EXPLANATORY NOTE:

This Amendment No. 1 to our Quarterly Report on Form 10-QSB for the quarter ended March 31, 2007 is being filed principally to provide revised disclosures in our financial statements and the related notes to the consolidated financial statements. In the second quarter of 2007, the U.S. Securities and Exchange Commission ("SEC") requested certain information from us in connection with an ordinary course review of our Annual Report on Form 10-KSB for the year ended December 31, 2006, including our application of successful efforts accounting under U.S. GAAP (see footnote 2 to our financial statements on Form 10-KSB/A for the year ended December 31, 2006) and of purchase accounting for the April 2006

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

acquisitions of our wholly-owned subsidiaries, Nations Natural Gas Pty Limited and Alpha Oil and Natural Gas Pty Limited (see footnotes 6 and 9 to our consolidated financial statements). In the third quarter of 2007 the SEC requested more information regarding the purchase accounting of Alpha and Nations.

For the convenience of the reader, this Form 10-QSB/A sets forth the consolidated financial statements and the entire March 31, 2007 Form 10-QSB. However, this Form 10-QSB/A amends and restates only Items 1 and 3 of the March 31, 2007 Form 10-QSB. No information in this Form 10-QSB/A has been updated for any subsequent events occurring after May 15, 2007, the date of the original filing.

The aforementioned changes have had no material effect on the company's consolidated balance sheets as of March 31, 2007 and December 31, 2006 but have had a material effect on the related consolidated statements of operations and cash flows for the quarters ended March 31, 2007 and 2006.

(an exploration stage enterprise)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

The accompanying interim financial statements of Australian Oil & Gas Corporation are unaudited. However, in the opinion of management, the interim data includes all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the results for the interim period. The results of operations for the period ended March 31, 2007 are not necessarily indicative of the operating results for the entire year. The interim financial statements should be read in conjunction with our Annual Report on Form 10-KSB/A for the year ended December 31, 2006 (filed February 6, 2008).

Note 1: Organization

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

Australian Oil & Gas Corporation (the Company) was incorporated in Delaware on August 6, 2003, and began operations on August 11, 2003 and is considered to be a crude petroleum and natural gas company in the exploratory stage as defined by SFAS No. 7. Since inception it has been engaged in the assessment of oil and gas exploration properties.

The authorized capital stock of the AOGC consists of 75,000,000 shares of common stock (AOG Common Stock), \$0.001 par value

The Company has two wholly owned, Delaware-incorporated US subsidiaries; Gascorp, Inc. and Nations LNG, inc. and two wholly owned Australian subsidiaries; Alpha Oil & Natural Gas Pty Ltd and Nations Natural Gas Pty Ltd.

Note 2: Related Party Transactions

Mr. E Geoffrey Albers is a director and shareholder of each of Great Missenden Holdings Pty Ltd and of Setright Oil & Gas Pty Ltd. Effective from April 4, 2005, in return for the previous advances of \$212,000, the Company issued to Great Missenden Holdings Pty Ltd 212 Series I Convertible Notes of \$1,000 each, with an interest coupon of 10% per annum, convertible into shares of Common Stock at any time on or before December 31, 2007 on the basis of 12,500 shares of Common Stock for every \$1,000 Convertible Note or part thereof. Effective from April 26, 2005, Great Missenden Holdings Pty Ltd approved a further \$100,000 Line of Credit to the Company in return for the issue to Great Missenden Holdings of 100 Series II Convertible Notes of \$1,000 each with an interest rate of 10% per annum, convertible into shares of Common Stock at any time on or before 31 December, 2008 on the basis of 10,000 shares of Common Stock for every \$1,000 Series II Convertible Notes or part thereof. As at March 31, 2007, an amount of \$71,000 had been drawn down pursuant to the \$100,000 Line of Credit, which were converted into these Series II Convertible Notes. Great Missenden Holdings Pty Ltd charged \$6,822 for interest on all advances and \$5,128 for corporate services during the quarter. Setright Oil & Gas Pty Ltd charged the Company \$15,015 during the quarter for the provision of accounting and administrative services rendered by third parties for the benefit of the Company, but not including services rendered by Mr. E Geoffrey Albers, who is remunerated separately.

We also have the use of premises in Australia at Level 25, 500 Collins Street, Melbourne, Victoria. The office space is taken on a nonexclusive basis, with no rent payable, but the usage of the premises is included in the charges Setright Oil & Gas Pty Ltd makes in respect to the administration of the Company.

7

On April 12, 2006, AOGC completed the acquisitions of 100% of the voting equity interests in each of Nations Natural Gas Pty Ltd (Nations) and Alpha Oil & Natural Gas Pty Ltd (Alpha), both companies carrying on oil and gas exploration activities offshore from Australia. Each company is incorporated in Australia. A director of AOGC, Mr. E. Geoffrey Albers, is a director and or shareholder of each of the sellers of shares in Nations and Alpha. Nations was acquired at a cost of \$267,000 and Alpha was acquired at a cost of \$293,000.

With respect to the acquisition of Nations, the purchase price was satisfied by the issue of 2,100,001 shares of common stock with a fair market value at the date of the acquisition of \$231,000, together with a cash payment of \$36,000.

With respect to the acquisition of Alpha, the purchase price was satisfied

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

by the issue of 2,000,002 shares of common stock with a fair market value at the date of acquisition of \$220,000, together with a cash payment of \$73,000.

Mr. E. Geoffrey Albers is a director and or shareholder of each of the sellers of shares in Nations and Alpha. Mr. E. Geoffrey Albers had beneficial ownership percentages of 99.8% in Alpha and 98.8% in Nations prior to the acquisition by AOGC and had a beneficial ownership percentage of 53% in AOGC prior to the completion of the acquisitions and had a beneficial ownership percentage of 59.22% after the completion of the acquisitions in April 2006.

The purchase of Nations was made in order to acquire an interest in the four permits of the National Gas Consortium, being permits, NT/P62, NT/P63, NT/P64 and NT/P65. The shareholders of Nations have received 2,100,001 shares of common stock in AOGC and the payment of AUD\$50,000 as consideration for Nations.

The purchase of Alpha was made in order to acquire an interest in the Browse Joint Venture, then being permits, WA-332-P, WA-333-P, WA-341-P and WA-342-P. The shareholders of Alpha have received 2,000,002 shares of common stock in AOGC and the payment of AUD\$100,000.

Mr. Albers is a director and shareholder in the joint venture participants with regard to exploration permits ACP/33, ACP/35 and AC/P39; namely National Gas Australia Pty Ltd, Natural Gas Corporation Pty Ltd and Auralandia N.L. Mr Muzzin is a shareholder in Auralandia N.L.

With regard to the Browse Joint Venture, Mr. Albers is a director and shareholder in each of Batavia Oil & Gas Pty Ltd and Exoil Limited, the parent of Hawkestone Oil Pty Ltd. He is a major shareholder in the parent of Goldsbrough Energy Pty Ltd. All of these companies are the holders of the Browse Joint Venture.

Mr. Mark A Muzzin is a director of Goldsbrough Energy Pty Ltd, a subsidiary of Goldsbrough Limited and is a shareholder in Exoil Limited, the parent of Hawkestone Oil Pty Ltd.

With regard to the National Gas Consortium, Mr. Albers is a director and shareholder in each of National Oil & Gas Pty Ltd, Australian Natural Gas Pty Ltd.

Expenditure incurred by National Gas Australia Pty Ltd has resulted in, National Gas Australia Pty Ltd earning a 20% interest in each of NT/P62, NT/P63, NT/P64, NT/P65, NT/P71 and NT/P72, (National Gas Consortium), of which 6% was earned from Nations.

8

As a result of incurring expenditures, National Gas Australia Pty Ltd has earned a 25% interest in each of AC/P33, AC/P35 and AC/P39 (Vulcan Joint Venture), 5% of which was earned from AOGC subsidiary, Alpha.

Note 3: Current Liabilities

At March 31, 2007 the Company recorded a liability to Setright Oil & Gas Pty Ltd and Great Missenden Holdings Pty Ltd of \$15,015 and \$5,128, respectively, as set out in Note 2 Related Party Transaction.

Note 4: Issued Shares

At 31 March 2007, 375,000 shares included in issued and outstanding shares of 36,275,531 disclosed in the balance sheet and used for the earnings per common share calculation were not issued. These shares were authorised to

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

compensate Mr Albers and will be issued in the quarter ending December 31 2007.

Note 5: Comprehensive Income

Comprehensive income is the change in equity during a period from transactions and other events from non-owner sources. The Company is required to classify items of other comprehensive income in financial statement to display the accumulated balance of other comprehensive income separately in the equity section of the Consolidated Balance Sheet.

The functional currency of Australian Oil & Gas Corporation's Australian subsidiaries is the Australian dollar. The comprehensive income of \$235,000 disclosed in the Consolidated Balance Sheet is the accumulation of all currency exchange differences arising from translating the Australian subsidiaries' financial statements from functional currency to presentation from the acquisition date of these Australian subsidiaries to the current balance date.

Note 6: Transfer of Interest under Common Control

On April 12, 2006, AOGC completed the acquisitions of 100% of the voting equity interests in each of Nations Natural Gas Pty Ltd (Nations) and Alpha Oil & Natural Gas Pty Ltd (Alpha), both companies carrying out oil and gas exploration activities offshore from Australia. Each company is incorporated in Australia. A director of AOGC, Mr. E. Geoffrey Albers, is a director and or shareholder of each of the sellers of shares in Nations and Alpha.

Mr. E. Geoffrey Albers is a director and or shareholder of each of the sellers of shares in Nations and Alpha. Mr. E. Geoffrey Albers had beneficial ownership percentages of 99.8% in Alpha and 98.8% in Nations prior to the acquisition by AOGC and had a beneficial ownership percentage of 53% in AOGC prior to the completion of the acquisitions of Alpha and Nations

The purchase of Nations was made in order to acquire an interest in the four permits of the National Gas Consortium, being permits, NT/P62, NT/P63, NT/P64 and NT/P65. The shareholders of Nations have received

2,100,001 shares of common stock in AOGC and have received AUD\$50,000 as consideration for Nations.

9

The purchase of Alpha was made in order to acquire an interest in the Browse Joint Venture, then being permits, WA-332-P, WA-333-P, WA-341-P and WA-342-P. The shareholders of Alpha have received 2,000,002 shares of common stock in AOGC and the payment of AUD\$100,000.

Due to the common ownership, outlined above, by Mr. E. Geoffrey Albers of AOGC, Alpha and Nations, the acquisitions are deemed to be a transfers of interests under common control with AOGC for the purposes of SFAS No, 141 entitled "Business Combinations". The transfers have been accounted for using a method like pooling of interests whereby the assets and the liabilities of AOGC, Alpha and Nations have been combined at their respective carrying values. Further, as detailed in Note 9, the consolidated financial statements and financial information presented for prior years have been restated to furnish comparative information. All restated consolidated financial statements have noted that financial data of the previously separate entities are combined.

Note 7: Stock Based Compensation expense - amendment of comparatives

The Form 10-Q for AOGC for the period ended 31 March, 2006 disclosed compensation expense of \$50,000 for the quarter. As directed by SEC staff in correspondence dated June 25, 2007 per SAB Topic 14:F compensation expense

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

should be presented in the Statement of Operations using the function of the expense. The company has allocated the compensation expense equally between general and administrative expense and exploration expense in the current and comparatives period's Consolidated Statements of Operations.

NOTE 8 - SALE OF TENEMENT

On the 15th March 2006 Alpha sold its 20% interest in the WA-341-P exploration tenement for proceeds and a profit of \$1,261,238. This tenement was carried at no value in the Consolidated Balance Sheet.

Note 9: Restatement of Financial Statements

Subsequent to the issuance of the Company's 2006 Financial Statements, the company received correspondence from SEC staff regarding the accounting treatment of the acquisition of the Australian subsidiary companies as disclosed in Note 6.

From this correspondence, management determined that it had not correctly applied the guidance provided in SFAS 141 Business Combinations, including the paragraphs D11 to D18 regarding transfer of interest under common control.

The Company has restated its consolidated financial statements back to the period from inception - August 6, 2003, for the quarter ended March 31, 2007 and for the quarter ended March 31, 2006.

The following tables set forth the effects of the restatement on the Company's Consolidated Balance Sheet, the Consolidated Statement of Operations and the Consolidated Statement of Cash Flows.

Item 2. Management's Discussion and Analysis or Plan of Operation

Forward-looking statements

References in this report to "the Company", "we", "us", or "our" are intended to refer to Australian Oil & Gas Corporation. This quarterly report contains certain statements that may be deemed forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the United States Securities Exchange Act of 1934, as amended (Exchange Act). Readers of this quarterly report are cautioned that such forward-looking statements are not guarantees of future performance and that actual results, developments and business decisions may differ from those envisaged by such forward-looking statements.

All statements, other than statements of historical facts, so included in this quarterly report that address activities, events or developments that the Company intends, expects, projects, believes or anticipates will or may occur in the future, including, without limitation: statements regarding our business strategy, plans and objectives and statements expressing beliefs and expectations regarding our ability to successfully raise the additional capital necessary to meet our obligations, our ability to secure the permits necessary to facilitate anticipated seismic and drilling activities and our ability to attract additional working interest owners to participate in the exploration for and development of oil and gas resources, are forward-looking statements within the meaning of the Act. These forward-looking statements are and will be based on management's then-current views and assumptions regarding future events.

Plan of Operation

General Australian Oil & Gas Corporation is an independent energy company focused on the acquisition and exploration for oil and natural gas resources. Our core business is directed at the acquisition of interests in oil and gas properties in the offshore areas of Australia's territorial waters. We rely on the considerable experience in the oil and gas industry of our President, Mr. E. Geoffrey Albers, and our consultants, to identify and conduct initial analyses of properties in which we may acquire an interest.

Strategy We devote essentially all of our resources to the identification of large-tract oil and gas properties in their early stages of exploration which have the potential for a high impact outcome for the Company in the event of exploration success. We plan to advance the prospectivity of these properties through the application of geological and geophysical expertise and through the provision of new 2D and 3D seismic surveys. We seek to keep our capital outlays and overheads at a minimum level. We retain selected consultants, contractors and service companies. We use proven technologies in evaluating the prospectivity of our oil and gas properties. We expect to invest in projects at different levels of participation, including 100% ownership. We plan to maintain as high a percentage of participation as can be prudently managed. We will focus on areas considered to have speculative near term potential for oil discovery or medium term potential for gas discovery. An important part of our strategy is to select prospective acreage which, at the seismic or drilling stage, can be farmed out and/or developed in conjunction with other industry players so as to minimize our financial outlay requirements, wherever possible, through promoted transactions. Our overall intention is to provide maximum leverage for shareholders at minimal cost, in return for the high risk activities that we undertake.

Since August 2003, when current management began operating the Company, we have not conducted any revenue generating business operations. Accordingly, we have no results of such operations to report. However, we continue to actively pursue our long term strategy of acquiring interests in oil and gas exploration projects with a particular emphasis on the northern basins of the North West Shelf of Australia.

Following implementation of our acquisition strategy we now hold interests in 14 Petroleum Exploration Permits granted by the Commonwealth of Australia. With one exception, they are held in joint venture with other parties.

Vulcan Joint Venture

Our wholly owned subsidiary, Alpha Oil & Natural Gas Pty Ltd, following farmout of seismic commitments to National Gas Australia Pty Ltd (NGA), (see below) now holds a 15% interest in the permits, AC/P33, AC/P35 and AC/P39 in joint venture with its affiliates; NGA (25%), Natural Gas Corporation Pty Ltd (NGC) (30%) and Auralandia N.L. (Auralandia) (30%), the designated Operator. The permits are within the territory of Ashmore and Cartier Islands, an Australian offshore territory.

Geologically, AC/P33, AC/P35 and AC/P39 are located on the eastern margin of the Vulcan Sub-basin; one of a number of proven petroliferous sub-basins which together comprise the North West Shelf hydrocarbon province of Australia.

AC/P33 includes the undeveloped Oliver oil and gas accumulation, drilled by the now plugged and abandoned Oliver-1 well. AC/P33 comprises five graticular blocks, totaling approximately 400 km(2) (98,800 acres). In the first three years of the initial 6-year term of permit AC/P33, the joint venture participants have obtained a range of existing reports and open file seismic data and have mapped, interpreted and revised analyses and concepts for the area. The joint venture has carried out enhancement of existing seismic data around the Oliver feature, and has examined various techniques for the potential use to provide direct hydrocarbon indicators. As a result of the farmout to NGA, the joint venture has acquired 124 km(2) (acres) of new high quality enhanced parameter 3D seismic survey, known as the Oliver 3D Seismic Survey. The survey was conducted over the Oliver feature and part of its extension to the east. Should the joint venture so decide, it can elect to enter the second three years of the initial permit and drill one exploration well and perform further interpretational work. Active geological and geophysical evaluation of the permit continues including processing of the Oliver Seismic Survey and reprocessing of part of the immediately adjacent Onnia 3D Seismic Survey in the vicinity of the Oliver-1 well.

AC/P35 is located immediately to the north of AC/P33. It comprises 46 graticular blocks, totaling approximately 3,410 km(2) (842,645 acres). There have been five wells drilled in the area, with two having oil and gas indications, all of which were plugged and abandoned. In the first three years of the initial 6-year term of the AC/P35 permit, we plan to obtain a range of pertinent existing reports and open file seismic data. In the third year, we presently plan to shoot 250 km(2) of 3D seismic survey. Should we so decide, we can elect to enter the second three years of the initial permit term and drill one exploration well and perform further interpretational work. Geological evaluation of the permit is continuing, including the reprocessing of

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

approximately 1,750 km(2) of previously acquired 3D seismic over AC/P35.

AC/P39 is located 600 km west of Darwin, immediately to the east of AC/P33 and AC/P35. It comprises 11 graticular blocks, totalling approximately 920 km(2) (2,273 acres). AC/P39 lies within 100 km of existing petroleum production facilities and along the eastern elevated flank of the Vulcan Sub-basin, a broad, deep and proven hydrocarbon-generative basin. There have been five wells drilled in the area, with two having oil and gas indications. In the first three years of the initial 6-year term of the AC/P39 permit, we plan to obtain a range of existing reports and open file seismic data. In the third year, we plan to drill one exploration well. Geological evaluation of the permit is continuing, including the re-processing of approximately 920 km(2) of previously acquired 3D seismic over AC/P39.

20

Gascorp, Inc. on May 15, 2006 agreed to farmout 5% of its 20% interest in each of the Vulcan Joint Venture Permits to National Gas Australia Pty Ltd (leaving Gascorp with a 15% interest) in return for the acquisition and funding of Gascorp's 20% share of the new Oliver 3D seismic survey of approximately 124 km(2) and the funding of the reprocessing of approximately 2,800 km(2) of existing 3D data. The cost of the Company's share of the Oliver survey has been met entirely by National Gas Australia Pty Ltd.

Browse Joint Venture

On April 12, 2006, we completed the acquisition of Alpha, a transaction entered into in July 1, 2004. The acquisition of Alpha was made in order to acquire a 20% interest in the Browse Joint Venture, being permits, WA-332-P, WA-333-P, WA-341-P and WA-342-P. The shareholders of Alpha on August 29, 2006 have received 2,000,002 shares of common stock in AOGC and were paid AUD\$100,000.

Following the entering into of the transaction on July 1, 2004, but prior to the agreement between being finalized, Alpha (with the approval of AOGC) sold its 20% interest in WA-341-P to a third party for an amount in excess of book value. The settlement funds were received by Alpha and since April 12, 2006, have been incorporated in funds available to AOGC, through its new wholly owned subsidiary, Alpha.

The now remaining Permits of the Browse Joint Venture WA-332-P, WA-333-P and WA-341-P are contiguous and are located in the offshore Browse Basin, a part of the North West Shelf of Australia. They cover a total area of 9,460 km(2) (2,336,620 acres).

The Browse Basin region is a proven major hydrocarbon area and it forms a part of the extensive series of continental margin sedimentary basins that, together, comprise the North West Shelf hydrocarbon province of Australia. The Browse Basin has been host to a series of major gas, gas condensate and oil discoveries which began with the 1971 discovery at Scott Reef-1. The Browse Basin is currently the focus for two proposals to establish new LNG export facilities; one by Woodside Energy Ltd in relation to the Scott Reef/Brecknock complex and the other by Inpex Corporation in relation to the Ichthys complex. The Browse Joint Venture permits are presently lightly explored. There is one well on the boundary of WA-332-P (Prudhoe-1), one well in WA-333-P (Rob Roy-1), and a total of fourteen wells in WA-342-P, mostly associated with the undeveloped Cornea oil and gas accumulation.

Last year the Browse Joint Venture completed the shooting of the Braveheart seismic survey of approximately 1,949 line km of new 2D seismic survey over these Browse Joint venture permits

In the first three year term of the Permits, the Browse Joint Venture committed to obtain available open file reports and basic 2D and 3D seismic data acquired by earlier efforts of previous explorers. This included approximately 1,100 km(2) of high quality 3D seismic known as the Cornea 3D survey which is held by the Browse Joint Venture. Approximately 1,000 km(2) of this 3D data set is being reprocessed. The data sets will be integrated with the acquisition and processing of the recent 1949 line km Braveheart 2D seismic survey to infill the existing grid of data, with lead specific coverage. Should the Browse Joint Venture so decide, it can elect to enter a second three year permit term and in which it has indicated it will drill one well in each permit. Active geological and geophysical evaluation of all of the Browse Joint Venture Permits is continuing, with special studies having been carried out in respect to the undeveloped Cornea oil and gas accumulation.

National Gas Consortium

On April 12, 2006, we completed of the acquisition of Nations Natural Gas Pty Ltd (Nations). The acquisition of Nations was entered into on September 10, 2004 and made in order to acquire an interest in the initial four permits of the National Gas Consortium, being permits, NT/P62, NT/P63, NT/P64 and NT/P65 ("Timor Sea Permits"), located in the Australian sector of the Timor Sea, offshore from the Northern Territory. The shareholders of Nations on August 29, 2006 have received 2,100,001 shares of common stock in AOGC and AUD\$50,000 as consideration for Nations.

The Timor Sea covers a huge area underlain by sedimentary basins with potential for new hydrocarbon discoveries. The region has a long history of exploration activity and discovery and has now become the focus for domestic and international petroleum exploration and development activities. There have been numerous oil and wet gas discoveries to the north west in the region of the permits, including the Laminaria, Corallina and Bayu-Undan fields. The giant gas fields of Greater Sunrise, Evans Shoal, Caldita and Barossa are to the north and east of the permits.

On August 8, 2006, our wholly owned subsidiary, Nations, together with the other joint venturers in the National Gas Consortium were granted petroleum exploration permits NT/P71 and NT/P72 for an initial 6-year term. Nations now hold a net 24% interest in these permits, following the farmout of seismic commitments (see below). The new permits, which are located in the Australian sector of the Timor Sea, are held by the National Gas Consortium, which holds the contiguous NT/P62, NT/P63 and NT/P64 permits to the immediate west.

The new Permits cover a total area of approximately 17,380 km(2) (4,294,772 acres). The National Gas Consortium now holds six permits aggregating approximately 32,255 km(2) (7,970,533 acres) including the new permits NT/P71 and NT/P72 and the four permits already held, namely, NT/P62, NT/P63, NT/P64 and NT/P65.

The Timor Sea is a major emerging province, with a developing emphasis in gas processing for the export market. Discoveries made over the past few years are expected to lead to the area providing substantial gas production and revenue, through value-added gas projects covering a wide spectrum of gas to liquids processes and technologies.

The Company on June 15, 2006, agreed to farmout 6% of its 30% interest in each of the Timor Sea Permits to National Gas Australia Pty Ltd (leaving Nations with a net 24% interest) in return for the acquisition and funding of Nations

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

30% share of the new Sunshine and Kurrajong 2D seismic survey of approximately 4,200 km. The cost of the Company's share of the Sunshine and Kurrajong surveys has been met entirely by National Gas Australia Pty Ltd.

Eastern Bonaparte Basin
NT/P70 Joint Venture

On October 10, 2005, the Australian Government granted a petroleum exploration permit, NT/P70, for an initial 6-year term. The Company initially held a 100% interest in the permit and now holds an 80% interest as the result of farmout (see below).

NT/P70 covers an area of 7,370 km² (1,821,200 acres) and is located in the eastern Timor Sea, about 300 km north of Darwin, and 250 km northeast of the proposed Darwin to Bayu-Undan gas pipeline. The Greater Sunrise, Evans Shoal, Barossa and Caldita gas accumulations are located to the west and southwest of the NT/P70 permit area.

AOGC agreed on June 15, 2006, to farmout 20% of its 100% interest in NT/P70 to National Gas Australia Pty Ltd in return for the acquisition and funding by NGA of the new 800 line km Crocodile 2D seismic survey, subsequently acquired in the NT/P70 permit.

The permit has been designated as a "frontier area" by the Australian Government attracting an exploration incentive which allows immediate uplift to 150% tax deductibility on Australian Petroleum Resource Rent Tax ("PRRT") which is only payable provided certain levels of return from production are achieved.

We have obtained a range of pertinent existing reports and open file seismic data and, with this data, have mapped, interpreted and revised analyses and concepts for the area. We presently plan to shoot 300 km² of 3D seismic survey, following interpretation of the 800 line km Crocodile 2D seismic survey acquired during the year. Should we so decide, we can elect to enter the second three years of the initial permit term and drill one exploration well and perform further interpretational work. There have been no wells drilled in the permit.

NT/P73

On March 27, 2007, the Australian Government granted to our subsidiary, Alpha, a petroleum exploration permit, NT/P73, for an initial 6-year term. The Company holds a 100% interest in the permit. NT/P73 is located to the immediate south west of NT/P70 and covers an area of 6,815 km² (1,683,300 acres). The Barossa and Caldita gas accumulations are located to the west of the NT/P73 permit area.

In the first three years of the initial 6-year term of the NT/P73 permit we plan to obtain existing reports and open file seismic data and, with this data, to map, interpret and revise analyses and concepts for the area. We presently plan to shoot 2,000 line km of 2D in the third year of the permit. Should we so decide, we can elect to enter the second three years of the initial permit term and drill one exploration well and perform further interpretational work. There have been no wells drilled in the permit area.

23

Permitting It should be noted that, provided all exploration commitments are met, Australian offshore petroleum exploration permits may be renewed for two further 5-year terms, upon relinquishment of 50% of the area of a permit at the end of the first 6-year term, and again at the end of the second 5-year permit term. Any Retention Lease or Production License is excluded from the calculation of the area to be relinquished. Permits therefore, have a potential 16-year

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

life, subject to these requirements and to the fulfillment of exploration commitments.

Management The Company relies upon its Chairman and President, who also holds the position of Chief Executive Officer and Chief Financial Officer, Mr. E Geoffrey Albers, to manage the Company's operations and to identify and acquire interests in oil and gas prospects. The Company has entered into an agreement with Mr. Albers to secure his services on a part-time basis for a 3-year period, with a commencement date effective from January 1, 2005. As the Company's cash resources are limited, the board agreed to remunerate Mr. Albers by issuing common stock in lieu of cash payments. Specifically, the Company issued 2,500,000 shares of Common Stock to Mr. Albers for his services in relation to the period from January 1, 2005 to December 31, 2005. A further 2,000,000 shares of Common Stock were issued to him for his services for the period from January 1, 2006 to December 31, 2006. A further 1,500,000 shares of Common Stock will be issued to him for his services for the period from January 1, 2007 to December 31, 2007 (the financial statements for the quarter have accrued \$41,250 representing a pro-rata amount of this compensation).

Funding As a development stage enterprise, the Company has and continues to rely on capital infusions through the advances of Great Missenden Holdings Pty Ltd. The Company has accepted advances and in the future anticipates that it will draw down further advances to enable it to meet its administrative costs and expenditure requirements in developing its portfolio of oil and gas interests. When the Company requires further significant funds for its exploration programs, then it is the Company's intention that the additional funds would be raised in a manner deemed most expedient by the Board of Directors at the time, taking into account budgets, share market conditions and the interest of industry in co-participation in the Company's programs. When additional funds for exploration are required, it is the Company's plan that they could be raised by any one or a combination of the following manners: stock placements, pro-rata issue to stockholders, and/or an issue of stock to eligible parties. Should these methods considered not to be viable, or in the best interests of stockholders, then it would be the Company's intention to meet its obligations by either partial sale of the Company's interests or farm out, the latter course of action being part of the Company's overall strategy. Should funds be required for appraisal or development purposes the Company would, in addition, look to project loan finance.

24

Item 3. Controls and procedures

As required by Rule 13a-15 under the Securities Exchange Act of 1934 (the "Exchange Act"), we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2007. This evaluation was carried out under the supervision and with the participation of our Chief Executive. Based upon that evaluation, our Chief Executive and Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting management to material information relating to us required to be included in our periodic SEC filings. There have been no significant changes in our internal controls subsequent to the date we carried out our evaluation.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive, to

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB/A

allow timely decisions regarding required disclosure.

On February 6, 2008, the Company issued a current report on Form 8-K announcing that it would restate its consolidated financial statements and related footnote information in its most recent quarterly and annual filings. In connection with the filing of this Form 10-KSB/A, the company's management, including our President and Chief Financial Officer, re-evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2007. Based upon its re-evaluation, the Company's management has concluded that our disclosure controls and procedures remain effective. In making this determination, the Company has considered the effects of the restatement to our consolidated financial statements in arriving at this conclusion, as well as the recent interpretive guidance of the SEC issued on June 20, 2007. We also considered how the revised disclosures contained in footnotes 6 and 9 to our consolidated financial statements provide additional information in order for the Company to fully comply with Statement of Financial Accounting Standards No. 141, "Business Combinations

25

Part 11. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no sales of unregistered securities during the quarter.

Item 4. Submission of Matters to a Vote of Security Holders.

There were no matters submitted to a vote of security holders.

Item 6. Exhibits

List of Exhibits

31.1 Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
