Notes to Financial Statements
June 30, 2006

NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Sockeye Seafood Group Inc. ("the Company") was incorporated under the laws of the State of Nevada on May 21, 2003. The Company was formed to engage in the business of procuring and marketing seafood products direct from Pacific Northwest First Nations organizations to North American and International wholesalers, distributors, and retailers. The company has a total of 25,000,000 authorized shares with a par value of \$.001 per share and with 2,000,000 shares issued and outstanding as of June 30, 2006.

The Company operations have been limited to general administrative operations, purchasing a limited amount of sample inventory, minimal sales, establishing its website and is considered a development stage company in accordance with Statement of Financial Accounting Standards No. 7.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a December 31, year-end.

b. Basic Earnings per Share

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective May 21, 2005 (inception).

Basic net loss per share amounts is computed by dividing the net loss by the weighted average number of common shares outstanding. Diluted earnings per share are the same as basic earnings per share due to the lack of dilutive items in the Company.

c. Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In accordance with FASB 16 all adjustments are normal and recurring.

e. Income Taxes

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

NOTE 3. GOING CONCERN

The accompanying financial statements are presented on a going concern basis. The Company had limited operations during the period from May 21, 2003 (inception) to June 30, 2006 and generated a net loss of \$13,440. This condition raises substantial doubt about the Company's ability to continue as a going concern. Because the Company is currently in the development stage and has minimal expenses, management believes that the company's current cash of \$10,635 is sufficient to cover the expenses they will incur during the next twelve months in a limited operations scenario or until they raise additional funding.

The Company may seek additional sources of capital through the issuance of debt or equity financing, but there can be no assurance the Company will be successful in accomplishing its objectives.

NOTE 4. WARRANTS AND OPTIONS

There are no warrants or options outstanding to acquire any additional shares of common.

SOCKEYE SEAFOOD GROUP, INC.
(A Development Stage Company)
Notes to Financial Statements

NOTE 5. RELATED PARTY TRANSACTIONS

At of June 30, 2006, a loan payable in the amount of \$5,900 was due David Knapfel (a related party). As of June 30, 2006, the Company had not established any specific repayment terms and is a non-interest bearing loan.

NOTE 6. INCOME TAXES

As of June 30, 2006

Deferred tax assets:	
Net operating tax carryforwards	\$ 2,016
Other	-0-
Gross deferred tax assets	2,016
Valuation allowance	(2,016)
Net deferred tax assets	\$ -0-

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carryforwards are expected to be available to reduce taxable income. As the achievement of required future taxable income is uncertain, the Company recorded a valuation allowance.

NOTE 7. NET OPERATING LOSSES

As of June 30, 2006, the Company has a net operating loss carryforwards of approximately \$13,440. Net operating loss carryforward expires twenty years from the date the loss was incurred.

NOTE 8. STOCK TRANSACTIONS

Transactions, other than employees' stock issuance, are in accordance with paragraph 8 of SFAS 123. Thus issuances shall be accounted for based on the fair value of the consideration received. Transactions with employees' stock issuance are in accordance with paragraphs (16-44) of SFAS 123. These issuances shall be accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, or whichever is more readily determinable.

In May 2003, the company issued a total of 1,000,000 shares of \$0.001 par value common stock as founder's shares to Sheldon Goldberg and David Knapfel, both of whom are officers and directors of our company. Each of these individuals received 500,000 shares. The shares were issued in exchange for cash in the aggregate amount of \$5,000.

OTE 8. STOCK TRANSACTIONS (Continued)

In August 2004, the company completed an offering of shares of common stock in accordance with Regulation D, Rule 504 of the Securities Act, and the registration by qualification of the offering in the State of Nevada. The company sold 1,000,000 shares of common stock, par value, at a price of \$0.04 per share to approximately 29 investors. This offering was made in reliance upon an exemption from the registration provisions of the Securities Act of 1933, as amended, in accordance with Regulation D, Rule 504 of the Act. The aggregate offering price for the offering closed in August 2004 was \$40,000, all of which was collected from the offering.

As of June 30, 2006 the Company had 2,000,000 shares of common stock issued and outstanding.

NOTE 9. STOCKHOLDERS' EQUITY

The stockholders' equity section of the Company contains the following classes of capital stock as of June 30, 2006:

- Common stock, \$ 0.001 par value: 25,000,000 shares authorized; 2,000,000 shares issued and outstanding.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

The following discussion should be read in conjunction with the information contained in the audited financial statements and notes thereto set forth in our Form 10K-SB annual report, which can be found in its entirety on the SEC website at www.sec.gov, under our SEC File Number 0-51197.

Plan of Operation

As of June 30, 2006, the Company has \$10,635 cash on hand and current liabilities of \$5,989, such liabilities consisting of loans from related parties.

The Company feels it will not be able to satisfy its cash requirements over the next twelve months and shall be required to seek additional financing.

At this time, the Company plans to fund its financial needs through operating revenues (which cannot be assured) and, if required, through equity private placements of common stock. (No plan of terms, offers or candidates have yet been established and there can be no assurance that the company will be able to raise funds on terms favorable to the Company or at all.)

Over the next 12 months, the Company anticipates continuing its efforts to penetrate the Chinese and Japanese markets by utilizing Mr. Goldberg's contacts, providing the Company has sufficient capital.

Results of Operations

Three Months Ended June 30, 2006 compared to Three Months Ended June 30, 2005

We have no revenues for the three months ended June 30, 2006, as compared to gross revenues of \$3,600, less cost of goods sold in the amount of \$2,801, for a net income of \$799 for the three months ended June 30, 2005.

Total operating expenses for the three months ended June 30, 2006 were \$85, as compared to total operating expenses of \$1,845 for the three months ended June 30, 2005, which consisted of \$345 in general and administrative expense and \$1,500 in professional fees incurred in connection with the preparation and filing of our periodic reports with the U.S. Securities and Exchange commission.

Net loss for the three months ended June 30, 2006 was \$85, or \$0.00 (nil) per share, as compared to a net loss of \$1,046 or \$0.00 (nil) per share, for the three months ended June 30, 2005. We have incurred total net losses of \$13,439 for the period from inception on May 21, 2003 to June 30, 2006.

Liquidity and Capital Resources

At June 30, 2006, our sources of liquidity were \$10,635 in cash in the bank and outstanding accounts receivable for good sold and collectible in the amount of \$26,915.

There were no cash flows from investing or financing activities for the three month period ended June 30, 2006.

Our total stockholders' equity was \$31,561 at June 30, 2006.

We do not feel that current cash on hand will be sufficient to satisfy our cash requirements and, if we are unable to develop and implement a profitable business plan, we will be required to seek additional avenues to obtain the necessary funds. We have no agreements with anyone to provide future capital for the Company. If our directors are unable to provide future funding, if the need arises, we may have to look at alternative sources of funding. We do not have any firm plans as to the source of this alternative funding and there is no assurance that such funds will be available or, that even if they are available, that they will be available on terms that will be acceptable to us. In the event we are unable to secure necessary future funding, we may have to curtail our business or cease operations completely.

Our auditors have expressed the opinion that in our current state, there is substantial doubt about our ability to continue as a going concern.

In the next 12 months, we do not intend to spend any substantial funds on research and development and do not intend to purchase any major equipment.

We do not intend to hire any new employees during the ensuing year, unless our business operations expand sufficiently to warrant additional staff.

There are no warrants or options outstanding to acquire any additional shares of common stock.

We do not anticipate any material commitments for capital expenditures in the near term. We are not aware of any trend in our industry or capital resources which may have a negative impact on our income or revenues.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements or contractual or commercial commitments.

ITEM 3. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and the principal financial officer, we have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded as of the evaluation date that our disclosure controls and procedures were effective such that the material information required to be included in our Securities and Exchange Commission reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to our company, including any consolidating subsidiaries, and was made known to us by others within those entities, particularly during the period when this report was being prepared.

Additionally, there were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the evaluation date. We have not identified any significant deficiencies or material weaknesses in our internal controls, and therefore there were no corrective actions taken.

These risks have not materially changed and are, therefore, not restated or included herein. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company.
