# FINANCIAL RESULTS FOR THE FOURTH QUARTER AND FULL-YEAR ENDED DECEMBER 31, 2004

Moscow, Russian Federation March 22, 2005 Mobile TeleSystems OJSC (MTS - NYSE: MBT), the largest mobile phone operator in Russia and the CIS, today announces its fourth quarter and full-year 2004(1) financial and operating results.

#### **Financial Highlights**

Consolidated revenues up 53% year-on-year to \$3.9 billion

Consolidated OIBDA(2) up 57% year-on-year to \$2.1 billion

All-time high annual OIBDA margin of 54%

Consolidated net income nearly doubled year-on-year to \$1.0 billion

### **Operating Highlights**

Operating Highlights 3

Subscriber base more than doubled to 34.2 million; 17.5 million net new consolidated subscribers added during 2004

Quarterly net subscriber acquisition rate almost doubled to a record 7.5 million in the fourth quarter

Subscriber acquisition cost and churn substantially reduced year-on-year

Number one position maintained in Russia, Ukraine, Belarus and Uzbekistan

Continued strong subscriber intake since year-end with 3.9 million new customers added since the beginning of the year; total subscriber base of 38.1 million as of March 21, 2005

**Financial Summary (Unaudited)** 

	Q4	Q4	Change	FY	FY	Change
US\$ million	2004	2003	Y-on-Y	2004	2003	Y-on-Y
Revenues	1,079.7	771.7	39.9%	3,887.0	2,546.2	52.7%
Net operating income	317.3	272.8	16.3%	1,463.5	922.6	58.6%
Net operating margin	29.4%	35.4%		37.7%	36.2%	
Net income	209.1	152.7	36.9%	1,022.7	517.2	97.7%
OIBDA	497.9	400.6	24.3%	2,094.8	1,338.5	56.5%
OIBDA margin	46.1%	51.9%		53.9%	52.6%	

<sup>(1)</sup> Based on unaudited consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ( US GAAP ).

<sup>(2)</sup> See Attachment A for definitions and reconsolidation of OIBDA and OIBDA margin to their most directly comparable US GAAP financial measures.

Vassily Sidorov, President and CEO of MTS, commented:
2004 was a year of record subscriber additions for MTS in all territories, which resulted in strong revenue dynamics. Our subscriber base doubled in 2004 due to strong growth throughout the year, the addition of a number of important regions and active marketing campaigns. Revenue decline in Q4 compared to Q3 was due to seasonally lower roaming revenues, as well as intensified competition with aggressively priced subscriber acquisition campaigns.
Our focus on customer acquisition in the second half of 2004 was geared towards retention of the Company s market leadership in the run-up to the holiday season. Our customer retention and dealer loyalty oriented initiatives led to an almost halving of the churn rate year-on-year in 2004; we have also steadily reduced our per subscriber acquisition costs.
Our full-year operating margin expanded as we continued to drive efficiency levels, but was down in the fourth quarter due to the quarterly increase in customer acquisition-related expenses. Net income for the year doubled and the Company s overall strong financial position at year-end provided us with sufficient support as we entered another year of rapid market growth.
Operating Overview
Market Growth

Market Growth 6

2004 was a year of record subso	riber growth for the mobile markets in Russia and Ukraine. Mobile penetration(3) increased during the year from
25% to 51% in Russia and from	14% to 29% in Ukraine. This growth was fueled by continuous per capita income growth in the two countries,
as well as by mobile operators	aggressive network expansion and marketing campaigns.

The fourth quarter of 2004 was the strongest period of mobile subscriber growth in the markets where MTS operates. This growth was specifically driven by increased consumer spending before the New Year and Christmas holidays, as well as by mobile operators seasonal offers.

#### Subscriber Development

MTS was one of the main beneficiaries of the strong demand for mobile services during 2004. The Company added 17.5 million new customers during the year on a consolidated basis, of which 16.8 million were added organically. MTS operations in Russia accounted for 13.1 million of the subscriber intake.

MTS consolidated subscriber base increased by 7.5 million new subscribers in the fourth quarter alone, with the operations in Russia adding nearly 5.7 million net new subscribers.

MTS has organically added a further 3.9 million new subscribers since the beginning of this year, expanding the consolidated subscriber base to 38.1 million(4).

#### **Business Expansion**

MTS focused on expanding the Company's regional presence during 2004 by acquiring companies and launching greenfield operations in new regions. The number of MTS operational regions increased from 60 to 77, with 14 regions added to the operational footprint in the fourth quarter alone. MTS acquired the leading mobile operator in Uzbekistan in August 2004.

#### Market Share

Innovative and proactive promotions and marketing activity during 2004 and, in particular, the fourth quarter, resulted in increased market shares in each of MTS operating markets. MTS market share expanded in the fourth quarter to 35.6% in Russia, 53.4% in Ukraine, and 59% in

(4) As of March 21, 2005.

3

Market Growth 7

Uzbekistan. MTS  $\,$  joint venture in Belarus became the number one operator during the second half of 2004 and obtained a market share of 49.8% by the end of the year.

#### Customer Segmentation

Mobile markets were primarily driven by the pre-paid customer segment during 2004. Subscriptions to MTS pre-paid tariff plans (*Jeans* in Russia, and *Jeans* and *SIM-SIM* in Ukraine) accounted for 84% of gross additions in Russia and 91% in Ukraine. By the end of 2004, 77% of MTS customers in Russia and 86% in Ukraine, were signed up to pre-paid tariff plans, compared to 56% and 79% respectively at the end of 2003.

**Key Operating Summary** 

	Q4 2004	Q3 2004	Q2 2004	Q1 2004	Q4 2003
Total consolidated subscribers, end of period (mln)	34.22	26.63	22.78	19.19	16.72
Russia (mln)	26.54	20.84	18.14	15.34	13.37
Ukraine (mln)	7.37	5.53	4.63	3.85	3.35
Uzbekistan (mln)	0.31	0.26			
MTS Belarus(5) (mln)	1.21	0.97	0.74	0.59	0.46
Russia					
ARPU (US\$)(6)	11.2	14.0	14.1	14.1	16.3
MOU (minutes)	164	168	160	147	140
Churn rate (%)	6.3	6.7	7.7	10.0	12.5
SAC per gross additional subscriber (US\$)	19	21	21	23	24
Ukraine					
ARPU (US\$)	12.4	15.4	14.6	14.0	15.4
MOU (minutes)	127	136	127	111	114
Churn rate (%)	1.7(7)	5.9	5.2	6.0	6.5
SAC per gross additional subscriber (US\$)	15	21	18	25	26

### Russia

Russia 9

Full-year revenues up 41% year-on-year to \$3,044 million(8); fourth quarter revenues up 30% year-on-year to \$819 million(9)

Full-year net income increased by 75% year-on-year to \$787 million; fourth quarter net income increased by 18% year-on-year to \$153 million

Full-year 2004 OIBDA up 44% year-on-year to \$1,637 million; fourth quarter OIBDA up 12% year-on-year to \$373 million

Full-year OIBDA margin of 54%; fourth quarter OIBDA margin of 46%

- (5) MTS owns a 49% stake in Belarus operator, Mobile TeleSystems LLC, which is not consolidated.
- (6) See Attachment C for definitions of ARPU, MOU, Churn and SAC.
- (7) The significant decrease in the quarterly churn rate to 1.7% can be largely attributed to the adoption of the churn policy used by MTS in Russia, whereby pre-paid customers are defined as churning after six months of inactivity, rather than the previous three months criteria. Annual churn for 2004 was at 15.8%. Under the previous churn calculation, quarterly churn rate in Q4 2004 was at 7.2% and annual churn was at 23.0%.
- (8) Excluding intercompany eliminations of \$7.8 million.
- (9) Excluding intercompany eliminations of \$0.5 million.

Record expansion in the subscriber base during the year resulted in a further dilution of the subscriber mix by mass-market subscribers that, along with certain tariff reductions and promotions, led to a decline in the average monthly revenue per user (ARPU). During the last quarter of 2004, MTS experienced particularly accelerated subscriber growth, with 5.7 million new customers added on a net basis in Russia. However, as the bulk of these new subscriber additions took place towards the end of the quarter, the overall subscriber growth during the quarter did not contribute materially to the topline. Revenues were also negatively influenced by a significant seasonal drop in roaming revenues during the quarter.

Compared to the previous year, OIBDA margin expansion in 2004 was a result of increased economies of scale and tough cost control measures, which more than compensated for the pressure on margins from relatively high inflation levels in Russia. Pressure on profitability in the last quarter of 2004 primarily resulted from substantially increased dealer commissions on the back of accelerated subscriber growth during this period and additional operating expenditures associated with new regional launches, as well as negative quarter-on-quarter revenue dynamics.

The subscriber acquisition cost (SAC) per gross additional subscriber continued to decline in 2004, reflecting the lower cost of attracting mass-market subscribers and the increased economies of scale.

The quarterly churn rate declined to 6.3% in the fourth quarter, continuing the positive trend since the beginning of 2004. The annual churn rate of 27.5% marked a significant reduction from the 2003 level of 47.3%, and was largely due to the successful implementation of customer and dealer loyalty programs.

Ukraine

Ukraine 12

	Full-year revenues(10) up to \$832 million(11); fourth quarter revenues up 73% year-on-year to \$246
million(12)	

Full-year net income increased to \$232 million; fourth quarter net income more than doubled year-on-year to \$52 million

Full-year OIBDA up to \$443 million; fourth quarter OIBDA up by 71% year-on-year to \$115 million

Full-year OIBDA margin of 53%; fourth quarter OIBDA margin of 47%

As in Russia, the impact of mass-market subscribers on the subscriber mix and the effect of promotions resulted in a decline in ARPU in Ukraine during the year. Revenue levels in the fourth quarter were also adversely affected by the seasonal decline in roaming revenues during the period. The fourth quarter was further impacted by lower usage levels as a result of the presidential elections and the temporary imposition of certain banking restrictions.

OIBDA margins improved in 2004 as a result of increased economies of scale and cost control measures. Pressure on profitability in the fourth quarter was also partially a consequence of the increase in total subscriber acquisition costs relating to record subscriber additions, with 1.8 million subscribers added during the fourth quarter alone.

5

Ukraine 13

<sup>(10)</sup> No year-on-year comparison is provided as MTS consolidated UMC, its 100%-owned subsidiary in Ukraine, only during the last 10 months of 2003

<sup>(11)</sup> Excluding intercompany eliminations of \$8.2 million.

<sup>(12)</sup> Excluding intercompany eliminations of \$1.1 million.

SAC per gross additional subscriber declined significantly in the fourth quarter due to the increased proportion of mass-market subscribers in the overall additions.

Uzbekistan

Uzbekistan 14

Since its acquisition on August 1, 2004, the Uzbek operation contributed \$27 million to MTS consolidated revenues, of which \$17 million was contributed in the fourth quarter. The operation generated \$15 million of OIBDA, of which \$10 million was generated in the fourth quarter, and \$4 million to net income, of which \$3.9 million was generated in the fourth quarter. ARPU in Uzbekistan was \$19 in the fourth quarter.

**Financial Position** 

Financial Position 16

Full-year cash expenditure on property, plant and equipment was in line with management guidance and amounted to \$1,204 million, of which \$955 million was invested in Russia, \$246 million in Ukraine, and \$3 million(13) in Uzbekistan. MTS expenditure on property, plant and equipment in the fourth quarter totaled \$507 million, of which \$407 million was invested in Russia, \$99 million in Ukraine, and \$1 million in Uzbekistan.

Cash expenditure on intangible assets during the year amounted to \$155 million (\$119 million in Russia and \$36 million in Ukraine). MTS spent \$72 million on the purchase of intangible assets during the fourth quarter (\$68 million in Russia and \$4 million in Ukraine).

In line with the Company s strategy to expand the geography of its operations, MTS continued to acquire regional market leaders. The Company spent \$356 million (net of cash in acquired companies) on acquisitions during the year, comprised of \$235 million in the regions of Russia and \$121 million on acquiring the business in Uzbekistan. Of the total acquisition expenditures in 2004, \$184 million was spent in the fourth quarter.

Strong operating cash-flow generation resulted in a further decrease in MTS relative leverage level. As of December 31, 2004, MTS total debt(14) was at \$1.94 billion, resulting in a ratio of total debt to OIBDA of 0.9 times, compared to 1.2 times in 2003. The Company s cash and cash equivalents amounted to \$274 million at the end of 2004 and net debt amounted to \$1.59 billion.

Attachments to the Fourth Quarter and Full-Year 2004 Earnings Press Release

### Attachment A

*Non-GAAP financial measures*. This press release includes financial information prepared in accordance with accounting principles generally accepted in the United States of America, or US GAAP, as well as other financial measures referred to as non-GAAP. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP.

Operating Income Before Depreciation and Amortization (OIBDA) and OIBDA margin. OIBDA represents operating income before depreciation and amortization. OIBDA margin is defined as OIBDA as a percentage of our net revenues. Our OIBDA may not be similar to OIBDA measures of other companies; is not a measurement under accounting principles generally accepted in the United States and should be considered in addition to, but not as a substitute for, the information contained in our consolidated statement of operations. We believe that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our ongoing business operations, including our ability to fund discretionary spending such as capital expenditures, acquisitions of mobile operators and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under generally accepted accounting principles, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the wireless telecommunications industry. OIBDA can be reconciled to our consolidated statements of operations as follows:

US\$ million	Q4 2004	Q4 2003	FY 2004	FY 2003
Operating income	317.3	272.8	1,463.5	922.6
Add: depreciation and amortization	180.6	127.8	631.3	415.9
OIBDA	497.9	400.6	2,094.8	1,338.5

OIBDA margin can be reconciled to our operating margin as follows:

	Q4 2004	Q4 2003	FY 2004	FY 2003
Operating margin	29.4%	35.4%	37.7%	36.2%
Add: depreciation and amortization as a				
percentage of revenue	16.7%	16.5%	16.2%	16.4%
OIBDA margin	46.1%	51.9%	53.9%	52.6%

\*\*\*

### Attachment B

Net debt represents total debt less cash and cash equivalents and short-term investments. Our net debt calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare our periodic and future liquidity within the wireless telecommunications industry. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP.

Net debt can be reconciled to our consolidated balance sheets as follows:

US\$ million	As of December 31, 2004	As of December 31, 2003
Current portion of debt and of capital lease obligations	379.4	710.3
Long-term debt	1,553.8	942.4
Capital lease obligations	3.9	7.6
Total debt	1,937.1	1,660.3
Less:		
Cash and cash equivalents	(274.2)	(90.4)
Short-term investments	(73.4)	(245.0)
Net debt	1,589.5	1,324.9

\*\*\*

### Attachment C

### **Definitions**

*Subscriber.* We define a subscriber as an individual or organization whose account shows chargeable activity within sixty one days, or one hundred and eighty three days in the case of our *Jeans* brand tariff, and whose account does not have a negative balance for more than this period.

Average monthly service revenue per subscriber (ARPU). We calculate our average monthly service revenue per subscriber by dividing our service revenues for a given period, including guest roaming fees, by the average number of our subscribers during that period and dividing by the number of months in that period.

Average monthly minutes of usage per subscriber (MOU). MOU is calculated by dividing the total number of minutes of usage during a given period by the average number of our subscribers during the period and dividing by the number of months in that period.

*Churn.* We define our churn as the total number of subscribers who cease to be a subscriber as defined above during the period (whether involuntarily due to non-payment or voluntarily, at such subscriber s request), expressed as a percentage of the average number of our subscribers during that period.

Subscriber acquisition cost (SAC). We define SAC as total sales and marketing expenses and handset subsidies for a given period. Sales and marketing expenses include advertising expenses and commissions to dealers. SAC per gross additional subscriber is calculated by dividing SAC during a given period by the total number of gross subscribers added by us during the period.
