PROPOSAL 2

APPROVAL OF AN AMENDMENT TO ARRAY S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION

General

The Board of Directors has approved, and is recommending to the stockholders for approval at the Annual Meeting, an amendment to Section 4.1 of our Amended and Restated Certificate of Incorporation to increase the number of shares of Common Stock Array is authorized to issue from 60,000,000 to 120,000,000. The Board of Directors determined that this amendment is advisable and should be considered at the Annual Meeting. We are currently authorized to issue 10,000,000 shares of Preferred Stock, par value \$0.001 per share, and the proposed amendment will not affect this authorization.

The text of the proposed amendment to our Amended and Restated Certificate of Incorporation to increase the authorized number of shares of Common Stock as described in this proposal is set forth in *Annex A* attached to this proxy statement and is incorporated by reference herein.

If the amendment to the Amended and Restated Certificate of Incorporation is approved by the stockholders, we will promptly file a Certificate of Amendment with the Delaware Secretary of State reflecting the increase in authorized shares. The amendment will become effective on the date the Certificate of Amendment is accepted for filing by the Delaware Secretary of State.

Purposes and Effects of the Increase in the Authorized Number of Shares of Common Stock

Our Amended and Restated Certificate of Incorporation currently authorizes the issuance of 60,000,000 shares of Common Stock. As of the close of business on the record date, 47,119,673 shares of Common Stock were issued and outstanding, 7,954,874 shares were issuable pursuant to outstanding options, 5,904,548 shares were reserved for future grants under the Amended and Restated Stock Option and Incentive Plan, subject to total authorized share capital, and 353,784 shares were reserved for future issuance under the Employee Stock Purchase Plan.

The Board believes that the proposed increase of 60,000,000 authorized shares of Common Stock is desirable so that, as the need may arise, we will have the flexibility to issue shares of Common Stock without additional expense or delay in connection with possible future equity financings, future opportunities for expanding our business through investments or acquisitions, management incentive and employee benefit plans, stock dividends or stock splits and for other general corporate purposes. As of the date of this Proxy Statement, the Board of Directors has not taken, and does not currently intend to take, any action to issue the additional authorized shares for any such purposes.

Each additional share of Common Stock authorized by the amendment to the Amended and Restated Certificate of Incorporation will have the same rights and privileges as each share of Common Stock currently authorized or outstanding. The holders of Common Stock have no preemptive rights. Authorized but unissued shares of Common Stock may be issued at such times, for such purposes and for such consideration as the Board of Directors may determine to be appropriate without further authority from the stockholders, except as otherwise required by applicable law or stock exchange policies.

The adoption of this proposed amendment to the Amended and Restated Certificate of Incorporation will result in a greater number of shares of Common Stock available for issuance. Stockholders could therefore experience a significant reduction in their stockholders' interest with respect to earnings per share, voting, liquidation value and book and market value per share if the additional authorized shares are issued other than through a proportional issuance such as a stock split or stock dividend.

The increase in the authorized number of shares of Common Stock and the subsequent issuance of such shares could also have the effect of delaying or preventing a change in control of the company without further action by the stockholders. Shares of authorized and unissued Common Stock could be issued (within the limits imposed by applicable law) in one or more transactions which would make a change in control of the company more difficult, and therefore less likely. Any such issuance of additional stock could have the effect of diluting the earnings per share and book value per share of outstanding shares of Common Stock and could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of the company. Existing provisions in our Amended and Restated Certificate of Incorporation and Bylaws may also have the effect of delaying or preventing a merger with or acquisition of the company, even where the stockholders may consider it to be favorable. These provisions could also prevent or hinder an attempt by stockholders to replace Array's current directors and include: (i) providing for a classified Board of Directors with staggered, three-year terms; (ii) prohibiting cumulative voting in the election of directors; (iii) authorizing the issuance of blank check preferred stock; (iv) limiting persons who can call special meetings of the Board of Directors or stockholders; (v) prohibiting stockholder action by written consent; and (v) establishing advance notice requirements for nominations for election to the Board of Directors or for proposing matters that can be acted on by stockholders at a stockholders meeting.

Vote Required

The approval of the amendment to our Amended and Restated Certificate of Incorporation requires the affirmative vote of a majority of the outstanding shares of Common Stock. Abstentions and broker non-votes are not affirmative votes and, therefore, will have the same effect as a vote against the proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE FOR PROPOSAL 2 APPROVING AN AMENDMENT TO ARRAY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE AUTHORIZED SHARES OF COMMON STOCK.

PROPOSAL 3

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

We are asking the stockholders to ratify the Audit Committee's selection of KPMG LLP as our independent registered public accountants for the fiscal year ending June 30, 2008. If the stockholders do not ratify the selection, the Audit Committee will reconsider its selection. Even if the selection is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee feels that such a change would be in the best interests of Array and our stockholders.

Representatives of KPMG LLP are expected to be present at the Annual Meeting, and will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions. The affirmative vote of the holders of a majority of the shares represented in person or by proxy and voting at the Annual Meeting will be required to ratify the selection of KPMG LLP.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE IN FAVOR OF THE RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR THE FISCAL YEAR ENDING JUNE 30, 2008.

AUDIT COMMITTEE REPORT

The information in this report is not soliciting material, is not deemed filed with the SEC and is not incorporated by reference in any of our filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, whether made before or after the date of this proxy statement and irrespective of any general incorporation language in any such filings.

The Audit Committee reviewed and discussed the audited financial statements for the fiscal year ended June 30, 2007, with our management and with our independent registered public accountants, KPMG LLP. In addition, the Audit Committee discussed with KPMG LLP the matters required to be discussed by the statement on Auditing Standards No. 61, as amended, relating to the conduct of the audit. The Audit Committee also discussed with KPMG LLP the written disclosures and the letter from KPMG LLP required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and considered the compatibility of the non-audit services provided by the independent registered public accountants with their independence.

Based on the Audit Committee's review of the audited financial statements and the review and discussions described in the preceding paragraph, the Audit Committee recommended to the Board of Directors that the audited financial statements for the fiscal year ended June 30, 2007 be included in the Annual Report on Form 10-K for the fiscal year ended June 30, 2007, for filing with the Securities and Exchange Commission.

Respectfully submitted,
Audit Committee
Gil J. Van Lunsen
Kyle A. Lefkoff
John L. Zabriskie, Ph.D.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

This section provides information regarding the compensation program in place for our named executive officers, or NEOs, who consist of our principal executive officer, principal financial officer and the three most highly-compensated executive officers other than the principal executive officer and principal financial officer, for our fiscal year ended June 30, 2007. It includes information regarding, among other things, the overall objectives of our compensation program and each element of compensation that we provide.

General

The Compensation Committee of our Board of Directors, or the Committee, has responsibility for determining the compensation of our NEOs for approval by our independent directors. The Committee also administers our Amended and Restated Stock Option and Incentive Plan and considers and approves new hire and periodic retention grants under the plan to NEOs and other members of management and determines the terms of performance-based compensation under our annual Performance Bonus Program applicable to our NEOs and other salaried employees. The Committee acts pursuant to a charter that has been approved by our Board, a copy of which is available on the Investor Relations section of our website at www.arraybiopharma.com.

Objectives and Philosophy of Our Compensation Program

The compensation program for our NEOs is designed to attract, retain, motivate and reward talented executives who can contribute to our long-term success and thereby build value for our stockholders. Our compensation program is based on the following key principles:

- Pay that is linked with performance and the achievement of our strategic goals.
- Overall compensation that is competitive in the industry in which we compete for executive talent.
- Alignment of NEO interests with those of our stockholders through equity compensation.
- Recognition of individual contributions, teamwork and performance.

Other factors specific to our company weigh heavily into our NEO compensation decisions, such as the following:

Evolution of Business. Our NEOs are executing our business strategy which has evolved from primarily a chemistry services provider to building a commercial-stage biotechnology company, and we believe their compensation should create appropriate incentives that are consistent with this shift. Accordingly, the Committee has reevaluated and adjusted the performance metrics for performance-based compensation for our NEOs as our strategic goals have evolved. In addition, our senior team, which has not appreciably increased in size, is managing a changing and increasingly complex business. We strive to recognize these efforts by compensating NEOs for the increased demands and risks associated with our business model, such as through annual cash bonuses and stock option awards.

Our headquarters location. All of our NEOs are based in Boulder, Colorado. We believe Boulder provides an attractive community for our employees to work and live, and the high quality of life available in Boulder has helped us to attract and retain the talent we need. Real estate prices in the Boulder area, however, approach or even exceed those in many major suburban areas. We therefore endeavor to compensate our executives with a level of cash compensation that will allow them to maintain an attractive lifestyle in Boulder.

Intense competition for management talent. Like any company, we strive to recruit top talent at all levels of our organization. Our business has shifted in recent years from a services-based drug discovery company to an integrated, commercial-stage biopharmaceutical company. The competition for executive talent in certain areas of our business, most notably clinical development talent, is especially intense. As we build our clinical capabilities, we may on occasion find it necessary to exceed the total compensation offered by more established competitors, including our peer group, to attract the talent we need in this area.

Compensation Methodology

The Committee annually reviews target salary, performance bonus and equity compensation for our NEOs and other members of senior management, and periodically reviews other elements of compensation. Compensation decisions are based primarily on the following:

- *Peer and industry data.* The Committee relies on peer and industry data in setting base salaries, determining the appropriate level and mix of equity compensation and the type and portion of compensation tied to performance goals.
- *Annual performance reviews.* Our Chairman conducts annual performance reviews of our Chief Executive Officer, and our Chief Executive Officer conducts and presents the performance reviews of the other NEOs and members of senior management to the Committee at the end of each fiscal year. Based on these reviews, the Committee considers individual factors, such as:
 - Long-term performance
 - Tenure with the company
 - Retention concerns
 - Prior and potential for future contributions to company growth
 - Industry experience
- *CEO recommendations.* The Committee seeks the input of Mr. Conway in setting the salary and target bonus levels for other NEOs and members of management. The Committee also considers recommendations from Mr. Conway regarding annual performance metrics and target amounts under the Performance Bonus Program.

Following the end of each fiscal year, the Committee reviews and determines the base salaries of Mr. Conway and the other NEOs and members of management, and approves the specific bonus amounts payable to the NEOs and other members of management under the Incentive Bonus Program based on actual company and individual performance. The Committee also determines the annual performance goals under the Performance Bonus Program for the upcoming year through an iterative process with management, adjusting as appropriate the recommendations of management regarding the performance metrics and the target amounts in light of the Company's near- and long-term strategic goals and operational plan for the upcoming year.

The Committee has previously sought the input of outside compensation consultants in determining executive compensation. Although it did not retain compensation consultants for fiscal 2007, it has done so for fiscal 2008.

Peer and Industry Data. To ensure our compensation is competitive, we rely on analyses of peer company and industry survey data. In setting NEO compensation for fiscal 2007, we considered publicly available data of ten peer biotechnology companies. These companies included:

- Albany Molecular Research, Inc.
- Arena Pharmaceuticals, Inc.
- Ariad Pharmaceuticals, Inc.
- ArQule, Inc.
- Cytokinetics, Incorporated
- deCODE genetics
- Exelixis, Inc.
- Incyte Corporation
- Infinity Pharmaceuticals, Inc.
- Lexicon Pharmaceuticals, Inc.
- Rigel Pharmaceuticals, Inc.
- Theravance, Inc.
- Vertex Pharmaceuticals Incorporated

We selected these companies because each of them are small molecule drug discovery and development companies and we consider them to be among our primary competitors, including for executive talent, and they are comparable in development stage and in size to Array, both in terms of market capitalization (mid or small cap) and number of employees. These companies are the same companies we use in comparing our overall performance. We also take into account broader based life sciences industry survey data for executive compensation among companies of our size published by Radford Surveys and Consulting as we believe that this information provides us with a statistically significant sample that supplements our peer group data. We generally strive to achieve total compensation for our NEOs at the 50th percentile of the survey group; however compensation historically has in the aggregate been below this level because an NEO may have additional or fewer responsibilities than the comparable executive level in the survey group, or as a result of other factors, including historical pay, individual performance and marketplace demands for the position.

As our business model evolves, the Committee reevaluates the peer companies used in benchmarking executive compensation, and for fiscal 2008 the following companies will be used:

- Acadia Pharmaceuticals Inc.
- Arena Pharmaceuticals, Inc.
- Ariad Pharmaceuticals, Inc.
- CV Therapeutics, Inc.
- Dendreon Corporation
- Exelixis, Inc.
- Idenix Pharmaceuticals, Inc.
- Incyte Corporation
- Isis Pharmaceuticals Inc.
- Lexicon Pharmaceuticals, Inc.
- Regeneron Pharmaceuticals, Inc.
- Seattle Genetics, Inc.
- Xenoport, Inc.
- Xoma Ltd.
- Zymogenetics, Inc.

These peer companies were selected from among publicly-held U.S. biotechnology companies based on the following criteria: companies with comparable operations, a market capitalization of not less than approximately \$400 million or more than \$1.2 billion, not fewer than 100 or more than 750 employees, clinical development-stage operations and a substantial portion of their revenues not related to marketed products.

Elements of Our Compensation Program

The primary components of executive compensation are industry competitive salaries, bonuses of cash and/or equity based on annual operational and financial objectives and on individual merit, and equity compensation grants of stock options upon hiring and periodically through retention grants.

Salary. We believe base salary is the key compensation-related reference point for individuals considering an employment change and that we must offer industry competitive base salaries. Our peer group analysis and industry survey data therefore serve as a starting point in setting salaries for our NEOs. We generally target a base salary for NEOs at the 50th percentile of the survey group, recognizing that titles and levels of responsibility vary greatly from company to company.

Performance Bonus Program. As more fully described below, we have established a Performance Bonus Program under which bonuses are paid to our NEOs and other employees based on achievement of company performance goals and objectives established by the Committee as well as on individual performance. The bonus program is intended to strengthen the connection between individual compensation and company success; reinforce our pay-for-performance philosophy by awarding higher bonuses to higher performing employees; and help ensure that our cash compensation is competitive.

Each NEO is eligible to receive a bonus under the program calculated by multiplying his base salary by a percentage value assigned to him or to his position by the Committee. Following the end of each fiscal year, the Committee determines in its discretion the extent to which the company-wide and individual performance goals were attained. Based on this assessment, the Committee awards bonuses equal to a varying percentage of an employee's target bonus amount. The Committee may award a bonus in an amount less than or greater than the amount earned by a participant under the bonus program, and individual bonuses can vary significantly based on performance. No bonuses are guaranteed under the program and the Committee can amend the program at any time until bonuses are paid.

Performance metrics. The performance bonuses for fiscal 2007 were based both on individual performance and on our performance relative to the following performance criteria:

- Financial goals consisting of revenue, earnings per share and year-end cash targets;
- Discovery research goals for our proprietary drug programs;
- Development goals relating to our proprietary drug programs; and
- Partnering goals relating to new out-licensing transactions.

In determining the bonus awards for fiscal 2007, the foregoing goals were weighted as follows: financial goals 15%; discovery research goals 20%; development goals 40%; and the partnering goals 25%. Identical performance goals form the basis for the bonus structure for almost all of our salaried employees, and we believe there is an intangible benefit to focusing all levels of personnel on consistent goals. We also believe there is a strong correlation between achievement of these goals and the success of our business as measured by our stock performance and the perception of analysts and investors.

Annual Performance Goals. The Committee establishes minimum, target and stretch goals for each performance metric based on the company's internal forecasts and through an iterative process with management. The Committee strives to set the stretch performance goals at ambitious levels to provide a meaningful incentive. We have not historically met the stretch goals and have met or slightly exceeded the target level goals. For fiscal 2005 and for fiscal 2006, we achieved 115.0% and 117.5% of the target level goals, respectively, established by the Committee. Generally, the Committee sets the minimum, target and stretch goals such that the relative level of difficulty of achieving the target level is consistent from year to year. A percentage of each NEO's target bonus amount may be awarded following the end of the fiscal year based on whether the minimum, target or stretch goals are met and the weighting of those goals. The Committee has discretion to award bonuses under the program if a particular performance goal is not met.

Individual Performance. The Committee also evaluates individual performance in approving the specific bonus amount that an NEO or other participant is entitled to based on the individual's performance review.

The Committee's approach in establishing Mr. Conway's compensation is to be competitive with peer companies, but to base a large percentage of his target compensation, by means of grants of performance-based compensation, on Array's long-term performance. Accordingly, under Mr. Conway's employment agreement, Mr. Conway is eligible to receive an annual performance-based bonus, anticipated to range between 20% and 60%, with a target of 40% of Mr. Conway's base salary, provided that minimum performance criteria are achieved under the Performance Bonus Program.

Equity Compensation. We provide equity compensation to our NEOs in the form of stock option grants under our Amended and Restated Stock Option and Incentive Plan. The Committee believes stock option awards to our NEOs and other employees encourage retention, because the recipient must remain employed with the company to receive the benefit of the award. The Committee also believes stock options align the interests of management and our stockholders, since they are of no value to the executive if our stock's value does not increase. For these reasons, the Committee considers stock options to be an important part of total compensation for our executives.

Our implementation of Statement of Financial Accounting Standards No. 123(R) makes granting stock options somewhat less attractive by requiring that we expense the fair value of the grant for financial accounting purposes. Although this accounting treatment is one of the factors we consider in awarding options, it has not had a significant impact on our granting practices, since we believe stock options remain a highly valued component of the overall compensation package for management of a growth company such as ours and are the primary means by which our executives share in the company's growth.

Stock options are awarded to all of our salaried employees, including NEOs, upon hiring. In addition, following the end of each fiscal year the Committee considers whether to award retention grants to existing employees, including NEOs. If awarded, retention grants are generally approved on four-year cycles for employees, including our NEOs, which corresponds to the duration of the standard vesting schedule of option grants. The Committee believes these retention grants provide a meaningful ongoing incentive for our NEOs and other employees to remain with Array. The Committee also considers on an annual basis whether to award options rather than cash under our performance bonus program described above, and has discretion to approve additional stock option awards for reasons such as strong individual performance or internal pay equity considerations.

Stock options generally vest in four equal annual installments beginning on the one-year anniversary of the hire date for new hire grants or the date of approval by the Committee (or by its members delegated with limited granting authority) for other types of grants. New hire grants are approved each month with a grant date of the last trading day of the month, and grant dates for other types of awards are on the date approved by the Committee. The exercise price of all employee stock options is equal to the fair market value of our common stock on the date of grant, measured as the closing price of our common stock on the grant date as reported by the Nasdaq Stock Market.

In establishing award levels, including for NEOs, the Committee takes into account an analysis of peer group data and industry survey data and, for retention grants, individual performance. The Committee also considers individual contribution and performance, based in part on input from our Chief Executive Officer for grants to other NEOs and employees, and the difficulty in replacing certain individuals within the organization. We believe that competitors who might try to hire away our employees would offer new equity awards to our employees without regard to the value of any prior awards made by us. Therefore, we do not consider the equity ownership levels of the recipients, the size of prior awards that are fully vested or amounts realized by the executives for previous awards.

Option Grant Practices. Historically, the timing of our grants of stock options has been based on internal, operational factors. New hire grants are typically awarded on the last trading day of each month and retention grants are awarded following the end of each fiscal year. We have not had, and do not intend to implement, a practice of timing our grant awards to give effect to the pending public release of material information, and any grants we may have made to senior executives in proximity to a release of earnings or other material information is coincidental. The Committee has delegated authority to two of its members, Mr. Lefkoff and Dr. Bullock, to approve option grants for non-executives. These may be awards for new hires and are reported on a periodic basis to the Committee.

Deferred Compensation Plan. We established a Deferred Compensation Plan, or the DCP, to provide NEOs and other eligible participants with an opportunity to defer all or a portion of their compensation

and to earn tax-deferred returns on the deferrals. Officers and other key employees selected by the Committee (including each of the NEOs) are eligible to participate in the DCP. Participants may defer up to a maximum of 100% of their annual base salary and their annual incentive bonus. Under the DCP, the Committee may, in its sole discretion, make matching contributions which vest over a four-year vesting schedule beginning upon commencement of employment, or may make discretionary contributions in any amount it desires to any participant's account based on vesting provisions determined in the Committee's discretion. Participants become fully vested in any matching or discretionary contributions upon a change in control of the company and upon termination of their service with the company other than for cause.

During fiscal year 2007, Mr. Conway, Dr. Koch, Dr. Snitman, Mr. Moore and Mr. Carruthers were participants under the DCP and they were all 100% vested. To date, the Committee has not approved any discretionary contributions, and has approved matching contributions of up to 4% of the executive's total base salary and bonus compensation for the year.

The DCP is intended to both qualify as a top hat plan within the meaning of Section 201(2) of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and to comply with the requirements of Section 409A of the Internal Revenue Code that govern nonqualified deferred compensation plans. The DCP is an unfunded plan for tax purposes and for purposes of Title I of ERISA. A rabbi trust has been established to satisfy our obligations under the DCP.

The Committee selects investment indices consisting of mutual funds, insurance company funds, indexed rates or other methods for participants to choose from for the purpose of providing the basis on which gains and losses are attributed to account balances under the DCP. Participants are entitled to select one or more investment indices and they do not have an ownership interest in the investment indices they select. The Committee may, in its sole discretion, discontinue, substitute or add investment indices at any time.

Payments from the DCP are made in a lump sum or in annual installments for up to ten years at the election of the participant. In addition, participants may elect to receive a short-term payout of a deferral as soon as January 1 of the fourth year after the end of the plan year in which the deferral was made.

Payments Upon Termination or Change in Control. We have entered into employment agreements with each of our NEOs which provide for severance payments upon certain terminations of employment, including in connection with a change in control of Array, and for the acceleration of vesting of outstanding stock options upon a change in control. In our experience, post-termination protection through severance compensation for executive officers is common among our peer group, and the Committee believes that it is essential to our ability to attract and retain talented executives. The Committee believes having a mutually agreed-to severance package in place prior to any termination event provides us with more flexibility to make a change in senior management if such a change is in our and our stockholders' best interest. In addition, we believe post-termination compensation if an officer is terminated as a result of a change of control transaction promotes the ability of our officers to act in the best interests of our stockholders even though they could be terminated as a result of the transaction. Our obligation to pay severance to any executive is conditioned on the executive's continued compliance with confidentiality and non-competition obligations for one year after termination, as well as on the execution of a mutually acceptable release agreement.

The terms of the employment agreements, including the severance compensation, are described in more detail below under the headings "Employment Agreements" and "Potential Payments upon Termination or Change in Control" beginning on pages 24 and 26, respectively, of this proxy statement.

In addition, our Amended and Restated Stock Option and Incentive Plan has provisions regarding vesting following a change in control, as defined in that plan. In general, upon a transaction that involves the sale of all or substantially all of our assets or the transfer (including by merger or consolidation) of 50% or more of the voting power of our outstanding securities in which Array is not the surviving entity, all

outstanding stock options, including those held by our NEOs (except to the extent otherwise provided in the employment agreements with each NEO), vest in full unless as part of the transaction (a) the options are assumed by the acquiring entity or (b) replaced with a comparable options for shares of stock of the acquiring entity, in either event the options would remain in effect under their respective terms and conditions following the change in control. The Committee has discretion to modify the vesting provisions in individual award agreements for options or restricted stock units, including upon a change in control or upon termination of employment.

Employee Stock Purchase Plan. We have a tax-qualified employee stock purchase plan, or ESPP, that is made available to all employees, including our NEOs. The ESPP allows participants to acquire shares of our common stock at a discount of 15% to the market price with up to 15% of their base salary, subject to a \$25,000 per calendar year maximum. The purpose of the ESPP is to encourage employees to become stockholders of Array to better align their interests with those of our other stockholders.

Perquisites. Substantially all benefits we provide to our executives are made available to all of our other salaried employees on a non-discriminatory basis, and for this reason are not considered perquisites. Benefits we provide on a non-discriminatory basis include our medical and dental insurance, life insurance, 401(k) plan and the ESPP. Relocation expenses also are reimbursed but are individually negotiated when they occur. The aggregate incremental cost to us of all the perquisites we provided to any NEO in fiscal 2007 was less than \$10,000.

Deductibility of Compensation. Section 162(m) of the Internal Revenue Code of 1986, as amended, places a limit of \$1,000,000 on the amount of non-performance-based compensation that we may deduct in any one year with respect to each of our five most highly-paid executive officers. We have taken actions necessary to ensure the deductibility of payments under the annual Incentive Bonus Program as performance-based compensation under Section 162(m). To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Committee has not adopted a policy requiring all compensation to be deductible. However, the Committee considers the impact of Section 162(m) when making pay changes to each NEO and its normal practice is to take such action as is necessary to preserve our tax deduction to the extent consistent with our compensation policies. However, we reserve the right to forgo any or all of the tax deduction if we believe it to be in the best long-term interests of our shareholders.

Deferred Compensation Plan

The Array BioPharma Inc. Amended and Restated Deferred Compensation Plan, or the DCP, provides eligible participants with an opportunity to defer all or a portion of their compensation and to earn tax-deferred returns on the deferrals. Officers and other key employees selected by the Compensation Committee (including each of the Named Executive Officers) are eligible to participate in the DCP. Participants may defer up to a maximum of 100% of their annual base salary and their annual incentive bonus. Under the DCP, the Compensation Committee may, in its sole discretion, make matching contributions which vest in equal annual installments over a four-year period, or may make discretionary contributions in any amount it desires to any participant's account based on vesting provisions determined in the Compensation Committee's discretion. Participants become fully vested in any matching or discretionary contributions upon a change in control of the company and upon termination of their service with the company other than for cause. Mr. Conway, Dr. Koch, Dr. Snitman, Mr. Moore and Mr. Carruthers were participants under the DCP in fiscal 2007, and they were all 100% vested. The Compensation Committee has approved matching contributions up to 4% of each of the named executive officers' total salary and bonus for the year.

Employment Agreements

Robert E. Conway. On March 1, 2006, we entered into an employment agreement with Mr. Conway to serve as our Chief Executive Officer, following expiration of Mr. Conway's prior employment agreement

with us. The agreement has a term of four years, commencing as of the November 19, 2005 effective date of the agreement, and may be renewed for additional one-year terms. Either party may terminate the agreement for any reason upon 30 days prior notice to the other party during the initial term or any additional term. The agreement provides for an initial annual salary of \$375,000, subject to subsequent adjustment at the discretion of the Board of Directors. Mr. Conway is also eligible to receive a cash and/or equity performance bonus each fiscal year based on a percentage of his base salary if he meets performance criteria established by our Board of Directors under our Performance Bonus Plan. It is anticipated that the performance bonus for any particular fiscal year will range between 20% and 60%, with a target of 40%, of Mr. Conway's base salary, provided that the minimum performance criteria are achieved. We also agreed to reimburse Mr. Conway for reasonable out-of-pocket expenses he incurs in connection with his performance of services under this agreement.

If Mr. Conway's employment is terminated by us without cause, as a result of his disability or because he no longer holds the title of Chief Executive Officer, his duties are materially diminished or he is not elected to serve as a member of the Board of Directors, we agreed to pay him a severance payment equal to (i) one year of his then current base salary (provided that if Mr. Conway's termination results from a change in control of Array, the severance amount is two years' current base salary), plus (ii) a pro rata portion of the performance bonus Mr. Conway would have been eligible to receive in the year of termination. The cash severance is payable to Mr. Conway beginning on the date amounts may be paid without incurring additional tax under Section 409A of the Internal Revenue Code, which is referred to as the Section 409A Time Period, in a lump sum based on the number of months in the Section 409A Time Period and then monthly thereafter. The pro rata portion of any performance bonus Mr. Conway would be entitled to receive is payable within 60 days from receipt of our audited financial statements for that fiscal year (but not sooner than the expiration of the Section 409A Time Period). We also agreed to pay 12 months of Mr. Conway's health insurance premiums under COBRA following a termination of service that results in the payment of severance. Severance payments are conditioned on Mr. Conway entering into a mutually acceptable release with us and his compliance with his existing Noncompete Agreement and Confidentiality and Invention Agreement. Under the agreement, all outstanding and unvested options held by Mr. Conway will also vest in full upon a change of control of Array or upon his death. If Mr. Conway terminates his employment without cause or if we terminate his employment for cause, he will not receive any severance payments, performance bonus or acceleration of any of his options granted to him under the agreement.

Mr. Conway is also subject to a Noncompete Agreement and Confidentiality and Invention Agreement in which he agreed during the term of his employment and for the two years thereafter not to engage in any competing activities in the United States or within a 50-mile radius of any area where we are doing business and not to recruit or solicit any of our employees or customers.

Other Executive Officers. Effective September 1, 2000, we entered into employment agreements with Dr. Koch, Dr. Snitman and Mr. Carruthers, and effective as of March 4, 2002, we entered into an employment agreement with Mr. Moore. The initial terms of these agreements expired in September 2004 and, for Mr. Moore, in March 2004 and have renewed for additional one-year terms. Array or the employee may terminate the agreement for any reason upon 30 days prior notice to the other. Under these agreements we will pay the employees annual salaries ranging from \$165,000 to \$240,000, subject to subsequent adjustment. During fiscal 2007, annual salaries ranged from \$230,000 to \$360,000. If the employee is terminated as a result of disability or by us without cause, including a reduction in the employee's salary, we have agreed to pay the employee a severance payment equal to the greater of one year, or the remaining term, of his then-current base salary in equal monthly installments, and to cause any unvested options to vest. Upon a change of control of the company, 75% of the employee's outstanding options will vest and the remaining 25% of his options will vest one year later if the employee is still working for us. If an employee decides to terminate his employment following a change of control,

he would be entitled to receive the same severance payments described above as if his employment were terminated by us without cause. Each of these employees is also subject to a Noncompete Agreement in which he has agreed for a period of two years following his termination not to engage in any competing activities within a 50-mile radius of any area where we are doing business and not to recruit or solicit any of our employees or customers.

Potential Payments upon Termination or Change in Control

We have entered into employment agreements with each of our named executive officers that provide for certain payments and acceleration and continuation of benefits upon specified terminations of employment or upon a change in control of Array. The post-termination arrangements under these agreements are described above under Employment Agreements. In addition, upon a change in control or upon termination of employment other than for cause, any matching or discretionary contributions under the DCP held by a named executive officer that have not vested, fully vest. As of June 30, 2007, each of our named executive officers was fully vested in the DCP.

The following table reflects the estimated potential payments upon termination or change in control that would be payable to each of the named executive officers who were employed on June 30, 2007. For purposes of calculating the potential payments set forth in the tables below, we have assumed that (i) the date of termination was June 30, 2007 and (ii) the value of each share subject to a stock option that would be accelerated in the circumstances set forth in the table below equals \$11.67, the closing market price of our common stock on June 29, 2007, the last business day of the 2007 fiscal year.

(1) The amounts reported in the table above do not include payments that are provided on a non-discriminatory basis to salaried employees generally upon termination of employment, which includes accrued salary and vacation pay, distributions of plan balances under our 401(k) plan, our Employee Stock Purchase Plan or the DCP.

(2) If the employee is not terminated in connection with a Change in Control, or the employee resigns on or within 30 days after the closing date of an event which constitutes a change in control, only 75% of unvested options vest. The remaining 25% of unvested options would vest only if the employee continues service until the earlier of a termination without Cause or one year from the Change in Control.

Actual amounts that a named executive officer could receive in the future could differ materially from the amounts reported above as a result of many factors, including our stock price, changes in base salary, target and actual bonus amounts, and the vesting provisions and grants of additional equity awards.

Retirement Savings Plan

We maintain a 401(k) savings plan that is intended to be a qualified retirement plan under the Internal Revenue Code. Generally, all of our employees, excluding leased and intern employees, are eligible to participate in the plan. They may enter the plan at the first calendar quarter following their original employment date and make salary deferral contributions to the savings plan, subject to the limitations imposed by the Internal Revenue Code. Array matched 100% of the first 4% of each participant's semi-monthly contribution. In addition, Array may make annual discretionary profit sharing contributions in an amount to be determined at the plan year-end by the Board of Directors; no discretionary contributions were made in fiscal 2007. Participants' contributions may be invested in any of several investment alternatives. Participants become vested in our contributions according to a graduated vesting schedule based upon length of service with us. Each of our named executive officers was fully vested in these contributions as of fiscal 2007.

COMPENSATION OF DIRECTORS

Cash compensation to our non-employee directors consists of quarterly retainers and meeting fees. The Compensation Committee periodically reviews and analyzes compensation data among the same peer group as is used in determining executive compensation and, as appropriate, adjusts director compensation to ensure that we are able to attract and retain individuals with the experience and expertise we need to help us achieve our strategic goals. During fiscal 2007, the quarterly retainer for non-employee board members was increased from \$4,000 for the first two quarters to \$5,000 for the third and fourth quarters; meeting fees remained \$1,000 for each Board meeting they attended. Members of the Compensation Committee and the Corporate Governance Committee received \$1,000 for each committee meeting they attended, and the chairs of these committees received an additional \$1,000 for each committee meeting that they chaired. Audit Committee members received \$2,000 for each Audit Committee meeting they attended and the chair received an additional \$2,000 for each Audit Committee meeting that he chaired. Our non-employee directors were compensated at a rate of 50% of the foregoing meeting fees if a Board or committee meeting was held via teleconference. In addition, each non-employee director is reimbursed for his reasonable out-of-pocket expenses incurred by him while attending any meeting of the Board or of a committee of the Board.

We also grant to our non-employee directors stock options to purchase our common stock under our Amended and Restated Stock Option and Incentive Plan, as amended, at an exercise price equal to the fair market value on the date of grant. These grants generally have been made every three years to purchase 30,000 shares of our common stock and vest in three equal annual installments, subject to continued board service. We did not grant stock options to any of our non-employee directors during fiscal 2007. The most recently granted stock option grants are scheduled to vest in full in November 2007, subject to continued Board service by the director. In May 2007, our Board of Directors, on the recommendation of the Compensation Committee, approved an increase in the equity compensation to be issued to our independent directors to purchase 45,000 shares of common stock vesting in three equal annual installments subject to continued Board service. We anticipate granting additional equity awards at this level following full vesting outstanding options during fiscal 2008.

None of our executive officers serve as a member of the Board of Directors or Compensation Committee of any other company that has one or more executive officers serving as a member of our Board of Directors, nor has such a relationship existed in the past.

CERTAIN RELATIONSHIPS AND TRANSACTIONS

Prior to our initial public offering and in connection with the sale and issuance of our Series A preferred stock in May 1998, and August 1998, our Series B preferred stock in November 1999, and our Series C preferred stock in August 2000, we entered into an agreement with the investors in such financings providing for registration rights with respect to the shares of common stock, including those issuable upon conversion of each series of preferred stock, held and subsequently acquired by these investors. Currently, 3.6 million shares of our common stock are entitled to registration rights pursuant to terms and conditions of this agreement. The registration rights under this agreement allow the holders of at least 30% of the shares of common stock held by such holders then outstanding to require us to register their shares under the Securities Act on up to two occasions, subject to limitations described in the agreement. In addition, these holders can require us to include their shares in future registrations of our shares for our account or the account of another stockholder. These holders may also require us to register their shares on up to two occasions in any calendar year on Form S-3. These registration rights are subject to limitations and conditions, including the right of underwriters to limit the number of shares of common stock held by existing stockholders to be included in a registration. The registration rights as to any holder will terminate when all securities held by the holder entitled to registration rights can be sold within a three-month period under Rule 144 of the Securities Act and when the number of shares held by the holder is less than 1% of our outstanding capital stock on an as converted to common stock basis. In

addition, we are generally required to bear all expenses of registration, including the reasonable fees of a single counsel acting on behalf of all selling stockholders, except underwriting discounts and selling commissions.

Stock option grants to our directors and executive officers are described in this Proxy Statement under the heading COMPENSATION OF DIRECTORS Director Compensation Table and EXECUTIVE COMPENSATION. The beneficial ownership of shares of our common stock held by our officers, directors and 5% stockholders is described under PRINCIPAL STOCKHOLDERS. In addition, we have employment agreements with our executive officers and some of our other employees, which are discussed under EXECUTIVE COMPENSATION Employment Agreements.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, executive officers and certain stockholders to file reports with the SEC on Forms 3, 4 and 5 for the purpose of reporting their ownership of and transactions in common stock. During the fiscal year ended June 30, 2007, to our knowledge and based solely on copies of these reports furnished to us by our directors, executive officers and 10% beneficial shareholders, all Section 16(a) reports were timely filed, except that one stock option exercise by Dr. Koch was filed late on a Form 4.

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

KPMG LLP has served as our independent registered public accountants since October 14, 2004. Representatives from KPMG LLP are expected to be present at the Annual Meeting, and will have an opportunity to make a statement at the Annual Meeting if they desire to do so and are expected to be available to respond to appropriate questions at the Annual Meeting.

STOCKHOLDER PROPOSALS FOR 2008 ANNUAL MEETING

Submission of Stockholder Proposals for Inclusion in Next Year's Annual Meeting Proxy Statement

Any proposal or proposals by a stockholder intended to be included in the Proxy Statement and form of proxy relating to the 2008 Array Annual Meeting of Stockholders must be received by Array no later than May 23, 2008, (120 days prior to September 21, 2008) according to the proxy solicitation rules of the SEC, and must comply with the other proxy solicitation rules promulgated by the SEC and with the procedures set forth in our Bylaws. Proposals should be sent to the Secretary of Array at 3200 Walnut Street, Boulder, Colorado 80301. Nothing in this paragraph shall be deemed to require Array to include in its Proxy Statement and proxy relating to the 2008 Annual Meeting of Stockholders any stockholder proposal which may be omitted from the proxy materials according to applicable regulations of the SEC in effect at the time the proposal is received.

Other Stockholder Proposals for Presentation at Next Year's Annual Meeting

A stockholder who wishes to submit a proposal for consideration at the 2008 Annual Meeting outside the processes of Rule 14a-8 under the Securities Exchange Act of 1934 and that will not be included in the Proxy Statement for such meeting must, in accordance with Section 2.2 of our Bylaws, file a written notice with the Secretary of Array which conforms to the requirements of the Bylaws. Our Bylaws are on file with the Securities and Exchange Commission, and may be obtained from our Secretary upon request and are available under the Investor Relations portion of our website at www.arraybiopharma.com. The officer who will preside at the stockholders meeting will determine whether the information provided in such notice satisfies the informational requirements of the Bylaws. Such notice of a stockholder proposal must be delivered no earlier than August 3, 2008, and no later than September 2, 2008. Any stockholder

proposal that is not submitted in accordance with the foregoing procedures will not be considered to be properly brought before the 2008 Annual Meeting.

Stockholder Nominations to the Board of Directors

The Corporate Governance Committee of the Board of Directors will consider nominating directors to the Board of Directors who are recommended by stockholders pursuant to the procedures described above for submission of stockholder proposals and the procedures set forth below. Candidates nominated for election or reelection to the Board of Directors should possess the following qualifications:

- Personal characteristics:
- highest personal and professional ethics, integrity and values;
- an inquiring and independent mind, with a respect for the views of others;
- ability to work well with others;
- practical wisdom and mature judgment.
- Broad, policy-making level training and experience in business, government, academia or science to understand business problems and evaluate and formulate solutions.

- Commitment to serve on the Board over a period of several years to develop knowledge about our principal operations.
- Willingness to represent the best interests of all stockholders and objectively appraise management performance.

The Corporate Governance Committee must receive proposals for stockholder nominations on or before the deadline for the submission of stockholder proposals for such annual meeting set forth in our bylaws and required by the rules of the Securities and Exchange Commission, as described above. Stockholder proposals must include:

- information regarding the stockholder making the proposal, including name, address and number of shares of Array BioPharma stock beneficially owned by such stockholder;
- a representation that the stockholder or the stockholder's nominee is entitled to vote at the meeting at which directors will be elected, and that the stockholder or the stockholder's designee intends to cast its vote for the election of the director, if nominated;

Following verification of this information, the Corporate Governance Committee will make an initial analysis of the qualifications of the candidate pursuant to Array's general criteria for director nominations. The Corporate Governance Committee will evaluate all candidates to the Board in the same manner regardless of the source of the nomination.

VOTING PROCEDURES AND COSTS OF PROXY SOLICITATION

All votes will be tabulated by the inspector of election appointed for the Annual Meeting who will separately tabulate affirmative and negative votes, abstentions and shares represented by brokers who are prohibited from exercising discretionary authority because the beneficial owners of such shares have not provided voting instructions, commonly referred to as broker non-votes. Shares represented by proxies that reflect abstentions and broker non-votes will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum. The election of directors will be approved by a plurality of the votes duly cast. Abstentions and broker non-votes are not counted for purposes of the election of directors. The approval of PROPOSAL 2 requires approval of a majority of the shares of Common Stock Outstanding. Therefore, broker non-votes and abstentions will have the same effect as a vote against the proposal. The ratification of the independent registered public accountants will be approved by a favorable vote of a majority of the shares of our common stock present in person or by proxy, and entitled to vote at the Annual Meeting. Broker non-votes are not treated as present and entitled to vote for purposes of determining whether a proposal has been approved and, therefore, will not be counted for any purpose in determining the approval of the ratification of the independent registered public accountants and will have no effect on these proposals. Abstentions represent shares entitled to vote and, therefore, the effect of an abstention will be a vote against this proposal.

The cost of preparing, assembling and mailing the proxy materials will be borne by us. We will also request persons, firms and corporations holding shares in their names or in the names of their nominees, which shares are beneficially owned by others, to send the proxy materials to, and to obtain proxies from, such beneficial owners and will reimburse such holders for their reasonable expenses in doing so. Original solicitation of proxies by mail may be supplemented by telephone, telegram or personal solicitation by our directors, officers or other regular employees. No additional compensation will be paid to directors, officers or other regular employees for such services.

The Board of Directors knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters are properly brought before the Annual Meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.
