PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

As previously announced and as described in the Current Report on Form 8-K of Biomet, Inc. (Biomet or the Company) filed with the Securities and Exchange Commission on March 30, 2007 (the March 30, 2007 Form 8-K), a special committee of the board of directors of the Company is in the process of reviewing the Company's historical stock option granting practices and related accounting for the 11-year period from 1996 to 2006. Based upon an analysis of an updated preliminary report from the special committee and relevant accounting literature, the Audit Committee of the board of directors determined on March 30, 2007 that the Company should amend its Annual Report on Form 10-K for the fiscal year ended May 31, 2006 and Quarterly Report on Form 10-Q for the fiscal quarter ended August 31, 2006 to reflect the restatement of the consolidated financial statements reflected therein (fiscal years ended May 31, 2006, 2005 and 2004 and periods ended August 31, 2006 and 2005) and related disclosures reflected therein. The Company also determined that in light of the special committee's preliminary report, the Company's previously issued financial statements and any related reports of its independent registered public accounting firm should not be relied upon. The special committee's review is ongoing and there can be no assurance as to the time which will be required by the special committee to complete its review. Due to the ongoing special committee review and the determination that the Company should restate prior period financial statements, the Company is unable to file its Form 10-Q for the fiscal quarter ended February 28, 2007 on or before the prescribed date of April 9, 2007, or on or before the fifth calendar day following such filing date to qualify under Rule 12b-25(b).

The information set forth in the March 30, 2007 Form 8-K under Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review Review of Historical Stock Option Granting Practices is incorporated herein by reference.

This Form 12b-25 contains certain statements that are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended. Although the Company believes that the assumptions, on which the forward-looking statements contained herein are based, are reasonable, any of those assumptions could prove to be inaccurate given the inherent uncertainties as to the occurrence or non-occurrence of future events. There can be no assurance that the forward-looking statements contained in this Form 12b-25 will prove to be accurate. Some of the factors that could cause actual results and forward-looking statements contained herein to differ include: the results and related outcomes of the special committee's review of Biomet's historical stock option granting practices including: the impact of any tax consequences, including any determination that Biomet's filed tax returns were not true, correct and complete, the impact of any determination that some of the options may not have been validly issued under the stock option plans, the impact of the restatement of Biomet's financial statements or other actions that may be taken or required as a result of the special committee's review, the impact of the determination that certain of Biomet's financial statements were not prepared in accordance with GAAP and/or the required reporting under the applicable securities rules and regulations, the impact of any determination of the existence of any significant deficiencies and/or material weaknesses in Biomet's internal controls and/or of the need to reevaluate certain of the findings and conclusions in Management's Report on Internal Controls, the consequences of any determination that Biomet's disclosure controls and procedures required by the Securities Exchange Act were not effective, the impact of the inability of Biomet to timely file reports or statements with the Securities and Exchange Commission and distribute such reports or statements to its shareholders, and the impact of any determination that some of Biomet's insurance policies may not be in full force and effect and/or that Biomet may not be in compliance with the terms and conditions of those policies; litigation and governmental investigations or proceedings which may arise out of Biomet's stock option granting practices or the restatement of Biomet's financial statements; the inability to meet NASDAQ requirements for continued listing; any conditions imposed in connection with the merger agreement or otherwise required to consummate the proposed merger between Biomet and the private equity consortium, including the availability of certain financial information; approval of the merger by Biomet's shareholders; satisfaction of various other conditions to the closing of the merger contemplated by the merger agreement with the private equity consortium; the success of Biomet's principal product lines and reorganization efforts with respect to its EBI operations; Biomet's ability to develop and market new products and technologies in a timely manner; and other risk factors as set forth from time to time in Biomet's filings with the Securities and Exchange Commission. The inclusion of a forward-looking statement herein should not be regarded as a representation by Biomet that Biomet's objectives will be achieved. Biomet undertakes no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise.
