**UTStarcom Issues Reminder to Vote at Annual Meeting and Statement on Corporate Governance**

Beijing, China, June 10, 2011 UTStarcom, Inc. ( UTStarcom or the Company ) (NASDAQ: UTSI), a leading provider of interactive, IP-based network solutions in iDTV, IPTV, Internet TV and Broadband for cable and telecom operators, issued a statement today reminding stockholders to vote in the 2011 Annual Meeting of Stockholders (the Annual Meeting ), to be held on Friday, June 24, 2011.

The Company also responded to some questions from stockholders regarding the proposals at the Annual Meeting.

**Material Weakness Disclosed in the Financial Report**

In 2010, the Company corrected two material weakness, (i) not maintaining effective controls over the recording of reserves for losses on customer contracts and (ii) not maintaining effective controls over financial reporting related to revenue recognition, which had been disclosed in the Company's Annual Reports on Form 10-K for 2008 and 2009.

## Edgar Filing: UTSTARCOM INC - Form 425

The Company has also made progress in remediating the material weaknesses disclosed in the Annual Report on Form 10-K for 2010 of not maintaining effective controls over the period-end financial reporting process. To remediate the weakness, the Company has designed and implemented a global financial close process and hired key individuals in the corporate finance and accounting function with significant technical skills and experience, deemed appropriate to their assigned responsibilities. Accordingly, the Company implemented controls to ensure independent management oversight and perform review procedures over accounts and disclosures in the Company's consolidated financial statements. In addition, the Company will continue to assess its standardized processes to further enhance the effectiveness of financial reviews including the analysis and monitoring of financial information in a consistent and thorough manner.

To remediate the material weakness of not maintaining effective controls over treasury process, the Company has designed and implemented controls to separate closely related functions in the cash management function and reduce the risk of misappropriation of assets. The Company also reviewed and revised approval requirements for certain actions relating to cash management (including the number of signatures and the level of the signatory required for certain types of transactions or based on the value of the transactions) to better enhance management's monitoring of cash transactions. In addition, management implemented annual reviews of such approval requirements to ensure their continued appropriateness and effectiveness.

**Stockholder Approval of Major Corporate Actions Following the Reincorporation**

In response to questions from stockholders, the Company noted that following completion of the proposed reorganization of UTStarcom as a Cayman Islands company, certain major corporate actions involving the Company will require a different vote by stockholders than is currently required. Actions such as approving a merger, amending the Company's organizational documents and removing directors with cause currently require a vote of a majority of shares outstanding. Following the reincorporation, such actions would require two thirds of votes casts (not two thirds of the shares outstanding). The Company noted that because the new standard focuses on the number of votes, the actual number of votes required to approve an action could be more or less than the number required under a majority of shares outstanding provision.

Due to the concentration of a sizable number of shares of stock with a small number of stockholders, these provisions could provide smaller stockholders with more influence on a particular vote. Under a simple majority vote requirement, the large stockholders would have more absolute impact on reaching the majority requirement, while under two-thirds of votes cast requirement, a significant opposing vote could prevent achievement of the two-thirds threshold even though an absolute majority (led by the large stockholders) approved the action.

In addition, after the proposed reorganization, the Company will remain subject to the mandates of the Sarbanes-Oxley Act of 2002 (the Sarbanes-Oxley Act), and as long as the UTStarcom Holdings' ordinary shares are listed on the NASDAQ Stock Market (NASDAQ), the governance and disclosure rules of that stock exchange.

The corporate governance practices of UTStarcom Holdings are also expected to remain consistent with UTStarcom's current corporate governance practices as a Delaware incorporated company. The Company has committed to initially maintaining

the following corporate governance practices following the merger, as the Company believes and understands the real value of operating and executing within good governance standards:

- the majority of the board of directors of UTStarcom Holdings will be comprised of independent directors;
- executive compensation for UTStarcom Holdings will be determined by independent directors or a committee of independent directors;
- director nominees of UTStarcom Holdings will be selected, or recommended for selection by the board of directors, by independent directors or a committee of independent directors;
- UTStarcom Holdings will have an audit committee comprised of at least three members, each of whom will be an independent director and one of whom will have finance and accounting experience;
- all related party transactions will be reviewed by the audit committee or another independent body of the board of directors;
- UTStarcom Holdings will conduct an advisory (non-binding) vote on executive compensation once every three years, until UTStarcom Holdings determines to conduct such advisory votes more frequently or to not conduct them at all.

The Company also noted that Egan Jones, an independent proxy advisory and credit rating firm agreed with the Company's Board of Directors and recommended approval of all five proposals under consideration at the Annual Meeting. Regarding the proposed reorganization of UTStarcom as a Cayman Islands company, the proxy advisor stated that based on our review of publicly available information on strategic, corporate governance and financial aspects of the proposed transaction, Egan-Jones views the proposed transaction to be a desirable approach in maximizing stockholder value and recommends that clients holding shares of UTSTARCOM, INC. vote FOR this Proposal .

#### **About UTStarcom, Inc.**

UTStarcom is a leading provider of interactive, IP-based network solutions in iDTV, IPTV, Internet TV and Broadband for cable and telecom operators. The Company sells its solutions to operators in both emerging and established telecommunications and cable markets around the world.
