On May 20, 2010, the Compensation Committee of Board of Directors of Bottomline Technologies (de), Inc. (the "Company") approved the extension of an existing equity compensation policy for an additional 3 year period providing that the annual equity pool for all Company employees, including executives, be adjusted upwards or downwards depending upon the Company's stock price (based on a 30-day trailing average as of July first of each year), non-GAAP net income and revenues for the preceding fiscal year. The percentage change in each metric is multiplied by one-third (thus weighting each equally), and the sum of the resulting net percentage is divided by two. The equity pool for the prior fiscal year is then adjusted upwards or downwards by a percentage equal to that amount, to determine the equity pool for the current year. This policy will remain in place through fiscal 2014.
