Press release

MTS Places Fifth Ruble Bond

July 28, 2009

Moscow, Russian Federation Mobile TeleSystems OJSC (MTS NYSE: MBT), the largest mobile phone operator in Russia and the CIS, announces that it has successfully placed its fifth ruble bond in the amount of 15 billion rubles with maturity in 2016 on the Moscow Interbank Currency Exchange (MICEX).

The bond issue was oversubscribed. Coupons will be paid annually at the rate of 14.25%. The bond carries a three-year put option. Lead Arrangers of the bond are Gazprombank and VTB Bank. The bond will be listed in the V quotation list on MICEX.

The proceeds from the bond placement will be used for general corporate needs, which include funding MTS CAPEX plan, meeting future obligations and better rationalizing the Company's debt structure.

Some of the information in this press release may contain projections or other forward-looking statements regarding future events or the future financial performance of MTS, as defined in the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify forward looking statements by terms such as expect, believe, anticipate, estimate, intend, will, could, may or might, and the negative of such terms or other similar expressions. We wish to caution you that these statements are only predictions and that actual events or results may differ materially. We do not intend to update these statements to reflect events and circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events. We refer you to the documents MTS files from time to time with the U.S. Securities and Exchange Commission, specifically the Company's most recent Form 20-F. These documents contain and identify important factors, including those contained in the section captioned Risk Factors that could cause the actual results to differ materially from those contained in our projections or forward-looking statements, including, among others, potential fluctuations in quarterly results, our competitive environment, dependence on new service development and tariff structures, rapid technological and market change, acquisition strategy, risks associated with telecommunications infrastructure, risks associated with operating in Russia and the CIS, volatility of stock price, financial risk management and future growth subject to risks.
