UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington D.C. 20549

FORM 10-Q

(Mark One)

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2007

or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission file number 0-10777

CENTRAL PACIFIC FINANCIAL CORP.

(Exact name of registrant as specified in its charter)

Hawaii
(State or other jurisdiction of
incorporation or organization)

99-0212597
(I.R.S. Employer
Identification No.)

220 South King Street, Honolulu, Hawaii 96813

(Address of principal executive offices) (Zip Code)

(808)544-0500

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Edgar Filing: CENTRAL PACIFIC FINANCIAL CORP - Form 10-Q

Large accelerated filer X

Accelerated filer O

Non-accelerated filer O

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes O No X

The number of shares outstanding of registrant's common stock, par value \$.01 per share, on July 26, 2007 was 30,442,402 shares.

PART I. FINANCIAL INFORMATION

Forward-Looking Statements

This document may contain forward-looking statements concerning projections of revenues, income, earnings per share, capital expenditures, dividends, capital structure, or other financial items, concerning plans and objectives of management for future operations, concerning future economic performance, or concerning any of the assumptions underlying or relating to any of the foregoing. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts, and may include the words "believes", "plans", "intends", "expects", "anticipates", "forecasts" or words of similar meaning. While we believe that our forward-looking statements and the assumptions underlying them are reasonably based, such statements and assumptions are by their nature subject to risks and uncertainties, and thus could later prove to be inaccurate or incorrect. Accordingly, actual results could materially differ from projections for a variety of reasons, to include, but not limited to: the impact of local, national, and international economies and events (including natural disasters) on the Company's business and operations and on tourism, the military, and other major industries operating within the Hawaii market and any other markets in which the Company does business; the impact of legislation affecting the banking industry; the impact of competitive products, services, pricing, and other competitive forces; movements in interest rates; loan delinquency rates and changes in asset quality; and adverse conditions in the public debt market, the stock market or other capital markets, including any adverse changes in the price of the Company's stock. For further information on factors that could cause actual results to materially differ from projections, please see the Company's publicly available Securities and Exchange Commission filings, including the Company's Form 10-K for the last fiscal year. The Company does not update any of its forward-looking statements.

CENTRAL PACIFIC FINANCIAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Central Pacific Financial Corp. (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. These interim condensed consolidated financial statements and notes should be read in conjunction with the Company's consolidated financial statements and notes thereto filed on Form 10-K for the fiscal year ended December 31, 2006. In the opinion of management, all adjustments necessary for a fair presentation have been made and include all normal recurring adjustments. Interim results of operations are not necessarily indicative of results to be expected for the year.

Certain prior period amounts in the condensed consolidated financial statements and notes thereto have been reclassified to conform to the current period presentation. Such reclassifications had no impact on net income or shareholders' equity for any periods presented.

2. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments—an amendment of FASB Statements No. 133 and 140 (SFAS 155). SFAS 155 amends the guidance in SFAS 133, Accounting for Derivative Instruments and Hedging Activities, and SFAS 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. SFAS 155 permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, clarifies which interest-only strips and principal-only strips are not subject to the requirements of SFAS 133, establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation, clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives and amends SFAS 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. The Company adopted the provisions of SFAS 155 beginning January 1, 2007 and such adoption did not have a material impact on its consolidated financial statements.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets—an amendment of FASB Statement No. 140 (SFAS 156). SFAS 156 requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value and permits an entity to choose to either amortize servicing assets or servicing liabilities in proportion to and over the period of estimated net servicing income or net servicing loss and assess servicing assets or servicing liabilities for impairment or increased obligation based on fair value at each reporting date, or measure servicing assets or servicing liabilities at fair value at each reporting date and report changes in fair value in earnings in the period in which the changes occur. SFAS 156 also permits a one-time reclassification of available-for-sale securities to trading securities by entities with recognized servicing rights, provided that the available-for-sale securities are identified as offsetting the entity's exposure to changes in fair value of servicing assets or servicing liabilities that a servicer elects to subsequently measure at fair value, requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value and specifies additional disclosures for all separately recognized servicing assets and servicing

liabilities. The Company adopted the provisions of SFAS 156 beginning January 1, 2007 and such adoption did not have a material impact on its consolidated financial statements.

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) on January 1, 2007. As a result of the adoption, the Company recognized a net decrease of \$5.3 million in the liability for uncertain tax positions, of which, \$0.5 million was accounted for as an increase to beginning retained earnings, \$5.3 million was accounted for as a decrease to goodwill and \$0.5 million was recorded as a decrease in other liabilities. Including the cumulative effect of the decrease in the liability for uncertain tax positions, the Company's unrecognized tax benefits totaled \$6.9 million at January 1, 2007, of which \$1.8 million represents the amount of unrecognized tax benefits that, if recognized, would favorably affect the effective income tax rate in any future periods.

The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 1997. Federal income tax returns for 1998, 2000 through 2002, and 2004 are currently under examination. The Company's continuing practice is to recognize interest and penalties related to income tax matters in interest expense and other expense, respectively. At the date of adoption, the Company had \$2.1 million accrued for interest relating to income tax matters and at June 30, 2007, accrued interest amounted to \$2.5 million. There were no penalties relating to income tax matters accrued at the date of adoption, as well as at June 30, 2007.

In September 2006, the Emerging Issues Task Force (EITF) reached a consensus on EITF No. 06-5, Accounting for Purchases of Life Insurance - Determining the Amount that Could Be Realized in Accordance with FASB Tech Bulletin 85-4 (EITF 06-5). The EITF concluded that a policyholder should consider any additional amounts included in the contractual terms of the life insurance policy in determining the amount that could be realized under the insurance contract on a policy by policy basis. EITF 06-5 is effective for fiscal years beginning after December 15, 2006 and it requires that recognition of the effects of adoption should be either by (a) a change in accounting principle through a cumulative-effect adjustment to retained earnings as of the beginning of the year of adoption or (b) a change in accounting principle through retrospective application to all prior periods. The Company adopted the provisions of EITF 06-5 beginning January 1, 2007 and such adoption did not have a material impact on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). The standard defines fair value, establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America and expands disclosure about fair value measurements. The pronouncement applies under other accounting standards that require or permit fair value measurements. Accordingly, the statement does not require any new fair value measurement. SFAS 157 is effective for fiscal years beginning after November 15, 2007 and the Company plans to adopt SFAS 157 on January 1, 2008. The Company is evaluating the requirements of SFAS 157 and is currently assessing the impact of this statement on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing the impact of this statement on its consolidated financial statements.

In March 2007, the FASB ratified EITF No. 06-10 Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements

(EITF 06-10). EITF 06-10 requires that an employer recognize a liability for the postretirement benefit obligation related to a collateral assignment arrangement in accordance with SFAS No. 106 Employers Accounting for Postretirement Benefits Other Than Pensions (if deemed part of a postretirement plan) or Accounting Principles Board Opinion 12 Omnibus Opinion-1967 (if not part of a plan). The consensus is applicable if, based on the substantive agreement with the employee, the employer has agreed to (a) maintain a life insurance policy during the postretirement period or (b) provide a death benefit. The EITF also reached a consensus that an employer should recognize and measure the associated asset on the basis of the terms of the collateral assignment arrangement. The Company is required to adopt EITF 06-10 effective January 1, 2008 and is currently assessing the impact of this EITF issue on its consolidated financial statements.

3. LOANS AND LEASES

Loans, excluding loans held for sale, consisted of the following at the dates indicated:

	June 30, 2007	December 31, 2006
	(Dollars in thousands)	
Commercial, Financial and Agricultural	\$ 389,538	\$ 405,046
Real Estate:		
Construction	1,098,710	1,144,680
Mortgage-Residential	953,098	898,932
Mortgage-Commercial	1,261,692	1,165,267
Consumer	193,912	195,436
Leases	53,041	50,741
	3,949,991	3,860,102
Unearned income	(12,968)	(14,098)
Total loans and leases	\$ 3,937,023	\$ 3,846,004

4. ALLOWANCE FOR LOAN AND LEASE LOSSES

The following table presents the changes in the allowance for loan and lease losses for the periods indicated:

	Three Months Ended		Six Months Ended	
	June 30, 2007	2006	June 30, 2007	2006
	(Dollars in thousands)			
Balance, beginning of period	\$ 50,614	\$ 53,057	\$ 52,280	\$ 52,936
Provision for loan and lease losses	1,000	525	3,600	1,050
Charge-offs	(843)	(1,249)	(5,678)	(2,333)
Recoveries	638	581	1,207	1,261
Net charge-offs	(205)	(668)	(4,471)	(1,072)
Balance, end of period	\$ 51,409	\$ 52,914	\$ 51,409	\$ 52,914

5. GOODWILL AND OTHER INTANGIBLE ASSETS

The following table presents the changes in goodwill allocated to each of our reportable segments during the six months ended June 30, 2007:

	Hawaii Market (Dollars in thousands)	Commercial Real Estate	Total
Balance, beginning of period	\$ 152,812	\$ 145,071	\$ 297,883
Reductions	(2,983)	(2,915)	(5,898)
Balance, end of period	\$ 149,829	\$ 142,156	\$ 291,985

At June 30, 2007, goodwill recorded in conjunction with the acquisitions of CB Bancshares, Inc. (CBBI) and Hawaii HomeLoans, Inc. totaled \$292.0 million. Goodwill at June 30, 2007 reflected a decrease of \$5.9 million from the amount reported as of December 31, 2006 due to adjustments recorded on CBBI tax contingencies upon the adoption of FIN 48 of \$5.3 million, as well as the reversal of previously accrued acquisition costs of \$0.6 million.

Other intangible assets include a core deposit premium and mortgage servicing rights. The following table presents changes in other intangible assets for the six months ended June 30, 2007:

	Core Deposit Premium (Dollars in thousands)	Mortgage Servicing Rights
Balance, beginning of period	\$ 31,898	\$ 11,640
Additions		623
Amortization	(1,369)	(1,010)
Balance, end of period	\$ 30,529	\$ 11,253

The gross carrying value and accumulated amortization related to the core deposit premium and mortgage servicing rights are presented below:

	June 30, 2007			December 31, 2006		
	Gross Carrying Value (Dollars in thousands)	Accumulated Amortization	Net	Gross Carrying Value	Accumulated Amortization	Net
Core deposit premium	\$ 44,642	\$ (14,113)	\$ 30,529	\$ 44,642	\$ (12,744)	\$ 31,898
Mortgage servicing rights	19,717	(8,464)	11,253	19,094	(7,454)	11,640

Edgar Filing: CENTRAL PACIFIC FINANCIAL CORP - Form 10-Q

Based on the core deposit premium and mortgage servicing rights held as of June 30, 2007, estimated amortization expense for the remainder of fiscal 2007, the next five succeeding fiscal years and all years thereafter are as follows:

	Estimated Amortization Expense	
	Core Deposit Premium (Dollars in thousands)	Mortgage Servicing Rights
2007 (remainder)	\$ 1,370	\$ 1,016
2008	2,491	1,617
2009	2,491	1,334
2010	2,491	1,159
2011	2,491	1,006
2012	2,491	876
Thereafter	16,704	4,245
	\$ 30,529	\$ 11,253

The Company accounts for its mortgage servicing rights under the provisions of SFAS 156, which was adopted beginning January 1, 2007. Mortgage servicing rights are recorded when loans are sold to third-parties with servicing of those loans retained and the Company classifies its entire mortgage servicing rights into one class.

Initial fair value of the servicing right is calculated by a discounted cash flow model prepared by a third party service provider based on market value assumptions at the time of origination and the Company assesses the servicing right for impairment using current market value assumptions at each reporting period. Critical assumptions used in the discounted cash flow model include mortgage prepayment speeds, discount rates, costs to service and ancillary income. Variations in our assumptions could materially affect the estimated fair values. Changes to our assumptions are made when current trends and market data indicate that new trends have developed. Current market value assumptions based on loan product types (fixed rate, adjustable rate and balloon loans) include average discount rates and national prepayment speeds. Many of these assumptions are subjective and require a high level of management judgment. Our mortgage servicing rights portfolio and valuation assumptions are periodically reviewed by management.

Prepayment speeds may be affected by economic factors such as home price appreciation, market interest rates, the availability of other credit products to our borrowers and customer payment patterns. Prepayment speeds include the impact of all borrower prepayments, including full payoffs, additional principal payments and the impact of loans paid off due to foreclosure liquidations. As market interest rates decline, prepayment speeds will generally increase as customers refinance existing mortgages under more favorable interest rate terms. As prepayment speeds increase, anticipated cash flows will generally decline resulting in a potential reduction, or impairment, to the fair value of the capitalized mortgage servicing rights. Alternatively, an increase in market interest rates may cause a decrease in prepayment speeds and therefore an increase in fair value of mortgage servicing rights.

The Company has elected to use the amortization method to measure its mortgage servicing rights. Under the amortization method, the Company amortizes its mortgage servicing rights in proportion to and over the period of net servicing income. Income generated as the result of new mortgage servicing rights is reported as gains on sales of loans and totaled \$0.3 million and \$0.6 million for the three and six months ended June 30, 2007, respectively, compared to \$0.4 million and \$1.2 million for the three and six months ended June 30, 2006, respectively. Amortization of the servicing rights is reported as amortization of mortgage servicing rights in the Company's consolidated statements of income.

income is recorded in other income.

The following table presents the fair market value and key assumptions used in determining the fair market value of the Company's mortgage servicing rights as of June 30, 2007:

	(Dollars in thousands)	
Fair market value at January 1, 2007	\$	12,086
Fair market value at June 30, 2007	\$	13,057
Weighted average discount rate	8.6	%
Weighted average prepayment speed assumption	11.6	%

6. MERGER WITH CB BANCSHARES, INC.

The Company completed its merger with CB Bancshares, Inc. (CBBI) on September 15, 2004 (the Effective Date). At the Effective Date, the Company recorded liabilities totaling \$17.6 million for estimated costs to exit certain CBBI facilities and operations. These liabilities, net of tax, were included in the cost of the merger, resulting in an increase in goodwill. Certain adjustments to the estimates have been recorded as adjustments to the cost of the merger.

The following table sets forth information related to the exit costs accrued, adjustments to estimates and payments made against accrued amounts:

	Balance at December 31, 2006 (Dollars in thousands)	Adjustments to estimates	Payments	Balance at June 30, 2007
Lease termination fees	\$ 5,012	\$ 251	\$ (1,418)	\$ 3,845
Asset write-offs	271	(271)		
Contract termination fees	319	(319)		
Total	\$ 5,602	\$ (339)	\$ (1,418)	\$ 3,845

7. SHARE REPURCHASE

In April 2006, the Company's board of directors authorized the repurchase and retirement of up to 600,000 shares of the Company's common stock (the 2006 Repurchase Plan). The 2006 Repurchase Plan remained in effect through April 26, 2007.

On April 26, 2007, the Company's board of directors authorized the repurchase and retirement of up to 600,000 shares, of which 300,200 shares remain authorized for repurchase as of June 30, 2007, under a new repurchase plan that will remain in effect through April 30, 2008 (the 2007 Repurchase Plan). On July 25, 2007, the Company's board of directors authorized the repurchase of an additional 1,500,000 shares under the 2007 Repurchase Plan. Repurchases may be made from time to time on the open market or in privately negotiated transactions. The repurchase authorization under the 2007 Repurchase Plan rescinded the planned repurchase of any remaining shares under the Company's 2006 Repurchase Plan.

During the six months ended June 30, 2007, the Company repurchased and retired a total of 355,800 shares of common stock for approximately \$12.2 million.

8. SHARE-BASED COMPENSATION

The following table reflects total share-based compensation recognized for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
	(Dollars in thousands)			
Salaries and employee benefits	\$ 914	830	2,176	\$ 1,702
Income tax benefit	(366)	(333)	(872)	(682)
Net share-based compensation effect	\$ 548	\$ 497	\$ 1,304	\$ 1,020

In accordance with SFAS 123R, the Company is required to base initial share-based compensation expense on the estimated number of awards for which the requisite service and performance is expected to be rendered.

Stock Option Plans

The Company has adopted stock option plans for the purpose of granting options to purchase the Company's common stock to directors, officers and other key individuals. Option awards are generally granted with an exercise price equal to the market price of the Company's common stock at the date of grant; those option awards generally vest based on three or five years of continuous service and have 10-year contractual terms. Certain option and share awards provide for accelerated vesting if there is a change in control (as defined in the stock option plans below). The Company has historically issued new shares of common stock upon exercises of stock options and purchases of restricted awards.

In February 1997, the Company adopted the 1997 Stock Option Plan (1997 Plan) basically as a continuance of the 1986 Stock Option Plan. In April 1997, the Company's shareholders approved the 1997 Plan, which provided 2,000,000 shares of the Company's common stock for grants to employees as qualified incentive stock options and to directors as nonqualified stock options.

In September 2004, the Company adopted and the Company's shareholders approved the 2004 Stock Compensation Plan (2004 Plan) making available 1,989,224 shares for grants to employees and directors. Upon adoption of the 2004 Plan, all unissued shares from the 1997 Plan were frozen and no new options will be granted under the 1997 Plan. Optionees may exercise outstanding options granted pursuant to the 1997 Plan until the expiration of the respective options in accordance with the original terms of the 1997 Plan. To satisfy share issuances pursuant to the share-based compensation programs, the Company issues new shares from the 2004 Plan.

Edgar Filing: CENTRAL PACIFIC FINANCIAL CORP - Form 10-Q

The following is a summary of option activity for the Company's stock option plans for the six months ended June 30, 2007:

	Shares	Weighted Average Exercise Price
Outstanding at January 1, 2007	990,324	\$ 25.55
Changes during the period:		
Granted	71,000	35.90
Exercised	(56,294)	18.06
Expired		
Forfeited	(23,674)	34.66
Outstanding at June 30, 2007	981,356	26.51

The Company estimates the fair value of stock options granted using the Black-Scholes option pricing formula and a single option award approach. This fair value is then amortized on a straight-line basis over the requisite service periods of the awards, which is generally the vesting period. There were no stock options granted to employees during the three months ended June 30, 2007, as well as the three and six months ended June 30, 2006. The fair value of the Company's stock options granted to employees for the six months ended June 30, 2007 was estimated using the following weighted-average assumptions:

Expected volatility	33.3	%
Risk free interest rate	4.5	%
Expected dividends	2.8	%
Expected life (in years)	7.5	
Weighted average fair value	\$ 11.40	

Restricted Stock Awards

Under the 1997 and 2004 Plans, the Company awarded restricted stock awards to its non-officer directors and certain senior management personnel. The awards typically vest over a three or five year period. Compensation expense is measured as the market price of the stock awards on the grant date, and is recognized over the specified vesting periods.

The table below presents the activity of restricted stock awards for the six months ended June 30, 2007:

	Shares	Weighted Average Grant Date Fair Value
Nonvested at January 1, 2007	22,520	\$ 34.35
Changes during the period:		
Granted	22,000	35.81
Vested	(900)	27.75
Forfeited	(1,500)	35.90
Nonvested at June 30, 2007	42,120	35.20

Performance Shares and Stock Appreciation Rights

In 2005, the Company established a Long Term Incentive Plan (LTIP) that covers certain executive and senior management personnel. The LTIP is comprised of three components: performance shares, stock appreciation rights and cash awards.

Performance shares are granted under the 2004 Plan and vest based on achieving both performance and service conditions. Performance conditions require achievement of stated goals including earnings per share, credit quality and efficiency ratio targets. The service condition requires employees to be employed continuously with the Company through March 15, 2008. The fair value of the grant to be recognized over this service period is determined based on the market value of the stock on the grant date, multiplied by the probability of the granted shares being earned. This requires the Company to assess the expectation over the performance period of the performance targets being achieved as well as to estimate expected pre-vested cancellations. To the extent that the actual achievement falls short of the originally determined expectation (probability), then there is no adjustment to reduce the remaining compensation cost to be recognized. If, on the other hand, the actual achievement exceeds the expected achievement, then compensation cost is adjusted for the reporting period and over the remaining service period to reflect the increased expected compensation cost.

The table below presents activity of performance shares for the six months ended June 30, 2007:

	Shares	Weighted Average Grant Date Fair Value
Nonvested at January 1, 2007	82,438	\$ 34.67
Changes during the period:		
Granted		
Forfeited	(6,835)	34.34
Nonvested at June 30, 2007	75,603	34.70

Stock appreciation rights (SARs) are granted under the 2004 Plan. These SARs require the employee to achieve the same performance conditions as the performance shares described above as well as to satisfy service conditions that approximate three years from the date of grant. Upon exercise of the SAR, for each SAR exercised, the grantee shall be entitled to receive value equal to the difference between the market value of a share on the date of exercise minus the market value of a share on the date of grant. The Company shall pay the value owing to the grantee upon exercise in whole shares. No cash will be awarded upon exercise, and no fractional shares will be issued or delivered.

As the SARs plan is a stock-settled SAR, this plan is an equity-classified award under SFAS 123R. As such, the financial and income tax accounting for this type of award is identical to that of a nonqualified stock option plan. Therefore, the grant date fair value is determined at the grant date using the same method as would be used for determining the fair value of a grant of a nonqualified stock option, which has historically been the Black-Scholes formula. Similar to the performance shares addressed above, the amount of compensation cost to be recognized is the fair value of the SAR grant adjusted based on expectations of achieving the performance requirements and also the expected pre-vested cancellations. Compensation costs arising from the SARs will be recognized ratably over the requisite service period.

There were no grants of SARs for the three months ended June 30, 2007. The fair value of SARs granted to employees for the three months ended June 30, 2006 was estimated using the Black-Scholes option pricing formula with the following weighted-average assumptions: expected volatility of 34.3%, risk free interest rate of 5.1%, expected dividends of 2.3% and expected life of 6.5 years, resulting in a weighted average fair value of \$12.40 per grant. The fair value of SARs granted to employees for the six months ended June 30, 2007 and 2006 was estimated using the Black-Scholes option pricing formula with the following weighted-average assumptions:

	Six Months Ended			
	June 30, 2007		2006	
Expected volatility	31.7	%	34.4	%
Risk free interest rate	4.5	%	4.7	%
Expected dividends	2.8	%	2.4	%
Expected life (in years)	6.5		6.5	
Weighted average fair value	\$ 10.49		\$ 10.78	

The table below presents activity of SARs for the six months ended June 30, 2007:

	Shares	Weighted Average Exercise Price
Outstanding at January 1, 2007	56,161	\$ 34.95
Changes during the period:		
Granted	33,883	35.90
Forfeited	(8,701)	35.49
Outstanding at June 30, 2007	81,343	35.29

9. ACCUMULATED OTHER COMPREHENSIVE LOSS

Components of accumulated other comprehensive loss, net of taxes, were as follows:

	June 30, 2007	December 31, 2006
	(Dollars in thousands)	
Unrealized holding losses on available-for-sale investment securities	\$ (20,553)	\$ (15,422)
Pension liability adjustments	(9,305)	(9,853)
Tax benefit	11,963	10,130
Accumulated other comprehensive loss, net of tax	(17,895)	(15,145)

Components of comprehensive income for the periods indicated were as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2007	2006	June 30, 2007	2006
	(Dollars in thousands)			
Net income	\$ 21,016	\$ 20,438	\$ 41,151	\$ 39,777
Unrealized gain (loss) on investment securities, net of taxes	(4,883)	(2,778)	(3,078)	(8,035)
Pension adjustments, net of taxes	328		328	
Comprehensive income	\$ 16,461	\$ 17,660	\$ 38,401	\$ 31,742

10. PENSION PLANS

Central Pacific Bank (CPB) has a defined benefit retirement plan (the Pension Plan) which covers certain eligible employees. The plan was curtailed effective December 31, 2002, and accordingly, plan benefits were fixed as of that date. The following table sets forth the components of net periodic benefit cost for the Pension Plan:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Interest cost	\$ 446	\$ 385	\$ 892	\$ 770
Expected return on assets	(560)	(505)	(1,120)	(1,010)
Amortization of unrecognized loss	264	226	528	452
Net periodic cost	\$ 150	\$ 106	\$ 300	\$ 212

CPB also established Supplemental Executive Retirement Plans (SERPs), which provide certain officers of CPB with supplemental retirement benefits. The following table sets forth the components of net periodic benefit cost for the SERPs:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Service cost	\$ 140	\$ 182	\$ 280	\$ 364
Interest cost	136	135	272	270
Amortization of unrecognized transition obligation	5	49	10	98
Amortization of prior service cost	5	4	10	8
Amortization of unrecognized (gain) loss	1	(12)	2	(24)
Net periodic cost	\$ 287	\$ 358	\$ 574	\$ 716

11. EARNINGS PER SHARE

The following table presents the information used to compute basic and diluted earnings per share for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net income	\$ 21,016	\$ 20,438	\$ 41,151	\$ 39,777
Weighted average shares outstanding - basic	30,555	30,466	30,627	30,453
Dilutive effect of employee stock options and awards	243	317	267	315
Weighted average shares outstanding - diluted	30,798	30,783	30,894	30,768
Basic earnings per share	\$ 0.69	\$ 0.67	\$ 1.34	\$ 1.31
Diluted earnings per share	\$ 0.68	\$ 0.66	\$ 1.33	\$ 1.29

12. SEGMENT INFORMATION

The Company has three reportable segments: Commercial Real Estate, Hawaii Market, and Treasury. The segments reported are consistent with internal functional reporting lines. They are managed separately because each unit has different target markets, technological requirements, marketing strategies and specialized skills. The Commercial Real Estate segment includes construction and real estate development lending in Hawaii, California and Washington. The Hawaii Market segment includes retail branch offices, commercial lending, residential mortgage lending and servicing, indirect auto lending, trust services and retail brokerage services. A full range of deposit and loan products and various other banking services are offered. The Treasury segment is responsible for managing the Company's investment securities portfolio and wholesale funding activities.

The All Others category includes activities such as electronic banking, data processing, and management of bank owned properties.

The accounting policies of the segments are consistent with the Company's accounting policies that are described in Note 1 to the consolidated financial statements in the Annual Report on Form 10-K for the year ended December 31, 2006 filed with the Securities and Exchange Commission. The majority of the Company's net income is derived from net interest income. Accordingly, management focuses primarily on net interest income, rather than gross interest income and expense amounts, in evaluating segment profitability.

Intersegment net interest income (expense) was allocated to each segment based upon a funds transfer pricing process that assigns costs of funds to assets and earnings credits to liabilities based on market interest rates that reflect interest rate sensitivity and maturity characteristics. All administrative and overhead expenses are allocated to the segments at cost. Cash, investment securities, loans and their related balances are allocated to the segment responsible for acquisition and maintenance of those assets. Segment assets also include all premises and equipment used directly in segment operations.

Segment profits and assets are provided in the following table for the periods indicated.

Edgar Filing: CENTRAL PACIFIC FINANCIAL CORP - Form 10-Q

	Commercial Real Estate (Dollars in thousands)	Hawaii Market	Treasury	All Others	Total
Three months ended June 30, 2007:					
Net interest income	\$ 43,883	\$ 12,690	\$ (3,690)	\$	\$ 52,883

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Portions of the financial outlook for 2007 that follows is as previously communicated in our July 26, 2007, Current Report on Form 8-K release of second quarter 2007 results. Since that time, the financial markets have exhibited extraordinary volatility. In light of market conditions as of this filing and uncertainty about how long the markets will remain volatile, we are currently unable to estimate the impact of these market conditions on our operating results for the rest of the year.

Critical Accounting Policies

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires that management make certain judgments and use certain estimates and assumptions that affect amounts reported and disclosures made. Accounting estimates are deemed critical when a different estimate could have reasonably been used or where changes in the estimate are reasonably likely to occur from period to period and would materially impact our consolidated financial statements as of or for the periods presented. Management has discussed the development and selection of the critical accounting estimates noted below with the Audit Committee of the Board of Directors, and the Audit Committee has reviewed the accompanying disclosures.

Allowance for Loan and Lease Losses

We maintain an allowance for loan and lease losses (the Allowance) at an amount we expect to be sufficient to absorb probable losses inherent in our loan and lease portfolio based on a projection of probable net loan charge-offs. For loans classified as impaired, an estimated impairment loss is calculated. To estimate loan charge-offs on other loans, we evaluate the level and trend of nonperforming and potential problem loans and historical loss experience. We also consider other relevant economic conditions and borrower-specific risk characteristics, including current repayment patterns of our borrowers, the fair value of collateral securing, specific loans, changes in our lending and underwriting standards and general economic factors, nationally and in the markets we serve. Estimated loss rates are determined by loan category and risk profile, and an overall required Allowance is calculated. Based on our estimate of the level of Allowance required, a provision for loan and lease losses (the Provision) is recorded to maintain the Allowance at an appropriate level.

Since we cannot predict with certainty the amount of loan and lease charge-offs that will be incurred, and because the eventual level of loan and lease charge-offs are impacted by numerous conditions beyond our control, a range of loss estimates could reasonably have been used to determine the Allowance and Provision. In addition, various regulatory agencies, as an integral part of their examination processes, periodically review our Allowance. Such agencies may require that we recognize additions to the Allowance based on their judgments about information available to them at the time of their examination. Accordingly, actual results could differ from those estimates.

Goodwill and Other Intangible Assets

In accordance with Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Other Intangible Assets* (SFAS 142), we review the carrying amount of goodwill for impairment on an annual basis. Additionally, we perform an impairment assessment of goodwill and other intangible assets whenever events or changes in circumstances indicate that the carrying value of goodwill and other intangible assets may not be recoverable. Significant changes in circumstances can be both internal to our strategic and financial direction, as well as changes to the competitive and economic landscape.

Our impairment assessment of goodwill and other intangible assets involves the estimation of future cash flows and the fair value of reporting units to which goodwill is allocated. Estimating future cash flows

and determining fair values of the reporting units is only an estimate and often involves the use of significant assumptions. These estimates and assumptions could have a significant impact on whether or not an impairment charge is recognized and also the magnitude of the impairment charge.

Deferred Tax Assets and Tax Contingencies

We account for income taxes in accordance with SFAS 109, *Accounting for Income Taxes* and FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48).

Deferred tax assets and liabilities are recognized for the estimated future tax effects attributable to temporary differences and carryforwards. A valuation allowance may be required if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. In determining whether a valuation allowance is necessary, we consider the level of taxable income in prior years, to the extent that carrybacks are permitted under current tax laws, as well as estimates of future taxable income and tax planning strategies that could be implemented to accelerate taxable income if necessary. If our estimates of future taxable income were materially overstated, or if our assumptions regarding the tax consequences of tax planning strategies were inaccurate, some or all of our deferred tax assets may not be realized, which would result in a charge to earnings.

We have established income tax contingencies reserves for potential tax liabilities related to uncertain tax positions. Tax benefits are recognized when we determine that it is more likely than not that such benefits will be realized. Where uncertainty exists due to the complexity of income tax statutes, and where the potential tax amounts are significant, we generally seek independent tax opinions to support our positions. If our evaluation of the likelihood of the realization of benefits is inaccurate, we could incur additional income tax and interest expense that would adversely impact earnings, or we could receive tax benefits greater than anticipated which would positively impact earnings.

Effective January 1, 2007, we adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). The interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS 109.

Defined Benefit Retirement Plan

Defined benefit plan obligations and related assets of our defined benefit retirement plan are presented in Note 14 to the Consolidated Financial Statements for the year ended December 31, 2006 included in the Company's Annual Report on Form 10-K. Plan assets, which consist primarily of marketable equity and debt securities, are typically valued using market quotations. Plan obligations and the annual pension expense are determined by independent actuaries through the use of a number of assumptions. Key assumptions in measuring the plan obligations include the discount rate and the expected long-term rate of return on plan assets. In determining the discount rate, we utilize a yield that reflects the top 50% of the universe of bonds, ranked in the order of the highest yield. Asset returns are based upon the anticipated average rate of earnings expected on the invested funds of the plans. At December 31, 2006, we used a weighted-average discount rate of 5.9% and an expected long-term rate of return on plan assets of 8.0%, which affected the amount of pension liability recorded as of year-end 2006 and the amount of pension expense to be recorded in 2007. For both the discount rate and the asset return rate, a range of estimates could reasonably have been used which would affect the amount of pension expense and pension liability recorded. A 0.25% change in the discount rate assumption would impact 2007 pension expense by \$0.1 million and year-end 2006 pension liability by \$0.7 million, while a 0.25% change in the asset return rate would impact 2007 pension expense by \$0.1 million.

Financial Summary

Net income for the second quarter of 2007 was \$21.0 million, or \$0.68 per diluted share, compared to \$20.4 million, or \$0.66 per diluted share, for the second quarter of 2006, an increase of 2.8%. The year-over-year increase in net income resulted from a \$0.7 million increase in net interest income and a \$0.6 million increase in other operating income, offset by an increase in our provision for loan and lease losses of \$0.5 million.

Net income for the first six months of 2007 of \$41.2 million represented an increase of \$1.4 million, or 3.5%, over the comparable prior year period. The increase in net income was primarily attributable to an increase in net interest income of \$2.2 million and a decrease in other operating expenses of \$3.4 million, offset by an increase in our provision for loan and lease losses of \$2.6 million and an increase in income taxes of \$1.3 million. Results for the first six months of 2006 included an after-tax charge of \$1.3 million, or \$0.04 per diluted share, in retirement expenses for a former senior executive.

The following table presents annualized returns on average assets, average shareholders' equity, average tangible equity and basic and diluted earnings per share for the periods indicated.

	Three Months Ended		Six Months Ended	
	June 30, 2007	2006	June 30, 2007	2006
Return on average assets	1.52	% 1.57	% 1.50	% 1.53
Return on average shareholders' equity	10.99	% 11.71	% 10.87	% 11.49
Return on average tangible equity	19.03	% 22.17	% 19.04	% 22.19
Basic earnings per share	\$ 0.69	\$ 0.67	\$ 1.34	\$ 1.31
Diluted earnings per share	\$ 0.68	\$ 0.66	\$ 1.33	\$ 1.29

Material Trends

Hawaii's economy is expected to maintain moderate growth this year and next. Personal income, total wage and salary jobs, and gross state product are all forecasted to increase in 2007. Real gross state product is expected to increase by 2.6% in 2007 and by 2.5% in 2008, as compared to the 4.0% increase in 2005 and the 2.7% increase in 2006.¹ The moderation in expected growth is primarily the result of capacity constraints as evidenced by the state's low unemployment rate and high hotel occupancy rate.

Based upon the latest data and near term outlook, visitor industry growth has been revised downward from the prior forecast. Total arrivals are expected to increase 1.0% in 2007, which is 0.4% lower than the previous forecast. Despite this, visitor days are expected to increase 1.2% in 2007 over the total average of 9.1 days set in 2006. In addition, average daily spending is expected to increase 3.3% in 2007 over the previous year.²

Hawaii real personal income is expected to increase 1.8% in 2007, following a 0.5% increase in 2006. The state's unemployment rate, which is the third lowest jobless rate in the nation, was 2.5% in May 2007.³

The Hawaii housing market continues to expand, however, unit sale growth rates have moderated and the listed inventory has decreased over the past six months. In June 2007, the number of single-family home

¹ Hawaii State Department of Business, Economic Development & Tourism.

Edgar Filing: CENTRAL PACIFIC FINANCIAL CORP - Form 10-Q

resales on Oahu decreased by 8.2% while the median sales price increased by 2.4% from a year ago.⁴

California's economy has fully rebounded from the 2001 technology-related downturn. California is expected to enjoy continued moderate job growth in 2007, but at a slower pace than in 2006.

California real personal income is expected to increase 5.3% in 2007, following its 6.1% increase in 2006.⁵ However, California's unemployment rate has increased to 5.2% in May 2007 from 4.9% in May 2006, suggesting a weakening in the economy.⁶

In May 2007, the number of single-family home resales in California decreased 25.0% while the median sales price increased 4.8% from a year ago.⁷ Decreased affordability and the impact of tighter credit standards contributed to the continuing weakness in the California housing market. Single-family home resales for 2007 are expected to remain soft, down 14.0% statewide. The decline in the California housing market has occurred in most areas throughout California including regions in which we operate.

The Washington economy has also recovered from the 2001 technology-related downturn and is expected to post solid gains in 2007.

Washington real personal income increased 9.9% in the first quarter of 2007, from 1.3% in the fourth quarter of 2006.⁸ Washington's unemployment rate has increased to 4.5% in the first quarter of 2007 from 4.4% in the fourth quarter of 2006.⁹

During the first quarter of 2007, the number of Washington home resales declined 8.9%, while the median sales price increased 7.4% from a year ago.¹⁰

Our results of operations during the second half of 2007 may be directly impacted by the ability of the economies in Hawaii, California, Washington and other markets we serve to achieve their expected growth. Loan demand, deposit growth, provision for loan losses, noninterest income and noninterest expense may be affected by changes in economic conditions. If the economic environment in Hawaii, California, Washington or other markets we serve were to suffer an adverse change, such as a material decline in the real estate market (including further declines in single-family home resales) or a material external shock, our results of operations may be negatively impacted.

Results of OperationsNet Interest Income

Net interest income, when expressed as a percentage of average interest earning assets, is referred to as net interest margin. Interest income, which includes loan fees and resultant yield information, are expressed on a taxable equivalent basis using an assumed income tax rate of 35%. A comparison of net interest income on a taxable equivalent basis (net interest income) for the three and six months ended June 30, 2007 and 2006 is set forth below.

(Dollars in thousands)	Three Months Ended June 30, 2007			Three Months Ended June 30, 2006

(1) At amortized cost.

(2) Includes nonaccrual loans.

Net interest income of \$53.6 million for the second quarter of 2007 increased by \$0.7 million, or 1.4%, when compared to the \$52.9 million recognized in the second quarter of 2006. Net interest income for the first half of 2007 was \$108.0 million compared to \$105.8 million in the first half of 2006, an increase of \$2.2 million or 2.2%. The increase in net interest income for the second quarter, as well as for the first half of 2007, was primarily the result of increases in interest earning assets and average yields, partially offset by increases in funding costs as both interest-bearing liabilities and average rates increased from the comparable prior year periods.

During the second quarter and first half of 2007, total interest earning assets increased to \$4.9 billion from \$4.6 billion in the second quarter and first half of 2006. The increase in total interest earning assets for the second quarter and first half of 2007 was primarily driven by an increase in average loans and leases. The average yield on interest earning assets increased to 7.17% in the second quarter of 2007 from 6.80% in the second quarter of 2006 while the average yield for the first half of 2007 increased by 50 basis points (bp) to 7.22%.

During the second quarter of 2007, total interest-bearing liabilities increased by \$304.9 million, or 8.1%, when compared to the second quarter of 2006, while interest-bearing liabilities for the first half of 2007

increased by \$284.4 million, or 7.6%, from the comparable prior year period. The average interest rate on interest-bearing liabilities during the second quarter of 2007 increased by 67 bp to 3.40% from the second quarter of 2006, while the average interest rate on interest-bearing liabilities for the first half of 2007 increased by 77 bp to 3.36% from the first half of 2006.

Taxable-equivalent interest income for the second quarter of 2007 of \$88.3 million, increased by \$9.7 million, or 12.3%, from the second quarter of 2006, while taxable-equivalent interest income for the first half of 2007 increased by \$21.3 million, or 13.9%, to \$175.4 million compared to \$154.1 million for the first half of 2006. The increase in taxable-equivalent interest income in the current quarter and the first half of 2007 was primarily the result of increases in both the average loans and leases balances and average yields.

Average loans and leases increased by \$339.9 million in the second quarter of 2007, contributing to \$6.3 million of the current quarter increase in taxable-equivalent interest income, while the 32 bp increase in average yield contributed to \$2.9 million of the current quarter increase. Average loans and leases for the first half of 2007 increased to \$3.9 billion from \$3.6 billion for the first half of 2006, contributing to \$12.0 million of the current year-to-date increase in taxable-equivalent interest income, while the increase in average yield of 47 bp contributed to \$8.5 million of the current year-to-date increase. The increase in average loans and leases for the current quarter and the first half of 2007 is indicative of the measured growth in our real estate construction and commercial mortgage loan portfolios while the increase in average loan yields reflects the upward repricing of certain adjustable-rate loan balances.

Interest expense for the second quarter of 2007 of \$34.7 million, increased by \$8.9 million or 34.7%, from the comparable quarter one year ago, while interest expense for the first half of 2007 of \$67.4 million, increased by \$19.1 million, or 39.5%, from \$48.3 million in the first half of 2006. The increase in interest expense was primarily attributable to both increases in average interest-bearing deposit balances and the rates paid on those balances.

Average interest-bearing deposits for the current quarter increased by \$268.1 million from the comparable quarter one year ago and accounted for \$1.5 million of the total increase in interest expense for the second quarter of 2007. The average interest rate paid on deposits during the second quarter of 2007 increased by 71 bp to 2.92%, and contributed to \$5.3 million of the increase in interest expense for the current quarter. Average interest-bearing deposits during the first half of 2007 increased by \$264.4 million from the first half of 2006, and accounted for \$2.7 million of the total increase in interest expense for the related period. The average interest rate paid on deposits during the first half of 2007, increased by 81 bp to 2.87%, resulting in an increase in interest expense of \$12.0 million for the first half of 2007. The increase in the average interest rate paid on deposits was attributable to a continuing shift in our deposit base from non-interest bearing demand deposit accounts to higher rate time deposit accounts and increased pricing pressures as we continue to compete for deposits with other local financial institutions, internet-based financial services companies and other financial services companies located outside of Hawaii.

The net interest margin was 4.36% and 4.44% for the second quarter and first half of fiscal 2007, respectively, compared to 4.57% and 4.60% for the comparable 2006 periods. The compression in our net interest margin was primarily due to the aforementioned increase in our funding costs and deposit repricings rising more rapidly than the upward repricing of our loan balances. Based on our belief that our funding costs and loan yields will stabilize at current levels, we anticipate net interest margin will remain near current levels through the second half of 2007.

Nonperforming Assets, Accruing Loans Delinquent for 90 Days or More, Restructured Loans Still Accruing Interest

The following table sets forth nonperforming assets, accruing loans delinquent for 90 days or more and restructured loans still accruing interest at the dates indicated.

	June 30, 2007		December 31, 2006	
	(Dollars in thousands)			
<u>Nonperforming Assets</u>				
Nonaccrual loans:				
Commercial, financial and agricultural	\$ 969		\$ 3,934	
Real estate:				
Mortgage-residential	118		5,024	
Mortgage-commercial	301			
Total nonperforming assets	1,388		8,958	
<u>Accruing loans delinquent for 90 days or more:</u>				
Commercial, financial and agricultural	46		88	
Real estate:				
Mortgage-residential	43		364	
Consumer	217		457	
Leases	24			
Total accruing loans delinquent for 90 days or more	330		909	
<u>Restructured loans still accruing interest:</u>				
Total restructured loans still accruing interest				
Total nonperforming assets, accruing loans delinquent for 90 days or more and restructured loans still accruing interest	\$ 1,718		\$ 9,867	
Total nonperforming assets as a percentage of loans and other real estate	0.03	%	0.23	%
Total nonperforming assets and accruing loans delinquent for 90 days or more as a percentage of loans and other real estate	0.04	%	0.25	%
Total nonperforming assets, accruing loans delinquent for 90 days or more and restructured loans still accruing interest as a percentage of loans and other real estate	0.04	%	0.25	%

Nonperforming assets, which includes non-accrual loans and leases, foreclosed real estate and other nonperforming investments, totaled \$1.4 million at June 30, 2007, compared to \$9.0 million at fiscal 2006 year end. The current decrease in nonperforming assets from fiscal 2006 year end was primarily a result of the payoff of a \$4.8 million non-accrual residential mortgage loan and the charge-off of \$2.9 million in commercial loans from a single borrower in the first quarter of 2007.

All non-accrual loans at June 30, 2007 are in various stages of collection and we believe that the potential loss exposure on total non-accrual loans has been adequately provided for in the Allowance as of June 30, 2007.

The decrease in accruing loans delinquent for 90 days or more from fiscal 2006 year-end and the comparable prior year period was primarily attributed to payoffs.

There were no restructured loans accruing interest at June 30, 2007 or at fiscal 2006 year end.

We continue to closely monitor the quality of our loan portfolio and proactively work with our borrowers to resolve any potential problems. During this monitoring process, we identified two real estate construction loans totaling \$15.9 million that are being closely watched. Both loans were originated in California and are secured by real estate, however the land values associated with these loans have declined and guarantor liquidity has diminished. We are in the process of evaluating the collateral values securing each loan. No losses have been recorded on either loan and our potential loss exposure is indeterminable at this time.

We do not have any direct credit exposure to the subprime residential mortgage loan market. We do provide residential construction financing that may depend on residential mortgages, both prime and subprime, for repayment.

Any deterioration in the economies of Hawaii, California or Washington may impact loan quality and may result in increases in nonperforming assets, delinquencies and restructured loans.

Allowance and Provision for Loan and Lease Losses

A discussion of our accounting policy regarding the Allowance is contained in the Critical Accounting Policies section of this report. The following table sets forth certain information with respect to the Allowance as of the dates and for the periods indicated:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,		
	2007	2006	2007	2006	
Allowance for loan and lease losses:					
Balance at beginning of period	\$ 50,614	\$ 53,057	\$ 52,280	\$ 52,936	
Provision for loan and lease losses	1,000	525	3,600	1,050	
Charge-offs:					
Commercial, financial and agricultural	135	355	3,559	369	
Real estate:					
Mortgage-residential			358		
Consumer	708	877	1,761	1,946	
Leases		17		18	
Total charge-offs	843	1,249	5,678	2,333	
Recoveries:					
Commercial, financial and agricultural	20	31	59	117	
Real estate:					
Construction	7		7		
Mortgage-residential	160	21	195	42	
Mortgage-commercial	3	3	6	6	
Consumer	446	526	938	1,093	
Leases	2		2	3	
Total recoveries	638	581	1,207	1,261	
Net charge-offs	205	668	4,471	1,072	
Balance at end of period	\$ 51,409	\$ 52,914	\$ 51,409	\$ 52,914	
Annualized ratio of net charge-offs to average loans	0.02	% 0.07	% 0.23	% 0.06	%

The Provision was \$1.0 million and \$3.6 million for the second quarter and first half of 2007, respectively, compared to \$0.5 million and \$1.1 million, respectively, for the comparable periods in 2006. The increases in the Provision in 2007 in comparison to 2006 were necessary to maintain the adequacy of the Allowance given the credit risk inherent in our loan portfolio and based on the current risk composition of our outstanding balances.

The Allowance, expressed as a percentage of total loans, was 1.31% at June 30, 2007 compared to 1.36% at year-end 2006. Any economic deterioration in the areas we serve could adversely affect the borrowers' ability to repay their loans or the value of collateral securing those loans and, consequently, the level of net loan charge-offs and the Provision.

Net charge-offs totaled \$0.2 million and \$4.5 million for the second quarter and first half of 2007, respectively, compared to \$0.7 million and \$1.1 million, respectively, for the comparable periods in 2006. The increase in charge-offs was primarily attributed to commercial loan charge-offs from a single

borrower totaling \$2.9 million in the first quarter of 2007. The annualized ratio of net charge-offs to average loans was 0.02% and 0.23% for the three and six months ended June 30, 2007, respectively, compared to 0.07% and 0.06% for the same periods in 2006, respectively.

As of June 30, 2007, there were five impaired loans to three borrowers totaling \$11.5 million, compared to ten impaired loans to four borrowers totaling \$6.9 million at year-end 2006. All impaired loans at June 30, 2007 are fully collateralized.

Other Operating Income

Total other operating income of \$11.5 million for the second quarter of 2007 increased by \$0.6 million, or 5.3%, from the comparable quarter one year ago. The increase was largely due to increases in income from bank-owned life insurance of \$0.4 million, other service charges and fees of \$0.4 million, and gains on sales of loans of \$0.3 million, offset by a decrease in miscellaneous operating income of \$0.5 million.

For the first half of 2007, total other operating income of \$22.7 million decreased by \$0.4 million, or 1.9%, over the comparable prior year period. The decrease was largely due to lower gains on sales of loans and miscellaneous income totaling \$1.7 million, partially offset by increases in income from bank-owned life insurance and other service charges and fees totaling \$1.3 million. Despite the recent increase in loan origination and refinancing activity experienced in the second quarter of 2007, income earned on gains on sales of loans continues to trail the prior year on a year-to-date basis as gains on sales of loans peaked in the first quarter of 2006. In an effort to enhance our mortgage banking operations, we have continued with our strategy of establishing strategic alliances with real estate brokers and developers, thus providing additional loan origination opportunities despite the recent slowdown in home sales activity.

Other Operating Expense

Total other operating expense was \$31.3 million for the second quarter of 2007, down \$0.1 million or 0.4% from the comparable quarter one year ago. The current quarter decrease in other operating expense was primarily due to a decrease in salaries and employee benefits of \$0.7 million, partially offset by increased amortization expense of \$0.5 million related to our high technology investments.

For the first half of 2007, total other operating expense of \$61.8 million decreased by \$3.4 million, or 5.3%, over the same period last year. The decrease in other operating expense was primarily due to the reversal of certain incentive compensation accruals totaling \$1.8 million recorded in the first quarter of 2007, and \$2.2 million in retirement expenses for a former senior executive recorded in the first quarter of 2006. Given the current economic conditions under which we operate, we expect to manage operating expenses tightly and anticipate expenses for the remainder of 2007 to remain relatively consistent with current levels.

Income Taxes

The effective tax rate for the three and six months ended June 30, 2007 was 34.5% and 35.6%, respectively, compared to 34.4% and 35.0% for the comparable prior year periods. We expect the effective tax rate to decrease slightly for the remainder of 2007 as we anticipate generating additional state tax credits by increasing our investments in high-technology businesses. Additional factors that may affect the effective tax rate for 2007 include the level of tax-exempt income recognized, the amount of nondeductible expenses incurred and the amount of other tax credits available to offset future taxable income.

Contractual Obligations

Information regarding our contractual obligations is provided in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our Annual Report on Form 10-K for the year ended December 31, 2006. There have been no material changes in our contractual obligations since December 31, 2006.

In addition to our previously disclosed contractual obligations, FIN 48 tax liabilities were \$6.9 million at June 30, 2007. Based on the uncertainties associated with the settlement of these items, we are unable to make reasonably reliable estimates of the period of potential cash settlements, if any, with taxing authorities.

Financial Condition

Total assets at June 30, 2007 grew to \$5.6 billion, increasing by \$76.4 million or 1.4% compared to year-end 2006.

Loans and leases, net of unearned income, grew to \$3.9 billion, increasing by \$91.0 million or 2.4% over year-end 2006. The increase was primarily attributable to increases in both our commercial and residential real estate mortgage portfolios, partially offset by decreases in our commercial construction and commercial, financial and agricultural loan portfolios. Our mainland loan production offices contributed approximately 57% of our total loan growth during the first half of 2007, while our Hawaii lending activity contributed the remaining 43%.

Total deposits at June 30, 2007 grew to \$3.9 billion, increasing by \$70.4 million over year-end 2006. Noninterest-bearing deposits at June 30, 2007 decreased by \$37.2 million, or 5.6%, from fiscal 2006 year-end, while interest-bearing deposits increased by \$107.6 million, or 3.4%. The decrease in noninterest-bearing deposits and increase in interest-bearing deposits reflects a shift in customer activity from noninterest-bearing deposits into higher-rate time deposits as customers have become increasingly interest rate sensitive.

We remain committed to growing our customer deposit base by focusing our sales and marketing efforts on our premier product, the Exceptional Checking and Savings accounts, as well as by offering periodic certificate of deposit specials. We are also continually looking for ways to provide our customers with innovative products and solutions. In April 2007, we launched a new product called Remote Deposit Central. This product allows our commercial customers to deposit checks remotely from the comfort of their office or home office without having to visit our branches. We are currently the only bank in Hawaii offering this product. During the second half of 2007, we plan on further enhancing our suite of products to better meet the needs of our customers and grow our deposit market share.

Capital Resources

Shareholders' equity was \$753.5 million at June 30, 2007, compared to \$738.1 million at year-end 2006. Book value per share at June 30, 2007 was \$24.75, compared to \$24.04 at year-end 2006.

On April 25, 2007, the Company's board of directors declared a second quarter cash dividend of \$0.24 per share, an increase of 14.3% over the \$0.21 per share dividend declared in the second quarter of 2006. For the first half of 2007, dividends declared totaled \$0.48 per share, an increase of 14.3% over the \$0.42 per share declared in the first half of 2006.

In April 2006, the Company's board of directors authorized the repurchase and retirement of up to 600,000 shares of the Company's common stock (the 2006 Repurchase Plan). The 2006 Repurchase

Plan remained in effect through April 26, 2007.

On April 26, 2007, the Company's board of directors authorized the repurchase and retirement of up to 600,000 shares under a new repurchase plan that will remain in effect through April 30, 2008 (the 2007 Repurchase Plan). The repurchase authorization under the 2007 Repurchase Plan rescinds the planned repurchase of any remaining shares under the Company's 2006 Repurchase Plan. As of June 30, 2007, 300,200 shares remain authorized for repurchase under the 2007 Repurchase Plan. On July 25, 2007, the Company's board of directors authorized the repurchase of an additional 1,500,000 shares under the 2007 Repurchase Plan.

During the six months ended June 30, 2007, the Company repurchased and retired a total of 355,800 shares of common stock for approximately \$12.2 million under the 2006 and 2007 Repurchase Plans.

We have five statutory trusts: CPB Capital Trust I, CPB Capital Trust II, CPB Statutory Trust III, CPB Capital Trust IV and CPB Statutory Trust V, which issued a total of \$105.0 million in trust preferred securities. The statutory trusts are not consolidated in the consolidated financial statements as of June 30, 2007. However, the Federal Reserve Board (the FRB) has determined that certain cumulative preferred securities, such as the trust preferred securities issued by the capital and statutory trusts, qualify as minority interest, and are included in the calculation of Tier 1 capital up to 25% of total risk-based capital with the excess includable as Tier 2 capital.

Our objective with respect to capital resources is to maintain a level of capital that will support sustained asset growth and anticipated risks. Furthermore, we seek to ensure that regulatory guidelines and industry standards for well-capitalized institutions are met or exceeded.

Regulations on capital adequacy guidelines adopted by the FRB and the Federal Deposit Insurance Corporation (the FDIC) are as follows. An institution is required to maintain a minimum ratio of qualifying total capital to risk-adjusted assets of 8% and a minimum ratio of Tier 1 capital to risk-adjusted assets of 4%. In addition to the risk-based guidelines, federal banking regulators require banking organizations to maintain a minimum amount of Tier 1 capital to total assets, referred to as the leverage ratio. For a banking organization rated in the highest of the five categories used by regulators to rate banking organizations, the minimum leverage ratio of Tier 1 capital to total assets must be 3%. In addition to these uniform risk-based capital guidelines and leverage ratios that apply across the industry, the regulators have the discretion to set individual minimum capital requirements for specific institutions at rates significantly above the minimum guidelines and ratios.

Edgar Filing: CENTRAL PACIFIC FINANCIAL CORP - Form 10-Q

The following table sets forth the Company's capital ratios and capital adequacy requirements applicable as of the dates indicated. In addition, FDIC-insured institutions such as our principal banking subsidiary, Central Pacific Bank, must maintain leverage, Tier 1 and total risk-based capital ratios of at least 5%, 6% and 10%, respectively, to be considered "well capitalized" under the prompt corrective action provisions of the FDIC Improvement Act of 1991.

(Dollars in thousands)	Actual Amount	Ratio	Minimum Required for Capital Adequacy Purposes Amount	Ratio	Minimum Required to be Well Capitalized Amount	Ratio
Company						
At June 30, 2007:						
Leverage capital	\$ 578,152	11.1	% \$ 207,662	4.0	% \$ 259,578	5.0
Tier 1 risk-based capital	578,152	12.7	182,248	4.0	273,373	6.0
Total risk-based capital	631,085	13.9	364,497	8.0	455,621	10.0
At December 31, 2006:						
Leverage capital	\$ 553,254	10.9	% \$ 202,538	4.0	% \$ 253,173	5.0
Tier 1 risk-based capital	553,254	12.3	179,292	4.0	268,939	6.0
Total risk-based capital	608,192	13.6	358,585	8.0	448,231	10.0
Central Pacific Bank						
At June 30, 2007:						
Leverage capital	\$ 550,427	10.6	% \$ 208,489	4.0	% \$ 260,611	5.0
Tier 1 risk-based capital	550,427	12.1	181,896	4.0	272,844	6.0
Total risk-based capital	603,360	13.3	363,791	8.0	454,739	10.0
At December 31, 2006:						
Leverage capital	\$ 526,228	10.4	% \$ 203,325	4.0	% \$ 254,157	5.0
Tier 1 risk-based capital	526,228	11.8	178,769	4.0	268,154	6.0
Total risk-based capital	581,166	13.0	357,538	8.0	446,923	10.0

Liquidity

Our objective in managing liquidity is to maintain a balance between sources and uses of funds in order to economically meet the cash requirements of customers for loans and deposit withdrawals and participate in lending and investment opportunities as they arise. We monitor our liquidity position in relation to trends of loan demand and deposit growth on a daily basis to assure maximum utilization, maintenance of an adequate level of readily marketable assets and access to short-term funding sources.

During the first half of 2007, loan growth exceeded deposit growth and was funded from a variety of sources, including proceeds from maturities of investment securities, increases in deposits and secondary funding sources.

We anticipate that loan demand will continue to exceed deposit growth for the remainder of 2007. Liquidity needs due to excess loan growth is expected to be satisfied by cash flows generated by maturities of investment securities and secondary funding sources such as the Federal Home Loan Bank of Seattle (FHLB). Central Pacific Bank is a member of, and maintained a \$1.4 billion line of credit with, the FHLB as of June 30, 2007, of which \$715.9 million was outstanding. We believe that our current sources of funding are adequate to meet our liquidity needs for the near term.

Anti-Money Laundering Initiatives and the USA Patriot Act

In November 2006, Central Pacific Bank agreed to a cease and desist order (the Order) with the Federal Deposit Insurance Corporation (FDIC) and the State of Hawaii Division of Financial Institutions (DFI). The Order requires the bank to take steps to improve its Bank Secrecy Act (BSA)

program, including detecting, monitoring and reporting large currency transactions and suspicious activity. To date, the bank has implemented numerous improvements that address the requirements of the Order and continues to do so with regulatory guidance. The Bank's improvements to its BSA program include a new automated system for detecting, monitoring and reporting large currency transactions and suspicious activity. All of the changes are subject to review by the FDIC and DFI before the Order can be lifted. Based on the progress made thus far, the bank anticipates completing all necessary improvements to its BSA program to be in compliance by the end of the third quarter of 2007.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss in a financial instrument arising from adverse changes in market rates/prices such as interest rates, foreign currency rates, commodity prices and equity prices. Our primary market risk exposure is interest rate risk that occurs when rate-sensitive assets and rate-sensitive liabilities mature or reprice during different periods or in differing amounts. Asset/liability management attempts to coordinate our rate-sensitive assets and rate-sensitive liabilities to meet our financial objectives. The Asset/Liability Committee (ALCO) monitors interest rate risk through the use of interest rate sensitivity gap, net interest income and market value of portfolio equity simulation and rate shock analyses. Adverse interest rate risk exposures are managed through the shortening or lengthening of the duration of assets and liabilities.

The primary analytical tool we use to measure and manage our interest rate risk is a simulation model that projects changes in net interest income (NII) as market interest rates change. Our ALCO policy requires that simulated changes in NII should be within certain specified ranges, or steps must be taken to reduce interest rate risk. The results of the model indicate that the mix of rate-sensitive assets and liabilities at June 30, 2007 would not result in a fluctuation of NII that would exceed the established policy limits.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report and pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended, (the Exchange Act), the Company s Management, including the Chief Executive Officer and Principal Financial and Accounting Officer, conducted an evaluation of the effectiveness and design of the Company s disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act). Based upon that evaluation, the Company s Chief Executive Officer and Principal Financial and Accounting Officer concluded, as of the end of the period covered by this report, that the Company s disclosure controls and procedures were effective in recording, processing, summarizing and reporting information required to be disclosed by the Company, within the time periods specified in the Securities and Exchange Commission s rules and forms.

Changes in Internal Controls

As of the end of the period covered by this report, there have been no changes in the Company s internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter to which this report relates that have materially affected or is reasonably likely to materially affect, the internal control over financial reporting.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

We are involved from time to time in various claims, disputes and other legal actions in the ordinary course of business. We believe that the resolution of such additional matters will not have an adverse material effect upon our financial position or results of operations when resolved.

Item 1A. Risk Factors

There have been no material changes from Risk Factors as previously disclosed in our Annual Report on Form 10-K for the period ended December 31, 2006, filed with the SEC.

Item 2. Unregistered Sales of Equity and Use of Proceeds

The following table sets forth information with respect to repurchases by us of our common stock during the quarter ended June 30, 2007:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs (1)
April 1, 2007 through April 30, 2007		\$		600,000
May 1, 2007 through May 31, 2007	248,900	34.21	248,900	351,100
June 1, 2007 through June 30, 2007	50,900	33.30	50,900	300,200

(1) In April 2006, the Company's board of directors authorized the repurchase and retirement of up to 600,000 shares of the Company's common stock (the 2006 Repurchase Plan). The 2006 Repurchase plan remained in effect through April 26, 2007.

On April 26, 2007, the Company's board of directors authorized the repurchase and retirement of up to 600,000 shares under a repurchase plan that will remain in effect through April 30, 2008 (the 2007 Repurchase Plan). On July 25, 2007, the Company's board of directors authorized the repurchase of an additional 1,500,000 shares. Repurchases under the 2007 Repurchase Plan may be made from time to time on the open market or in privately negotiated transactions. The repurchase authorization under the 2007 Repurchase Plan rescinded the planned repurchase of any remaining shares under the Company's 2006 Repurchase Plan.

Item 3. Defaults upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

Our Annual Meeting of Shareholders (the Meeting) was held on May 22, 2007 for the purpose of considering and voting upon the following matters:

- To elect five persons to the Board of Directors for a term of three years and to serve until their successors are elected and qualified;

Edgar Filing: CENTRAL PACIFIC FINANCIAL CORP - Form 10-Q

- To ratify the appointment of KPMG LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007;
- To amend the Company's 2004 Stock Compensation Plan in order to increase the number of shares available for issuance pursuant to awards granted under the Plan from 1,500,000 to 2,500,000;
- To transact such other business as may properly come before the Meeting and at any and all adjournments thereof.

The following table presents the names of directors elected at the Meeting, as well as the number of votes cast for each of the directors nominated. A total of 27,262,597 shares, or 86.9% of eligible shares, were represented at the meeting.

Name	For	Withheld
Clint Arnoldus	26,521,613	740,984
Christine H. H. Camp Friedman	26,521,633	740,964
Dennis I. Hirota	26,056,785	1,205,812
Ronald K. Migita	26,444,628	817,969
Maurice H. Yamasato	26,435,161	827,436

In addition to the above directors, the following directors will continue to serve on the Board of Directors until the expiration of their respective terms as indicated:

Name	Expiration of Term
Earl E. Fry	2008
B. Jeannie Hedberg	2008
Duane K. Kurisu	2008
Colbert M. Matsumoto	2008
Crystal K. Rose	2008
Richard J. Blangiardi	2009
Clayton K. Honbo	2009
Paul J. Kosasa	2009
Mike K. Sayama	2009
Dwight L. Yoshimura	2009

The ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007 was approved with a total of 26,772,876 votes cast for, 250,493 votes cast against, and 239,229 abstentions or nonvotes.

The amendment of the Company's 2004 Stock Compensation Plan in order to increase the number of shares available for issuance pursuant to awards granted under the Plan from 1,500,000 to 2,500,000 was approved with a total of 19,544,594 votes cast for, 3,489,796 votes cast against, and 362,484 abstentions or nonvotes.
