As can be seen, the purpose of the present proposal is to serve the legitimate interests of the stockholders and of the Company, and for this reason the Board of Directors hopes that it will be approved by you, the stockholders. Belo Horizonte, 25 November 2004. Signed by: Wilson Nélio Brumer, Member; Member, Djalma Bastos de Moraes; Vice-Chairman; Aécio Ferreira da Cunha, Member; Alexandre Heringer Lisboa, Member; Firmino Ferreira Sampaio Neto, Member; Francelino Pereira dos Santos, Member; Maria Estela Kubitschek Lopes, Member; Nilo Barroso Neto, Member

The Chairman then put the Proposal of the Board of Directors to this Meeting for debate. Requesting to speak, the representative of the stockholder State of Minas Gerais suggested a slight alteration in the proposal under discussion, under which the drafting of Clause 28 of the bylaws would be the following: **Clause 28:** Before any profit share, the accumulated losses and the provision for income tax shall be deducted from the result for the business year. **Sole sub-paragraph:** Allocation of the net profit ascertained in each business year shall be as follows: a) 5% (five percent) for the legal reserve, up to the limit

specified by law; b) 50% (fifty percent) distributed as obligatory dividends to the stockholders of the Company, subject to the other terms of these bylaws and the applicable legislation; and c) The balance, after the retention specified in a capital expenditure and investment budget prepared by the management of the Company, in obedience to the Company's Strategic Guidelines Plan and the dividend policy contained therein and duly approved, shall be applied in the constitution of a profit reserve for the purpose of distribution of extraordinary dividends, in accordance with Clause 30 of these bylaws, up to the maximum limit specified by Clause 199 of the Corporate Law.

The stockholder Marcelo Corrêia de Moura Baptista then asked to speak, and said that this Proposal transforms the credit receivable by Cemig into a bloodletting of its own funds. For each Real retained for the settlement of the debt owed by the State of Minas Gerais, the Company will have to distribute almost seven Reais in dividends. This, he continued, would lead to de-capitalization, constituting an obstacle to investments, and increasing indebtedness. Also, with this Proposal more than R\$ 9 billion would be remitted outside the country, constituting, in his opinion, a brutal transfer of income from a public company, based on high tariffs charged to the needy population, to the hands of private investors. When the above-mentioned Proposal of the Board of Directors was submitted to the vote, with the amendment suggested by the representative of the stockholder State of Minas Gerais, it was partially approved, with votes against by the stockholder Marcelo Corrêia de Moura Baptista, for himself and for the Minas Gerais Intermunicipal Electricity Workers Union (*Sindieleiro*), in relation to Item 11 of the convocation announcement, and by the representative of the stockholder State of Minas in relation to items 3, 5, 6 and 9 of the convocation announcement, which were rejected. The stockholders represented by Lucila Prazeres da Silva abstained. The meeting was opened to speeches from the floor, and since no-one wished to speak, the chairman ordered the session suspended for the time necessary to write the minutes. The session being reopened, the chairman offered the said minutes to debate and submitted them to the vote, and, verifying that they had been approved and signed, declared the meeting closed. Be it hereby known that I, Anamaria Pugedo Frade Barros, Secretary, drafted these minutes and signed them jointly with all those present.
