Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Securities Act") may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by a director, officer or controlling person of ours in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issues.

We hereby undertake that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

We hereby undertake to provide to the underwriters at the closing specified in the Underwriting Agreement, certificates in such denomination and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

CONDENSED FINANCIAL INFORMATION OF REGISTRANT

(Parent Company Only)

AS OF DECEMBER 31, 2003 AND DECEMBER 31, 2004

Note A: Background and Basis for Presentation

Cogent Communications, Inc. ("Cogent") was formed on August 9, 1999, as a Delaware corporation and is headquartered in Washington, DC. In 2001, Cogent formed Cogent Communications Group, Inc., (the "Company"), a Delaware corporation. Effective on March 14, 2001, Cogent's stockholders exchanged all of their outstanding common and preferred shares for an equal number of shares of the Company, and Cogent became a wholly owned subsidiary of the Company. This was a tax-free exchange that was accounted for by the Company at Cogent's historical cost.

The Company is a leading facilities-based provider of low-cost, high-speed Internet access and Internet Protocol communications services. The Company's network is specifically designed and optimized to transmit data using IP. The Company delivers its services to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations through over 8,700 customer connections in North America and Europe.

The Company's primary on-net service is Internet access at a speed of 100 Megabits per second, much faster than typical Internet access currently offered to businesses. The Company offers this on-net service exclusively through its own facilities, which run all the way to its customers' premises. Because of its integrated network architecture, the Company is not dependent on local telephone companies to serve its on-net customers. The Company's typical customers in multi-tenant office buildings are law firms, financial services firms, advertising and marketing firms and other professional services businesses. The Company also provides on-net Internet access at a speed of one Gigabit per second and greater to certain bandwidth-intensive users such as universities, other ISPs and commercial content providers.

In addition to providing on-net services, the Company also provides Internet connectivity to customers that are not located in buildings directly connected to its network. The Company serves these off-net customers using other carriers' facilities to provide the "last mile" portion of the link from its customers' premises to the Company's network. The Company also operates 30 data centers throughout North America and Europe that allow customers to colocate their equipment and access our network, and from which the Company provides managed modem service.

The Company has created its network by purchasing optical fiber from carriers with large amounts of unused fiber and directly connecting Internet routers to the existing optical fiber national backbone. The Company has expanded its network through several acquisitions of financially distressed companies or their assets. The overall impact of these acquisitions on the operation of its business has been to extend the physical reach of the Company's network in both North America and Europe, expand the breadth of its service offerings, and increase the number of customers to whom the Company provides its services.

Reverse Stock Split

On March 24, 2005, the Company effected a 1-for-20 reverse stock split. Accordingly, all share and per share amounts have been retroactively adjusted to give effect to this event.

Equity Conversion

In February 2005, the Company's holders of its preferred stock elected to convert all of their shares of preferred stock into shares of the Company's common stock (the "Equity Conversion"). As a

result, the Company no longer has outstanding shares of preferred stock and the liquidation preferences on preferred stock have been eliminated.

Withdrawal of Public Offering

In May 2004, the Company filed a registration statement to sell shares of common stock in a public offering. In October 2004, the Company withdrew the public offering.

Public Offering

The Company has filed a registration statement to sell up to \$86.3 million shares of common stock in an underwritten public offering. There can be no assurances that the Public Offering will be completed.

Note B: Management's Plans, Liquidity and Business Risks

The Company has experienced losses since its inception in 1999 and as of December 31, 2004 has an accumulated deficit of \$53.4 million. The Company operates in the rapidly evolving Internet services industry, which is subject to intense competition and rapid technological change, among other factors. The successful execution of the Company's business plan is dependent upon the Company's ability to increase and retain its customers, its ability to integrate acquired businesses and purchased assets into its operations and realize planned synergies, the performance of the Company's network equipment, the extent to which acquired businesses and assets are able to meet the Company's expectations and projections, the Company's ability to retain and attract key employees, and the Company's ability to manage its growth and geographic expansion, among other factors.

In February 2005, the Company issued a subordinated note for \$10 million in cash. In March 2005, the Company entered into a \$10.0 million line of credit facility and borrowed \$10.0 million under this facility, of which \$4.0 million is restricted and held by the lender. In March 2005, the Company sold its building located in Lyon, France for net proceeds of approximately \$5.1 million. Management believes that cash generated from the Company's operations combined with the amounts received from these transactions is adequate to meet the Company's future funding requirements. Although management believes that the Company will successfully mitigate its risks, management cannot give assurances that it will be able to do so or that the Company will ever operate profitably. maturity date.

Note C: Accounting for Investments

The Company accounts for its investments in its subsidiaries at cost.

Acquisition of Aleron Broadband Services ("Aleron")

In October 2004, the Company acquired certain assets of Aleron Broadband Services, formally known as AGIS Internet in exchange for 3,700 shares of its Series M preferred stock. The Series M preferred stock was convertible into approximately 5.7 million shares of the Company's common stock and converted into common stock in connection with the Equity Conversion. The Company acquired Aleron's customer base and network, as well as Aleron's Internet access and managed modem service.

Acquisition of Global Access

In September 2004, the Company issued 185 shares of Series L preferred stock to the shareholders of Global Access Telecommunications, Inc. ("Global Access") in exchange for the majority of the assets of Global Access. The Series L preferred stock was convertible into approximately 0.3 million shares of the Company's common stock and converted into common stock in connection with the Equity Conversion. The estimated fair market value for the Series L preferred stock was determined by using the price per share of the Company's Series J preferred stock. Global Access was headquartered in Frankfurt, Germany and provided Internet access and other data services in Germany.

Merger with UFO Group, Inc.

In August 2004, a subsidiary of the Company merged with UFO Group, Inc. ("UFO Group"). The Company issued 2,600 shares of Series K preferred stock in exchange for the outstanding shares of UFO Group. The Series K preferred stock was convertible into approximately 0.8 million shares of the Company's common stock and converted into common stock in connection with the Equity Conversion. The estimated fair market value for the Series K preferred stock was determined by using the price per share of the Company's Series J preferred stock.

Merger with Symposium Omega

In March 2004, Symposium Omega, Inc., ("Omega") a Delaware corporation and related party, merged with a subsidiary of the Company (Note 12). Prior to the merger, Omega had raised approximately \$19.5 million in cash in a private equity transaction with certain existing investors in the Company and acquired the rights to a German fiber optic network. The German fiber optic network had no customers, employees or associated revenues. The Company issued 3,891 shares of Series J preferred stock to the shareholders of Omega in exchange for all of the outstanding common stock of Omega. The Series J preferred stock was convertible into approximately 6.0 million shares of the Company's common stock and converted into common stock in connection with the Equity Conversion.

Merger with Symposium Gamma, Inc. and Acquisition of Firstmark Communications Participations S.à r.l. and Subsidiaries ("Firstmark")

In January 2004, a subsidiary of the Company merged with Symposium Gamma, Inc. ("Gamma"). Immediately prior to the merger, Gamma had raised \$2.5 million through the sale of its common stock in a private equity transaction with certain existing investors in the Company and new investors and in January 2004, acquired Firstmark for 1 euro. The merger expanded the Company's network into Western Europe. Under the merger agreement all of the issued and outstanding shares of Gamma common stock were converted into 2,575 shares of the Company's Series I preferred stock. The Series I preferred stock was convertible into approximately 0.8 million shares of the Company's common stock and converted into common stock in connection with the Equity Conversion. In 2004, Firstmark changed its name to Cogent Europe S.à r.l ("Cogent Europe").

Note D: Stockholders Equity

In June 2003, the Company's board of directors and shareholders approved an amended and restated charter that eliminated the reference to the Company's Series A, B, C, D, and E preferred stock ("Existing Preferred Stock"). In March 2005, the Company's board of directors and shareholders

approved an amended and restated charter that increased the number of authorized shares of the Company's common stock to 75.0 million shares and designated 10,000 shares of undesignated preferred stock.

On July 31, 2003 and in connection with the Company' restructuring of its debt with Cisco Capital, all of the Company's Existing Preferred Stock was converted into approximately 0.5 million shares of common stock. At the same time the Company issued 11,000 shares of Series F preferred stock to Cisco Capital under the Exchange Agreement and issued 41,030 shares of Series G preferred stock for gross proceeds of \$41.0 million to the Investors under the Purchase Agreement.

In January 2004, Symposium Gamma Inc. ("Gamma") merged with a subsidiary of the Company. Under the merger agreement, all of the issued and outstanding shares of Gamma common stock were converted into 2,575 shares of the Company's Series I preferred stock and the Company became Gamma and Cogent Europe's sole shareholder.

On March 30, 2004, Symposium Omega, Inc., ("Omega") merged with a subsidiary of the Company. Prior to the merger Omega had raised approximately \$19.5 million in cash and acquired the rights to acquire a German fiber optic network. The Company issued 3,891 shares of Series J preferred stock to the shareholders of Omega in exchange for all of the outstanding common stock of Omega.

On August 12, 2004, UFO Group, Inc., ("UFO Group") merged with a subsidiary of the Company. Prior to the merger UFO Group had raised net cash of approximately \$2.1 million and acquired the rights to acquire the majority of the assets of Unlimited Fiber Optics, Inc. The Company issued 2,600 shares of Series K preferred stock to the shareholders of UFO Group in exchange for all of the outstanding common stock of UFO Group.

On September 15, 2004, the Company issued 185 shares of Series L preferred stock to the shareholders of Global Access Telecommunications Inc. ("Global Access") in exchange for the majority of the assets of Global Access.

On October 26, 2004, the Company merged with Cogent Potomac, Inc. ("Potomac"). The Company issued 3,700 shares of Series M preferred stock in exchange for all of the outstanding common shares of Potomac. Prior to the merger, Potomac had acquired the majority of the assets of Aleron Broadband Services LLC ("Aleron").

Each share of the Series F preferred stock, Series G preferred stock, Series H preferred stock, Series I preferred stock, Series J preferred stock, Series K preferred stock, Series L preferred stock and Series M preferred stock (collectively, the "New Preferred") may be converted into shares of common stock at the election of its holder at any time. The Series F, Series G, Series I, Series J, Series K, Series L and Series M preferred stock were convertible into 3.4 million, 12.7 million, 0.8 million, 6.0 million, 0.8 million, 0.3 million and 5.7 million shares of the Company's common stock, respectively. In March 2005, the New Preferred was converted into voting common stock. The liquidation preferences on the New Preferred were also eliminated.

Dividends

Cogent's Cisco credit facility and the Company's line of credit prohibit the Company from paying cash dividends and restricts the Company's ability to make other distributions to its stockholders.

Beneficial Conversion Charges

Beneficial conversion charges of \$2.5 million, \$19.5 million, \$2.6 million, \$0.9 million and \$18.5 million were recorded on January 5, 2004, March 30, 2004, August 12, 2004, September 15, 2004, and October 26, 2004 respectively, since the price per common share at which the Series I, Series J, Series K, Series L and Series M preferred stock converts into were less than the quoted trading price of the Company's common stock on that date.

Note E: Deferred Compensation Charges Stock Options and Restricted Stock

In September 2003, the Compensation Committee (the "Committee") of the board of directors adopted and the stockholders approved, the Company's 2003 Incentive Award Plan (the "Award Plan"). The Award Plan reserved 54,001 shares of Series H preferred stock for issuance under the Award Plan. In September 2003, the Company offered its employees the opportunity to exchange eligible outstanding stock options and certain common stock for restricted shares of Series H preferred stock under the Award Plan. In 2004, the Company's board of directors and shareholders approved the Company's 2004 Incentive Award Plan that increased the shares of Series H preferred stock available for grant as either restricted shares or options for restricted shares under the Award Plan from 54,001 to 84,001 shares. In July 2004, the Company began granting options for Series H preferred stock. Each share of Series H preferred stock and each option for Series H preferred stock was convertible into approximately 38 shares of common stock and were converted in connection with the Equity Conversion. The Series H preferred shares were valued using the trading price of the Company's common stock on the grant date. For restricted shares granted under the offer to exchange, the vesting period was 27% upon grant with the remaining shares vesting ratably over a three year period and for share and options grants to newly hired employees; the shares generally vest 25% after one year with the remaining shares vesting ratably over three years.

The Company recorded a deferred compensation charge of approximately \$14.3 million in the fourth quarter of 2001 related to options granted at exercise prices below the estimated fair market value of the Company's common stock on the date of grant. The deferred compensation charge was amortized over the vesting period of the related options which was generally four years. In connection with the October 2003 offer to exchange and granting of Series H preferred stock the remaining \$3.2 million unamortized balance of deferred compensation is now amortized over the vesting period of the Series H preferred stock.

In July 2004, the Company began granting options for Series H preferred stock, 17,500 of which were granted with an exercise price below the trading price of the Company's common stock on grant date. These option grants resulted in additional deferred compensation of \$4.7 million recorded during the third quarter of 2004. Deferred compensation for these option grants was determined by multiplying the difference between the exercise price and the market value of the Series H preferred stock on grant date times the number of options granted and is being amortized over the service period.

Under the offer to exchange, the Company recorded a deferred compensation charge of approximately \$46.1 million in the fourth quarter of 2003. The Company has also granted additional shares of Series H preferred to its new employees resulting in an additional deferred compensation. For grants of restricted stock, when an employee terminates prior to full vesting, the total remaining deferred compensation charge is reduced, the employee retains their vested shares and the employees'

unvested shares are returned to the plan. For grants of options for restricted stock, when an employee terminates prior to full vesting, the total remaining deferred compensation charge is reduced, previously recorded deferred compensation is reversed and the employee may elect to exercise their vested options for a period of ninety days and any of the employees' unvested options are returned to the plan. Deferred compensation for the granting of Series H preferred restricted shares was determined using the trading price of the Company's common stock on the grant date.

The amortization of deferred compensation expense related to stock options and restricted stock was approximately \$18.7 million for the year ended December 31, 2003 and \$12.3 million for the year ended December 31, 2004.
