by our Investment Management segment. We focus our efforts on improving underperforming assets through re-leasing efforts, including negotiation of lease renewals, or selectively selling assets in order to increase value in our real estate portfolio. The ability to increase assets under management by structuring investments on behalf of the Managed Programs is affected, among other things, by our ability to raise capital on behalf of the Managed Programs and our ability to identify and enter into appropriate investments and related financing on their behalf.

Owned Real Estate

Lease Composition and Leasing Activities

As of September 30, 2016, 94.9% of our net leases, based on ABR, have rent increases, of which 66.0% have adjustments based on CPI or similar indices and 28.9% have fixed rent increases. CPI and similar rent adjustments are based on formulas indexed to changes in the CPI, or other similar indices for the jurisdiction in which the property is located, some of which have caps and/or floors. Over the next 12 months, fixed rent escalations are scheduled to increase ABR by an average of 3.4%. We own international investments, and therefore lease revenues from these investments are subject to exchange rate fluctuations in various foreign currencies, primarily the euro.

The following discussion presents a summary of rents on existing properties arising from leases with new tenants and renewed leases with existing tenants for the periods presented and, therefore, does not include new acquisitions for our portfolio during the periods presented.

During the three months ended September 30, 2016, we entered into two new leases for a total of approximately 0.1 million square feet of leased space. The average rent for the leased space is \$12.94 per square foot. We provided a tenant improvement allowance on two of these leases totaling \$2.2 million. In addition, during the three months ended September 30, 2016, we extended six leases with existing tenants for a total of approximately 2.2 million square feet of leased space. The estimated average new rent for the leased space is \$3.67 per square foot, compared to the average former rent of \$3.99 per square foot, reflecting current market conditions. We provided a tenant improvement allowance on one of these leases totaling \$3.2 million.

During the nine months ended September 30, 2016, we entered into six new leases for a total of approximately 0.4 million square feet of leased space. The average rent for the leased space is \$10.38 per square foot. We provided a tenant improvement allowance on four of these leases totaling \$2.6 million. In addition, during the nine months ended September 30, 2016, we extended 13 leases with existing tenants for a total of approximately 3.0 million square feet of leased space. The estimated average new rent for the leased space is \$6.72 per square foot, compared to the average former rent of \$7.98 per square foot, reflecting current market conditions. We provided a tenant improvement allowance on two of these leases totaling \$10.2 million.

Property Level Contribution

The following table presents the Property level contribution for our consolidated net-leased and operating properties as well as a reconciliation to Net income from Owned Real Estate attributable to W. P. Carey (in thousands):

W. P. Carey 9/30/2016 10-Q – 61

Property level contribution is a non-GAAP financial measure that we believe to be a useful supplemental measure for management and investors in evaluating and analyzing the financial results of our net-leased and operating properties included in our Owned Real Estate segment over time. Property level contribution presents the lease and operating property revenues, less property expenses and depreciation and amortization. We believe that Property level contribution allows for meaningful comparison between periods of the direct costs of owning and operating our net-leased assets and operating properties. When a property is leased on a net-lease basis, reimbursable tenant costs are recorded as both income and property expense and, therefore, have no impact on the Property level contribution. While we believe that Property level contribution is a useful supplemental measure, it should not be considered as an alternative to Net income from Owned Real Estate attributable to W. P. Carey as an indication of our operating performance.

Existing Net-Leased Properties

Existing net-leased properties are those that we acquired or placed into service prior to January 1, 2015 and that were not sold or held for sale during the periods presented. For the periods presented, there were 727 existing net-leased properties.

For the three months ended September 30, 2016, as compared to the same period in 2015, property level contribution for existing net-leased properties increased by \$7.3 million, primarily due to a decrease in depreciation and amortization expense of \$11.4 million, partially offset by a decrease in lease revenues of \$3.8 million. Depreciation and amortization decreased primarily due to the acceleration of lease intangible amortization in the prior year period as a result of various lease terminations. Lease revenues decreased by \$4.7 million as a result of lease expirations and terminations and by \$1.6 million as a result of lease restructurings, which reduced lease revenues earned from these properties, partially offset by an increase of \$2.1 million primarily due to new leases entered into upon the expiration of existing leases and an increase of \$0.7 million due to scheduled rent increases.

For the nine months ended September 30, 2016, as compared to the same period in 2015, property level contribution for existing net-leased properties increased by \$0.3 million, due to a decrease in depreciation and amortization expense of \$15.6 million, partially offset by a decrease in lease revenues of \$8.0 million and an increase in property expenses of \$7.3 million. Depreciation and amortization decreased primarily due to the acceleration of lease intangible amortization in the prior year period as a result of various lease terminations. Depreciation and amortization expense also decreased as a result of the decrease in the average exchange rate of the U.S. dollar in relation to foreign currencies (primarily the British pound sterling) between the periods. Lease revenues decreased by \$13.5 million as a result of lease expirations and terminations, \$3.3 million as a result of lease restructurings, which reduced lease revenues earned from these properties, and \$1.3 million as a result of the decrease in the average exchange rate of the U.S. dollar in relation to foreign currencies (primarily the British pound sterling) between the periods, partially offset by an increase of \$6.0 million primarily due to new leases entered into upon the expiration of existing leases and an increase of \$3.4 million due to scheduled rent increases. In addition, during the nine months ended September 30, 2016, we recorded an allowance for credit losses of \$7.1 million on a direct financing lease due to a decline in the estimated amount of future payments we will receive from the tenant, including the possible early termination of the direct financing lease (Note 5), which was recorded in Property expenses, excluding reimbursable tenant costs in the consolidated financial statements and, as such, reduced the property level contribution recognized from this investment.

Recently Acquired Net-Leased Properties

Recently acquired net-leased properties are those that we acquired or placed into service subsequent to December 31, 2014. Since January 1, 2015, we acquired 11 investments and placed one property into service.

Edgar Filing: W. P. Carey Inc. - Form 10-Q

For the three and nine months ended September 30, 2016 as compared to the same periods in 2015, property level contribution from recently acquired net-leased properties increased by \$6.2 million and \$16.2 million, respectively, primarily as a result of five investments we acquired after September 30, 2015. Total lease revenues from these properties were \$10.9 million and \$23.3 million for the three and nine months ended September 30, 2016, respectively.

W. P. Carey 9/30/2016 10-Q – 62

Properties Sold or Held for Sale

During the three months ended September 30, 2016 we sold three properties and during the nine months ended September 30, 2016 we sold ten properties, one of which was held for sale at December 31, 2015, and a parcel of vacant land. During the three months ended June 30, 2016, we transferred ownership of a vacant international property and the related non-recourse mortgage loan, which had a carrying value of \$39.8 million and an outstanding balance of \$60.9 million, respectively, on the date of transfer, to the mortgage lender. In addition, during the three months ended September 30, 2016, a vacant domestic property with an asset carrying value of \$13.7 million, which was encumbered by a \$27.0 million mortgage loan, was foreclosed upon by the mortgage lender. At September 30, 2016, we had 16 properties classified as held for sale, all of which were disposed of subsequent to September 30, 2016 (Note 17). During the year ended December 31, 2015, we disposed of 14 properties. For the three months ended September 30, 2016 and 2015, property level contribution from properties sold or held for sale was \$7.5 million and \$8.1 million, respectively. For the nine months ended September 30, 2016 and 2015, property level contribution from properties sold or held for sale was \$16.1 million and \$28.1 million, respectively.

In the fourth quarter of 2015, we executed a lease amendment with a tenant in a domestic office building. The amendment extended the lease term an additional 15 years to January 31, 2037 and provided a one-time rent payment of \$25.0 million, which was paid to us on December 18, 2015. The lease amendment also provided an option to terminate the lease effective February 29, 2016, with additional lease termination fees of \$22.2 million to be paid to us on or five days before February 29, 2016 upon exercise of the option. The tenant exercised the option on January 1, 2016. The aggregate of the additional rent payment of \$25.0 million and the lease termination fees of \$22.2 million were amortized to lease termination income from the lease amendment date on December 4, 2015 through the end of the non-cancelable lease term on February 29, 2016, resulting in \$15.0 million recognized during the year ended December 31, 2015 and \$32.2 million recognized during the nine months ended September 30, 2016 within Lease termination income and other in the consolidated financial statements. In connection with the lease amendment, we defeased the mortgage loan encumbering the property with a principal balance of \$36.5 million and recognized a loss on extinguishment of debt of \$5.3 million, which was included in Other income and (expenses) in the consolidated financial statements for the year ended December 31, 2015. In addition, during the fourth quarter of 2015, we entered into an agreement to sell the property to a third party and the buyer placed a deposit of \$12.7 million for the purchase of the property that was held in escrow. At December 31, 2015, this property was classified as held for sale (Note 15). During the three months ended March 31, 2016, we sold the property for proceeds of \$44.4 million, net of selling costs, and recognized a loss on the sale of \$10.7 million. As a result of this lease termination and sale, lease revenues increased by \$10.4 million for the nine months ended September 30, 2016 as compared to the same period in 2015, due to accelerated amortization of below-market rent intangibles, which is recorded as an adjustment to lease revenues. In addition, for the same property, depreciation and amortization increased by \$16.2 million for the nine months ended September 30, 2016 as compared to the same period in 2015, due to accelerated amortization of in-place lease intangibles, which is included in depreciation and amortization.

Other Revenues and Expenses

Lease Termination Income and Other

2016 — For the nine months ended September 30, 2016, lease termination income and other was \$34.6 million, primarily consisting of the \$32.2 million of lease termination income related to a domestic property that was sold during the three months ended March 31, 2016, as discussed above (Note 15).

2015 — For the three and nine months ended September 30, 2015, lease termination income and other was \$3.0 million and \$9.3 million, respectively. We recognized \$2.7 million in lease termination income during the third quarter of 2015 related to repairs identified at the end of a tenant's lease term. We recognized \$2.7 million of lease termination

income due to the early termination of two leases during the first quarter of 2015 and \$2.4 million of termination income in connection with the termination by the buyer of a purchase and sale agreement on one of our self-storage properties during the second quarter of 2015, which was subsequently sold during the nine months ended September 30, 2016 (Note 15).

W. P. Carey 9/30/2016 10-Q – 63

Impairment Charges

Where the undiscounted cash flows for an asset are less than the asset's carrying value when considering and evaluating the various alternative courses of action that may occur, we recognize an impairment charge to reduce the carrying value of the asset to its estimated fair value. Further, when we classify an asset as held for sale, we carry the asset at the lower of its current carrying value or its fair value, less estimated cost to sell. Our impairment charges are more fully described in [Note 8](#).

2016 — During the three months ended September 30, 2016, we recognized impairment charges totaling \$14.4 million, inclusive of an amount attributable to a noncontrolling interest of \$0.6 million, on 18 properties, including a portfolio of 14 properties, in order to reduce the carrying values of the properties to their estimated fair values. The impairment charges recognized on the portfolio of 14 properties were in addition to charges recognized on the portfolio during the six months ended June 30, 2016, as described below, based on the purchase and sale agreement for the portfolio received during the current period. The fair value measurements for the properties approximated their estimated selling prices, less estimated costs to sell. We used available information, including third-party broker information and internal discounted cash flow models (Level 3 inputs), in determining the fair value of these properties. At September 30, 2016, the portfolio of 14 properties was classified as held for sale, and all were sold subsequent to September 30, 2016 ([Note 4](#), [Note 17](#)).

During the nine months ended September 30, 2016, we recognized impairment charges totaling \$49.9 million, inclusive of an amount attributable to a noncontrolling interest of \$0.6 million, on 18 properties in order to reduce the carrying values of the properties to their estimated fair values. In addition to the impairment charges of \$14.4 million recognized during the three months ended September 30, 2016, we had recognized impairment charges totaling \$35.4 million on the portfolio of 14 properties during the six months ended June 30, 2016 in order to reduce the carrying values of the properties to their estimated fair values, at that time. The fair value measurements for the properties approximated their estimated selling prices, less estimated costs to sell. We used available information, including third-party broker information and internal discounted cash flow models (Level 3 inputs), in determining the fair value of these properties.

2015 — During the three months ended September 30, 2015, we recognized impairment charges totaling \$19.4 million on four properties in order to reduce the carrying values of the properties to their estimated fair values. The fair value measurements for two of the properties approximated their estimated selling prices; therefore, we recognized impairment charges totaling \$3.8 million on these properties. At September 30, 2016, one of these properties was classified as held for sale and disposed of subsequent to September 30, 2016 ([Note 4](#), [Note 17](#)). We reduced the estimated holding period for another property due to the expected termination of its related lease within one year after September 30, 2015, and recognized an impairment charge of \$8.7 million. The building located on the remaining property was demolished in connection with the redevelopment of the property, which commenced in December 2015, and we recognized an impairment charge of \$6.9 million on this property.

During the nine months ended September 30, 2015, we recognized impairment charges totaling \$22.7 million on six properties and a parcel of vacant land in order to reduce the carrying values of the properties to their estimated fair values. In addition to the impairment charges of \$19.4 million recognized on four properties during the three months ended September 30, 2015, as described above, we recognized impairment charges totaling \$3.3 million on two properties and the parcel of vacant land, since their fair value measurements approximated their estimated selling prices. These two properties were sold during 2015 and the parcel of vacant land was sold during the nine months ended September 30, 2016.

General and Administrative

As discussed in Note 3, certain personnel costs (i.e., those not related to our senior management, our legal transactions team, or our investments team) and overhead costs are charged to the CPA[®] REITs and our Owned Real Estate Segment based on the trailing 12-month reported revenues of the Managed Programs and us. Personnel costs related to our senior management, our legal transactions team, and our investments team are allocated to our Owned Real Estate Segment based on the trailing 12-month investment volume. We allocate personnel costs (excluding our senior management and investments team) and overhead costs to the CWI REITs, the Managed BDCs, and CESH I based on the time incurred by our personnel.

For the three months ended September 30, 2016 as compared to the same period in 2015, general and administrative expenses in our Owned Real Estate segment, which excludes restructuring and other compensation expenses as described below, decreased by \$2.8 million, primarily due to an overall decline in compensation expense and professional fees as a result of the reduction in headcount, including the RIF, and other cost savings initiatives implemented during 2016. Also contributing to the decrease were commissions to investment officers related to our owned real estate acquisitions, which decreased by \$0.5 million during the three months ended September 30, 2016 as compared to the same period in 2015, resulting from lower acquisition volume in the current year period.

W. P. Carey 9/30/2016 10-Q – 64

For the nine months ended September 30, 2016 as compared to the same period in 2015, general and administrative expenses in our Owned Real Estate segment decreased by \$11.5 million, primarily due to an overall decline in compensation expense and professional fees as a result of the reduction in headcount, including the RIF, and other cost savings initiatives implemented during 2016. The allocation of personnel and overhead costs to our Owned Real Estate segment also declined as a result of a change in the mix of investment volume on which a portion of the allocation is based. Also contributing to the decrease were commissions to investment officers related to our owned real estate acquisitions, which decreased by \$3.2 million during the nine months ended September 30, 2016 as compared to the same period in 2015, resulting from lower acquisition volume in the current year period.

Stock-based Compensation Expense

For the nine months ended September 30, 2016 as compared to the same period in 2015, stock-based compensation expense allocable to our Owned Real Estate segment decreased by \$1.6 million, primarily due to the reduction in RSUs and PSUs outstanding resulting from the RIF (Note 12) as well as a reduced allocation of costs resulting from lower investment volume in our Owned Real Estate segment as compared to investment volume for the Managed REITs.

Property Acquisition and Other Expenses

Property acquisition and other expenses consist primarily of acquisition-related costs incurred on investments that are accounted for as business combinations, which are required to be expensed under current accounting guidance, as well as costs incurred related to the formal strategic review that we completed in May 2016.

2016 — For the nine months ended September 30, 2016, we incurred \$2.9 million of advisory expenses and professional fees within our Owned Real Estate segment in connection with our formal strategic review.

2015 — For the three and nine months ended September 30, 2015, property acquisition and other expenses were \$3.6 million and \$11.2 million, respectively, consisting primarily of acquisition-related costs incurred on the one and five investments, respectively, that were accounted for as business combinations, which were required to be expensed under current accounting guidance.

Restructuring and Other Compensation

For the nine months ended September 30, 2016, we recorded total restructuring and other compensation expenses of \$11.9 million, of which \$4.4 million was allocated to our Owned Real Estate segment. Included in the total was \$5.1 million of severance related to our employment agreement with our former Chief Executive Officer and \$6.8 million related to severance, stock-based compensation, and other costs incurred as part of the employee terminations and reductions in headcount during the period (Note 12).

Interest Expense

For the three and nine months ended September 30, 2016 as compared to the same periods in 2015, interest expense decreased by \$5.3 million and \$5.8 million, respectively, primarily due to an overall decrease in our weighted-average interest rate, partially offset by an overall increase in our average outstanding debt balance for the nine months ended September 30, 2016 as compared to the same period in 2015. Our average outstanding debt balance was \$4.5 billion and \$4.6 billion during the three months ended September 30, 2016 and 2015, respectively, and \$4.6 billion and \$4.5 billion during the nine months ended September 30, 2016 and 2015, respectively. Our weighted-average interest rate was 3.8% and 4.1% during the three months ended September 30, 2016 and 2015, respectively, and 3.9% and 4.1%

during the nine months ended September 30, 2016 and 2015, respectively. The weighted-average interest rate of our debt decreased primarily as a result of paying off certain non-recourse mortgage loans with unsecured borrowings, which bear interest at a lower rate than our mortgage loans (Note 10).

W. P. Carey 9/30/2016 10-Q – 65

Equity in Earnings of Equity Method Investments in the Managed REITs and Real Estate

Equity in earnings of equity method investments in the Managed REITs and real estate is recognized in accordance with the investment agreement for each of our equity method investments. In addition, we are entitled to receive distributions of Available Cash (Note 3) from the operating partnerships of each of the Managed REITs. The net income of our unconsolidated investments fluctuates based on the timing of transactions, such as new leases and property sales, as well as the level of impairment charges. The following table presents the details of our Equity in earnings of equity method investments in the Managed REITs and real estate (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Equity in earnings of equity method investments in the Managed REITs:				
Equity in earnings of equity method investments in the Managed REITs	\$ 1,599	\$ 301	\$ 5,168	\$ 761
Distributions of Available Cash: ^(a)				
CPA [®] :17 – Global	5,276	5,837	17,803	17,690
CPA [®] :18 – Global	1,662	1,705	5,319	4,021
CWI 1	2,838	2,463	6,931	6,356
CWI 2	1,100	177	1,965	177
Total equity in earnings of equity method investments in the Managed REITs	12,475	10,483	37,186	29,005
Equity in earnings of other equity method investments in real estate:				
Total equity in earnings of other equity method investments in real estate	3,230	3,092	9,585	10,403
Total equity in earnings of equity method investments in the Managed REITs and real estate	\$ 15,705	\$ 13,575	\$ 46,771	\$ 39,408

We are entitled to receive distributions of our share of earnings up to 10% of the Available Cash from the operating partnerships of each of the Managed REITs, as defined in their respective operating partnership agreements.

^(a) Distributions of Available Cash received and earned from the Managed REITs increased in the aggregate, primarily as a result of new investments that they entered into during 2016 and 2015.

Other Income and (Expenses)

Other income and (expenses) primarily consists of gains and losses on foreign currency transactions, derivative instruments, and extinguishment of debt. We make intercompany loans to a number of our foreign subsidiaries, most of which do not have the U.S. dollar as their functional currency. Remeasurement of foreign currency intercompany transactions that are scheduled for settlement, consisting primarily of accrued interest and short-term loans, are included in the determination of net income. We also recognize gains or losses on foreign currency transactions when we repatriate cash from our foreign investments. In addition, we have certain derivative instruments, including common stock warrants and foreign currency contracts, that are not designated as hedges for accounting purposes, for which realized and unrealized gains and losses are included in earnings. The timing and amount of such gains or losses cannot always be estimated and are subject to fluctuation.

2016 — For the three months ended September 30, 2016, net other income was \$3.2 million. During the period, we recognized realized gains of \$2.4 million related to foreign currency forward contracts and foreign currency collars and unrealized gains of \$0.7 million recognized primarily on interest rate swaps that did not qualify for hedge accounting. In addition, we recognized a gain of \$0.7 million in our Owned Real Estate segment on the deconsolidation of an affiliate, CESH I (Note 2). These gains were partially offset by a net loss on extinguishment of debt of \$2.1 million primarily related to the payoff of a mortgage loan (Note 10).

Edgar Filing: W. P. Carey Inc. - Form 10-Q

For the nine months ended September 30, 2016, net other income was \$7.7 million. During the period, we recognized realized gains of \$6.4 million related to foreign currency forward contracts and foreign currency collars, unrealized gains of \$3.2 million recognized primarily on interest rate swaps that did not qualify for hedge accounting, and interest income of \$0.6 million recognized on our deposits. In addition, we recognized a gain of \$0.7 million in our Owned Real Estate segment on the

W. P. Carey 9/30/2016 10-Q – 66

deconsolidation of CESH I (Note 2). These gains were partially offset by a net loss on extinguishment of debt of \$3.9 million primarily related to the payoff of two mortgage loans (Note 10).

2015 — For the three months ended September 30, 2015, net other income was \$6.6 million, primarily due to a gain on extinguishment of debt of \$2.3 million recognized during the quarter related to the disposition of a property (Note 15), realized gains of \$1.9 million related to foreign currency forward contracts and foreign currency collars, and unrealized gains of \$1.1 million recognized on interest rate swaps that did not qualify for hedge accounting. In addition, we recognized interest income of \$0.6 million on our deposits.

For the nine months ended September 30, 2015, net other income was \$9.5 million, primarily due to realized gains of \$5.9 million related to foreign currency forward contracts and foreign currency collars, unrealized gains of \$3.1 million recognized on interest rate swaps that did not qualify for hedge accounting, and a gain on extinguishment of debt of \$2.3 million recognized during the third quarter of 2015 related to the disposition of a property (Note 15). In addition, we recognized interest income of \$1.3 million on our deposits. Net other income for the nine months ended September 30, 2015 was partially offset by net realized and unrealized losses of \$3.8 million recognized on foreign currency transactions as a result of changes in foreign currency exchange rates.

(Provision for) Benefit from Income Taxes

2016 — For the three months ended September 30, 2016, we recognized a provision for income taxes of \$0.5 million, due to \$4.0 million of current federal, foreign, and state franchise taxes recognized on our domestic TRSs and foreign properties, partially offset by \$3.4 million of deferred tax benefits associated with basis differences on certain foreign properties, primarily resulting from the impairment charges recorded in the period on international properties (Note 8).

For the nine months ended September 30, 2016, we recognized a benefit from income taxes of \$6.8 million, due to \$19.7 million of deferred tax benefits associated with basis differences on certain foreign properties, primarily resulting from the impairment charges recorded in the period on international properties (Note 8), partially offset by \$12.9 million of current federal, foreign, and state franchise taxes recognized on our domestic TRSs and foreign properties.

2015 — For the three and nine months ended September 30, 2015, we recognized a provision for income taxes of \$5.2 million and \$7.8 million, respectively, due to \$5.2 million and \$11.6 million, respectively, of current federal, foreign, and state franchise taxes recognized on our domestic TRSs and foreign properties, partially offset by \$3.8 million of deferred tax benefit associated with basis differences on certain foreign properties for the nine months ended September 30, 2015.

Gain on Sale of Real Estate, Net of Tax

Gain on sale of real estate, net of tax consists of gain on the sale of properties that were disposed of during the nine months ended September 30, 2016 and 2015 (Note 15).

2016 — During the three and nine months ended September 30, 2016, we sold three properties, and ten properties and a parcel of vacant land, respectively, for net proceeds of \$192.0 million and \$392.6 million, respectively, and recognized a net gain on these sales, net of tax totaling \$37.4 million and \$39.9 million, respectively, inclusive of amounts attributable to noncontrolling interests of \$0.9 million for the nine months ended September 30, 2016. In addition, during the three months ended June 30, 2016, we transferred ownership of a vacant international property and the related non-recourse mortgage loan, which had a carrying value of \$39.8 million and an outstanding balance of \$60.9 million, respectively, on the date of transfer, to the mortgage lender, resulting in a net gain of \$16.4 million. Also, during the three months ended September 30, 2016, a vacant domestic property with an asset carrying value of

\$13.7 million, which was encumbered by a \$27.0 million mortgage loan, was foreclosed upon by the mortgage lender, resulting in a net gain of \$11.6 million.

2015 — During the three and nine months ended September 30, 2015, we sold two and 11 properties, respectively, and recognized a net gain on these sales, net of tax of \$1.2 million and \$2.4 million, respectively. In addition, during July 2015, a domestic vacant property was foreclosed upon by the mortgage lender and sold; we recognized a gain of \$0.6 million in connection with that disposition.

W. P. Carey 9/30/2016 10-Q – 67

Investment Management

We earn revenue as the advisor to the Managed Programs. For the periods presented, we acted as advisor to the following affiliated, publicly owned, non-listed Managed Programs: CPA[®]:17 – Global, CPA[®]:18 – Global, CWI 1, CWI 2 (since February 9, 2015), CCIF (since February 27, 2015), and CESH I (since June 3, 2016).

The following tables present other operating data that management finds useful in evaluating result of operations (dollars in millions):

	September 30, 2016	December 31, 2015
Total properties — Managed REITs and CESH I	595	602
Assets under management — Managed Programs ^(a)	\$12,243.5	\$11,045.3

Represents the estimated fair value of the real estate assets owned by the Managed REITs, which was calculated by us as the advisor to the Managed REITs based in part upon third-party appraisals, plus cash and cash equivalents, less distributions payable. Amounts also include the fair value of the investment assets, plus cash, owned by CCIF and CESH I.

(b) Excludes reinvested distributions through each entity's distribution reinvestment plan.

(c) Reflects funds raised from CPA[®]:18 – Global's initial public offering, which commenced in May 2013 and closed on April 2, 2015 (Note 3).

(d) Reflects funds raised from CWI 2's initial public offering, which commenced in February 2015.

(e) We began to raise funds on behalf of two of the CCIF Feeder Funds in the fourth quarter of 2015. Amount represents funding from the Feeder Funds to CCIF.

(f) Reflects funds raised from CESH I's private placement, which commenced in July 2016.

(g) Includes acquisition-related costs.

Asset Management Revenue

We earn asset management revenue from the Managed REITs based on the value of their real estate-related and lodging-related assets under management. We earn asset management revenue from CCIF based on the average of its gross assets at fair value. We also earn asset management revenue from CESH I based on its gross assets at fair value. This asset management revenue may increase or decrease depending upon (i) increases in the Managed Programs' asset bases as a result of new investments; (ii) decreases in the Managed Programs' asset bases as a result of sales of investments; (iii) increases or decreases in the appraised value of the real estate-related and lodging-related assets in the investment portfolios of the Managed REITs and CESH I; and (iv) increases or decreases in the fair value of CCIF's investment portfolio.

For the three and nine months ended September 30, 2016 as compared to the same periods in 2015, asset management revenue increased by \$3.0 million and \$9.4 million, respectively, as a result of the growth in assets under management due to investment volume after September 30, 2015. Asset management revenue increased by \$1.0 million and \$2.4 million, respectively, from CWI 2, \$1.0 million and \$2.2 million, respectively, from CCIF, \$0.4 million and \$2.2 million, respectively, from CPA®:18 – Global, \$0.4 million and \$2.0 million, respectively, from CWI 1, and \$0.1

million and \$0.6 million, respectively, from CPA[®]:17 – Global.

W. P. Carey 9/30/2016 10-Q – 69

Reimbursable Costs from Affiliates

Reimbursable costs from affiliates represent costs incurred by us on behalf of the Managed Programs, consisting primarily of broker-dealer commissions and marketing and personnel costs, which are reimbursed by the Managed Programs and are reflected as a component of both revenues and expenses.

For the three and nine months ended September 30, 2016 as compared to the same periods in 2015, reimbursable costs from affiliates increased by \$3.4 million and \$18.0 million, respectively, primarily due to \$2.2 million of commissions paid during the current year periods to broker-dealers related to CESH I's private placement, increases of \$1.5 million and \$3.6 million, respectively, of commissions paid to broker-dealers related to the sale of two of the CCIF Feeder Funds' shares, which began in the fourth quarter of 2015, and increases of \$1.0 million and \$17.5 million, respectively, of commissions paid to broker-dealers related to CWI 2's initial public offering, which began in February 2015, partially offset by decreases of \$0.7 million and \$1.8 million, respectively, in personnel costs reimbursed to us by the Managed Programs and decreases of \$0.5 million and \$3.9 million, respectively, in commissions paid to broker-dealers related to the CPA[®]:18 – Global initial public offering, which closed on April 2, 2015.

Structuring Revenue

We earn structuring revenue when we structure investments and debt placement transactions for the Managed REITs and CESH I. Structuring revenue is dependent on investment activity, which is subject to significant period-to-period variation.

For the three months ended September 30, 2016 as compared to the same period in 2015, structuring revenue increased by \$4.1 million, primarily due to an increase of \$10.1 million in revenue from CWI 2, which completed three investments during the current year period, and an increase of \$0.4 million in revenue from CPA[®]:17 – Global, partially offset by a decrease of \$7.1 million in revenue from CPA[®]:18 – Global as a result of lower investment volume during the current year period.

For the nine months ended September 30, 2016 as compared to the same period in 2015, structuring revenue decreased by \$36.7 million. Structuring revenue from CPA[®]:18 – Global, CWI 1, and CPA[®]:17 – Global decreased by \$31.3 million, \$12.3 million, and \$6.1 million, respectively, as a result of lower investment volume during the current year period, partially offset by an increase of \$12.7 million in structuring revenue from CWI 2, which completed five investments during the current year period.

Dealer Manager Fees

As discussed in [Note 3](#), we earn a dealer manager fee, depending on the class of common stock sold, of \$0.30 or \$0.26 per share sold, for the class A common stock and class T common stock, respectively, in connection with CWI 2's initial public offering, which began in February 2015. In addition, we received dealer manager fees, depending on the class of common stock sold, of \$0.30 or \$0.21 per share sold, for the class A common stock and class C common stock, respectively, in connection with CPA[®]:18 – Global's initial public offering, which commenced in May 2013 and closed in April 2015. We receive dealer manager fees of 2.75% - 3.0% based on the selling price of each share sold in connection with the offerings of the CCIF Feeder Funds, which began in the fourth quarter of 2015. We also receive dealer manager fees of up to 3.0% of gross offering proceeds based on the selling price of each limited partnership unit sold in connection with CESH I's private placement offering. We may re-allow a portion of the dealer manager fees to selected dealers in the offerings. Dealer manager fees that were not re-allowed were classified as Dealer manager fees from affiliates in the consolidated financial statements. Dealer manager fees earned are generally offset by costs incurred in connection with the offerings, which are included in Dealer manager fees and expenses in the consolidated financial statements.

For the three months ended September 30, 2016 as compared to the same period in 2015, dealer manager fees increased by \$0.7 million, primarily due to an increase of \$0.6 million in fees earned in connection with the sale of two of the CCIF Feeder Funds' shares, and \$0.4 million in fees earned in the current year period in connection with the sale of limited partnership units of CESH I in its private placement, which commenced in July 2016. The increases were partially offset by a decrease of \$0.3 million in fees earned in connection with the sale of CWI 2 shares in its initial public offering, which had lower fundraising during the current year period.

For the nine months ended September 30, 2016 as compared to the same period in 2015, dealer manager fees increased by \$2.7 million, primarily due to an increase of \$2.2 million in fees earned in connection with the sale of CWI 2 shares in its initial public offering, an increase of \$1.3 million in fees earned in connection with the sale of two of the CCIF Feeder Funds' shares, and \$0.4 million in fees earned in the current year period in connection with the sale of limited partnership units of CESH I in

W. P. Carey 9/30/2016 10-Q – 70

its private placement. The increases were partially offset by a decrease of \$1.2 million in fees earned in connection with the sale of CPA[®]:18 – Global shares in its initial public offering, due to the closing of the offering on April 2, 2015.

General and Administrative

As discussed in Note 3, certain personnel costs (i.e., those not related to our senior management, our legal transactions team, or our investments team) and overhead costs are charged to the CPA[®] REITs and our Owned Real Estate Segment based on the trailing 12-month reported revenues of the Managed Programs and us. Personnel costs related to our senior management, our legal transactions team, and our investments team are allocated to our Owned Real Estate Segment based on the trailing 12-month investment volume. We allocate personnel costs (excluding our senior management and investments team) and overhead costs to the CWI REITs, the Managed BDCs, and CESH I based on the time incurred by our personnel.

For the three and nine months ended September 30, 2016 as compared to the same periods in 2015, general and administrative expenses in our Investment Management segment, which excludes restructuring and other compensation expenses as described below, decreased by \$4.3 million and \$9.4 million, respectively, primarily due to an overall decline in compensation expense and professional fees as a result of the reduction in headcount, including the RIF, and other cost savings initiatives implemented during 2016. Also contributing to the decrease were commissions to investment officers, which decreased by \$0.4 million and \$5.1 million, respectively, resulting from lower investment volume on behalf of the Managed REITs in the current year periods.

Subadvisor Fees

As discussed in Note 3, we earn investment management revenue from CWI 1, CWI 2, and CPA[®]:18 – Global. Pursuant to the terms of the subadvisory agreements we have with the third-party subadvisors in connection with both CWI 1 and CWI 2, we pay a subadvisory fee equal to 20% of the amount of fees paid to us by CWI 1 and 25% of the amount of fees paid to us by CWI 2, including but not limited to: acquisition fees, asset management fees, loan refinancing fees, property management fees, and subordinated disposition fees, each as defined in the advisory agreements we have with each of CWI 1 and CWI 2. We also pay to the subadvisor 20% and 25% of the net proceeds resulting from any sale, financing, or recapitalization or sale of securities of CWI 1 and CWI 2, respectively, by us, the advisor. In addition, in connection with the multi-family properties acquired on behalf of CPA[®]:18 – Global, we entered into agreements with third-party advisors for the acquisition and day-to-day management of the properties, for which we pay 30% of the initial acquisition fees and 100% of asset management fees paid to us by CPA[®]:18 – Global.

For the three and nine months ended September 30, 2016 as compared to the same periods in 2015, subadvisor fees increased by \$3.1 million and \$1.5 million, respectively, primarily due to increases of \$3.0 million and \$4.2 million, respectively, as a result of an increase in fees earned from CWI 2, which completed three and five investments during the three and nine months ended September 30, 2016, respectively, and fees we earned from CCIF during the current year periods of \$0.6 million and \$1.1 million, respectively. These increases were partially offset by decreases of \$0.7 million and \$1.8 million, respectively, as a result of decreases in fees earned from CPA[®]:18 – Global due to lower multi-family property investment volume in the current year periods as compared to the same periods in the prior year. In addition, for the nine months ended September 30, 2016 as compared to the same period in 2015, subadvisor fees decreased by \$2.1 million as a result of decreases in fees earned from CWI 1 due to lower investment volume in the current year period as compared to the same period in the prior year.

Dealer Manager Fees and Expenses

Dealer manager fees earned in the public offerings that we manage for the Managed Programs are generally offset by costs incurred in connection with the offerings, which are included in Dealer manager fees and expenses in the consolidated financial statements.

For the three months ended September 30, 2016 as compared to the same period in 2015, dealer manager fees and expenses decreased by \$0.2 million, primarily due to a decrease of \$1.8 million in expenses paid in connection with the CWI 2 initial public offering due to lower fundraising during the current year period, partially offset by an increase of \$0.9 million in expenses paid in connection with the sale of two of the CCIF Feeder Funds' shares and \$0.7 million in expenses paid during the current year period in connection with the sale of limited partnership units of CESH I in its private placement, which commenced in July 2016.

For the nine months ended September 30, 2016 as compared to the same period in 2015, dealer manager fees and expenses increased by \$1.1 million, primarily due to an increase of \$2.2 million in expenses paid in connection with the sale of two of the CCIF Feeder Funds' shares, an increase of \$1.0 million in expenses paid in connection with the CWI 2 initial public offering,

W. P. Carey 9/30/2016 10-Q – 71

which began to admit stockholders on May 15, 2015, and \$0.7 million in expenses paid during the current year period in connection with the sale of limited partnership units of CESH I in its private placement. These increases were partially offset by expenses of \$2.9 million paid during the prior year period in connection with the sale of CPA[®]:18 – Global shares in its initial public offering, which closed on April 2, 2015.

Property Acquisition and Other Expenses

2016 — For the nine months ended September 30, 2016, we incurred \$2.4 million of advisory expenses and professional fees within our Investment Management segment in connection with the formal strategic review that we completed in May 2016.

2015 — For both the three and nine months ended September 30, 2015, we incurred \$1.1 million of advisory expenses and professional fees in connection with our formal strategic review.

Restructuring and Other Compensation

For the nine months ended September 30, 2016, we recorded total restructuring and other compensation expenses of \$11.9 million, of which \$7.5 million was allocated to our Investment Management segment. Included in the total was \$5.1 million of severance related to our employment agreement with our former Chief Executive Officer and \$6.8 million related to severance, stock-based compensation, and other costs incurred as part of employee terminations and reductions in headcount (Note 12).

Equity in Earnings (Losses) of Equity Method Investment in CCIF

In December 2014, we acquired a \$25.0 million noncontrolling interest in CCIF (Note 6).

2016 — For the three and nine months ended September 30, 2016, we recognized equity in earnings of equity method investment in CCIF of \$1.1 million and \$1.5 million, respectively, representing our portion of the net income recognized by CCIF.

2015 — For the three and nine months ended September 30, 2015, we recognized equity in losses of equity method investment in CCIF of \$0.9 million and \$0.8 million, respectively, representing our portion of the net losses recognized by CCIF.

Other Income and (Expenses)

For the three and nine months ended September 30, 2016, we recognized a gain of \$1.2 million in our Investment Management segment on the deconsolidation of CESH I (Note 2).

(Provision for) Benefit from Income Taxes

2016 — For the three and nine months ended September 30, 2016, we recognized a provision for income taxes of \$2.6 million and \$2.3 million, respectively, primarily due to pre-tax income recognized by TRSs in the Investment Management segment. The provision for income taxes for the nine months ended September 30, 2016 was partially offset by the impact of an out-of-period adjustment recorded during the period (Note 2).

2015 — For the three months ended September 30, 2015, we recognized a benefit from income taxes of \$1.9 million, primarily due to deferred income tax benefits. For the nine months ended September 30, 2015, we recognized a provision for income taxes of \$12.5 million, primarily due to pre-tax income recognized by TRSs in the Investment

Management segment, partially offset by deferred income tax benefits.

Liquidity and Capital Resources

Sources and Uses of Cash During the Period

We use the cash flow generated from our investments primarily to meet our operating expenses, service debt, and fund distributions to stockholders. Our cash flows fluctuate periodically due to a number of factors, which may include, among other things: the timing of our equity and debt offerings; the timing of purchases and sales of real estate; the timing of the receipt of proceeds from, and the repayment of, mortgage loans and receipt of lease revenues; the receipt of the annual installment of deferred acquisition revenue and interest thereon from the CPA[®] REITs; the receipt of the asset management fees in either shares of the Managed Programs' common stock or cash; the timing and characterization of distributions from equity

W. P. Carey 9/30/2016 10-Q – 72

investments in the Managed Programs and real estate; the receipt of distributions of Available Cash from the Managed REITs; and changes in foreign currency exchange rates. Despite these fluctuations, we believe that we will generate sufficient cash from operations and from equity distributions in excess of equity income in real estate to meet our normal recurring short-term and long-term liquidity needs. We may also use existing cash resources, the proceeds of mortgage loans, unused capacity under our Revolver, proceeds from dispositions of properties, net contributions from noncontrolling interests, and the issuance of additional debt or equity securities, such as sales of our stock through our ATM program, in order to meet these needs. We assess our ability to access capital on an ongoing basis. Our sources and uses of cash during the period are described below.

Operating Activities — Net cash provided by operating activities increased by \$30.6 million during the nine months ended September 30, 2016 as compared to the same period in 2015, primarily due to the lease termination income received in connection with the sale of a property during the nine months ended September 30, 2016, an increase in operating cash flow generated from the 12 investments we acquired or placed into service since January 1, 2015, and an increase in Distributions of Available Cash received from the Managed REITs, partially offset by a decrease in structuring revenue received in cash from the Managed REITs as a result of their lower investment volume during the current year period.

Investing Activities — Our investing activities are generally comprised of real estate-related transactions (purchases and sales) and capitalized property-related costs.

During the nine months ended September 30, 2016, we used \$385.8 million to acquire two investments and \$41.9 million primarily to fund expansions on our existing properties. We sold ten properties and a parcel of vacant land for net proceeds of \$392.9 million. We used \$7.1 million to invest in capital expenditures for owned real estate. We also received \$3.5 million in distributions from equity investments in the Managed Programs and real estate in excess of cumulative equity income.

Financing Activities — During the nine months ended September 30, 2016, gross borrowings under our Senior Unsecured Credit Facility were \$720.6 million and repayments were \$837.6 million. We received \$348.9 million in net proceeds from the issuance of the 4.25% Senior Notes in September 2016, which we used primarily to pay down the outstanding balance on our Revolver at that time. In connection with the issuances of these notes, we incurred financing costs totaling \$2.9 million. We also made prepaid and scheduled non-recourse mortgage loan principal payments of \$193.0 million and \$113.4 million, respectively. We paid distributions to stockholders totaling \$310.5 million related to the fourth quarter of 2015 and the first and second quarters of 2016, and also paid distributions of \$13.4 million to affiliates that hold noncontrolling interests in various entities with us. We received \$84.1 million in net proceeds from the issuance of shares under our ATM program.

Summary of Financing

The table below summarizes our non-recourse debt, our Senior Unsecured Notes, and our Senior Unsecured Credit Facility (dollars in thousands):

	September 30, 2016	December 31, 2015	
Carrying Value			
Fixed rate:			
Non-recourse mortgages ^(a)	\$1,577,202	\$1,942,528	
Senior Unsecured Notes ^(a)	1,837,216	1,476,084	
	3,414,418	3,418,612	
Variable rate:			
Revolver	378,358	485,021	
Term Loan Facility ^(a)	249,915	249,683	
Non-recourse debt ^(a) :			
Amount subject to interest rate swaps and caps	198,191	283,441	
Non-recourse mortgages	150,938	43,452	
	977,402	1,061,597	
	\$4,391,820	\$4,480,209	
Percent of Total Debt			
Fixed rate	78	% 76	%
Variable rate	22	% 24	%
	100	% 100	%
Weighted-Average Interest Rate at End of Period			
Fixed rate	4.5	% 4.8	%
Variable rate ^(b)	1.7	% 2.1	%

In accordance with ASU 2015-03, we reclassified deferred financing costs from Other assets, net to Non-recourse debt, net, Senior Unsecured Notes, net, and Senior Unsecured Credit Facility - Term Loan, net as of December 31, 2015 (Note 2). Aggregate debt balance includes unamortized deferred financing costs totaling \$13.9 million and \$12.6 million as of September 30, 2016 and December 31, 2015, respectively.

(b) The impact of our derivative instruments is reflected in the weighted-average interest rates.

Cash Resources

At September 30, 2016, our cash resources consisted of the following:

Cash and cash equivalents totaling \$209.5 million. Of this amount, \$49.2 million, at then-current exchange rates, was held in foreign subsidiaries, and we could be subject to restrictions or significant costs should we decide to repatriate these amounts;

Our Revolver, with unused capacity of \$1.1 billion, excluding amounts reserved for outstanding letters of credit; and Unleveraged properties that had an aggregate carrying value of \$3.0 billion at September 30, 2016, although there can be no assurance that we would be able to obtain financing for these properties.

We also have the ability to access the capital markets, in the form of additional bond and equity offerings, such as the \$350.0 million 4.25% Senior Notes issued in September 2016 (Note 10) and our ATM program, if necessary. During the three and nine months ended September 30, 2016, we issued 968,535 and 1,249,836 shares, respectively, of our

common stock under the ATM program at a weighted-average price of \$68.54 and \$68.52 per share, respectively, for net proceeds of \$65.4 million and \$84.4 million, respectively (Note 13). As of September 30, 2016, \$314.4 million remained available for issuance under our ATM offering program.

W. P. Carey 9/30/2016 10-Q – 74

Senior Unsecured Credit Facility

Our Senior Unsecured Credit Facility is more fully described in [Note 10](#). A summary of principal outstanding borrowings on our Senior Unsecured Credit Facility is provided below (in thousands):

	September 30, 2016		December 31, 2015	
	Outstanding	Balance Available	Outstanding	Balance Available
Revolver	\$378,358	\$ 1,500,000	\$485,021	\$ 1,500,000
Term Loan Facility ^(a)	250,000	250,000	250,000	250,000

^(a) Outstanding balance excludes unamortized deferred financing costs of \$0.1 million and \$0.3 million at September 30, 2016 and December 31, 2015, respectively.

Our cash resources can be used for working capital needs and other commitments and may be used for future investments.

Cash Requirements

During the next 12 months, we expect that our cash requirements will include payments to acquire new investments, funding capital commitments such as build-to-suit projects, paying distributions to our stockholders and to our affiliates that hold noncontrolling interests in entities we control, making scheduled interest payments on the Senior Unsecured Notes and scheduled mortgage loan principal payments, including prepayments or mortgage balloon payments totaling \$574.4 million on our consolidated mortgage loan obligations, as well as other normal recurring operating expenses. In addition, our Term Loan Facility matures in January 2017, unless we exercise an option to extend the maturity by another year.

We expect to fund future investments, build-to-suit commitments, any capital expenditures on existing properties, scheduled debt maturities on non-recourse mortgage loans and any loans to certain of the Managed Programs ([Note 3](#)) through cash generated from operations, cash received from dispositions of properties, the use of our cash reserves or unused amounts on our Revolver, and/or additional equity or debt offerings.

Our liquidity would be adversely affected by unanticipated costs and greater-than-anticipated operating expenses. To the extent that our working capital reserve is insufficient to satisfy our cash requirements, additional funds may be provided from cash from operations and from equity distributions in excess of equity income in real estate to meet our normal recurring short-term and long-term liquidity needs. We may also use existing cash resources, the proceeds of mortgage loans, unused capacity on our Revolver, net contributions from noncontrolling interests, and the issuance of additional debt or equity securities, such as through our ATM program, to meet these needs.

Off-Balance Sheet Arrangements and Contractual Obligations

The table below summarizes our debt, off-balance sheet arrangements, and other contractual obligations (primarily our capital commitments and lease obligations) at September 30, 2016 and the effect that these arrangements and obligations are expected to have on our liquidity and cash flow in the specified future periods (in thousands):

	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Non-recourse debt — principal ^(a)	\$1,927,384	\$635,690	\$416,588	\$404,178	\$470,928
Senior Unsecured Notes — principal ^(b)	1,858,050	—	—	—	1,858,050
Senior Unsecured Credit Facility — principal ^(c)	628,358	250,000	378,358	—	—
Interest on borrowings ^(d)	858,976	155,615	244,010	208,704	250,647
Operating and other lease commitments ^(e)	170,207	8,399	16,711	13,625	131,472

Edgar Filing: W. P. Carey Inc. - Form 10-Q

Capital commitments and tenant expansion allowances ^(f)	135,616	71,172	22,015	38,915	3,514
Restructuring and other compensation commitments ^(g)	4,313	3,201	1,112	—	—
	\$5,582,904	\$1,124,077	\$1,078,794	\$665,422	\$2,714,611

W. P. Carey 9/30/2016 10-Q – 75

- Excludes unamortized deferred financing costs totaling \$13.9 million, the unamortized discount on the Senior
- (a) Unsecured Notes of \$8.2 million, and the unamortized fair market value adjustment of \$0.1 million resulting from the assumption of property-level debt in connection with the CPA[®]:15 Merger and CPA[®]:16 Merger (Note 10).
 - (b) Our Senior Unsecured Notes are scheduled to mature from 2023 through 2026.
 - (c) Our Revolver is scheduled to mature on January 31, 2018 and our Term Loan Facility is scheduled to mature on January 31, 2017 unless otherwise extended pursuant to their terms.
 - (d) Interest on unhedged variable-rate debt obligations was calculated using the applicable annual variable interest rates and balances outstanding at September 30, 2016.
- Operating and other lease commitments consist primarily of rental obligations under ground leases and the future minimum rents payable on the leases for our principal offices. Pursuant to their respective advisory agreements with us, we are reimbursed by the Managed Programs for their share of overhead costs, which includes a portion of
- (e) those future minimum rent amounts. Our operating lease commitments are presented net of \$8.7 million, based on the allocation percentages as of September 30, 2016, which we estimate the Managed Programs will reimburse us for in full.
- Capital commitments include (i) \$118.0 million related to build-to-suit expansions, (ii) \$16.4 million related to
- (f) unfunded tenant improvements, including certain discretionary commitments, and (iii) \$1.2 million related to other construction commitments.
 - (g) Represents severance-related obligations to our former Chief Executive Officer and other former employees (Note 12).

Amounts in the table above that relate to our foreign operations are based on the exchange rate of the local currencies at September 30, 2016, which consisted primarily of the euro. At September 30, 2016, we had no material capital lease obligations for which we were the lessee, either individually or in the aggregate.

Supplemental Financial Measures

In the real estate industry, analysts and investors employ certain non-GAAP supplemental financial measures in order to facilitate meaningful comparisons between periods and among peer companies. Additionally, in the formulation of our goals and in the evaluation of the effectiveness of our strategies, we use Funds from Operations, or FFO, and AFFO, which are non-GAAP measures defined by our management. We believe that these measures are useful to investors to consider because they may assist them to better understand and measure the performance of our business over time and against similar companies. A description of FFO and AFFO and reconciliations of these non-GAAP measures to the most directly comparable GAAP measures are provided below.

Adjusted Funds from Operations

Due to certain unique operating characteristics of real estate companies, as discussed below, the National Association of Real Estate Investment Trusts, Inc., or NAREIT, an industry trade group, has promulgated a non-GAAP measure known as FFO, which we believe to be an appropriate supplemental measure, when used in addition to and in conjunction with results presented in accordance with GAAP, to reflect the operating performance of a REIT. The use of FFO is recommended by the REIT industry as a supplemental non-GAAP measure. FFO is not equivalent to nor a substitute for net income or loss as determined under GAAP.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as revised in February 2004. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from sales of property, impairment charges on real estate, and depreciation and amortization from real estate assets; and after adjustments for unconsolidated partnerships and jointly-owned investments. Adjustments for unconsolidated partnerships and jointly-owned investments are calculated to reflect FFO. Our FFO calculation complies with NAREIT's policy described above.

We modify the NAREIT computation of FFO to include other adjustments to GAAP net income to adjust for certain non-cash charges such as amortization of real estate-related intangibles, deferred income tax benefits and expenses, straight-line rents, stock compensation, gains or losses from extinguishment of debt and deconsolidation of subsidiaries and unrealized foreign currency exchange gains and losses. Our assessment of our operations is focused on long-term sustainability and not on such non-cash items, which may cause short-term fluctuations in net income but have no impact on cash flows. Additionally, we exclude non-core income and expenses such as certain lease termination income, acquisition expenses, restructuring and other compensation-related expenses resulting from a reduction in headcount and employment severance arrangements, and expenses related to our formal strategic review. We also exclude realized gains/losses on foreign exchange transactions, other than those realized on the settlement of foreign currency derivatives, which are not considered fundamental attributes of our business plan and do not affect our overall long-term operating performance. We refer to our modified definition of FFO as AFFO. We

W. P. Carey 9/30/2016 10-Q – 76

exclude these items from GAAP net income as they are not the primary drivers in our decision making process and excluding these items provides investors a view of our portfolio performance over time and makes it more comparable to other REITs which are currently not engaged in acquisitions, mergers, and restructuring which are not part of our normal business operations. We use AFFO as one measure of our operating performance when we formulate corporate goals, evaluate the effectiveness of our strategies, and determine executive compensation.

We believe that AFFO is a useful supplemental measure for investors to consider as we believe it will help them to better assess the sustainability of our operating performance without the potentially distorting impact of these short-term fluctuations. However, there are limits on the usefulness of AFFO to investors. For example, impairment charges and unrealized foreign currency losses that we exclude may become actual realized losses upon the ultimate disposition of the properties in the form of lower cash proceeds or other considerations. We use our FFO and AFFO measures as supplemental financial measures of operating performance. We do not use our FFO and AFFO measures as, nor should they be considered to be, alternatives to net earnings computed under GAAP or as alternatives to cash from operating activities computed under GAAP or as indicators of our ability to fund our cash needs.

W. P. Carey 9/30/2016 10-Q – 77

Consolidated FFO and AFFO were as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015

- (a) Amount for the nine months ended September 30, 2016 includes an adjustment of \$15.6 million related to the acceleration of a below-market lease from a tenant of a domestic property that was sold during the period. Amount for the nine months ended September 30, 2016 includes an adjustment to exclude \$27.2 million of the \$32.2 million of lease termination income recognized in connection with a domestic property that was sold during (b) the period, as such amount was determined to be non-core income (Note 15). Amount for the nine months ended September 30, 2016 also reflects an adjustment to include \$1.8 million of lease termination income received in December 2015 that represented core income for the nine months ended September 30, 2016.
- (c) Represents primarily unrealized gains and losses from foreign exchange and derivatives. Effective July 1, 2016, the amortization of debt premiums and discounts, which was previously included in Other amortization and non-cash items, is included in Amortization of deferred financing costs. Prior periods are (d) retrospectively adjusted to reflect this change. Amortization of debt premiums and discounts for the three months ended September 30, 2016 and 2015 was \$0.3 million and \$0.7 million, respectively, and for the nine months ended September 30, 2016 and 2015 was \$1.7 million and \$2.1 million, respectively.
- (e) Amounts for the three and nine months ended September 30, 2016 include an adjustment of \$0.6 million to exclude a portion of a gain recognized on the deconsolidation of CESH I (Note 2). Amounts for the nine months ended September 30, 2016 are comprised of expenses related to our formal strategic (f) review, which concluded in May 2016. Amounts for the three and nine months ended September 30, 2015 in our Investment Management segment are comprised of expenses related to our formal strategic review.
- (g) Amount represents restructuring and other compensation-related expenses resulting from a reduction in headcount and employment severance arrangements (Note 12).

While we believe that FFO and AFFO are important supplemental measures, they should not be considered as alternatives to net income as an indication of a company's operating performance. These non-GAAP measures should be used in conjunction with net income as defined by GAAP. FFO and AFFO, or similarly titled measures disclosed

by other REITs, may not be comparable to our FFO and AFFO measures.

W. P. Carey 9/30/2016 10-Q – 80

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, and equity prices. The primary risks that we are exposed to are interest rate risk and foreign currency exchange risk. We are also exposed to further market risk as a result of tenant concentrations in certain industries and/or geographic regions, since adverse market factors can affect the ability of tenants in a particular industry/region to meet their respective lease obligations. In order to manage this risk, we view our collective tenant roster as a portfolio, and we attempt to diversify such portfolio so that we are not overexposed to a particular industry or geographic region.

Generally, we do not use derivative instruments to hedge credit/market risks or for speculative purposes. However, from time to time, we may enter into foreign currency forward contracts and collars to hedge our foreign currency cash flow exposures.

Interest Rate Risk

The values of our real estate, related fixed-rate debt obligations, and our note receivable investments are subject to fluctuations based on changes in interest rates. The value of our real estate is also subject to fluctuations based on local and regional economic conditions and changes in the creditworthiness of lessees, which may affect our ability to refinance property-level mortgage debt when balloon payments are scheduled, if we do not choose to repay the debt when due. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political conditions, and other factors beyond our control. An increase in interest rates would likely cause the fair value of our owned and managed assets to decrease, which would create lower revenues from managed assets and lower investment performance for the Managed REITs. Increases in interest rates may also have an impact on the credit profile of certain tenants.

We are exposed to the impact of interest rate changes primarily through our borrowing activities. To limit this exposure, we historically attempted to obtain non-recourse mortgage financing on a long-term, fixed-rate basis. However, from time to time, we or our joint investment partners have obtained, and may in the future obtain, variable-rate non-recourse mortgage loans and, as a result, we have entered into, and may continue to enter into, interest rate swap agreements or interest rate cap agreements with lenders. Interest rate swap agreements effectively convert the variable-rate debt service obligations of a loan to a fixed rate, while interest rate cap agreements limit the underlying interest rate from exceeding a specified strike rate. Interest rate swaps are agreements in which one party exchanges a stream of interest payments for a counterparty's stream of cash flows over a specific period, and interest rate caps limit the effective borrowing rate of variable-rate debt obligations while allowing participants to share in downward shifts in interest rates. These interest rate swaps and caps are derivative instruments that, where applicable, are designated as cash flow hedges on the forecasted interest payments on the debt obligation. The face amount on which the swaps or caps are based is not exchanged. Our objective in using these derivatives is to limit our exposure to interest rate movements. At September 30, 2016, we estimated that the total fair value of our interest rate swaps and caps, which are included in Other assets, net and Accounts payable, accrued expenses and other liabilities in the consolidated financial statements, was in a net liability position of \$5.9 million (Note 9).

At September 30, 2016, a significant portion (approximately 82.3%) of our long-term debt either bore interest at fixed rates, was swapped or capped to a fixed rate, or bore interest at fixed rates that were scheduled to convert to then-prevailing market fixed rates at certain future points during their term. The annual interest rates on our fixed-rate debt at September 30, 2016 ranged from 2.0% to 7.8%. The contractual annual interest rates on our variable-rate debt at September 30, 2016 ranged from 0.7% to 6.9%. Our debt obligations are more fully described under Liquidity and Capital Resources – Summary of Financing, in Item 2 above. The following table presents principal cash outflows for

Edgar Filing: W. P. Carey Inc. - Form 10-Q

the remainder of 2016, each of the next four calendar years following December 31, 2016, and thereafter, based upon expected maturity dates of our debt obligations outstanding at September 30, 2016 (in thousands):

	2016 (Remainder)	2017	2018	2019	2020	Thereafter	Total	Fair value
Fixed-rate debt ^(a)	\$ 56,846	\$573,117	\$135,216	\$86,751	\$176,746	\$2,405,990	\$3,434,666	\$3,518,185
Variable-rate debt ^(a)	\$ 37,190	\$305,447	\$514,342	\$13,211	\$43,021	\$65,915	\$979,126	\$974,358

^(a) Amounts are based on the exchange rate at September 30, 2016, as applicable.

W. P. Carey 9/30/2016 10-Q – 81

The estimated fair value of our fixed-rate debt and our variable-rate debt that currently bears interest at fixed rates or has effectively been converted to a fixed rate through the use of interest rate swaps, or that has been subject to interest rate caps, is affected by changes in interest rates. Annual interest expense on our unhedged variable-rate debt that does not bear interest at fixed rates at September 30, 2016 would increase or decrease by \$7.8 million for each respective 1% change in annual interest rates. As more fully described under Liquidity and Capital Resources – Summary of Financing in Item 2 above, a portion of the debt classified as variable-rate debt in the tables above bore interest at fixed rates at September 30, 2016 but has interest rate reset features that will change the fixed interest rates to then-prevailing market fixed rates at certain points during their term. This debt is generally not subject to short-term fluctuations in interest rates.

Foreign Currency Exchange Rate Risk

We own international investments, primarily in Europe, Asia, and Australia, and as a result are subject to risk from the effects of exchange rate movements in various foreign currencies, primarily the euro, the British pound sterling, and the Australian dollar, which may affect future costs and cash flows. We manage foreign currency exchange rate movements by generally placing our debt service obligation to the lender and the tenant's rental obligation to us in the same currency. This reduces our overall exposure to the net cash flow from that investment. In addition, we may use currency hedging to further reduce the exposure to our equity cash flow. We are generally a net receiver of these currencies (we receive more cash than we pay out), and therefore our foreign operations benefit from a weaker U.S. dollar and are adversely affected by a stronger U.S. dollar, relative to the foreign currency. As part of our investment strategy, we make intercompany loans to a number of our foreign subsidiaries, most of which do not have the U.S. dollar as their functional currency. Remeasurement of foreign currency intercompany transactions that are scheduled for settlement, consisting primarily of accrued interest and short-term loans, are included in the determination of net income. For the nine months ended September 30, 2016, we recognized net foreign currency transaction losses (included in Other income and (expenses) in the consolidated financial statements) of \$0.2 million, primarily due to the strengthening of the U.S. dollar relative to the British pound sterling during the period, partially offset by the weakening of the U.S. dollar relative to the euro during the period. The end-of-period rate for the U.S. dollar in relation to the British pound sterling at September 30, 2016 decreased by 12.6% to \$1.2962 from \$1.4833 at December 31, 2015. The end-of-period rate for the U.S. dollar in relation to the euro at September 30, 2016 increased by 2.5% to \$1.1161 from \$1.0887 at December 31, 2015.

The June 23, 2016 referendum by voters in the United Kingdom to exit the European Union, a process commonly referred to as "Brexit," adversely impacted global markets, including the currencies, and resulted in a sharp decline in the value of the British pound sterling and, to a lesser extent, the euro, as compared to the U.S. dollar. In October 2016, the Prime Minister of the United Kingdom announced that the formal withdrawal process would be triggered in the first quarter of 2017. As a result, the end-of-period rate for the U.S. dollar in relation to the British pound sterling at October 31, 2016 decreased by 6.2% to \$1.2155 from \$1.2962 at September 30, 2016. Volatility in exchange rates is expected to continue as the United Kingdom negotiates its likely exit from the European Union. As of September 30, 2016, 4.9% and 28.0% of our total ABR was from the United Kingdom and other European Union countries, respectively. We currently hedge a portion of our British pound sterling exposure and our euro exposure through the next 45 months, thereby significantly reducing our currency risk.

Any impact from Brexit on us will depend, in part, on the outcome of tariff, trade, regulatory, and other negotiations. Although it is unknown what the result of those negotiations will be, it is possible that new terms may adversely affect our operations and financial results.

We enter into foreign currency forward contracts and collars to hedge certain of our foreign currency cash flow exposures. A foreign currency forward contract is a commitment to deliver a certain amount of foreign currency at a certain price on a specific date in the future. A foreign currency collar consists of a written call option and a purchased

put option to sell the foreign currency at a range of predetermined exchange rates. By entering into forward contracts and holding them to maturity, we are locked into a future currency exchange rate for the term of the contract. A foreign currency collar guarantees that the exchange rate of the currency will not fluctuate beyond the range of the options' strike prices. The estimated fair value of our foreign currency forward contracts and collars, which are included in Other assets, net and Accounts payable, accrued expenses and other liabilities in the consolidated financial statements, was in a net asset position of \$39.4 million at September 30, 2016. We have obtained, and may in the future obtain, non-recourse mortgage financing in the local currency. We have also issued the euro-denominated 2.0% Senior Euro Notes and have borrowed under our Revolver in foreign currencies, including the euro and the British pound sterling. To the extent that currency fluctuations increase or decrease rental revenues, as translated to U.S. dollars, the change in debt service, as translated to U.S. dollars, will partially offset the effect of fluctuations in revenue and, to some extent, mitigate the risk from changes in foreign currency exchange rates.

W. P. Carey 9/30/2016 10-Q – 82

Scheduled future minimum rents, exclusive of renewals, under non-cancelable operating leases for our consolidated foreign operations as of September 30, 2016 for the remainder of 2016, each of the next four calendar years following December 31, 2016, and thereafter are as follows (in thousands):

Lease Revenues ^(a)	2016 (Remainder)	2017	2018	2019	2020	Thereafter	Total
Euro ^(b)	\$ 50,245	\$191,498	\$180,002	\$163,584	\$159,448	\$1,345,914	\$2,090,691
British pound sterling ^(c)	8,421	33,535	33,719	33,988	34,347	308,385	452,395
Australian dollar ^(d)	2,897	11,492	11,492	11,492	11,524	159,062	207,959
Other foreign currencies ^(e)	4,354	17,482	17,711	18,206	16,543	186,745	261,041
	\$ 65,917	\$254,007	\$242,924	\$227,270	\$221,862	\$2,000,106	\$3,012,086

Scheduled debt service payments (principal and interest) for non-recourse mortgage notes payable and Senior Unsecured Notes for our consolidated foreign operations as of September 30, 2016 for the remainder of 2016, each of the next four calendar years following December 31, 2016, and thereafter are as follows (in thousands):

Debt service ^{(a) (f)}	2016 (Remainder)	2017	2018	2019	2020	Thereafter	Total
Euro ^(b)	\$ 88,433	\$376,854	\$526,209	\$23,025	\$64,100	\$653,266	\$1,731,887
British pound sterling ^(c)	4,963	813	813	813	813	12,039	20,254
Other foreign currencies ^(e)	710	11,381	8,872	—	—	—	20,963
	\$ 94,106	\$389,048	\$535,894	\$23,838	\$64,913	\$665,305	\$1,773,104

(a) Amounts are based on the applicable exchange rates at September 30, 2016. Contractual rents and debt obligations are denominated in the functional currency of the country of each property.

We estimate that, for a 1% increase or decrease in the exchange rate between the euro and the U.S. dollar, there would be a corresponding change in the projected estimated property level cash flow at September 30, 2016 of \$3.6

(b) million. Amounts included the equivalent of \$378.4 million borrowed in euro under our Revolver, which is scheduled to mature on January 31, 2018 unless extended pursuant to its terms (Note 10), and the equivalent of \$558.1 million of 2.0% Senior Euro Notes outstanding maturing in January 2023 (Note 10).

We estimate that, for a 1% increase or decrease in the exchange rate between the British pound sterling and the (c) U.S. dollar, there would be a corresponding change in the projected estimated property level cash flow at September 30, 2016 of \$4.3 million.

We estimate that, for a 1% increase or decrease in the exchange rate between the Australian dollar and the U.S. (d) dollar, there would be a corresponding change in the projected estimated property level cash flow at September 30, 2016 of \$2.1 million. There is no related mortgage loan on this investment.

(e) Other foreign currencies consist of the Canadian dollar, the Malaysian ringgit, the Swedish krona, the Norwegian krone, and the Thai baht.

(f) Interest on unhedged variable-rate debt obligations was calculated using the applicable annual interest rates and balances outstanding at September 30, 2016.

As a result of scheduled balloon payments on certain of our international non-recourse mortgage loans, primarily denominated in euros, projected debt service obligations exceed projected lease revenues in 2016, 2017, and 2018. In 2016, balloon payments totaling \$75.8 million are due on five non-recourse mortgage loans that are collateralized by properties that we own with affiliates. In 2017, balloon payments totaling \$346.4 million are due on 11 non-recourse mortgage loans that are collateralized by properties that we own with affiliates. In 2018, balloon payments totaling \$131.1 million are due on five non-recourse mortgage loans that are collateralized by properties that we own with affiliates. We currently anticipate that, by their respective due dates, we will have refinanced or repaid these loans using our cash resources, including unused capacity on our Revolver and proceeds from dispositions of properties.

W. P. Carey 9/30/2016 10-Q – 83

Concentration of Credit Risk

Concentrations of credit risk arise when a number of tenants are engaged in similar business activities or have similar economic risks or conditions that could cause them to default on their lease obligations to us. We regularly monitor our portfolio to assess potential concentrations of credit risk. While we believe our portfolio is reasonably well diversified, it does contain concentrations in certain areas in excess of 10%, based on the percentage of our consolidated total revenues or ABR. For the nine months ended September 30, 2016, our consolidated portfolio had the following significant characteristics in excess of 10%, based on the percentage of our consolidated total revenues:

69% related to domestic properties; and
31% related to international properties.

At September 30, 2016, our net-lease portfolio, which excludes our operating properties, had the following significant property and lease characteristics in excess of 10% in certain areas, based on the percentage of our ABR as of that date:

63% related to domestic properties;
37% related to international properties;
28% related to industrial facilities, 25% related to office facilities, 18% related to warehouse facilities, and 16% related to retail facilities; and
20% related to the retail stores industry and 10% related to the consumer services industry.

W. P. Carey 9/30/2016 10-Q – 84

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Our disclosure controls and procedures include internal controls and other procedures designed to provide reasonable assurance that information required to be disclosed in this and other reports filed under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized, and reported within the required time periods specified in the SEC's rules and forms; and that such information is accumulated and communicated to management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosures. It should be noted that no system of controls can provide complete assurance of achieving a company's objectives and that future events may impact the effectiveness of a system of controls.

Our chief executive officer and chief financial officer, after conducting an evaluation, together with members of our management, of the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2016, have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective as of September 30, 2016 at a reasonable level of assurance.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

W. P. Carey 9/30/2016 10-Q – 85
