CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

All statements, other than statements of current or historical fact, contained in this filing are forward-looking statements. We have attempted to identify these statements by terminology including “believe,” “anticipate,” “plan,” “expect,” “estimate,” “intend,” “seek,” “target,” “goal,” “may,” “will,” “should,” “can,” “continue” and other similar words or expressions in connection with, among other things, any discussion of future operating or financial performance. In particular, these statements include statements about our market opportunity, our growth strategy, competition, expected activities and future acquisitions, investments and the adequacy of our available cash resources. These statements may be found in the various sections of this filing, including those entitled “Management's Discussion and Analysis of Financial Condition and Results of Operations,” Part II, Item 1A. “Risk Factors,” and Part II, Item I “Legal Proceedings.” Readers are cautioned that matters subject to forward-looking statements involve known and unknown risks and uncertainties, including economic, regulatory, competitive and other factors that may cause our or our industry’s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions.

All forward-looking statements included in this filing are based on information available to us on the date of this filing and we undertake no obligation to update or revise the forward-looking statements included in this filing, whether as a result of new information, future events or otherwise, after the date of this filing. Actual results may differ from projections or estimates due to a variety of important factors, including but not limited to:

- our ability to accurately predict and effectively manage health benefits and other operating expenses and reserves;
- competition;
- membership and revenue projections;
- timing of regulatory contract approval;
- changes in healthcare practices;
- changes in federal or state laws or regulations, including the Patient Protection and Affordable Care Act and the Health Care and Education Affordability Reconciliation Act and any regulations enacted thereunder;
- changes in expected contract start dates;
- changes in expected closing dates, estimated purchase price and accretion for acquisitions;
- inflation;
- provider and state contract changes;
- new technologies;
- advances in medicine;
- reduction in provider payments by governmental payors;
- major epidemics;
- disasters and numerous other factors affecting the delivery and cost of healthcare;
- the expiration, cancellation or suspension of our Medicare or Medicaid managed care contracts by federal or state governments;
- the outcome of pending legal proceedings;
- availability of debt and equity financing, on terms that are favorable to us; and
- general economic and market conditions.

Other Information

The discussion in Part I, Item 2. "Management’s Discussion and Analysis of Financial Condition and Results of Operations" under the heading "Results of Operations" contains financial information for new and existing businesses. Existing businesses are primarily state markets, significant geographic expansion in an existing state or product that we have managed for four complete quarters. New businesses are primarily new state markets, significant geographic expansion in an existing state or product that conversely, we have not managed for four complete quarters.

Non-GAAP Financial Presentation

The Company is providing certain non-GAAP financial measures in this report as the Company believes that these figures are helpful in allowing individuals to more accurately assess the ongoing nature of the Company's operations and measure the Company's performance more consistently. The Company uses the presented non-GAAP financial measures internally to allow management to focus on period-to-period changes in the Company's core business operations. Therefore, the Company believes that this information is meaningful in addition to the information contained in the GAAP presentation of financial information. The presentation of this additional non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP.

Table of Contents

CENTENE CORPORATION AND SUBSIDIARIES
 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share data)
 (Unaudited)

1. Basis of Presentation

The accompanying interim financial statements have been prepared under the presumption that users of the interim financial information have either read or have access to the audited financial statements included in the Form 10-K for the fiscal year ended December 31, 2013. The unaudited interim financial statements herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, footnote disclosures which would substantially duplicate the disclosures contained in the December 31, 2013 audited financial statements have been omitted from these interim financial statements where appropriate. In the opinion of management, these financial statements reflect all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the results of the interim periods presented.

Certain 2013 amounts in the notes to the consolidated financial statements have been reclassified to conform to the 2014 presentation. These reclassifications have no effect on net earnings or stockholders' equity as previously reported.

2. Acquisition: U.S. Medical Management

In January 2014, the Company acquired 68% of U.S. Medical Management, LLC (USMM), a management services organization and provider of in-home health services for high acuity populations, for \$213,664 in total consideration. The transaction consideration was financed through a combination of \$132,686 of Centene common stock and \$80,978 of cash.

The total fair value of 100% of USMM on the date of acquisition was \$329,689 (\$213,664 for the Company's interest and \$116,025 for the redeemable noncontrolling interest). The Company's preliminary allocation of fair value resulted in goodwill of \$294,074 and other identifiable intangible assets of \$40,170. Approximately 70% of the goodwill is deductible for income tax purposes. The Company has not finalized the allocation of the fair value of assets and liabilities. The acquisition is recorded in the Specialty Services segment.

In connection with the acquisition, the Company entered into call and put agreements with the noncontrolling interest holder to purchase the noncontrolling interest at a later date. Under these agreements, the Company may purchase or be required to purchase up to the total remaining interests in USMM over a period beginning in 2015 and continuing through 2017. Under certain circumstances, the agreements may be extended through 2020. At the Company's sole option, up to 50% of the consideration to be issued for the purchase of the additional interests under these agreements may be funded with shares of the Company's common stock.

As a result of the put option agreement, the noncontrolling interest is considered redeemable and is classified in the Redeemable Noncontrolling Interest section of the consolidated balance sheet. The noncontrolling interest was initially measured at fair value using the binomial lattice model as of the acquisition date. The Company has elected to accrete changes in the redemption value through additional paid-in capital over the period from the date of issuance to the earliest redemption date following the effective interest method.

A reconciliation of the changes in the Redeemable Noncontrolling Interest is as follows:

Balance, December 31, 2013	\$—
Fair value of noncontrolling interest at acquisition	116,025
Contribution from noncontrolling interest	5,407

Edgar Filing: CENTENE CORP - Form 10-Q

Net losses attributable to noncontrolling interest	(1,761)
Balance, June 30, 2014	\$ 119,671

6

Table of Contents

3. Discontinued Operations: Kentucky Spirit Health Plan

In October 2012, the Company notified the Kentucky Cabinet for Health and Family Services (Cabinet) that it was exercising a contractual right that it believes allowed the Company to terminate its Medicaid managed care contract with the Commonwealth of Kentucky (Commonwealth) effective July 5, 2013. As of July 6, 2013, our subsidiary, Kentucky Spirit Health Plan (KSHP), ceased serving Medicaid members in Kentucky. Refer to Note 11, Contingencies, in the Notes to the Consolidated Financial Statements for further information regarding litigation between the Company and the Cabinet.

The results of operations of KSHP are presented as discontinued operations for all periods presented. The assets, liabilities and results of operations of KSHP are classified as discontinued operations for all periods presented beginning in 2011. KSHP was previously reported in the Managed Care segment.

During the six months ended June 30, 2014, the Company received \$8,000 of dividends from KSHP. KSHP had remaining statutory capital of approximately \$72,400 at June 30, 2014, which, subject to future dividends, will be transferred to unregulated cash upon regulatory approval.

Operating results for the discontinued operations are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,		
	2014	2013	2014	2013	
Revenues	\$—	\$115,407	\$—	\$235,816	
Earnings (loss) before income taxes	3,141	(1,503) 2,300	(792)
Net earnings (loss)	1,680	(805) 847	(442)

The net earnings from discontinued operations for the three and six months ended June 30, 2014 includes \$894 and \$1,788, respectively, of health insurer fee expense based on 2013 premium.

Assets and liabilities of the discontinued operations are as follows:

	June 30, 2014	December 31, 2013
Current assets	\$72,839	\$77,512
Long term investments and restricted deposits	26,430	38,305
Assets of discontinued operations	\$99,269	\$115,817
Medical claims liability	\$14,251	\$27,637
Accounts payable and accrued expenses	10,391	2,657
Other liabilities	451	1,028
Liabilities of discontinued operations	\$25,093	\$31,322

Variable rate demand notes	18,000	—	—	18,000	28,575	—	—	28,575
Asset backed securities	179,418	636	(69)	179,985	138,803	579	(332)	139,050
Mortgage backed securities	47,113	1,157	—	48,270	33,974	—	(83)	33,891
Cost and equity method investments	38,087	—	—	38,087	22,239	—	—	22,239
Life insurance contracts	15,545	—	—	15,545	15,369	—	—	15,369
Total	\$1,198,999	\$7,414	\$(3,658)	\$1,202,755	\$945,129	\$4,788	\$(8,945)	\$940,972

The Company's investments are classified as available-for-sale with the exception of life insurance contracts and certain cost and equity method investments. The Company's investment policies are designed to provide liquidity, preserve capital and maximize total return on invested assets with the focus on high credit quality securities. The Company limits the size of investment in any single issuer other than U.S. treasury securities and obligations of U.S. government corporations and agencies. The Company's mortgage backed securities are issued by the Federal National Mortgage Association and carry guarantees by the U.S. government. As of June 30, 2014, 53% of the Company's investments in securities recorded at fair value that carry a rating by S&P or Moody's were rated AAA/Aaa, 65% were rated AA-/Aa3 or higher, and 93% were rated A-/A3 or higher. At June 30, 2014, the Company held certificates of deposit, life insurance contracts and cost and equity method investments which did not carry a credit rating.

Table of Contents

The fair value of available-for-sale investments with gross unrealized losses by investment type and length of time that individual securities have been in a continuous unrealized loss position were as follows:

	June 30, 2014				December 31, 2013			
	Less Than 12 Months		12 Months or More		Less Than 12 Months		12 Months or More	
	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value
U.S. Treasury securities and obligations of U.S. government corporations and agencies	\$(18)	\$11,987	\$(3,331)	\$179,105	\$(6,188)	\$172,365	\$(1,307)	\$26,454
Corporate securities	(149)	56,343	(17)	985	(400)	52,725	(207)	5,020
Municipal securities:								
General obligation	—	—	(22)	3,476	(72)	3,480	(63)	2,426
Pre-refunded Revenue	(10)	1,034	—	—	—	—	—	—
Asset backed securities	—	—	—	—	(333)	37,689	—	—
Mortgage backed securities	(3)	9,969	(66)	15,706	(83)	33,891	—	—
Total	\$(180)	\$79,333	\$(3,478)	\$202,685	\$(7,368)	\$327,939	\$(1,577)	\$33,900

As of June 30, 2014, the gross unrealized losses were generated from 51 positions out of a total of 323 positions. The change in fair value of fixed income securities is a result of movement in interest rates subsequent to the purchase of the security.

For each security in an unrealized loss position, the Company assesses whether it intends to sell the security or if it is more likely than not the Company will be required to sell the security before recovery of the amortized cost basis for reasons such as liquidity, contractual or regulatory purposes. If the security meets this criterion, the decline in fair value is other-than-temporary and is recorded in earnings. The Company does not intend to sell these securities prior to maturity and it is not likely that the Company will be required to sell these securities prior to maturity; therefore, there is no indication of other than temporary impairment for these securities.

The contractual maturities of short-term and long-term investments and restricted deposits are as follows:

	June 30, 2014				December 31, 2013			
	Investments		Restricted Deposits		Investments		Restricted Deposits	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value	Amortized Cost	Fair Value	Amortized Cost	Fair Value
One year or less	\$126,496	\$127,348	\$60,665	\$60,665	\$101,537	\$102,126	\$40,633	\$40,637
One year through five years	855,731	859,409	17,770	17,777	609,755	610,589	6,301	6,309
Five years through ten years	118,210	116,873	—	—	157,003	151,221	—	—
Greater than ten years	20,127	20,683	—	—	29,900	30,090	—	—

Edgar Filing: CENTENE CORP - Form 10-Q

Total	\$1,120,564	\$1,124,313	\$78,435	\$78,442	\$898,195	\$894,026	\$46,934	\$46,946
-------	-------------	-------------	----------	----------	-----------	-----------	----------	----------

Actual maturities may differ from contractual maturities due to call or prepayment options. Asset backed and mortgage backed securities are included in the one year through five years category, while cost and equity method investments and life insurance contracts are included in the five years through ten years category. The Company has an option to redeem at amortized cost substantially all of the securities included in the greater than ten years category listed above.

Table of Contents

The Company continuously monitors investments for other-than-temporary impairment. Certain investments have experienced a decline in fair value due to changes in credit quality, market interest rates and/or general economic conditions. The Company recognizes an impairment loss for cost and equity method investments when evidence demonstrates that it is other-than-temporarily impaired. Evidence of a loss in value that is other-than-temporary may include the absence of an ability to recover the carrying amount of the investment or the inability of the investee to sustain a level of earnings that would justify the carrying amount of the investment.

5. Fair Value Measurements

Assets and liabilities recorded at fair value in the consolidated balance sheets are categorized based upon the extent to which the fair value estimates are based upon observable or unobservable inputs. Level inputs are as follows:

Level Input:	Input Definition:
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

The following table summarizes fair value measurements by level at June 30, 2014, for assets and liabilities measured at fair value on a recurring basis:

	Level I	Level II	Level III	Total
Assets				
Cash and cash equivalents	\$1,199,784	\$—	\$—	\$1,199,784
Investments available for sale:				
U.S. Treasury securities and obligations of U.S. government corporations and agencies	\$288,546	\$19,189	\$—	\$307,735
Corporate securities	—	399,348	—	399,348

U.S. Treasury securities and obligations of U.S. government corporations and agencies	14,413	—	—	14,413
Total restricted deposits	\$46,946	\$—	\$—	\$46,946
Other long-term assets: Interest rate swap agreements	\$—	\$9,576	\$—	\$9,576
Total assets at fair value	\$1,233,435	\$653,809	\$—	\$1,887,244

The Company periodically transfers U.S. Treasury securities and obligations of U.S. government corporations and agencies between Level I and Level II fair value measurements dependent upon the level of trading activity for the specific securities at the measurement date. The Company's policy regarding the timing of transfers between Level I and Level II is to measure and record the transfers at the end of the reporting period. At June 30, 2014, there were \$14,161 of transfers from Level I to Level II and \$1,214 of transfers from Level II to Level I. The Company utilizes matrix pricing services to estimate fair value for securities which are not actively traded on the measurement date. The Company designates these securities as Level II fair value measurements. The aggregate carrying amount of the Company's life insurance contracts and other non-majority owned investments, which approximates fair value, was \$53,632 and \$37,608 as of June 30, 2014 and December 31, 2013, respectively.

6. Debt

Debt consists of the following:

	June 30, 2014	December 31, 2013
Senior notes, at par	\$725,000	\$425,000
Unamortized premium on senior notes	5,166	6,052
Fair value of interest rate swap agreements	9,506	9,576
Senior notes	739,672	440,628
Revolving credit agreement	70,000	150,000
Mortgage notes payable	71,437	72,785
Capital leases and other	9,916	5,349
Total debt	891,025	668,762
Less current portion	(6,135) (3,065

Long-term debt	\$884,890	\$665,697
----------------	-----------	-----------

Table of Contents

Senior Notes

In May 2011, the Company issued \$250,000 non-callable 5.75% Senior Notes due June 1, 2017 (\$250,000 Notes) at a discount to yield 6%. In connection with the May 2011 issuance, the Company entered into interest rate swap agreements for a notional amount of \$250,000. Gains and losses due to changes in the fair value of the interest rate swap agreements completely offset changes in the fair value of the hedged portion of the underlying debt and are recorded as an adjustment to the \$250,000 Notes. At June 30, 2014, the fair value of the interest rate swap agreements increased the fair value of the notes by \$8,935 and the variable interest rate of the swap agreements was 3.73%.

In November 2012, the Company issued an additional \$175,000 non-callable 5.75% Senior Notes due June 1, 2017 (\$175,000 Add-on Notes) at a premium to yield 4.29%. The indenture governing the \$250,000 Notes and the \$175,000 Add-on Notes contains non-financial and financial covenants, including requirements of a minimum fixed charge coverage ratio. Interest is paid semi-annually in June and December. At June 30, 2014, the total net unamortized debt premium on the \$250,000 Notes and \$175,000 Add-on Notes was \$5,166.

In April 2014, the Company issued \$300,000 4.75% Senior Notes due May 15, 2022 (\$300,000 Notes) at par. In connection with the April 2014 issuance, the Company entered into interest rate swap agreements for a notional amount of \$300,000. Gains and losses due to changes in the fair value of the interest rate swap agreements completely offset changes in the fair value of the hedged portion of the underlying debt and are recorded as an adjustment to the \$300,000 Notes. At June 30, 2014, the fair value of the interest rate swap agreements increased the fair value of the notes by \$571 and the variable interest rate of the swap agreements was 2.52%.

Revolving Credit Agreement

In May 2013, the Company entered into a new unsecured \$500,000 revolving credit facility and terminated its previous \$350,000 revolving credit facility. Borrowings under the agreement bear interest based upon LIBOR rates, the Federal Funds Rate or the Prime Rate. The agreement has a maturity date of June 1, 2018, provided it will mature 90 days prior to the maturity date of the Company's 5.75% Senior Notes due 2017 if such notes are not refinanced (or extended), certain financial conditions are not met, or the Company does not carry \$100,000 of unrestricted cash. As of June 30, 2014, the Company had \$70,000 of borrowings outstanding under the agreement with a weighted average interest rate of 2.50%.

The agreement contains non-financial and financial covenants, including requirements of minimum fixed charge coverage ratios, maximum debt-to-EBITDA ratios and minimum tangible net worth. The Company is required to not exceed a maximum debt-to-EBITDA ratio of 3.0 to 1.0. As of June 30, 2014, there were no limitations on the availability under the revolving credit agreement as a result of the debt-to-EBITDA ratio.

Letters of Credit & Surety Bonds

The Company had outstanding letters of credit of \$30,649 as of June 30, 2014, which were not part of the revolving credit facility. The letters of credit bore interest at 0.46% as of June 30, 2014. The Company had outstanding surety bonds of \$159,728 as of June 30, 2014.

7. Interest Rate Swap Agreements

In May 2011, the Company entered into \$250,000 notional amount of interest rate swap agreements (2011 Swap Agreements) that are scheduled to expire June 1, 2017. Under the 2011 Swap Agreements, the Company receives a fixed rate of 5.75% and pays a variable rate of the three month LIBOR plus 3.50% adjusted quarterly, which allows the Company to adjust \$250,000 of its senior notes to a floating rate. At June 30, 2014, the variable rate was 3.73%.

In April 2014, the Company entered into \$300,000 notional amount of interest rate swap agreements (2014 Swap Agreements) that are scheduled to expire May 15, 2022. Under the 2014 Swap Agreements, the Company receives a fixed rate of 4.75% and pays a variable rate of the three month LIBOR plus 2.27% adjusted quarterly, which allows the Company to adjust \$300,000 of its senior notes to a floating rate. At June 30, 2014, the variable rate was 2.52%.

Table of Contents

The 2011 and 2014 Swap Agreements are formally designated and qualify as fair value hedges. The 2011 and 2014 Swap Agreements are recorded at fair value in the Consolidated Balance Sheet in other assets or other liabilities. Gains and losses due to changes in fair value of the interest rate swap agreements completely offset changes in the fair value of the hedged portion of the underlying debt. Therefore, no gain or loss has been recognized due to hedge ineffectiveness. Offsetting changes in fair value of both the interest rate swap agreements and the hedged portion of the underlying debt both were recognized in interest expense in the Consolidated Statement of Operations. The Company does not hold or issue any derivative instrument for trading or speculative purposes.

The fair values of the 2011 and 2014 Swap Agreements as of June 30, 2014 were assets of approximately \$8,935 and \$571, respectively and are included in other long term assets in the Consolidated Balance Sheet. The fair value of the 2011 and 2014 Swap Agreements excludes accrued interest and takes into consideration current interest rates and current likelihood of the swap counterparties' compliance with its contractual obligations.

8. Stockholders' Equity

In January 2014, the Company completed the acquisition of 68% of USMM and as a result, issued 2,243,217 shares of Centene common stock to the selling stockholders.

9. Earnings Per Share

The following table sets forth the calculation of basic and diluted net earnings per common share:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Earnings attributable to Centene Corporation:				
Earnings from continuing operations, net of tax	\$47,183	\$40,289	\$80,999	\$62,928
Discontinued operations, net of tax	1,680	(805) 847	(442
Net earnings	\$48,863	\$39,484	\$81,846	\$62,486
Shares used in computing per share amounts:				
Weighted average number of common shares outstanding	57,758,683	54,529,036	57,622,039	53,449,077
Common stock equivalents (as determined by applying the treasury stock method)	1,958,575	2,072,624	1,925,381	1,999,319
Weighted average number of common shares and potential dilutive common shares outstanding	59,717,258	56,601,660	59,547,420	55,448,396
Net earnings (loss) per common share attributable to Centene Corporation:				
Basic:				
Continuing operations	\$0.82	\$0.74	\$1.41	\$1.18
Discontinued operations	0.03	(0.02) 0.01	(0.01
Basic earnings per common share	\$0.85	\$0.72	\$1.42	\$1.17
Diluted:				
Continuing operations	\$0.79	\$0.71	\$1.36	\$1.14
Discontinued operations	0.03	(0.01) 0.01	(0.01
Diluted earnings per common share	\$0.82	\$0.70	\$1.37	\$1.13

The calculation of diluted earnings per common share for the three and six months ended June 30, 2014 excludes the impact of 51,855 shares and 55,544 shares, respectively, related to anti-dilutive stock options, restricted stock and restricted stock units. The calculation of diluted earnings per common share for the three and six months ended June 30, 2013 excludes the impact of 35,094 shares and 68,809 shares, respectively, related to anti-dilutive stock options, restricted stock and restricted stock units.

Table of Contents

10. Segment Information

Centene operates in two segments: Managed Care and Specialty Services. The Managed Care segment consists of Centene's health plans including all of the functions needed to operate them. The Specialty Services segment consists of Centene's specialty companies offering auxiliary healthcare services and products.

Segment information for the three months ended June 30, 2014, follows:

	Managed Care	Specialty Services	Eliminations	Consolidated Total
Premium and service revenues from external customers	\$3,224,849	\$516,238	\$—	\$3,741,087
Premium and service revenues from internal customers	13,789	675,825	(689,614)	—
Total premium and service revenues	\$3,238,638	\$1,192,063	\$(689,614)	\$3,741,087
Earnings from operations	\$63,821	\$28,851	\$—	\$92,672

Segment information for the three months ended June 30, 2013, follows:

	Managed Care	Specialty Services	Eliminations	Consolidated Total
Premium and service revenues from external customers	\$2,324,750	\$194,161	\$—	\$2,518,911

Earnings from operations	\$54,860	\$53,477	\$—	\$108,337

11. Contingencies

In October 2012, the Company notified the Cabinet that it was exercising a contractual right that it believes allows the Company to terminate its Medicaid managed care contract with the Commonwealth effective July 5, 2013. The

Company also filed a lawsuit in Franklin Circuit Court against the Commonwealth seeking a declaration of the Company's right to terminate the contract on July 5, 2013. In April 2013, the Commonwealth answered that lawsuit and filed counterclaims against the Company seeking declaratory relief and damages. In May 2013, the Franklin Circuit Court ruled that Kentucky Spirit does not have a contractual right to terminate the contract early. Kentucky Spirit has appealed that ruling to the Kentucky Court of Appeals.

The Company also filed a formal dispute with the Cabinet for damages incurred under the contract, which was later appealed to and denied by the Finance and Administration Cabinet. In response, the Company filed a lawsuit in April 2013, in Franklin Circuit Court seeking damages against the Commonwealth for losses sustained due to the Commonwealth's alleged breaches. This lawsuit was subsequently consolidated with the original lawsuit for declaratory relief and continues to proceed.

Table of Contents

Kentucky Spirit's efforts to resolve issues with the Commonwealth were unsuccessful and on July 5, 2013, Kentucky Spirit proceeded with its previously announced exit. The Commonwealth has alleged that Kentucky Spirit's exit constitutes a material breach of contract. The Commonwealth seeks to recover substantial damages and to enforce its rights under Kentucky Spirit's \$25,000 performance bond. In March 2014, Kentucky Spirit received a demand letter from the Commonwealth seeking damages to reimburse the Commonwealth for its alleged incurred and expected losses, expenses, transition costs and other damages for the period July 6, 2013 until July 5, 2014. The letter stated that the Commonwealth is seeking damages only on behalf of the Commonwealth, not the federal Centers for Medicare and Medicaid Services (CMS). In June 2014, the Commonwealth informed the Kentucky Department of Insurance that its expenditures due to Kentucky's Spirit's departure range from \$28,000 to \$40,000 plus interest, and that the associated CMS expenditures range from \$92,000 to \$134,000. Kentucky Spirit disputes the Commonwealth's alleged damages, is pursuing its own litigation claims for damages against the Commonwealth and will vigorously defend against any allegations that it has breached the contract.

The resolution of the Kentucky litigation matters may result in a range of possible outcomes. If the Company prevails on its claims, Kentucky Spirit would be entitled to damages under its lawsuit. If the Commonwealth prevails, a liability to the Commonwealth could be recorded. The Company is unable to estimate the ultimate outcome resulting from the Kentucky litigation. As a result, the Company has not recorded any receivable or any liability for potential damages under the contract as of June 30, 2014. While uncertain, the ultimate resolution of the pending litigation could have a material effect on the financial position, cash flow or results of operations of the Company in the period it is resolved or becomes known.

Excluding the Kentucky matters discussed above, the Company is routinely subjected to legal proceedings in the normal course of business. While the ultimate resolution of such matters in the normal course of business is uncertain, the Company does not expect the results of any of these matters individually, or in the aggregate, to have a material effect on its financial position, results of operations or cash flows.

12. Subsequent Events

In July 2014, the Company completed the transaction whereby Community Health Solutions of America, Inc. assigned its contract with the Louisiana Department of Health and Hospitals under the Bayou Health Shared Savings Program to the Company's subsidiary, Louisiana Healthcare Connections (LHC). The purchase price is expected to be between approximately \$110,000 and \$140,000. Initial consideration of approximately \$72,100 consists of a cash payment of \$14,100 paid at signing and approximately \$58,000 of common stock (746,369 shares) issued at closing. The remaining purchase price will be paid in cash in multiple steps and will be finalized based on membership retained by LHC in the first quarter of 2015.

In July 2014, the Company purchased a noncontrolling interest in Ribera Salud S.A. (Ribera Salud), a Spanish health management group for approximately \$16,000, subject to working capital adjustments. Centene will be a 50% joint shareholder with Ribera Salud's remaining investor, Banco Sabadell. The Company will account for its investment using the equity method of accounting. Upon closing, the Company executed letters of credit for approximately \$65,000, or €48,000, representing its proportional share of the letters of credit issued to support Ribera Salud's outstanding debt.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the related notes included elsewhere in this filing. The discussion contains forward-looking statements that involve both known and unknown risks and uncertainties, including those set forth under Part II, Item 1A. "Risk Factors" of this Form 10-Q.

OVERVIEW

In 2013, we classified the operations for Kentucky Spirit Health Plan (KSHP) as discontinued operations for all periods presented in our consolidated financial statements. The following discussion and analysis, with the exception of cash flow information, is presented in the context of continuing operations unless otherwise identified.

Key financial metrics for the second quarter of 2014 are summarized as follows:

- Quarter-end at-risk managed care membership of 3,164,500, an increase of 601,100 members, or 23% year over year.
- Premium and service revenues of \$3.7 billion, representing 49% growth year over year.
- Health Benefits Ratio of 88.9%, compared to 88.4% in 2013.
- General and Administrative expense ratio of 8.6%, compared to 8.9% in 2013.
- Operating cash flow of \$159.4 million for the second quarter of 2014.
 - Diluted earnings per share of \$0.79, or \$0.95 excluding a \$0.16 impact associated with the health insurer fee, compared to \$0.71 in 2013.

The following items contributed to our revenue and membership growth over the last year:

• **AcariaHealth.** In April 2013, we completed the acquisition of AcariaHealth, a specialty pharmacy company.

• **California.** In November 2013, our California subsidiary, California Health and Wellness (CHW), began operating under a new contract with the California Department of Health Care Services to serve Medicaid beneficiaries in 18 rural counties under the state's Medi-Cal Managed Care Rural Expansion program and Medi-Cal beneficiaries in Imperial County. In January 2014, CHW also began serving members under the state's Medicaid expansion program.

• **Centurion.** Centurion is a joint venture between Centene and MHM Services Inc. In July 2013, Centurion began operating under a new contract with the Department of Corrections in Massachusetts to provide comprehensive healthcare services to individuals incarcerated in Massachusetts state correctional facilities. In January 2014, Centurion began operating under a new agreement with the Minnesota Department of Corrections to provide managed healthcare services to offenders in the state's correctional facilities. In September 2013, Centurion began operating under a new contract to provide comprehensive healthcare services to individuals incarcerated in Tennessee state correctional facilities.

• **Florida.** In August 2013, our Florida subsidiary, Sunshine Health, began operating under a contract in 10 of 11 regions with the Florida Agency for Health Care Administration to serve members of the Medicaid managed care Long Term Care (LTC) program. Enrollment began in August 2013 and was implemented by region through March 2014.

In May 2014, Sunshine Health also began operating under a new contract in 9 of 11 regions of the Managed Medical Assistance (MMA) program. The MMA program includes TANF recipients as well as ABD and dual-eligible members. In addition, we began operating as the sole provider under a new statewide contract for the Child Welfare Specialty Plan (Foster Care). Enrollment for both the MMA program and Foster Care began in May 2014 and will be implemented by region through August 2014.

Health Insurance Marketplaces (HIM). In January 2014, we began serving members enrolled in Health Insurance Marketplaces in certain regions of 9 states: Arkansas, Florida, Georgia, Indiana, Massachusetts, Mississippi, Ohio, Texas and Washington.

Table of Contents

Illinois. In March 2014, our Illinois subsidiary, IlliniCare Health, began operating under a new contract as part of the Illinois Medicare-Medicaid Alignment Initiative serving dual-eligible members in Cook, DuPage, Lake, Kane, Kankakee and Will counties (Greater Chicago region).

Massachusetts. In January 2014, our CultiCare Health subsidiary began operating under a new contract with the Massachusetts Executive Office of Health and Human Services to participate in the MassHealth CarePlus program in all five regions.

New Hampshire. In December 2013, our subsidiary, New Hampshire Healthy Families, began operating under a new contract with the Department of Health and Human Services to serve Medicaid beneficiaries.

Ohio. In July 2013, our Ohio subsidiary, Buckeye Community Health Plan (Buckeye), began operating under a new and expanded contract with the Ohio Department of Medicaid (ODM) to serve Medicaid members statewide through Ohio's three newly aligned regions (West, Central/Southeast, and Northeast). Buckeye also began serving members under the ABD Child program in July 2013. In January 2014, Buckeye began serving members under the state's Medicaid expansion program.

In May 2014, Buckeye began operating under a new contract with the ODM to serve Medicaid members in a dual-eligible demonstration program in three of seven regions: Northeast (Cleveland), Northwest (Toledo) and West Central (Dayton). This three-year program, which is part of the Integrated Care Delivery System expansion, serves those who have both Medicare and Medicaid eligibility. Enrollment began in May 2014 and will be implemented by region through July 2014.

U.S. Medical Management. In January 2014, we acquired a majority interest in U.S. Medical Management, LLC, a management services organization and provider of in-home health services for high acuity populations.

Washington. In January 2014, our subsidiary, Coordinated Care, began serving additional Medicaid members under the state's Medicaid expansion program.

We expect the following items to contribute to our future growth potential:

We expect to realize the full year benefit in 2014 of business commenced during 2013 in California, Florida, Massachusetts, New Hampshire, Ohio, and Tennessee and the acquisition of AcariaHealth as discussed above.

In July 2014, our Illinois subsidiary, IlliniCare Health, began operating under a new five-year contract with the Cook County Health and Hospitals System to perform third party administrative services to members enrolled in the CountyCare program, as well as care coordination, behavioral health, vision care and pharmacy benefit management services.

In July 2014, our Mississippi subsidiary, Magnolia Health, began operating as one of two contractors under a new statewide managed care contract serving members enrolled in the Mississippi Coordinated Access Network program. The program provides for membership expansion beginning in late 2014.

In July 2014, we completed the transaction whereby Community Health Solutions of America, Inc. (CHS) assigned its contract with the Louisiana Department of Health and Hospitals under the Bayou Health Shared Savings Program to our subsidiary, Louisiana Healthcare Connections (LHC). The purchase price will be between approximately \$110.0 million and \$140.0 million. Initial consideration of approximately \$72.1 million consists of a cash payment of \$14.1 million paid at signing and approximately \$58.0 million paid in stock at closing. The remaining purchase price will be paid in cash in multiple steps and will be finalized based on membership retained by LHC in the first quarter of 2015.

In July 2014, we completed the purchase of a noncontrolling interest in Ribera Salud S.A. (Ribera Salud), a Spanish health management group. Centene will be a joint shareholder with Ribera Salud's remaining investor, Banco Sabadell.

17

Table of Contents

In December 2013, we signed a definitive agreement to purchase a majority stake in Fidelis SecureCare of Michigan, Inc. (Fidelis), a subsidiary of Fidelis SeniorCare, Inc. The transaction is expected to close in the first half of 2015, subject to certain closing conditions including regulatory approvals, and will involve cash purchase price payments contingent on the performance of the plan. Fidelis was selected by the Michigan Department of Community Health to provide integrated healthcare services to members who are dually eligible for Medicare and Medicaid in Macomb and Wayne counties. Enrollment is expected to commence in the first half of 2015.

In November 2013, our South Carolina subsidiary, Absolute Total Care, was selected by the South Carolina Department of Health and Human Services to serve dual-eligible members as part of the state's pilot program to provide integrated and coordinated care for individuals who are eligible for both Medicare and Medicaid. Operations are expected to commence in the first quarter of 2015.

In September 2013, we were awarded a contract in Texas from the Texas Health and Human Services Commission to expand our operations and serve STAR+PLUS members in two Medicaid Rural Service Areas. Enrollment is expected to begin in the third quarter of 2014.

MEMBERSHIP

From June 30, 2013 to June 30, 2014, we increased our at-risk managed care membership by 601,100, or 23%. The following table sets forth our membership by state for our managed care organizations:

	June 30, 2014	December 31, 2013	June 30, 2013
Arizona	7,000	7,100	23,200
Arkansas	31,100	—	—
California	131,100	97,200	—
Florida	313,800	222,000	216,200
Georgia	373,000	318,700	316,600
Illinois	29,500	22,300	18,000
Indiana	200,500	195,500	200,000
Kansas	146,100	139,900	137,500
Louisiana	148,600	152,300	153,700
Massachusetts	47,200	22,600	15,200
Minnesota	9,400	—	—
Mississippi	97,400	78,300	77,300
Missouri	58,700	59,200	58,800
New Hampshire	39,500	33,600	—
Ohio	225,900	173,200	156,700
South Carolina	101,800	91,900	88,800
Tennessee	21,300	20,700	—
Texas	921,500	935,100	960,400
Washington	193,800	82,100	67,600
Wisconsin	67,300	71,500	73,400
Total	3,164,500	2,723,200	2,563,400

At June 30, 2014, we served 155,800 Medicaid members in Medicaid expansion programs in California, Massachusetts, Ohio and Washington included in the table above. We also served 182,200 members at June 30, 2014 under our behavioral health contract in Arizona, compared to 157,100 members at June 30, 2013.

Table of Contents

The following table sets forth our membership by line of business:

	June 30, 2014	December 31, 2013	June 30, 2013
Medicaid	2,385,500	2,054,700	1,953,600
CHIP & Foster Care	261,800	275,100	273,200
ABD & Medicare	329,700	305,300	289,800
HIM	75,700	—	—
Hybrid Programs	17,000	19,000	22,400
LTC	53,500	37,800	24,400
Correctional services	41,300	31,300	—
Total	3,164,500	2,723,200	2,563,400

The following table identifies our dual eligible membership by line of business. The membership tables above include these members.

	June 30, 2014	December 31, 2013	June 30, 2013
ABD	89,300	71,700	71,400
LTC	41,800	28,800	16,600
Medicare	8,200	6,500	5,700
Total	139,300	107,000	93,700

RESULTS OF OPERATIONS

The following discussion and analysis is based on our consolidated statements of operations, which reflect our results of operations for the three and six months ended June 30, 2014 and 2013, prepared in accordance with generally accepted accounting principles in the United States.

Summarized comparative financial data for the three and six months ended June 30, 2014 and 2013 is as follows (\$ in millions):

	Three Months Ended June 30,			Six Months Ended June 30,				
	2014	2013	% Change 2013-2014	2014	2013	% Change 2013-2014

20

Table of Contents

Three Months Ended June 30, 2014 Compared to Three Months Ended June 30, 2013

Premium and Service Revenues

Premium and service revenues increased 49% in the three months ended June 30, 2014 over the corresponding period in 2013 primarily as a result of the expansion in Florida, growth in the AcariaHealth business, the addition of the California contract, the expansion in Ohio and our participation in the Health Insurance Marketplaces.

Operating Expenses

Medical Costs

Results of operations depend on our ability to manage expenses associated with health benefits and to accurately estimate costs incurred. The Health Benefits Ratio, or HBR, represents medical costs as a percentage of premium revenues (excluding Premium Tax and Health Insurer Fee revenues) and reflects the direct relationship between the premium received and the medical services provided. The table below depicts the HBR for our membership by member category for the three months ended June 30,:

	2014	2013	
Medicaid, CHIP, Foster Care & HIM	84.7	% 88.4	%
ABD, LTC & Medicare	94.9	89.1	
Specialty Services	80.4	82.6	
Total	88.9	88.4	

The consolidated HBR for the three months ended June 30, 2014, was 88.9%, compared to 88.4% in the same period in 2013. The HBR increase compared to 2013 reflects an increase in higher acuity membership over the comparable prior year period.

Revenue and HBR results for new business and existing business are listed below to assist in understanding our results of operations. Existing businesses are primarily state markets or significant geographic expansion in an existing state or product that we have managed for four complete quarters. New businesses are primarily new state markets or significant geographic expansion in an existing state or product that conversely, we have not managed for four complete quarters. The following table compares the results for new business and existing business for the three months ended June 30,:

	2014	2013	
Premium and Service Revenue			
New business	26	% 18	%
Existing business	74	% 82	%
HBR			
New business	91.8	% 90.4	%
Existing business	87.9	% 88.0	%
Cost of Services			

Cost of services increased by \$272.6 million in the three months ended June 30, 2014, compared to the corresponding period in 2013. This was primarily due to growth in AcariaHealth as well as the acquisition of U.S. Medical Management.

General & Administrative Expenses

General and administrative expenses, or G&A, increased by \$97.6 million in the three months ended June 30, 2014, compared to the corresponding period in 2013. This was primarily due to expenses for additional staff and facilities to support our membership growth.

Table of Contents

The consolidated G&A expense ratio for the three months ended June 30, 2014 and 2013 was 8.6% and 8.9%, respectively. The year over year decrease reflects the leveraging of expenses over higher revenue in 2014. The 2013 G&A expense ratio also includes the impact of \$0.07 per diluted share of AcariaHealth transaction costs which increased the 2013 G&A expense ratio by approximately 20 basis points.

Health Insurer Fee Expense

During the three months ended June 30, 2014, we recorded \$31.3 million of non-deductible expense for the Affordable Care Act (ACA) annual health insurer fee. As of June 30, 2014, we have received signed agreements from 14 of 17 applicable states, which provide for the reimbursement of the ACA insurer fee including the related gross-up for the associated income tax effects. As a result, we recorded \$30.4 million of revenue in Premium Tax and Health Insurer Fee revenue associated with the accrual for the reimbursement of the fee. The net effect of the health insurer fee related to states where we have not received signed agreements reduced our diluted earnings per share by \$0.16 during the second quarter of 2014.

Other Income (Expense)

The following table summarizes the components of other income (expense) for the three months ended June 30, (\$ in millions):

	2014	2013	
Investment and other income	\$7.3	\$4.1	
Interest expense	(8.6) (7.0)
Other income (expense), net	\$(1.3) \$(2.9)

The increase in investment income in 2014 reflects an increase in investment balances over 2013 and improved performance of certain equity investments. Interest expense increased in 2014 compared to 2013, reflecting the issuance of an additional \$300 million in Senior Notes in April 2014 and a higher level of borrowings under our revolving credit agreement.

Income Tax Expense

Excluding the effects of noncontrolling interest, our effective tax rate for the three months ended June 30, 2014 and 2013, was a tax expense of 48.7% and 39.2%, respectively. The increase is due to the non-deductibility of the health insurer fee for income tax purposes. The loss of deduction from the health insurer fee increased our effective tax rate by approximately 900 basis points.

Segment Results

The following table summarizes our consolidated operating results by segment for the three months ended June 30, (\$ in millions):

	2014	2013	% Change 2013-2014	
Premium and Service Revenues				
Managed Care	\$3,238.6	\$2,335.0	38.7	%
Specialty Services	1,192.1	717.3	66.2	%
Eliminations	(689.6) (533.4) (29.3)%
Consolidated Total	\$3,741.1	\$2,518.9	48.5	%
Earnings from Operations				
Managed Care	\$63.8	\$45.6	40.0	%

Edgar Filing: CENTENE CORP - Form 10-Q

Specialty Services	28.9	23.1	24.7	%
Consolidated Total	\$92.7	\$68.7	34.8	%

Managed Care

Premium and service revenues increased 38.7% in the three months ended June 30, 2014, primarily as a result of the expansion in Florida, the addition of the California contract, the expansion in Ohio and our participation in the Health Insurance Marketplaces. Earnings from operations increased 40.0% between years primarily reflecting the growth in the business.

Table of Contents

Specialty Services

Premium and service revenues increased 66.2% in the three months ended June 30, 2014, resulting from growth in the AcariaHealth business, increased services associated with membership growth in the Managed Care segment, the addition of three Centurion contracts and the acquisition of U.S. Medical Management. Earnings from operations increased 24.7% in the three months ended June 30, 2014, primarily reflecting growth in the AcariaHealth business as well as improvement in our legacy individual health business.

Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

Premium and Service Revenues

Premium and service revenues increased 43.6% in the six months ended June 30, 2014, over the corresponding period in 2013 primarily as a result of the expansion in Florida, growth in the AcariaHealth business, the addition of the California contract, the expansion in Washington and our participation in the Health Insurance Marketplaces. During the six months ended June 30, 2014, we received premium rate adjustments which yielded a net 0% composite change across all of our markets.

Operating Expenses

Medical Costs

Results of operations depend on our ability to manage expenses associated with health benefits and to accurately estimate costs incurred. The Health Benefits Ratio, or HBR, represents medical costs as a percentage of premium revenues (excluding premium taxes) and reflects the direct relationship between the premium received and the medical services provided. The table below depicts the HBR for our membership by member category for the six months ended June 30:

	2014	2013	
Medicaid, CHIP, Foster Care & HIM	85.8	% 89.6	%
ABD, LTC & Medicare	94.0	89.6	
Specialty Services	84.0	83.0	
Total	89.1	89.3	

The consolidated HBR for the six months ended June 30, 2014 of 89.1% was a decrease of 20 basis points over the comparable period in 2013. The decrease compared to last year primarily reflects reduced utilization in certain markets in the first quarter of 2014 associated with inclement weather, partially offset by an increase in higher acuity membership over the comparable prior year period.

Cost of Services

Cost of services increased by \$489.8 million in the six months ended June 30, 2014, compared to the corresponding period in 2013. This was primarily due to the acquisition of and growth in our AcariaHealth business as well as the acquisition of U.S. Medical Management.

General & Administrative Expenses

General and administrative expenses, or G&A, increased by \$189.8 million in the six months ended June 30, 2014, compared to the corresponding period in 2013. This was primarily due to expenses for additional staff and facilities to support our membership growth.

The consolidated G&A expense ratio for the six months ended June 30, 2014 and 2013 was 8.7% and 8.6%, respectively. The year over year increase in the G&A expense ratio reflects U.S. Medical Management transaction costs in the first quarter of 2014, partially offset by the leveraging of expenses over higher revenues in 2014.

Table of Contents

Health Insurer Fee Expense

During the six months ended June 30, 2014, we recorded \$62.7 million of non-deductible expense for the ACA annual health insurer fee. We recorded \$59.8 million of revenue in Premium Tax and Health Insurer Fee revenue associated with the accrual for the reimbursement of the fee. The net effect of the health insurer fee reduced our diluted earnings per share by \$0.32 during the six months ended June 30, 2014 due to the timing of the recognition of the revenue associated with the reimbursement from our state customers. During the year ended December 31, 2014, we expect to record \$125.3 million of non-deductible expense for the health insurer fee expense.

Other Income (Expense)

The following table summarizes the components of other income (expense) for the six months ended June 30, 2014 (\$ in millions):

	2014	2013		
Investment and other income	\$12.0	\$8.3		
Interest expense	(15.6) (13.7))
Other income (expense), net	\$(3.6) \$(5.4))

The increase in investment income in 2014 reflects an increase in investment balances over 2013 and improved performance of certain equity investments. Interest expense increased during the six months ended June 30, 2014 by \$2.0 million reflecting the issuance of an additional \$300 million in Senior Notes in April 2014 and a higher level of borrowings under our revolving credit agreement.

Income Tax Expense

Excluding the effects of noncontrolling interest, our effective tax rate for the six months ended June 30, 2014 was 49.5% compared to 39.2% in the corresponding period in 2013. The increase is due to the non-deductibility of the health insurer fee for income tax purposes. The loss of deduction from the health insurer fee increased our effective tax rate by approximately 900 basis points.

Segment Results

The following table summarizes our operating results by segment for the six months ended June 30, 2014 (in millions):

	2014	2013	% Change 2013-2014	
Premium and Service Revenues				
Managed Care	\$6,221.2	\$4,641.5	34.0	%
Specialty Services	2,213.3	1,370.2	61.5	%
Eliminations	(1,341.4) (1,071.0) (25.2)%
Consolidated Total	\$7,093.1	\$4,940.7	43.6	%
Earnings from Operations				
Managed Care	\$108.0	\$54.8	96.8	%
Specialty Services	54.7	53.5	2.4	%
Consolidated Total	\$162.7	\$108.3	50.2	%

Managed Care

Premium and service revenues increased 34.0% in the six months ended June 30, 2014, primarily as a result of expansions in Florida, Ohio and Washington, the additions of the California and New Hampshire contracts and our participation in the Health Insurance Marketplaces. Earnings from operations increased 96.8% in the six months ended June 30, 2014, primarily reflecting growth in the business as well as reduced utilization in certain markets in the first quarter of 2014 associated with inclement weather.

Table of Contents

Specialty Services

Premium and service revenues increased 61.5% in the six months ended June 30, 2014, resulting from growth in our AcariaHealth business, increased services associated with membership growth in the Managed Care segment, the addition of three Centurion contracts and the acquisition of U.S. Medical Management. Earnings from operations increased 2.4% in the six months ended June 30, 2014, primarily reflecting growth in the AcariaHealth business as well as improvement in our legacy individual health business.

LIQUIDITY AND CAPITAL RESOURCES

Shown below is a condensed schedule of cash flows used in the discussion of liquidity and capital resources (\$ in millions).

	Six Months Ended June 30,	
	2014	2013
Net cash provided by operating activities	\$411.9	\$80.9
Net cash used in investing activities	(389.6) (275.5
Net cash provided by financing activities	198.4	39.3
Net increase (decrease) in cash and cash equivalents	\$220.7	\$(155.3

Cash Flows Provided by Operating Activities

Normal operations are funded primarily through operating cash flows and borrowings under our revolving credit facility. Operating activities provided cash of \$411.9 million in the six months ended June 30, 2014, compared to \$80.9 million in the comparable period in 2013. The cash provided by operations in 2014 was primarily related to an increase in medical claims liabilities.

Cash flows from operations in each year were impacted by the timing of payments we receive from our states. States may prepay the following month premium payment, which we record as unearned revenue, or they may delay our premium payment, which we record as a receivable. We typically receive capitation payments monthly, however the states in which we operate may decide to adjust their payment schedules which can positively or negatively impact our reported cash flows from operating activities in any given period. The table below details the impact to cash flows from operations from the timing of payments from our states (\$ in millions).

	Six Months Ended June 30,	
	2014	2013
Premium and related receivables	\$(160.7) \$(71.2
Unearned revenue	(18.1) (12.1
Net decrease in operating cash flow	\$(178.8) \$(83.3

Cash Flows Used in Investing Activities

Investing activities used cash of \$389.6 million in the six months ended June 30, 2014, and \$275.5 million in the comparable period in 2013. Cash flows used in investing activities in 2014 primarily consisted of additions to the investment portfolio of our regulated subsidiaries, including transfers from cash and cash equivalents to long-term investments, the acquisition of U.S. Medical Management and capital expenditures. We completed the acquisition of U.S. Medical Management in January 2014 for \$213.7 million in total consideration. The transaction was financed through a combination of Centene common stock as well as \$81.0 million of cash. During 2013, our investing activities primarily related to additions to the investment portfolio of our regulated subsidiaries and capital expenditures.

We spent \$41.6 million and \$30.1 million in the six months ended June 30, 2014 and 2013, respectively, on capital expenditures for system enhancements and market expansions.

As of June 30, 2014, our investment portfolio consisted primarily of fixed-income securities with an average duration of 2.8 years. We had unregulated cash and investments of \$50.3 million at June 30, 2014, compared to \$44.7 million at December 31, 2013.

Table of Contents

Cash Flows Provided by Financing Activities

Our financing activities provided cash of \$198.4 million in the six months ended June 30, 2014, compared to \$39.3 million in the comparable period in 2013. During 2014, our financing activities primarily related to the proceeds from the issuance of Senior Debt. In April 2014, we issued \$300 million 4.75% Senior Notes due May 15, 2022 at par. In connection with the April 2014 issuance, we entered into interest rate swap agreements for a notional amount of \$300 million. During 2013, our financing activities primarily related to proceeds from the exercise of stock options.

Liquidity Metrics

The \$500 million revolving credit agreement contains non-financial and financial covenants, including requirements of minimum fixed charge coverage ratios, maximum debt-to-EBITDA ratios and minimum tangible net worth. We are required not to exceed a maximum debt-to-EBITDA ratio of 3.0 to 1.0. As of June 30, 2014, there were no limitations on the availability under the revolving credit agreement as a result of the debt-to-EBITDA ratio.

We had outstanding letters of credit of \$30.6 million as of June 30, 2014, which were not part of our revolving credit facility and bore interest at 0.46%. In addition, we had outstanding surety bonds of \$159.7 million as of June 30, 2014.

At June 30, 2014, we had working capital, defined as current assets less current liabilities, of \$207.2 million, compared to \$241.1 million at December 31, 2013. We manage our short term and long term investments with the goal of ensuring that a sufficient portion is held in investments that are highly liquid and can be sold to fund short term requirements as needed.

At June 30, 2014, our debt to capital ratio, defined as total debt divided by the sum of total debt and total equity, was 37.5%, compared to 35.0% at December 31, 2013. Excluding the \$71.4 million non-recourse mortgage note, our debt to capital ratio is 35.5%, compared to 32.4% at December 31, 2013. We utilize the debt to capital ratio as a measure, among others, of our leverage and financial flexibility.

2014 Expectations

In July 2014, we completed the transaction whereby CHS assigned its contract with the Louisiana Department of Health and Hospitals under the Bayou Health Shared Savings Program to Centene's wholly owned subsidiary, LHC. The purchase price will be between approximately \$110.0 million and \$140.0 million. Initial consideration of approximately \$72.1 million consists of a cash payment of \$14.1 million paid at signing and approximately \$58.0 million of common stock (746,369 shares) issued at closing. The remaining purchase price will be paid in cash in multiple steps and will be finalized based on membership retained by LHC in the first quarter of 2015.

In July, 2014, we purchased a noncontrolling interest in Ribera Salud, a Spanish health management group for approximately \$16.0 million, subject to working capital adjustments. Centene will be a 50% joint shareholder with Ribera Salud's remaining investor, Banco Sabadell. We will account for its investment using the equity method of accounting. Upon closing, we executed letters of credit for approximately \$65.0 million, or €48.0 million, representing our proportional share of the letters of credit issued to support Ribera Salud's outstanding debt.

During the remainder of 2014, we expect to make net capital contributions to our insurance subsidiaries of approximately \$285 million associated with our growth and spend approximately \$60 million in additional capital expenditures primarily associated with system enhancements and market expansions. These capital contributions are expected to be funded by unregulated cash flow generation in 2014 and borrowings on our revolving credit facility.

Based on our operating plan, we expect that our available cash, cash equivalents and investments, cash from our operations and cash available under our credit facility will be sufficient to finance the CHS, Ribera Salud and Fidelis transactions discussed above as well as our general operations and capital expenditures for at least 12 months from the date of this filing.

REGULATORY CAPITAL AND DIVIDEND RESTRICTIONS

Our operations are conducted through our subsidiaries. As managed care organizations, these subsidiaries are subject to state regulations that, among other things, require the maintenance of minimum levels of statutory capital, as defined by each state, and restrict the timing, payment and amount of dividends and other distributions that may be paid to us. Generally, the amount of dividend distributions that may be paid by a regulated subsidiary without prior approval by state regulatory authorities is limited based on the entity's level of statutory net income and statutory capital and surplus.

Table of Contents

Our subsidiaries are required to maintain minimum capital requirements prescribed by various regulatory authorities in each of the states in which we operate. As of June 30, 2014, our subsidiaries had aggregate statutory capital and surplus of \$1,300.2 million, compared with the required minimum aggregate statutory capital and surplus requirements of \$756.1 million. During the six months ended June 30, 2014, we contributed \$148 million of statutory capital to our subsidiaries. We estimate our Risk Based Capital, or RBC, percentage (including KSHP) to be in excess of 350% of the Authorized Control Level (excluding the impact of the health insurer fee).

The National Association of Insurance Commissioners has adopted rules which set minimum RBC requirements for insurance companies, managed care organizations and other entities bearing risk for healthcare coverage. As of June 30, 2014, each of our health plans was in compliance with the risk-based capital requirements enacted in those states.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk.

INVESTMENTS AND DEBT

As of June 30, 2014, we had short-term investments of \$127.3 million and long-term investments of \$1,075.4 million, including restricted deposits of \$78.4 million. The short-term investments generally consist of highly liquid securities with maturities between three and 12 months. The long-term investments consist of municipal, corporate and U.S. Treasury securities, government sponsored obligations, life insurance contracts, asset backed securities and equity securities and have maturities greater than one year. Restricted deposits consist of investments required by various state statutes to be deposited or pledged to state agencies. Due to the nature of the states' requirements, these investments are classified as long-term regardless of the contractual maturity date. Our investments are subject to interest rate risk and will decrease in value if market rates increase. Assuming a hypothetical and immediate 1% increase in market interest rates at June 30, 2014, the fair value of our fixed income investments would decrease by approximately \$28.6 million. Declines in interest rates over time will reduce our investment income.

We entered into interest rate swap agreements with creditworthy financial institutions to manage the impact of market interest rates on interest expense. Our swap agreements convert a portion of our interest expense from fixed to variable rates to better match the impact of changes in market rates on our variable rate cash equivalent investments. As a result, the fair value of \$550 million of our Senior Note debt varies with market interest rates. Assuming a hypothetical and immediate 1% increase in market interest rates at June 30, 2014, the fair value of our debt would decrease by approximately \$27.8 million. An increase in interest rates decreases the fair value of the debt and conversely, a decrease in interest rates increases the value.

For a discussion of the interest rate risk that our investments are subject to, see Part II, Item 1A "Risk Factors—Risks Related to Our Business—Our investment portfolio may suffer losses which could materially and adversely affect our results of operations or liquidity."

INFLATION

The inflation rate for medical care costs has been higher than the inflation rate for all items. We use various strategies to mitigate the negative effects of healthcare cost inflation. Specifically, our health plans try to control medical and hospital costs through our state savings initiatives and contracts with independent providers of healthcare services. Through these contracted care providers, our health plans emphasize preventive healthcare and appropriate use of specialty and hospital services. Additionally, our contracts with states require actuarially sound premiums that include healthcare cost trend.

While we currently believe our strategies to mitigate healthcare cost inflation will continue to be successful, competitive pressures, new healthcare and pharmaceutical product introductions, demands from healthcare providers and customers, applicable regulations or other factors may affect our ability to control the impact of healthcare cost increases.

ITEM 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures - We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act) that are designed to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms; and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Table of Contents

In connection with the filing of this Form 10-Q, management evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2014. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of June 30, 2014.

Changes in Internal Control Over Financial Reporting - No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended June 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II
OTHER INFORMATION

ITEM 1. Legal Proceedings.

In October 2012, the Company notified the Kentucky Cabinet for Health and Family Services (Cabinet) that it was exercising a contractual right that it believes allows the Company to terminate its Medicaid managed care contract with the Commonwealth of Kentucky (Commonwealth) effective July 5, 2013. The Company also filed a lawsuit in Franklin Circuit Court against the Commonwealth seeking a declaration of the Company's right to terminate the contract on July 5, 2013. In April 2013, the Commonwealth answered that lawsuit and filed counterclaims against the Company seeking declaratory relief and damages. In May 2013, the Franklin Circuit Court ruled that Kentucky Spirit does not have a contractual right to terminate the contract early. Kentucky Spirit has appealed that ruling to the Kentucky Court of Appeals.

The Company also filed a formal dispute with the Cabinet for damages incurred under the contract, which was later appealed to and denied by the Finance and Administration Cabinet. In response, the Company filed a lawsuit in April 2013, in Franklin Circuit Court seeking damages against the Commonwealth for losses sustained due to the Commonwealth's alleged breaches. This lawsuit was subsequently consolidated with the original lawsuit for declaratory relief and continues to proceed.

Kentucky Spirit's efforts to resolve issues with the Commonwealth were unsuccessful and on July 5, 2013, Kentucky Spirit proceeded with its previously announced exit. The Commonwealth has alleged that Kentucky Spirit's exit constitutes a material breach of contract. The Commonwealth seeks to recover substantial damages and to enforce its rights under Kentucky Spirit's \$25.0 million performance bond. In March 2014, Kentucky Spirit received a demand letter from the Commonwealth seeking damages to reimburse the Commonwealth for its alleged incurred and expected losses, expenses, transition costs and other damages for the period July 6, 2013 until July 5, 2014. The letter stated that the Commonwealth is seeking damages only on behalf of the Commonwealth, not the federal Centers for Medicare and Medicaid Services (CMS). In June 2014, the Commonwealth informed the Kentucky Department of Insurance that its expenditures due to Kentucky Spirit's departure range from \$28.0 million to \$40.0 million plus interest, and that the associated CMS expenditures range from \$92.0 million to \$134.0 million. Kentucky Spirit disputes the Commonwealth's alleged damages, is pursuing its own litigation claims for damages against the Commonwealth and will vigorously defend against any allegations that it has breached the contract.

The resolution of the Kentucky litigation matters may result in a range of possible outcomes. If the Company prevails on its claims, Kentucky Spirit would be entitled to damages under its lawsuit. If the Commonwealth prevails, a liability to the Commonwealth could be recorded. The Company is unable to estimate the ultimate outcome resulting from the Kentucky litigation. As a result, the Company has not recorded any receivable or any liability for potential damages under the contract as of June 30, 2014. While uncertain, the ultimate resolution of the pending litigation could have a material effect on the financial position, cash flow or results of operations of the Company in the period it is resolved or becomes known.

Excluding the Kentucky matters discussed above, the Company is routinely subjected to legal proceedings in the normal course of business. While the ultimate resolution of such matters in the normal course of business is uncertain, the Company does not expect the results of any of these matters individually, or in the aggregate, to have a material effect on its financial position, cash flow or results of operations.

ITEM 1A. Risk Factors.

**FACTORS THAT MAY AFFECT FUTURE RESULTS AND THE
TRADING PRICE OF OUR COMMON STOCK**

You should carefully consider the risks described below before making an investment decision. The trading price of our common stock could decline due to any of these risks, in which case you could lose all or part of your investment. You should also refer to the other information in this filing, including our consolidated financial statements and related notes. The risks and uncertainties described below are those that we currently believe may materially affect our Company. Additional risks and uncertainties that we are unaware of or that we currently deem immaterial also may become important factors that affect our Company.

Table of Contents

Reductions in funding or changes to eligibility requirements for government sponsored healthcare programs in which we participate could substantially affect our financial position, results of operations and cash flows.

The majority of our revenues come from government subsidized healthcare programs including Medicaid, Medicare, CHIP, LTC, ABD, Foster Care and Health Insurance Marketplace premiums. The base premium rate paid for each program differs, depending on a combination of factors such as defined upper payment limits, a member's health status, age, gender, county or region and benefit mix. Since Medicaid was created in 1965, the federal government and the states have shared the costs, with the federal share currently averaging around 57%.

Future levels of funding and premium rates may be affected by continuing government efforts to contain healthcare costs and may further be affected by state and federal budgetary constraints. Governments periodically consider reducing or reallocating the amount of money they spend for Medicaid, Medicare, CHIP, LTC, ABD and Foster Care. Adverse economic conditions may continue to put pressures on state budgets as tax and other state revenues decrease while the population that is eligible to participate in these programs increases, creating more need for funding. We anticipate this will require government agencies to find funding alternatives, which may result in reductions in funding for programs, contraction of covered benefits, and limited or no premium rate increases or premium rate decreases. A reduction (or less than expected increase), a protracted delay, or a change in allocation methodology in government funding for these programs, as well as termination of the contract for the convenience of the government, may materially and adversely affect our results of operations, financial position and cash flows.

Additionally, changes in these programs could reduce the number of persons enrolled in or eligible for these programs or increase our administrative or healthcare costs under these programs. Recent legislation generally requires that eligibility levels be maintained, but this could cause states to reduce reimbursement or reduce benefits in order for states to afford to maintain eligibility levels. If any state in which we operate were to decrease premiums paid to us or pay us less than the amount necessary to keep pace with our cost trends, it could have a material adverse effect on our results of operations, financial position and cash flows.

Lastly, if a federal government shutdown were to occur for a prolonged period of time, federal government payment obligations, including its obligations under Medicaid, Medicare, CHIP, LTC, ABD, Foster Care and the new Health Insurance Marketplaces, may be delayed. If the federal government fails to make payments under these programs on a timely basis, our business could suffer, and our financial position, results of operations or cash flows may be materially affected.

Failure to accurately estimate and price our medical expenses or effectively manage our medical costs or related administrative costs could negatively affect our financial position, results of operations or cash flows.

Our profitability depends, to a significant degree, on our ability to estimate and effectively manage expenses related to health benefits through our ability to contract favorably with hospitals, physicians and other healthcare providers. For example, our Medicaid revenue is often based on bids submitted before the start of the initial contract year. If our actual medical expense exceeds our estimates, our health benefits ratio, or our expenses related to medical services as a percentage of premium revenue, would increase and our profits would decline. Because of the narrow margins of our health plan business, relatively small changes in our health benefits ratio can create significant changes in our financial results. Changes in healthcare regulations and practices, the level of utilization of healthcare services, hospital and pharmaceutical costs, major epidemics or pandemics, new medical technologies, pharmaceutical compounds and other external factors, including general economic conditions such as inflation and unemployment levels, are beyond our control and could reduce our ability to accurately predict and effectively control the costs of providing health benefits.

Our medical expense includes claims reported but not paid, estimates for claims incurred but not reported, and estimates for the costs necessary to process unpaid claims at the end of each period. Our development of the medical claims liability estimate is a continuous process which we monitor and refine on a monthly basis as claims receipts and payment information as well as inpatient acuity information becomes available. As more complete information becomes available, we adjust the amount of the estimate, and include the changes in estimates in medical expense in the period in which the changes are identified. However, we still cannot be sure that our medical claims liability estimate is adequate or that adjustments to the estimate will not unfavorably impact our results of operations.

Table of Contents

Additionally, when we commence operations in a new state, region or product, we have limited information with which to estimate our medical claims liability. For a period of time after the inception of the new business, we base our estimates on state-provided historical actuarial data and limited actual incurred and received claims and inpatient acuity information. The addition of new categories of individuals who are eligible under new legislation may pose the same difficulty in estimating our medical claims liability. Similarly, we may face difficulty in estimating our medical claims liability beginning in 2014 under the newly created Health Insurance Marketplaces.

From time to time in the past, our actual results have varied from our estimates, particularly in times of significant changes in the number of our members. If it is determined that our estimates are significantly different than actual results, our results of operations and financial position could be adversely affected. In addition, if there is a significant delay in our receipt of premiums, our business operations, cash flows, or earnings could be negatively impacted.

The implementation of the Health Reform Legislation and other reforms could materially and adversely affect our results of operations, financial position and cash flows.

In March 2010, the Patient Protection and Affordable Care Act and the accompanying Health Care and Education Affordability Reconciliation Act, collectively referred to as the Affordable Care Act (ACA), were enacted. While the constitutionality of the ACA was generally upheld by the Supreme Court in 2012, the Court determined that states could not be required to expand Medicaid and risk losing all federal money for their existing Medicaid programs.

Under the ACA, Medicaid coverage was expanded to all individuals under age 65 with incomes up to 138% of the federal poverty level beginning January 1, 2014, subject to each states' election. The federal government will pay the entire costs for Medicaid coverage for newly eligible beneficiaries for 3 years (2014 through 2016). Beginning in 2017, the federal share begins to decline to 90% by 2020 and subsequent years. As of March 31, 2014, 27 states have expanded Medicaid eligibility or will be doing so in 2014. The ACA also maintained CHIP eligibility standards through September 2019.

The ACA required the establishment of Health Insurance Marketplaces for individuals and small employers to purchase health insurance coverage commencing in January 2014. Open enrollment began on October 1, 2013 and continued until March 31, 2014. The ACA required insurers participating on the Health Insurance Marketplaces to offer a minimum level of benefits and included guidelines on setting premium rates and coverage limitations.

Our ability to adequately price products offered in the Health Insurance Marketplaces may have a negative impact on our results of operations, financial position and cash flow. We may be adversely selected by individuals who will have a higher acuity level than the anticipated pool of participants. In addition, the risk corridor, reinsurance and risk adjustment ("three Rs") provisions of the ACA established to reduce risk for insurers may not be effective in appropriately mitigating the financial risks related to the Marketplace product. Further, the reinsurance component may not be adequately funded. Any variation from our expectations regarding acuity, enrollment levels, adverse selection, the three Rs, or other assumptions utilized in setting adequate premium rates could have a material adverse effect on our results of operations, financial position and cash flows.

The U.S. Department of Health and Human Services (HHS) has stated that it will consider a limited number of premium assistance demonstration proposals from States that want to privatize Medicaid expansion. States must provide a choice between at least two qualified health plans and offer very similar benefits as those available in the newly created Health Insurance Marketplaces. Arkansas became the first state to obtain federal approval to use Medicaid funding to purchase private insurance for low-income residents and we began operations under the program beginning January 1, 2014.

The ACA imposes an annual insurance industry assessment of \$8 billion starting in 2014, with increasing annual amounts thereafter. Such assessments are not deductible for income tax purposes. The fee will be allocated based on health insurers' premium revenues in the previous year. Each health insurer's fee is calculated by multiplying its market share by the annual fee. Market share is based on commercial, Medicare, and Medicaid premium revenue. Not-for-profit insurers may have a competitive advantage since they are exempt from paying the fee if they receive at least 80% of their premium revenue from Medicare, Medicaid, and CHIP, and other not-for-profit insurers are allowed to exclude 50% of their premium revenue from the fee calculation. If this federal premium assessment is imposed as enacted, and if we are not reimbursed by the states for the cost of the federal premium assessment (including the associated tax impact), or if we are unable to otherwise adjust our business model to address this new assessment, our results of operations, financial position and cash flows may be materially adversely affected.

Table of Contents

There are numerous steps required to implement the legislation, including the promulgation of a substantial number of new and potentially more onerous federal regulations. Further, various health insurance reform proposals are also emerging at the state level. Because of the unsettled nature of these reforms and numerous steps required to implement them, we cannot predict what additional health insurance requirements will be implemented at the federal or state level, or the effect that any future legislation or regulation will have on our business or our growth opportunities. Although we believe the legislation may provide us with significant opportunities to grow our business, the enacted reforms, as well as future regulations and legislative changes, may in fact have a material adverse effect on our results of operations, financial position or liquidity. If we fail to effectively implement our operational and strategic initiatives with respect to the implementation of healthcare reform, or do not do so as effectively as our competitors, our results of operations may be materially adversely affected.

Our business activities are highly regulated and new laws or regulations or changes in existing laws or regulations or their enforcement or application could force us to change how we operate and could harm our business.

Our business is extensively regulated by the states in which we operate and by the federal government. In addition, the managed care industry has received negative publicity that has led to increased legislation, regulation, review of industry practices and private litigation in the commercial sector. In each of the jurisdictions in which we operate, we are regulated by the relevant insurance, health and/or human services departments that oversee the activities of managed care organizations providing or arranging to provide services to Medicaid, Medicare and Health Insurance Marketplace enrollees. For example, our health plan subsidiaries, as well as our applicable specialty companies, must comply with minimum statutory capital and other financial solvency requirements, such as deposit and surplus requirements.

The frequent enactment of, changes to, or interpretations of laws and regulations could, among other things: force us to restructure our relationships with providers within our network; require us to implement additional or different programs and systems; restrict revenue and enrollment growth; increase our healthcare and administrative costs; impose additional capital and surplus requirements; and increase or change our liability to members in the event of malpractice by our contracted providers. In addition, changes in political party or administrations at the state, federal or country level may change the attitude towards healthcare programs.

Our contracts with states may require us to maintain a minimum health benefits ratio (HBR) or may require us to share profits in excess of certain levels. In certain circumstances, our plans may be required to rebate premium back to the state in the event profits exceed established levels or HBR does not meet the minimum requirement. Other states may require us to meet certain performance and quality metrics in order to maintain our contract or receive additional or full contractual revenue.

The governmental healthcare programs in which we participate are subject to the satisfaction of certain regulations and performance standards. For example, under Health Reform Legislation, Congress authorized CMS and the states to implement managed care demonstration programs to serve dually eligible beneficiaries to improve the coordination of their care. Participation in these demonstration programs is subject to CMS approval and the satisfaction of conditions to participation, including meeting certain performance requirements. Our inability to improve or maintain adequate quality scores and star ratings to meet government performance requirements or to match the performance of our competitors could result in limitations to our participation in or exclusion from these or other government programs. Specifically, several of our Medicaid contracts require us to maintain a Medicare health plan. Although we strive to comply with all existing regulations and to meet performance standards applicable to our business, failure to meet these requirements could result in financial fines and penalties. Also, states may not allow us to continue to participate in their government programs, or we may fail to win procurements to participate in such programs which could materially and adversely affect our results of operations, financial position and cash flows.

In addition, as a result of the anticipated expansion of our businesses and operations conducted in foreign countries, we face political, economic, legal, compliance, regulatory, operational and other risks and exposures that are unique and vary by jurisdiction. These foreign regulatory requirements with respect to, among other items, environmental, tax, licensing, intellectual property, privacy, data protection, investment, capital, management control, labor relations, and fraud and corruption regulations are different than those faced by our domestic businesses. In addition, we are subject to U.S. laws that regulate the conduct and activities of U.S.-based businesses operating abroad, such as the Foreign Corrupt Practices Act. Our failure to comply with laws and regulations governing our conduct outside the United States or to successfully navigate international regulatory regimes that apply to us could adversely affect our ability to market our products and services, which may have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Our businesses providing pharmacy benefit management (PBM) and specialty pharmacy services face regulatory and other risks and uncertainties which could materially and adversely affect our results of operations, financial position and cash flows.

We provide PBM and specialty pharmacy services through our US Script and AcariaHealth businesses. Each business is subject to federal and state laws that govern the relationships of the business with pharmaceutical manufacturers, physicians, pharmacies, customers and consumers. They also conduct business as a mail order pharmacy and specialty pharmacy, which subjects them to extensive federal, state and local laws and regulations. In addition, federal and state legislatures regularly consider new regulations for the industry that could materially and adversely affect current industry practices, including the receipt or disclosure of rebates from pharmaceutical companies, the development and use of formularies, and the use of average wholesale prices.

Our PBM businesses would be materially and adversely affected by an inability to contract on favorable terms with pharmaceutical manufacturers and other suppliers, and could face potential claims in connection with purported errors by our mail order or specialty pharmacies, including in connection with the risks inherent in the authorization, compounding, packaging and distribution of pharmaceuticals and other healthcare products. Disruptions at any of our mail order or specialty pharmacies due to an event that is beyond our control could affect our ability to process and dispense prescriptions in a timely manner and could materially and adversely affect our results of operations, financial position and cash flows.

If any of our government contracts are terminated or are not renewed or we receive an adverse review, audit or investigation, our business will suffer.

We provide managed care programs and selected services to individuals receiving benefits under governmental assistance programs. We provide those healthcare services under contracts with regulatory entities in the areas in which we operate. Our government contracts are generally intended to run for three years and may be extended for additional years if the contracting entity or its agent elects to do so. When our contracts expire, they may be opened for bidding by competing healthcare providers, and there is no guarantee that our contracts will be renewed or extended. Competitors may buy their way into the market by submitting bids with lower pricing. Further, our government contracts contain certain provisions regarding eligibility, enrollment and dis-enrollment processes for covered services, eligible providers, periodic financial and informational reporting, quality assurance, timeliness of claims payment and agreement to maintain a Medicare plan in the state and financial standards and are subject to cancellation if we fail to perform in accordance with the standards set by regulatory agencies.

We are also subject to various reviews, audits and investigations to verify our compliance with the terms of our contracts with various governmental agencies and applicable laws and regulations. Any adverse review, audit or investigation could result in: cancellation of our contracts; refunding of amounts we have been paid pursuant to our contracts; imposition of fines, penalties and other sanctions on us; loss of our right to participate in various programs; increased difficulty in selling our products and services; or loss of one or more of our licenses.

If any of our government contracts are terminated, not renewed, renewed on less favorable terms, or not renewed on a timely basis, or we have an adverse review, audit or investigation, our business will suffer, our goodwill could be impaired and our financial position, results of operations or cash flows may be materially affected.

Ineffectiveness of state-operated systems and subcontractors could adversely affect our business.

Our health plans rely on other state-operated systems or subcontractors to qualify, solicit, educate and assign eligible members into managed care plans. The effectiveness of these state operations and subcontractors can have a material effect on a health plan's enrollment in a particular month or over an extended period. When a state implements new

programs to determine eligibility, new processes to assign or enroll eligible members into health plans, or chooses new subcontractors, there is an increased potential for an unanticipated impact on the overall number of members assigned to managed care plans.

Our investment portfolio may suffer losses which could materially and adversely affect our results of operations or liquidity.

We maintain a significant investment portfolio of cash equivalents and short-term and long-term investments in a variety of securities, which are subject to general credit, liquidity, market and interest rate risks and will decline in value if interest rates increase or one of the issuers' credit ratings is reduced. As a result, we may experience a reduction in value or loss of liquidity of our investments, which may have a negative adverse effect on our results of operations, liquidity and financial condition.

Table of Contents

Execution of our growth strategy may increase costs or liabilities, or create disruptions in our business.

Our growth strategy includes the acquisition of health plans participating in government sponsored healthcare programs and specialty services businesses, contract rights and related assets of other health plans both in our existing service areas and in new markets and start-up operations in new markets or new products in existing markets. Although we review the records of companies or businesses we plan to acquire, it is possible that we could assume unanticipated liabilities or adverse operating conditions, or an acquisition may not perform as well as expected or may not achieve timely profitability. We also face the risk that we will not be able to effectively integrate acquisitions into our existing operations effectively without substantial expense, delay or other operational or financial problems and we may need to divert more management resources to integration than we planned.

In connection with start-up operations, we may incur significant expenses prior to commencement of operations and the receipt of revenue. For example, in order to obtain a certificate of authority in most jurisdictions, we must first establish a provider network, have systems in place and demonstrate our ability to administer a state contract and process claims. We may experience delays in operational start dates. As a result of these factors, start-up operations may decrease our profitability. In addition, we are planning to expand our business internationally and we will be subject to additional risks, including, but not limited to, political risk, an unfamiliar regulatory regime, currency exchange risk and exchange controls, cultural and language differences, foreign tax issues, and different labor laws and practices.

If we are unable to effectively execute our growth strategy, our future growth will suffer and our results of operations could be harmed.

If competing managed care programs are unwilling to purchase specialty services from us, we may not be able to successfully implement our strategy of diversifying our business lines.

We are seeking to diversify our business lines into areas that complement our government sponsored health plan business in order to grow our revenue stream and balance our dependence on risk reimbursement. In order to diversify our business, we must succeed in selling the services of our specialty subsidiaries not only to our managed care plans, but to programs operated by third-parties. Some of these third-party programs may compete with us in some markets, and they therefore may be unwilling to purchase specialty services from us. In any event, the offering of these services will require marketing activities that differ significantly from the manner in which we seek to increase revenues from our government sponsored programs. Our ineffectiveness in marketing specialty services to third-parties may impair our ability to execute our business strategy.

Adverse credit market conditions may have a material adverse effect on our liquidity or our ability to obtain credit on acceptable terms.

The securities and credit markets have been experiencing extreme volatility and disruption over the past several years. The availability of credit, from virtually all types of lenders, has at times been restricted. In the event we need access to additional capital to pay our operating expenses, fund subsidiary surplus requirements, make payments on or refinance our indebtedness, pay capital expenditures, or fund acquisitions, our ability to obtain such capital may be limited and the cost of any such capital may be significant, particularly if we are unable to access our existing credit facility.

Our access to additional financing will depend on a variety of factors such as prevailing economic and credit market conditions, the general availability of credit, the overall availability of credit to our industry, our credit ratings and credit capacity, and perceptions of our financial prospects. Similarly, our access to funds may be impaired if regulatory authorities or rating agencies take negative actions against us. If a combination of these factors were to

occur, our internal sources of liquidity may prove to be insufficient, and in such case, we may not be able to successfully obtain additional financing on favorable terms or at all.

If state regulators do not approve payments of dividends and distributions by our subsidiaries to us, we may not have sufficient funds to implement our business strategy.

We principally operate through our health plan subsidiaries. As part of normal operations, we may make requests for dividends and distributions from our subsidiaries to fund our operations. These subsidiaries are subject to regulations that limit the amount of dividends and distributions that can be paid to us without prior approval of, or notification to, state regulators. If these regulators were to deny our subsidiaries' request to pay dividends, the funds available to us would be limited, which could harm our ability to implement our business strategy.

Table of Contents

We derive a majority of our premium revenues from operations in a limited number of states, and our financial position, results of operations or cash flows would be materially affected by a decrease in premium revenues or profitability in any one of those states.

Operations in a limited number of states have accounted for most of our premium revenues to date. If we were unable to continue to operate in any of our current states or if our current operations in any portion of one of those states were significantly curtailed, our revenues could decrease materially. Our reliance on operations in a limited number of states could cause our revenue and profitability to change suddenly and unexpectedly depending on legislative or other governmental or regulatory actions and decisions, economic conditions and similar factors in those states. For example, states we currently serve may bid out their Medicaid program through a request for proposal process. Our inability to continue to operate in any of the states in which we operate could harm our business.

Competition may limit our ability to increase penetration of the markets that we serve.

We compete for members principally on the basis of size and quality of provider networks, benefits provided and quality of service. We compete with numerous types of competitors, including other health plans and traditional state Medicaid programs that reimburse providers as care is provided. In addition, the impact of healthcare reform legislation and potential growth in our segment may attract new competitors.

Some of the health plans with which we compete have greater financial and other resources and offer a broader scope of products than we do. In addition, significant merger and acquisition activity has occurred in the managed care industry, as well as complementary industries, such as the hospital, physician, pharmaceutical, medical device and health information systems businesses. To the extent that competition intensifies in any market that we serve, our ability to retain or increase members and providers, or maintain or increase our revenue growth, pricing flexibility and control over medical cost trends may be adversely affected.

If we are unable to maintain relationships with our provider networks, our profitability may be harmed.

Our profitability depends, in large part, upon our ability to contract at competitive prices with hospitals, physicians and other healthcare providers. Our provider arrangements with our primary care physicians, specialists and hospitals generally may be canceled by either party without cause upon 90 to 120 days prior written notice. We cannot provide any assurance that we will be able to continue to renew our existing contracts or enter into new contracts on a timely basis or under favorable terms enabling us to service our members profitably. Healthcare providers with whom we contract may not properly manage the costs of services, maintain financial solvency or avoid disputes with other providers. Any of these events could have a material adverse effect on the provision of services to our members and our operations.

In any particular market, physicians and other healthcare providers could refuse to contract, demand higher payments, or take other actions that could result in higher medical costs or difficulty in meeting regulatory or accreditation requirements. In some markets, certain healthcare providers, particularly hospitals, physician/hospital organizations or multi-specialty physician groups, may have significant market positions or near monopolies that could result in diminished bargaining power on our part. In addition, accountable care organizations, practice management companies, which aggregate physician practices for administrative efficiency and marketing leverage, and other organizational structures that physicians, hospitals and other healthcare providers choose may change the way in which these providers interact with us and may change the competitive landscape. Such organizations or groups of healthcare providers may compete directly with us, which could adversely affect our operations, and our results of operations, financial position and cash flows by impacting our relationships with these providers or affecting the way that we price our products and estimate our costs, which might require us to incur costs to change our operations. Provider networks may consolidate, resulting in a reduction in the competitive environment. In addition, if these

providers refuse to contract with us, use their market position to negotiate contracts unfavorable to us or place us at a competitive disadvantage, our ability to market products or to be profitable in those areas could be materially and adversely affected.

From time to time healthcare providers assert or threaten to assert claims seeking to terminate non-cancelable agreements due to alleged actions or inactions by us. In addition, we are aware that other managed care organizations have been subject to class action suits by healthcare providers with respect to claim payment procedures, and we may be subject to similar suits. Regardless of whether any suits brought against us are successful or have merit, they will still be time-consuming and costly and could distract our management's attention. As a result, we may incur significant expenses and may be unable to operate our business effectively. If we are unable to retain our current provider contract terms or enter into new provider contracts timely or on favorable terms, our profitability may be harmed.

Table of Contents

We may be unable to attract and retain key personnel.

We are highly dependent on our ability to attract and retain qualified personnel to operate and expand our business. If we lose one or more members of our senior management team, including our chief executive officer, Michael F. Neidorff, who has been instrumental in developing our business strategy and forging our business relationships, our business and financial position, results of operations or cash flows could be harmed. Our ability to replace any departed members of our senior management or other key employees may be difficult and may take an extended period of time because of the limited number of individuals in the managed care and specialty services industry with the breadth of skills and experience required to operate and successfully expand a business such as ours. Competition to hire from this limited pool is intense, and we may be unable to hire, train, retain or motivate these personnel.

If we are unable to integrate and manage our information systems effectively, our operations could be disrupted.

Our operations depend significantly on effective information systems. The information gathered and processed by our information systems assists us in, among other things, monitoring utilization and other cost factors, processing provider claims, and providing data to our regulators. Our healthcare providers also depend upon our information systems for membership verifications, claims status and other information. Our information systems and applications require continual maintenance, upgrading and enhancement to meet our operational needs and regulatory requirements. We regularly upgrade and expand our information systems' capabilities. If we experience difficulties with the transition to or from information systems or are unable to properly maintain or expand our information systems, we could suffer, among other things, operational disruptions, loss of existing members and difficulty in attracting new members, regulatory problems and increases in administrative expenses. In addition, our ability to integrate and manage our information systems may be impaired as the result of events outside our control, including acts of nature, such as earthquakes or fires, or acts of terrorists.

From time to time, we may become involved in costly and time-consuming litigation and other regulatory proceedings, which require significant attention from our management.

We are a defendant from time to time in lawsuits and regulatory actions relating to our business, including, without limitation, medical malpractice claims. Due to the inherent uncertainties of litigation and regulatory proceedings, we cannot accurately predict the ultimate outcome of any such proceedings. An unfavorable outcome could have a material adverse impact on our business and financial position, results of operations or cash flows. In addition, regardless of the outcome of any litigation or regulatory proceedings, such proceedings are costly and time consuming and require significant attention from our management, and could therefore harm our business and financial position, results of operations or cash flows.

An impairment charge with respect to our recorded goodwill and intangible assets could have a material impact on our results of operations.

We periodically evaluate our goodwill and other intangible assets to determine whether all or a portion of their carrying values may be impaired, in which case a charge to earnings may be necessary. Changes in business strategy, government regulations or economic or market conditions have resulted and may result in impairments of our goodwill and other intangible assets at any time in the future. Our judgments regarding the existence of impairment indicators are based on, among other things, legal factors, market conditions, and operational performance. For example, the non-renewal of our health plan contracts with the state in which they operate may be an indicator of impairment. If an event or events occur that would cause us to revise our estimates and assumptions used in analyzing the value of our goodwill and other intangible assets, such revision could result in a non-cash impairment charge that could have a material impact on our results of operations in the period in which the impairment occurs.

Table of Contents

If we fail to comply with applicable privacy, security, and data laws, regulations and standards, including with respect to third-party service providers that utilize sensitive personal information on our behalf, our business, reputation, results of operations, financial position and cash flows could be materially and adversely affected.

As part of our normal operations, we collect, process and retain confidential member information. We are subject to various federal and state laws and rules regarding the use and disclosure of confidential member information, including the Health Insurance Portability and Accountability Act (HIPAA) and the Health Information Technology for Economic and Clinical Health (HITECH) Act and the Gramm-Leach-Bliley Act, which require us to protect the privacy of medical records and safeguard personal health information we maintain and use. Despite our best attempts to maintain adherence to information privacy and security best practices as well as compliance with applicable laws and rules, our facilities and systems, and those of our third party service providers, may be vulnerable to privacy or security breaches, acts of vandalism or theft, malware, misplaced or lost data including paper or electronic media, programming and/or human errors or other similar events. In the past, we have had data breaches resulting in disclosure of confidential or protected health information that have not resulted in any material financial loss or penalty to date. However, future data breaches could require us to expend significant resources to remediate any damage, interrupt our operations and damage our reputation, subject us to state or federal agency review and could also result in enforcement actions, material fines and penalties, litigation or other actions which could have a material adverse effect on our business, reputation and results of operations, financial position and cash flows.

Many of our businesses are also subject to the Payment Card Industry Data Security Standard, which is a multifaceted security standard that is designed to protect credit card account data as mandated by payment card industry entities.

HIPAA broadened the scope of fraud and abuse laws applicable to healthcare companies. HIPAA created civil penalties for, among other things, billing for medically unnecessary goods or services. HIPAA established new enforcement mechanisms to combat fraud and abuse, including civil and, in some instances, criminal penalties for failure to comply with specific standards relating to the privacy, security and electronic transmission of protected health information. The HITECH Act expanded the scope of these provisions by mandating individual notification in instances of breaches of protected health information, providing enhanced penalties for HIPAA violations, and granting enforcement authority to states' Attorneys General in addition to the HHS Office for Civil Rights. It is possible that Congress may enact additional legislation in the future to increase penalties and to create a private right of action under HIPAA, which could entitle patients to seek monetary damages for violations of the privacy rules. In addition, HHS has announced that it will continue its audit program to assess HIPAA compliance efforts by covered entities with a focus on security risk assessments. Although we are not aware of HHS plans to audit any of our covered entities, an audit resulting in findings or allegations of noncompliance could have a material adverse effect on our results of operations, financial position and cash flows.

Under HIPAA, health plans are required to have the capacity to accept and send all covered transactions in a standardized electronic format. Penalties can be imposed for failure to comply with these requirements. The transaction standards have been modified to version 5010 to prepare for the implementation of the ICD-10 coding system. While we have prepared for the transition to ICD-10 in October 2015, if unforeseen circumstances arise, it is possible that we could be exposed to investigations and allegations of noncompliance. In addition, if some providers continue to use ICD-9 codes on claims after October 1, 2015, we may have to reject such claims, which may lead to claim resubmissions, increased call volume and provider and customer dissatisfaction. Further, providers may use ICD-10 codes differently than they used ICD-9 codes in the past, which could result in higher costs and reimbursement levels, or lost revenues under risk adjustment. During the transition to ICD-10, certain claims processing and payment information we have historically used to establish our reserves may not be reliable or available in a timely manner. As a result, implementation of ICD 10 may have a material adverse effect on our results of operations, financial position and cash flows.

A failure in or breach of our operational or security systems or infrastructure, or those of third parties with which we do business, including as a result of cyber attacks, could have an adverse effect on our business.

Information security risks have significantly increased in recent years in part because of the proliferation of new technologies, the use of the internet and telecommunications technologies to conduct our operations, and the increased sophistication and activities of organized crime, hackers, terrorists and other external parties, including foreign state agents. Our operations rely on the secure processing, transmission and storage of confidential, proprietary and other information in our computer systems and networks.

Table of Contents

Security breaches may arise from external or internal threats. External breaches include hacking personal information for financial gain, attempting to cause harm to our operations, or intending to obtain competitive information. We experience attempted external hacking attacks on a regular basis. We maintain a rigorous system of preventive and detective controls through our security programs; however, our prevention and detection controls may not prevent or identify all such attacks. Internal breaches may result from inappropriate security access to confidential information by rogue employees, consultants or third party service providers. Any security breach involving the misappropriation, loss or other unauthorized disclosure or use of confidential member information, financial data, competitively sensitive information, or other proprietary data, whether by us or a third party, could have a material adverse effect on our business reputation, financial condition, cash flows, or results of operations.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds.

 Issuer Purchases of Equity Securities
 Second Quarter 2014

Period	Total Number of Shares Purchased ¹	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ²
April 1 - April 30, 2014	9,015	\$62.57	—	1,667,724
May 1 - May 31, 2014	27,699	73.66	—	1,667,724
June 1 - June 30, 2014	3,388	74.56	—	1,667,724
Total	40,102	\$71.25	—	1,667,724

⁽¹⁾ Shares acquired represent shares relinquished to the Company by certain employees for payment of taxes or option cost upon vesting of restricted stock units or option exercise.

⁽²⁾ Our Board of Directors adopted a stock repurchase program which allows for repurchases of up to a remaining amount of 1,667,724 shares. No duration has been placed on the repurchase program.

ITEM 6. Exhibits.

EXHIBIT NUMBER	DESCRIPTION
10.1*	Amendment L (Version 2.10) to Contract between the Texas Health and Human Services Commission and Bankers Life Insurance Company of Wisconsin, Inc. d.b.a Superior HealthPlan Network
10.2	Amended and Restated 2012 Stock Incentive Plan (incorporated by reference to Exhibit 10.1 to Centene Corporation's Current Report on Form 8-K dated April 22, 2014).
12.1	Computation of ratio of earnings to fixed charges.
31.1	Certification of Chairman, President and Chief Executive Officer pursuant to Rule 13(a)-14(a) under the Securities Exchange Act of 1934, as amended.
31.2	Certification of Executive Vice President and Chief Financial Officer pursuant to Rule 13(a)-14(a) under the Securities Exchange Act of 1934, as amended.
32.1	Certification of Chairman, President and Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification of Executive Vice President and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
101.1	XBRL Taxonomy Instance Document.
101.2	XBRL Taxonomy Extension Schema Document.
101.3	XBRL Taxonomy Extension Calculation Linkbase Document.
101.4	XBRL Taxonomy Extension Definition Linkbase Document.
101.5	XBRL Taxonomy Extension Label Linkbase Document.
101.6	XBRL Taxonomy Extension Presentation Linkbase Document.

* The Company has requested confidential treatment of the redacted portions of this exhibit pursuant to Rule 24b-2 under the Securities Exchange Act of 1934, as amended, and has separately filed a complete copy of this exhibit with the Securities and Exchange Commission.
