**Interruption of Crude oil production in Block 18, in Ecuador**

Buenos Aires, March 26, 2007 Petrobras Energía S.A. informs that crude oil production in Block 18 has been interrupted since March 9 as a result of the coercive actions taken by the inhabitants of *PreCooperativa 25 de Diciembre* and *Alamoreña* Community which involve occupation of Palo Azul Field in Block 18.

The Company operates Block 18 through EcuadorTLC S.A., its subsidiary in Ecuador. Production in 2006 according to the Company's participating interest - averaged 11,779 bbls. per day.

The communities demand asphalt paving of roads at the Company's expense and rejected the proposal submitted by the Ecuadorian Ministries of Energy and Public Works involving asphalt paving as part of the road plan worked out by the Ecuadorian government.

The Company, together with the Ministry of Energy and Mines and the Ministry of the Government of Ecuador, are striving to solve the conflict as soon as possible so as to resume crude oil operations in the beformentioned block.

Other similar coercive measures are being taken by inhabitants of communities adjacent to blocks operated by other private and public oil companies in the east of Ecuador.

The Company ratifies its willingness to dialog and its constant and unconditional support to the communities located within the influence area of its operations. Under agreements entered into with local communities, the Company develops health, educational and basic infrastructure projects for communities adjacent to Block 18 in line with its Corporate Social Responsibility policy.
