## Section 8 Other Events

### Item 8.01 Other Events

Edison Mission Energy (EME) previously owned and operated a 220 MW combined cycle, natural gas-fired power plant located in the United Kingdom, known as the Lakeland project. The ownership of the project was held through EME's indirect subsidiary, Lakeland Power Ltd., which sold power generated from the plant pursuant to a power sales agreement with Norweb Energi Ltd., a subsidiary of TXU (UK) Holdings Limited (TXU UK) and an indirect subsidiary of TXU Europe Group plc (TXU Europe). EME ceased consolidating the activities of Lakeland Power Ltd. in 2002, when an administrative receiver was appointed following a default by Norweb Energi Ltd. under the power sales agreement.

As previously disclosed, the administrative receiver of Lakeland Power Ltd. filed a claim against Norweb Energi Ltd. for termination of the power sales agreement. On November 19, 2002, TXU UK and TXU Europe, together with a related entity, TXU Europe Energy Trading Limited (TXU Energy), entered into formal administration proceedings of their own in the United Kingdom (similar to bankruptcy proceedings in the United States). On March 31, 2005, Lakeland Power Ltd. received £112 million (approximately \$210 million) from the TXU administrators, representing an interim payment of 97% of its accepted claim of £116 million (approximately \$217 million).

From the amount received, Lakeland Power Ltd., now controlled by a liquidator in the United Kingdom, will make payments due to EME under a secured loan which EME purchased from Lakeland Power Ltd.'s secured creditors in 2004 (approximately \$12 million as of April 6, 2005). Additionally, Lakeland Power Ltd. will pay to EME's subsidiary that owns the equity interest in Lakeland Power Ltd. the amount remaining after resolution of any remaining secured and unsecured creditor claims and payment of or provision for tax liabilities and the fees and expenses associated with Lakeland Power Ltd.'s liquidation.

EME estimates that the net proceeds after tax (including taxes due in the United States) resulting from the above payments will be approximately \$100 million and the increase in net income will be approximately \$90 million. These proceeds may be received throughout 2005, and possibly 2006, as Lakeland Power Ltd.'s liquidation progresses. Because the amounts required to settle outstanding claims and UK taxes have not been finalized and cannot be estimated precisely in the context of the liquidation, the actual amount of net proceeds and increase in net income may vary materially from the above estimate.

**SIGNATURE**

Edgar Filing: EDISON MISSION ENERGY - Form 8-K

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
