Andrea Guerra, chief executive officer of Luxottica Group, commented: Fiscal 2006 was truly a record year all-around. Retail and especially wholesale performed well above the rest of the market, reflecting the strength of our business model and our ability to maximize growth opportunities. We ended the year with EPS from continuing operations of 0.95,

2

reflecting a year-over-year increase of 30% and more than double that of the improvement in consolidated sales reported for the year.

Mr. Guerra continued: Cash flow generation was again one of the highlights of our results, with close to 400 million for the full year. This continues to be a key competitive advantage of our business model: the flexibility to make ongoing investments to maximize our ability to capture present and future growth opportunities.

On December 31, 2006, Luxottica Group's consolidated net outstanding debt was 1,148.5 million, resulting in a net debt to EBITDA ratio(8) of 1.2x, the lowest level in the past six years.

Luxottica Group's consolidated results for the fourth quarter and fiscal year 2006 were approved today by its Board of Directors.

Set forth below is the text of a press release issued on March 6, 2007.

Luxottica expects another year of double-digit growth in 2007

Milan, Italy March 6, 2007 - Luxottica Group S.p.A. (NYSE: LUX; MTA: LUX), the global leader in the eyewear sector, expects that earnings per share (EPS) for fiscal year 2007 will improve year-over-year by as much as 18 percent at constant exchange rates.

Detailed forecast for fiscal year 2007(1)

For the full year, the Group forecasts a growth in consolidated sales at constant exchange rates of between eight and ten percent, which would reflect a growth in EPS for the year of between 16 percent and 18 percent. At an average exchange rate of 1 = US\$1.30, this would result in consolidated sales for fiscal year 2007(2) of between 4.9 billion and 5.0 billion and EPS for the period of between 1.07 and 1.09 (earnings per ADS of between US\$1.39 and US\$1.42).

The Group also expects that its Net Debt position will improve further from its December 31, 2006, levels. Fiscal year 2007 is expected to be another year of strong cash flow generation.

Andrea Guerra, Luxottica Group's chief executive officer, commented: "Today we are leaders in an industry that is very quickly evolving: over recent years eyewear has evolved into a key fashion and luxury accessory, in fact one through which all of us express their personality; two-thirds of the world's population has only recently entered our market and are already showing significant appreciation for our brands; and the aging of the population, in particular of baby boomers, is another important driver of growth in our sector. We believe that 2007 will be another record year for our Group, thanks mainly to ongoing investments in our store base for approximately 225 million, including the remodeling of an additional 480 stores worldwide as well over 500 new stores.

Wholesale: another strong year in

In particular, the Group expects another strong year for its wholesale business with an anticipated improvement in sales of 15 percent year-over-year and an anticipated rise in profitability by another 100 bps over its current industry-wide record levels. The main drivers of this important growth are expected to be: the much stronger brand portfolio, which saw the launch of Polo Ralph Lauren at the beginning of the year and which continues to enjoy significant growth opportunities mainly from Burberry, Bvlgari, Chanel, Dolce & Gabbana, Persol, Prada, Ray-Ban and Versace; significantly more focused advertising and trade marketing support; and the additional highly profitable growth in emerging markets.

Retail: a significant opportunity in sun, more steady growth from optical

In 2007, the Group plans to further extend its sun retail brand Sunglass Hut to profit from growth in demand for fashion and luxury sun wear. Growth in sun is expected to come from: traditional markets – mainly in the U.S., but also in Asia-Pacific and Europe, where the Sunglass Hut business has recently returned to profitability after a successful restructuring; new markets – from the Middle East and Hong Kong to Macao and South Africa; and new channels – especially department stores and travel retail.

In optical, Luxottica expects more steady growth and to continue to enjoy the benefits of ongoing investments in its store base both in North America and Asia-Pacific, the renewed strength of its brand portfolio and its focus on higher value-added products, including the ongoing roll-out of new lens technologies. In terms of profitability, Luxottica expects 2007 to produce more of the benefits of the Group’s ongoing focus on improving overall operating efficiency.
