TierOne Bank and Subsidiaries
Notes to Consolidated Financial Statements
(unaudited)

1. Basis of Presentation.

On April 3, 2002, TierOne Bank (the "Bank") (formerly known as First Federal Lincoln Bank) incorporated TierOne Corporation, a Wisconsin corporation (the "Company" or "registrant") to facilitate the conversion of the Bank from a federally chartered mutual savings bank to a federally chartered stock savings bank (the "Conversion"). The Conversion is expected to be consummated in early October 2002, at which time the Company will become the holding company for the Bank and issue shares of its common stock

Edgar Filing: TIERONE CORP - Form 10-Q

to the general public. The Company will own all the outstanding common stock of the Bank upon completion of the Conversion. The Company filed a Form S-1 with the Securities and Exchange Commission ("SEC") on April 8, 2002, which, as amended, was declared effective by the SEC on August 12, 2002. The registrant is in organization and has engaged in no operations to date; accordingly, no financial statements of the Company have been included herein.

References in this document to "we," "our" or "us" refer to the Company together with the Bank, unless the context requires otherwise.

2. Basis of Consolidation

The consolidated financial statements include the accounts of the Bank and its wholly owned subsidiary, TMS Corporation of the Americas ("TMS"). TMS is the holding company of TierOne Investments and Insurance, Inc., a wholly owned subsidiary that administers the sale of insurance and securities products. In April 2000, TMS created a new subsidiary, TierOne Reinsurance Company, which reinsures credit life and accident and health insurance policies.

The accompanying unaudited consolidated financial statements as of June 30, 2002 and for the three and six month periods ended June 30, 2002 and 2001 have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and notes necessary for complete financial statements in conformity with accounting principles generally accepted in the United States of America. All significant intercompany accounts and transactions have been eliminated in consolidation. In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation. The results of operations for interim periods are not necessarily indicative of the results to be expected for the entire year. These interim financial statements should be read in conjunction with the Company's consolidated audited financial statements and the notes thereto contained in the Company's prospectus dated August 12, 2002.

5. Mortgage Servicing Rights

Mortgage servicing rights are included in the Consolidated Statements of Financial Condition under the caption "Other Assets." The activity of mortgage servicing rights is summarized as follows for the following periods:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
	(dollars in thousands)			
Beginning balance	\$5,398	\$1,486	\$4,577	\$1,101
Mortgage servicing rights capitalized	1,033	1,188	2,148	1,734
Amortization expense	(307)	(250)	(601)	(411)
	-----	-----	-----	-----
Valuation adjustment	6,124 (460)	2,424 -	6,124 (460)	2,424 -
	-----	-----	-----	-----
Ending balance	\$5,664	\$2,424	\$5,664	\$2,424
	=====	=====	=====	=====

The activity of the valuation allowances on mortgage servicing rights is summarized as follows for the following periods:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
	(dollars in thousands)			
Beginning balance	\$350	\$ -	\$350	\$ -
Amounts charged to operations	460	-	460	-
	-----	-----	-----	-----
Ending balance	\$810	\$ -	\$810	\$ -
	=====	=====	=====	=====

The fair value of the Banks mortgage servicing rights totaled approximately \$5,798,000 at June 30, 2002, compared to \$2,693,000 at June 30, 2001.

The following table compares the key assumptions used in measuring the fair values of mortgage servicing rights at the periods presented:

	June 30, 2002	December 31, 2001
	-----	-----
	(dollars in thousands)	

Edgar Filing: TIERONE CORP - Form 10-Q

Fair value	\$5,798	\$5,069
Prepayment speed	10.7% - 46.4%	8.7% - 37.8%
Weighted average prepayment speed	19.6%	14.0%
Discount rate	9.0% - 13.5%	10.5% - 15.0%

13

TierOne Bank and Subsidiaries Notes to Consolidated Financial Statements (unaudited)

6. Recent Accounting Pronouncements

In August 2001, the Financial Accounting Standards Board ("FASB") issued Statement No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." This Statement addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." However, the Statement retains the fundamental provisions of Statement 121 for (a) recognition and measurement of the impairment of long-lived assets to be held and used and (b) measurement of long-lived assets to be disposed of by sale. This Statement supersedes the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," for the disposal of a segment of a business. However, this Statement retains the requirement of Opinion 30 to report discontinued operations separately from continuing operations and extends that reporting to a component of an entity that either has been disposed of (by sale, by abandonment, or in distribution to owners) or is classified as held for sale. This Statement also amends APB No. 51, "Consolidated Financial Statements," to eliminate the exception to consolidation for a temporarily controlled subsidiary. The provisions of this Statement are effective for financial statements issued for fiscal years beginning after December 15, 2001 and interim periods within those fiscal years. The provisions of this Statement generally are to be applied prospectively. The adoption of Statement No. 144 did not have an impact on our earnings, financial condition or equity.

In April of 2002, the FASB issued Statement No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." This Statement rescinds FASB Statement No. 4, "Reporting Gains and Losses from Extinguishment of Debt," and an amendment of that Statement, FASB Statement No. 64, "Extinguishments of Debt Made to Satisfy Sinking-Fund Requirements." This Statement also rescinds FASB Statement No. 44, "Accounting for Intangible Assets of Motor Carriers." This Statement amends FASB Statement No. 13, "Accounting for Leases," to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. This Statement also amends other existing authoritative pronouncements to make various technical corrections, clarify meanings, or describe their applicability under changed

Edgar Filing: TIERONE CORP - Form 10-Q

conditions. The adoption of Statement No. 145 is not expected to have a material effect on our financial position or results of operation.

TierOne Bank Management's Discussion and Analysis of Financial Condition and Results of Operations

Item 2 - Managements Discussion and Analysis of Financial
Condition and Results of Operations.

General

The Company was formed by the Bank in connection with the Bank's conversion and has not yet commenced operations. The Company's results of operations initially will be primarily dependent on the results of the Bank, which will be a wholly owned subsidiary upon completion of the conversion. The Bank's results of operations depend, to a large extent, on net interest income, which is the difference between the income earned on its loan and investment portfolios and the cost of funds, consisting of the interest paid on deposits and borrowings. Results of operations are also affected by provisions for loan losses, loan sale activities and loan servicing. Non-interest expense principally consists of compensation and employee benefits, office occupancy and equipment expense, data processing, advertising and business promotion and other expense. Our results of operations are also significantly affected by general economic and competitive conditions, particularly changes in interest rates, government policies and actions of regulatory authorities. Future changes in applicable law, regulations or government policies may materially impact our financial conditions and results of operations.

Critical Accounting Policies

We have identified the evaluation of the allowance for loan losses as a critical accounting policy where amounts are sensitive to material variation. This policy is significantly affected by our judgment and uncertainties and there is a likelihood that materially different amounts would be reported under different, but reasonably plausible, conditions or assumptions. We establish provisions for loan losses, which are charges to our operating results, in order to maintain a level of total allowance for losses that management believes covers all known and inherent losses that are both probable and reasonably estimable at each reporting date. Management performs reviews no less than quarterly in order to identify these inherent losses and to assess the overall collection probability for the loan portfolio. Our reviews consist of a quantitative analysis by loan category, using historical loss experience, and consideration of a series of qualitative loss factors. For each primary type of loan, we establish a loss factor reflecting our estimate of the known and inherent losses in each loan type using both the quantitative analysis as well as consideration of the qualitative factors. Our evaluation process includes, among other things, an analysis of delinquency trends, non-performing loan trends, the levels of charge-offs and recoveries, prior loss

Edgar Filing: TIERONE CORP - Form 10-Q

experience, total loans outstanding, the volume of loan originations, the type, size, terms and geographic concentration of loans held by us, the value of collateral securing loans, the number of loans requiring heightened management oversight, general economic conditions and loan loss information for other institutions. The amount of the allowance for loan losses is only an estimate and actual losses may vary from these estimates.

15

TierOne Bank Management's Discussion and Analysis of Financial Condition and Results of Operations

Comparison of Financial Condition at June 30, 2002 and December 31, 2001

Our total assets were \$1.6 billion at June 30, 2002, a \$7.2 million, or .5%, increase from December 31, 2001. An increase in investment securities available for sale was substantially offset by decreases in cash and cash equivalents and mortgage-backed securities available for sale. Cash and cash equivalents totaled \$25.3 million at June 30, 2002, a \$9.1 million decrease from December 31, 2001 as a portion of such assets was invested in investment securities available for sale. Our available-for-sale investment securities amounted to \$55.8 million at June 30, 2002, an \$11.3 million increase from December 31, 2001. During the six months ended June 30, 2002, we purchased \$39.8 million in investment securities which were partially offset by the sale or maturity during the period of an aggregate of \$28.5 million of securities. Our mortgage-backed securities available for sale decreased \$15.8 million or 34.1%, to \$30.5 million at June 30, 2002 compared to \$46.3 million at December 31, 2001. This decrease was primarily the result of the high level of mortgage refinancing activity experienced during the period due to the current interest rate environment which resulted in an increased rate of prepayments. Our loan portfolio increased by \$601,000 to \$1.4 billion at June 30, 2002 compared to December 31, 2001. However, the composition of the loan portfolio continued to change reflecting our emphasis on originating or purchasing commercial real estate, construction and consumer loans. As a result, commercial real estate and land, construction (both commercial and residential) and consumer loans increased by \$72.8 million, \$62.1 million and \$27.8 million, respectively, at June 30, 2002 as compared to December 31, 2001. During the six months ended June 30, 2002, we purchased for portfolio retention a total of \$252.1 million of loans, including \$101.5 million of adjustable-rate single-family residential loans, \$54.4 million of commercial real estate and land loans, \$53.6 million of construction loans and \$42.6 million of consumer loans. A substantial portion of the commercial real estate and land loans purchased during this period consisted of our purchase of a 75% to 80% participation interest in 25 loans originated by a financial institution in Spokane, Washington from whom we have periodically purchased loans during the past three years.

Our total deposits increased by \$20.2 million to \$1.1 billion during the six months ended June 30, 2002 as we continued our efforts to increase the level of our core deposits, especially checking accounts. At June 30, 2002, our interest-

Edgar Filing: TIERONE CORP - Form 10-Q

bearing and non-interest-bearing checking accounts amounted to \$307.8 million in the aggregate, a \$55.9 million, or 22.2%, increase from the aggregate amount at December 31, 2001. In addition, during the six-month period ended June 30, 2002, our total certificates of deposit declined to \$515.3 million, or 46.2% of total deposits, at June 30, 2002 compared to \$535.3 million, or 48.8% of total deposits at December 31, 2001. Our FHLB advances and other borrowings amounted to \$293.4 million at June 30, 2002 compared to \$303.3 million at December 31, 2001.

Our total retained earnings increased by \$8.7 million to \$130.4 million at June 30, 2002 compared to \$121.8 million at December 31, 2001 primarily reflecting \$8.5 million in net income earned for the six months ended June 30, 2002. Due to a change in net unrealized gains/losses on securities, we had a cumulative other comprehensive income of \$193,000 at June 30, 2002 compared to cumulative other comprehensive income of \$77,000 at December 31, 2001.

16

TierOne Bank Management's Discussion and Analysis of Financial Condition and Results of Operations

Comparison of Operating Results for the Three and Six Months Ended June 30, 2002 and 2001

General. Our net income increased by \$1.3 million, or 40.2%, to \$4.4 million for the three months ended June 30, 2002 compared to \$3.1 million for the three months ended June 30, 2001. For the six months ended June 30, 2002, our net income increased by \$2.7 million, or 46.2%, to \$8.5 million compared to \$5.8 million for the same period in 2001. Our net income increased during the 2002 periods due primarily to a lower cost of funds which improved our net interest income. Our average interest rate spread increased to 3.58% for the quarter ended June 30, 2002 compared to 2.74% for the three months ended June 30, 2001. For the six months ended June 30, 2002, our average interest rate spread was 3.44% as compared to 2.71% for the same period in 2001. Our net interest margin improved to 3.88% and 3.76% for the three and six months ended June 30, 2002, respectively, compared to 3.22% and 3.17% for the three and six months ended June 30, 2001, respectively. Our ratio of average interest-earning assets to average interest-bearing liabilities remained essentially unchanged for the three- and six-month periods ended June 30, 2002 compared to the same periods in 2001. The improvement in the average interest rate spread and net interest margin during the 2002 periods reflected the effects of the significant decline in our cost of funds which substantially exceeded the decline in the yields earned on our interest-earning assets.

Interest Income. Our total interest income for the three months ended June 30, 2002 was \$25.5 million compared to \$26.6 million for the three months ended June 30, 2001 while for the six months periods ended June 30, 2002 and 2001, our total interest income amounted to \$50.0 million and \$52.8 million, respectively. The primary reason for the decrease in total

Edgar Filing: TIERONE CORP - Form 10-Q

interest income during the 2002 periods was the decline in market rates of interest throughout 2001. The average yield earned on net loans receivable was 6.97% for the three months ended June 30, 2002 compared to 7.88% for the three months ended June 30, 2001 and was 6.95% for the six months ended June 30, 2002 as compared to 7.98% for the same period in 2001. Average yields also were lower on our investment securities and mortgage-backed securities during the three months and the six months ended June 30, 2002 compared to the same periods in 2001.

Interest Expense. Our total interest expense for the three and six months ended June 30, 2002 was \$11.0 million and \$22.0 million, respectively, compared to \$15.4 million and \$31.2 million for the three months and six months ended June 30, 2001, respectively. The primary reason for the decrease in our interest expense during the 2002 periods was a reduction in the average rate on deposits to 2.90% and 2.97% during the three and six months ended June 30, 2002, respectively, compared to 4.85% and 5.04% during the same periods in 2001. The average rate on our certificates of deposit was 3.92% and 4.03% for the three months and the six months ended June 30, 2002, respectively, compared to 6.06% and 6.10% for the same periods in 2001. The average rates on our interest-bearing checking accounts, money market accounts and savings accounts also declined during the 2002 periods compared to the same periods in 2001. Interest on FHLB advances and other borrowings increased by \$840,000 and \$1.6 million during the three and six months ended June 30, 2002 compared to the same periods in 2001 as a result of a higher average balance of borrowings in 2002 which more than offset a reduction in the average rate paid.

Average Balances, Net Interest Income, and Yields Earned and Rates Paid. The following tables show for the periods indicated the total dollar amount of interest from average interest-earning assets and the resulting yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates, and the net interest margin. Tax-exempt income and yields have not been adjusted to a tax-equivalent basis. All average balances are based on month end balances. Management does not believe that the monthly averages differ significantly from what the daily averages would be.

Rate/Volume Analysis. The following table shows the extent to which changes in interest rates and changes in volume of interest-related assets and liabilities affected our interest income and expense during the periods indicated. For each category of interest-earning assets and interest-bearing liabilities, information is provided on changes attributable to (1) changes in rate (change in rate multiplied by prior year volume) and (2) changes in volume (change in volume multiplied by prior year rate). The combined effect of changes in both rate and volume has been allocated proportionately to the change due to rate and the change due to volume.

TierOne Bank
Management's Discussion and Analysis of Financial Condition
and Results of Operations

Provision for Loan Losses. We made a provision for loan losses of \$643,000 for the three months ended June 30, 2002 compared to \$454,000 for the three months ended June 30, 2001. For the six months ended June 30, 2002, our provision for loan losses was \$1.2 million as compared to \$940,000 for the same period in 2001. Our portfolios of commercial real estate and land loans, construction loans, commercial business loans and consumer loans, which generally are deemed to have higher inherent levels of known and inherent losses than single-family residential mortgage loans, due to, among other things, the nature of the collateral, the areas in which the security property is located and the dependency on economic conditions for successful completion or operation of the project have continued to grow, both in terms of total dollar amounts and as a percentage of our total loan portfolio. At June 30, 2002, our total non-performing assets amounted to \$4.6 million compared to \$1.8 million at December 31, 2001. The increase in non-performing assets was due primarily to a \$2.0 million increase in non-accrual single-family residential mortgage loans substantially all of which related to loans we took possession of from a broker participating in our mortgage warehouse line of credit program. During the three and six months ended June 30, 2002, we charged-off an aggregate of \$174,000 and \$378,000, respectively, of loans, primarily related to consumer loans, and had \$7,000 and \$19,000, respectively, in recoveries of previous charge-offs. At June 30, 2002, our allowance for loan losses amounted to 329.32% of non-performing loans and 0.93% of total loans outstanding.

Other Income. Our other income increased by \$391,000, or 14.7%, to \$3.0 million for the three months ended June 30, 2002 compared to \$2.7 million for the three months ended June 30, 2001. For the six months ended June 30, 2002, such income amounted to \$6.3 million as compared to \$5.3 million for the same period in 2001, a 19.2% increase. The primary reason for the increase in other income for the three months ended June 30, 2002 was a \$796,000 increase in fee and service charges resulting primarily from an increase in our transaction accounts that was partially offset by a \$460,000 increase to the valuation

Edgar Filing: TIERONE CORP - Form 10-Q

allowance on our mortgage servicing rights. We increased our mortgage servicing rights valuation allowance due to increased prepayments in our loan servicing portfolio due to the current low interest rate environment. For the six months ended June 30, 2002, the increase in other income of \$1.0 million over the same period in 2001 reflected an \$836,000 increase in fee and service charges due primarily to the increase in transaction accounts as well as a \$579,000 increase in gains on sale of loans, offset in part by the \$460,000 increase in the valuation allowance on our mortgage servicing rights.

Other Expense. Our other expense increased by \$1.5 million, or 17.7%, to \$10.0 million for the three months ended June 30, 2002 compared to \$8.5 million for the three months ended June 30, 2001. The primary reasons for the increase in other expense for the three months ended June 30, 2002 were a \$524,000 increase in advertising expense, a \$381,000 increase in other operating expense due in large part to expenses incurred in connection with our name change to TierOne Bank in early 2002 and a \$443,000 increase in salaries and employee benefits due to an increase in the

21

TierOne Bank Management's Discussion and Analysis of Financial Condition and Results of Operations

number of staff, increased health insurance costs and normal salary increases. During the six months ended June 30, 2002, our other expense increased \$2.9 million, or 17.1%, to \$19.7 million compared to \$16.9 million for the same period in 2001 in large part due to the same reasons underlying the increase in the three months ended June 30, 2002.

Income Tax Expense. Our income tax expense increased by \$764,000 to \$2.5 million and by \$1.6 million to \$4.8 million for the three and six months ended June 30, 2002, respectively, compared to the same periods in 2001. The increases in income tax expense in the three- and six-month periods ended June 30, 2002 over the prior year comparable periods primarily reflect the increases in net income.

Liquidity and Commitments

Our primary sources of funds are from deposits, amortization of loans, loan prepayments and the maturity of loans, mortgage-backed securities and other investments, and other funds provided from operations. While scheduled payments from the amortization of loans and mortgage-backed securities and maturing investment securities are relatively predictable sources of funds, deposit flows and loan prepayments can be greatly influenced by general interest rates, economic conditions and competition. We also maintain excess funds in short-term, interest-bearing assets that provide additional liquidity. TierOne Bank also utilizes outside borrowings, primarily from FHLBank Topeka (formerly known as the Federal Home Loan Bank of Topeka), as an additional funding source.

We use our liquidity to fund existing and future loan

Edgar Filing: TIERONE CORP - Form 10-Q

commitments, to fund maturing certificates of deposit and demand deposit withdrawals, to invest in other interest-earning assets, and to meet operating expenses. At June 30, 2002, we also had certificates of deposit maturing within the next 12 months amounting to \$361.7 million. Based upon historical experience, we anticipate that a significant portion of the maturing certificates of deposit will be redeposited with us.

In addition to cash flow from loan and securities payments and prepayments as well as from sales of available for sale securities, we have significant borrowing capacity available to fund our liquidity needs. We have increased our utilization of borrowings in recent years as a cost efficient addition to deposits as a source of funds. The average balance of our borrowings was \$270.7 million and \$264.0 million for the three and six months ended June 30, 2002, respectively, compared to \$166.4 million and \$170.6 million for the same periods in 2001. To date, substantially all of our borrowings have consisted of advances from FHLBank Topeka, of which we are a member. Under terms of the collateral agreement with FHLBank Topeka, we pledge residential mortgage loans and mortgage-backed securities as well as our stock in FHLBank Topeka as collateral for such advances.

22

TierOne Bank Management's Discussion and Analysis of Financial Condition and Results of Operations

We have not used, and have no intention to use, any significant off-balance sheet financing arrangements for liquidity purposes. Our primary financial instruments with off-balance sheet risk are limited to loan servicing for others, our obligations to fund loans to customers pursuant to existing commitments and commitments to purchase and sell mortgage loans. In addition, we have certain risks due to limited recourse arrangements on loans serviced for others. At June 30, 2002, the maximum total amount of such recourse was approximately \$4.5 million. Based on historical experience, at June 30, 2002, we had established a reserve of \$314,000 with respect to this recourse obligation. In addition, we have not had, and have no intention to have, any significant transactions, arrangements or other relationships with any unconsolidated, limited purpose entities that could materially affect our liquidity or capital resources. We have not, and do not intend to, trade in commodity contracts.

We anticipate that we will continue to have sufficient funds and alternative funding sources to meet our current commitments.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk.

For a discussion of the Bank's asset and liability management policies as well as the methods used to manage its exposure to the risk of loss from adverse changes in market prices and rates market, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - How We Manage Our Risks" and - "Quantitative and Qualitative Disclosures About Market Risk" in the Company's Prospectus dated August 12, 2002. There has been no material change in the Bank's asset and liability position or the market value of the Bank's equity since March 31, 2002.

PART II - OTHER INFORMATION

Item 1 - Legal Proceedings:

There are no matters required to be reported under this item.

Item 2 - Changes in Securities and Use of Proceeds:
