Cautionary Language Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that are based on our management's expectations as of the filing date of this report with the SEC. Statements that are not historical facts are hereby identified as forward-looking statements. In addition, words such as "estimate," "anticipate," "project," "plan," "intend," "believe," "expect," "likely," "predicted" and similar expressions are intended to identify forward-looking statements. Such statements include plans, projections and estimates contained in "Part I—Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Part I—Item 3. Quantitative and Qualitative Disclosures About Market Risk" herein. Such forward-looking statements include (1) expectations regarding anticipated growth in the wireless communication industry, carriers' investments in their networks, new tenant additions, cancellations of customer contracts and demand for our towers, including the potential impact of AT&T's definitive agreement to acquire T-Mobile, (2) availability of cash flows and liquidity for, and plans regarding, future discretionary investments including capital expenditures, (3) anticipated growth in our future revenues, margins, Adjusted EBITDA and operating cash flows, and (4) expectations regarding the credit markets, our availability and cost of capital, and our ability to service our debt and comply with debt covenants.

Such forward-looking statements are subject to certain risks, uncertainties and assumptions, including prevailing market conditions, risk factors described under "Part II—Item 1A. Risk Factors" herein and in "Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2010 ("2010 Form 10-K") and other factors. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those expected.

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited
(Tabular dollars in thousands, except per share amounts)

1. General

The information contained in the following notes to the consolidated financial statements is condensed from that which would appear in the annual consolidated financial statements; accordingly, the consolidated financial statements included herein should be reviewed in conjunction with the consolidated financial statements for the fiscal year ended December 31, 2010, and related notes thereto, included in the 2010 Form 10-K filed by Crown Castle International Corp. ("CCIC") with the SEC. All references to the "Company" include CCIC and its subsidiary companies unless otherwise indicated or the context indicates otherwise.

The Company owns, operates and leases towers. The Company's primary business is the renting of antenna space to wireless communication companies via long-term contracts. To a lesser extent, the Company also provides certain network services relating to its towers, primarily consisting of installation services, as well as the following additional services: site acquisition, architectural and engineering, zoning and permitting, other construction and other services related to network development. The Company conducts its operations through tower portfolios in the United States, including Puerto Rico, and Australia.

Basis of Presentation

The condensed consolidated financial statements included herein are unaudited; however, they include all adjustments (consisting only of normal recurring adjustments) which, in the opinion of management, are necessary to present fairly the consolidated financial position of the Company at September 30, 2011, and the consolidated results of operations and the consolidated cash flows for the three and nine months ended September 30, 2011 and 2010. The year end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. Accounting measurements at interim dates inherently involve greater reliance on estimates than at year end. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the entire year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of the Company's consolidated financial statements are disclosed in the Company's 2010 Form 10-K, other than changes related to goodwill impairment testing discussed below.

New Accounting Pronouncements

No accounting pronouncements adopted during the nine months ended September 30, 2011 had a material impact on the Company's consolidated financial statements. No new accounting pronouncements issued during the nine months ended September 30, 2011 but not yet adopted are expected to have a material impact on the Company's consolidated financial statements.

In September 2011, the Financial Accounting Standards Board ("FASB") issued amended guidance on goodwill impairment testing. The amended guidance permits an entity to first perform a qualitative assessment to determine whether it is "more likely than not" that the fair value of a reporting unit is less than its carrying amount. If it is concluded that it is "more likely than not" that the fair value of a reporting unit is less than its carrying amount, it is then necessary to perform the two-step goodwill impairment test described in the 2010 Form 10-K. Otherwise, the two-step goodwill impairment test is not required. The Company adopted this amended guidance effective September 30, 2011, prior to performing its annual goodwill impairment test and, as such, anticipates performing the qualitative assessment in connection with the annual goodwill impairment test during the fourth quarter of 2011.

7.5% Senior Notes	Dec. 2003	Dec. 2013	51	51	7.5	%
Total high yield bonds			2,290,554	2,278,647		
Other:						
Capital leases and other obligations	Various	Various (i)	49,512	34,537	Various	(i)
Total debt and other obligations			6,936,686	6,778,894		
Less: current maturities and short-term debt and other current obligations			33,612	28,687		
Non-current portion of long-term debt and other long-term obligations			\$6,903,074	\$6,750,207		

(a) Represents the weighted-average stated interest rate.

In June 2011, CCOC amended the senior secured revolving credit facility ("Revolver") to increase the aggregate revolving commitment availability by \$50.0 million to a total revolving commitment availability of \$450.0 million, subject to certain restrictions based on the maintenance of financial covenants in the 2007 Credit Agreement. As of September 30, 2011, the undrawn availability under the Revolver is \$145.0 million.

The Revolver bears interest at a rate per annum, at the election of CCOC, equal to (i) the greater of the prime rate of The Royal Bank of Scotland plc and the Federal Funds Effective Rate plus 0.5%, plus a credit spread ranging from 1.0% to 1.4% or (ii) LIBOR plus a credit spread ranging from 2.0% to 2.4%, in each case based on the Company's consolidated leverage ratio. The 2007 Term Loans bear interest at a rate per annum, at CCOC's election, equal to (i) the greater of the prime rate of The Royal Bank of Scotland plc and the Federal Funds Effective Rate plus 0.5% or (ii) LIBOR plus 1.5%.

If the respective series of the January 2010 Tower Revenue Notes and August 2010 Tower Revenue Notes are not paid in full on or prior to 2015, 2017 and 2020, as applicable, then Excess Cash Flow (as defined in the indenture) of the issuers (of such notes) will be used to repay principal of the applicable series and class of the 2010 Tower Revenue Notes, and additional interest (by an additional approximately 5% per annum) will accrue on the (d)respective 2010 Tower Revenue Notes. The January 2010 Tower Revenue Notes consist of three series of notes with principal amounts of \$300.0 million, \$350.0 million and \$1.3 billion, having anticipated repayment dates in 2015, 2017 and 2020, respectively. The August 2010 Tower Revenue Notes consist of three series of notes with principal amounts of \$250.0 million, \$300.0 million and \$1.0 billion, having anticipated repayment dates in 2015, 2017 and 2020, respectively.

The 2009 Securitized Notes consist of \$150.9 million of principal as of September 30, 2011 that amortizes through (e)2019, and \$70.0 million of principal as of September 30, 2011 that amortizes during the period beginning in 2019 and ending in 2029.

(f)The effective yield is approximately 11.3%, inclusive of the discount.

(g)The effective yield is approximately 8.2%, inclusive of the discount.

(h)The effective yield is approximately 7.2%, inclusive of the discount.

(i) The Company's capital leases and other obligations bear interest rates up to 9% and mature in periods ranging from less than one year to approximately 20 years.

Interest Expense and Amortization of Deferred Financing Costs

The components of "interest expense and amortization of deferred financing costs" are as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2011	2010	2011	2010
Interest expense on debt obligations	\$ 101,380	\$ 101,012	\$ 303,067	\$ 304,588
Amortization of deferred financing costs	3,790	3,825	11,266	11,705
Amortization of discounts on long-term debt	4,074	3,666	11,907	10,716
Amortization of interest rate swaps	17,986	14,400	53,834	36,225
Other, net of capitalized interest	(111)	293	214	1,088
Total	\$ 127,119	\$ 123,196	\$ 380,288	\$ 364,322

4. Income Taxes

During the nine months ended September 30, 2011 and 2010, the Company's provision for federal income taxes was reduced by a partial reversal of the valuation allowance on the Company's federal deferred tax assets, as a result of utilizing net operating losses that previously had a full valuation allowance. In addition, the first nine months of 2010 included \$16.5 million of federal tax benefits recorded predominately as a result of discrete events, including the acquisition of NewPath. For the nine months ended September 30, 2011 and 2010, the effective tax rate differed from the federal statutory rate predominately due to the Company's federal deferred tax valuation allowances. During the third quarter of 2011, the IRS completed an examination of the Company's U.S federal tax return for the 2009 tax year with no material adjustments.

5. Fair Value Disclosures

	September 30, 2011		December 31, 2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets:				
Cash and cash equivalents	\$ 75,524	\$ 75,524	\$ 112,531	\$ 112,531
Restricted cash, current and non-current	228,573	228,573	226,015	226,015
Liabilities:				
Long-term debt and other obligations	6,936,686	7,413,440	6,778,894	7,121,156
Interest rate swaps(a)	1,436	1,436	5,198	5,198

(a) Variable to fixed interest rate swaps hedging a portion of the 2007 Term Loans until December 2011 with a notional value of \$600.0 million.

The fair value of cash and cash equivalents and restricted cash approximate the carrying value. The Company determines fair value of its debt securities based on indicative quotes (that is non-binding quotes) from brokers that require judgment to interpret market information including implied credit spreads for similar borrowings on recent trades or bid/ask prices or quotes from active markets if available. The fair value of interest rate swaps is determined using the income approach and is predominately based on observable interest rates and yield curves and, to a lesser extent, the Company's and the contract counterparty's credit risk. There were no changes since December 31, 2010 in the Company's valuation techniques used to measure fair values.

As of September 30, 2011, the fair value of the Company's cash and cash equivalents and restricted cash is measured on a recurring basis and are classified as Level 1 fair value measurements. The following table is a summary of the activity during the nine months ended September 30, 2010 for interest rate swap liabilities previously classified as

Level 3 fair value measurements. During the nine months ended September 30, 2011, all interest rate swap liabilities were classified as Level 2 fair value measurements.

 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited (Continued)
 (Tabular dollars in thousands, except per share amounts)

	Fair Value Measurement Using Significant Unobservable Inputs (Level 3)	
	Interest Rate Swaps, Net Three Months Ended September 30, 2010	Nine Months Ended September 30, 2010
Beginning balance	\$359,716	\$300,040
Settlements	(35,609)	(271,283)
Less: Total (gains) losses:		
Included in earnings(a)	102,416	288,922
Included in other comprehensive income (loss)	16,794	125,638
Ending balance	\$443,317	\$443,317

Includes \$93.8 million and \$203.2 million, respectively, for the three and nine months ended September 30, 2010, (a) of losses that are attributable to the change in unrealized gains or losses relating to liabilities still held at the reporting date.

6. Per Share Information

Basic net income (loss) attributable to CCIC common stockholders, after deduction of dividends on preferred stock, per common share excludes dilution and is computed by dividing net income (loss) attributable to CCIC stockholders after deduction of dividends on preferred stock and losses on purchases of preferred stock, by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) attributable to CCIC common stockholders, after deduction of dividends on preferred stock and losses on purchases of preferred stock, per common share is computed by dividing net income (loss) attributable to CCIC stockholders after deduction of dividends on preferred stock and losses on purchases of preferred stock, by the weighted-average number of common shares outstanding during the period plus any potential dilutive common share equivalents, including shares issuable (1) upon exercise of stock options and the vesting of restricted stock awards as determined under the treasury stock method and (2) upon conversion of the Company's preferred stock, as determined under the if-converted method. The Company's restricted stock awards are considered participating securities and may be included in the computation pursuant to the two-class method. However, the Company does not present the two-class method when there is no difference between the per share amount under the two-class method and the treasury stock method.

	Three Months Ended September 30, 2011		Nine Months Ended September 30, 2010	
	2011	2010	2011	2010
Net income (loss) attributable to CCIC stockholders	\$51,278	\$(135,009)	\$122,166	\$(351,813)
Dividends on preferred stock and losses on purchases of preferred stock	(7,541)	(5,201)	(17,944)	(15,604)
Net income (loss) attributable to CCIC common stockholders after deduction of dividends on preferred stock and losses on purchases of preferred stock for basic and diluted computations	\$43,737	\$(140,210)	\$104,222	\$(367,417)
Weighted-average number of common shares outstanding (in thousands):				
Basic weighted-average number of common stock outstanding	282,031	286,119	284,770	286,883
	1,868	—	2,098	—

Effect of assumed dilution from potential common shares relating to stock options and restricted stock awards

Diluted weighted-average number of common shares outstanding	283,899	286,119	286,868	286,883
Net income (loss) attributable to CCIC common stockholders after deduction of dividends on preferred stock and losses on purchases of preferred stock, per common share:				
Basic	\$0.16	\$(0.49)	\$0.37	\$(1.28)
Diluted	\$0.15	\$(0.49)	\$0.36	\$(1.28)

For both the three and nine months ended September 30, 2011, 0.9 million restricted stock awards were excluded from the dilutive common shares because certain stock price hurdles would not have been achieved assuming that September 30, 2011 was the end of the contingency period. For the three and nine months ended September 30, 2010, all of the CCIC stock options and unvested restricted stock awards are excluded from dilutive common shares because the net impact is anti-dilutive. In addition, for the three and nine months ended September 30, 2011, 8.3 million shares reserved for issuance upon conversion of the 6.25%

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited (Continued)
 (Tabular dollars in thousands, except per share amounts)

convertible preferred stock and for the three and nine months ended September 30, 2010, 8.6 million shares reserved for issuance upon conversion of the 6.25% convertible preferred stock, respectively, are excluded from dilutive common shares because the impact is anti-dilutive as determined under the if-converted method. See note 10.

7. Leases

Tenant Contracts

The following table is an updated summary of the rental cash payments owed to the Company, as a lessor, by tenants pursuant to contractual agreements in effect as of September 30, 2011. Generally, the Company's contracts with its tenants provide for (1) annual escalations and multiple renewal periods at the tenant's option and (2) only limited termination rights at the tenant's option through the current term. As of September 30, 2011, the weighted-average remaining term of tenant contracts is approximately 9 years, exclusive of renewals at the tenant's option. The tenants' rental payments included in the table below are through the current terms with a maximum current term of 20 years and do not assume exercise of tenant renewal options.

	Three Months Ending December 31, 2011	Years Ending December 31,					Total
		2012	2013	2014	2015	Thereafter	
Tenant Contracts	\$404,017	\$1,604,622	\$1,573,313	\$1,542,603	\$1,485,123	\$10,268,644	\$16,878,322

8. Commitments and Contingencies

The Company is involved in various claims, lawsuits and proceedings arising in the ordinary course of business. While there are uncertainties inherent in the ultimate outcome of such matters and it is impossible to presently determine the ultimate costs or losses that may be incurred, if any, management believes the resolution of such uncertainties and the incurrence of such costs should not have a material adverse effect on the Company's consolidated financial position or results of operations.

9. Operating Segments

The Company's reportable operating segments are (1) CCUSA, primarily consisting of the Company's U.S. tower operations and (2) CCAL, the Company's Australian tower operations. Financial results for the Company are reported to management and the board of directors in this manner.

The measurement of profit or loss currently used by management to evaluate the results of operations for the Company and its operating segments is earnings before interest, taxes, depreciation, amortization and accretion, as adjusted ("Adjusted EBITDA"). The Company defines Adjusted EBITDA as net income (loss) plus restructuring charges (credits), asset write-down charges, acquisition and integration costs, depreciation, amortization and accretion, interest expense and amortization of deferred financing costs, gains (losses) on purchases and redemptions of debt, net gain (loss) on interest rate swaps, impairment of available-for-sale securities, interest and other income (expense), benefit (provision) for income taxes, cumulative effect of change in accounting principle, income (loss) from discontinued operations and stock-based compensation expense. Adjusted EBITDA is not intended as an alternative measure of operating results or cash flow from operations (as determined in accordance with GAAP), and the Company's measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies. There are no significant revenues resulting from transactions between the Company's operating segments. Inter-company borrowings and related interest between segments are eliminated to reconcile segment results and assets to the consolidated basis.

10. Stock-Based Compensation

Restricted Stock Awards

	Number of Shares (In thousands of shares)	
Shares outstanding at January 1, 2011	4,297	
Shares granted(a)	886	
Shares vested(b)	(1,580)
Shares forfeited	(60)
Shares outstanding at September 30, 2011	3,543	

Weighted-average grant-date fair value of \$37.04 per share and a weighted-average requisite service period of 2.5 (a) years. The awards with market conditions included an expected volatility of 48% in the Monte Carlo simulation used to measure grant-date fair value.

(b) Fair value on vesting date of \$68.8 million.

During the nine months ended September 30, 2011, the Company granted 0.5 million shares of restricted stock awards that time vest over a three-year or five-year period. During the nine months ended September 30, 2011, the Company granted 0.4 million shares of restricted stock awards ("2011 Performance Awards") which may vest on the third anniversary of the grant date subject to a market condition based upon the Company's common stock price.

The Company recognized stock-based compensation expense related to restricted stock awards of \$23.6 million and \$24.9 million for the nine months ended September 30, 2011 and 2010, respectively. The unrecognized compensation expense (net of estimated forfeitures) related to restricted stock awards as of September 30, 2011 is \$32.5 million.

11. Supplemental Cash Flow Information

	Nine Months Ended September 30,	
	2011	2010
Supplemental disclosure of cash flow information:		
Interest paid	\$312,992	\$319,519
Income taxes paid	4,343	3,037
Supplemental disclosure of non-cash financing activities:		
Increase (decrease) in the fair value of forward-starting interest rate swaps	—	(114,157)
Assets acquired through capital leases and installment sales	20,213	10,737

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the response to Part I, Item 1 of this report and the consolidated financial statements of the Company including the related notes and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" ("MD&A") included in our 2010 Form 10-K. Capitalized terms used but not defined in this Item have the same meaning given to them in our 2010 Form 10-K. Unless this Form 10-Q indicates otherwise or the context requires, the terms "we," "our," "our company," "the company," or "us" as used in this Form 10-Q refer to Crown Castle International Corp. and its subsidiaries.

General Overview

Overview

As of September 30, 2011, we owned, leased or managed approximately 23,800 towers for wireless communications, including distributed antenna system ("DAS") networks. Revenues generated from our core site rental business represented 91% of our third quarter 2011 consolidated net revenues, of which 94% was attributable to our CCUSA operating segment. The vast majority of our site rental revenues is of a recurring nature and has been contracted for in a prior year. See our 2010 Form 10-K for a further discussion of our business, including our long-term strategy, growth trends in the wireless communications industry and our tower portfolio.

The following are certain highlights of our business fundamentals as of and for the nine months ended September 30, 2011.

• Potential growth resulting from wireless network expansion and new entrants (see also the discussion below of wireless industry reports)

We expect wireless carriers will continue their focus on improving network quality and expanding capacity by adding additional antennas and other equipment on our towers.

We expect existing and potential new wireless carrier demand for our towers will result from (1) next generation technologies, (2) continued development of mobile internet applications, (3) adoption of other emerging and embedded wireless devices, (4) increasing smartphone penetration, and (5) wireless carrier focus on expanding voice and data coverage.

Substantially all of our towers can accommodate, either as currently constructed or with appropriate modifications to the tower, additional tenants.

U.S. wireless carriers continue to invest in their networks.

We expect our site rental revenues will grow approximately 9% from the full year 2010 to 2011 and approximately 5% from the full year 2011 to 2012. We expect our new tenant additions, inclusive of the estimated impact from Sprint as it deploys network enhancements (referred to as Network Vision), will result in an approximately 5% year-over-year growth in site rental revenues for each of 2011 and 2012. Our 2012 site rental revenue growth expectations do not assume any net contribution to growth from the existing base of business as the increase attributable to lease escalations and straight-line impact of renewals is expected to be offset by higher levels of expected cancellation of customer contracts.

• Site rental revenues under long-term customer contracts with contractual escalations

Initial terms of five to 15 years with multiple renewal periods at the option of the tenant of five to ten years each. Weighted-average remaining term of approximately nine years, exclusive of renewals at the customer's option, representing approximately \$17 billion of expected future cash inflows.

• Revenues predominately from large wireless carriers

Verizon Wireless, AT&T, Sprint Nextel and T-Mobile accounted for 74% of consolidated net revenues.

• Majority of land under our towers under long-term control

Approximately 90% and 72% of our site rental gross margin is derived from towers that we own or control for greater than ten and 20 years, respectively. The aforementioned percentages include towers that reside on land that is owned in fee or where we have perpetual or long-term easements, which represent approximately 35% of our site rental gross margin.

• Relatively fixed tower operating costs with high incremental margins and cash flows on organic revenue growth

Our tower operating costs tend to increase at approximately the rate of inflation and are not typically influenced by new tenant additions.

Our incremental margin on additional site rental revenues represents 88% of the related increase in site rental revenues.

Minimal sustaining capital expenditure requirements

16

Sustaining capital expenditures were \$14.1 million, which represented less than 1% of net revenues.

Debt portfolio with long-dated maturities extended over multiple years, with virtually all of such debt having a fixed rate (see "Item 3. Quantitative and Qualitative Disclosures About Market Risk" for a further discussion of our debt) 87% of our debt has fixed rate coupons.

Our debt service coverage and leverage ratios were comfortably within their respective covenant requirements. See "Item 2. MD&A—Liquidity and Capital Resources" for a further discussion of our debt covenants.

Significant cash flows from operations

Net cash provided by operating activities was \$455.3 million.

We believe our site rental business can be characterized as a stable cash flow stream, which we expect to grow as a result of future demand for our towers.

Capital allocated to drive long-term shareholder value (per share) (see also "Item 2. MD&A—Liquidity and Capital Resources")

Historical discretionary investments include (in no particular order): purchasing our own common stock, acquiring towers, acquiring land under towers, selectively constructing towers, improving and structurally enhancing our existing towers, and purchasing or redeeming our debt or preferred stock.

Discretionary investments included: (1) the purchase of 7.3 million shares of common stock for \$301.4 million and (2) \$251.0 million in capital expenditures.

The following is a discussion of certain recent events and growth trends which may impact our business and strategy or the U.S. wireless communications industry:

In March 2011, AT&T entered into a definitive agreement to acquire T-Mobile, subject to regulatory approval and other closing conditions. In August 2011, the U.S. Department of Justice ("DOJ") filed a complaint against AT&T alleging the proposed acquisition of T-Mobile by AT&T would substantially lessen competition and likely raise prices. AT&T disputes the allegations and intends to continue discussions with the DOJ to address its concerns. For the third quarter of 2011, AT&T and T-Mobile accounted for 23% and 11%, respectively, of our consolidated net revenues. As of September 30, 2011, AT&T and T-Mobile are co-resident on approximately 4,000 of our towers. Net revenues from T-Mobile on these approximately 4,000 towers represent approximately 6% of our consolidated net revenues during the first nine months of 2011. The weighted-average remaining current term on all of our contractual agreements with AT&T and T-Mobile is approximately 12 and seven years, respectively. If consummated, in whole or in part, this potential acquisition could result in decreased revenues and reduced or delayed demand for our towers and network services as a result of the anticipated integration of these networks and consolidation of duplicate or overlapping parts of the networks. We expect that any termination of customer contracts as a result of the potential acquisition would be spread over multiple years as existing contracts expire. See "Part II—Item 1A. Risk Factors."

Consumers have increased their use of wireless voice and data services according to recent U.S. wireless industry reports.

U.S. wireless data service revenues grew 22% year-over-year to reach \$16.2 billion in the second quarter of 2011;^(a)

The number of wireless subscriber connections in the U.S. now exceeds the total amount of the U.S. population with a wireless penetration of 104%;^(b)

During the first half of 2011, U.S. wireless data traffic surged 111% year-over-year;^(b) and

In the U.S., 43% of mobile consumers have a smartphone as of August 2011^(c) and the number of active smartphones increased 67% year-over-year during the first half of 2011.^(b)

Consolidated Results of Operations

The following discussion of our results of operations should be read in conjunction with our condensed consolidated financial statements and our 2010 Form 10-K. The following discussion of our results of operations is based on our consolidated financial statements prepared in accordance with GAAP, which requires us to make estimates and judgments that affect the reported amounts (see "Item 2. MD&A—Accounting and Reporting Matters—Critical Accounting Policies and Estimates" and note 2 to our consolidated financial statements on our 2010 Form 10-K).

Comparison of Consolidated Results

The following information is derived from our historical consolidated statements of operations for the periods indicated.

	Three Months Ended September 30, 2011			Three Months Ended September 30, 2010			Percent Change(b)	
	Amount	Percent of Net Revenues		Amount	Percent of Net Revenues			
	(Dollars in thousands)							
Net revenues:

(b) Inclusive of the impact of foreign exchange rate fluctuations. See "Item 2. MD&A—Comparison of Operating Segments—CCAL"

Third Quarter 2011 and 2010. Our consolidated results of operations for the third quarter of 2011 and 2010, respectively, consist predominately of our CCUSA segment, which accounted for (1) 94% and 95% of consolidated net revenues, (2) 94% and 95% of consolidated gross margins, and (3) 98% and 100% of net income (loss) attributable to CCIC stockholders. Nearly all of the increase in site rental revenues resulted from towers we owned as of September 30, 2010. Our operating segment results, including CCUSA, are discussed below (see "Item 2. MD&A—Comparison of Operating Segments").

First Nine Months of 2011 and 2010. Our consolidated results of operations for the first nine months of 2011 and 2010, respectively, consist predominately of our CCUSA segment, which accounted for (1) 94% and 95% of consolidated net revenues, (2) 94% and 95% of consolidated gross margins, and (3) 98% and 100% of net income (loss) attributable to CCIC stockholders. Nearly all of the increase in site rental revenues resulted from towers we

owned as of September 30, 2010. Our operating segment results, including CCUSA, are discussed below (see "Item 2. MD&A—Comparison of Operating Segments").

Comparison of Operating Segments

Our reportable operating segments for the third quarter of 2011 are (1) CCUSA, primarily consisting of our U.S. tower operations, and (2) CCAL, our Australian tower operations. Our financial results are reported to management and the board of directors in this manner.

See note 9 to our condensed consolidated financial statements for segment results, our definition of Adjusted EBITDA, and a reconciliation of net income (loss) attributable to CCIC stockholders to Adjusted EBITDA.

Our measurement of profit or loss currently used to evaluate our operating performance and operating segments is earnings before interest, taxes, depreciation, amortization and accretion, as adjusted. Our measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies, including companies in the tower sector, and is not a measure of performance calculated in accordance with GAAP. Adjusted EBITDA is discussed further under "Item 2. MD&A—Accounting and Reporting Matters—Non-GAAP Financial Measures."

CCUSA—Third Quarter 2011 and 2010

Net revenues for the third quarter of 2011 increased by \$25.2 million, or 6%, from the same period in the prior year. This increase in net revenues primarily resulted from an increase in site rental revenues of \$26.9 million, or 6%, for the same period. This increase in site rental revenues was impacted by the following items, inclusive of straight-line accounting, in no particular order: new tenant additions across our entire portfolio, renewals or extensions of customer contracts, escalations, and cancellations of customer contracts. Tenant additions were influenced by the previously mentioned growth in the wireless communications industry.

Site rental gross margins for the third quarter of 2011 increased by \$23.0 million, or 8%, from the same period in the prior year. The increase in the site rental gross margins was related to the previously mentioned 6% increase in site rental revenues. Site rental gross margins for the third quarter of 2011 increased primarily as a result of the high incremental margins associated with tenant additions given the relatively fixed costs to operate a tower. The \$23.0 million incremental margin represents 86% of the related increase in site rental revenues.

Network services and other revenues for the third quarter of 2011 decreased by \$1.7 million, or 4%, and the related gross margin increased by \$0.8 million, or 5%, from the same period in the prior year. The increase in our network services and other gross margin is a reflection of the general volatility in the volume and mix of such work. Our network services business is of a variable nature as these services are not under long-term contracts. The increase in the gross margin percentage on the network services and other revenues relates to a larger percentage of higher margin site development services as a percentage of total network services and other revenues.

General and administrative expenses for the third quarter of 2011 decreased by \$0.2 million, or less than 1%, from the same period in the prior year. General and administrative expenses are inclusive of stock-based compensation charges as discussed further in note 10 to our condensed consolidated financial statements. General and administrative expenses were 8% of net revenues for both the third quarter of 2011 and 2010. Typically, our general and administrative expenses do not significantly increase as a result of the co-location of additional tenants on our towers. Adjusted EBITDA for the third quarter of 2011 increased by \$23.6 million, or 8%, from the same period in the prior year. Adjusted EBITDA was positively impacted by the growth in our site rental business, including the high incremental site rental margin on the tenant additions and cost containment.

Depreciation, amortization and accretion for the third quarter of 2011 increased by \$1.7 million, or 1%, from the same period in the prior year. This increase is consistent with the insignificant movement in our fixed assets and intangible assets between the third quarter of 2011 and the third quarter of 2010.

In order to extend the maturities of our debt portfolio, during the third quarter of 2010 we repaid all \$1.3 billion of the outstanding face value of the 2006 tower revenue notes using cash from our issuance of the August 2010 tower revenue notes. As a result of purchasing and early retiring the 2006 tower revenue notes, we incurred a net loss of \$71.9 million, inclusive of make whole payments. The increase in interest expense and amortization of deferred financing costs of \$4.2 million, or 3%, from the third quarter of 2010 to 2011 predominately resulted from a \$3.6 million increase in the amortization of interest rate swaps primarily related to the loss on the swaps hedging the refinancing of the 2006 tower revenue notes. During the third quarter of 2010, we recorded losses on interest rate swaps of \$104.4 million, which predominately resulted from an increase in the liability for those swaps not subject to hedge accounting due to changes in the LIBOR yield curve. All of our forward-starting swaps were settled during 2010, so no further losses associated with these swaps should be recorded. For a further discussion of the debt refinancing and the interest rate swaps, see notes 6 and 7 to our consolidated financial statements in the 2010 Form

10-K.

20

The benefit (provision) for income taxes for the third quarter of 2011 was a provision of \$2.3 million compared to a benefit of \$8.1 million for the third quarter of 2010. During the third quarter of 2011 and 2010, our provision for federal income taxes was reduced by a partial reversal of the valuation allowance on our deferred tax assets, as a result of utilizing net operating losses that previously had a full valuation allowance. In addition, the third quarter of 2010 included \$9.7 million of federal tax benefits recorded predominately as a result of discrete events, including the acquisition of NewPath. For the third quarter of 2011 and 2010, the effective tax rate differs from the federal statutory rate predominately due to our federal deferred tax valuation allowance.

Net income (loss) attributable to CCIC stockholders for the third quarter of 2011 was income of \$50.3 million. Net income (loss) attributable to CCIC stockholders for the third quarter of 2010 was a loss of \$134.6 million, inclusive of (1) net losses on interest rate swaps of \$104.4 million and (2) net losses from purchases and early retirement of debt of \$71.9 million. The change from net loss to net income was predominately due to (1) the previously mentioned charges and (2) growth in our site rental business.

CCUSA—First Nine Months of 2011 and 2010

Net revenues for the first nine months of 2011 increased by \$111.8 million, or 9%, from the same period in the prior year. This increase in net revenues primarily resulted from an increase in site rental revenues of \$115.0 million, or 10%, for the same period. This increase in site rental revenues was impacted by the following items, inclusive of straight-line accounting, in no particular order: new tenant additions across our entire portfolio, renewals or extensions of customer contracts, escalations, and cancellations of customer contracts. Tenant additions were influenced by the previously mentioned growth in the wireless communications industry.

Site rental gross margins for the first nine months of 2011 increased by \$104.2 million, or 12%, from the same period in the prior year. The increase in the site rental gross margins was related to the previously mentioned 10% increase in site rental revenues. Site rental gross margins for the first nine months of 2011 increased primarily as a result of the high incremental margins associated with tenant additions given the relatively fixed costs to operate a tower. The \$104.2 million incremental margin represents 91% of the related increase in site rental revenues.

Network services and other revenues for the first nine months of 2011 decreased by \$3.1 million, or 3%, and the related gross margin increased by \$4.6 million, or 11%, from the same period in the prior year. The increase in our network services and other gross margin is a reflection of the general volatility in the volume and mix of such work. Our network services business is of a variable nature as these services are not under long-term contracts. The increase in the gross margin percentage on the network services and other revenues relates to a larger percentage of higher margin site development services as a percentage of total network services and other revenues.

General and administrative expenses for the first nine months of 2011 increased by \$4.3 million, or 4%, from the same period in the prior year. General and administrative expenses are inclusive of stock-based compensation charges as discussed further in note 10 to our condensed consolidated financial statements. General and administrative expenses primarily increased related to our DAS networks driven by our acquisition of NewPath in 2010. General and administrative expenses were 8% of net revenues for the first nine months of both 2011 and 2010. Typically, our general and administrative expenses do not significantly increase as a result of the co-location of additional tenants on our towers.

Adjusted EBITDA for the first nine months of 2011 increased by \$103.3 million, or 13%, from the same period in the prior year. Adjusted EBITDA was positively impacted by the growth in our site rental business, including the high incremental site rental margin on the tenant additions and cost containment.

Depreciation, amortization and accretion for the first nine months of 2011 increased by \$8.9 million, or 2%, from the same period in the prior year. This increase is consistent with the insignificant movement in our fixed assets and intangible assets between the third quarter of 2011 and the third quarter of 2010.

During the first nine months of 2010, we repaid or purchased \$3.4 billion of face value debt using cash from our issuances of debt in order to extend the maturities of our debt portfolio. As a result of purchasing and early retiring certain of our debt, we incurred a net loss of \$138.4 million, inclusive of make whole payments. The increase in interest expense and amortization of deferred financing costs of \$16.7 million, or 5%, from the first nine months of 2010 to 2011 predominately resulted from a \$17.6 million increase in the amortization of interest rate swaps primarily related to the loss on the swaps hedging the refinancing of the 2006 tower revenue notes. During the first nine months of 2010, we recorded losses on interest rate swaps of \$292.3 million, which predominately resulted from an increase in the liability for those swaps not subject to hedge accounting due to changes in the LIBOR yield curve. All of our

forward-starting swaps were settled during 2010, so no further losses associated with these swaps should be recorded. For a further discussion of the debt refinancing and the interest rate swaps, see notes 6 and 7 to our consolidated financial statements in the 2010 Form 10-K.

The benefit (provision) for income taxes for the first nine months of 2011 was a provision of \$6.1 million compared to a

21

benefit of \$24.0 million for the first nine months of 2010. During the first nine months of 2011 and 2010, our provision for federal income taxes was reduced by a partial reversal of the valuation allowance on our deferred tax assets, as a result of utilizing net operating losses that previously had a full valuation allowance. In addition, the first nine months of 2010 included \$16.5 million of federal tax benefits recorded predominately as a result of discrete events, including the acquisition of NewPath. For the first nine months of 2011 and 2010, the effective tax rate differs from the federal statutory rate predominately due to our federal deferred tax valuation allowance.

Net income (loss) attributable to CCIC stockholders for the first nine months of 2011 was income of \$120.1 million. Net income (loss) attributable to CCIC stockholders for the first nine months of 2010 was a loss of \$350.9 million inclusive of (1) net losses on interest rate swaps of \$292.3 million and (2) net losses from purchases and early retirement of debt of \$138.4 million. The change from net loss to net income was predominately due to (1) the previously mentioned charges and (2) growth in our site rental business.

CCAL—Third Quarter 2011 and 2010

The increases and decreases between the third quarter of 2011 and 2010 were inclusive of exchange rate fluctuations. The average exchange rate of one Australian dollar expressed in U.S. dollars for the third quarter of 2011 was approximately 1.05, an increase of 17% from approximately 0.90 for the same period in the prior year. See "Item 3. Quantitative and Qualitative Disclosures About Market Risk."

Total net revenues for the third quarter of 2011 increased by \$6.8 million, or 27%, from the same period in the prior year. Site rental revenues for the third quarter of 2011 increased by \$5.0 million, or 22%, from the same period in the prior year. The increase in the exchange rate positively impacted net revenues and site rental revenues by approximately \$4.5 million and \$3.9 million, respectively, and accounted for an increase of 18% and 17%, respectively, for the third quarter of 2011 from the same period in the prior year. Site rental revenues were also impacted by various other factors, inclusive of straight-line accounting, including, in no particular order, tenant additions on our towers, renewals of customer contracts, escalations and cancellations of customer contracts. Net revenues were also impacted by a \$1.8 million increase in network services and other revenues.

Site rental gross margins increased by \$3.3 million, or 21%, for the third quarter of 2011, from \$15.5 million, for the third quarter of 2010. Adjusted EBITDA for the third quarter of 2011 increased by \$2.6 million, or 20%, from the same period in the prior year. The increases in the site rental gross margin and Adjusted EBITDA were primarily due to exchange rate fluctuations.

Net income (loss) attributable to CCIC stockholders for the third quarter of 2011 was net income of \$1.0 million, compared to a net loss of \$0.4 million for the third quarter of 2010. The change from net loss to net income was primarily driven by the previously mentioned increase in net revenues.

CCAL—First Nine Months of 2011 and 2010

The increases and decreases between the first nine months of 2011 and 2010 were inclusive of exchange rate fluctuations. The average exchange rate of one Australian dollar expressed in U.S. dollars for the third quarter of 2011 was approximately 1.04, an increase of 16% from approximately 0.90 for the same period in the prior year. See "Item 3. Quantitative and Qualitative Disclosures About Market Risk."

Total net revenues for the first nine months of 2011 increased by \$19.1 million, or 26%, from the same period in the prior year. Site rental revenues for the first nine months of 2011 increased by \$13.7 million, or 20%, from the same period in the prior year. The increase in the exchange rate positively impacted net revenues and site rental revenues by approximately \$12.9 million and \$11.1 million, respectively, and accounted for an increase of 17% and 17%, respectively, for the first nine months of 2011 from the same period in the prior year. Site rental revenues were also impacted by various other factors, inclusive of straight-line accounting, including, in no particular order, tenant additions on our towers, renewals of customer contracts, escalations and cancellations of customer contracts. Net revenues were also impacted by a \$5.4 million increase in network services and other revenues.

Site rental gross margins increased by \$8.6 million, or 18%, for the first nine months of 2011, from \$46.5 million for the first nine months of 2010. Adjusted EBITDA for the first nine months of 2011 increased by \$7.8 million, or 20%, from the same period in the prior year. The increases in site rental gross margin and Adjusted EBITDA were primarily due to exchange rate fluctuations.

Net income (loss) attributable to CCIC stockholders for the first nine months of 2011 was net income of \$2.1 million, compared to a net loss of \$1.0 million for the first nine months of 2010. The change from net loss to net income was primarily driven by the previously mentioned increase in net revenues.

Liquidity and Capital Resources

Overview

General. We believe our site rental business can be characterized as a stable cash flow stream generated under long-term contracts (see "Item 2. MD&A—General Overview—Overview"). Since we became a public company in 1998, our cash provided by operating activities (net of cash interest payments) has exceeded our sustaining capital expenditures. For the foreseeable future, we expect to continue to generate cash provided by operating activities that will be available for discretionary investments. In addition to investing cash provided by operating activities we may also, in certain circumstances, use debt financings and issuances of equity or equity related securities to fund discretionary investments.

We seek to allocate the cash produced by our operations in a manner that will enhance per share operating results. Our historical discretionary investments include (in no particular order): purchasing our common stock, acquiring towers, acquiring land under towers, selectively constructing towers, improving and structurally enhancing our existing towers, and purchasing or redeeming our debt or preferred stock. We have never declared or paid any cash dividend on our common stock. It is our current policy to retain our cash provided by operating activities to engage in discretionary investments. Periodically, we assess the future declaration and payment of cash dividends, if any, based on the then-current conditions, including our earnings, cash provided by operating activities, capital requirements, financial condition, our relative market capitalization, taxable income, taxpayer status, and other factors deemed relevant by our board of directors.

We seek to maintain a capital structure that we believe drives long-term stockholder value and optimizes our weighted-average cost of capital. We target a leverage ratio of approximately five times Adjusted EBITDA and interest coverage of approximately three times Adjusted EBITDA, subject to various factors such as the availability and cost of capital and the potential long-term return on our discretionary investments. Based on market conditions, cost of capital and opportunities, we may choose to increase or decrease our leverage and coverage from these targets for periods of time. Anticipated future growth in site rental cash flows and corresponding increases in Adjusted EBITDA should reduce our leverage ratio. Conversely, as our cash flow and Adjusted EBITDA grow, we may seek to increase our debt in nominal dollars to maintain or achieve a certain targeted leverage.

Liquidity Position. The following is a summary of our capitalization and liquidity position. See "Item 3. Quantitative and Qualitative Disclosures About Market Risk" and note 3 to our condensed consolidated financial statements for additional information regarding our debt.

	September 30, 2011 (In thousands of dollars)
Cash and cash equivalents(a)	\$75,524
Undrawn revolver availability(b)	145,000
Debt and other long-term obligations	6,936,686
Redeemable preferred stock	304,810
Total equity	2,313,652

(a) Exclusive of \$228.6 million of restricted cash.

Availability at any point in time is subject to certain restrictions based on the maintenance of financial covenants (b) contained in our credit agreement. See "Item 2. MD&A—Liquidity and Capital Resources—Financing Activities" and "Item 2. MD&A—Liquidity and Capital Resources—Debt Covenants."

Over the next 12 months, we expect that our cash on hand, cash flows from operating activities (net of cash interest payments) and undrawn revolver availability should be sufficient to cover our expected (1) debt service obligations of \$33.6 million (principal repayments), (2) capital expenditures of roughly \$300 million (sustaining and discretionary) and (3) redemption of our 6.25% convertible preferred stock in August 2012, if not converted prior to redemption. As CCIC is a holding company, our cash flow from operations is generated by our operating subsidiaries.

Over the next 12 months, we have no debt maturities other than nominal principal payments on amortizing debt. We may utilize cash flow from operations to repay some or all of the \$305.0 million outstanding under our revolver prior to its maturity in September 2013. We do not anticipate the need to access the capital markets to refinance our existing

debt until at least 2014 when our term loans mature (\$620.8 million outstanding as of September 30, 2011). Our 6.25% convertible preferred stock requires redemption in August 2012 of approximately \$306 million plus any unpaid dividends on that preferred stock. Prior to August 2012, the holders of the 6.25% convertible preferred stock may convert the preferred stock into an aggregate 8.3 million common shares at a conversion price of \$36.875 per share of common stock. If our common stock price were to remain at or above current levels, we anticipate that the vast majority of the 6.25% convertible preferred stock will be converted into common shares prior to August 2012, since it would be in the holder's economic interest to so convert. If the 6.25% convertible preferred stock is still outstanding at August 2012, we may choose to fund the August 2012 redemption by any combination of the following: using cash

on hand, borrowing under our revolver, accessing the capital markets and using cash generated from operations. In addition, we may utilize our right to convert the preferred stock if our common stock trades at or above a specific threshold (\$44.25 per share for 20 out of 30 consecutive trading days). We may also make purchases of the preferred stock using cash prior to August 2012. See "Item 3. Quantitative and Qualitative Disclosures About Market Risk" for a tabular presentation of our debt maturities as of September 30, 2011.

Summary Cash Flow Information

	Nine Months Ended September 30,		
	2011	2010	Change
	(In thousands of dollars)		
Net cash provided by (used for):			
Operating activities	\$455,274	\$407,655	\$47,619
Investing activities	(297,487)	(298,458)	971
Financing activities	(195,516)	(571,233)	375,717
Effect of exchange rate changes on cash	722	(131)	853
Net increase (decrease) in cash and cash equivalents	\$(37,007)	\$(462,167)	\$425,160

Operating Activities

The increase in net cash provided by operating activities for the first nine months of 2011 of \$47.6 million, or 12%, from 2010, was primarily due to growth in our core site rental business. Changes in working capital, particularly changes in deferred site rental receivables, deferred rental revenues, prepaid ground leases, restricted cash and accrued interest, can have a significant impact on our net cash from operating activities, largely due to the timing of payments and receipts. We expect to grow our cash flow provided by operating activities in the future (exclusive of movements in working capital) if we realize expected growth in our site rental business.

Investing Activities

Capital Expenditures.

	Nine Months Ended September 30,		
	2011	2010	Change
	(In thousands of dollars)		
Discretionary:			
Land purchases	\$163,837	\$77,088	\$86,749
Tower improvements and other	55,105	47,517	7,588
Construction of towers	32,061	9,094	22,967
Sustaining	14,112	14,575	(463)
Total	\$265,115	\$148,274	\$116,841

Other than sustaining capital expenditures, which we expect to be approximately \$22 million to \$27 million for the year ended December 31, 2012, our capital expenditures are discretionary and are made with respect to activities which we believe exhibit sufficient potential to improve our long-term results of operations on a per share basis. We expect to use roughly \$300 million of our cash flow on capital expenditures (sustaining and discretionary) over the next 12 months, with less than one-third of our total capital expenditures targeted for our existing tower assets related to customer installations and related capacity improvement. Our decisions regarding capital expenditures are influenced by the availability and cost of capital and expected returns on alternative investments.

During the third quarter of 2011, land purchases were \$111.0 million and included \$87.7 million for perpetual easements and other interests purchased in a single transaction. Total consideration for this single transaction was \$89.3 million. Tower improvement capital expenditures typically vary based on (1) the type of work performed on the towers, with the installation of a new antenna typically requiring greater capital expenditures than a modification to an existing installation and (2) the existing capacity of the tower prior to installation. Tower construction capital expenditures increased from the first nine months of 2010 to the same period in 2011 as a result of additional DAS network builds.

Financing Activities

We seek to allocate cash produced by our operations in a manner that will enhance per share operating results, which may include various financing activities such as (in no particular order) purchasing our common stock and purchasing or redeeming

our debt or preferred stock. During the first nine months of 2011, our financing activities predominately related to net borrowings under our revolver and discretionary purchases of our common stock.

Revolving Credit Agreement. The proceeds of our revolver may be used for general corporate purposes, which may include the financing of capital expenditures, acquisitions and purchases of our common stock and preferred stock. Typically, we use our revolver to fund discretionary investments and not for operating activities such as working capital, which are typically funded by cash flows from operations. In June 2011, CCOC amended the revolver to increase the aggregate revolving commitment availability by \$50.0 million to \$450.0 million. The following table summarizes our borrowing activity under our revolver during the three and nine months ended September 30, 2011.

	Three Months Ended September 30, 2011	Nine Months Ended September 30, 2011	
	(In thousands of dollars)		
Maximum month-end balance during the period	\$305,000	\$305,000	
Average daily balance	239,087	174,187	
Outstanding at the end of the period	305,000	305,000	
Weighted average interest rate based on average daily balance during the period	2.4	% 2.4	%
Weighted average interest rate on balance outstanding at the end of the period	2.4	% 2.4	%

Common Stock and Preferred Stock Activity. As of September 30, 2011 and December 31, 2010, we had 284.5 million and 290.8 million common shares outstanding, respectively. During the first nine months of 2011, we purchased 7.3 million shares of common stock at an average price of \$41.11 per share utilizing \$301.4 million in cash. During the first nine months of 2011, we paid \$15.0 million to purchase a portion of our 6.25% convertible preferred stock reducing our potential common shares by 0.3 million.

Debt Covenants

We currently have no financial covenant violations, and based upon our current expectations, we believe our operating results will be sufficient to comply with our debt covenants. The following is the financial maintenance covenants under our debt agreements, exclusive of cash trap reserve covenants. See our 2010 Form 10-K for a further discussion of our debt covenants, certain restrictive covenants and factors that are likely to determine our subsidiaries' ability to comply with current and future debt covenants.

	Debt	Current Covenant Requirement	As of September 30, 2011(d)	At Inception(d)
Consolidated Leverage Ratio(a)	Credit Agreement	≤7.50	5.2	8.9
Consolidated Interest Coverage Ratio(b)(c)	Credit Agreement	≥2.00	3.2	1.9

For consolidated CCIC, this ratio is calculated as the ratio of Consolidated Total Debt (as defined in the credit agreement and calculated in accordance with GAAP) to Consolidated Adjusted EBITDA (as defined in the credit agreement) for the most recent completed quarter multiplied by four; at inception, the covenant requirement was (a) less than 9.25 and decreased thereafter in accordance with the credit agreement. Consolidated Adjusted EBITDA is calculated in the same manner as Adjusted EBITDA used in our segment reporting, which is discussed further in "Item 2. MD&A—Accounting and Reporting Matters—Non-GAAP Financial Measures" and note 9 to our condensed consolidated financial statements.

For consolidated CCIC, this ratio is calculated as the ratio of Consolidated Adjusted EBITDA for the most recent completed quarter multiplied by four to Consolidated Pro forma Debt Service (as defined in the credit agreement).

(b) Consolidated Pro Form Debt Service is calculated as interest to be paid over the succeeding 12 months on the principal balance of debt then outstanding based on the then current interest rate for such debt.

(c) In addition, the credit agreement contains covenants related to the debt service coverage ratios of 2.00, 1.75 and 1.75, respectively, for the 2010 tower revenue notes, 2009 securitized notes and 7.75% secured notes, which are

calculated in substantially the same manner as the covenants in the respective debt agreements discussed under the cash trap reserve covenants below. These covenants in the credit agreement are more stringent than the cash trap covenants in the respective debt agreements.

(d) The covenant requirement ratios have become more stringent since the inception date in accordance with the credit agreement. The covenant requirement ratios were in compliance with the credit agreement at the date of inception. The following are the ratios applicable to the cash trap reserve covenants under our debt agreements that could require the cash flows generated by the issuers and their subsidiaries to be deposited in a reserve account and not released to us.

	Debt	Current Covenant Requirement(a)	As of September 30, 2011	At Inception
Debt Service Coverage Ratio(b)	2010 Tower Revenue Notes	>1.75	3.5	3.1
Debt Service Coverage Ratio(b)	2009 Securitized Notes	>1.30	2.9	2.4
Consolidated Fixed Charge Coverage Ratio(b)	7.75% Secured Notes	>1.35	3.0	2.5

The 2009 securitized notes and 2010 tower revenue notes also have amortization coverage thresholds of 1.15 and (a) 1.45, respectively, which could result in applying current and future cash in the reserve account to prepay the debt with applicable prepayment consideration. For the 7.75% secured notes, if the

Consolidated Fixed Charge Coverage Ratio is equal to or less than 1.20 and the aggregate amount of cash deposited in the reserve account exceeds \$100.0 million, the issuing subsidiaries will be required to commence an offer to purchase the 7.75% secured notes using the cash in the reserve account. See note (b) below for a discussion of the calculation of the Debt Service Coverage Ratio and Consolidated Fixed Charge Coverage Ratio.

The Debt Service Coverage Ratio and Consolidated Fixed Charge Coverage Ratio are both calculated as site rental revenue (in accordance with GAAP), less: (1) cost of operations (in accordance with GAAP), (2) straight-line (b)rental revenues, (3) straight-line ground lease expenses, (4) management fees, and (5) sustaining capital expenditures, using the results for the previous 12 months then ended to the amount of interest to be paid over the succeeding 12 months per the terms of the respective debt agreement.

Accounting and Reporting Matters

Critical Accounting Policies and Estimates

Our critical accounting policies and estimates are those that we believe (1) are most important to the portrayal of our financial condition and results of operations and (2) require our most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The critical accounting policies and estimates are not intended to be a comprehensive list of our accounting policies and estimates. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP, with no need for management's judgment. In other cases, management is required to exercise judgment in the application of accounting principles with respect to particular transactions. Our critical accounting policies and estimates as of December 31, 2010 are described in "Item 7. MD&A" and in note 2 of our consolidated financial statements in our 2010 Form 10-K. The critical accounting policies and estimates for the first nine months of 2011 have not changed from the critical accounting policies for the year ended December 31, 2010, other than changes related to the goodwill impairment test. See "Item 2. MD&A—Accounting and Reporting Matters—Impact of Accounting Standards Issued But Not Yet Adopted and Those Adopted in 2011" for additional information regarding the changes related to goodwill impairment testing. In the future, AT&T's potential acquisition of T-Mobile may trigger a review of our long-lived assets for impairment. See also "Item 2. MD&A—General Overview—Overview" for a discussion of AT&T's potential acquisition of T-Mobile. Impact of Accounting Standards Issued But Not Yet Adopted and Those Adopted in 2011

No accounting pronouncements adopted during the nine months ended September 30, 2011 had a material impact on our consolidated financial statements. No new accounting pronouncements issued during the nine months ended September 30, 2011 are expected to have a material impact on our consolidated financial statements.

In September 2011, the Financial Accounting Standards Board ("FASB") issued an amendment to the guidance on goodwill impairment testing. The amended guidance permits an entity to first perform a qualitative assessment to determine whether it is "more likely than not" that the fair value of a reporting unit is less than its carrying amount. If it is concluded that it is "more likely than not" that the fair value of a reporting unit is less than its carrying amount, it is then necessary to perform the two-step goodwill impairment test described in the 2010 Form 10-K. Otherwise, the two-step goodwill impairment test is not required. We have adopted this amended guidance effective September 30, 2011 prior to performing our annual goodwill impairment test and, as such, anticipate performing the qualitative assessment in connection with the annual goodwill impairment test during the fourth quarter of 2011.

Non-GAAP Financial Measures

Our measurement of profit or loss currently used to evaluate the operating performance of our operating segments is earnings before interest, taxes, depreciation, amortization and accretion, as adjusted, or Adjusted EBITDA. Our definition of Adjusted EBITDA is set forth in note 9 to our condensed consolidated financial statements. Our measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies, including companies in the tower sector, and is not a measure of performance calculated in accordance with GAAP. Adjusted EBITDA should not be considered in isolation or as a substitute for operating income or loss, net income or loss, cash flows provided by (used for) operating, investing and financing activities or other income statement or cash flow statement data prepared in accordance with GAAP.

We believe Adjusted EBITDA is useful to an investor in evaluating our operating performance because:

- it is the primary measure used by our management to evaluate the economic productivity of our operations, including the efficiency of our employees and the profitability associated with their performance, the realization of contract revenues under our long-term contracts, our ability to obtain and maintain our customers and our ability to operate our

site rental business effectively;

• it is the primary measure of profit and loss used by our management for purposes of making decisions about allocating resources to, and assessing the performance of, our operating segments;

• it is similar to the measure of current financial performance generally used in our debt covenant calculations;

• although specific definitions may vary, it is widely used in the tower sector to measure operating performance without

26

regard to items such as depreciation, amortization and accretion which can vary depending upon accounting methods and the book value of assets; and

we believe it helps investors meaningfully evaluate and compare the results of our operations (1) from period to period and (2) to our competitors by removing the impact of our capital structure (primarily interest charges from our outstanding debt) and asset base (primarily depreciation, amortization and accretion) from our operating results.

Our management uses Adjusted EBITDA:

- with respect to compliance with our debt covenants, which require us to maintain certain financial ratios including, or similar to, Adjusted EBITDA;

- as the primary measure of profit and loss for purposes of making decisions about allocating resources to, and assessing the performance of, our operating segments;

- as a performance goal in employee annual incentive compensation;

- as a measurement of operating performance because it assists us in comparing our operating performance on a consistent basis as it removes the impact of our capital structure (primarily interest charges from our outstanding debt) and asset base (primarily depreciation, amortization and accretion) from our operating results;

- in presentations to our board of directors to enable it to have the same measurement of operating performance used by management;

- for planning purposes, including preparation of our annual operating budget;

- as a valuation measure in strategic analyses in connection with the purchase and sale of assets; and

- in determining self-imposed limits on our debt levels, including the evaluation of our leverage ratio and interest coverage ratio.

There are material limitations to using a measure such as Adjusted EBITDA, including the difficulty associated with comparing results among more than one company, including our competitors, and the inability to analyze certain significant items, including depreciation and interest expense, that directly affect our net income or loss. Management compensates for these limitations by considering the economic effect of the excluded expense items independently as well as in connection with their analysis of net income (loss).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following section updates "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our 2010 Form 10-K and should be read in conjunction with that report as well as our condensed consolidated financial statements included in Part 1, Item 1 of this report.

Interest Rate Risk

Our interest rate risk relates primarily to the impact of interest rate movements on the following:

- the potential refinancing of our existing debt;

- our \$925.8 million of floating rate debt representing approximately 13% of total debt, of which \$600.0 million has been fixed until December 2011 through interest rate swaps; and

- potential future borrowings of incremental debt.

The following tables provide information about our market risk related to changes in interest rates. The future principal payments and weighted-average interest rates are presented as of September 30, 2011. These debt maturities reflect contractual maturity dates and do not consider the impact of the principal payments that commence if the applicable debt is not repaid or refinanced on or prior to the anticipated repayment dates on the tower revenue notes (see footnote (c)). See note 3 to our condensed consolidated financial statements for additional information regarding our debt.

Future Principal Payments and Interest Rates by the Debt Instruments' Contractual Year of Maturity

	2011	2012	2013	2014	2015	Thereafter	Total	Fair Value(a)
	(Dollars in thousands)							
Debt:								
Fixed rate(c)	\$5,844	\$25,733	\$25,017	\$24,810	\$891,672	\$5,114,650	(c)\$6,087,726	(c)\$6,509,416
Average interest	5.7	% 5.4	% 5.6	% 5.7	% 8.9	% 9.3	%(c)9.2	%(c)

rate(b)(c)

Variable rate	\$1,625	\$6,500	\$311,500	\$606,125	\$—	\$—	\$925,750	\$904,024
Average interest rate(d)	1.7	% 1.7	% 2.4	% 1.7	% —	—	2.0	%

(a) The fair value of our debt is based on indicative quotes (that is, non-binding quotes) from brokers that require judgment to interpret market information,

27

including implied credit spreads for similar borrowings on recent trades or bid/ask offers. These fair values are not necessarily indicative of the amount which could be realized in a current market exchange.

(b) The average interest rate represents the weighted-average stated coupon rate (see footnote (c)).

The impact of principal payments that commence if the applicable debt is not repaid or refinanced on or prior to the anticipated repayment dates are not considered. The anticipated repayment dates are 2015, 2017 and 2020, as applicable, for the 2010 tower revenue notes. If the tower revenue notes are not repaid in full by their anticipated repayment dates, the applicable interest rate increases by an additional approximately 5% per annum and monthly

(c) principal payments commence using the Excess Cash Flow of the issuers of the tower revenue notes. The tower revenue notes are presented based on their contractual maturity dates between 2035 and 2040 and include the impact of an assumed 5% increase in interest rate that would occur following the anticipated repayment dates but exclude the impact of monthly principal payments that would commence using Excess Cash Flow of the issuers of the tower revenue notes. The full year 2010 Excess Cash Flow of the issuers was approximately \$425.0 million.

The interest rate represents the weighted-average rate currently in effect and excludes the impact of interest rate (d) swaps. We have effectively fixed the interest rate on \$600.0 million of debt at approximately 1.3% (plus the applicable credit spread) through an interest rate swap until December 2011.

Foreign Currency Risk

The vast majority of our foreign currency risk is related to the Australian dollar which is the functional currency of CCAL. CCAL represented 6% of our consolidated net revenues and 4% of our operating income for the nine months ended September 30, 2011. Over the past year and five years, the Australian dollar has strengthened by 1% and 31%, respectively, against the U.S. dollar. We believe the risk related to our financial instruments (exclusive of inter-company financing deemed a long-term investment) denominated in Australian dollars should not be material to our financial condition.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company conducted an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective in alerting them in a timely manner to material information relating to the Company required to be included in the Company's periodic reports under the Securities Exchange Act of 1934.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1A. RISK FACTORS

You should carefully consider the risk factor below, as well as the other information contained in this document and our 2010 Form 10-K, including additional risk factors discussed in "Item 1A. Risk Factors" in our 2010 Form 10-K. The following risk factor is included below to update this specific risk factor from the Form 10-K with the respect to certain matters relating to AT&T's potential acquisition of T-Mobile.

A substantial portion of our revenues is derived from a small number of customers, and the loss, consolidation or financial instability of any of our limited number of customers may materially decrease revenues and reduce demand for our towers and network services.

For the nine months ended September 30, 2011, approximately 74% of our consolidated net revenues was derived from AT&T, Verizon Wireless, Sprint and T-Mobile, which represented 23%, 20%, 20% and 11%, respectively, of our consolidated net revenues. The loss of any one of our large customers as a result of bankruptcy, insolvency, consolidation, roaming, joint development, resale agreements by our customers, merger with other customers of ours or otherwise may result in (1) a material decrease in our revenues, (2) uncollectible account receivables, (3) an impairment of our deferred site rental receivables, tower assets, site rental contracts and customer relationships intangible assets, and (4) other adverse effects to our business. We cannot guarantee that contracts with our major customers will not be terminated or that these customers will renew their contracts with us.

Consolidation among our customers will likely result in duplicate or overlapping parts of networks, which may result in a reduction of cell sites and impact revenues from our towers. In addition, consolidation may result in a reduction in such customers' future capital expenditures in the aggregate because their expansion plans may be similar. Any industry consolidation could decrease the demand for our towers, which in turn may result in a reduction in our revenues and cash flows.

Recent examples of consolidation include Verizon Wireless acquiring Alltel in 2009. In addition, Sprint merged with Nextel in August 2005, resulting in their use of two separate wireless technologies. During 2010, Sprint announced Network Vision, a multi-year network enhancement to improve network speed, quality, efficiency and consolidate their multiple network technologies, including the elimination of their narrow-band push-to-talk network, referred to as iDEN. Sprint expects the Network Vision deployment to reach 250 million people by the end of 2013. These plans may result in Sprint not renewing certain contracts with us.

In March 2011, AT&T entered into a definitive agreement to acquire T-Mobile, subject to regulatory approval and other closing conditions. If consummated, this potential acquisition could decrease revenues and reduce or delay demand for our towers and network services, as a result of the anticipated integration of these networks and related duplicate or overlapping parts of the networks. See "Item 2. MD&A—General Overview" and "Item 2—MD&A—Accounting and Reporting Matters."

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table summarizes information with respect to purchase of our equity securities during the third quarter of 2011:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
	(In thousands)			
July 1 - July 31, 2011	710	\$41.95	—	—
August 1 - August 31, 2011	1,976	39.86	—	—

Edgar Filing: CROWN CASTLE INTERNATIONAL CORP - Form 10-Q

September 1 - September 30, 2011	6	42.06	—	—
Total	2,692	\$40.42	—	—

We paid \$108.8 million in cash to effect these purchases. Virtually all of these purchases were made in the open market. In addition to the common stock purchases shown in the table above, in the third quarter of 2011 we paid \$15.0 million to purchase a portion of our 6.25% Convertible Preferred Stock reducing our potential common shares by 0.3 million.

ITEM 6. EXHIBITS

Exhibit No.	Description
(a) 3.1	Amended and Restated Certificate of Incorporation of Crown Castle International Corp., dated May 24, 2007
