This Proxy Statement is being furnished to the shareholders of Merit Medical Systems, Inc., a Utah corporation (the "Company"), in connection with the solicitation by the Board of Directors of the Company of proxies from holders of outstanding shares of the Company's common stock, no par value (the "Common Stock"), for use at the Annual Meeting of Shareholders of the Company to be held on Tuesday, May 25, 2004, at 3:00 p.m., at the Company's corporate offices at 1600 West Merit Parkway, South Jordan, Utah, and at any adjournment or postponement thereof (the "Annual Meeting"). In addition to the solicitation of proxies by use of the mail, the directors, officers and employees of the Company, without receiving additional compensation, may solicit proxies personally or by telephone, electronic mail or facsimile. Arrangements will be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of the shares of Common Stock held by those persons, and the Company will reimburse those brokerage firms, custodians, nominees and fiduciaries for reasonable out-of-pocket expenses incurred by them in connection therewith. The Company has retained the Proxy Advisory Group of Strategic Stock Surveillance, LLC, 331 Madison Ave., 12th Floor, New York, New York 10017, to assist in the solicitation of proxies, for an estimated fee of \$7,500, plus reasonable out-of-pocket expenses. Brokerage firms, nominees, custodians and fiduciaries may be asked to forward proxy soliciting material to the beneficial shareholders.

VOTING

The Board of Directors has fixed the close of business on April 20, 2004 as the Record Date for determination of shareholders entitled to receive notice of and to vote at the Annual Meeting (the "Record Date"). As of the Record Date, there were issued and outstanding 26,265,141 shares of Common Stock. The holders of record of the shares of Common Stock on the Record Date entitled to be voted at the Annual Meeting are entitled to cast one vote per share on each matter submitted to a vote at the Annual Meeting.

Proxies

Shares of the Common Stock that are entitled to be voted at the Annual Meeting and are represented by properly executed proxies will be voted in accordance with the instructions on those proxies. If no instructions are indicated, those shares will be voted FOR the election of each of the two director nominees for their respective terms, FOR the proposal to amend the Merit Medical Systems, Inc. 1999 Omnibus Stock Incentive Plan (the "Incentive Plan") for the purposes of (i) changing the name of the Incentive Plan to the "Merit Medical Systems, Inc. Stock Incentive Plan,"

(ii) increasing the number of shares of Common Stock available for awards under the Incentive Plan from 4,678,861 shares to 5,928,861 shares, (iii) establishing minimum vesting periods for grants of restricted stock under the Incentive Plan, and (iv) limiting the discretion of the Incentive Plan's administrative committee (currently the Compensation Committee of the Company's Board of Directors) to amend the Incentive Plan or waive restrictions set forth therein, FOR the ratification of the appointment of Deloitte & Touche LLP to be the Company's independent auditor for the fiscal year ending December 31, 2004, and in the discretion of the proxy holder as to any other matters that may properly come before the Annual Meeting. Vote Required

A majority of the issued and outstanding shares of Common Stock entitled to vote, represented in person or by proxy, is required for a quorum at the Annual Meeting. Abstentions and broker non-votes will be counted as "represented" for the purpose of determining the presence or absence of a quorum.

Under Utah law, in connection with the election of directors, the two nominees receiving the highest number of votes will be elected. In order to approve the proposals in respect of the amendment of the Incentive Plan and the appointment of independent auditors, votes cast in favor of each proposal must exceed the votes cast against. Change of Control Employment Agreements

The Board of Directors has approved Change of Control Employment Agreements (the "Employment Agreements") for each of the Named Officers. These Employment Agreements provide benefits in the event of a change of control of the Company and payments and benefits in the event of termination of employment under certain circumstances.

The Employment Agreements provide for the continued employment of the Named Officers for two years following a change of control (three years in the case of Mr. Fred P. Lampropoulos) (the "Employment Period") in essentially the position held prior to the change of control and at an annual base salary and average annual bonus based on the salary paid during the last fiscal year and the average of the bonuses paid during the three fiscal years prior to the change of control. In addition, during the Employment Period, the Named Officers are entitled to participate in all retirement plans, benefit plans and other employee benefits in effect prior to the change of control or, if more favorable, in those benefit programs provided to employees after the change of control.

Upon termination of employment by the Company following a change of control, other than for death, disability or cause, or if the Named Officer terminates employment for good reason, the Named Officer is entitled to receive the sum of (i) his or her base salary and bonus through the date of termination, (ii) any accrued or deferred compensation or benefits, (iii) an amount equal to the Named Officer's annual base salary and average annual bonus multiplied by the number of whole or fractional years remaining in the Employment Period, and (iv) continued coverage during the remainder of the Employment Period under the Company's benefit plans, programs, practices or policies. The Employment Agreements provide that the Named Officers may voluntarily terminate employment during a 30-day window period following the first 12 months of the Employment Period and that such a termination will be deemed for good reason. If termination of the employment of a Named Officer occurs that is not related to a change of control and is for other than death, disability or cause, the Named Officer is entitled to receive the sum of (i) and (ii) above, plus a sum equal to his or her annual base compensation and average bonus (based on the base salary paid during the last fiscal year and bonuses paid during the last three fiscal years).

If termination of employment of a Named Officer occurs by reason of death or disability, he or she shall be entitled to payment of base salary and bonus through the date of termination, any deferred

or accrued benefits, and other death or disability benefits equal to the most favorable benefits provided by the Company to other employees and their families. If the Named Officer is terminated for cause during the Employment Period, the Company is obligated to pay to the Named Officer his or her annual base salary through the date of termination, the amount of any compensation previously deferred, and any other benefits due through the date of termination, in each case to the extent not previously paid.

Report of the Executive Compensation Committee

Notwithstanding anything to the contrary set forth in any of the Company's previous filings under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act, that incorporates by reference, in whole or in part, subsequent filings including, without limitation, this Proxy Statement, the following Report of the Executive Compensation Committee, the Report of the Audit Committee and the Performance Graph set forth on page 12 hereof shall not be deemed to be incorporated by reference into any such filings.

General. The Company's executive compensation program is administered by the Executive Compensation Committee, which is responsible for establishing the policies and amounts of compensation for the Company's executive officers. The Executive Compensation Committee, composed of three independent directors, has oversight responsibility for executive compensation and the executive benefit programs of the Company.

Executive Compensation Principles. The Company's executive compensation program is designed to align executive compensation with the values, objectives and performance of the Company. The executive compensation program is designed to achieve the following objectives:

Attract and retain highly qualified individuals who are capable of making significant contributions to the long-term success of the Company;

Reward executive officers for long-term strategic management and the enhancement of shareholder value; and

Promote a performance-oriented environment that encourages Company and individual achievement.

Executive Compensation Program. The Company's executive compensation program consists of both cash and equity-based compensation. The components of the Company's executive compensation program and the policies that govern their implementation are outlined briefly below.

Cash Compensation. The Company's cash compensation policy is designed to provide competitive levels of compensation to attract and retain qualified individuals and to reward individual initiative and achievement. The Company's existing executive compensation program is a base compensation plan with a bonus compensation element.

The salary for Fred P. Lampropoulos, President and Chief Executive Officer, is based generally upon comparisons with levels of compensation paid to Chief Executive Officers of other comparably-sized medical device manufacturers. The overall performance of the Company and the Company's progress toward achieving specific objectives are also important factors in setting compensation for Mr. Lampropoulos.

Cash compensation for executive officers other than the Chief Executive Officer is based generally upon comparisons with comparably sized medical device manufacturers and is targeted at the mid-range of the salary levels of those manufacturers. Compensation of executive officers is based, in part, upon their respective responsibilities as compared to similar positions in comparable companies. The Executive Compensation Committee also considers individual merit and the Company's

performance. It is the practice of the Committee to solicit and review recommendations of the Chief Executive Officer when determining salary levels for executive officers other than the Chief Executive Officer.

The Executive Compensation Committee has established an annual incentive bonus program for the Chief Executive Officer. In 2003, Mr. Lampropoulos qualified for the full amount of the bonus when he achieved or exceeded all of the goals in each of three categories: revenue growth; earnings per share; and the completion of three major projects. For 2004, Mr. Lampropoulos will be entitled to receive base incentive compensation to be determined by the Executive Compensation Committee if the Company achieves each new goal established by the Executive Compensation Committee for revenue growth, earnings per share and project completion. If a particular goal is not completely achieved, no portion of the base incentive compensation will be paid for that category. In addition, the Board of Directors may in its discretion declare and pay to the Chief Executive Officer additional bonus amounts in recognition of exceptional performance.

Equity-Based Compensation. The Company has adopted various stock-based compensation plans that are designed to promote and advance the interest of the Company and its shareholders by strengthening the mutuality of interests between the executive officers of the Company and the Company's shareholders. Since executive incentive compensation is based on shares of Common Stock, the value of those awards to executive officers increases as the value of the Common Stock increases.

Benefits. The Company's policy is to provide an attractive benefit package to all employees. Executive officers of the Company are generally eligible to participate, on the terms and conditions applicable to all eligible employees of the Company, in the Merit Medical Systems 401(k) Profit Sharing Plan, a contributory savings and profit sharing plan for all Company employees over the age of 18. Certain executive officers may elect to defer certain awards or compensation under the Company's employee benefit plans.

Report of the Audit Committee.

The Audit Committee met five times during the 2003 year to review the Company's accounting practices and procedures with the Company's management and independent public accountants and to review the quarterly and annual financial statements of the Company. All members of the Audit Committee attended all such meetings. Additionally, the Audit Committee or Richard W. Edelman, its chairman, met with the Company's independent auditors and management to review the financial information included in the audited financial statements. The functions of the Audit Committee are outlined in the Audit Committee Charter attached to this proxy statement as *Exhibit A*. All members of the Audit Committee are "independent," as defined in Rule 4200(a)(14) of the National Association of Securities Dealers listing standards.

Management is responsible for the Company's internal controls and the financial reporting process. The independent auditor is responsible for performing an audit of the Company's financial statements in accordance with generally accepted auditing standards in the United States of America and for expressing an opinion on those financial statements based on its audit. The Audit Committee reviews these processes on behalf of the Board of Directors. The Audit Committee has reviewed and discussed with the Company's management and its independent auditor the audited financial statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2003.

The Audit Committee also has discussed with the independent auditor the matters required to be discussed by the Statement on Auditing Standards No. 61 (Communication with Audit Committee), as amended.

The Audit Committee has received the written disclosures and the letter from the independent auditor required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as amended, and has discussed with the independent auditor its independence. The Audit Committee has also considered whether the provision of the services described below under the captions Proposal No. 4 Ratification of Selection of Auditor, "Financial Information Systems Design and Implementation Fees" and "All Other Fees" is compatible with maintaining the independence of the independent auditor.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003, as filed with the Commission.

**PROPOSAL NO. 2 AMENDMENT TO THE MERIT MEDICAL SYSTEMS, INC.
1999 OMNIBUS STOCK INCENTIVE PLAN**

The Board of Directors has voted to amend the Merit Medical Systems, Inc. 1999 Omnibus Stock Incentive Plan (the "Incentive Plan"), the purposes of (i) changing the name of the Incentive Plan to the "Merit Medical Systems, Inc. Stock Incentive Plan," (ii) increasing the number of shares of Common Stock available under the Incentive Plan from 4,678,861 shares to 5,928,861 shares, (iii) establishing minimum vesting periods for grants of restricted stock under the Incentive Plan, and (iv) limiting the discretion of the Incentive Plan's administrative committee (currently the Compensation Committee of the Board of Directors) to amend the Incentive Plan or waive restrictions set forth in the Incentive Plan (the "Plan Amendment"). If the Plan Amendment is not approved, the Incentive Plan will remain in effect in its present form. The terms of the Incentive Plan are summarized below. Capitalized terms, unless otherwise defined, have the meanings assigned to them in the text of the Incentive Plan. The provisions, terms and conditions of the Plan Amendment are set forth in a Second Amendment *to the Merit Medical Systems, Inc. 1999 Omnibus Stock Incentive Plan, a copy of which is attached to this proxy statement as Exhibit C.*

The Board of Directors recommends that shareholders vote FOR the Plan Amendment.

General

The Incentive Plan is intended to promote the interests of the Company and its shareholders by providing directors, officers, employees and others who are expected to contribute to the success of the Company with appropriate incentives and rewards to encourage them to enter into and continue in the employ of the Company and to acquire a proprietary interest in the long-term success of the Company thereby aligning their interest more closely to the interests of the shareholders. Persons eligible for grants under the Incentive Plan include six directors, approximately 1,250 employees that are not directors and an indeterminable number of consultants and others who may contribute to the long-term success of the Company.

The Incentive Plan is intended to comply with the requirements of Rule 16b-3 ("Rule 16b-3") promulgated under the Exchange Act. In addition, the Incentive Plan is intended to provide performance-based compensation so as to be eligible for an exemption from the deduction limitations contained in Section 162(m) of the Internal Revenue Code of 1986, as amended ("Section 162(m)"). Section 162(m) denies a deduction by an employer for certain compensation in excess of \$1 million per year paid by a publicly traded corporation to persons who would qualify as the "Named Officers" of the Company in any given year. Certain compensation, including compensation based on the attainment of performance goals, is excluded from this deduction limit if certain requirements are met. Among the requirements for compensation to qualify for this exception is that the material terms pursuant to which the compensation is to be paid be disclosed to and approved by the shareholders in a separate vote prior to the payment. Accordingly, if the Plan Amendment is approved by shareholders and the other conditions of Section 162(m) relating to performance-based compensation are satisfied, compensation paid to persons that would qualify as Named Officers pursuant to the Incentive Plan will not be subject to the deduction limit of Section 162(m).

Summary of Terms

The Incentive Plan presently authorizes an aggregate of 4,678,861 shares of Common Stock that may be subject to awards, subject to adjustment as described below. If the Plan Amendment is approved, the number of shares of Common Stock authorized for awards under the Incentive Plan will increase to 5,928,861 shares. As of April 20, 2004, there were only 1,341 shares of Common Stock available for issuance upon the exercise of awards granted under the Incentive Plan.

The Common Stock issued pursuant to the Incentive Plan may be authorized and unissued shares, treasury shares or shares acquired by the Company for purposes of the Incentive Plan. The Common Stock is traded on the Nasdaq National Market. The closing price of the Common Stock on the Nasdaq National market on April 19, 2004 was \$21.45. Generally, shares subject to an award that remain unissued upon expiration or cancellation of the award will be available for other awards under the Incentive Plan. The total number of shares of Common Stock subject to awards (including awards paid in cash but denominated in shares of Common Stock) granted to any participant in the Incentive Plan during any taxable year of the Company may not exceed 200,000. In the event that the Executive Compensation Committee of the Board of Directors (the "Committee") determines that any dividend or other distribution, stock split, recapitalization, reorganization, merger or other similar corporate transaction or event affects the Common Stock such that an adjustment is appropriate in order to prevent dilution or enlargement of the rights of participants under the Incentive Plan, then the Committee will make equitable changes or adjustments as it deems necessary to the aggregate number of shares available under the Incentive Plan, the limit on individual awards, the number of shares subject to each outstanding award, and the exercise price of each outstanding option or stock appreciation right.

Awards under the Incentive Plan may be made in the form of (i) stock options that qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, (ii) options other than incentive stock options ("non-qualified stock options"), (iii) stock appreciation rights, (iv) restricted stock, (v) phantom bonuses. Awards may be granted to directors, officers, employees and others expected to contribute to the long-term success of the Company and its subsidiaries as the Committee, in its discretion, selects.

The Incentive Plan is administered by the Committee, which is, at all times, required to consist of two or more persons each of whom is an "outside director" within the meaning of Section 162(m) and a non-employee director within the meaning of Rule 16b-3. The Committee is authorized, among other things, to construe, interpret and implement the provisions of the Incentive Plan, to select the persons to whom awards will be granted, to determine the terms and conditions of those awards and to make all other determinations deemed necessary or advisable for the administration of the Incentive Plan. If, however, the Plan Amendment is approved, the Committee will no longer possess the discretion, without amendment of the Incentive Plan by the Company's shareholders, to (i) accelerate the date on which any Tandem SAR or Stand-Alone SAR or Incentive Award relating to Phantom Stock granted under the Incentive Plan becomes exercisable, (ii) otherwise adjust any of the terms of such Tandem SAR or Stand-Alone SAR, or (iii) accelerate the Exercise Date or Issue Date, or waive any condition imposed under the Incentive Plan, with respect to any share of Restricted Stock or Phantom Stock or otherwise adjust any of the terms applicable to any such share.

Awards Under the Incentive Plan

Stock Options. Unless the Committee expressly provides otherwise, an option granted under the Incentive Plan will not be exercisable prior to one year after the date of grant and will become exercisable as to 20% of the shares subject thereto on each of the first through fifth anniversaries of the grant. The Committee determines each option's expiration date, but no incentive stock option may be exercised more than ten years after the date of grant. The purchase price per share payable upon the exercise of an option (the "option exercise price") is established by the Committee, but may be no less than the fair market value of a share of Common Stock on the date of grant. The option exercise price is payable (i) in cash, by certified check, bank cashier's check or wire transfer, (ii) by delivering instructions to a broker to deliver promptly to the Company the amount of sale or loan proceeds to pay the full amount of the Purchase Price, (iii) by delivering shares of Common Stock owned by the participant with appropriate stock powers, (iv) by electing to have the Company retain shares of

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

Common Stock that would otherwise be issued on the exercise of the Option, (v) any combination of the foregoing forms, or (vi) by such other payment method as the Committee may prescribe.

Stock Appreciation Rights. Stock appreciation rights may be granted in connection with all or any part of, or independently of, any option granted under the Incentive Plan. A stock appreciation right granted independently of any option will be subject to the same vesting rules as described above for options. A stock appreciation right granted in tandem with a stock option will be exercisable only when and to the extent the option to which it relates is exercisable. The grantee of a stock appreciation right has the right to surrender the stock appreciation right and receive from the Company, in cash, an amount equal to the excess of the fair market value of a share of Common Stock over the exercise price of the stock appreciation right for each share of Common Stock in respect of which that stock appreciation right is being exercised.

Restricted Stock. The Committee may grant restricted shares of Common Stock to persons, in amounts, and subject to terms and conditions (including the attainment of performance goals) as the Committee determines in its discretion. Awards of Restricted Stock granted to executive officers of the Company must be contingent on the attainment by the Company or a subsidiary of the Company, if applicable, of one or more pre-established performance goals (the "Performance Goals") established by the Committee. The Performance Goals may be based on the attainment by the Company (and/or its subsidiaries, if applicable) of any one or more of the following criteria: (i) a specified percentage return on total stockholder equity of the Company; (ii) a specified percentage increase in earnings per share of Common Stock from continuing operations of Common Stock; (iii) a specified percentage increase in net income of the Company; and (iv) a specified percentage increase in profit before taxation of the Company. If the Plan Amendment is approved, all grants of Restricted Stock will be subject to minimum vesting requirements. Awards of Restricted Stock which are subject to Performance Goals will not be exercisable prior to one year after the date of grant, whereas Restricted Stock awards which are not subject to Performance Goals will not be exercisable prior to three years after the date of grant.

Phantom Stock. The Committee may grant shares of phantom stock to persons, in amounts, and subject to terms and conditions (including the attainment of performance goals) as the Committee determines in its discretion. If the requirements specified by the Committee are met, the grantee of an award will receive a cash payment equal to the fair market value of a number of shares of Common Stock equal to the number of shares of phantom stock covered by the award plus the dividends that would have been paid on those shares had they actually been outstanding shares of Common Stock following the grant date. Awards of phantom stock granted to executive officers of the Company must be contingent on the attainment by the Company or a subsidiary of the Company, if applicable, of any one or more of the Performance Goals noted above.

Stock Bonus. The Committee may grant bonuses comprised of shares of Common Stock free of restrictions to persons and in amounts, as the Committee determines in its discretion. No Executive Officer is eligible to receive a Stock Bonus under the Incentive Plan unless a prior determination of eligibility is made by the Committee.

The Board may suspend, discontinue, revise, terminate or amend the Incentive Plan at any time, but that shareholder approval must be obtained if and to the extent that the Board deems it appropriate to satisfy Section 162(m). In the event of a Change in Control, all outstanding awards will become fully vested and/or immediately exercisable.

Plan Benefits

Because awards under the Incentive Plan will be granted at the sole discretion of the Committee and performance goal criteria may vary from year to year and from participant to participant, the

Company cannot now determine the exact number of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, phantom stock and stock bonuses to be granted in the future to each of the Named Officers, to all current executive officers as a group, to all non-executive officer directors as a group or to all non-executive officer employees as a group. See "Officer Compensation Options Granted in Last Fiscal Year" above for the number of options granted under the Incentive Plan to the Named Officers in the year ended December 31, 2003. During the year ended December 2003, options to purchase 30,000 shares of Common Stock were granted to all current officers as a group.

Federal Income Tax Consequences

The following is a general discussion of certain federal income tax consequences of awards granted under the Plan. The discussion does not describe any tax consequences under the tax laws of any state, locality or foreign jurisdiction. Furthermore, the discussion is based on the provisions of the Internal Revenue Code and regulations, rulings and judicial decisions thereunder as of the date hereof, and those authorities may be repealed or modified retroactively so as to result in federal income tax consequences different from those discussed below. The discussion below does not discuss all federal tax consequences that may be relevant to a particular grantee and is not intended as tax advice.

Stock Options

General. No income will be recognized by an optionee upon either grant or exercise of a stock option. But the amount by which the market value of shares issued upon exercise of a stock option exceeds the exercise price is included in the optionee's alternative minimum taxable income and may, under certain conditions, be taxed under the alternative minimum tax. If the optionee holds shares acquired upon exercise of a stock option for two years after the date of grant and one year after the date of exercise (the "holding periods"), and if the optionee has been an employee of the Company (or of any parent or subsidiary of the Company) at all times from the date of grant to the date three months before exercise, then any gain realized by the optionee upon sale or exchange of the shares generally will be long-term capital gain and any loss generally will be long-term capital loss.

Generally, if an optionee disposes of shares acquired upon exercise of a stock option within the holding periods and all requirements other than the holding period rules are met (an "early disposition"), the optionee generally will recognize ordinary compensation income for the year of disposition equal to the lesser of (i) the excess of the market value of the shares on the date of exercise over the exercise price or (ii) the excess of the amount realized on disposition of the shares over the exercise price. The remainder of the gain realized upon the early disposition, if any, generally will be short-term or long-term capital gain. If shares acquired upon exercise of a stock option are disposed of in an early disposition, the Company generally will be entitled to a deduction in the year of disposition equal to the amount of ordinary compensation income recognized by the optionee. With respect to shares purchased by certain executive officers, the Company's deduction can, in certain circumstances, be limited by the \$1,000,000 cap on deductibility under Section 162(m) of the Internal Revenue Code.

Exercise Using Previously Acquired Shares. If an optionee exercises a stock option using exercise shares to acquire new option shares, the tax results generally will be as set forth above with the following exceptions. If the exercise shares were acquired on exercise of a stock option and the applicable holding periods have not been satisfied with respect to the exercise shares, the optionee will be treated as having made an early disposition of the exercise shares and accordingly will have ordinary compensation income for the year of disposition as discussed above.

In addition, regulations proposed by the Internal Revenue Service divide the option shares into two groups for purposes of determining the tax consequences upon their disposition. The first group,

consisting of the number of option shares equal to the number of exercise shares, will have a tax basis equal to the tax basis of the exercise shares immediately before exercise of the option, increased by any amount recognized as ordinary compensation income on the disposition of the exercise shares. The second group, consisting of the balance of the option shares, will have a tax basis of zero. The gain upon disposition of option shares will be the excess of the sales proceeds over the tax basis of the shares. If the exercise shares were acquired on exercise of a stock option and the applicable holding periods had been satisfied with respect to the exercise shares, the option shares in the first group generally will be treated for tax purposes as if acquired at the same time as the exercise shares. Only shares in the second group will effectively be subject to the holding periods, and on an early disposition of those shares an amount equal to their market value on the date of exercise will be treated as ordinary compensation income. The disposition of any option share, however, will be treated as the disposition of a share in the second group until either all of the shares in the second group have been disposed of or the holding periods have been satisfied. Before exercising a stock option using exercise shares, optionees should consult their individual tax advisers.

Stock Appreciation Rights

Generally there are no immediate federal income tax consequences to a participant when a stock appreciation right is granted. Instead, the participant realizes ordinary income when a cash payment is received. The Company will be entitled to deduct the same amount as a business expense at the time.

Restricted Stock

No income is recognized by a recipient of restricted stock upon the grant of the stock, unless the recipient elects within 30 days (pursuant to Section 83(b) of the Internal Revenue Code) to recognize income at the time the recipient receives the stock. If the recipient makes the Section 83(b) election, the recipient may not deduct amounts subsequently returned to the Company. If the recipient does not make the Section 83(b) election, the recipient will generally recognize ordinary income and be subject to reporting and withholding requirements when the restrictions on the stock are removed. The income recognized by the recipient will be the fair market value of the restricted stock on the date the restrictions are removed less any amount paid for the shares. When the recipient sells the restricted stock, the recipient will recognize capital gain or loss in an amount equal to the amount realized upon the sale less the recipient's basis. The recipient's basis will be what the recipient paid for the restricted stock plus any income previously recognized.

Phantom Stock

Generally there are no immediate federal income tax consequences to a participant when phantom stock is granted. Instead, the participant realizes ordinary income when a cash payment is received. The Company will be entitled to deduct the same amount as a business expense at the time.

Stock Bonuses

A stock bonus will generally result in compensation income for the recipient equal to the fair market value of the stock granted on the date it is granted. When the recipient sells the stock obtained as a stock bonus, the recipient will recognize capital gain or loss in an amount equal to the amount realized upon the sale less the recipient's basis. The recipient's basis will be any income previously recognized with respect to the stock.

PROPOSAL NO. 3 RATIFICATION OF SELECTION OF AUDITOR

The Audit Committee has recommended, and the Board of Directors has selected, the firm of Deloitte & Touche LLP, independent certified public accountants, to audit the financial statements of

the Company for the fiscal year ending December 31, 2004, subject to ratification by the Company's shareholders. Deloitte & Touche LLP has acted as independent auditor for the Company since 1987. The Board of Directors anticipates that one or more representatives of Deloitte & Touch LLP will be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

The Board of Directors recommends that shareholders vote FOR ratification of the appointment of Deloitte & Touche LLP as the Company's independent auditor.

Audit Fees

The aggregate fees billed by Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates (collectively, "Deloitte") for professional services rendered for the audit of the Company's financial statements and the reviews of the Company's interim financial statements included in the Company's Quarterly Reports on Forms 10-Q were approximately for the fiscal year ended December 31, 2002 and approximately \$125,000 for the fiscal year ended December 31, 2002 and approximately \$157,000 for the fiscal year ended December 31, 2003.

Audit-Related Fees

The aggregate fees billed by Deloitte for all audit-related services, consisting of an audit of the Company's employee benefit plan for the Company's subsidiary located in Ireland were approximately \$2,100 for the fiscal year ended December 31, 2003.

Tax Fees

The aggregate fees billed by Deloitte for tax compliance, tax advice and tax planning were approximately \$96,000 for the fiscal year ended December 31, 2002 and approximately \$193,000 for the fiscal year ended December 31, 2003.

All Other Fees

The aggregate fees billed by Deloitte for all other non-audit services were approximately zero for the fiscal year ended December 31, 2002 and approximately zero for the fiscal year ended December 31, 2003.

Pre-Approval Policies and Procedures

The Audit Committee ensures that the Company engages its public accountants to provide only audit and non-audit services that are compatible with maintaining the independence of its public accountants. The Audit Committee approves or pre-approves all services provided by the Company's public accountants. Permitted services include audit and audit-related services, tax and other non-audit related services. Certain services are identified as restricted. Restricted services are those services that may not be provided by the Company's external public accountants, whether identified in statute or determined in the Company's opinion to be incompatible with the role of an independent auditor. All fees identified in the preceding three paragraphs were approved by the Audit Committee. During 2003, the Audit Committee reviewed all non-audit services provided by the Company's external public accountants, and concluded that the provision of such non-audit services was compatible with maintaining the independence of the external public accountants.

OTHER MATTERS

As of the date of this Proxy Statement, the Board of Directors knows of no other matters to be presented for action at the Annual Meeting. If, however, any further business should properly come

before the Annual Meeting, the persons named as proxies in the accompanying form will vote on that business in accordance with their best judgment.

PROPOSALS OF SHAREHOLDERS

In order to be included in the proxy statement and form of proxy relating to the Company's annual meeting of shareholders to be held in 2005, proposals that shareholders intend to present at the Annual Meeting of Shareholders to be held in calendar year 2005 must be received by the Secretary of the Company at the Company's executive offices (1600 West Merit Parkway, South Jordan, Utah 84095) no later than December 31, 2004. Pursuant to rules adopted by the Commission, if a shareholder intends to propose any matter for a vote at the Company's annual meeting of shareholders to be held in the 2005 calendar year but fails to notify the Company of that intention prior to March 15, 2005, then a proxy solicited by the Board of Directors may be voted on that matter in the discretion of the proxy holder, without discussion of the matter in the proxy statement soliciting the proxy and without the matter appearing as a separate item on the proxy card.

ADDITIONAL INFORMATION

The Company will provide without charge to any person from whom a proxy is solicited by the Board of Directors, upon the written request of that person, a copy of the Company's 2003 Annual Report on Form 10-K, including the financial statements and schedules thereto (as well as exhibits thereto, if specifically requested), required to be filed with the Commission. Written requests for that information should be directed to the Secretary of the Company at the address on the first page of this proxy statement.

Purpose

The purpose of the Audit Committee (the "Committee") of the Board of Directors (the "Board") of Merit Medical Systems, Inc. (the "Company") is to oversee the Company's accounting and financial reporting processes, systems of internal accounting and financial controls, and the audits of the Company's financial statements.

RECITALS

In 1999, the Company adopted the Plan for the purpose of providing stock options and other equity-based long-term incentives to its executives, employees and non-employee directors.

The Board of Directors of the Company (the "Board") has determined that it is necessary and desirable to amend the Plan in certain respects.

(the "Company"), no further awards have been made under the Predecessor Plan. The Plan is intended to promote the interests of the Company and the stockholders of The Company by providing officers and other employees of the Company (including directors who are also employees of the Company) and persons who are expected to make a long-term contribution to the success of the Company with appropriate incentives and rewards to encourage them to enter into and continue in the employ of the Company and/or to acquire a proprietary interest in the long-term success of the Company, thereby aligning their interest more closely to the interest of stockholders. This amended Plan document incorporates prior amendments to the Plan adopted as of December 7, 2002.

5.

The first two paragraphs of Section 4 of the Plan, entitled "Administration of the Plan," are hereby amended in their entirety and replaced with the following:

The Plan shall be administered by the Committee. The Committee shall have the authority in its discretion, subject to and not inconsistent with the express provisions of the Plan, to administer the Plan and to exercise all the powers and authorities either specifically granted to it under the Plan or necessary or advisable in the administration of the Plan, including, without limitation, the authority to grant Incentive Awards; to determine the persons to whom and the time or times at which Incentive Awards shall be granted; to determine the type and number of Incentive Awards to be granted, the number of shares of Stock to which an Award may relate and the terms, conditions, restrictions and performance criteria relating to any Incentive Award; to determine whether, to what extent, and under what circumstances an Incentive Award may be settled, canceled, forfeited, exchanged, or surrendered; to make adjustments in the performance goals in recognition of unusual or non-recurring events affecting the Company or the financial statements of the Company (to the extent in accordance with Section 162(m) of the Code, if applicable), or in response to changes in applicable laws, regulations, or accounting principles; to construe and interpret the Plan and any Incentive Award; to prescribe, amend and rescind rules and regulations relating to the Plan; to determine the terms and provisions of Award Agreements; and to make all other determinations deemed necessary or advisable for the administration of the Plan.

In particular, without limiting the foregoing sentence, awards of Restricted Stock which are subject to the satisfaction of "performance goals" identified in Section 10(i) below, will not be exercisable prior to one year after the date of grant, whereas Restricted Stock awards which are not subject to "performance goals" will not be exercisable prior to three years after the date of grant.

8.
