IMPORTANT NOTICE REGARDING DELIVERY
OF SHAREHOLDER DOCUMENTS

The Securities and Exchange Commission (SEC) permits mutual funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

EATON VANCE, OR YOUR FINANCIAL ADVISER, MAY HOUSEHOLD THE MAILING OF YOUR DOCUMENTS INDEFINITELY UNLESS YOU INSTRUCT EATON VANCE, OR YOUR FINANCIAL ADVISER, OTHERWISE.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2002

LETTER TO SHAREHOLDERS

[PHOTO OF THOMAS J. FETTER]

Thomas J. Fetter
President

Amid the dramatic interest rate decline of recent years, many bonds issued at relatively high interest rates from 1993-1998 have been pre-refunded by their issuers. As a result, escrowed bonds have played an increasingly prominent role in municipal bond portfolios. However, while these bonds are valued by professional investors, analysts and portfolio managers, many individual investors have little knowledge of why bonds are escrowed. As part of our continuing educational series, we thought it might be helpful to discuss the mechanics of escrowed bonds and the role of these bonds in the municipal market.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

THE PROCESS OF ESCROWING MUNICIPAL BONDS TO MATURITY...

In the escrowing process, an issuing jurisdiction essentially refinances original-issue debt with newer, usually lower-interest debt. The jurisdiction issues a "refunding bond," the proceeds of which are used to purchase specially-issued U.S. Treasury bonds - State and Local Government Series bonds, which are held in an irrevocable escrow account by a trustee bank. The principal and interest payments of these Treasury bonds exactly match the future principal and interest payments of the issuer's original bonds.

The principal and interest from these U.S. Treasuries are directed solely to pay the interest and principal on the tax-exempt bonds for which the escrow account was established. Thus, the original bonds are now backed by U.S. Treasuries and are, therefore, deemed among the highest quality of all tax-exempt issues.

BENEFITS FOR ISSUERS: LOWER INTEREST RATES AND ADDED FLEXIBILITY...

When municipal bonds are escrowed, they are said to be "defeased." That means that the bonds are no longer governed by the original covenants and are no longer a direct obligation of the original issuer. The most common defeasance - "high-to-low" defeasance - is based on an economic rationale, in which an issuer seeks to take advantage of a significant decline in interest rates - much the same way homeowners finance their mortgages. By refunding high-coupon bonds with lower-coupon debt, issuers are able to reduce their interest expenses and save taxpayers and ratepayers money.

A second, less common procedure is "low-to-high" defeasance - in which relatively low-coupon bonds are refunded with higher-coupon bonds. This refunding is generally based on a pressing political or structural need, done primarily to effect a change in bond covenants. This change may provide more flexibility for issuers by broadening a project's mandate or redefining revenue sources.

BENEFITS FOR INVESTORS: HIGHER QUALITY, SHORTER MATURITIES, ATTRACTIVE COUPONS...

For investors, owning a bond that has been escrowed provides an immediate upgrade in quality - and often in price - because the bond is now backed by U.S. Treasuries. In addition, because the bond is likely to be called at its earliest call date, it will have a shorter effective maturity and, therefore, less volatility. Finally, in most cases, the bond continues to pay an above-average coupon. These characteristics can represent distinct advantages for investors.

However compelling these benefits are, a portfolio manager still faces a key decision: whether to hold the bond with its attractive coupon and no credit risk - or - to sell the bond at its increased market value and redeploy the increased purchasing power at current interest rates. The investor must factor in market conditions, the interest rate outlook, the availability of bonds in the marketplace and call provisions. If the escrowed bond's original call provisions have been waived, that will dramatically improve the bond's trading characteristics.

These decisions can have a profound effect upon performance. Moreover, the treatment of escrowed bonds is yet another area that demonstrates the value of professional management. We believe that familiarity with bond covenants, trading patterns and in-depth analysis can provide investors a major advantage in municipal bond investing.

Sincerely,

/s/ Thomas J. Fetter

MANAGEMENT UPDATE

[PHOTO OF THOMAS M. METZOLD]
Thomas M. Metzold
Portfolio Manager

MANAGEMENT DISCUSSION

- The U.S. economic recovery remained sluggish, while weak demand and the prospect of future military conflict in Iraq weighed heavily on the financial markets. For much of the year, low interest rates gave a boost to consumer spending. However, by year-end, amid high personal debt level, there were signs that U.S. consumers were beginning to tighten their belts.
- With investors becoming increasingly risk-averse, municipal bonds were among the leading asset classes in 2002. With the stock market declining sharply for the third consecutive year, investors found a measure of comfort in the fixed-income market.
- Hospital bonds represented the Trust's largest sector weighting at November 30, 2002. In a competitive national hospital market, the Trust focused on well-regarded institutions, such as Loyola University Health System, believed to have sound financial structures, good management and a favorable demographic base.
- Because quality is a prime strategic consideration for the Trust, insured* transportation bonds were the second largest sector weighting at November 30, 2002. The Dallas-Fort Worth, TX, International Airport was one of the major holdings in this category.
- As interest rates declined sharply, management continued to adjust the Trust's average coupon, while maintaining its efforts to upgrade call protection. With low interest rates prompting refundings, call protection has become increasingly important for municipal investors.

THE TRUST

PERFORMANCE FOR THE PAST YEAR

- Based on share price (traded on the New York Stock Exchange), the Trust had

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

a total return of 12.32% for the year ended November 30, 2002. That return was the result of an increase in share price from \$13.50 on November 30, 2001 to \$14.05 on November 30, 2002, and the reinvestment of \$1.030 in regular monthly dividends.(1)

- Based on net asset value, the Trust had a total return of 8.68% for the year ended November 30, 2002. That return was the result of an increase in net asset value from \$12.93 on November 30, 2001 to \$13.02 on November 30, 2002, and the reinvestment of all distributions.
- Based on the most recent dividend and a share price of \$14.05, the Trust had a market yield of 7.90% at November 30, 2002.(2) The Trust's market yield is equivalent to a taxable yield of 12.87%.(3)

RATING DISTRIBUTION(4)
By total investments

AAA	40.3%
AA	5.3%
A	6.4%
BBB	19.3%
CCC	0.3%
Non-Rated	28.4%

(1) A portion of the Trust's income may be subject to federal income tax and/or federal alternative minimum tax; income may be subject to state tax. (2)The Trust's market yield is calculated by dividing the most recent dividend per share by the share price at the end of the period and annualizing the result. (3)Taxable-equivalent yield assumes maximum 38.6% federal income tax rate. A lower rate would result in a lower tax-equivalent figure. (4)Trust Overview, Rating Distribution, and Five Largest Categories are subject to change. Trust Overview, Rating Distribution and Five Largest Categories are determined by dividing the total market value of the holdings by the total investments of the Trust. (5>Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested. Past performance is no guarantee of future results. Investment return and market price will fluctuate so that shares, when sold, may be worth more or less than their original cost. Yields will vary.

[SIDENOTE]

AMT - Interest earned from these securities may be considered a tax preference item for purposes of the federal alternative minimum tax.

At November 30, 2002, the concentration of the Trust's investments in the various states, determined as a percentage of net assets, is as follows:

California	12.2%
Colorado	11.2%
Illinois	17.2%
Texas	27.1%
Others, representing less than 10% individually	89.9%

The Trust invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2002, 32.6% of the securities in the portfolio of investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by financial institutions ranged from 3.4% to 15.0% of total investments.

- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.
- (2) Security has been issued as a leveraged inverse floater bond.
- (3) Security (or a portion thereof) has been segregated as collateral in connection with the shortfall and forbearance agreement.
- (4) Security has been issued as an inverse floater bond.
- (5) Non-income producing security.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

(6) Security is subject to a shortfall and forbearance agreement (Note 9).

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2002

NOTES TO FINANCIAL STATEMENTS

1 Significant Accounting Policies

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

Eaton Vance Municipal Income Trust (the Trust) is an entity commonly known as a Massachusetts business trust and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The Trust was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated December 10, 1998. The Trust's investment objective is to achieve current income exempt from regular federal income tax by investing primarily in investment grade municipal obligations.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A Investment Valuation -- Municipal bonds are normally valued on the basis of valuations furnished by a pricing service. Taxable obligations, if any, for which price quotations are readily available are normally valued at the mean between the latest bid and asked prices. Futures contracts listed on the commodity exchanges are valued at closing settlement prices. Short-term obligations, maturing in sixty days or less, are valued at amortized cost, which approximates value. Investments for which valuations or market quotations are unavailable are valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- B Investment Transactions -- Investment transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined using the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that when-issued or delayed delivery purchases are outstanding, the Trust instructs the custodian to segregate assets in a separate account, with a current value at least equal to the amount of its purchase commitments.
- C Income -- Interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount. Effective December 1, 2001, the Trust adopted the provisions of the revised AICPA Audit and Accounting Guide for Investment Companies and began amortizing premiums on fixed-income securities using the interest method of amortization. Prior to December 1, 2001, the Trust amortized market premiums on fixed-income securities using the proportional method of amortization. The cumulative effect of this accounting change had no impact on the Trust's net assets, but resulted in a \$182,235 increase in cost of securities and a corresponding \$182,235 decrease in net unrealized appreciation, based on securities held on November 30, 2001.

The effect of this change for the year ended November 30, 2002 was to increase net investment income by \$178,886, decrease net realized gain by \$31,695, and increase net unrealized depreciation by \$147,191.

The statement of changes in net assets and financial highlights for prior periods have not been restated to reflect these changes.

- D Federal Income Taxes -- The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, if any, and tax-exempt income, including any net realized gain on investments. Therefore, no provision for federal income or excise tax is necessary. At November 30, 2002, the Trust, for federal income tax purposes, had a capital loss carryover of \$29,387,222 which will reduce the taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Trust of

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

any liability for federal income or excise tax. Such capital loss carryover will expire on November 30, 2007 (\$9,497,591), November 30, 2008 (\$14,623,294), and November 30, 2009 (\$5,266,337). In addition, the Trust intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income taxes when received by the Trust, as exempt-interest dividends. The portion of such interest, if any, earned on private activity bonds issued after August 7, 1986, may be considered a tax preference item for investors.

E Financial Futures Contracts -- Upon the entering of a financial futures contract, the Trust is required to deposit (initial margin) either in cash or securities an amount equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by the Trust (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying security, and are recorded for book purposes as unrealized gains or losses by the Trust. The Trust's investment in financial

12

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2002

NOTES TO FINANCIAL STATEMENTS CONT'D

futures contracts is designed for both hedging against anticipated future changes in interest rates and investment purposes. Should interest rates move unexpectedly, the Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

F Options on Financial Futures Contracts -- Upon the purchase of a put option on a financial futures contract by the Trust, the premium paid is recorded as an investment, the value of which is marked-to-market daily. When a purchased option expires, the Trust will realize a loss in the amount of the cost of the option. When the Trust enters into a closing sale transaction, the Trust will realize a gain or loss depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. When the Trust exercises a put option, settlement is made in cash. The risk associated with purchasing put options is limited to the premium originally paid.

G Interest Rate Swaps -- The Trust has entered into interest rate swap agreements to enhance return, to hedge against fluctuations in securities prices or interest rates or as substitution for the purchase or sale of securities. Pursuant to these agreements, the Trust makes semi-annual payments at a fixed interest rate. In exchange, the Trust receives payments based on the interest rate of a benchmark industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Payments received or made at the end of a measurement period are recorded as realized gains and losses. The value of the swap is determined by changes in the relationship between two rates of interest. The Trust is exposed to credit loss in the event of non-performance by the swap counterparty. However, the Trust does not anticipate non-performance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates.

H Use of Estimates -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

I Expense Reduction -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Trust maintains with IBT. All significant credit balances used to reduce the Trust's custodian fees are reported as a reduction of total expenses in the Statement of Operations.

2 Auction Preferred Shares (APS)

The Trust issued 2,620 shares of Auction Preferred Shares Series A and 2,620 shares of Auction Preferred Shares Series B on March 1, 1999 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Special dividend periods of 364 days each were set on the Series A shares. The rates are as follows: a rate of 2.80% was effective July 10, 2001 and matured July 9, 2002, and a rate of 1.62% was effective July 9, 2002, maturing on July 8, 2003 Dividend rates ranged from 1.00% to 1.85% for Series B Shares, during the year ended November 30, 2002. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates.

The APS are redeemable at the option of the Trust, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Trust is in default on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trust's By-Laws. The Trust pays annual fees equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

In accordance with the provisions of EITF D-98, "Classification and Measurement of Redeemable Securities", effective for the current period, the Trust has reclassified its APS Shares outside of permanent equity in the net assets section of the statement of assets and

13

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2002

NOTES TO FINANCIAL STATEMENTS CONT'D

liabilities. In addition, distributions to APS shareholders are now classified as a component of the "Net increase in net assets from operations" on the statements of operations and statement of changes in net assets, and as a component of the "Total income (loss) from operations" in the financial highlights. Prior year amounts presented have been restated to conform to this period's presentation. This change has no impact on the net assets applicable to common shares of the Trust.

3 Distributions to Shareholders

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

The Trust intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding preferred shares. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the Auction Preferred Shares is generally seven days. Effective July 10, 2001, the Series A shares set a special dividend period of 364 days. The applicable dividend rate for the Auction Preferred Shares on November 30, 2002 was 1.62% and 1.15%, for Series A and Series B Shares, respectively. For the year ended November 30, 2002, the Trust paid dividends to Auction Preferred shareholders amounting to \$1,546,938 and \$898,937 for Series A and Series B Shares, respectively, representing an average APS dividend rate for such period of 2.21% and 1.39%, respectively.

The Fund distinguishes between distribution on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid-in capital. These differences relate primarily to the method for amortizing premiums.

4 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at an annual rate of 0.70% of the Trust's average weekly gross assets, was earned by Eaton Vance Management (EVM) as compensation for management and investment advisory services rendered to the Trust. Except for Trustees of the Trust who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trust out of such investment adviser fee. For the year ended November 30, 2002, the fee was equivalent to 0.70% of the Trust's average weekly gross assets and amounted to \$2,413,636. EVM also serves as the administrator of the Trust. An administration fee, computed at the annual rate of 0.20% of the average weekly gross assets of the Trust, is paid to EVM for managing and administering business affairs of the Trust. For the year ended November 30, 2002, the administrative fee amounted to \$689,724.

Trustees of the Trust that are not affiliated with the Investment Adviser may elect to defer receipt of all or a percentage of their annual fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the year ended November 30, 2002, no significant amounts have been deferred.

Certain officers and Trustees of the Trust are officers of EVM.

5 Investments

Purchases and sales of investments, other than U.S. Government securities and short-term obligations, aggregated \$48,907,471 and \$47,886,104, respectively, for the year ended November 30, 2002.

6 Federal Income Tax Basis of Unrealized Appreciation (Depreciation)

The cost and unrealized appreciation (depreciation) in value of the investment owned by the Trust at November 30, 2002, as computed for Federal income tax purposes, are as follows:

AGGREGATE COST	\$344,293,579
<hr/>	
Gross unrealized appreciation	\$ 15,236,997
Gross unrealized depreciation	(18,738,961)
<hr/>

7 Shares of Beneficial Interest

The Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares. Transactions in common shares were as follows:

	YEAR ENDED NOVEMBER 30,	
	2002	2001
Shares issued pursuant to the Trust's dividend reinvestment plan	197,404	130,619
NET INCREASE	197,404	130,619

8 Financial Instruments

The Trust regularly trades in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include futures contracts and interest rate swaps and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

9 Shortfall and Forebearance Agreement

The Trust regularly trades in securities commonly known as inverse floater bonds. Inverse floaters are bonds with a coupon rate of interest that varies inversely with changes in specified general interest rate levels or indexes (for example, LIBOR). The inverse floater bonds are issued by a trust through a securitization process. In addition to the inverse floater or residual interest bond (RIBS), the securitization trust also issues floating rate securities whose interest rate is established periodically through an auction market process. The sponsor of the securitization trust provides a liquidity feature for the floating rate bonds that guarantees the principal of the floating rate bond issued.

Under certain circumstances, the Trust may enter into a so-called shortfall and forbearance agreement with the sponsor of an inverse floater securitization trust. During the year, the Trust entered into such a shortfall and forbearance agreement with the sponsor of a trust issuing one of the inverse floater bonds held by the Trust. The agreement commits the Trust to reimburse the sponsor, upon the termination of the securitization

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

trust, for an amount equal to the difference between the liquidation value of the underlying bond held by the securitization trust and the principal amount due to the floating rate holders. Under the standard terms of a typical inverse floater, the Trust would not be required to make such reimbursement. The value of the agreement above-described at November 30, 2002 of \$500,050 represents the potential amount due to the sponsor based on the value of the underlying bond as of that date.

INDEPENDENT AUDITORS' REPORT

To the Trustees and Shareholders of
Eaton Vance Municipal Income Trust:

We have audited the accompanying statement of assets and liabilities of Eaton Vance Municipal Income Trust (the Trust), including the portfolio of investments, as of November 30, 2002, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the years in the three year period ended November 30, 2002 and for the period from the start of business, January 29, 1999, to November 30, 1999. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. Our procedures included confirmation of securities held as of November 30, 2002 by correspondence with the custodian. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights, referred to above, present fairly, in all material respects, the financial position of Eaton Vance Municipal Income Trust as of November 30, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

EATON VANCE MUNICIPAL INCOME TRUST

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the Plan) pursuant to which shareholders automatically have dividends and capital gains distributions reinvested in common shares (the Shares) of the Trust unless they elect

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

otherwise through their investment dealer. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Trust's transfer agent, PFPC Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Trust. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC Inc., at 1-800-331-1710.

EATON VANCE MUNICIPAL INCOME TRUST

APPLICATION FOR PARTICIPATION IN DIVIDEND REINVESTMENT PLAN

This form is for shareholders who hold their common shares in their own names. If your common shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it will participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank, or nominee is unable to participate on your behalf, you should request that your common shares be re-registered in your own name which will enable your participation in the Plan.

The following authorization and appointment is given with the understanding that I may terminate it at any time by terminating my participation in the Plan as provided in the terms and conditions of the Plan.

Please print exact name on account:

Shareholder signature _____ Dat _____

Shareholder signature _____ Dat _____

Please sign exactly as your common shares a
All persons whose names appear on the share
must sign.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

YOU SHOULD NOT RETURN THIS FORM IF YOU WISH TO RECEIVE YOUR DIVIDENDS AND DISTRIBUTIONS IN CASH. THIS IS NOT A PROXY.

THIS AUTHORIZATION FORM, WHEN SIGNED, SHOULD BE MAILED TO THE FOLLOWING ADDRESS:

Eaton Vance Municipal Income Trust
c/o PFPC, Inc.
