Annual Report 2017

TO OUR SHAREHOLDERS

Dear Fellow Shareholders:

It is a pleasure to welcome our new shareholders who find the total return investment objective of Foxby Corp. (the “Fund”) attractive and to submit this 2017 Annual Report.

Investment Strategies

In seeking its objective, the Fund exercises a flexible strategy in the selection of securities, and is not limited by the issuer’s location, size, or market capitalization. The Fund may invest in equity and fixed income securities of new and seasoned U.S. and foreign issuers, including securities convertible into common stock, debt securities, futures, options, derivatives, and other instruments. The Fund also may employ aggressive and speculative investment techniques, such as selling securities short and borrowing money for investment purposes, a practice known as “leveraging,” and may invest defensively in short term, liquid, high grade securities and money market instruments. There is a risk that these transactions sometimes may reduce returns or increase volatility. In addition, derivatives, such as options and futures, can be illiquid and highly sensitive to changes in their underlying security, interest rate or index, and as a result can be highly volatile. A small investment in certain derivatives could have a potentially large impact on the Fund’s performance. The Fund may invest in debt securities rated below investment grade, commonly referred to as junk bonds, as well as investment grade and U.S. Government securities. Generally, investments in securities in the lower rating categories or comparable unrated securities provide higher yields but involve greater price volatility and risk of loss of principal and interest than investments in securities with higher ratings. A potential benefit of its closed end structure, the Fund may invest without limit in illiquid investments such as private placements and private companies.

Economic and Market Report

At the December 2017 meeting of the Federal Open Market Committee (FOMC) of the Federal Reserve Bank (the “Fed”), the Fed staff’s review of the economic situation suggested that real gross domestic product (GDP) was “rising at a solid pace in the second half of 2017.” The staff viewed labor market conditions as reflecting in part a rebound from the negative effects of the hurricanes in September, as the national unemployment rate declined to 4.1% through November 2017. Regarding inflation, the staff noted that “total consumer price inflation, as measured by the 12-month percentage change in the price index for personal consumption expenditures (PCE), remained below 2 percent in October and was lower than early in the year.” In fact, over the 12 months through October 2017, total U.S. consumer prices, as measured by the PCE price index, increased slightly more than 1.5%.

Addressing the financial situation, the Fed staff noted that asset price movements appeared to be “reflecting slightly stronger-than-expected economic data releases, announcements related to Treasury debt issuance, and an increase in the perceived probability that the Congress would enact tax legislation. On net, the Treasury yield curve flattened, U.S. equity prices moved up, and the foreign exchange value of the dollar was little changed. Financing conditions for businesses and households remained broadly supportive of continued growth in household spending and business investment.”

In conjunction with the FOMC meeting, the Fed's board members and bank presidents submitted their projections for future real GDP growth, unemployment, and similar measures. They projected real growth in GDP in a range of 2.2 - 2.6% for 2018, and 1.9 - 2.3% for 2019, and an unemployment rate in a range of 3.7 - 4.0% for 2018 and 3.6 - 4.0% for 2019.

In summary, the U.S. economy appears to be growing sluggishly during a period of strengthening employment and mild inflation, which suggests to us that investors might anticipate favorable markets ahead, although certain signs of speculative excess, such as cryptocurrencies and growing systemic leverage, indicate a cautious approach might be in order for 2018.

Investment Strategy and Returns

In view of these economic and market developments, the Fund's strategy in 2017 was to focus on quality companies deemed by Midas Management Corporation (the "Investment Manager") to be undervalued. Generally, the Fund purchased and held equity securities in seeking to achieve its total return investment objective and sold investments that appeared to have appreciated to levels reflecting less potential for total return. In 2017, the Fund's net investment loss, net realized gain on investments, and unrealized appreciation on investments were, respectively, \$(96,755), \$568,166, and \$629,007, which contributed significantly to the Fund's net asset value return of 15.50%. Profitable sales in the period were made of, among others, part of the Fund's holding of Alphabet Inc. Class A shares in the business services sector and Cisco Systems, Inc. in the industrial and commercial machinery and computer equipment sector and losses were taken on, among others, Hibbett Sports, Inc. in the retail sector. Although no particular investment was responsible for the majority of the unrealized appreciation or depreciation on investments over the period, retailers Dick's Sporting Goods, Inc. and Bed Bath & Beyond Inc. were significant contributors to unrealized depreciation during the

TO OUR SHAREHOLDERS

period. At the same time, the Fund benefited from unrealized appreciation from its holdings of Pilgrim's Pride Corporation in the food and kindred products sector and The GAP, Inc. in the apparel and accessory stores sector.

The Fund's market return for 2017 was 16.76%. Generally, the Fund's total return on a market value basis will be higher than total return on a net asset value basis in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. For comparison, in the same period, the S&P 500 Index total return was 21.83%. This index is unmanaged and does not reflect fees and expenses, nor is it available for direct investment. At December 31, 2017, the Fund's portfolio included over 60 securities of different issuers, with the top ten amounting to approximately 35% of total assets. At that time, the Fund's investments totaled approximately \$10.2 million, reflecting the use of about \$2 million of leverage on net assets of about \$8.2 million. As the Fund pursues its investment objective of total return, these holdings and allocations are subject to change at any time.

Fund Website

The Fund's website, www.FoxbyCorp.com, provides investors with investment information, news, and other material about the Fund. The website also has links to SEC filings, performance data, and daily net asset value reporting. You are invited to use this excellent resource to learn more about the Fund.

Long Term Strategies

Our current view of financial conditions continues to suggest that Foxby Corp. may benefit during the current year from its flexible

portfolio approach, investing opportunistically in a variety of markets, and employing aggressive and speculative investment techniques as deemed appropriate. We thank you for investing in the Fund and share your enthusiasm for the Fund, as evidenced by the fact that affiliates of the Investment Manager own approximately 24% of the Fund's shares. We look forward to serving your investment needs over the years ahead.

Board of Directors

Bruce B. Huber announced his retirement and has resigned from the Board of the Fund effective January 29, 2018. Bruce agreed to join the Fund complex as an independent director on October 30, 1981 and over the years, he has given so much of his time, wisdom, and perspective, we shall remain deeply in his debt. We wish him the very best as he pursues his many, varied interests outside of the investment company world.

Sincerely,

Thomas B. Winmill

President and Co-Portfolio Manager

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES Foxby Corp. (the “Fund”), a Maryland corporation registered under the Investment Company Act of 1940, as amended (the “Act”), is a non-diversified, closed end management investment company whose shares are quoted over the counter under the ticker symbol FXBY. The Fund’s non-fundamental investment objective is total return which it may seek from growth of capital and from income in any security type and in any industry sector. The Fund retains Midas Management Corporation (the “Investment Manager”) as its investment manager.

As an investment company, the Fund follows the accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standard Codification Topic 946 “Financial Services – Investment Companies.” The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”), which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Subsequent events, if any, through the date that the financial statements were issued have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the Fund:

Valuation of Investments – Portfolio securities are valued by various methods depending on the primary market or exchange on which they trade. Most equity securities for which the primary market is in the United States are usually valued at the official closing price, last sale price or, if no sale has occurred, at the closing bid price. Most equity securities for which the primary market is outside the United States are usually valued using the official closing price or the last sale price in the principal market in which they are traded. If the last sale price on the local exchange is unavailable, the last evaluated quote or closing bid price normally is used. In the event of an unexpected closing of the primary market or exchange, a security may continue to trade on one or more other markets, and the price as reflected on those other trading venues may be more reflective of the security’s value than an earlier price from the primary market or exchange. Accordingly, the Fund may seek to use these additional sources of pricing data or information when prices from the primary market or exchange are unavailable, or are earlier and less representative of current market value. Certain debt securities may be priced through pricing services that may utilize a matrix pricing system which takes into consideration factors such as yields, prices, maturities, call features, and ratings on comparable securities or according to prices quoted by a securities dealer that offers pricing services. Open end investment companies are valued at their net asset value. Foreign securities markets may be open on days when the U.S.

markets are closed. For this reason, the value of any foreign securities owned by the Fund could change on a day when shareholders cannot buy or sell shares of the Fund. Securities for which market quotations are not readily available or reliable and other assets may be valued as determined in good faith by the Investment Manager’s Valuation Committee under the direction of or pursuant to procedures approved by the Fund’s Board of Directors, called “fair value pricing.” Due to the inherent uncertainty of valuation, fair value pricing values may differ from the values that would have been used had a readily available or reliable market quotation for the securities existed. These differences in valuation could be material. A security’s valuation may differ depending on the method used for determining value. The use of fair value pricing by the Fund may cause the net asset value of its shares to differ from the net asset value that would be calculated using market prices. A fair value price is an estimate and there is no assurance that such price will be at or close to the price at which a security is next quoted or next trades.

Foreign Currency Translation – Securities denominated in foreign currencies are translated into U.S. dollars at prevailing exchange rates. Realized gain or loss on sales of such investments in local currency terms is reported separately from gain or loss attributable to a change in foreign exchange rates for those investments.

Short Sales – The Fund may sell a security short it does not own in anticipation of a decline in the market value of the security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker/dealer through which it made the short sale. The Fund is liable for any dividends or interest paid on securities sold short. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, normally is recognized upon the termination of the short sale. Securities sold short result in off balance sheet risk as the Fund’s ultimate obligation to satisfy the terms of a sale of securities sold short may exceed the amount recognized in the Statement of Assets and Liabilities.

Derivatives – The Fund may use derivatives for a variety of reasons, such as to attempt to protect against possible changes in the value of its portfolio holdings or to generate potential gain. Derivatives are financial instruments that derive their values from other securities or commodities, or that are based on indices. Derivative instruments are marked to market with the change in value reflected in unrealized appreciation or depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a contract. In these instances, the recognition of gain or loss is postponed until the disposal of the security underlying the contract. Risk may arise

NOTES TO FINANCIAL STATEMENTS

Financial Statements

as a result of the potential inability of the counterparties to meet the terms of their contracts. Derivative instruments include written options, purchased options, futures contracts, forward foreign currency exchange contracts, and swap agreements.

Investments in Other Investment Companies – The Fund may invest in shares of other investment companies such as closed end funds, exchange traded funds, and mutual funds (each, an “Acquired Fund”) in accordance with the Act and related rules. Shareholders in the Fund bear the pro rata portion of the fees and expenses of the Acquired Funds in addition to the Fund’s expenses. Expenses incurred by the Fund that are disclosed in the Statement of Operations do not include fees and expenses incurred by the Acquired Funds. The fees and expenses of an Acquired Fund are reflected in such Acquired Fund’s total returns.

Investment Transactions – Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Realized gains or losses are determined by specifically identifying the cost basis of the investment sold.

Investment Income – Dividend income is recorded on the ex-dividend date or in the case of certain foreign securities, as soon as practicable after the Fund is notified. Interest income is recorded on the accrual basis. Amortization of premium and accretion of discount on corporate bonds and notes are included in interest income. Taxes withheld on foreign dividends have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and rates.

Expenses – Expenses deemed by the Investment Manager to have been incurred solely by the Fund are charged to the Fund. Expenses deemed by the Investment Manager to have been incurred jointly by the Fund and one or more of the other investment companies for which the Investment Manager, or its affiliates serve as investment manager, or other related entities, are allocated on the basis of relative net assets, except where a more appropriate allocation can be made fairly in the judgment of the Investment Manager.

Expense Reduction Arrangement – Through arrangements with the Fund’s custodian, credits realized as a result of uninvested cash balances are used to reduce custodian expenses. No credits were realized by the Fund during the years ended December 31, 2017 and 2016.

Distributions to Shareholders – Distributions to shareholders are determined in accordance with income tax regulations and are recorded on the ex-dividend date.

Income Taxes – No provision has been made for U.S. income taxes because the Fund’s current intention is to continue to qualify as a regulated investment company under the Internal Revenue Code (the “IRC”) and to distribute to its shareholders substantially all of its taxable income and net realized gains. Foreign securities held by the Fund may be subject to foreign taxation. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. The Fund has reviewed its tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to

uncertain tax positions taken on federal, state, and local income tax returns for open tax years (2014-2016) or expected to be taken in the Fund's 2017 tax returns.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities, and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

2. FEES AND TRANSACTIONS WITH RELATED PARTIES The Fund has retained the Investment Manager pursuant to an investment management agreement. Under the terms of the investment management agreement, the Investment Manager receives a fee payable monthly for investment advisory services at an annual rate of 0.95% of the Fund's Managed Assets. "Managed Assets" means the average weekly value of the Fund's total assets minus the sum of the Fund's liabilities, which liabilities exclude debt relating to leverage, short term debt, and the aggregate liquidation preference of any outstanding preferred stock.

Pursuant to the investment management agreement, the Fund reimburses the Investment Manager for providing at cost certain administrative services comprised of compliance and accounting services. For the year ended December 31, 2017, the Fund's reimbursements of such costs were \$11,310, of which \$7,290 and \$4,020 was for compliance and accounting services, respectively. Certain officers and directors of the Fund are officers and directors of the Investment Manager. As of December 31, 2017, affiliates of the Investment Manager owned approximately 24% of the Fund's outstanding shares.

NOTES TO FINANCIAL STATEMENTS

Financial Statements

The Fund compensates each director who is not an employee of the Investment Manager or its affiliates. These directors receive fees for service as a director from the Fund and the other investment companies for which the Investment Manager or its affiliates serve as investment manager. In addition, director out-of-pocket expenses are allocated to each fund for which the Investment Manager or its affiliates serve as investment manager on the basis of relative net assets, except where a more appropriate allocation can be made fairly in the judgment of the Investment Manager.

3. DISTRIBUTIONS TO SHAREHOLDERS AND DISTRIBUTABLE EARNINGS For the year ended December 31, 2017, there were no distributions paid to shareholders and for the year ended December 31, 2016, the Fund paid a distribution of \$26,101, comprised of \$4,700 and \$21,401 of net investment income and return of capital, respectively.

As of December 31, 2017, the components of distributable earnings on a tax basis were as follows:

Capital loss carryover	\$	(779,419)
Unrealized appreciation		1,432,518
	\$	653,099

Capital loss carryovers are calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryovers actually available for the Fund to utilize under the IRC and related regulations. Capital losses incurred in taxable years beginning after December 22, 2010 are allowed to be carried forward indefinitely and retain the character of the original loss. As a transition rule, post-enactment net capital losses are required to be utilized before pre-enactment net capital losses. During the year ended December 31, 2017, the Fund used \$442,079 of capital losses carryover due to expire in 2017. As of December 31, 2017, the Fund has a net capital loss carryover of \$779,419, comprised of short term losses, which expires in 2018.

GAAP requires certain components related to permanent differences of net assets to be classified differently for financial reporting than for tax reporting purposes. These differences have no effect on net assets or net asset value per share. These differences, which may result in distribution reclassifications, are primarily due to differences in partnership income, return of capital dividends, re-characterization of capital gain income, and timing of distributions. As of December 31, 2017, the Fund recorded the following financial reporting reclassifications to the net asset accounts to reflect those differences:

Accumulated	Accumulated Net	
Net Investment	Realized Loss	Paid
Income	on Investments	in Capital

\$87,680	\$1,207	\$(88,887)
----------	---------	------------

4. **VALUE MEASUREMENTS** GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities including securities actively traded on a securities exchange.

Level 2 – observable inputs other than quoted prices included in level 1 that are observable for the asset or liability which may include quoted prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

Level 3 – unobservable inputs for the asset or liability including the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for investments categorized in level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing investments are not an indication of the risk associated with investing in those securities.

The following is a description of the valuation techniques applied to the Fund’s major categories of assets and liabilities measured at fair value on a recurring basis:

Equity securities (common and preferred stock) – Most publicly traded equity securities are valued usually at the most recent official closing price, last sale price, evaluated quote, or closing bid price. To the extent these securities are actively traded and valuation adjustments are not applied, they may be categorized in level 1 of the fair value hierarchy. Equities on inactive markets or valued by reference to similar instruments may be categorized in level 2.

NOTES TO FINANCIAL STATEMENTS

Financial Statements

Restricted and/or illiquid securities – Restricted and/or illiquid securities for which quotations are not readily available or reliable may be valued with fair value pricing as determined in good faith by the Investment Manager under the direction of or pursuant to procedures approved by the Fund’s Board of Directors. Restricted securities issued by publicly traded companies are generally

Valued at a discount to similar publicly traded securities. Restricted or illiquid securities issued by nonpublic entities may be valued by reference to comparable public entities or fundamental data relating to the issuer or both or similar inputs. Depending on the relative significance of valuation inputs, these instruments may be categorized in either level 2 or level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of December 31, 2017 in valuing the Fund’s assets. Refer to the Schedule of Portfolio Investments for detailed information on specific investments.

ASSETS	Level 1	Level 2	Level 3	Total
Investments, at value				
Common stocks	\$ 9,908,737	\$ -	\$ 0	\$ 9,908,737
Master limited partnerships	37,830	-	-	37,830
Preferred stocks	141,106	-	87,298	228,404
Money market funds	43,965			
			-	-
				43,965
Total investments, at value	\$ 10,131,638	\$ -	\$ 87,298	\$ 10,218,936

There were no securities transferred from level 1 on December 31, 2016 to level 3 at December 31, 2017.

The following is a reconciliation of level 3 assets:

	Common Stocks	Preferred Stocks	Total
	\$ 727		
Balance at December 31, 2016		\$ 116,397	\$ 117,124
Payment of in-kind dividends	-	-	-
Change in unrealized appreciation	(727)	(29,099)	(29,826)
	\$ 0	\$ 87,298	\$ 87,298
Balance at December 31, 2017			
Net change in unrealized appreciation attributable to assets still held as level 3 at December 31, 2017	\$ (727)	\$ (29,099)	\$ (29,826)

Except to the extent of the receipt of payment of in-kind dividends from level 3 preferred stocks as shown above, there were no transfers into or out of level 3 assets during the period. Unrealized gains (losses) are included in the related amounts on investments in the Statement of Operations.

The Investment Manager, under the direction of or pursuant to procedures approved by the Fund's Board of Directors, considers various valuation techniques and inputs for valuing assets categorized within level 3 of the fair value hierarchy. These include, but are not limited to: the type of the security; the size of the asset; the initial cost of the security; the existence of any contractual

restrictions on the security's disposition; prices of and extent of public trading in similar securities of the issuer or of comparable companies; quotations or evaluated prices from broker-dealers and/or pricing services; information obtained from the issuer or analysts; an analysis of the company's or issuer's financial statements; an evaluation of the

forces that influence the issuer and the market in which the asset is purchased and sold; multiples of earnings, cash flow, enterprise value, and similar measures; and the discount rate for lack of marketability. Significant changes in any of those inputs in isolation may result in a significantly lower or higher fair value measurement. The pricing of all fair value assets is regularly reported to the Fund's Board of Directors.

The following table presents additional information about valuation techniques and inputs used for assets that are measured at fair value and categorized as level 3 as of December 31, 2017:

	Fair Value	Valuation Technique	Unobservable Input	Range
Common Stocks				
Retail - Consulting and Investment	\$ 0	Value of liquidation per share	Discount rate due to lack of marketability	80%
Preferred Stocks				
Retail - Consulting and Investment	\$ 87,298	Value of liquidation preference per share	Discount rate due to lack of marketability	80%

5. INVESTMENT TRANSACTIONS Purchases and proceeds from sales of investment securities, excluding short term securities, were \$3,832,535 and \$3,176,037, respectively, for the year ended December 31, 2017. As of December 31, 2017, for federal income tax purposes, the aggregate cost of securities was \$8,786,420 and net unrealized appreciation was \$1,432,518, comprised of gross unrealized appreciation of \$2,110,278 and gross unrealized depreciation of \$677,760.

6. ILLIQUID AND RESTRICTED SECURITIES The Fund owns securities which have a limited trading market and/or certain restrictions on trading and, therefore, may be considered illiquid and/or restricted. Such securities have been valued using fair value pricing. Due to the inherent uncertainty of valuation, fair value pricing values may differ from the values that would have been used had a readily available or reliable market quotation for the securities existed. These differences in valuation could be material. Illiquid and/or restricted securities owned as of December 31, 2017 were as follows:

	Acquisition Date	Cost	Value

		\$ 497,531	\$ 87,298
Amerivon Holdings LLC preferred shares	9/20/07		
common equity units	9/20/07	0	0
Total		\$ 497,531	\$ 87,298
Percent of net assets		5%	1%

7. LIQUIDITY AGREEMENT The Fund has a Liquidity Agreement (“LA”) with State Street Bank and Trust Company (“SSB”), the Fund’s custodian and securities lending agent. The LA allows the Fund to draw up to \$2 million (maximum liquidity commitment) and includes a securities lending authorization by the Fund to SSB to engage in agency securities lending and reverse repurchase activity.

Interest is charged on the drawn amount at the rate of one-month LIBOR (London Interbank Offered Rate) plus 1.20% per annum,

and is payable monthly. A non-usage fee is charged on the difference between the maximum liquidity commitment and the drawn amount at the rate of one-month LIBOR plus 0.07% per annum, and is payable monthly.

Generally, the Fund pledges its assets as collateral to secure its obligations under the LA and makes these assets available for securities lending and repurchase transactions initiated by SSB, although the Fund retains the risks and rewards of the ownership of assets pledged. Under the terms of the LA, the Fund may enter into securities lending transactions initiated by SSB, acting as the Fund’s authorized securities lending agent. All securities lent through SSB are required to be secured with cash collateral received from the securities lending counterparty in amounts at least equal to 100% of the initial market value of the securities lent. Cash collateral received by SSB, in its role as securities lending agent for the Fund, is credited against the amounts drawn under the LA. Any amounts credited against the LA are considered leverage and would be subject to various limitations in the LA and the Act, or both. Upon return of loaned securities, SSB will return collateral to the securities lending counterparty and may fund the amount of collateral returned through securities lending, repurchase, and/or other lending activities provided under the LA. Amounts paid by securities lending counterparties for loaned securities are retained by SSB.

In the event of a securities lending counterparty default, SSB is obligated to indemnify the Fund for certain losses that may arise in connection with the default and SSB may use the collateral received from the securities lending counterparty to purchase replacement securities of the same issue, type, class, and series of the loaned securities. If the value of the collateral is less than the purchase cost of the replacement securities, SSB is responsible for satisfying the shortfall but only to the extent that the shortfall is not due to any decrease in the value of the collateral. Although the risk of the loss of the securities lent can be mitigated by receiving collateral from

NOTES TO FINANCIAL STATEMENTS

Financial Statements

the securities lending counterparty and through SSB indemnification, the Fund could experience a delay in recovering securities or could experience a lower than expected return if the securities lending counterparty fails to return the securities on a timely basis.

The Fund or SSB may terminate the LA with 179 days' prior written notice to the other party absent a default or facility termination event. If certain asset coverage and collateral requirements, minimum net assets, or other covenants are not met, the LA could be deemed in default and be terminated. As of December 31, 2017 there were no lent securities and the outstanding loan balance and the value of assets pledged as collateral were \$2,000,000 and \$3,999,831, respectively. The weighted average interest rate and average daily amount outstanding under the LA for the year ended December 31, 2017 were 2.40% and \$565,178, respectively. The maximum amount outstanding during the year ended December 31, 2017 was \$2,000,000.

8. FOREIGN SECURITIES RISK Investments in the securities of foreign issuers involve special risks which include changes in foreign exchange rates and the possibility of future adverse political, tax, and economic developments which could adversely affect the value of such securities. Moreover, securities of foreign issuers and securities traded in foreign markets may be less liquid and their prices more volatile than those of U.S. issuers and markets. In addition, in certain foreign countries, there is the possibility of expropriation or confiscatory taxation, political, or social instability, or diplomatic developments that could affect U.S. investments in the securities of issuers domiciled in those countries.

9. LEVERAGE RISK The Fund from time to time may borrow under its LA to increase the assets in its investment portfolio over its net assets, a practice called leverage. Leverage borrowing creates an opportunity for increased return but, at the same time, involves special risk considerations. Leverage increases the likelihood of greater volatility of net asset value and market price of the Fund's shares. If the return that the Fund earns on the additional securities purchased fails to cover the interest and fees incurred on the monies borrowed, the net asset value of the Fund (and the return of the Fund) would be lower than if borrowing had not been incurred. In addition, when the Fund borrows at a variable interest rate, there is a risk that fluctuations in the interest rate may adversely affect the return to the Fund's shareholders. Interest payments and fees incurred in connection with such borrowings will reduce the amount of net income available for distribution to shareholders. There is no assurance that a borrowing strategy will be successful during any period in which it is employed. Borrowing on a secured basis results in certain additional risks. Should securities that are pledged as collateral to secure its obligations under the LA decline in value, the Fund may be required

to pledge additional assets in the form of cash or securities to the lender to avoid liquidation of the pledged assets. In the event of a steep drop in the value of pledged securities, it might not be possible to liquidate assets quickly enough and this could result in mandatory liquidation of the pledged assets in a declining market at relatively low prices. Furthermore, the Investment Manager's ability to sell the pledged securities is limited by the terms of the LA, which may reduce the Fund's investment flexibility over the pledged securities. Because the fee paid to the Investment Manager is calculated on the basis of the average weekly value of the Fund's total assets minus the sum of the Fund's liabilities, which liabilities exclude debt relating to leverage, short term debt and the aggregate liquidation preference

of any outstanding preferred stock, the dollar amount of the management fee paid by the Fund to the Investment Manager will be higher (and the Investment Manager will benefit to that extent) when leverage is utilized.

10. CYBERSECURITY RISK With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its net asset value, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional related costs.

11. CAPITAL STOCK As of December 31, 2017, there were 2,610,050 shares of \$.01 par value common stock outstanding and 500,000,000 shares authorized. There were no transactions in capital stock during the years ended December 31, 2017 and 2016.

12. SHARE REPURCHASE PROGRAM In accordance with Section 23(c) of the Act, the Fund may from time to time repurchase its shares in the open market at the discretion of and upon such terms as determined by the Board of Directors. The Fund did not repurchase any of its shares during the years ended December 31, 2017 and 2016.

13. CONTINGENCIES The Fund indemnifies its officers and directors from certain liabilities that might arise from their performance of their duties for the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which may provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as it involves future claims that may be made against the Fund under circumstances that have not occurred.

14. OTHER INFORMATION The Fund may at times raise cash for investment by issuing shares through one or more offerings, including rights offerings. Proceeds from any such offerings will be invested in accordance with the investment objective and policies of the Fund.

15. ACCOUNTING PRONOUNCEMENTS In October 2016, the Securities and Exchange Commission (“SEC”) adopted investment

company reporting modernization reforms which, among other things, amend Regulation S-X (“Regulation S-X Amendments”) to require standardized, enhanced disclosures, particularly related to derivatives, in investment company financial statements. The compliance date for the Regulation S-X Amendments is for reporting period end dates on or after August 1, 2017. The impact of the Regulation S-X Amendments had no effect on the Fund’s net assets or results of operations.

(2)

Total return on a market value basis is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan if in effect or, if there is no plan in effect, at the lower of the per share net asset value or the closing market price of the Fund's shares on the dividend/distribution date. Generally, total return on a net asset value basis will be higher than total return on a market value basis in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total return on a net asset value basis will be lower than total return on a market value basis in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. The calculation does not reflect brokerage commissions, if any.

(3) The ratio of expenses excluding loan interest and fees from the use of leverage to average net assets was 2.62%, 2.68%, 2.29%, 1.86%, and 1.60% for the years ended December 31, 2017, 2016, 2015, 2014, and 2013, respectively.

(4) Represents the value of total assets less liabilities not represented by senior securities representing indebtedness divided by the total number of senior indebtedness units, where one unit equals \$1,000 of senior indebtedness. For purposes of this calculation, the LA is considered a senior security representing indebtedness.

REPORT OF INDEPENDENT REGISTERED ACCOUNTING FIRM

Financial
Statements

To the Shareholders and Board of Directors of

Foxby Corp.

New York, New York

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Foxby Corp. (the “Fund”), including the schedule of investments, as of December 31, 2017, the related statement of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2017, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the Fund’s auditor since 2002.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2017 by correspondence with the custodian. We believe that our audits provide a

reasonable basis for our opinion.

Exclusive Forum

In October 2017, the Fund's bylaws ("Bylaws") were amended to provide that, unless the Fund consents in writing to the selection of an alternative forum, the Circuit Court for Baltimore City, Maryland (or, in the event that the Circuit Court does not have jurisdiction, other state courts of the State of Maryland or, if no state court located within the State of Maryland has jurisdiction, the United States District Court for the District of Maryland, Baltimore Division) shall, to the fullest extent permitted by law, be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Fund, (ii) any action asserting a claim of breach of any duty owed by any director or officer or other employee of the Fund to the Fund or to the stockholders of the Fund, (iii) any action asserting a claim against the Fund or any director or officer or other employee of the Fund arising pursuant to any provision of the Maryland General Corporation Law, the Fund's charter or the Bylaws, (iv) any action to interpret, apply, enforce or determine the validity of the Fund's charter or the Bylaws, or (v) any action asserting a claim against the Fund or any director or officer or other employee of the Fund that is governed by the internal affairs doctrine. The Bylaws further provide that, if any such action is filed in a court other than a court located within the State of Maryland (a "Foreign Action") in the name of any stockholder, such stockholder shall be deemed to have consented to (i) the personal jurisdiction of the state and federal courts located within the State of Maryland in connection with any action brought in any such court to enforce this provision, and (ii) having service of process made upon such stockholder in any such action by service upon such stockholder's counsel in the Foreign Action as agent for such stockholder.

The provisions of the Bylaws described above could have the effect of depriving the owners of shares in the Fund of opportunities to sell their shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control of the Fund in a tender offer or similar transaction or bringing litigation against the Fund and/or any director, officer, employee or affiliate thereof. The overall effect of these provisions is to render more difficult the accomplishment of a merger or the assumption of control by a principal stockholder.

The foregoing summary is subject to the Bylaws and other governing documents of the Fund, which are on file with the SEC and available on the Fund's website <http://www.foxbycorp.com>.

Please Note - There is no assurance that the Fund's investment objective will be attained. Past performance is no guarantee of future results. GENERAL INFORMATION, POLICIES, AND UPDATES

Additional Information

Shares of closed end funds frequently trade at a discount from their Net Asset Value (“NAV”). This characteristic is a risk separate and distinct from the risk that the Fund’s NAV could decrease as a result of its investment activities. Neither the Fund nor its Investment Manager can predict whether shares of the Fund will trade at, below, or above NAV. The risk of holding shares of the Fund that might trade at a discount is more pronounced for investors expecting to sell their shares in a relatively short period of time after acquiring them because, for those investors, realization of a gain or loss on their investments is likely to be more dependent upon the existence of a premium or discount than upon portfolio performance. The shares of the Fund are designed primarily for long term investors and should not be considered a vehicle for trading purposes. The NAV of the Fund shares typically will fluctuate with price changes of the Fund’s portfolio securities, and these fluctuations are likely to be greater in the case of a fund which uses leverage, as the Fund may from time to time. In the event that shares of the Fund trade at a premium to NAV, there is no assurance that any such premium will be sustained for any period of time and will not decrease, or that the shares of the Fund will not trade at a discount to NAV thereafter. The market price for the Fund is based on supply and demand which fluctuates daily based on many factors, such as economic conditions and global events, investor sentiment, and security-specific factors.

This report, including the financial statements herein, is provided for informational purposes only. This is not a prospectus, circular, or representation intended for use in the purchase of shares of the Fund or any securities mentioned in this report. This report shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of, these securities in any state in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of any such state, or an exemption therefrom.

The Fund does not make available copies of its Statement of Additional Information because the Fund’s shares are not continuously offered, which means that the Fund’s Statement of Additional Information has not been updated since completion of the Fund’s most recent offering and the information contained in the Fund’s Statement of Additional Information may have become outdated.

Investment products, including shares of the Fund, are not federally or FDIC insured, are not deposits or obligations of, or guaranteed by, any financial institution and involve investment risk, including possible loss of principal and fluctuation in value. Consult with your tax advisor or attorney regarding specific tax issues.

Cautionary Note Regarding Forward Looking Statements - Certain information presented in this report may contain “forward looking statements” within the meaning of the federal securities laws, including the Private Securities Litigation Reform Act of 1995. Forward looking statements include, but are not limited to, statements concerning the Fund’s plans, objectives, goals, strategies, future events, future performance, intentions, and other information that is not historical information. In some cases, forward looking statements can be identified by terminology such as “believes,” “expects,” “estimates,” “may,” “will,” “should,” “anticipates,” or “intends,” or the negative of such terms or other comparable terminology, or by discussions of strategy. All forward looking statements by the Fund involve known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Fund, which may cause the Fund’s actual results to be materially different from those expressed or implied by such statements. The Fund may also make additional forward looking statements from time to time. All such subsequent forward looking

statements, whether written or oral, by the Fund or on its behalf, are also expressly qualified by these cautionary statements. Investors should carefully consider the risks, uncertainties, and other factors, together with all of the other information included in the Fund's filings with the SEC, and similar information. All forward looking statements apply only as of the date made. The Fund undertakes no obligation to publicly update or revise forward looking statements which may be made to reflect events or circumstances after the date made or to reflect the occurrence of unanticipated events.

Section 23 Notice - Pursuant to Section 23 of the Investment Company Act of 1940, as amended, notice is hereby given that the Fund may in the future purchase its own shares in the open market. These purchases may be made from time to time, at such times, and in such amounts, as may be deemed advantageous to the Fund, although nothing herein shall be considered a commitment to purchase such shares.

PRINTED ON RECYCLED PAPER

Item 2. Code of Ethics.

- The registrant has adopted a code of ethics (the "Code") that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (a) financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
 - (b) No information need be disclosed pursuant to this paragraph.
 - (c) Not applicable.
 - (d) Not applicable.
 - (e) Not applicable.
 - (f) The text of the Code can be viewed on the registrant's website, www.foxbycorp.com, or a copy of the Code may be obtained free of charge by calling the registrant collect at 1-212-785-0900.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Directors has determined that it has two "audit committee financial experts" serving on its audit committee, each of whom are "independent" Directors: Jon Tómasson and Peter K. Werner. Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and Board of Directors in the absence of such designation or identification. The designation or identification of a person as an audit committee financial expert pursuant to this Item does not affect the duties, obligations, or liability of any other member of the audit committee or Board of Directors.

Item 4. Principal Accountant Fees and Services.

- The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years are as follows:

AUDIT FEES

2017 - \$14,500

2016 - \$14,750

- The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item are as follows:

AUDIT-RELATED FEES

2017 - \$2,000
2016 - \$1,500

Audit-related fees include amounts reasonably related to the performance of the audit of the registrant's financial statements, including the issuance of a report on internal controls and review of periodic reporting.

- (c) The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning are as follows:

TAX FEES

2017 - \$4,500
2016 - \$4,500

Tax fees include amounts related to tax compliance, tax planning, and tax advice.

- (d) The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item are as follows:

ALL OTHER FEES

2017 - \$0
2016 - \$0

All other fees consist of the aggregate fees billed for products and services provided by the principal accountant other than audit, audit-related, and tax services.

- (1) Pursuant to the registrant's Audit Committee Charter, the Audit Committee shall consider for pre-approval any audit and non-audit services proposed to be provided by the auditors to the registrant and any non-audit services proposed to be provided by such auditors to the registrant's Investment Manager, if the engagement relates directly to the registrant's operations or financial reporting. In those situations when it is not convenient to obtain full Audit Committee approval, the Chairman of the Audit Committee is delegated the authority to grant pre-approvals of audit, audit-related, tax, and all other services so long as all such pre-approved decisions are reviewed with the full Audit Committee at its next scheduled meeting. Such pre-approval of non-audit services proposed to be provided by the auditors to the registrant is not necessary, however, under the following circumstances: (1) all such services do not aggregate to more than 5% of total revenues paid by the registrant to the auditor in the fiscal year in which services are provided, (2) such services were not recognized as non-audit services at the time of the engagement, and (3) such services are brought to the attention of the Audit Committee, and approved by the Audit Committee, prior to the completion of the audit.
- (e)

(2) No services included in (b) - (d) above were approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

- (f) Not applicable.

- (g)

Edgar Filing: FOXBY CORP. - Form N-CSR

The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant were \$31,500 in 2017 and \$31,000 in 2016.

(h) The registrant's audit committee has determined that the provision of non-audit services that were rendered by accountant to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

The registrant has a standing audit committee. Currently, the members of the audit committee are Jon Tómasson and Peter K. Werner.

Item 6. Investments.

Included as part of the report to shareholders filed under Item 1 of this Form.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The registrant's proxy voting policies and procedures are set forth below.

AMENDED PROXY VOTING POLICIES AND PROCEDURES

Each of Midas Series Trust, on behalf of Midas Fund and Midas Magic, Dividend and Income Fund and Foxby Corp. (each, a "Fund," and together, the "Funds") will seek to vote its proxies in its own best interests, and without regard to the best interests of such Fund's investment manager.

1. Delegation to Proxy Service Provider

Each Fund delegates the responsibility for voting proxies of portfolio companies held in such Fund's portfolio to Institutional Shareholder Services (the "Proxy Firm"). A concise summary of the Proxy Voting Guidelines of the Proxy Firm (see attached) is incorporated by reference herein as each Fund's proxy voting policies and procedures, as supplemented by the terms hereof. Each Fund retains the right to override the delegation to the Proxy Firm on a case-by-case basis, in which case the ADDENDUM – NON-DELEGATED PROXY VOTING POLICIES AND PROCEDURES supersede the Proxy Voting Guidelines of the Proxy Firm in their entirety.

2. Conflicts of Interest

With respect to a vote upon which a Fund overrides the delegation to the Proxy Firm, to the extent that such vote presents a material conflict of interest between the Fund and its investment manager or any affiliated person of the investment manager, the Fund normally will disclose such conflict to, and obtain consent from, the Independent Trustees or Directors, as applicable, or a committee thereof, prior to voting the proxy. Such material conflicts may arise, for example, from the following relationships: (i) the issuer is an investor in a Fund; (ii) the issuer has a material business relationship with a Fund; (iii) the proponent of a proxy proposal has a business relationship with the

Fund; (iv) a Fund has material business relationships with candidates for director in a proxy contest; or (v) an employee of a Fund or its affiliates has a personal interest in the outcome of a particular matter. This list provides examples of possible conflicts of interest and is not meant to be comprehensive. Each employee must notify the Funds' Chief Compliance Officer of any potential conflicts of interest of which he or she is aware.

In addition, if the Fund becomes aware of a material conflict of interest between the Proxy Firm and a portfolio company, the Fund will determine, on a case-by-case basis, whether to override the delegation to the Proxy Firm.

3. Review of and Response to Errors

If a Fund becomes aware of any material errors made by the Proxy Firm, it will take reasonable steps to investigate the error and seek to determine whether the Proxy Firm is taking reasonable steps to seek to reduce similar errors in the future. The Fund will document responsive actions taken in connection with any material errors made by the Proxy Firm.

4. Ongoing Due Diligence

On at least an annual basis, the Funds will:

- i. Review the adequacy of these proxy voting policies and procedures;
- ii. Assess whether the Proxy Firm has properly submitted the voting instructions on behalf of the Funds;
- iii. Review the Proxy Voting Guidelines of the Proxy Firm; and
- iv. Request the Proxy Firm to provide information about, among other things, changes to its policies and procedures.

ADDENDUM

NON-DELEGATED PROXY VOTING POLICIES AND PROCEDURES

These proxy voting policies and procedures are intended to provide general guidelines regarding the issues they address. As such, they cannot be "violated." In each case the vote generally will be based on maximizing shareholder value over the long term, as consistent with overall investment objectives and policies.

Board and Governance Issues

Board of Director Composition

Typically, we will not object to slates with at least a majority of independent directors.

We generally will not object to shareholder proposals that request that the board audit, compensation and/or nominating committees include independent directors exclusively.

Approval of IRPAF

We will evaluate on a case-by-case basis instances in which the audit firm has a significant audit relationship with the company to determine whether we believe independence has been compromised.

Edgar Filing: FOXBY CORP. - Form N-CSR

We will review and evaluate the resolutions seeking ratification of the auditor when fees for financial systems design and implementation substantially exceed audit and all other fees, as this can compromise the independence of the auditor.

We will carefully review and evaluate the election of the audit committee chair if the audit committee recommends an auditor whose fees for financial systems design and implementation substantially exceed audit and all other fees, as this can compromise the independence of the auditor.

Increase Authorized Common Stock

We will generally support the authorization of additional common stock necessary to facilitate a stock split.

We will generally support the authorization of additional common stock.

Blank Check Preferred Stock

Blank check preferred is stock with a fixed dividend and a preferential claim on company assets relative to common shares. The terms of the stock (voting, dividend and conversion rights) are determined at the discretion of the Board when the stock is issued. Although such an issue can in theory be used for financing purposes, often it has been used in connection with a takeover defense. Accordingly, we will generally evaluate the creation of blank check preferred stock.

Classified or "Staggered" Board

On a classified (or staggered) board, directors are divided into separate classes (usually three) with directors in each class elected to overlapping three-year terms. Companies argue that such boards offer continuity in direction which promotes long-term planning. However, in some instances they may serve to deter unwanted takeovers since a potential buyer would have to wait at least two years to gain a majority of board seats.

We will vote on a case-by-case basis on issues involving classified boards.

Supermajority Vote Requirements

Supermajority vote requirements in a company charter or bylaws require a level of voting approval in excess of simple majority. Generally, supermajority provisions require at least 2/3 affirmative vote for passage of issues.

We will vote on a case-by-case basis regarding issues involving supermajority voting.

Restrictions on Shareholders to Act by Written Consent

Written consent allows shareholders to initiate and carry out a shareholder action without waiting until the annual meeting or by calling a special meeting. It permits action to be taken by the written consent of the same percentage or outstanding shares that would be required to effect the proposed action at a shareholder meeting.

We will generally not object to proposals seeking to preserve the right of shareholders to act by written consent.

Restrictions on Shareholders to Call Meetings

We will generally not object to proposals seeking to preserve the right of the shareholders to call meetings.

Limitations, Director Liability and Indemnification

Because of increased litigation brought against directors of corporations and the increase costs of director liability insurance, many states have passed laws limiting director liability for those acting in good faith. Shareholders, however, often must opt into such statutes. In addition, many companies are seeking to add indemnification of directors to corporate bylaws.

We will generally support director liability and indemnification resolutions because it is important for companies to be able to attract the most qualified individuals to their boards.

Reincorporation

Corporations are in general bound by the laws of the state in which they are incorporated. Companies reincorporate for a variety of reasons including shifting incorporation to a state where the company has its most active operations or corporate headquarters, or shifting incorporation to take advantage of state corporate takeovers laws.

We typically will not object to reincorporation proposals.

Cumulative Voting

Cumulative voting allows shareholders to cumulate their votes behind one or a few directors running for the board that is, cast more than one vote for a director thereby helping a minority of shareholders to win board representation. Cumulative voting generally gives minority shareholders an opportunity to effect change in corporate affairs.

We typically will not object to proposals to adopt cumulative voting in the election of directors.

Dual Classes of Stock

In order to maintain corporate control in the hands of a certain group of shareholders, companies may seek to create multiple classes of stock with differing rights pertaining to voting and dividends.

We will vote on a case-by-case basis dual classes of stock. However, we will typically not object to dual classes of stock.

Limit Directors Tenure

In general, corporate directors may stand for re-election indefinitely. Opponents of this practice suggest that limited tenure would inject new perspectives into the boardroom as well as possibly creating room for directors from diverse backgrounds; however, continuity is important to corporate leadership and in some instances alternative means may be explored for injecting new ideas or members from diverse backgrounds into corporate boardrooms.

Accordingly, we will vote on a case-by-case basis regarding attempts to limit director tenure.

Minimum Director Stock Ownership

The director share ownership proposal requires that all corporate directors own a minimum number of shares in the corporation. The purpose of this resolution is to encourage directors to have the same interest as other shareholders.

We normally will not object to resolutions that require corporate directors to own shares in the company.

Executive Compensation

Disclosure of CEO, Executive, Board and Management Compensation

On a case-by-case basis, we will support shareholder resolutions requesting companies to disclose the salaries of top management and the Board of Directors.

Compensation for CEO, Executive, Board and Management

We typically will not object to proposals regarding executive compensation if we believe the compensation clearly does not reflect the current and future circumstances of the company.

Formation and Independence of Compensation Review Committee

We normally will not object to shareholder resolutions requesting the formation of a committee of independent directors to review and examine executive compensation.

Stock Options for Board and Executives

We will generally review the overall impact of stock option plans that in total offer greater than 25% of shares outstanding because of voting and earnings dilution.

We will vote on a case-by-case basis option programs that allow the repricing of underwater options.

In most cases, we will oppose stock option plans that have option exercise prices below the marketplace on the day of the grant.

Generally, we will support options programs for outside directors subject to the same constraints previously described.

Employee Stock Ownership Plan (ESOPs)

We will generally not object to ESOPs created to promote active employee ownership. However, we will generally oppose any ESOP whose purpose is to prevent a corporate takeover.

Changes to Charter or By-Laws

We will conduct a case-by-case review of the proposed changes with the voting decision resting on whether the proposed changes are in shareholder best interests.

Confidential Voting

Typically, proxy voting differs from voting in political elections in that the company is made aware of shareholder votes as they are cast. This enables management to contact dissenting shareholders in an attempt to get them to change their votes.

We generally will not object to confidential voting.

Equal Access to Proxy

Equal access proposals ask companies to give shareholders access to proxy materials to state their views on contested issues, including director nominations. In some cases they would actually allow shareholders to nominate directors. Companies suggest that such proposals would make an increasingly complex process even more burdensome.

In general, we will not oppose resolutions for equal access proposals.

Golden Parachutes

Golden parachutes are severance payments to top executives who are terminated or demoted pursuant to a takeover. Companies argue that such provisions are necessary to keep executives from "jumping ship" during potential takeover attempts.

We will not object to the right of shareholders to vote on golden parachutes because they go above and beyond ordinary compensation practices. In evaluating a particular golden parachute, we will examine if considered material total management compensation, the employees covered by the plan, and the quality of management and all other factors deemed pertinent.

Mergers and Acquisitions

Mergers, Restructuring and Spin-offs

A merger, restructuring, or spin-off in some way affects a change in control of the company assets. In evaluating the merit of each issue, we will consider the terms of each proposal. This will include an analysis of the potential long-term value of the investment.

On a case by case basis, we will review management proposals for merger or restructuring to determine the extent to which the transaction appears to offer fair value and other proxy voting policies stated are not violated.

Poison Pills

Poison pills (or shareholder rights plans) are triggered by an unwanted takeover attempt and cause a variety of events to occur which may make the company financially less attractive to the suitor. Typically, directors have enacted these plans without shareholder approval. Most poison pill resolutions deal with putting poison pills up for a vote or repealing them altogether.

We typically will not object to most proposals to put rights plans up for a shareholder vote. In general, poison pills will be reviewed for the additional value provided to shareholders, if any.

Anti-Greenmail Proposals

Greenmail is the payment a corporate raider receives in exchange for his/her shares. This payment is usually at a premium to the market price, so while greenmail can ensure the continued independence of the company, it discriminates against other shareholders.

We generally will support anti-greenmail provisions.

Opt-Out of State Anti-takeover Law

A strategy for dealing with anti-takeover issues has been a shareholder resolution asking a company to opt-out of a particular state anti-takeover laws.

We generally will not object to bylaws changes requiring a company to opt out of state anti-takeover laws. Resolutions requiring companies to opt into state anti-takeover statutes generally will be subject to further review for appropriateness.

Other Situations

In the event an issue is not addressed in the above guidelines, we will determine on a case-by-case basis any proposals that may arise from management or shareholders. To the extent that a proposal from management does not infringe on shareholder rights, we will generally support management position. We may also elect to abstain or not vote on any given matter.
