#### S.Y. BANCORP, INC. AND SUBSIDIARY

#### (1) Summary of Significant Accounting Policies

The accompanying consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all information and footnotes required by U.S. generally accepted accounting principles (US GAAP) for complete financial statements. The consolidated financial statements of S.Y. Bancorp, Inc. ( Bancorp ) and its subsidiary reflect all adjustments (consisting only of adjustments of a normal recurring nature) which are, in the opinion of management, necessary for a fair presentation of financial condition and results of operations for the interim periods.

The consolidated financial statements include the accounts of S.Y. Bancorp, Inc. and its wholly-owned subsidiary, Stock Yards Bank & Trust Company (Bank). S.Y. Bancorp Capital Trust II is a Delaware statutory trust that is a wholly-owned unconsolidated finance subsidiary of S.Y. Bancorp, Inc. Significant intercompany transactions and accounts have been eliminated in consolidation.

A description of other significant accounting policies is presented in the notes to the Consolidated Financial Statements for the year ended December 31, 2011 included in S.Y. Bancorp, Inc. s Annual Report on Form 10-K. Certain reclassifications have been made in the prior year financial statements to conform to current year classifications.

Interim results for the three and six month periods ended June 30, 2012 are not necessarily indicative of the results for the entire year.

#### **Critical Accounting Policies**

Management has identified the accounting policy related to the allowance and provision for loan losses as critical to the understanding of Bancorp's results of operations and discussed this conclusion with the Audit Committee of the Board of Directors. Since the application of this policy requires significant management assumptions and estimates, it could result in materially different amounts to be reported if conditions or underlying circumstances were to change. Assumptions include many factors such as changes in borrowers financial condition which can change quickly or historical loss ratios related to certain loan portfolios which may or may not be indicative of future losses. To the extent that management s assumptions prove incorrect, the results from operations could be materially affected by a higher or lower provision for loan losses. The accounting policy related to the allowance for loan losses is applicable to the commercial banking segment of Bancorp.

Additionally, management has identified the accounting policy related to accounting for income taxes as critical to the understanding of Bancorp's results of operations and discussed this conclusion with the Audit Committee of the Board of Directors. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Judgment is required in assessing the future tax consequences of events that have been recognized in Bancorp's financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences, including the effects of periodic IRS and state agency examinations, could materially impact

Bancorp s financial position and its results from operations.

The investment portfolio includes a significant level of obligations of states and political subdivisions. The issuers of these bonds are generally school districts or essential-service public works projects. The issuers are concentrated in Kentucky, with a small percentage in Indiana and Ohio. Each of these securities has a rating of A or better by a recognized bond rating agency.

In addition to the available for sale portfolio, investment securities held by Bancorp include certain securities which are not readily marketable, and are carried at cost. This category includes holdings of Federal Home Loan Bank of Cincinnati (FHLB) stock which are required for borrowing availability and are classified as restricted securities. Other securities consist of a Community Reinvestment Act (CRA) investment which matures in 2014, and is fully collateralized with a government agency security of similar duration.

#### Table of Contents

A summary of the available for sale investment securities by maturity groupings as of June 30, 2012 is shown below. Actual maturities may differ from contractual maturities because some issuers have the right to call or prepay obligations. The investment portfolio includes agency mortgage-backed securities, which are guaranteed by agencies such as the FHLMC, FNMA, and GNMA. These securities differ from traditional debt securities primarily in that they may have uncertain principal payment dates and are priced based on estimated prepayment rates on the underlying collateral. Bancorp does not have exposure to subprime originated mortgage-backed or collateralized debt obligation instruments.

Unrealized losses on Bancorp s investment securities portfolio have not been recognized in income because the securities are of high credit quality, and the decline in fair values is largely due to changes in the prevailing interest rate environment since the purchase date. The fair value is expected to recover as the securities reach their maturity date and/or the interest rate environment returns to conditions similar to when the securities were purchased. These investments consist of two and five separate investment positions as of June 30, 2012 and December 31, 2011, respectively. Because management does not intend to sell the investments, and it is not likely that Bancorp will be required to sell the investments before

recovery of their amortized cost bases, which may be at maturity, Bancorp does not consider these securities to be other-than-temporarily impaired at June 30, 2012.

Bancorp did not have any loans acquired with deteriorated credit quality at June 30, 2012 or December 31, 2011.

Management uses the following portfolio segments of loans when assessing and monitoring the risk and performance of the loan portfolio:

- Commercial and industrial
- Construction and development
- Real estate mortgage
- Consumer

Differences between the recorded investment amounts and the unpaid principal balance amounts are due to partial charge-offs which have occurred over the life of the loans.

Impaired loans include non-accrual loans and loans accounted for as troubled debt restructuring (TDR), which continue to accrue interest. Non-performing loans include the balance of impaired loans plus any loans over 90 days past due and still accruing interest. Loans past due more than 90 days or more and still accruing interest amounted to \$112,000 at June 30, 2012, and \$1,160,000 at December 31, 2011.

The following table presents the recorded investment in non-accrual loans as of June 30, 2012 and December 31, 2011.

#### Table of Contents

On June 30, 2012 and 2011, Bancorp had \$7.5 million and \$250,000 of loans classified as TDR, respectively. The following table presents the recorded investment in loans modified and classified as TDR during the six months ended June 30, 2012.

(dollars in thousands)	Number of contracts	Pre-modification outstanding recorded investment	Post-modification outstanding recorded investment
Commercial & industrial	3 \$	5,788	\$ 5,788
Real estate mortgage	2	503	503
Total	5 \$	6,291	\$ 6.291

Bancorp did not modify and classify any loans as TDR during the six months ended June 30, 2011.

The following table presents the recorded investment in loans accounted for as TDR that have defaulted as of June 30, 2012.

June 30, 2012 (dollars in thousands)	Number of Contracts	Recorded investment
Commercial & industrial	3	\$ 1,583
Real estate mortgage	1	361
Total	4	\$ 1,944

The loans in the table above are all related to one borrower and have a related allowance allocation of \$493,000, which management estimates to be the total loss exposure to this credit. Prior to 2012, Bancorp had not experienced loans accounted for as TDR that have subsequently defaulted. At June 30, 2012, loans accounted for as TDR included modifications from original terms due to bankruptcy proceedings and modifications of amortization periods due to customer financial difficulties. Some loans accounted for as TDR included temporary suspension of principal payments, resulting in payment of interest only. There has been no forgiveness of principal for loans accounted for as TDR. Loans accounted for as TDR, which have not defaulted, are individually evaluated for impairment and, at June 30, 2012, had a total allowance allocation of \$300,000, compared to \$1,167,000 at December 31, 2011.
