BARINGS PARTICIPATION INVESTORS

Barings Participation Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange under the trading symbol "MPV". The Trust's share price can be found in the financial section of newspapers under either the New York Stock Exchange listings or Closed-End Fund listings.

INVESTMENT OBJECTIVE & POLICY

The Trust's investment objective is to maintain a portfolio of securities providing a current yield and, when available, an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations including bank loans and mezzanine debt instruments. Such direct placement securities may, in some cases, be accompanied by equity features such as common stock, preferred stock, warrants, conversion rights, or other equity features. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable debt securities (including high yield and/or investment grade securities) and marketable common stock. Below- investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital.

The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders four times a year in January, May, August, and November. All registered shareholders are automatically enrolled in the Dividend Reinvestment and Cash Purchase Plan unless cash distributions are requested.

In this report, you will find a complete listing of the Trust's holdings. We encourage you to read this section carefully for a better understanding of the Trust. We cordially invite all shareholders to attend the Trust's Annual Meeting of Shareholders, which will be held on April 24, 2019 at 1:00 P.M. in Charlotte, North Carolina.

TO OUR SHAREHOLDERS

I am pleased to share with you the Trust's Annual Report for the year ended December 31, 2018.

PORTFOLIO PERFORMANCE

The Trust's net total portfolio rate of return for 2018 was 2.53%, as measured by the change in net asset value assuming the reinvestment of all dividends and distributions. The Trust's total net assets were \$138,749,101 or \$13.18 per share, as of December 31, 2018. This compares to \$145,480,065 or \$13.91 per share, as of December 31, 2017. The Trust paid a quarterly dividend of \$0.27 per share for each of the four quarters of 2018, for a total annual dividend of \$1.08 per share. In 2017, the Trust also paid four quarterly dividends of \$0.27 per share, for a total annual dividend of \$1.08 per share. Net taxable investment income for 2018 was \$1.04 per share, including approximately \$0.04 per share of non-recurring income, compared to 2017 net taxable investment income of \$1.04 per share, which included approximately \$0.09 per share of non-recurring income.

The Trust's stock price increased 6.7% during 2018, from \$14.10 as of December 31, 2017 to \$15.05 as of December 31, 2018. The Trust's stock price of \$15.05 as of December 31, 2018 equates to a 14.2% premium over the December 31, 2018 net asset value per share of \$13.18. The Trust's average quarter-end premium for the 3-, 5-, and 10-year periods ended December 31, 2018 was 6.0%, 2.5% and 7.5%, respectively.

The table below lists the average annual net returns of the Trust's portfolio, based on the change in net assets and assuming the reinvestment of all dividends and distributions at net asset value. Average annual returns of the Bloomberg Barclays U.S. Corporate High Yield Index and the Russell 2000 Index for the 1-, 3-, 5-, 10- and 25-year periods and the Credit Suisse Leveraged Loan Index for the 1-year period ended December 31, 2018 are provided for comparison purposes only.

PORTFOLIO ACTIVITY

The Trust had a very active fourth quarter, closing on 15 new private placement investments and three add-on investments in existing portfolio companies representing \$23,961,648 of invested capital. For the year, the Trust closed 32 new private placement investments, and 14 add-on investments in existing portfolio companies. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in private placement investments in 2018 was \$52,534,366 which was significantly higher than the \$23,786,056 of new private placement investments made by the Trust in 2017, and the highest annual dollar volume since inception.

Barings Participation Investors

Throughout 2018, the Trust's level of new investment activity benefited from several factors: the expansion of the Trust's target investment criteria; expansion of Barings' (the Trust's investment advisor) private debt platform; and overall activity within the private debt market. These favorable items were partially offset by the continuance of hyper-competitive and aggressive market conditions. While overall middle market sponsored private debt investment activity increased slightly (3%) in 2018, volume in the second half of the year was 26% lower than that of the first half of the year (source: Thomson Reuters Middle Market Weekly 2018 Sponsored Review, January 11, 2019). Competition for new investment opportunities remained intense due to the amount of fresh capital that continues to flow into the private debt and private equity markets. As a result, companies continued to be pursued aggressively by both buyers and lenders, causing high purchase price multiples and leverage levels to continue to be prevalent in the market. In 2018, average purchase price multiples for middle market companies remained relatively unchanged, but at a level of approximately 10.5 times EBITDA plus-or-minus depending on the amount of a company's EBITDA (S&P Global LCD M&A Stats, December 31, 2018). While average purchase price multiples remained relatively flat, average debt multiples increased modestly in 2018 to 6.2x total leverage and [6.0x] senior leverage, the highest levels for each since 2003 (Thomson Reuters Middle Market Weekly 2018 Sponsored Review, January 11, 2019).

In addition to working on new investment activity, we continue to maintain our focus on managing and maintaining the quality of the portfolio. As such, the credit quality of the Trust's existing portfolio remained stable throughout the year. We believe the number of companies on our watch list or in default continues to remain at an acceptable level.

We had 22 companies exit from the Trust's portfolio during 2018. This level of exit activity remains relatively high for the Trust's portfolio from an overall historical perspective, but is comparable to realization levels since 2014, which have ranged from 18-32 exits annually. In 19 of these exits, the Trust realized a positive return on its investment. In our view, the relatively high realization activity in recent years is yet another indicator of how active and aggressive the middle market M&A and debt markets have been, and continue to be.

During 2018, the Trust had eight portfolio companies fully or partially pre-pay their debt obligations, with two of these transactions resulting in dividend payments to the Trust as a result of its equity holdings in those companies. These prepayment transactions are generally driven by performing companies seeking to take advantage of lower interest rates and the abundant availability of debt capital. Unless replaced by new private debt investments, these prepayments reduce net investment income. The level of refinancing activity the portfolio has experienced has remained relatively stable since 2016.

OUTLOOK FOR 2019

As we enter 2019, we believe debt markets continue to look promising. Default rates remain at relatively low levels, there is plenty of both private equity and private debt capacity, which should continue to drive middle market M&A activity, and our pipeline of investment opportunities remains relatively stable and healthy. However, as mentioned above, the dynamics within that market have been, and are expected to remain aggressive. Regardless of market conditions, we will continue to employ on behalf of the Trust the same investment philosophy that has served it well since its inception: investing in companies which we believe have a strong business proposition, solid cash flow and experienced, ethical management. We believe this philosophy, along with Barings' seasoned investment-management team, positions the Trust well to meet its long-term investment objectives.

The Trust was able to maintain its \$0.27 per share quarterly dividend in 2018 for a total annual dividend of \$1.08 per share. As has been mentioned in prior reports, recurring

2018 Annual Report

investment income alone has generally not been sufficient to fully fund the current dividend rate and has been supplemented by non-recurring income. While recurring investment income continues to improve, it may not be sufficient to fully fund the current dividend rate in the future. Net investment income has generally been below the dividend rate since 2013 due principally to the considerable reduction in the number of higher yielding private debt securities resulting from prepayments and realizations in the portfolio, combined with generally lower investment returns available due to market and competitive dynamics in recent years and currently. As evidenced by the record level of investment activity the Trust experienced in 2018, we continued to make good progress in growing recurring investment income in 2018. Furthermore, the percentage of the portfolio in floating rate debt securities increased considerably in 2018 to 40% compared to 11% a year ago. All of the above said, we expect that the level of recurring investment income generated by the Trust in 2019 combined with the availability of earnings carry forwards and other non-recurring income will allow us to maintain the current dividend rate over the next several quarters. Over time, however, the Trust's dividend paying ability tends to be correlated with its recurring earnings capacity.

As always, I would like to thank you for your continued interest in and support of Barings Participation Investors. I look forward to seeing you at the Trust's annual shareholder meeting in Charlotte, NC, on April 24, 2019.
