PROXY STATEMENT

SOLICITATION OF PROXIES

The enclosed proxy is solicited by and on behalf of the Board of Directors of Vital Images, Inc., a Minnesota corporation ("Vital Images" or the "Company"), for use at the Annual Meeting of Shareholders (the "Annual Meeting") to be held at The Marquette Hotel, 710 Marquette Avenue, Minneapolis, Minnesota, on Tuesday, June 3, 2008, at 3:30 p.m. (Minneapolis, Minnesota time), and any adjournment of the Annual Meeting. This Proxy Statement and the accompanying form of proxy are being made available to shareholders on the Internet or are being mailed to shareholders beginning on or about April 21, 2008.

The Company will bear all costs and expenses of preparing, assembling and mailing the proxy materials and soliciting proxies for the Annual Meeting, will arrange with brokerage houses and other custodian nominees and fiduciaries to send proxies and proxy materials to their principals, and will reimburse them for their expense in so doing. The Company has retained The Altman Group to assist it in soliciting proxies, for which the estimated cost is \$6,500, plus reasonable out-of-pocket expenses. Proxies also may be solicited by telephone, facsimile or personally.

VOTING AND REVOCATION OF PROXY

Shareholders Entitled to Vote; Record Date

Only holders of record of the Company's common stock at the close of business on April 10, 2008, the record date for the Annual Meeting, are entitled to notice of and to vote at the Annual Meeting. On the record date, 17,181,526 shares of the Company's common stock were outstanding. Each share of common stock entitles the holder of the share to one vote upon each matter to be presented at the Annual Meeting.

Notice of Internet Availability of Proxy Materials

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

This year, the Company is pleased to be using the new U.S. Securities and Exchange Commission (SEC) rules that allow companies to furnish their proxy materials over the Internet. As a result, the Company is mailing to the majority of its shareholders a notice about the Internet availability of the proxy materials instead of a paper copy of the proxy materials. The notice is entitled Important Notice Regarding the Availability of Proxy Materials. All shareholders receiving the notice will have the ability to access the proxy materials over the Internet and request to receive a paper copy of the proxy materials by mail. Instructions on how to access the proxy materials over the Internet or to request a paper copy may be found on the notice. The Company's proxy materials may also be accessed on the Company's website at <http://www.vitalimages.com> by selecting Investors and then Proxy Materials. The Company is providing some of its shareholders, including shareholders who have previously requested to receive paper copies of the proxy materials, with paper copies of the proxy materials instead of a notice about the Internet availability of the proxy materials.

Voting Shares and Revoking Proxy

Each proxy returned to the Company will be voted according to the instructions on the proxy. If no instructions are indicated, the shares will be voted (i) *for* the election of the nominees for the Board of Directors named in this Proxy Statement, (ii) *for* the approval of the amendment to our 2006 Long-Term Incentive Plan to increase the shares reserved under the plan by 1,800,000 shares, (iii) *for* the approval of the amendment to our 1997 Employee Stock Purchase Plan to increase the shares reserved under the plan by 150,000 shares, and (iv) *for* the ratification of the appointment by the Audit Committee of the Company's Board of Directors of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the year ending December 31, 2008. Although the Board of Directors knows of no other matters to be presented at the Annual Meeting or any adjournment or postponement of the Annual Meeting, all proxies returned to the Company will be voted on any such matter according to the judgment of the proxy holders.

Instead of submitting a signed proxy card, shareholders may submit their proxies through the Internet using the control number and instructions on the proxy card. Internet proxies must be used in compliance with, and will be subject to, the information and terms contained on the proxy card. These procedures may not be available to shareholders who hold their shares through a broker, nominee, fiduciary or other custodian.

Any proxy for the Annual Meeting may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by:

- giving written notice of such revocation to the Secretary of the Company,
- submitting another written proxy bearing a later date,
- attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself revoke a proxy), or
- voting via the Internet after your prior Internet vote.

A quorum, consisting of a majority of the shares of common stock entitled to vote at the Annual Meeting, must be present in person or by proxy before action may be taken at the Annual Meeting. In general, for matters other than the election of Directors, the shareholders of the Company may take action by the affirmative vote of the holders of the greater of a majority of the voting power of the shares present and entitled to vote on a particular item of business, or a majority of the voting power of the minimum number of shares entitled to vote that would constitute a quorum. However, Directors are elected by a plurality vote of the voting power of the shares present and entitled to vote. If an executed proxy is returned and the shareholder has abstained from voting on any matter, the shares represented by such proxy will be considered present at the Annual Meeting for purposes of determining a quorum and for purposes of calculating the vote, but they will not be considered to have been voted in favor of such matter. If a signed proxy is returned by a broker holding shares in street name, and it indicates that the broker does not have discretionary authority to vote certain shares on one or more matters, such shares will be considered present at the Annual Meeting for purposes of determining a quorum but will not be considered to be represented at the Annual Meeting for purposes of calculating the vote with respect to such matter.

PROPOSALS OF SHAREHOLDERS

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

Pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, any shareholder wishing to have a proposal considered for inclusion in the Company's proxy solicitation material for the Annual Meeting of Shareholders to be held in 2009 must set forth such proposal in writing and file it with the Secretary of the Company no later than December 22, 2008, the date that is 120 days before April 22, 2009. Further, pursuant to Rule 14a-4, if a shareholder fails to notify the Company of a proposal before March 8, 2009, the date that is 45 days before April 22, 2009, such notice will be considered untimely, and management proxies may use their discretionary voting authority to vote on any such proposal.

OTHER BUSINESS

At the date of this Proxy Statement, management knows of no other business that may properly come before the Annual Meeting. However, if any other matters properly come before the Annual Meeting, the individuals named in the enclosed form of proxy will vote the proxies received in response to this solicitation in accordance with their best judgment on such matters.

Executive Sessions of the Board

The Board has formally adopted a policy of meeting in executive session, with only independent Directors being present, on a regular basis and at least two times each year. During 2007, the Board met in executive session five times.

Code of Business Conduct and Ethics

The Company has a Code of Business Conduct and Ethics that applies to all Directors, officers and employees of the Company, and it can be found on the Company's website at <http://www.vitalimages.com> by selecting Investors, then Corporate Governance, then Governance Documents and then Code of Business Conduct and Ethics under Governance Documents. Policy and Procedures with Respect to Related Person Transactions

On March 7, 2007, the Company's Board of Directors adopted the Company's written Policy and Procedures with Respect to Related Person Transactions, which the Audit Committee oversees. Under the policy, a related party transaction is a transaction, arrangement or relationship in which the Company was, is or will be a participant and the amount involved exceeds \$50,000, and in which any related person had, has or will have a direct or indirect material interest. The policy generally defines a related person as a Director, executive officer or beneficial owner of more than 5% of any class of the Company's voting securities and any immediate family member of any of the foregoing persons.

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

Under the policy, the related person; the Director, executive officer or beneficial owner who is an immediate family member of the related person; or the head of the business unit that is responsible for a potential related person transaction must notify the Company's general counsel of facts and circumstances involved in the potential related person transaction. If the general counsel determines that the transaction is a related person transaction, he must submit it to the Audit Committee or the Chair of the Audit Committee for review and, if appropriate, approval. The policy provides that, on an annual basis, the Audit Committee shall review any previously approved related person transaction that is ongoing. The policy also provides that proposed charitable contributions or pledges of charitable contributions by the Company in the amount of at least \$10,000 that would otherwise qualify as a related person transaction are subject to prior review by the Audit Committee or the Chair of the Audit Committee.

Qualifications of Candidates for Election to the Board

The Company's Directors take a critical role in guiding the Company's strategic direction, and they oversee the management of the Company. Many of the Directors have served as Directors since or soon after the Company became a publicly-held company in May 1997. See Election of Directors. When Board candidates are considered, they are evaluated based upon various criteria, such as their broad-based business and professional skills and experiences, experience serving as management or on the Board of Directors of other companies, concern for the long-term interests of the shareholders, financial literacy and personal integrity in judgment. The Governance and Nominating Committee and the Board seek to attract and attain highly qualified Directors who have sufficient time to attend to their duties and responsibilities to the Company. Recent developments in corporate governance and financial reporting have resulted in an increased demand for such highly-qualified and productive public company Directors.

The Governance and Nominating Committee and the Board have established the following minimum requirements for Director candidates: being able to read and understand fundamental financial statements; having at least 10 years of relevant business experience; having no identified conflicts of interest as a prospective Director of the Company; having not been convicted in a criminal proceeding other than traffic violations; and being willing to comply with the Company's Code of Business Conduct and Ethics. The Governance and Nominating Committee retains the right to modify these minimum qualifications from time to time. Exceptional candidates who do not meet all of these criteria still may be considered.

Process for Identifying and Evaluating Candidates for Election to the Board

The Governance and Nominating Committee reviews the qualifications and backgrounds of the Directors, as well as the overall composition of the Board of Directors, and recommends to the full Board the Directors to be nominated for election at each annual meeting of shareholders of the Company. In the case of incumbent Directors, the Governance and Nominating Committee reviews such Directors' overall service to the Company, including the number of meetings attended, level of participation, quality of performance, and whether the Director continues to meet the applicable independence standards. For any new Director candidates, the questions of independence and financial expertise are important to determine what roles can be performed by the candidate, and the Governance and Nominating Committee determines whether the candidate meets the applicable independence standards and the level of the candidate's financial expertise. Any new candidates will be interviewed by the Governance and Nominating Committee. The full Board will approve the final nominations. The Chair of the Board, acting on behalf of the full Board, will extend the formal invitation to become a nominee of the Board of Directors.

Shareholder Nominations

Shareholders may nominate Director candidates for consideration by the Governance and Nominating Committee by writing to Mr. Ian L. Nemerov, the Company's Secretary, and providing to the Secretary the candidate's name, biographical data and qualifications, including five-year employment history with employer names, a description of the employer's business, and all other information relating to such nominee that is required to be disclosed by Schedule 14A under the Securities Exchange Act of 1934; other Board memberships (if any); and such other information as is reasonably available and sufficient to enable the Governance and Nominating Committee to evaluate the minimum qualifications stated above under the section of this proxy statement entitled Information Concerning Directors, Nominees and Executive Officers Qualifications of Candidates for Election to the Board. The submission must be accompanied by a written consent of the individual being named in the proxy statement to be a nominee and to serve as a Director if elected by the shareholders. The submission must also include the name, address and number of shares of the Company's common stock owned by each shareholder submitting the nomination. Written notice must be given at least 120 days before the date of the next annual meeting of shareholders. If a shareholder nominee is eligible, and if the nomination is proper, the Governance and Nominating Committee then will deliberate and make its recommendation to the Board of Directors.

The Governance and Nominating Committee will not change the manner in which it evaluates candidates, including the applicable minimum criteria set forth above, based on whether the candidate was recommended by a shareholder.

Communications with the Board

Shareholders can communicate directly with the Board, or with any Committee of the Board, by writing to Mr. Ian L. Nemerov at the Company's address, by calling Mr. Nemerov at (952) 487-9500 or by contacting him via e-mail at boardofdirectors@vitalimages.com. All communications will be reviewed by management and then forwarded to the appropriate Director or Directors or to the full Board, as appropriate.

1997 Director Stock Option Plan. The Vital Images, Inc. 1997 Director Stock Option Plan (the "1997 Director Plan") was adopted by the Board of Directors on March 19, 1997 and approved by the sole shareholder of the Company on May 1, 1997. It automatically terminated on March 19, 2007, although options outstanding under the 1997 Director Plan on that date were not affected by the 1997 Director Plan's termination. The 1997 Director Plan was intended to assist the Company in attracting, motivating and retaining well-qualified individuals to serve as Directors of the Company. The 1997 Director Plan provided for both the automatic and discretionary grant of options. The only individuals eligible to receive options under the 1997 Director Plan were members of the Board of Directors of the Company, and the only individuals eligible to receive automatic grants of options under the 1997 Director Plan were those Directors of the Company who were not employees of the Company. The 1997 Director Plan provided that the total number of shares of the Company's common stock that may be purchased upon the exercise of options could not exceed 500,000 shares, subject to adjustment as provided in the 1997 Director Plan. The 1997 Director Plan was administered by the Board of Directors of the Company.

During the term of the 1997 Director Plan, all grants of stock options under the 1997 Director Plan and the amounts and terms of the options so granted were automatically determined under the 1997 Director Plan, and there were no discretionary grants of options under the 1997 Director Plan. As such, the Board of Directors had no authority to determine the grant or terms of such automatic options. Under the 1997 Director Plan,

non-employee Directors of the Company received automatic grants of stock options to purchase 18,000 shares on their initial election or appointment to the Board of Directors and on each third anniversary of their appointment to the Board so long as they were members of the Company's Board. On February 29, 2008, there were options to purchase 252,000 shares outstanding under the 1997 Director Plan, all of which were automatic options.

2006 Long-Term Incentive Plan. On March 9, 2006, the Company's Board of Directors adopted and, on May 4, 2006, the Company's shareholders approved, the Vital Images, Inc. 2006 Long-Term Incentive Plan (the 2006 Plan). Throughout 2006, the provisions of the 2006 Plan providing for the automatic grant of options to non-employee Directors generally were the same as those of the 1997 Director Plan, although no options were granted under the 2006 Plan to non-employee Directors during 2006. The 2006 Plan was amended by the Board of Directors on February 2, 2007 to change certain features of the automatic grants of options to non-employee Directors. As amended on February 2, 2007, the 2006 Plan provides that when a non-employee Director is first elected or appointed to the Board, the Director will automatically receive an option to purchase a number of

shares of common stock determined by multiplying 9,000 by a fraction, the numerator of which is the expected number of months until the next annual meeting of the Company's shareholders and the denominator of which is twelve. As amended in February 2007, the 2006 Plan provides that beginning in 2008, each non-employee Director will be automatically granted, on the day after the Company's annual meeting of shareholders, an option to purchase 9,000 shares of common stock, with the exception of Michael W. Vannier, M.D., who will receive an option to purchase 5,000 shares on such date in 2008. Beginning in 2009, each non-employee Director will receive an annual automatic grant of an option to purchase 9,000 shares of common stock on the day after the annual shareholders' meeting. In addition, the Compensation Committee and the Board of Directors approved the one-time grant under the 2006 Plan to James B. Hickey, Jr. and Gregory J. Peet on the day after the 2007 annual shareholders' meeting of an option to purchase 12,000 shares and 5,000 shares, respectively, as a time cycle adjustment for them. All of these options will vest one year after the date of grant, have a term of five years, and have an exercise price equal to the closing price of the Company's common stock as of the date of grant.

In addition to such automatic option grants, the 2006 Plan permits the Compensation Committee to make discretionary grants of stock options to any and all Directors, including non-employee Directors. Upon the discretionary grant of options to the Company's non-employee Directors under the 2006 Plan, the Compensation Committee will fix the number of shares of the Company's common stock that the optionee may purchase upon exercise of the option and the exercise price at which the shares may be purchased. The exercise price of such options cannot be less than the fair market value of the common stock at the time the option is granted. Each option will be exercisable by the optionee only during the term fixed by the Compensation Committee, with such term ending not later than five years after the date of grant.

All options granted to non-employee Directors under the 2006 Plan are non-qualified options not intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended. Payment for shares upon exercise of any automatic or discretionary options granted to non-employee Directors under the 2006 Plan may be made in cash, in shares of Company's common stock that have been owned for more than six months having an aggregate fair market value on the date of exercise which is not less than the exercise price of the shares of common stock being purchased, partly in cash and partly in such shares, or by the delivery of irrevocable instructions to a broker to sell shares of common stock obtained upon the exercise of an option and to deliver to the Company an amount out of the proceeds of such sale equal to the aggregate exercise price of the shares being purchased.

Compensation Discussion and Analysis

Compensation Philosophy and Components

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

We compete in a competitive market for personnel, both for executives and for non-executive employees. Desirable candidates for employment at Vital Images may also have attractive opportunities from many other employers, such as multi-national medical device companies, venture-backed or fast-growing medical device or technology companies, and academic research institutions. Our long-term success depends on our ability to develop

and market innovative enterprise-wide advanced visualization and analysis solutions that address important medical needs. In addition, the intense global pressures on health care costs require us to continually improve our productivity. To achieve these goals, it is critical that we be able to attract, motivate and retain highly talented individuals at all levels of the organization.

The Compensation Committee of our Board of Directors bases its executive compensation programs on the same objectives that guide the Company in establishing all of its compensation programs:

- Compensation should be based on the level of job responsibility, individual performance and Company performance. As employees progress to higher levels in the organization, an increasing proportion of their pay should be linked to Company performance because they are more able to affect its results.
- Compensation should reflect the value of the job in the marketplace. To attract and retain a highly skilled work force, we must remain competitive with the pay of other premier employers who compete with us for talent.
- Compensation should reward performance, and the objectives of pay-for-performance and retention must be balanced.
- To be effective, performance-based compensation programs should measure the achievement of objectives that are critical for driving the success of the Company.
- Although compensation and benefit programs and individual pay levels will reflect differences in job responsibilities, geographies and marketplace considerations, the overall structure of compensation and benefit programs should be broadly similar across the organization. Perquisites for executives should be rare and limited to those that are important to the executive's ability to safely and effectively carry out his or her responsibilities.
- Except for benefits and programs that are available to all of our employees or a broad selection of our general employee population, our executives should receive few perquisites, if any, and those that are provided should receive specific approval and meet a defined business purpose.

The Compensation Committee is responsible for assuring that compensation for our executives is consistent with our compensation philosophy. The Compensation Committee reviews our compensation philosophy and trends in our industry to ensure that our executive compensation program is competitive and attracts and retains talented management, motivates our executives to achieve short- and long-range corporate objectives, and aligns the motivation and interests of the executives with the interests of our shareholders.

The Compensation Committee administers our equity-based compensation and management incentive programs and other compensation initiatives identified by the Board. The Compensation Committee reviews and approves each executive's base salary, bonus, and equity incentives annually, as well as our management incentive plan under which the executive officers may receive non-equity incentive compensation.

We view the various components of compensation as related but distinct. Although the Compensation Committee does review and consider total compensation for each executive officer and for all executive officers as a group, we do not believe that significant compensation derived from one component of compensation should necessarily negate or reduce compensation from other components. We determine the appropriate level for each compensation component based in part, but not exclusively, on the following factors:

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

- internal equity and consistency;
- the executive compensation paid by other companies with which we compete for executive talent;
- individual performance, and
- Company performance.

The Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid-out compensation, between cash and non-cash compensation, or among different forms of non-cash compensation.

For 2007, our named executive officers were Jay D. Miller, President and Chief Executive Officer, Michael H. Carrel, Chief Operating Officer and Chief Financial Officer, Steven P. Canakes, Executive Vice President - Global Sales, Philip I. Smith, Executive Vice President - Corporate Development, and Susan A. Wood, Ph.D., Executive Vice President - Product Marketing and Development (the Named Executive Officers).

Role of Executive Officers in Compensation Decisions

During several meetings with the Compensation Committee held each year in December, January and February, our President and Chief Executive Officer presents to the Compensation Committee his recommendations regarding changes in his compensation and the compensation for our other executive officers. The Compensation Committee discusses these recommendations and accepts or adjusts them, in whole or in part. The President and Chief Executive Officer is not present during the Compensation Committee's final discussions or determination of his compensation, but he participates in the discussions regarding other executive officers' compensation. The Chief Financial Officer also may be present for discussions regarding compensation for the vice presidents. The other executive officers are not present during the Compensation Committee's discussions of their compensation. The chair of the Compensation Committee presents the Compensation Committee's findings regarding compensation for executive officers to the Board of Directors at one or more meetings typically held before mid-March of each year to obtain the Board's input. Based on such input, at these meetings, the Compensation Committee approves and adopts executive compensation for that year, including executive salaries, the management incentive plan, and stock options and restricted stock awards.

Setting Executive Compensation

In making decisions regarding elements and amounts of compensation, the Compensation Committee considers compensation paid to executive officers at similar levels and with similar experience and responsibility at public companies in our industry and region that it deems to be comparable in terms of revenue, market capitalization, complexity, number of employees and profitability.

The companies that comprised this peer group in 2007 were:

- Amicas, Inc.
- Bio-Imaging Technologies, Inc.
- Emageon, Inc.
- Given Imaging Ltd.
- iCAD, Inc.,
- Merge Technologies, Inc.
- Omnicell, Inc.
- Phase Forward, Inc.
- Possis Medical
- Quality Systems, Inc.
- Sonosite, Inc.
- SurModics, Inc.
- Volcano Corporation

The Compensation Committee also reviewed compensation data from surveys prepared by Culpepper & Associates, Inc. and Radford Surveys & Consulting (which is part of AON Consulting, Inc.), focusing on companies with comparable revenue and in a similar industry and location as Vital Images. The Compensation Committee is also mindful of the effect of any percentage increases in executive compensation on all of our employees. The Compensation Committee did not use outside advisors in 2007.

Base Salary

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

Executive officers receive a base salary to compensate them for services rendered during each year. Base salary is determined by assessing the executive's sustained performance against his or her individual job responsibilities, including the impact of such performance on our business results, market data and comparisons to other Company officers.

Salary levels are considered annually as part of our performance review process as well as upon a promotion or other change in job responsibility. Increases in the salary of the President and Chief Executive Officer are determined by the Compensation Committee based on its assessment of his performance and his achievement of goals. For 2007, the base salary of the President and Chief Executive Officer was increased to \$345,000 after

reviewing salary data from comparable companies, salary surveys from Culpepper and Radford, his salary history, his past performance, and the Company's historical performance. Merit-based increases in the salaries of other executive officers are based on the assessment by the President and Chief Executive Officer and the Compensation Committee of his or her overall performance and by achievement of each individual's objectives. For determining the base salary of our other executive officers, the Compensation Committee weighed similar factors as it considered for our President and Chief Executive Officer—comparable companies, Company and executive performance, external salary surveys, and our desire to align the interests of our executive officers and promote teamwork among them.

Bonus

Bonuses to executive officers are determined and paid under the management incentive plan established each year. Payments under the annual management incentive plan are tied to the level of achievement of annual performance targets by our executives. These targets are based on our annual budget as approved by the Board of Directors. An executive's annual incentive opportunity is based upon a percentage of his or her base salary. The management incentive plan under which bonuses are determined and paid consists of two major components that we believe will have the most positive effect on shareholder value—corporate performance and personal performance.

For 2007, we based the corporate performance portion of the management bonus upon achievement as measured by three financial performance criteria:

- orders, which we refer to as bookings;
- revenue as determined in accordance with generally accepted accounting principles, consistently applied, or GAAP; and
- income before taxes, interest and equity-based compensation, which we refer to as adjusted EBIT.

The targeted bonus for Mr. Miller during 2007 was 65% of his base salary, and the targeted bonus for all other Named Executive Officers was 50% of their base salaries. In 2007, the Compensation Committee increased Mr. Miller's target bonus percentage to 65% from 60% in 2006 to reflect the aggressive nature of the Company's objectives and after analyzing industry trends. The Compensation Committee maintained the 50% target bonus percentage for the other Named Executive Officers also to reflect the aggressive objectives and to continue to highly motivate them to work together as a group and achieve those objectives. In 2007, the potential bonus for each Named Executive Officer was allocated as follows:

	President and CEO and Chief Operating and Chief Financial Officer (Jay D. Miller and Michael H. Carrel)	Executive Vice President Global Sales (Steven P. Canakes)	All Other Named Executive Officers (Philip I. Smith and Susan A. Wood, Ph.D.)
Bookings Objective	25%	30%	20%
Revenue Objective	20%	15%	25%
Adjusted EBIT Objective	30%	30%	30%
Personal Objectives	25%	25%	25%
TOTAL	100%	100%	100%

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

For our corporate performance objectives, the Compensation Committee chose the measures of bookings, revenue and adjusted EBIT because it believed they were the most appropriate measures of what the Company needed to accomplish in 2007.

Each financial performance objective has minimum achievement levels and maximum potential bonuses for overachievement. Results below the minimum achievement levels will result in no bonus for that objective. After

the minimum is obtained, actual results within an achievement range will be interpolated until the maximum potential bonus is achieved.

Our 2007 corporate performance measurement amounts for bookings, revenue and adjusted EBIT were the same for all of our Named Executive Officers. For 2007, the Board approved 100% bonuses for Named Executive Officers upon the achievement of \$90.0 million in bookings, \$93.5 million in revenue and \$17.83 million in adjusted EBIT. Overachievement against the bookings and revenue targets could have earned up to 250% bonuses, and overachievement against the adjusted EBIT target could have earned up to 200% bonuses. Our Named Executive Officers could have achieved greater bonuses for overachievement against the bookings and revenue objectives than for the adjusted EBIT objective because we felt that weighting the bookings and revenue objectives more heavily reflected the growth priorities of the Company in 2007.

Our targets for bookings, revenue and adjusted EBIT were chosen to represent aggressive growth over our results in 2006, particularly in bookings and revenue, and thus were considered to be difficult to achieve. The Compensation Committee also felt achievement of these objectives would drive significant value for our shareholders. Our targets for adjusted EBIT did not reflect as large an increase over our results in 2006 because the Company expected to make investments in 2007 in research and development, sales and marketing and infrastructure, causing our adjusted EBIT to increase at a lower rate.

In 2007, the Company did not achieve any of its corporate performance objectives, so no bonus compensation for corporate performance was paid to any of the Named Executive Officers for 2007.

The personal performance portion of the management incentive plan is based on specific objectives set annually for each individual. Individual performance objectives are determined by the executive officer to whom the potential bonus recipient reports or, in the case of the President and Chief Executive Officer, by the Compensation Committee. Because the personal objectives are based upon achieving identified tasks, an executive officer cannot receive more than 100% of the possible bonus for any overachievement of these objectives. The personal objectives for each Named Executive Officer are related to achievements within their specific functions, including expanding the Company into new markets, both organically and inorganically; increasing the Company's product offerings; improving the Company's service offerings; management of the Company's business partnerships; conducting investor relations activities; improving the Company's intellectual property and clinical validation infrastructure; and recruitment and retention of employees. They also have more personal qualitative objectives, such as self-development and executive team development, to improve their skills and performance as officers of the Company. The Compensation Committee approves the personal objectives of the President and Chief Executive Officer and determines his performance against his personal objectives. The President and Chief Executive Officer approves the personal objectives of the other Named Executive Officers and measures their performance. Most of the personal objectives are considered to be difficult to achieve, but attainable. Achievement of the goals was measured both quantitatively and qualitatively by the Compensation Committee and the President and Chief Executive Officer.

The management incentive plan is administered by the Board of Directors and Compensation Committee, which have the right, at any time and at their discretion, to amend the plan, increase or decrease individual payout amounts, whether earned or unearned, or terminate the plan, in whole or in part. The Company follows applicable laws and regulations regarding recovery of any bonus or other incentive-based or equity-based compensation, or profits realized from the sale of securities, resulting from misconduct. The Compensation Committee also retains discretion to award special bonuses for outstanding achievement, which discretion it exercised to award a special bonus for 2007 to Susan A. Wood, Ph.D. our Executive Vice President Product Marketing and Development, for her work related to our agreement with Toshiba Medical Systems under which Toshiba will resell our products in Japan. Total cash bonus amounts, if any, paid to the Named Executive Officers for 2007 performance are listed in the Summary Compensation Table included elsewhere in this proxy statement.

Equity-Based Compensation Program

Our shareholder-approved equity compensation plan permits a variety of equity awards. Grants of stock options and restricted stock awards are the primary vehicles for offering long-term incentives to executive officers and key employees. The objectives of our equity-based compensation program are to advance the longer-term interests of the Company, complement incentives tied to annual performance and align the interests of executives more closely with those of our shareholders. We believe that long-term incentives provided by stock options and restricted stock awards are especially significant in motivating our executives and retaining their services. The number of stock options and restricted stock awards granted is based on the executive's position and performance in that position. During 2007, as in prior years, we granted stock options and awarded restricted stock to executives and other senior officers in March 2007 as part of our Company-wide annual grant. We will continue to evaluate what types of equity award vehicles achieve the best balance between continuing our successful practice of providing equity-based compensation and creating and maintaining long-term shareholder value.

The President and Chief Executive Officer makes recommendations for grants of options and restricted stock awards to executive officers and key employees. The Compensation Committee reviews these recommendations and approves grants of options and restricted stock awards based on, among other factors, historical grants, the value of past grants and the Company's performance. In granting stock options and restricted stock awards, the Compensation Committee and President and Chief Executive Officer consider trends in equity-based compensation and whether they are consistent with our compensation philosophy. They also consider our overhang percentage; that is, the number of our shares that are subject to outstanding options and other awards, such as restricted stock, as a percentage of the number of our shares outstanding.

Grants of stock options and awards of restricted stock to executive officers and other key employees are considered at a series of meetings of the Compensation Committee that are held in the first quarter of each year. Grants to newly-hired employees are effective on the employee's first day of employment, and grants to employees who are promoted during the fiscal year are effective on the later of the date of their promotion and the date the Compensation Committee approves the grants. To facilitate the grant of options and restricted stock awards to existing and newly-hired employees, the Board of Directors and the Compensation Committee authorized Jay D. Miller and Michael H. Carrel to grant individual stock options and restricted stock awards during 2007 to such employees, subject to the terms of the applicable plan and guidelines approved by the Compensation Committee and the Board. As Mr. Miller is no longer the Company's President and Chief Executive Officer, the Compensation Committee authorized Peter J. Goepfrich, who became the Company's Chief Financial Officer on January 9, 2008, to make such awards in conjunction with Mr. Carrel. The exercise price of all stock options granted is equal to the closing price of our common stock as reported on The NASDAQ Global Select Market on the date of grant.

All grants of stock options and awards of restricted stock to Named Executive Officers during 2007 contained vesting provisions. Options granted during 2007 were to vest as to 28% of the amount granted on the first anniversary of the grant date, with an additional 2% of the grant amount to vest each month thereafter until the entire option vests on the fourth anniversary of the date of its grant. Awards of restricted stock during 2007 are to vest on a three-year schedule, beginning on the first anniversary date of the date of grant, based on achievement of aggressive revenue performance goals over those three years. If the revenue target in one year is missed, the portion of the award that was to vest upon achievement of that target may still vest if the revenue target in a subsequent year is achieved. The performance goals were chosen to provide incentive to achieve longer-term growth targets and drive shareholder value.

Stock Ownership and Retention Guidelines. In May 2006, the Board of Directors approved stock ownership guidelines that apply to all Directors and executive officers. The guidelines are overseen by our Governance and Nominating Committee. Under these guidelines, ownership targets for executive officers are a multiple of base salary (not including bonuses, such as performance or signing bonuses), varying by management level, and the ownership target for members of the Board is based on the value of our common stock, as follows:

Board members	\$100,000
---------------	-----------

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

Chief Executive Officer	2.0 times base salary
Chief Operating Officer	1.5 times base salary
Other executive officers	1.0 times base salary

The guidelines provided that ownership was to be measured as of December 31, 2007 for those who were executive officers on that date, with reference to the executive officer's base salary for the year then ended and using the fair market value of our common stock as of December 31, 2007. To the extent that a Board member or executive officer did not already satisfy the applicable ownership and valuation requirements, he or she is expected to meet the target over the later of four years from December 31, 2007 or five years from the date such person became a Board member or executive officer. Ownership for new executive officers and Board members is measured on the last trading date of the year in which they became an executive officer or Board member, with reference to the executive officers' annualized base salaries. Shares that count include all shares directly or beneficially owned by the executive officer or Board member, except for shares subject to options and unvested restricted stock awards. As of December 31, 2007, all the Directors and Named Executive Officers either met the guidelines or were making satisfactory progress toward meeting them, in the opinion of the Governance and Nominating Committee.

If a Director or executive officer desires to sell any shares of our stock, we recommend that person adopt a 10b5-1 plan, which provides a safe harbor from liability under the anti-fraud provisions of the Securities Exchange Act of 1934 for sales following such a written plan that includes either the number of shares to be sold and the prices at which they will be sold or a formula under which the number of shares and sales prices are determined. We also encourage all Directors and Named Executive Officers who exercise options to retain and hold at least 10% of the shares obtained upon their exercise. Under our policy prohibiting insider trading, which applies to all Directors and employees, the 10b5-1 plans must be reviewed and approved by the chair of the Compensation Committee and outside securities counsel before they can be adopted.

Benefits

Our executive officers are eligible for all benefits generally available to our full-time permanent employees. We do not provide pension arrangements, post-retirement health coverage, or similar benefits for our executives or employees. Any benefits that are provided only to executive officers are usually directly related to unique features of that executive's position, such as being an expatriate, or when the executive officer undertakes actions at our request, such as relocating. The benefits we provided in 2007 to executive officers are described in the Summary Compensation Table included elsewhere in this proxy statement.

All employees, including the executive officers, are entitled to participate in the Vital Images, Inc. Salary Savings Plan qualified under Section 401(k) of the Internal Revenue Code of 1986, or 401(k) plan. The 401(k) plan has been consistently highlighted as a positive element of compensation in our employee satisfaction survey results for the past four years. Each employee that is at least 21 years of age may, commencing on the first day of the quarter after which the employee has attained three months of service, elect to contribute to the 401(k) plan through payroll deductions of up to 100% of his or her salary, subject to certain limitations. At the discretion of the Board of Directors, we may make matching contributions equal to a percentage of the salary deduction contributions or other discretionary amounts. The Company paid \$410,000 in matching contributions in 2007, \$214,000 in 2006 and \$103,000 in 2005. Matching contributions to the 401(k) plan on behalf of the Named Executive Officers are described in the Summary Compensation Table.

During 2006 and 2007, we paid relocation costs and expenses for Susan A. Wood, Ph.D., whom we hired as Executive Vice President Marketing and Clinical Development in September 2005, when she and her family lived in San Francisco, California. These costs and expenses are described in the Summary Compensation Table.

(5) Consists of stock options, which vest and become exercisable as to 28% of the shares one year after the date of grant and as to an additional 2% in each succeeding month, but only if the Named Executive Officer is then an employee of the Company.

(6) Consists of restricted stock awards, which vest upon achievement of certain Company performance metrics for each of the three years ending December 31, 2009. One-third of each award will vest on each of the Company's Form 10-K filing dates for the years ending December 31, 2007, 2008 and 2009 if the performance metrics are met for that year. Should the performance metrics not be met for a given year, the unvested portion will carry forward to the next year and may vest if that year's metric is met. As of the Company's Form 10-K filing date for the year ended December 31, 2009, any unvested portion of the award will be forfeited. The performance metrics for the year ended December 31, 2007 were not met. Therefore, no equity-based compensation expense for the awards was recognized

Compensation Committee Interlocks and Insider Participation

James B. Hickey, Jr., Michael W. Vannier, M.D., Sven A. Wehrwein and Gregory J. Peet, each of whom is a non-employee Director of the Company, served as the members of the Company's Compensation Committee in 2007. See Compensation Committee Report. Mr. Miller, the only executive officer of the Company who served on the Board of Directors in 2007, abstained from voting on compensation matters affecting his compensation.

Employment and Other Agreements

The Company has entered into employment agreements with each of its Named Executive Officers, which include confidentiality and non-competition provisions and provide for payment of severance compensation if the Company terminates any of these executive officers employment without cause, or if the executive officer resigns for good reason. Severance is equal to 12 months of base salary for Mr. Carrel, nine months of base salary for Mr. Smith and six months of base salary for each of Dr. Wood and Mr. Canakes. For

Mr. Carrel, the Company will also continue to pay the same portion of Mr. Carrel's employee welfare benefits as the Company was paying before his termination for a period of 12 months after his termination.

Mr. Miller's employment as President and Chief Executive Officer terminated on January 9, 2008. By an agreement between the Company and Mr. Miller dated January 16, 2008, the parties agreed for Mr. Miller to remain on the Company's payroll through May 15, 2008, at full salary through January 31, 2008 and at a reduced rate thereafter. After May 15, 2008, Mr. Miller is to receive a severance payment in the amount of \$500,000, less applicable taxes and withholdings, payable in a lump sum on the first day of the seventh month following that date. If Mr. Miller elects benefits continuation after May 15, 2008, the Company also agreed to pay that portion of the premium for group medical and dental insurance that it paid during Mr. Miller's employment for the 18-month COBRA period. In addition, the Company agreed to pay Mr. Miller an additional severance payment, less applicable taxes and withholdings, in an amount equal to the aggregate of six months of the Company's portion of the monthly premium for group medical and dental insurance for Mr. Miller as of the expiration of the 18-month COBRA period. The Company also agreed to extend the time period in which Mr. Miller may exercise his options that are vested as of May 15, 2008 until the earlier of May 15, 2011 or the expiration of the term of the respective option. In connection with the agreement, Mr. Miller agreed to remain on the Board of Directors through May 15, 2008, to work with the Company's Chief Executive Officer and agreed not to compete with the Company nor solicit customers or employees of the Company for 18 months after May 15, 2008.

Change in Control Agreements

The Company has entered into change in control agreements with each of its Named Executive Officers and certain other officers that provide for lump sum cash payments equal to twice his or her annual base salary in effect on the date of a change in control, as well as continued payment of the employee welfare benefits then in effect for each Named Executive Officer for a period of 24 months upon a change in control of the Company, as defined in such agreements. Payments under the agreements are to be made if the officer's employment with the Company is terminated for any reason other than death, cause, disability or retirement, or if he or she terminates his or her employment with the Company for good reason, or, in the case of Mr. Carrel, for any reason, and the termination occurs within 12 months following a change in control, or before a change in control if his or her termination was a condition of the change in control.

The Company and Jay D. Miller, the Company's former President and Chief Executive Officer, were parties to a similar change in control agreement, but that agreement was terminated upon the separation of Mr. Miller's employment with the Company.

Post-Employment Compensation***Potential Payments upon Termination of Employment or Change in Control***

The tables below reflect the amount of compensation to each of the Named Executive Officers of the Company in the event of termination of such executive's employment. The amounts of compensation payable to each Named Executive Officer upon retirement, termination without cause or resignation for good reason, termination for cause or resignation without good reason, voluntary or involuntary termination following a change in control, and death are shown below. The amounts shown assume that such termination was effective as of December 31, 2007, include amounts earned through such time, and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can be determined only at the time of such executive's separation from the Company. In addition, there may be re-negotiation of the payments upon any termination of employment or change in control.

Both of our equity award plans, consisting of the 1997 Stock Option and Incentive Plan and the 2006 Long-Term Incentive Plan, provide that the restrictions on all shares of restricted stock shall lapse immediately, and all outstanding options will become exercisable immediately, if any of the following events occur: (i) the sale, lease, exchange or other transfer of substantially all of the assets of the Company; (ii) the liquidation or dissolution of the Company; (iii) certain mergers or consolidations of the Company which result in a reduction in the voting power of the current shareholders of the Company; (iv) any person becomes the beneficial owner of more than 20% of the Company's common stock without the advance approval of the incumbent Directors or more than 50% of the voting power of the Company's outstanding stock without regard to consent by the incumbent Directors; (v) the incumbent Directors cease for any reason to constitute at least a majority of the Board; or (vi) any other change in control of the Company of a nature that would be required to be reported pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.

event. For restricted stock awards, consists of the closing price of our common stock as reported on The NASDAQ Global Select Market as of December 31, 2007, which was \$18.07, multiplied by the number of shares that will accelerate and vest upon the occurrence of the event.

(3) Mr. Miller's employment as President and Chief Executive Officer terminated on January 9, 2008. Under a separation and non-compete agreement between the Company and Mr. Miller dated January 16, 2008, Mr. Miller is to receive a severance payment in the amount of \$500,000, less applicable taxes and withholdings, payable in a lump sum on the first day of the seventh month following that date and the payment of that portion of the premium for group medical and dental insurance that the Company paid during Mr. Miller's employment for the 18-month COBRA period. In addition, the Company will pay Mr. Miller an additional severance payment, less applicable taxes and withholdings, in an amount equal to the aggregate of six months of the Company's portion of the monthly premium for group medical and dental insurance for Mr. Miller as of the expiration of the 18-month COBRA period. The Company also agreed to allow Mr. Miller a period of three years to exercise any of his stock options that are vested as of May 15, 2008, and Mr. Miller's accrued vacation time, as of January 9, 2008, was paid to him. As part of the agreement, Mr. Miller waived his rights to receive the post-termination payments set forth above. The amounts accrued by the Company under its separation and non-compete agreement are included in the Summary Compensation Table.

**APPROVAL OF AMENDMENT TO
THE 2006 LONG-TERM INCENTIVE PLAN
TO INCREASE THE SHARE RESERVE BY 1,800,000 SHARES
(Proposal 2)**

General

On May 4, 2006, our shareholders approved our 2006 Long-Term Incentive Plan (the "2006 Plan"), which had been previously adopted by our Board of Directors.

On April 8, 2008, our Board of Directors adopted the following two amendments to the 2006 Plan:

(1) to increase the maximum number of shares that we may issue under the 2006 Plan from 900,000 shares to 2,700,000 shares; and

(2) to state that all awards other than stock options and stock appreciation rights shall be counted as two (2) shares of common stock against the number of shares that we may issue under the 2006 Plan.

The first amendment requires shareholder approval.

The 2006 Plan is intended to assist the Company in hiring and retaining well-qualified employees, consultants, and other service providers by allowing them to participate in the ownership and growth of the Company through the grant of incentive stock options ("ISOs") and nonqualified stock options ("NQOs") and, together with ISOs, "options", awards of restricted stock, performance units, stock bonuses or any combination thereof. Management believes that the granting of options and other awards will serve as partial consideration for and give well-qualified employees, consultants, and other service providers an additional inducement to remain in the service of the Company and provide them with an increased incentive to work for the Company's success. As of April 1, 2008, an aggregate of 136,545 shares remained available for issuance under the 2006 Plan. To enable the Company to continue to grant stock-based awards in furtherance of the purposes and objectives of the 2006 Plan, the Board recommends that the shareholders approve the proposed increase in the number of shares reserved for issuance under the 2006 Plan.

The following are the key features of the 2006 Plan:

- The Compensation Committee, which is an independent committee of the Board of Directors, administers the 2006 Plan;

- Awards may not be granted later than 10 years from the effective date of the 2006 Plan;
- Awards may be stock options, stock appreciation rights, restricted stock, unrestricted stock, restricted stock units, performance shares, performance units, deferred compensation awards, other stock-based awards and cash-based awards;
- The Board has adopted a policy that the exercise prices of stock options and stock appreciation rights may not be repriced; and
- The exercise prices of stock options and stock appreciation rights granted under the 2006 Plan may not be below fair market value.

Summary of the 2006 Plan

Administration

The 2006 Plan is administered by the Compensation Committee of the Company's Board of Directors, which has the power to make awards and to determine when and to whom awards will be granted under the 2006 Plan. In addition, the Compensation Committee determines the form, amount and other terms and conditions of each award, subject to the provisions of the 2006 Plan. The determinations made by the Compensation Committee under the 2006 Plan are not required to be made on a uniform basis and are final, binding and conclusive. The Compensation Committee has delegated certain of its rights and duties under the 2006 Plan to the Non-Affiliate Incentive Award Subcommittee, currently comprised of the Company's President and Chief Executive Officer and the Company's Chief Financial Officer, acting jointly, to grant non-qualified stock options and restricted stock awards to employees of the Company, other than employees who by reason of their position with the Company are subject to Section 16 of the Securities Exchange Act of 1934, subject to guidelines and restrictions established by the Compensation Committee.

Purpose

The 2006 Plan advances the interests of the Company and its shareholders by helping to attract and retain persons of skill and ability to serve the Company and by motivating these individuals to continue their contributions to the growth and profitability of the Company.

Participants

A participant in the 2006 Plan means an employee of the Company or an Affiliate (as the term Affiliate is defined in the 2006 Plan) who is selected by the Compensation Committee to participate in the Plan; a Director of the Company who receives options or awards under the 2006 Plan; or any consultant, agent, advisor or independent contractor who is selected by the Compensation Committee to participate in the 2006 Plan and who renders *bona fide* services to the Company or an Affiliate. However, only employees of the Company are eligible for selection to receive options qualified as ISOs under Section 422 of the Internal Revenue Code of 1986, as amended (the Code). As of December 31, 2007, approximately 327 persons were eligible to receive awards under the 2006 Plan.

Termination Date

The 2006 Plan will terminate on the earlier of the date on which it is terminated by the Company's Board of Directors or March 9, 2016. However, the termination of the 2006 Plan will not affect any awards then outstanding under the 2006 Plan. The Board of Directors may amend, alter or discontinue the 2006 Plan. However, no amendment, alteration or discontinuation may be made by the Board without the consent of a participant in the 2006 Plan if such action would diminish any of the rights of the participant under any award held by the participant.

Shares Subject to 2006 Plan

A total of 900,000 shares are currently reserved for issuance under the 2006 Plan. As discussed above, we propose to increase the number of shares by 1,800,000 shares, for a total of 2,700,000 shares reserved for issuance under the 2006 Plan. As of April 1, 2008, 763,455 shares were subject to outstanding stock options, no shares were subject to outstanding restricted stock awards, and 136,545 shares remained available for future grants under the 2006 Plan. Shares of the Company's common stock subject to awards granted under the 2006 Plan, other than stock options and stock appreciation rights, count against the share reserve as two shares for every share of common stock subject to the award. Shares underlying awards that expire, are cancelled or otherwise terminate again become available for grant under the 2006 Plan.

Options

Upon the grant of an option under the 2006 Plan, other than the automatic grant of options to the Company's non-employee Directors described below, the Compensation Committee will fix a number of shares of the Company's common stock that the optionee may purchase upon exercise of the option and the price at which the shares may be purchased. With regard to ISOs, the exercise price cannot be less than the fair market value of the common stock at the time the ISO is granted or 110% of such fair market value in certain cases. In addition, the aggregate fair market value of common stock (determined at the time an ISO is granted) subject to ISOs granted to an employee under all of the Company's option plans that become exercisable for the first time by such employee during any calendar year may not exceed \$100,000. The exercise price of NQOs may not be less than fair market value of the Company's common stock at the time of grant. Each option granted under the 2006 Plan will be exercisable by the optionee only during the term fixed by the Compensation Committee, with such term ending not later than five years after the date of grant. Payment for shares upon exercise of any option granted under the 2006 Plan may be made in cash, in shares of Company's common stock that have been owned for more than six months having an aggregate fair market value on the date of exercise which is not less than the exercise price of the shares of common stock being purchased, partly in cash and partly in such shares, or by the delivery of irrevocable instructions to a broker to sell shares of common stock obtained upon the exercise of an NQO and to deliver to the Company an amount out of the proceeds of such sale equal to the aggregate exercise price of the shares being purchased.

Automatic Grants of NQOs to Non-Employee Directors. The 2006 Plan provides non-employee Directors of the Company (each an Eligible Director) with automatic grants of NQOs. Each Eligible Director will be automatically granted NQOs to purchase 18,000 shares on the date of his or her initial election or appointment to the Board of Directors (in each case, an Initial Grant). Beginning in 2008, each Eligible Director, with the exception of Michael W. Vannier, M.D., will be automatically granted, on the day after the Company's annual meeting of shareholders, an option to purchase 9,000 shares of common stock. Dr. Vannier will receive an option to purchase 5,000 shares on the day after the Company's Annual Meeting of shareholders in 2008 and an annual automatic grant of an option to purchase 9,000 shares of common stock on the day after the annual shareholders' meeting in 2009 and thereafter. All NQOs automatically granted under the 2006 Plan will expire five years after the date of grant. The exercise price per share for each NQO granted under the 2006 Plan is not less than the fair market value of a share of the Company's common stock on the date such NQO is granted. NQOs automatically granted to Eligible Directors under the 2006 Plan will vest and become exercisable as to one-third of the NQO shares on the first, second and third December 31 following the date of grant. Payment for shares upon exercise of such NQOs may be made in cash, in shares of Company's common stock that have been owned for more than six months having an aggregate fair market value on the date of exercise which is not less than the exercise price of the shares of common stock being purchased, partly in cash and partly in such shares, or by the delivery of irrevocable instructions to a broker to sell shares of common stock obtained upon the exercise of an NQO and to deliver to the Company an amount out of the proceeds of such sale equal to the aggregate exercise price of the shares being purchased. In addition to such automatic NQO grants, the 2006 Plan also permits the Compensation Committee to make discretionary grants of stock options to any and all Directors, including Eligible Directors, as described below.

Discretionary Option Grants of NQOs to Non-Employee Directors. Upon the discretionary grant of NQOs to the Company's non-employee Directors under the 2006 Plan, the Board of Directors will fix the number of shares of the Company's common stock that the optionee may purchase upon exercise of the option and the exercise price at which the shares may be purchased. The exercise price of such NQOs cannot be less than the fair market value of the common stock at the time the option is granted. Each NQO will be exercisable by the optionee only during the term fixed by the Board of Directors, with such term ending not later than five years after the date of grant. Payment for shares upon exercise of any NQOs granted to Eligible Directors under the 2006 Plan may be made in cash, in shares of Company's common stock that have been owned for more than six months having an aggregate fair market value on the date of exercise which is not less than the exercise price of the shares of common stock being purchased, partly in cash and partly in such shares, or by the delivery of irrevocable instructions to a broker to sell shares of common stock obtained upon the exercise of an NQO and to

deliver to the Company an amount out of the proceeds of such sale equal to the aggregate exercise price of the shares being purchased.

Stock Appreciation Rights

The Compensation Committee may grant stock appreciation rights (SARs) under the 2006 Plan independent of an option or in connection with an option. Upon the grant of a SAR under the 2006 Plan, the Compensation Committee will fix its exercise price, which cannot be less than the fair market value of the Company's common stock and, in the case of a SAR granted in conjunction with an option, not less than the exercise price of the related option. Each SAR granted independently of an option will entitle a participant upon exercise to an amount equal to the excess of the fair market value of the common stock on the date of exercise less the exercise price per share, times the number of shares of common stock covered by the SAR. As determined by the Compensation Committee at the time of grant, payment of such amount upon exercise of a SAR will be made in shares of common stock or in cash, or partly in shares and partly in cash. The 2006 Plan provides that SARs have a maximum term of five years.

Restricted Stock Awards

Restricted stock awards granted under the 2006 Plan will entitle the holder to receive shares of the Company's common stock, which are subject to forfeiture to the Company and transfer restrictions if certain conditions are not met as determined by the Compensation Committee at the time of grant. When a restricted stock award is granted, the Compensation Committee may establish a period during which the holder cannot sell or otherwise transfer the shares subject to the award. During such period, the holder of the restricted stock award otherwise has the rights of a shareholder of the Company with respect to the shares subject to the award, including the right to vote the shares and to receive any dividends and other distributions. The Compensation Committee may determine the period of time during which a participant receiving a restricted stock award must remain a continuous employee of the Company in order for the forfeiture and transfer restrictions to lapse. In addition, the Compensation Committee may provide that such restrictions lapse in installments with respect to specified portions of the shares of stock covered by the restricted stock award. The Compensation Committee also may impose performance or other conditions that will subject the shares subject to the award to forfeiture and transfer restrictions. The Compensation Committee may, at any time, waive all or any part of any restrictions applicable to restricted stock awards.

Other Awards

Other Stock-Based Awards. Under the 2006 Plan, the Compensation Committee will have the power to grant awards of shares of the Company's common stock and awards that are valued in whole or in part by reference to, or otherwise based on, shares of common stock or their fair market value. The 2006 Plan provides that such other stock-based awards will be in such form, and will depend on such conditions, as the Compensation Committee determines including, without limitation, the right to receive, or vest with respect to, one or more shares of common stock (or the equivalent cash value of such shares) upon the completion of a specified period of service, the occurrence of an event and/or the attainment of performance objectives. Subject to the provisions of the 2006 Plan, the Compensation Committee will determine the number of shares of common stock to be awarded to a participant under other stock-based awards, whether such awards shall be settled in cash, shares of common stock or combination of cash and such shares, and other terms and conditions of such awards.

Other Cash-Based Awards. Subject to the terms of the 2006 Plan, the Compensation Committee may grant other incentives denominated in cash and payable in cash under the 2006 Plan as it determines to be in the best interests of the Company and subject to such other terms and conditions as it deems appropriate.

Performance-Based Awards

Under the 2006 Plan, the Compensation Committee may grant performance-based options, awards of restricted stock or other awards, which will be based on the attainment of written performance goals approved by the Compensation Committee for a performance period established by the Compensation Committee. The

performance goals must be objective and must be based upon the criteria set forth in the 2006 Plan. Under the 2006 Plan, the Compensation Committee must determine whether, with respect to a performance period, the applicable performance goals have been met with respect to a given participant and must certify and ascertain the amount of the applicable performance-based award. The amount of a performance-based award actually paid to a participant under the 2006 Plan may be less than the amount determined by the applicable performance goal formula, at the discretion of the Compensation Committee. The amount of the performance-based award will be paid to the participant at such time as determined by the Compensation Committee after the end of the covered performance period.

Non-Transferability of Awards

Awards granted under the 2006 Plan are non-transferable other than by will or by the applicable laws of descent and distribution. In addition, a participant may designate a beneficiary to succeed to the participant's awards under the 2006 Plan if allowed by the agreement evidencing the award, in which case the award may be exercised by the personal representative for the participant's estate or by any other person who acquired the right to exercise such award by reason of the participant's death. During a participant's lifetime, all awards granted under the 2006 Plan may be exercised only by the participant.

Repricing Not Allowed

The 2006 Plan provides that the Compensation Committee may not, directly or indirectly, reprice the exercise prices of options, SARs or other stock-based awards granted under the 2006 Plan, including six-month plus one-day option exchange programs, without shareholder approval.

Federal Income Tax Consequences

The following description is a general summary of the current federal income tax provisions relating to the grant and exercise of ISOs and NQOs under the 2006 Plan, the grant of other awards under the 2006 Plan, and the sale of shares of common stock acquired through exercise of options or under a SAR, restricted stock award or other stock-based award. The provisions summarized below are subject to changes in federal income tax laws and regulations, and the effects of such provisions relate only to individuals who are not dealers in securities or corporations or some other entity for federal income tax purposes. The tax consequences will not be the same for all taxpayers and may vary with individual circumstances. For example, certain excise taxes, in addition to income taxes, may apply to a taxpayer depending on the amount that the taxpayer receives and the context in which the taxpayer receives it, and certain provisions may reduce or eliminate the amount of the deduction to which the Company otherwise would be entitled. The following discussion necessarily condenses or eliminates many details that might adversely affect some taxpayers significantly.

Incentive Stock Options

Options granted under the 2006 Plan may be incentive stock options under Section 422 of the Code. The recipient of an ISO will not realize taxable income, and the Company will not receive an income tax deduction, upon the grant or the exercise of an ISO. Generally, if an optionee exercises an ISO at any time prior to three months after termination of the optionee's employment and does not sell the shares acquired upon exercise of an ISO within the later of either (i) two years after the grant of the ISO or (ii) one year after the date of exercise of the ISO, the gain upon a subsequent sale of the shares will be taxed as long-term capital gain. If the optionee does not satisfy these holding requirements and the

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

optionee sells or disposes of the shares acquired upon exercise of an ISO, then the overall gain or loss on such sale or disposition may be divided into compensation and capital elements. The overall gain or loss is an amount equal to the difference between the sale price of the shares and the exercise price. With respect to the compensation element, the optionee must recognize as ordinary compensation income upon such sale or disposition an amount equal to the excess (if any) over the exercise price of either (i) the fair market value of the shares on the date of the ISO exercise or (ii) if the sale price of the shares is less than the fair market value of the shares on the date of the ISO exercise and the optionee otherwise would recognize a loss (if sustained) upon such sale or disposition, the sale price of the shares, *provided, however*, that no ordinary compensation income will be recognized upon sale or disposition if the sale

price is less than the exercise price. The optionee will be subject to income tax on the compensation element, but the optionee will not be subject to withholding on the compensation element. The Company will be entitled to a corresponding income tax deduction equal to the amount recognized as ordinary income (if any) by the optionee. With respect to the capital element, the optionee must recognize as capital gain the excess (if any) of the overall gain (if applicable) over the compensation element. The optionee must recognize an overall loss (if applicable) as a capital loss. If the shares have been held for more than 12 months, then any such gain or loss will be long-term capital gain or loss.

Upon the exercise of an ISO, the excess of the stock's fair market value on the date of exercise over the exercise price will be included in the optionee's alternative minimum taxable income (AMTI) and may result in the imposition of alternative minimum tax on such AMTI. Liability for the alternative minimum tax is complex and depends upon an individual's overall tax situation.

Non-Qualified Stock Options

Options granted under the 2006 Plan may be NQOs as governed by Section 83 of the Code. Generally, upon the grant of an NQO, neither the Company nor the optionee will experience any tax consequences, unless the NQO has a readily ascertainable value. Upon exercise of an NQO granted under the 2006 Plan, or upon the exercise of an option initially intended to be an ISO that does not qualify for the tax treatment described above, the optionee will realize ordinary income in an amount equal to the excess of the fair market value of the shares of common stock received over the exercise price paid by the optionee with respect to such shares. The amount recognized as ordinary income by the optionee will increase the optionee's basis in the stock acquired upon the exercise of the NQO. Optionees who are employees will be subject to withholding with respect to income recognized upon exercise of an NQO. The Company will be allowed a federal income tax deduction for the amount recognized as ordinary income by the optionee upon the optionee's exercise of the NQO. Upon a subsequent sale of the stock, the optionee will recognize short-term or long-term capital gain or loss depending upon the holding period for the stock and upon the stock's subsequent appreciation or depreciation in value.

Stock Appreciation Rights

The grant of a SAR under the 2006 Plan will not result in income for the participant or in a tax deduction for the Company. Upon the settlement of a SAR, the participant will recognize ordinary income equal to the aggregate value of the payment received, and the Company generally will be entitled to a tax deduction in the same amount. A participant who is an employee will be subject to withholding with respect to income recognized with respect to the payment.

Restricted Stock Awards

Restricted stock awards are governed by Section 83 of the Code. Generally, a participant recognizes no taxable income when he or she receives a restricted stock award under the 2006 Plan. However, the participant generally will recognize ordinary income when the restrictions on such shares lapse in an amount equal to the excess of (a) the fair market value of such shares at the time the restrictions lapse, over (b) the price, if any, paid for such shares. However, if the participant makes an election with respect to such shares under Section 83(b) of the Code not later than 30 days after the date shares are transferred to the participant pursuant to the award, the participant will recognize ordinary income at the time of the restricted stock award in an amount equal to the excess of (x) the fair market value of the shares covered by the award (determined without regard to any restriction other than a restriction which by its terms will never lapse) at the time of such award over (y) the price, if any, paid for such shares. A participant who is an employee will be subject to withholding with respect to income recognized when the participant recognizes the income (either when the restrictions lapse or earlier when the participant makes the Section 83(b) election). If, after the lapse of restrictions on his or her shares, the participant sells such shares, the difference, if any, between the amount realized from such sale and the tax

basis of such shares to the holder will be taxed as long-term or short-term capital gain or loss, depending on the participant's holding period for such shares and upon the shares' subsequent appreciation or depreciation in value.

Other Awards

In general, participants will recognize ordinary income upon the receipt of shares or cash with respect to other stock-based and cash-based awards granted under the 2006 Plan, and the Company will become entitled to a deduction at such time equal to the amount of income recognized by the participant. A participant who is an employee will be subject to withholding with respect to income recognized with respect to such other stock-based or cash-based awards, which, in general, will apply when the award is made but may apply at an earlier time if an award relates to certain types of deferred compensation.

Effect of Certain Corporate Events

In the event of any stock dividend, stock split, reverse stock split, recapitalization, combination, reclassification or similar change in the capital structure of the Company, the 2006 Plan provides for appropriate adjustments in the number and class of shares subject to the 2006 Plan and to any outstanding awards, and in the exercise price per share of any outstanding awards. Any fractional share resulting from an adjustment is rounded down to the nearest whole number, and at no time will the exercise price of any option or stock appreciation right be decreased to an amount less than par value of the stock subject to the award.

Change-in-Control. The 2006 Plan provides that the restrictions on all shares of restricted stock shall lapse immediately, and all outstanding options will become exercisable immediately, if any of the following events occur: (i) the sale, lease, exchange or other transfer of substantially all of the assets of the Company; (ii) the liquidation or dissolution of the Company; (iii) certain mergers or consolidations of the Company which result in a reduction in the voting power of the current shareholders of the Company; (iv) any person becomes the beneficial owner of more than 20% of the Company's common stock without the advance approval of the incumbent Directors or more than 50% of the voting power of the Company's outstanding stock without regard to consent by the incumbent Directors; (v) the incumbent Directors cease for any reason to constitute at least a majority of the Board; or (vi) any other change in control of the Company of a nature that would be required to be reported pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.

Awards Granted to Certain Persons

To date, no awards of options or restricted stock under the 2006 Plan have been granted to our Named Executive Officers. Options to purchase an aggregate of 17,000 shares were granted under the 2006 Plan during 2007 to all of our current Directors who are not executive officers, and no awards of restricted stock were granted under the 2006 Plan to our current Directors who are not executive officers. Options to purchase an aggregate of 64,415 shares were granted under the 2006 Plan during 2007 to all of our employees, except employees who are also Named Executive Officers, and no awards of restricted stock were granted under the 2006 Plan to our employees.

Duration, Amendment and Termination

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

The Board may amend or terminate the 2006 Plan at any time. If not earlier terminated, the 2006 Plan expires on May 4, 2016, the tenth anniversary of the date it was originally approved by the shareholders. No amendment authorized by the Board will be effective unless approved by the shareholders of the Company if the amendment would: (1) increase the number of shares reserved under the 2006 Plan; (2) change the class of persons eligible to receive incentive stock options; or (3) modify the 2006 Plan in any other way that requires shareholder approval under applicable law.

Other Information

If the Company's shareholders approve the proposed amendment to increase the shares reserved for the 2006 Plan, the Company anticipates that the shares added to the reserve for the 2006 Plan will be registered with the Securities and Exchange Commission and with any applicable state securities commission where registration is required. The cost of such registration will be paid by the Company.

Required Vote and Board Recommendation

The affirmative vote of a majority of the votes cast at the Annual Meeting, at which a quorum is present, either in person or by proxy, is required to approve the proposed amendment to the 2006 Plan discussed above.

Should shareholder approval not be obtained, then the proposed amendment will not be implemented, and the 2006 Plan will continue in effect pursuant to its current terms.

The Board believes that the proposed amendments to the 2006 Plan are in the best interests of the Company and its shareholders for the reasons stated above. **THEREFORE, THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF THE PROPOSED AMENDMENT TO THE 2006 PLAN AND THE INCREASE IN THE SHARE RESERVE BY 1,800,000 SHARES.**

**APPROVAL OF AMENDMENT TO
THE 1997 EMPLOYEE STOCK PURCHASE PLAN
TO INCREASE THE SHARE RESERVE BY 150,000 SHARES**

(Proposal 3)

General

We are asking you to approve an amendment to our 1997 Employee Stock Purchase Plan (ESPP) to increase the number of shares of common stock available for issuance under the ESPP by an additional 150,000 shares. The purpose of the amendment is to ensure that we will have a sufficient reserve of common stock available under the ESPP to provide eligible employees of the Company and its designated subsidiaries (whether now existing or subsequently established) with the opportunity to purchase shares of our common stock at periodic purchase dates through their accumulated payroll deductions or other approved contributions.

The Board of Directors believes that the number of shares currently available for issuance under the ESPP is insufficient to continue providing our employees with the opportunity to acquire a proprietary interest in the Company and thereby attract, motivate, and retain the best available talent suitable for the success of our business.

The proposed amendments were adopted by the Board on April 8, 2008 and will become effective if approved by our shareholders at the Annual Meeting.

Summary of the ESPP

The terms and provisions of the ESPP are summarized below. This summary, however, does not purport to be a complete description of the ESPP and is qualified in its entirety by reference to the complete text of the ESPP.

Share Reserve

As of April 1, 2008, the number of shares of common stock reserved for issuance over the term of the ESPP was limited to 250,000 shares, and 15,366 shares of common stock were available for future issuance under the ESPP. Assuming shareholder approval of the 150,000 share increase that is the subject of this proposal, a total of 400,000 shares of common stock would be reserved for issuance under the ESPP, and 165,366 shares would be available for future issuance under the ESPP as of April 1, 2008.

The shares issuable under the ESPP may be made available from authorized but unissued shares of common stock or from shares of common stock repurchased by the Company, including shares purchased on the open market.

If any change is made to the number of shares of outstanding common stock of the Company, whether by reason of any stock split, stock dividend, combination of shares or other similar change affecting the outstanding shares of common stock as a class without the Company's receipt of consideration, appropriate adjustments will be made to (a) the maximum number and class of securities issuable under the ESPP, (b) the number and class of securities subject to each purchase right and the purchase price per share in effect under each outstanding purchase right, (c) the maximum number and class of securities that may be purchased per participant on any one purchase date, and (d) the maximum number and class of securities that may be purchased in total by all participants on any one purchase date. All such adjustments will be designed to preclude any dilution or enlargement of benefits under the ESPP or the outstanding purchase rights thereunder.

Eligibility and Participation

The ESPP permits our eligible employees to purchase common stock through accumulated payroll deductions.

Individuals participating in the ESPP who customarily work for more than 20 hours per week as employees of the Company or any designated subsidiary (including any subsidiary designated by the Board of Directors at any time during the term of the ESPP) are eligible to participate in the ESPP.

An individual who is an eligible employee immediately preceding the start date of any offering period may participate in the ESPP during that offering period by delivering an appropriate subscription agreement to the Company. An individual who first becomes an eligible employee after the commencement of an offering period may not participate in the ESPP until the commencement of the next offering period.

As of April 1, 2008, approximately 324 employees were eligible to participate in the ESPP, of whom approximately 131 were participating.

Offering Periods and Purchase Rights

Shares of common stock are offered under the ESPP through a series of offering periods of three months in duration. Each offering period runs for a calendar quarter, with a purchase date on the last date of that offering period.

When an eligible employee elects to join an offering period, he or she is granted a purchase right to acquire shares of common stock on a purchase date within the offering period. On the purchase date, all payroll deductions collected from the participant are automatically applied to the purchase of common stock, subject to certain limitations.

The most recent offering period began on April 1, 2008 and is scheduled to end on the last business day in June 2008. The next offering period will begin on July 1, 2008 and run through the last business day in September 2008, regardless of whether the shareholders approve the share increase that is part of this proposal. If the shareholders do not approve the share increase, we will likely not be able to offer employees the right to purchase shares under the ESPP on the September 2008 purchase date because we may not have a sufficient number of shares reserved to meet demand.

Purchase Price

The purchase price of the common stock purchased on behalf of each participant on each purchase date during an offering period will be equal to 85% of the lower of (a) the fair market value per share of common stock on the start date of the offering period in which the participant is enrolled, or (b) the fair market value on that purchase date.

The fair market value per share of common stock on any particular date under the ESPP will be deemed to be equal to the closing selling price per share on such date reported on The NASDAQ Global Select Market. On April 1, 2008, the closing selling price per share of common stock on The NASDAQ Global Select Market was \$15.04 per share.

Payroll Deductions and Stock Purchases

In general, each participant in the ESPP may authorize periodic payroll deductions in any multiple of 1% up to a maximum of 10% of his or her base salary to be applied to the acquisition of common stock on purchase dates within an offering period.

On each purchase date, the accumulated payroll deductions or other approved contributions of each participant will be automatically applied to the purchase of whole shares of common stock at the purchase price in effect for the participant for that purchase date.

In general, payroll deductions are credited to a participant's account under the ESPP and may be commingled with the general assets of the Company and used for general corporate purposes until shares of

common stock are purchased. In certain jurisdictions outside the United States, the Company establishes a separate trust account to hold payroll deductions where required by local law. Because the Company pays all administrative costs of the ESPP, it does not pay interest on accumulated payroll deductions unless required by the laws of a local jurisdiction.

Special Limitations

The ESPP imposes certain limitations upon a participant's right to acquire common stock, including the following limitations:

- Purchase rights may not be granted to any individual if such individual would, immediately after the grant, own or hold outstanding options or other rights to purchase stock representing 5% or more of the total combined voting power or value of all classes of stock of the Company or any of its subsidiaries.
- Purchase rights granted to a participant may not permit such individual to purchase more than \$25,000 worth of common stock (valued at the time each purchase right is granted) for each calendar year during which those purchase rights are outstanding.
- No participant may purchase more than 500 shares of common stock on any one purchase date.

Subject to the total number of shares authorized for issuance under the ESPP, the Board has the discretionary authority, exercisable before the start of any offering period, to increase or decrease the limitations to be in effect for the number of shares that may be purchased per participant or in total by all participants on each purchase date within that offering period.

Withdrawal Rights and Termination of Employment

A participant may withdraw from an offering period by providing written notice to the Company before the close of that offering period. In such an event, all of the participant's payroll deductions will be refunded promptly, the participant's purchase right for the offering period will be terminated, and further payroll deductions will cease. In addition, payroll deductions will not resume at the beginning of a succeeding offering period unless the participant delivers a new subscription agreement to the Company before the commencement of the next offering period.

A participant's purchase right will terminate immediately upon his or her cessation of employment or loss of eligible employee status. Any payroll deductions that the participant may have made for the offering period in which such cessation of employment or loss of eligibility occurs will be refunded and will not be applied to the purchase of common stock.

Shareholder Rights

No participant will have any shareholder rights with respect to the shares covered by his or her purchase rights until the shares are actually purchased on the participant's behalf and issued by the Company.

Assignability

Purchase rights are not assignable or transferable by the participant, and the purchase rights are exercisable during a participant's lifetime only by the participant.

Change in Control or Ownership

Upon a proposed dissolution or liquidation of the Company, a proposed sale of all or substantially all of the assets of the Company, or the merger of the Company with or into another corporation, each purchase right under the ESPP shall be assumed or an equivalent purchase right shall be substituted by a successor corporation,

unless the Board exercises its discretion to shorten the offering period then in progress and sets a new purchase date.

Administration

The ESPP is administered by the Board or a Committee appointed by the Board. The Board or a designated Committee, as plan administrator, has full authority to adopt administrative rules and procedures and to interpret the provisions of the ESPP. All costs and expenses incurred in plan administration are paid by the Company without charge to participants.

Amendment and Termination

The Board may alter, suspend or terminate the ESPP at any time. However, the Board may not, without shareholder approval, (a) increase the number of shares issuable under the ESPP, (b) alter the purchase price formula so as to reduce the purchase price, or (c) modify the requirements for eligibility to participate in the ESPP.

New Plan Benefits

No purchase rights have been granted, and no shares have been issued, on the basis of the proposed amendment to increase the number of shares subject to the ESPP by 150,000 shares, which is the subject of this proposal. Because benefits under the ESPP will depend on employees elections to participate and the fair market value of our common stock at various future dates, it is not possible to determine the benefits that will be received by executive officers and other employees if the proposed amendment to the ESPP is approved by the shareholders. Non-employee Directors are not eligible to participate in the ESPP.

U.S. Federal Income Tax Consequences

The following is a summary of the principal United States federal income taxation consequences to employees and the Company with respect to participation in the ESPP in the United States. This summary is not intended to be exhaustive and does not discuss the income tax laws of any city, state or foreign jurisdiction in which a participant may reside.

The ESPP is intended to qualify as an employee stock purchase plan within the meaning of Section 423 of the Code. Under such an arrangement, no taxable income will be recognized by a participant, and no deductions will be allowable to the Company, upon either the grant or the exercise of the purchase rights. Taxable income will not be recognized until there is a sale or other disposition of the shares acquired under the ESPP or if the participant dies while still owning the purchased shares.

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

If a participant sells or otherwise disposes of the purchased shares within two years after his or her entry date into an offering period in which such shares were acquired or within one year after the actual purchase date of those shares, then the participant will recognize ordinary income in the year of sale or disposition equal to the amount by which the fair market value of the shares on the purchase date exceeded the purchase price paid for those shares, and the Company will be entitled to an income tax deduction, for the taxable year in which such disposition occurs, equal in amount to such excess. The participant also will recognize a capital gain to the extent the amount realized upon the sale of the shares exceeds the sum of the aggregate purchase price for those shares and the ordinary income recognized in connection with their acquisition.

If the participant sells or disposes of the purchased shares more than two years after the start date of the offering period in which the shares were acquired and more than one year after the actual purchase date of those shares, the participant will recognize ordinary income in the year of sale or disposition equal to the lesser of (a) the amount by which the fair market value of the shares on the sale or disposition date exceeded the purchase price paid for those shares, or (b) 15% of the fair market value of the shares on the start date of that offering

period. Any additional gain upon the disposition will be taxed as a long-term capital gain. The Company will not be entitled to an income tax deduction with respect to such disposition.

If the participant still owns the purchased shares at the time of death, the lesser of (a) the amount by which the fair market value of the shares on the date of death exceeds the purchase price, or (b) 15% of the fair market value of the shares on the start date of the offering period in which those shares were acquired will constitute ordinary income in the year of death.

1997 Employee Stock Purchase Plan Table

The following table summarizes amounts that were received due to participation in the ESPP during 2007 by:

- the Named Executive Officers identified in the Summary Compensation Table;
- all Named Executive Officers as a group; and
- all employees, including all Named Executive Officers, as a group.

Required Vote and Board Recommendation

The affirmative vote of a majority of the votes cast at the Annual Meeting, at which a quorum is present, either in person or by proxy, is required to approve the proposed amendment to the ESPP discussed above.

Should shareholder approval not be obtained, then the proposed amendment will not be implemented, and the ESPP will continue in effect pursuant to its current terms.

The Board believes that the proposed amendment to the ESPP is in the best interests of the Company and its shareholders for the reasons stated above. **THEREFORE, THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF THE PROPOSED AMENDMENT TO THE ESPP AND THE INCREASE IN THE SHARE RESERVE BY 150,000 SHARES.**

**RATIFICATION OF APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP
AS INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
(Proposal 4)**

The Audit Committee of the Board of Directors has appointed PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm to audit the Company's consolidated financial statements for the year ending December 31, 2008 and recommends that the shareholders vote for ratification of such appointment.

PricewaterhouseCoopers LLP has audited the Company's financial statements since the year ended December 31, 1997. A representative of PricewaterhouseCoopers LLP is expected to be present at the Annual Meeting, will have the opportunity to make a statement, and is expected to be available to respond to appropriate questions.

Audit and Other Professional Fees

The aggregate fees billed for professional services rendered by PricewaterhouseCoopers LLP for the audit of the Company's annual financial statements for the Company's last two fiscal years and fees billed for other services rendered by PricewaterhouseCoopers LLP related to those years are set forth in the following table:

	2007	2006
Audit fees (1)	\$ 607,565	\$ 549,700
Audit-related fees (2)		
Tax fees (3)	66,800	59,125
All other fees (4)	1,500	1,500
Totals	\$ 675,865	\$ 610,325

(1) Audit fees consist of fees related to professional services rendered in connection with the audit of the Company's annual financial statements, the audit of the Company's internal control over financial reporting, the reviews of the interim financial statements included in the Company's quarterly reports on Form 10-Q, and other professional services provided in connection with statutory and regulatory filings or engagements. The audit fees consist of the following:

	2007	2006
Annual financial statements, the audit of the Company's internal control over financial reporting, the reviews of the interim financial statements included in the Company's quarterly reports on Form 10-Q	\$ 565,530	\$ 471,918
Regulatory filings, including review of the Company's follow-on public offering, SEC comment letter and other engagements	42,035	77,782
Totals	\$ 607,565	\$ 549,700

(2) Audit-related fees are fees for assurance and related services performed by PricewaterhouseCoopers LLP that are reasonably related to the performance of the audit or review of the Company's financial statements.

(3) Tax fees are fees for professional services performed by PricewaterhouseCoopers LLP with respect to tax compliance, tax advice and tax planning. This includes preparation of original and amended tax returns for the Company, any refund claims, payment planning, tax advice related to mergers and acquisitions, and tax work stemming from audit-related items.

(4) All other fees are fees for other permissible work performed by PricewaterhouseCoopers LLP that does not meet the above category descriptions.

As provided in the Audit Committee's charter, all engagements for any non-audit services by the Company's independent registered public accounting firm must be approved by the Audit Committee before the commencement of any such services. The Audit Committee may designate a member or members of the Audit Committee to represent the entire Audit Committee for purposes of approving non-audit services, subject to review by the full Audit Committee at the next regularly scheduled meeting.

The Audit Committee considers the provision of services by PricewaterhouseCoopers LLP to the Company, over and above the external audit fees, to be compatible with PricewaterhouseCoopers LLP's ability to maintain its independence.

Shareholder Approval

The affirmative vote of a majority of the shares of common stock of the Company represented at the Annual Meeting either in person or by proxy, assuming a quorum is present, is required to ratify the appointment by the Audit Committee of the Board of Directors of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the year ending December 31, 2008. If the shareholders do not approve the selection of PricewaterhouseCoopers LLP, the Audit Committee will reconsider its selection.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS VOTE *FOR* THE RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE YEAR ENDING DECEMBER 31, 2008 AS SET FORTH IN PROPOSAL 4.
