Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
American depositary shares, each representing three Class A ordinary shares	The New York Stock Exchange
Class A ordinary shares, par value US\$0.001 per share*	

*Not for trading, but only in connection with the listing on The New York Stock Exchange of American depositary shares (ADSs). Currently, each ADS represents three Class A ordinary shares.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None
(Title of Class)

Edgar Filing: Renren Inc. - Form 20-F

Table of Contents

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None
(Title of Class)

Indicate the number of outstanding shares of each of the Issuer's classes of capital or common stock as of the close of the period covered by the annual report.

As of December 31, 2012, 733,464,575 Class A ordinary shares, par value US\$0.001 per share and 405,388,450 Class B ordinary shares, par value US\$0.001 per share were outstanding.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Edgar Filing: Renren Inc. - Form 20-F

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

International Financial Reporting Standards as issued
by the International Accounting Standards Board

Other

If Other has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

(APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court.

Yes No

INTRODUCTION

In this annual report, except where the context otherwise requires and for purposes of this annual report only:

- **Activated users** refers to the number of Renren user accounts that have been registered and activated. Our users may register with us through their mobile phone number or their email address. Following registration by mobile phone number, the mobile phone will receive an SMS verification code, which must be entered to activate the account. Following registration by email address, an email containing an activation link will automatically be sent to the user's email address, and the user must then activate by clicking the link. Not all registered users activate the accounts they register with us.
- **ADSs** refers to our American depositary shares, each of which represents three Class A ordinary shares.
- **Monthly unique log-in users** refers to the number of different user accounts from which renren.com has been logged onto during a given month.
- **Monthly unique visitors** refers to the number of different IP addresses from which a website is visited during a given month. This is a common measurement used by third-party market research firms in assessing user activity on a given website, as they are able to verify this information from publicly available sources. However, this measurement may under-count or over-count the number of users. For example, if many people visit a website through one IP address, such as the IP address of an internet cafe or office, these people will only be counted as one monthly unique visitor. Conversely, if one person visits a website through two IP addresses, such as a personal computer and a hand-held device, this person would be counted as two monthly unique visitors. Due to these limitations, we also use **activated users** and **monthly unique log-in users** to measure and review our operational performance.
- **The PRC or China** refers to the People's Republic of China, excluding Hong Kong, Macau and Taiwan.
- **Preferred shares** refers to our previously issued and outstanding series A and series B convertible preferred shares and series C and series D convertible redeemable preferred shares, par value US\$0.001 per share.
- **Shares or ordinary shares** refer to, following the completion of our initial public offering in May 2011, collectively, our Class A and Class B ordinary shares, par value US\$0.001 per share, and, prior to the completion of our initial public offering, our ordinary shares, par value US\$0.001 per share; and except as otherwise indicated, all share and per share data in this annual report gives retroactive effect to the ten-for-one share split that became effective on March 25, 2011.

Edgar Filing: Renren Inc. - Form 20-F

- SNS refers to social networking services.
- We, us, our company, and our refer to Renren Inc. and its subsidiaries, its consolidated affiliated entities, and subsidiaries of its consolidated affiliated entities.

Our financial statements are expressed in U.S. dollars, which is our reporting currency. Certain Renminbi figures in this annual report are translated into U.S. dollars solely for the reader's convenience. Unless otherwise noted, all convenience translations from Renminbi to U.S. dollars in this annual report were made at a rate of RMB6.2301 to US\$1.00, the exchange rate set forth in the H.10 statistical release of the Federal Reserve Board on December 31, 2012. We make no representation that any Renminbi or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Renminbi, as the case may be, at any particular rate, at the rate stated above, or at all.

Table of Contents

FORWARD-LOOKING STATEMENTS

This annual report contains forward-looking statements that reflect our current expectations and views of future events. These forward looking statements are made under the safe-harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by these forward-looking statements.

You can identify some of these forward-looking statements by words or phrases such as may, will, expect, anticipate, aim, estimate, intend, believe, is/are likely to or other similar expressions. These forward-looking statements include statements relating to:

- our goals and strategies;
- our future business development, financial condition and results of operations;
- expected changes in our revenues and certain cost and expense items;
- the expected growth of the SNS, online games, online advertising and social commerce businesses in China;
- our expectations regarding demand for and market acceptance of our services;
- our expectations regarding the retention and strengthening of our relationships with advertisers;
- changes in technology affecting our business, and our company's responses to these changes;
- our investment plans to enhance our user experience, infrastructure and service offerings;
- competition in our industry in China; and

- relevant government policies and regulations relating to our industry.

We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, and business strategy. Although we believe that our expectations expressed in these forward-looking statements are reasonable, our expectations may later be found to be incorrect, and our actual results could be materially different from our expectations. Moreover, we operate in an evolving environment. New risk factors and uncertainties emerge from time to time and it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. You should read thoroughly this annual report and the documents that we refer to with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements with these cautionary statements.

The forward-looking statements made in this annual report relate only to events or information as of the date on which the statements are made in this annual report. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events.

Item 3. Key Information

A. Selected Financial Data

Selected Consolidated Financial Data

The following selected consolidated statement of operations data for the three years ended December 31, 2010, 2011 and 2012 and the selected consolidated balance sheet data as of December 31, 2011 and 2012 have been derived from our audited consolidated financial statements included elsewhere in this annual report. Our selected consolidated statement of operations data for the years ended December 31, 2008 and 2009 and our selected consolidated balance sheet data as of December 31, 2008, 2009 and 2010 have been derived from our audited consolidated financial statements not included in this annual report.

The selected consolidated financial data should be read in conjunction with, and are qualified in their entirety by reference to, our audited consolidated financial statements and related notes and Item 5 Operating and Financial Review and Prospects in this annual report. Our consolidated financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States, or U.S. GAAP.

Our historical results do not necessarily indicate results expected for any future periods.

Year ended December 31,

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors**Risks Related to Our Business and Industry**

If we fail to continuously anticipate user preferences and provide attractive services and applications, we may not be able to increase the size and level of engagement of our user base.

The success of our business depends on our ability to grow our user base and keep our users highly engaged. In order to attract and retain users, we must continue to innovate and introduce services and applications that our users find enjoyable. If we fail to anticipate and meet the needs of

our users, the size and engagement level of our user base may decrease. Furthermore, because of the viral nature of social networking, users may switch to our competitors' services more quickly than in other online sectors, despite the fact that it would be time-consuming for them to restart the process of establishing connections with friends and post photos and other content via one of our competitors' services. A decrease in the number of our users would render our services less attractive to users and advertisers and may decrease our revenues, which may have a material and adverse effect on our business, financial condition and results of operations.

In addition, since a substantial number of users of our new services and products over the years had already been users of Renren.com, our SNS platform, we believe the new services we may pursue will depend upon our ability to maintain and increase the user base for our SNS platform, the level of user engagement on our platform and the stickiness of our platform. If we are unable to maintain or increase the size and level of engagement of our user base for our SNS platform, the performance of our new services may be materially and adversely affected.

We face significant competition in almost every aspect of our business. If we fail to compete effectively, we may lose market share and our business, prospects and results of operations may be materially and adversely affected.

We face significant competition in almost every aspect of our business. In our social networking business, we compete with companies and services such as Tencent's Q-zone and WeChat, SINA's Weibo.com, and kaixin001.com. In our online games business, we primarily compete with companies such as Tencent, Qihu360 and 7Road.com. In our social commerce business, we mainly compete against meituan.com, dianping.com and lashou.com. In our online video business, we compete against companies that enable users to upload, view and/or share video content, such as Youku Tudou, Sohu.com, iQiyi.com and Tencent, as well companies which provide online entertainment services, such as YY Inc. Competition in the mobile landscape of these services is as intense, if not more, as with their PC counterparts. We also compete for online advertising revenues with other websites that sell online advertising services in China.

Table of Contents

Some of our competitors have significantly larger user bases and more established brand names and may be able to effectively leverage their user bases and brand names to provide integrated internet communication, online games, social networking and other products and services available over the internet via PCs and mobile devices and increase their respective market shares. We may also face potential competition from global social networking service providers that seek to enter the China market. Some of our competitors may have longer operating histories and significantly greater financial, technical and marketing resources than we do, and in turn may have an advantage in attracting and retaining users and advertisers. If we are not able to effectively compete, our user base and level of user engagement may decrease, which could make us less attractive to advertisers and materially and adversely affect our ability to maintain and increase revenues from online advertising, and which may also reduce the number of paying users that purchase our internet value-added services, or IVAS. Similarly, we may be required to spend additional resources to further increase our brand recognition and promote our services in order to compete effectively, especially with respect to marketing of our social commerce and other new services to capture market share, which could adversely affect our profitability.

In addition, we compete for advertising budgets with traditional advertising media in China, such as television and radio stations, newspapers and magazines, and major out-of-home media. If online advertising as a new marketing channel does not become more widely accepted in China, we may experience difficulties in competing with traditional advertising media.

We may not be able to successfully expand and monetize our mobile internet services.

An important element of our strategy is to continue to expand our mobile internet services. We have made significant efforts in recent years to develop new mobile applications to capture a greater share of the growing number of users that access social networking, online games, social commerce and other internet services through smart phones and other mobile devices. For example, the mobile percentage of our monthly total user time spent on Renren.com was 20.2%, 54.1% and 69.1% in December 2010, December 2011 and December 2012, respectively, and the number of our monthly unique smartphone users who accessed renren.com increased from 1.4 million in December 2010 to 8.5 million in December 2011 and to 14.0 million in December 2012. If we are unable to attract and retain a substantial number of mobile device users, or if we are slower than our competitors in developing attractive services that are adapted for such devices, we may fail to capture a significant share of an increasingly important portion of the market for our services or lose existing users, either of which may have a material adverse effect on our business, financial condition and results of operations.

Furthermore, aside from mobile games, we are in the midst of experimenting with multiple early monetization strategies for our mobile internet services. Advertisers currently spend significantly less on advertising on mobile devices as compared to advertising on PCs, and we cannot assure you that advertisers will in the future increase their spending on advertising on mobile devices. As our users continue to allocate more time on our mobile services instead of our traditional PC services, mobile monetization will become increasingly important as a path to profitability. Accordingly, if we are unable to successfully implement monetization strategies for our mobile users and if our users continue to increasingly access our services through mobile devices as a substitute for access through personal computers, our revenue and financial results may be negatively affected.

We may not be able to further grow our online games business.

We rely on our online games business for a substantial percentage of our revenues. Net revenues from our online games business accounted for 45.0%, 35.9% and 51.2% of our total net revenues in 2010, 2011 and 2012, respectively. Going forward, we expect that revenues from the online games business will continue to be a substantial percentage of our total net revenues. Reliance on the online games business subjects us to a number of risks:

Table of Contents

- Continuing to develop and source new games that appeal to our game players is an important part of our business expansion plans. Our ability to develop successful new games further depends on our ability to anticipate and effectively respond to changing game player interests and preferences and technological advances in a timely manner, to attract, retain and motivate talented game development personnel and to execute effectively our game development plans. There can be no assurance that we will be successful in each of these areas.
- We are dependent on hit titles as a large percentage of our online game revenues. For example, in 2012, our top five games contributed 68% of our online games revenues, which comprised 35% of our total revenues for 2012. Online games have a finite commercial lifespan and tend to become less popular after a few years. If our hit titles start to decrease in popularity and we do not have follow-up hit titles in our pipeline, our revenues may be negatively affected.
- While we have been operating in the online games business since 2007, mobile games and cross-platform games, which are games that allow users to play the same game between PC and mobile devices while also using the same account, are relatively new in the games sector. There can be no assurance that our strategy of providing mobile games and cross-platform games will be successful.
- Our users download our mobile games from direct-to-consumer digital storefronts such as Apple's App Store and Google's Play Store. The terms and conditions between the store operators and the application developers governing the promotion, distribution and operation of applications, including mobile games, are normally standardized and non-negotiable. If the store operators believe the terms and conditions have been violated, they have the right to suspend or terminate a developer's account. In addition, if we are unable to maintain a good relationship with each platform, or if our mobile games were unavailable on these platforms for any prolonged period of time, our business may suffer. For example, our games were temporarily removed from Apple's Appstore in 2012. After communicating with Apple to address their inquiries, these games were restored. We have since enhanced our internal processes to ensure inquiries or concerns from store operators are responded to quickly and properly.
- If we are unable to successfully capture and retain a significant portion of the growing number of Android users that accesses online games, we may lose users, which may have a material adverse effect on our business.
- We license many of our online games, including some of our most popular games, from third parties. Additionally, we depend upon our licensors to provide technical support necessary for the operation of the licensed games. We must maintain good relationships with our licensors to continue to source new games with reasonable revenue-sharing terms and ensure the continued smooth operation of our licensed games. We may incur additional costs and may face significant risks when we license our games outside of China and seek to expand our operations to select markets, such as the United States and Asia. If we fail to successfully manage these risks, our growth and business prospects could be materially and adversely affected.

We plan to continue to invest significantly in growing our social commerce services and we may not be successful in this endeavor, which could adversely affect our results of operations and financial condition.

Edgar Filing: Renren Inc. - Form 20-F

Since June 2010, we have provided social commerce services through nuomi.com. In 2010, 2011 and 2012, revenues from our social commerce services were US\$1.2 million, US\$6.5 million and US\$16.1 million, respectively, representing 1.6%, 5.5% and 9.2%, respectively, of our total revenues. Operating expenses from our social commerce services were US\$1.1 million, US\$30.2 million and US\$42.2 million, respectively, representing 2.0%, 24.7% and 21.0%, respectively, of our total operating expenses. We plan to continue to invest significantly in the expansion of our social commerce services. As a result of the short history of the social commerce industry in China, its potentially volatile growth, and the relatively low margins experienced in this business, our ability to successfully implement our expansion strategy is subject to various risks and uncertainties, including:

Table of Contents

- our ability to maintain and increase competitiveness against the largest and leading social commerce service providers in China;
- the significant investments required to promote and improve our services to users;
- the significant investments required to market and demonstrate the value of our social commerce services to merchants;
- our ability to maintain our reputation and brand in the social commerce service industry;
- uncertainties regarding the evolution of the PRC laws and regulations applicable to the social commerce industry; and
- our ability to provide high quality social commerce services on mobile devices which meet our mobile users' needs.

In addition, our social commerce services require us to engage in activities that are not a substantial part of our other services. For example, in order to arrange high quality social commerce deals regularly in each location covered by nuomi.com, we have introduced local sales teams, who work directly with local merchants or event organizers seeking to target users in a specific city or region. We may not be able to effectively manage these local sales teams. Further, some of the deals offered through our social commerce services are physical goods which must be delivered to users by third parties, and it is possible that the goods to be delivered by the third parties may not be delivered timely, or at all, and may not be in the form or condition expected by our users. If we fail to effectively perform these aspects of our social commerce services, our social commerce services and our prospects may be materially and adversely affected.

If we are unable to manage these risks and successfully implement our expansion plans, our future results of operations and financial condition may be adversely affected.

We may not be able to further grow 56.com, our online video business, or develop it into a profitable business.

In October 2011, we acquired Wole Inc., a Cayman Islands company which operates 56.com, a user generated content online video sharing website in China, through a set of contractual arrangements with its affiliated entities. We believe that our acquisition of 56.com has helped us further meet the needs of our users to record and share their lives on our social network through video format. However, the online video industry in China is very competitive and fragmented, and some of our users may prefer to use the online video services offered by larger players in the industry which have larger libraries of user-generated content and professional videos. To empower our users, we have given them a range of tools to access and share video content from the websites of other companies which offer online video services, and it is possible that our users may use such tools to access our competitors' websites and user traffic on 56.com may be adversely affected as a result.

Growth of the online video industry in China is affected by numerous factors, such as users' general online video experience, technological innovations, development of internet and internet-based services, regulatory changes, especially regulations affecting copyrights, and the macroeconomic environment. If the online video industry in China does not grow as quickly as expected or if 56.com fails to benefit from such growth, user traffic on 56.com may decrease and its business and prospects may be adversely affected. Further, to date, 56.com, like many online video service providers in China, has not been profitable, and there is no assurance that it will be profitable in the future.

Our strategy to acquire or invest in complementary businesses and establish strategic alliances involves significant risk and uncertainty that may prevent us from achieving our objectives and harm our financial condition and results of operations.

As part of our plan to continue to grow our user base and improve our user experience, we from time to time consider opportunities to acquire, invest in or partner with other companies that bring us complementary or new users, technologies or services. Strategic acquisitions and investments may subject us to uncertainties and risks, including:

Table of Contents

- costs associated with, and difficulties in, integrating acquired businesses and managing a larger business;
- potentially significant goodwill impairment charges;
- potential ongoing financial obligations and unforeseen or hidden liabilities;
- failure to achieve our intended objectives, benefits or revenue-enhancing opportunities;
- high acquisition and financing costs;
- potential claims or litigation regarding our board's exercise of its duty of care and other duties required under applicable law in connection with any of our significant acquisitions or investments approved by the board; and
- diversion of our resources and management attention.

Our failure to address these uncertainties and risks may have a material adverse effect on our liquidity, financial condition and results of operations. In addition, we may from time to time attempt to achieve our objectives of enhancing our user experience, broadening the appeal of our platform and increasing the number of our users by establishing strategic alliances with various third parties, including through our Renren Connect and Renren Open Platform programs. Strategic alliances with third parties could subject us to a number of risks, including risks associated with sharing proprietary information, non-performance by the counter-party, and an increase in expenses incurred in establishing new strategic alliances, any of which may materially and adversely affect our business and results of operations.

The business opportunities for SNS, online games, social commerce, online video and other internet services in China are continuously evolving and may not grow as quickly as expected, in ways that are consistent with other markets, or at all.

Our business and prospects depend on the continuous development of emerging internet business models in China, including those for social networking, online games, social commerce and online videos. Our main internet services have distinct business models which may differ from models for these businesses in other markets, such as the United States, and that are in varying stages of development and monetization. We cannot assure you that the industries in which we operate in China will continue to grow as rapidly as they have in the past, in ways that are consistent with other markets, or at all. With the development of technology, new internet services may emerge which may render our existing service offerings less attractive to users. The growth and development of the social networking, online games, social commerce and online video industries is affected by numerous factors, such as the macroeconomic environment, regulatory changes, technological innovations, development of internet and internet-based services, users' general online experience, cultural influences and changes in tastes and preferences. If these

Edgar Filing: Renren Inc. - Form 20-F

internet industries do not grow as quickly as expected or at all, or if we fail to benefit from such growth by successfully implementing our business strategies, our business and prospects may be adversely affected.

If we fail to keep up with the technological developments and users' changing requirements, our business and prospects may be materially and adversely affected.

The social networking, online games, social commerce and online video industries are subject to rapid and continuous changes in technology, user preferences, such as the movement of our user base from personal computers to mobile devices, the nature of services offered and business models. Our success will depend on our ability to keep up with the changes in technology and user behavior resulting from technological developments. If we do not adapt our services to such changes in an effective and timely manner, we may suffer from decreased user traffic, which may result in a reduced number of advertisers for our online advertising services or a decrease in their advertising spending. In addition, if we adopt new technologies which turn out to be less proven, and user experience suffers as a result, our users may use our platform less often. Furthermore, changes in technologies may require substantial capital expenditures in product development as well as in modification of products, services or infrastructure. We may not successfully execute our business strategies due to a variety of reasons such as technical hurdles, misunderstanding or erroneous prediction of market demand or lack of necessary resources. Failure in keeping up with technological developments may result in our platform being less attractive, which in turn may materially and adversely affect our business and prospects.

Table of Contents

We have experienced net losses in the past, and you should consider our prospects in light of the risks and uncertainties fast-growing companies in evolving industries with limited operating histories, such as ours, may be exposed to or encounter.

We had a loss from continuing operations of US\$61.2 million, income from continuing operations of US\$41.0 million and a loss from continuing operations of US\$75.1 million in 2010, 2011 and 2012, respectively. Our loss from continuing operations in 2010 reflects the aggregate impact of non-cash items relating to the change in fair value of our then outstanding series D warrants, share-based compensation, amortization of intangible assets and impairment of intangible assets, amounting to an aggregate of US\$78.6 million in expenses in 2010. All outstanding warrants to purchase series D preferred shares were exercised in December 2010. Our income from continuing operations in 2011 was due in part to a one-time gain of US\$50.9 million from the sale of eLong ADSs, and income from continuing operations in 2011 also reflected the aggregate impact of non-cash items relating to share-based compensation, amortization of intangible assets and impairment of intangible assets of US\$8.7 million. Our net loss from continuing operations in 2012 was primarily due to substantial investments in research and development, particularly those related to mobile initiatives, continued investment in our Nuomi social commerce business, as well as investment in our video sharing business 56.com, which we acquired in October 2011, and loss in equity method investments, net of income taxes, due to investments we made in 2011 and 2012. We expect that for the foreseeable future, investments in mobile initiatives, nuomi.com and 56.com will continue to constitute significant expenses decreasing our income or increasing our loss from continuing operations.

In addition to the foregoing, our results of operations for the past three years were affected by costs and expenses required to build, operate and expand our SNS platform, grow our user base, promote our Renren brand, develop our own products and services, license third-party products and applications, and make other strategic investments. We expect that we will continue to incur significant research and development, marketing and other costs to launch new services and grow our user and advertiser bases. In particular, our plan to continue focusing our strategy on mobile opportunities, with increasing effort to experiment with different monetization models, including mobile games, mobile advertising and mobile commerce through Nuomi, will result in significant costs and expenses, and the profitability of this strategy has yet to be proven.

Our ability to achieve profitability is affected by various factors, some of which are beyond our control. For example, revenues from, and the profitability of, our online games business depend on our ability to internally develop games that are attractive to our user base or license them from third parties. In addition, our revenues and profitability depend on the continuous development of the online advertising industry in China and advertisers' allocation of more of their budgets to SNS and online video websites. We cannot assure you that online advertising will become more widely accepted in China or that advertisers will increase their spending on SNS or online video websites. Aside from mobile games, we currently do not have a clear monetization model for mobile users. Furthermore, the success of our social commerce services depends on our ability to maintain and grow our user and merchant base while earning revenues from merchants that offer attractive discounts to the users of our nuomi.com website. We may incur net losses in the future and you should consider our future prospects in light of the risks and uncertainties experienced by early stage companies, and companies following the migration of their users from PC to mobile, in evolving industries such as the SNS, online games, social commerce and online video industries in China.

We rely on online advertising for a sizeable proportion of our revenues. If the online advertising industry in China or advertisers' willingness to advertise on our SNS platform grow slower than expected or declines, our revenues, profitability and prospects may be materially and adversely affected.

In 2010, 2011 and 2012, online advertising accounted for 41.8%, 50.5% and 30.6%, respectively, of our total net revenues. Consequently, our profitability and prospects depend in part on the continuous development of the online advertising industry and are impacted by the amount of our advertising clients' budgets which are devoted to advertising on social networking websites in China. However, the internet penetration rate in China is relatively low as compared to most developed countries, and many advertisers in China have limited experience with online advertising and have historically allocated a small portion of their advertising budgets to online advertising. Advertising on social networking

websites is an even newer marketing channel in China, and those companies which are willing to begin advertising online may decide to utilize more established methods or channels for online advertising, such as the more established Chinese internet portals or search engines. In addition, in challenging macroeconomic conditions, advertisers are generally less willing to devote resources to online advertising, including advertising on social networks. We believe the reduction in our advertising revenue in 2012 was due in part to the continued challenging macroeconomic conditions in China bearing on our advertising clients, and that these conditions have resulted in intensifying competition for online advertising revenue among the major websites in China offering SNS, online video and other communication services. Further, we may be unable to respond adequately to changing trends in online advertising or advertiser demands or preferences, technological innovation and improvements in the measurement of user traffic and online advertising, and technological developments more generally. In this regard, the migration of our user traffic from PC to mobile, which gathered momentum in 2011 and noticeably increased in 2012, has had an adverse impact on our online advertising revenues, as advertisers have, to date, spent considerably less money advertising on mobile devices. If the online advertising market size does not increase from current levels, we are unable to successfully compete and capture a sufficient share of that market or we are unable to generate meaningful advertising revenues from mobile devices, our ability to maintain or increase our current level of online advertising revenues, and our profitability and prospects could be materially and adversely affected.

Table of Contents

Renren user growth and engagement on mobile devices depend upon effective operation with mobile operating systems, networks, and standards that we do not control.

There is no guarantee that popular mobile devices will continue to feature Renren, or that mobile device users will continue to use Renren rather than competing products. We are dependent on the interoperability of Renren with popular mobile operating systems that we do not control, such as iOS, Android and Windows, and any changes in such systems that degrade our products' functionality or give preferential treatment to competitive products could adversely affect Renren usage on mobile devices. Additionally, in order to deliver high quality mobile products, it is important that our products work well with a range of mobile technologies, systems, networks, and standards that we do not control. We may not be successful in developing relationships with key participants in the mobile industry or in developing products that operate effectively with these technologies, systems, networks, or standards. In the event that it is more difficult for our users to access and use Renren on their mobile devices, or if our users choose not to access or use Renren on their mobile devices or use mobile products that do not offer access to Renren, our user growth and user engagement could be harmed.

If we fail to maintain and enhance our Renren, Nuomi, 56.com and other brands, or if we incur excessive expenses in this effort, our business, results of operations and prospects may be materially and adversely affected.

We believe that maintaining and enhancing our Renren, Nuomi, 56.com and other brands is of significant importance to the success of our business. Well-recognized brands are critical to increasing the number and the level of engagement of our users and, in turn, enhancing our attractiveness to advertisers. Since we operate in a highly competitive market, maintaining and enhancing our brands directly affects our ability to maintain our market position.

We have developed our reputation and established our leading market position in the social networking industry in China by providing our users with a superior online experience. We have conducted and may continue to conduct various marketing and brand promotion activities, both through cooperation with our business partners and through more traditional methods, such as television advertisements. We cannot assure you, however, that these activities will be successful or that we will be able to achieve the brand promotion effect we expect. In addition, any negative publicity in relation to our services or products, regardless of its veracity, could harm our brands and the perception of our brands in the market.

We have received complaints from users, including users of our nuomi.com website, regarding the quality or availability of the products, services and events offered on nuomi.com by the various merchants with whom we contract, and we expect that we will continue to receive complaints in the future. The legal responsibility to users for the quality and availability of products, services and events offered on nuomi.com is normally borne by the merchants, not by us. However, regardless of which party bears such legal responsibility, if our users' complaints are not addressed to their satisfaction, our reputation and our market position could be significantly harmed, which may materially and adversely affect our business and prospects.

Table of Contents

We may not be able to manage our expansion effectively.

We have experienced rapid growth in our business in recent years. The number of our activated users on Renren.com increased from approximately 110 million as of December 31, 2010 to approximately 178 million as of December 31, 2012, and our monthly unique log-in users on Renren.com increased from approximately 26 million in December 2010 to approximately 56 million in December 2012. In addition, the number of our employees grew rapidly from 1,570 as of December 31, 2010 to 4,603 as of December 31, 2012. Further, the portfolio of services we offer has expanded from real name social networking services, which has historically been the core of our company's business, to online games, social commerce, online video services and other new initiatives. In addition, in recent years, we have developed and launched versions of these services for mobile devices, and we currently offer them on both PCs and mobile devices.

We expect to continue to grow our user base and our business operations, including launching new services and mobile applications. Our rapid expansion may expose us to new challenges and risks. To manage the further expansion of our business and the expected growth of our operations and the number of our research and development, sales and other personnel, we need to continuously expand and enhance our infrastructure and technology, and improve our operational and financial systems, procedures and controls. We also need to train, manage and motivate our growing employee base. In addition, we need to maintain and expand our relationships with advertisers, advertising agencies, third-party developers of online games and applications offered on our platform, merchants for our nuomi.com services and other third parties. We cannot assure you that our current and planned personnel, infrastructure, systems, procedures and controls will be adequate to support our expanding operations, that our new service lines or mobile applications will experience the synergies we expect, or that we will be able to successfully monetize the mobile versions of our services. Furthermore, expansions into new services may present operating and marketing challenges that are different from those that we currently encounter. If we fail to manage our expansions effectively, our business, results of operations and prospects may be materially and adversely affected.

Content posted or displayed on our websites may be found objectionable by PRC regulatory authorities and may subject us to penalties and other severe consequences.

The PRC government has adopted regulations governing internet access and the distribution of information over the internet. Under these regulations, internet content providers and internet publishers are prohibited from posting or displaying over the internet content that, among other things, violates PRC laws and regulations, impairs the national dignity of China or the public interest, or is obscene, superstitious, fraudulent or defamatory. Furthermore, internet content providers are also prohibited from displaying content that may be deemed by relevant government authorities as socially destabilizing or leaking state secrets of the PRC. Failure to comply with these requirements may result in the revocation of licenses to provide internet content and other licenses, the closure of the concerned websites and reputational harm. The website operator may also be held liable for such censored information displayed on or linked to their website. For a detailed discussion, see Item 4.B Business Overview Regulation Regulations on Value-Added Telecommunications Services, Item 4.B Business Overview Regulation Regulations on Internet Content Services and Item 4.B Business Overview Regulation Regulations on Information Security and Censorship.

Through our SNS platform, we allow users to upload content on our platform, including via message boards, blogs, email, chat rooms, or image-sharing webpages, and also allow users to share, link to and otherwise access audio, video and other content from other websites. In addition, we allow users to download, share and otherwise access games and other applications on and through our platform, including through our online games business and Renren Open Platform program. Further, we allow users to upload a variety of videos and graphics to our 56.com website. After a user registers and before each upload, we require the user to click a box to confirm that the user has read and agreed to be bound by our copyright agreement. Pursuant to the copyright agreement, the user warrants that the content to be uploaded does not violate any laws or regulations or any third party rights. If we discover that any uploaded content is inappropriate, we can delete or revise the content, or terminate the user account. In addition, we remove user uploads when we are notified or made aware, by copyright owners or from other

Edgar Filing: Renren Inc. - Form 20-F

sources, of copyright infringements or other illegal uploads. For a description of how content can be accessed on or through our SNS platform, and what measures we take to lessen the likelihood that we will be held liable for the nature of such content, see Item 4.B Business Overview Technology and Infrastructure Anti-spamming and other filtering systems and Risks Related to Our Business and Industry We have been and may continue to be subject to intellectual property infringement claims or other allegations by third parties for services we provide or for information or content displayed on, retrieved from or linked to our websites, or distributed to our users, which may materially and adversely affect our business, financial condition and prospects.

Table of Contents

Failure to identify and prevent illegal or inappropriate content from being displayed on or through our websites for internet users or mobile users may subject us to liability. In addition, these laws and regulations are subject to interpretation by the relevant authorities, and it may not be possible to determine in all cases the types of content that could result in our liability as a website operator. To the extent that PRC regulatory authorities find any content displayed on or through our websites objectionable, they may require us to limit or eliminate the dissemination or availability of such content on our websites in the form of take-down orders or otherwise. Such regulatory authorities may also impose penalties on us based on content displayed or made available through our websites in cases of material violations, including a revocation of our operating licenses or a suspension or shutdown of our online operations, which would materially and adversely affect our business, results of operations and reputation. Moreover, the costs of compliance with these regulations may continue to increase as a result of more content being uploaded or made available by an increasing number of users and third-party partners and developers.

Concerns about collection and use of personal data could damage our reputation and deter current and potential users from using our services.

As of December 31, 2012, our platform had accumulated a total of approximately 5.4 billion photos, 312 million blogs, 38 billion comments or reviews and 58 million videos. Under our privacy policy, without our users' prior consent, we will not provide any of our users' personal information to any unrelated third party. While we strive to comply with our privacy guidelines as well as all applicable data protection laws and regulations, any failure or perceived failure to comply may result in proceedings or actions against us by government entities or others, and could damage our reputation. User and regulatory attitudes towards privacy are evolving, and future regulatory or user concerns about the extent to which personal information can be shared may adversely affect our ability to share certain data with advertisers, which may limit certain methods of targeted advertising. Concerns about the security of personal data could also lead to a decline in general internet usage, which could lead to lower user traffic on our platform. A significant reduction in user traffic could lead to lower advertising revenues or lower IVAS revenues, which could have a material adverse effect on our business, financial condition and results of operations.

We could be liable for any breach of security relating to our payment platforms or the third-party online payment platforms we use, and concerns about the security of internet transactions could damage our reputation, deter current and potential users from using our platform and have other adverse consequences to our business.

Currently, we sell a substantial portion of our virtual currency and other paid services and applications to our users and game players through third-party online payment platforms using the internet or mobile networks. In all these online payment transactions, secured transmission of confidential information over public networks is essential to maintain consumer confidence. In addition, we expect that an increasing amount of our sales will be conducted over the internet as a result of the growing use of online payment systems. As a result, associated online fraud will likely increase as well. Our current security measures and those of the third parties with whom we transact business may not be adequate. We must be prepared to increase and enhance our security measures and efforts so that our users and game players have confidence in the reliability of the online payment systems that we use, which will impose additional costs and expenses and may still not guarantee complete safety. In addition, we do not have control over the security measures of our third-party online payment vendors. Although we have not in the past experienced material security breaches of the online payments that we use, such security breaches could expose us to litigation and possible liability for failing to secure confidential customer information and could, among other things, damage our reputation and the perceived security of the online payment systems that we use.

Spammers and malicious applications may make our services less user-friendly, and distort the data used for advertising purposes, which could reduce our ability to attract advertisers.

Edgar Filing: Renren Inc. - Form 20-F

Spammers may use our platform and services to send targeted and untargeted spam messages to users, which may embarrass or annoy users and make usage of our services and networks more time-consuming and less user-friendly. As a result, our users may use our services less or stop using them altogether. As part of fraudulent spamming activities, spammers typically create multiple user accounts, such as accounts being set-up for the purposes of sending spam messages. Although we have technologies and employees that attempt to identify and delete accounts created for spamming purposes, we may not be able to eliminate all spam messages from being sent on our platform.

In addition, we have limited ability to validate or confirm the accuracy of information provided during the user registration process. Inaccurate data with respect to the number of unique individuals registered and actively using our services may cause advertisers to reduce the amount spent on advertising through our websites. In addition, use of applications that permit users to block advertisements may become widespread, which could make online advertising less attractive to advertisers. Any such activities could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Advertisements shown on our websites may subject us to penalties and other administrative actions.

Under PRC advertising laws and regulations, we are obligated to monitor the advertising content shown on our websites to ensure that such content is true and accurate and in full compliance with applicable laws and regulations. In addition, where a special government review is required for specific types of advertisements prior to website posting, such as advertisements relating to pharmaceuticals, medical instruments, agrochemicals and veterinary pharmaceuticals, we are obligated to confirm that such review has been performed and approval has been obtained. Violation of these laws and regulations may subject us to penalties, including fines, confiscation of our advertising income, orders to cease dissemination of the advertisements and orders to publish an announcement correcting the misleading information. In circumstances involving serious violations by us, PRC governmental authorities may force us to terminate our advertising operations or revoke our licenses.

While significant efforts have been made to ensure that the advertisements shown on our websites are in full compliance with applicable PRC laws and regulations, we cannot assure you that all the content contained in such advertisements or offers is true and accurate as required by the advertising laws and regulations, especially given the uncertainty in the interpretation of these PRC laws and regulations. If we are found to be in violation of applicable PRC advertising laws and regulations, we may be subject to penalties and our reputation may be harmed, which may have a material and adverse effect on our business, financial condition, results of operations and prospects.

Online communications among our users may lead to personal conflicts, which could damage our reputation, lead to government investigation and have a material and adverse effect on our business.

Our users engage in highly personalized exchanges over our platform. Users who have met online through our services may become involved in emotionally charged situations and could suffer adverse moral, emotional or physical consequences. Such occurrences could be highly publicized and have a significant negative impact on our reputation. Government authorities may require us to discontinue or restrict those services that would have led, or may lead, to such events. As a result, our business may suffer and our user base, revenues and profitability may be materially and adversely affected.

We rely on third parties to provide a number of important services in connection with our business, and any disruption to the provision of these services to us could materially and adversely affect our business and results of operations.

Our business is to a significant extent dependent upon services provided by third parties and business relationships with third parties. Substantially all of our online advertising revenues are generated through agreements entered into with various third-party advertising agencies, and we rely on these agencies for sales to, and collection of payment from, our advertisers. We do not have long-term cooperation agreements or exclusive arrangements with these agencies and they may elect to direct business opportunities to other advertising service providers, including our competitors. If we fail to retain and enhance the business relationships with these third-party advertising agencies, we may suffer from a loss of advertisers and our business, financial condition and results of operations may be materially and adversely affected.

In addition, a significant portion of our IVAS revenues are generated from online games and applications developed by third parties, and if we are unable to obtain or renew licenses to such games or attract application developers to our platform, we could be required to devote greater resources and time to develop attractive games and applications on our own or license new games and applications from other parties.

If the third parties on whom we rely fail to provide their services effectively, terminate their service or license agreements or discontinue their relationships with us, we could suffer service interruptions, reduced revenues or increased costs, any of which may have a material adverse effect on our business, financial condition and results of operations. Certain third-party service providers could be difficult and costly to replace, and any disruption to the provision of these services to us may have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Our operations depend on the performance of the internet infrastructure and fixed telecommunications networks in China.

Almost all access to the internet in China is maintained through state-owned telecommunication operators under the administrative control and regulatory supervision of the Ministry of Industry and Information Technology, or the MIIT. Moreover, we primarily rely on a limited number of telecommunication service providers to provide us with data communications capacity through local telecommunications lines and internet data centers to host our servers. We have limited access to alternative networks or services in the event of disruptions, failures or other problems with China's internet infrastructure or the fixed telecommunications networks provided by telecommunication service providers. With the expansion of our business, we may be required to upgrade our technology and infrastructure to keep up with the increasing traffic on our websites. We cannot assure you that the internet infrastructure and the fixed telecommunications networks in China will be able to support the demands associated with the continued growth in internet usage.

In addition, we have no control over the costs of the services provided by telecommunication service providers. If the prices we pay for telecommunications and internet services rise significantly, our results of operations may be materially and adversely affected. Furthermore, if internet access fees or other charges to internet users increase, our user traffic may decline and our business may be harmed.

Changes in the policies, guidelines or practice of mobile network operators or the PRC government with respect to mobile applications and other content may negatively affect our business operations for mobile applications.

We rely on PRC mobile network operators, directly and indirectly, to distribute our products to our users. The mobile telecommunication business in China is highly concentrated and major mobile network operators, such as China Mobile, may from time to time issue new policies or change their business practices, requesting or stating their preferences for certain actions to be taken by all mobile service providers using their networks. In addition, the PRC government may also implement new policies or change existing policies regulating the mobile telecommunication business. Such new policies or changes may negatively affect our business operations for mobile applications.

Problems with our network infrastructure or information technology systems could impair our ability to provide services.

Our ability to provide our users with a high quality online experience depends on the continuing operation and scalability of our network infrastructure and information technology systems. We face a number of risks in this area. For example, our systems are potentially vulnerable to damage or interruption as a result of natural disasters, power loss, telecommunications failures and similar events. We may also encounter problems when upgrading our systems or services and undetected programming errors could adversely affect the performance of the software we use to provide our services. In addition, we rely on servers, data centers and other network facilities provided by third parties, and the limited availability of third-party providers with sufficient capacity to house additional network facilities and broadband capacity in China may lead to higher costs or limit our ability to offer certain services or expand our business.

These and other events have led and may in the future lead to interruptions, decreases in connection speed, degradation of our services or the permanent loss of user data and uploaded content. If we experience frequent or persistent service disruptions, whether caused by failures of our own systems or those of third-party service providers, our reputation or relationships with our users or advertisers may be damaged and our users and advertisers may switch to our competitors, which may have a material adverse effect on our business, financial condition and results of operations.

Computer malware, viruses, hacking and phishing attacks, and spamming could harm our business and results of operations.

Computer malware, viruses, and computer hacking and phishing attacks have become more prevalent in our industry and may occur on our systems in the future. For example, in December 2011, through hacking a third party CDN provider, a computer hacker was able to access the data of over six million internet users from a number of major internet websites in China, including our website. We responded to this incident by notifying our users of the incident and advising them to change their log-in details. Though it is difficult to determine what, if any, harm may directly result from any specific interruption or attack, any failure to maintain performance, reliability, security, and availability of our products and technical infrastructure to the satisfaction of our users may harm our reputation and our ability to retain existing users and attract new users.

Table of Contents

In addition, spammers attempt to use our products to send targeted and untargeted spam messages to users, which may embarrass or annoy users and make our internet platform less user-friendly. We cannot be certain that the technologies and employees that we have to attempt to defeat spamming attacks will be able to eliminate all spam messages from being sent on our platform. As a result of spamming activities, our users may use our internet platform less or stop using our products altogether.

We have been and may continue to be subject to intellectual property infringement claims or other allegations by third parties for services we provide or for information or content displayed on, retrieved from or linked to our websites, or distributed to our users, which may materially and adversely affect our business, financial condition and prospects.

Internet, technology and media companies are frequently involved in litigation based on allegations of infringement of intellectual property rights, unfair competition, invasion of privacy, defamation and other violations of other parties' rights. The validity, enforceability and scope of protection of intellectual property rights in internet-related industries, particularly in China, are uncertain and still evolving. As we face increasing competition and as litigation becomes more common in China in resolving commercial disputes, we face a higher risk of being the subject of intellectual property infringement claims.

Intellectual property claims and litigation are expensive and time-consuming to investigate and defend, and may divert resources and management attention from the operation of our business. Such claims, even if they do not result in liability, may harm our reputation. Any resulting liability or expenses, or changes required to our websites to reduce the risk of future liability, may have a material adverse effect on our business, financial condition and prospects.

We may be subject to patent infringement claims with respect to our SNS platform.

Our technologies and business methods, including those relating to our SNS platform, may be subject to third-party claims or rights that limit or prevent their use. Certain U.S.-based companies have been granted patents in the United States relating to SNS platforms and similar business methods and related technologies. While we believe that we are not subject to U.S. patent laws since we conduct our business operations outside of the United States, we cannot assure you that U.S. patent laws would not be applicable to our business operations, or that holders of patents relating to a SNS platform would not seek to enforce such patents against us in the United States or China. For example, we are aware that Facebook applied for a number of patents relating to its social networking system and methodologies, platform and other related technologies. In addition, many parties are actively developing and seeking protection for internet-related technologies, including seeking patent protection in China. There may be patents issued or pending that are held by others that relate to certain aspects of our technologies, products, business methods or services. Although we do not believe we infringe third-party patents, the application and interpretation of China's patent laws and the procedures and standards for granting patents in China are still evolving and involve uncertainty. Any patent infringement claims, regardless of their merits, could be time-consuming and costly to us. If we were sued for patent infringement claims with respect to our SNS platform and were found to infringe such patents and were not able to adopt non-infringing technologies, we may be severely limited in our ability to operate our SNS platform, which would have a material adverse effect on our results of operations and prospects.

Our own intellectual property rights may be infringed, which could materially and adversely affect our business and results of operations.

We rely on a combination of monitoring and enforcement of trademark, patent, copyright and trade secret protection laws in the PRC and other jurisdictions, as well as through confidentiality agreements and procedures, to protect our intellectual property rights. Despite our precautions, third parties may obtain and use without our authorization our intellectual property, which includes trademarks related to our brands, products and services, patent applications, registered domain names, copyrights in software and creative content, trade secrets and other intellectual property rights and licenses. Historically, the legal system and courts of the PRC have not protected intellectual property rights to the same extent as the legal system and courts of the United States, and companies operating in the PRC continue to face an increased risk of intellectual property infringement. Furthermore, the validity, application, enforceability and scope of protection of intellectual property rights for many internet-related activities, such as internet commercial methods patents, are uncertain and still evolving in China and abroad, which may make it more difficult for us to protect our intellectual property, and could have a material adverse effect on our business, financial condition and results of operations. For example, other companies have in the past copied the concepts, the look and feel and even material parts of the online games that we have developed. In such instances, we have filed and may in the future from time to time file lawsuits for copyright infringement.

Table of Contents

The revenue models we adopt for our online games and other entertainment and services may not remain effective, which may materially and adversely affect our business, financial condition and results of operations.

We currently operate substantially all of our online games using the virtual item-based revenue model, whereby players can play games for free, but they have the option to purchase virtual in-game items such as items that improve the strength of game character, in-game accessories and pets. We have generated, and expect to continue to generate, a substantial majority of our online games revenues using this revenue model. However, the virtual item-based revenue model requires us to develop or license online games that not only attract game players to spend more time playing, but also encourage them to purchase virtual items. The sale of virtual items requires us to track closely game players' tastes and preferences, especially as to in-game consumption patterns. If we fail to develop or offer virtual items which game players purchase, we may not be able to effectively convert our game player base into paying users. In addition, the virtual item-based revenue model may raise additional concerns with PRC regulators that have been implementing regulations designed to reduce the amount of time that the Chinese youth spend playing online games and limit the total amount of virtual currency issued by online game operators and the amount purchased by an individual game player. A revenue model that does not charge for playing time may be viewed by the PRC regulators as inconsistent with this goal. Furthermore, we may change the revenue model for some of our online games if we believe the existing revenue models are not optimal. We cannot assure you that the revenue model that we have adopted for any of our online games will continue to be suitable for that game, or that we will not in the future need to switch our revenue model or introduce a new revenue model for that game. A change in revenue model could result in various adverse consequences, including disruptions of our game operations, criticism from game players who have invested time and money in a game and would be adversely affected by such a change, decreases in the number of our game players or decreases in the revenues we generate from our online games. Therefore, such changes in revenue models may materially and adversely affect our business, financial condition and results of operations. Further, there can be no assurance that the revenue models we have used in the PC-based versions of our services will be successful in their mobile counterparts, or that we will otherwise be able to design revenue models that successfully monetize our mobile user base.

The continuing and collaborative efforts of our senior management, key employees and highly skilled personnel are crucial to our success, and our business may be harmed if we were to lose their services.

Our success depends on the continuous effort and services of our experienced senior management team, in particular Mr. Joseph Chen, our founder, chairman and chief executive officer, and Mr. James Jian Liu, our executive director and our chief operating officer. If one or more of our executive officers or other key personnel are unable or unwilling to continue to provide us with their services, we may not be able to replace them easily or at all. Our business may be severely disrupted, our financial condition and results of operations may be materially and adversely affected, and we may incur additional expenses to recruit, train and retain personnel. Competition for management and key personnel is intense and the pool of qualified candidates is limited. We may not be able to retain the services of our executive officers or key personnel, or attract and retain experienced executive officers or key personnel in the future. If any of our executive officers or key employees join a competitor or forms a competing company, we may lose advertiser customers, know-how and key professionals and staff members. Each of our executive officers and key employees has entered into an employment agreement with us, which contains non-competition provisions. However, if any dispute arises between us and our executive officers or key employees, these agreements may not be enforceable in China, where these executive officers and key employees reside, in light of uncertainties relating to China's laws and legal system. See Risks Relating to Doing Business in China Uncertainties with respect to the PRC legal system could adversely affect us.

Our performance and future success also depend on our ability to identify, hire, develop, motivate and retain highly skilled personnel for all areas of our organization. Competition in the SNS, online games and social commerce industries for qualified employees, including technical personnel capable of designing mobile and cross-platform services and products, is intense, and if competition in these industries further intensifies, it may be more difficult for us to hire, motivate and retain highly skilled personnel. If we do not succeed in attracting additional highly skilled personnel or retaining or motivating our existing personnel, we may be unable to grow effectively or at all.

Table of Contents

The performance of our investments, which include currency deposits and equity interests in companies and funds that are not our affiliates, could materially affect our financial condition and results of operations.

Historically, we have held large cash balances in currencies other than U.S. dollars, including Japanese Yen and Renminbi. We also held dual currency deposits in U.S. dollars and Japanese Yen. Fluctuations in exchange rates and changes in the investment environment can affect market prices and the income from our deposits and other investments. We have in the past suffered substantial losses as a result of these deposits and other investments. We had an exchange loss of US\$12.9 million on dual currency deposits in 2008, which primarily related to dual currency deposits in U.S. dollars and Australian dollars. We may in the future suffer substantial losses as a result of these deposits and other investments, which may materially affect our financial condition and results of operations. For a detailed discussion of our exposure to fluctuations in the value of the Renminbi against the U.S. dollar, see Risks Related to Doing Business in China. Fluctuations in exchange rates may have a material adverse effect on your investment and for a discussion of our foreign exchange risk in general, see Item 11 Quantitative and Qualitative Disclosures about Market Risk Foreign Exchange Risk.

We also hold marketable securities, including equity investments in corporations and funds that we do not control. If these investments perform poorly, we may suffer substantial losses, which could materially affect our financial condition and results of operations.

We have granted, and may continue to grant, share options under our equity incentive plans, which may result in increased share-based compensation expenses.

We have adopted four equity incentive plans, on February 27, 2006, January 31, 2008, October 15, 2009 and April 14, 2011. As of March 31, 2013, options to purchase a total of 76,549,353 ordinary shares of our company were outstanding. For the years ended December 31, 2010, 2011 and 2012, we recorded US\$2.8 million, US\$5.5 million and US\$10.9 million, respectively, in share-based compensation expenses. As of December 31, 2012, we had US\$36.2 million of unrecognized share-based compensation expenses relating to share options, which are expected to be recognized over a weighted average vesting period of 2.74 years. We believe the granting of share options is of significant importance to our ability to attract and retain key personnel and employees, and we will continue to grant share options to employees in the future. As a result, our expenses associated with share-based compensation may increase, which may have an adverse effect on our results of operations.

Our quarterly revenues and operating results may fluctuate, which makes our results of operations difficult to predict and may cause our quarterly results of operations to fall short of expectations.

Our quarterly revenues and operating results have fluctuated in the past and may continue to fluctuate depending upon a number of factors, many of which are out of our control. For these reasons, comparing our operating results on a period-to-period basis may not be meaningful, and you should not rely on our past results as an indication of our future performance. Our quarterly and annual revenues and costs and expenses as a percentage of our revenues may be significantly different from our historical or projected rates. Our operating results in future quarters may fall below expectations. Any of these events could cause the price of our ADSs to fall. Other factors that may affect our financial results include, among others:

- global economic conditions;

- our ability to enhance user experience and maintain and increase user traffic;
- the quality and the number of games we offer on our platform in a given quarter;
- our ability to attract and retain advertisers or recognize online advertising revenues in a given quarter;
- the growth of the social networking industry in China;
- our ability to monetize the mobile versions of our applications and services;
- commission rate trends in China's social commerce industry;
- competition in our industry in China;
- changes in government policies or regulations, or their enforcement;
- geopolitical events or natural disasters such as war, threat of war, earthquake or epidemics; and
- decreases in earnings from, or impairment of, our equity investments.

Table of Contents

Our operating results tend to be seasonal and fluctuating. For instance, we typically have lower online advertising revenues during the first quarter of each year primarily due to the Chinese New Year holidays in that quarter, and we experienced a decline in our online advertising revenues in the fourth quarter of 2010, 2011 and 2012. In addition, advertising spending in China has historically been cyclical, reflecting overall economic conditions as well as the budgeting and buying patterns of our customers.

Our business is sensitive to global economic conditions. A severe or prolonged downturn in the global or Chinese economy could materially and adversely affect our business and our financial condition.

The global financial markets experienced significant disruptions in 2008 and the United States, Europe and other economies went into recession. The recovery from the lows of 2008 and 2009 was uneven and is facing new challenges, including the escalation of the European sovereign debt crisis since 2011 and the slowdown of the Chinese economy in 2012. It is unclear whether the European sovereign debt crisis will be contained and whether the Chinese economy will resume its high growth rate. There is considerable uncertainty over the long-term effects of the expansionary monetary and fiscal policies that have been adopted by the central banks and financial authorities of some of the world's leading economies, including China's. There have also been concerns over unrest in the Middle East and Africa, which have resulted in volatility in oil and other markets, and over the possibility of a war involving Iran. There have also been concerns about the economic effect of the earthquake, tsunami and nuclear crisis in Japan and tensions in the relationship between China and Japan.

Economic conditions in China are sensitive to global economic conditions. As the advertising industry is particularly sensitive to economic downturns, our business and prospects have been, and will continue to be, affected by the PRC and global macroeconomic environments. Any prolonged slowdown in the global or Chinese economy may have a negative impact on our online advertising and other services, results of operations and financial condition, and continued turbulence in the international markets may adversely affect our ability to access the capital markets to meet liquidity needs.

If we fail to maintain an effective system of internal control over financial reporting, our ability to accurately and timely report our financial results or prevent fraud may be adversely affected, and investor confidence and the market price of our ADSs may be adversely impacted.

Prior to our initial public offering in May 2011, we were a private company with limited accounting personnel and other resources for addressing our internal control over financial reporting. In preparing our consolidated financial statements for the three years in the period ended December 31, 2010 included in our registration statement on Form F-1 filed in connection with our initial public offering, we identified one material weakness in our internal control over financial reporting as defined in the standards established by the U.S. Public Company Accounting Oversight Board Standard, or PCAOB. The material weakness identified related to insufficient accounting personnel with appropriate U.S. GAAP knowledge. In connection with the preparation of our consolidated financial statements for the year ended December 31, 2011, we concluded that, as of December 31, 2011, the previously identified and disclosed material weakness still existed and that the material weakness had expanded to include insufficient financial reporting personnel with appropriate SEC financial reporting knowledge. As more fully described in Item 15. Controls and Procedures, we took measures to remediate the material weakness. In connection with the preparation of our consolidated financial statements for the year ended December 31, 2012 included in this annual report, we concluded that, as of December 31, 2012, the aforementioned material weakness had been remediated. For the year ended December 31, 2011, we also identified a significant deficiency related to not having a formal policy for investment of our surplus cash and the management of our treasury function. And, during the process of preparing our consolidated financial statements for the year ended December 31, 2012, a significant deficiency was identified related to the preparation and disclosure of segment reporting information.

Edgar Filing: Renren Inc. - Form 20-F

If we fail to maintain effective internal control over financial reporting in the future, we and our independent registered public accounting firm may not be able to conclude that we have effective internal control over financial reporting at a reasonable assurance level. Failure to discover, address or correct any other control deficiencies in the future could result in inaccuracies in our financial statements and could also impair our ability to comply with applicable financial reporting requirements and related regulatory filings on a timely basis. Moreover, effective internal control over financial reporting is important to help prevent fraud. Failure to achieve and maintain effective internal control over financial reporting could result in the loss of investor confidence in the reliability of our financial statements, which in turn could harm our business and negatively impact the market price of our ADSs.

Table of Contents

We have limited business insurance coverage.

Insurance companies in China currently do not offer as extensive an array of insurance products as insurance companies do in more developed economies. We do not have any business liability or disruption insurance to cover our operations. We have determined that the costs of insuring for these risks and the difficulties associated with acquiring such insurance on commercially reasonable terms make it impractical for us to have such insurance. Any uninsured occurrence of business disruption may result in our incurring substantial costs and the diversion of resources, which could have an adverse effect on our results of operations and financial condition.

The leasehold interests of some of our consolidated affiliated entities might not be fully protected by the terms of the relevant lease agreements due to defects in or the landlord's failure to provide certain title documents with respect to some of our leased properties.

As of March 31, 2013, our consolidated affiliated entities leased properties in China covering a total floor area of approximately 57,534 square meters, primarily for use as offices. All such properties are leased from independent third parties. In respect of approximately 24,344 square meters of these properties, the lessors either do not have or have failed to provide proper title documents. In the event of a dispute related to the legal title of any of these properties, our consolidated affiliated entities could be compelled to vacate the properties on short notice and relocate to different facilities. As a result, the operations of our consolidated affiliated entities could be adversely affected if the aforementioned relocation(s) could not be completed efficiently and in a timely manner.

Risks Related to Our Corporate Structure and the Regulation of our Business

If the PRC government finds that the agreements that establish the structure for operating our services in China do not comply with PRC governmental restrictions on foreign investment in internet businesses, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.

Current PRC laws and regulations place certain restrictions on foreign ownership of companies that engage in internet businesses, including the provision of social networking services, online advertising services, online game services and online video services. Specifically, foreign ownership of internet service providers or other value-added telecommunication service providers may not exceed 50%. In addition, according to the Several Opinions on the Introduction of Foreign Investment in the Cultural Industry promulgated by the Ministry of Culture, the State Administration of Radio, Film and Television, or the SARFT, the General Administration of Press and Publication, or the GAPP, the National Development and Reform Commission and the Ministry of Commerce in June 2005, foreign investors are prohibited from investing in or operating any internet cultural operating entities.

We conduct our operations in China principally through three sets of contractual arrangements. The first set of contractual arrangements is among our wholly owned PRC subsidiary, Qianxiang Shiji Technology Development (Beijing) Co., Ltd., or Qianxiang Shiji, and its consolidated affiliated entity, Beijing Qianxiang Tiancheng Technology Development Co., Ltd., or Qianxiang Tiancheng, and Qianxiang Tiancheng's shareholders. Qianxiang Tiancheng's wholly owned subsidiaries include Beijing Qianxiang Wangjing Technology Development Co., Ltd., or Qianxiang Wangjing, Shanghai Qianxiang Changda Internet Information Technology Development Co., Ltd., or Qianxiang Changda, and Beijing Nuomi Wang Technology Development Co., Ltd., or Beijing Nuomi. Qianxiang Wangjing is the operator of our renren.com website and holds the licenses and permits necessary to conduct our SNS, online advertising and online games business in China

Edgar Filing: Renren Inc. - Form 20-F

(other than in Shanghai Municipality), Qianxiang Changda is an online advertising company that holds the licenses and permits necessary to conduct our SNS services in China, and Beijing Nuomi is the operator of our nuomi.com website and holds the licenses and permits that we believe are necessary to conduct our social commerce business in China.

Table of Contents

The second set of contractual arrangements is among our wholly owned PRC subsidiary, Beijing Wole Information Technology Co., Ltd., or Wole Technology, and Wole Technology's consolidated affiliated entity, Guangzhou Qianjun Internet Technology Co., Ltd., or Qianjun Technology, and its shareholders. Qianjun Technology is the operator of our 56.com website and holds the licenses and permits necessary to conduct our online video services in China. Beijing Wole Shijie Information Technology Co., Ltd., or Wole Shijie, is a wholly owned subsidiary of Qianjun Technology and is the operator of our quanquan.net website.

The third set of contractual arrangements is among our wholly owned PRC subsidiary, Renren Games Network Technology Development (Shanghai) Co., Ltd., or Renren Network, and its consolidated affiliated entity, Shanghai Renren Games Technology Development Co., Ltd., or Renren Games, and Renren Games's shareholders. Renren Games is the operator of our online games website and holds the licenses and permits necessary to conduct our online game services in China. Suzhou Sijifeng Internet Information Technology Development Co., Ltd., or Suzhou Sijifeng, is a wholly owned subsidiary of Renren Games and is the developer and provider of designs and other games-related technologies for Renren Games.

Our contractual arrangements with Qianxiang Tiancheng, Qianjun Technology, Renren Games and their respective shareholders enable us to exercise effective control over Qianxiang Tiancheng, Qianjun Technology, Renren Games and their respective subsidiaries, and hence we treat Qianxiang Tiancheng, Qianjun Technology, Renren Games and their respective subsidiaries as our consolidated affiliated entities and consolidate their results. For a detailed discussion of these contractual arrangements, see Item 4.C Information on the Company Organizational Structure Contractual Arrangements with Our Consolidated Affiliated Entities.

On September 28, 2009, the GAPP, together with the National Copyright Administration and the National Office of Combating Pornography and Illegal Publications, jointly issued a Notice on Further Strengthening the Administration of Pre-examination and Approval of Online Games and the Examination and Approval of Imported Online Games, or the GAPP Notice. The GAPP Notice restates that foreign investors are not permitted to invest in online game-operating businesses in China via wholly owned, equity joint venture or cooperative joint venture investments and expressly prohibits foreign investors from gaining control over or participating in domestic online game operators through indirect ways such as establishing other joint venture companies or contractual or technical arrangements. However, the GAPP Notice does not provide any interpretation of the term "foreign investors" or make a distinction between foreign online game companies and companies with a corporate structure similar to ours (including those listed Chinese internet companies that focus on online game operation). Thus, it is unclear whether the GAPP will deem our corporate structure and operations to be in violation of these provisions.

Based on the advice of TransAsia Lawyers, our PRC legal counsel, the corporate structure of our consolidated affiliated entities and our subsidiaries in China comply with all existing PRC laws and regulations. However, as there are substantial uncertainties regarding the interpretation and application of PRC laws and regulations (including the MIIT Notice and the GAPP Notice described above), we cannot assure you that the PRC government would agree that our corporate structure or any of the above contractual arrangements comply with PRC licensing, registration or other regulatory requirements, with existing policies or with requirements or policies that may be adopted in the future. PRC laws and regulations governing the validity of these contractual arrangements are uncertain and the relevant government authorities have broad discretion in interpreting these laws and regulations. If the PRC government determines that we do not comply with applicable laws and regulations, it could:

- revoke the business and operating licenses of our subsidiaries, our consolidated affiliated entities and their subsidiaries;
- discontinue or restrict any related-party transactions among our subsidiaries, our consolidated affiliated entities and their subsidiaries;

Edgar Filing: Renren Inc. - Form 20-F

- impose fines on us or impose additional conditions or requirements on us with which we may not be able to comply;
- require us to revise our ownership structure or restructure our operations; and
- restrict or prohibit our use of the proceeds of any additional public offering to finance our business and operations in China.

Table of Contents

The imposition of any of these penalties may result in a material and adverse effect on our ability to conduct our business. If any of these penalties results in our inability to direct the activities of our consolidated affiliated entities and the subsidiaries that most significantly impact their economic performance, or results in our failure to receive the economic benefits from our consolidated affiliated entities and their subsidiaries, we may not be able to consolidate the consolidated affiliated entities and their subsidiaries in our consolidated financial statements in accordance with U.S. GAAP. In the fiscal years ended December 31, 2010, 2011 and 2012, our consolidated affiliated entities and their subsidiaries contributed in the aggregate 100%, 99.5% and 99.2%, respectively, of our consolidated net revenues.

We rely on contractual arrangements with consolidated affiliated entities for our China operations, which may not be as effective in providing operational control as direct ownership. Any failure by our affiliated entities or their respective shareholders to perform their obligations under our contractual arrangements with them would have a material adverse effect on our business and financial condition.

We have relied and expect to continue to rely on contractual arrangements with our affiliated entities to operate our businesses in China. For a description of these contractual arrangements, see Item 4.C Information on the Company Organizational Structure Contractual Arrangements with Our Consolidated Affiliated Entities. These contractual arrangements may not be as effective in providing us with control over these affiliated entities as direct ownership. If we had direct ownership of our consolidated affiliated entities, we would be able to exercise our rights as a shareholder to effect changes in the board of directors of each of these entities, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level. However, under the current contractual arrangements, we rely on the performance by our consolidated affiliated entities and their respective shareholders of their obligations under their respective contracts to exercise control over our affiliated entities. Therefore, our contractual arrangements with our affiliated entities may not be as effective in ensuring our control over our China operations as direct ownership would be.

If our consolidated affiliated entities or their respective shareholders fail to perform their respective obligations under the contractual arrangements of which they are a party, we may have to incur substantial costs and resources to enforce our rights under the contracts, and rely on legal remedies under PRC law, including seeking specific performance or injunctive relief and claiming damages, which may not be effective. For example, if the shareholders of our consolidated affiliated entities were to refuse to transfer their equity interests in our consolidated affiliated entities to us or our designee when we exercise the call option pursuant to these contractual arrangements, or if they were otherwise to act in bad faith toward us, then we may have to take legal action to compel them to perform their respective contractual obligations.

All of these contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in the PRC. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal system in the PRC is not as developed as in other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. Under PRC law, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and the prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would incur additional expenses and delay. In the event we are unable to enforce these contractual arrangements, we may not be able to exert effective control over our affiliated entities, and our ability to conduct our business may be severely and negatively affected.

Contractual arrangements our subsidiaries have entered into with our consolidated affiliated entities may be subject to scrutiny by the PRC tax authorities, and a finding that we or our consolidated affiliated entities owe additional taxes could substantially reduce our consolidated net income and the value of your investment.

Edgar Filing: Renren Inc. - Form 20-F

Under PRC laws and regulations, arrangements and transactions between related parties may be subject to audit or challenge by the PRC tax authorities within ten years after the taxable year when the transactions are conducted. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements between our wholly owned subsidiaries in China and our consolidated affiliated entities in China do not represent arm's-length prices and consequently adjust our consolidated affiliated entities' income in the form of a transfer pricing adjustment. A transfer pricing adjustment could, among other things, result in a reduction of expense deductions recorded by our consolidated affiliated entities for PRC tax purposes, which could in turn increase their respective tax liabilities. In addition, the PRC tax authorities may impose late payment fees and other penalties on our consolidated affiliated entities for any unpaid taxes. Our consolidated net income may be materially and adversely affected if our affiliated entities' tax liabilities increase or if they are subject to late payment fees or other penalties.

Table of Contents

The shareholders of our consolidated affiliated entities may have potential conflicts of interest with us, which may materially and adversely affect our business.

The shareholders of our consolidated affiliated entities include Ms. Jing Yang and Mr. James Jian Liu, who are the shareholders of Qianxiang Tiancheng, Mr. Sheng Liang and Ms. Juan Zhou, who are the shareholders of Qianjun Technology, and Mr. Chuan He and Mr. James Jian Liu, who are the shareholders of Renren Games. Ms. Yang is the wife of Mr. Joseph Chen, our founder, chairman and chief executive officer. Mr. Liu is our executive director and chief operating officer. Mr. Liang is an employee of our company. Ms. Zhou is a vice president of our company. Mr. He is our senior vice president for games.

Conflicts of interest may arise between the dual roles of Mr. Liu, Mr. Liang, Ms. Zhou and Mr. He as officers or employees of our company and as shareholders of our consolidated affiliated entities. Conflicts of interest may also arise between the interests of Ms. Yang as a shareholder of Qianxiang Tiancheng and as the wife of our founder and chief executive officer. Furthermore, if Ms. Yang experiences domestic conflict with Mr. Chen, she may have little or no incentive to act in the interest of our company, and she may not perform her obligations under the contractual arrangements she has entered into with Qianxiang Shiji.

Officers of our company owe a duty of loyalty and care to our company and to our shareholders as a whole under Cayman Islands law. We cannot assure you, however, that when conflicts arise, shareholders of our consolidated affiliated entities will act in the best interests of our company or that conflicts will be resolved in our favor. If we cannot resolve any conflicts of interest or disputes between us and these shareholders, we would have to rely on legal proceedings, which may be expensive, time-consuming and disruptive to our operations. There is also substantial uncertainty as to the outcome of any such legal proceedings.

We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have. Any limitation on the ability of our PRC subsidiaries to pay dividends to us could have a material adverse effect on our ability to conduct our business.

We are a holding company, and we may rely on dividends and other distributions on equity to be paid by our wholly owned PRC subsidiaries, particularly Qianxiang Shiji, Wole Technology and Renren Network, for our cash and financing requirements, including the funds necessary to pay dividends and other cash distributions to our shareholders and service any debt we may incur. If our wholly owned PRC subsidiaries incur debt on their own behalf in the future, the instruments governing the debt may restrict their ability to pay dividends or make other distributions to us.

Under PRC laws and regulations, wholly foreign-owned enterprises in the PRC such as Qianxiang Shiji, Wole Technology and Renren Network may pay dividends only out of their accumulated profits as determined in accordance with PRC accounting standards and regulations. In addition, a wholly foreign-owned enterprises such as Qianxiang Shiji, Wole Technology and Renren Network are required to set aside at least 10% of their accumulated after-tax profits each year, if any, to fund certain statutory reserve funds, until the aggregate amount of such a fund reaches 50% of their registered capital. At their discretion, they may allocate a portion of their after-tax profits based on PRC accounting standards to staff welfare and bonus funds. These reserve funds and staff welfare and bonus funds are not distributable as cash dividends.

Edgar Filing: Renren Inc. - Form 20-F

Any limitation on the ability of our wholly owned PRC subsidiaries to pay dividends or make other distributions to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends, or otherwise fund and conduct our business. See [Risks Related to Doing Business in China](#) Our global income and the dividends that we may receive from our PRC subsidiaries, dividends distributed to our non-PRC shareholders and ADS holders, and gain realized by such shareholders or ADS holders, may be subject to PRC taxes under the Enterprise Income Tax Law, which would have a material adverse effect on our results of operations.

Table of Contents

PRC regulation of loans to, and direct investment in, PRC entities by offshore holding companies and governmental control of currency conversion may restrict or prevent us from using the proceeds of our initial public offering to make loans to our PRC subsidiaries and consolidated affiliated entities or to make additional capital contributions to our PRC subsidiaries, which may materially and adversely affect our liquidity and our ability to fund and expand our business.

We are an offshore holding company conducting our operations in China through our PRC subsidiaries and consolidated affiliated entities. We may make loans to our PRC subsidiaries and consolidated affiliated entities, or we may make additional capital contributions to our PRC subsidiaries.

Any loans by us to our PRC subsidiaries, which are treated as foreign-invested enterprises under PRC law, are subject to PRC regulations and foreign exchange loan registrations. For example, loans by us to our wholly owned PRC subsidiaries to finance their activities cannot exceed statutory limits and must be registered with the local counterpart of the State Administration of Foreign Exchange, or SAFE. If we decide to finance our wholly owned PRC subsidiaries by means of capital contributions, these capital contributions must be approved by the Ministry of Commerce or its local counterpart. Due to the restrictions imposed on loans in foreign currencies extended to any PRC domestic companies, we are not likely to make such loans to our consolidated affiliated entities, which are PRC domestic companies. Further, we are not likely to finance the activities of our consolidated affiliated entities by means of capital contributions due to regulatory restrictions relating to foreign investment in PRC domestic enterprises engaged in social networking services, online advertising, online games, online video and related businesses.

On August 29, 2008, SAFE promulgated the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, or SAFE Circular 142, regulating the conversion by a foreign-invested enterprise of foreign currency registered capital into RMB by restricting how the converted RMB may be used. SAFE Circular 142 provides that the RMB capital converted from foreign currency registered capital of a foreign-invested enterprise may only be used for purposes within the business scope approved by the applicable governmental authority and may not be used for equity investments within the PRC. In addition, SAFE strengthened its oversight of the flow and use of the RMB capital converted from foreign currency registered capital of a foreign-invested company. The use of such RMB capital may not be altered without SAFE approval, and such RMB capital may not in any case be used to repay RMB loans if the proceeds of such loans have not been used. Violations of SAFE Circular 142 could result in severe monetary or other penalties. Furthermore, SAFE promulgated a circular on November 19, 2010, known as Circular No. 59, which tightens the examination of the authenticity of settlement of net proceeds from our initial public offering and requires that the settlement of net proceeds shall be in accordance with the description in the prospectus included in our registration statement on Form F-1 (Registration No. 333-173548), which was filed with the U.S. Securities and Exchange Commission, or SEC, in connection with our initial public offering.

In light of the various requirements imposed by PRC regulations on loans to and direct investment in PRC entities by offshore holding companies, including SAFE Circular 142, we cannot assure you that we will be able to complete the necessary government registrations or obtain the necessary government approvals on a timely basis, if at all, with respect to future loans by us to our PRC subsidiaries or consolidated affiliated entities or with respect to future capital contributions by us to our PRC subsidiaries. If we fail to complete such registrations or obtain such approvals, our ability to use the proceeds we received from our initial public offering and to capitalize or otherwise fund our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

Changes in government policies or regulations may have material and adverse impact on our business, financial condition and results of operations.

Edgar Filing: Renren Inc. - Form 20-F

Our real name social networking services, online games and online video businesses are subject to strict government regulations in the PRC. Under the current PRC regulatory scheme, a number of regulatory agencies, including the MIIT, the Ministry of Culture, the GAPP, the SARFT and the State Council Information Office jointly regulate all major aspects of the internet industry, including the SNS, online game and online video industries. Operators must obtain various government approvals and licenses prior to the commencement of SNS, online game and online video operations, including an internet content provider license, or ICP license, an online culture operating permit, a value-added telecommunication services license, an internet publishing license and an internet audio/video program transmission license.

Table of Contents

We have obtained a value-added telecommunication service license, an ICP license, an online culture operating permit, and an online drug information license for online games and advertisements on our SNS website. In addition, Qianxiang Changda has obtained an internet publishing license, permitting it to engage in internet game publication activities. In connection with the corporate restructuring of our online games business, which was completed in March 2013, we have obtained an online culture operating permit and an ICP license for the online games business. We have filed with the GAPP and the Ministry of Culture certain online games that we developed and the imported games available on our SNS website, and will continue to make such filings for these types of games. However, we cannot assure you that our understanding of the applicability and scope of such filings and filing requirements is correct, as the interpretation and enforcement of the applicable laws and regulations by the GAPP and the Ministry of Culture are still evolving. If our current practices are challenged by the GAPP and any of our online games fail to be examined and filed by relevant authorities or are found to be in violation of applicable laws, we may be subject to various penalties, including fines and the discontinuation of or restrictions on our operations. We have obtained an ICP license for the social commerce services provided on our social commerce services website, nuomi.com. We have obtained an ICP license, internet audio/video program transmission license, online culture operating permit, internet drug information service permit, and a permit for radio and television program production and operation on our online video website, 56.com.

If the PRC government promulgates new laws and regulations that require additional licenses or imposes additional restrictions on the operation of SNS, online games, social commerce, online video and/or other services we plan to launch, to the extent we may not be able to obtain these licenses, our results of operations may be materially and adversely affected. In addition, the PRC government may promulgate regulations restricting the types and content of advertisements that may be transmitted online, which could have a direct adverse impact on our business.

Currently there is no law or regulation specifically governing virtual asset property rights and therefore it is not clear what liabilities, if any, online game operators may have for virtual assets.

In the course of playing online games, some virtual assets, such as special equipment and other accessories, are acquired and accumulated. Such virtual assets can be important to online game players and have monetary value and in some cases are sold among players for actual money. In practice, virtual assets can be lost for various reasons, often through unauthorized use of the game account of one user by other users and occasionally through data loss caused by a delay of network service, a network crash or hacking activities. Currently, there is no PRC law or regulation specifically governing virtual asset property rights. As a result, there is uncertainty as to who is the legal owner of virtual assets, whether and how the ownership of virtual assets is protected by law, and whether an operator of online games such as us would have any liability to game players or other interested parties (whether in contract, tort or otherwise) for loss of such virtual assets. In case of a loss of virtual assets, we may be sued by our game players and held liable for damages, which may negatively affect our reputation and business, financial condition and results of operations.

Based on recent PRC court judgments, the courts have typically held online game operators liable for losses of virtual assets by game players, and in some cases have allowed online game operators to return the lost virtual items to game players in lieu of paying damages.

Compliance with the laws or regulations governing virtual currency may result in us having to obtain additional approvals or licenses or change our current business model.

The issuance and use of virtual currency in the PRC has been regulated since 2007 in response to the growth of the online games industry in China. In January 2007, the Ministry of Public Security, the Ministry of Culture, the MIIT and the GAPP jointly issued a circular regarding online gambling which has implications for the use of virtual currency. To curtail online games that involve online gambling, as well as address concerns that virtual currency could be used for money laundering or illicit trade, the circular (i) prohibits online game operators from charging

Edgar Filing: Renren Inc. - Form 20-F

commissions in the form of virtual currency in relation to winning or losing of games; (ii) requires online game operators to impose limits on use of virtual currency in guessing and betting games; (iii) bans the conversion of virtual currency into real currency or property; and (iv) prohibits services that enable game players to transfer virtual currency to other players. In February 2007, 14 PRC regulatory authorities jointly promulgated a circular to further strengthen the oversight of internet cafes and online games.

Table of Contents

On June 4, 2009, the Ministry of Culture and the Ministry of Commerce jointly issued the Notice on the Strengthening of Administration on Online Game Virtual Currency, or the Virtual Currency Notice, regarding strengthening the administration of online game virtual currency. The Ministry of Culture issued the Interim Measures for Online Game Administration, effective August 1, 2010, which provide, among other things, that virtual currency issued by online game operators may be only used to exchange its own online game products and services and may not be used to pay for the products and services of other entities.

We issue virtual currency to game players for them to purchase various virtual items or time units to be used in our online games. We have adjusted the content of our online games, but we cannot assure you that our adjustments will be sufficient to comply with the Virtual Currency Notice. Moreover, although we believe we do not offer online game virtual currency transaction services, we cannot assure you that the PRC regulatory authorities will not take a view contrary to ours. For example, certain virtual items we issue to users based on in-game milestones they achieve or time spent playing games are transferable and exchangeable for our virtual currency or the other virtual items we issue to users. If the PRC regulatory authorities deem such transfer or exchange to be a virtual currency transaction, then in addition to being deemed to be engaged in the issuance of virtual currency, we may also be deemed to be providing transaction platform services that enable the trading of such virtual currency. Simultaneously engaging in both of these activities is prohibited under the Virtual Currency Notice. In that event, we may be required to cease either our virtual currency issuance activities or such deemed transaction service activities and may be subject to certain penalties, including mandatory corrective measures and fines. The occurrence of any of the foregoing could have a material adverse effect on our business and results of operations.

In addition, the Virtual Currency Notice prohibits online game operators from setting game features that involve the direct payment of cash or virtual currency by players for the chance to win virtual items or virtual currency based on random selection through a lucky draw, wager or lottery. The notice also prohibits game operators from issuing currency to game players through means other than purchases with legal currency. It is unclear whether these restrictions would apply to certain aspects of our online games. Although we believe that we do not engage in any of the above-mentioned prohibited activities, we cannot assure you that the PRC regulatory authorities will not take a view contrary to ours and deem such feature as prohibited by the Virtual Currency Notice, thereby subjecting us to penalties, including mandatory corrective measures and fines. The occurrence of any of the foregoing could materially and adversely affect our business and results of operations.

If we are required to pay U.S. taxes, the value of your investment in our company could be substantially reduced.

If, pursuant to a plan or a series of related transactions, a non-United States corporation, such as our company, acquires substantially all of the assets of a United States corporation, and after the acquisition 80% or more of the stock, by vote or value, of the non-United States corporation, excluding stock issued in a public offering related to the acquisition, is owned by former shareholders of the United States corporation by reason of their ownership of the United States corporation, the non-United States corporation will be considered a United States corporation for United States federal income tax purposes. Based on our analysis of the facts related to our corporate restructuring in 2005 and 2006, we do not believe that we should be treated as a United States corporation for United States federal income tax purposes. However, as there is no direct authority on how the relevant rules of the Internal Revenue Code might apply to us, our company's conclusion is not free from doubt. Therefore, our conclusion may be challenged by the United States tax authorities and a finding that we owe additional United States taxes could substantially reduce the value of your investment in our company. You are urged to consult your tax advisor concerning the income tax consequences of purchasing, holding or disposing of ADSs or ordinary shares if we were to be treated as a United States domestic corporation for United States federal income tax purposes.

Our operations may be adversely affected by the implementation of anti-fatigue-related regulations.

Edgar Filing: Renren Inc. - Form 20-F

The PRC government may decide to adopt more stringent policies to monitor the online games industry as a result of adverse public reaction to perceived addiction to online games, particularly by minors. On April 15, 2007, eight PRC government authorities, including the GAPP, the Ministry of Education and the MIIT issued a notice requiring all Chinese online game operators to adopt an anti-fatigue system in an effort to curb addiction to online games by minors. Under the anti-fatigue system, three hours or less of continuous play is defined to be healthy, three to five hours is defined to be fatiguing, and five hours or more is defined to be unhealthy. Online games operators are required to reduce the value of game benefits for minor game players by half when those game players reach the fatiguing level, and to zero when they reach the unhealthy level. In addition, online game players in China are now required to register their identity card numbers before they can play an online game. This system allows game operators to identify which game players are minors. On July 1, 2011, the GAPP, the MIIT, the Ministry of Education and five other governmental authorities issued a Notice on Initializing the Verification of Real-name Registration for Anti-Fatigue System on Internet Games, or the Real-name Registration Notice, which took effect on October 1, 2011, to strengthen the implementation of the anti-fatigue system and real-name registration. The Real-name Registration Notice's main focus is to prevent minors from using an adult's ID to play internet games and, accordingly, the Real-name Registration Notice imposes stringent punishments on online game operators that do not implement the required anti-fatigue and real-name registration measures properly and effectively. These restrictions could limit our ability to increase our online games business among minors. Furthermore, if these restrictions were expanded to apply to adult game players in the future, our online games business could be materially and adversely affected.

Risks Related to Doing Business in China

Changes in China's economic, political or social conditions or government policies could have a material adverse effect on our business and operations.

Substantially all of our assets and operations are located in China. Accordingly, our business, financial condition, results of operations and prospects may be influenced to a significant degree by political, economic and social conditions in China generally and by continued economic growth in China as a whole.

The Chinese economy differs from the economies of most developed countries in many respects, including the level of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. Although the PRC government has implemented measures since the late 1970s emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets, and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy, and providing preferential treatment to particular industries or companies.

While the Chinese economy has experienced significant growth over the past decades, growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures may benefit the overall Chinese economy, but may have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations. In addition, in the past few years, the PRC government has implemented certain measures, including interest rate increases, to control the pace of economic growth. These measures may cause decreased economic activity in China, which may adversely affect our business and operating results.

Uncertainties with respect to the PRC legal system could adversely affect us.

We conduct our business primarily through our PRC subsidiaries and consolidated affiliated entities in China. Our operations in China are governed by PRC laws and regulations. Our PRC subsidiaries are foreign-invested enterprises and are subject to laws and regulations applicable to foreign investment in China and, in particular, laws applicable to foreign-invested enterprises. The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions may be cited for reference but have limited precedential value.

In 1979, the PRC government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. The overall effect of legislation over the past three decades has significantly enhanced the protections afforded to various forms of foreign investments in China. However, China has not developed a fully integrated legal system, and recently enacted laws and regulations may not sufficiently cover all aspects of economic activities in China. In particular, the interpretation and enforcement of these laws and regulations involve uncertainties. Since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory and contractual terms, it may be difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy.

Edgar Filing: Renren Inc. - Form 20-F

For example, China enacted an Anti-Monopoly Law that became effective on August 1, 2008. Because the Anti-Monopoly Law and related regulations have been in effect for only a few years, there have been very few court rulings or judicial or administrative interpretations on certain key concepts used in the law. As a result, there is uncertainty how the enforcement and interpretation of the new Anti-Monopoly Law may affect our business and operations.

Table of Contents

Furthermore, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all, which may have a retroactive effect. As a result, we may not be aware of our violation of any of these policies and rules until sometime after the violation. In addition, any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention.

We may be adversely affected by the complexity, uncertainties and changes in PRC regulation of internet business and companies.

The PRC government extensively regulates the internet industry, including foreign ownership of, and the licensing and permit requirements pertaining to, companies in the internet industry. These internet-related laws and regulations are relatively new and evolving, and their interpretation and enforcement involve significant uncertainty. As a result, in certain circumstances it may be difficult to determine what actions or omissions may be deemed to be violations of applicable laws and regulations. Issues, risks and uncertainties relating to PRC government regulation of the internet industry include, but are not limited to, the following:

- We only have contractual control over our websites. We do not own the websites due to the restriction of foreign investment in businesses providing value-added telecommunication services in China, including internet content provision services. This may significantly disrupt our business, subject us to sanctions, compromise enforceability of related contractual arrangements, or have other harmful effects on us.
- There are uncertainties relating to the regulation of the internet industry in China, including evolving licensing practices. This means that permits, licenses or operations at some of our companies may be subject to challenge, or we have failed to obtain permits or licenses that applicable regulators may deem necessary for our operations or we may not be able to obtain or renew certain permits or licenses to maintain their validity. The major permits and licenses that could be involved include the ICP license, the online culture operating permit, the value-added telecommunication services operation permit, the internet publishing license and the internet audio/video program transmission license.
- New laws and regulations may be promulgated that will regulate internet activities, including social networking services, online games, online advertising and online video businesses. If these new laws and regulations are promulgated, additional licenses may be required for our operations. If our operations do not comply with these new regulations at the time they become effective, or if we fail to obtain any licenses required under these new laws and regulations, we could be subject to penalties.

On July 13, 2006, the MIIT, the predecessor of which is the Ministry of Information Industry, issued the Notice of the Ministry of Information Industry on Intensifying the Administration of Foreign Investment in Value-added Telecommunications Services. This notice prohibits domestic telecommunication services providers from leasing, transferring or selling telecommunications business operating licenses to any foreign investor in any form, or providing any resources, sites or facilities to any foreign investor for their illegal operation of a telecommunications business in China. According to this notice, either the holder of a value-added telecommunication services operation permit or its shareholders must directly own the domain names and trademarks used by such license holders in their provision of value-added telecommunication services. The notice also requires each license holder to have the necessary facilities, including servers, for its approved business operations and to maintain such facilities in the regions covered by its license. Currently, our PRC consolidated affiliated entities own the related domain names and trademarks and hold the ICP licenses necessary to conduct our operations for websites in China.

Edgar Filing: Renren Inc. - Form 20-F

The interpretation and application of existing PRC laws, regulations and policies and possible new laws, regulations or policies relating to the internet industry have created substantial uncertainties regarding the legality of existing and future foreign investments in, and the businesses and activities of, internet businesses in China, including our business. We cannot assure you that we have obtained all the permits or licenses required for conducting our business in China or will be able to maintain our existing licenses or obtain any new licenses if required by any new laws or regulations. There are also risks that we may be found to violate the existing or future laws and regulations given the uncertainty and complexity of China's regulation of the internet industry.

Table of Contents

Fluctuations in exchange rates could have a material adverse effect on our results of operations and the value of your investment.

Substantially all of our revenues and costs are denominated in RMB. The value of the RMB against the U.S. dollar and other currencies is affected by, among other things, changes in China's political and economic conditions and China's foreign exchange policies. The conversion of Renminbi into foreign currencies, including U.S. dollars, is based on rates set by the People's Bank of China. The PRC government allowed the Renminbi to appreciate by more than 20% against the U.S. dollar between July 2005 and July 2008. Between July 2008 and June 2010, this appreciation was halted and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. Since June 2010, the PRC government has allowed the Renminbi to appreciate slowly against the U.S. dollar again, though there have been periods when the U.S. dollar has appreciated against the Renminbi as well. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future.

There remains significant international pressure on the PRC government to adopt a substantial liberalization of its currency policy, which could result in further appreciation in the value of the RMB against the U.S. dollar. To the extent that we need to convert U.S. dollars into RMB for capital expenditures and working capital and other business purposes, appreciation of the RMB against the U.S. dollar would have an adverse effect on the RMB amount we would receive from the conversion. Conversely, if we decide to convert RMB into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs, strategic acquisitions or investments or other business purposes, appreciation of the U.S. dollar against the RMB would have a negative effect on the U.S. dollar amount available to us.

Very limited hedging options are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedges may be limited and we may not be able to adequately hedge our exposure or at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert RMB into foreign currency. As a result, fluctuations in exchange rates may have a material adverse effect on your investment.

Governmental control of currency conversion may limit our ability to utilize our revenues effectively and affect the value of your investment.

The PRC government imposes controls on the convertibility of the RMB into foreign currencies and, in certain cases, the remittance of currency out of China. We receive substantially all of our revenues in RMB. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior SAFE approval by complying with certain procedural requirements. Therefore, Qianxiang Shiji, Wole Technology and Renren Network are able to pay dividends in foreign currencies to us without prior approval from SAFE. However, approval from or registration with appropriate government authorities is required where RMB is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may also at its discretion restrict access to foreign currencies for current account transactions in the future. If the foreign exchange control system prevents us from obtaining sufficient foreign currencies to satisfy our foreign currency demands, we may not be able to pay dividends in foreign currencies to our shareholders, including holders of our ADSs.

The M&A rules establish complex procedures for some acquisitions of Chinese companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.

Edgar Filing: Renren Inc. - Form 20-F

Six PRC regulatory agencies promulgated regulations effective on September 8, 2006 that are commonly referred to as the M&A Rules. The M&A Rules establish procedures and requirements that could make some acquisitions of Chinese companies by foreign investors more time-consuming and complex, including requirements in some instances that the Ministry of Commerce be notified in advance of any change-of-control transaction in which a foreign investor takes control of a Chinese domestic enterprise. We may expand our business in part by acquiring complementary businesses, as we had done in the acquisition of 56.com in October 2011. Complying with the requirements of the M&A Rules to complete such transactions could be time-consuming, and any required approval processes, including obtaining approval from the Ministry of Commerce, may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share.

Table of Contents

Certain regulations in the PRC may make it more difficult for us to pursue growth through acquisitions.

The Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors, which became effective in September 2006 and was amended in June 2009, established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time-consuming and complex. This regulation requires, among other things, that the Ministry of Commerce be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise or a foreign company with substantial PRC operations, if certain thresholds under the Provisions on Thresholds for Prior Notification of Concentrations of Undertakings, issued by the State Council in August 2008, are triggered. According to the Implementing Rules Concerning Security Review on the Mergers and Acquisitions by Foreign Investors of Domestic Enterprises issued by the Ministry of Commerce in August 2011, mergers and acquisitions by foreign investors involved in an industry related to national security are subject to strict review by the Ministry of Commerce. These rules also prohibit any transactions attempting to bypass such security review, including by controlling entities through contractual arrangements. We believe that our business is not in an industry related to national security. However, we cannot assure you that the Ministry of Culture or other government agencies will not publish interpretations contrary to our understanding or broaden the scope of such security review in the future.

We may grow our business in part by directly acquiring complementary businesses in China. Complying with the requirements of these regulations to complete such transactions could be time-consuming, and any required approval processes, including obtaining approval from the Ministry of Commerce, may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share.

PRC regulations relating to the establishment of offshore holding companies by PRC residents may subject our PRC resident beneficial owners or our PRC subsidiaries to liability or penalties, limit our ability to inject capital into our PRC subsidiaries, limit our PRC subsidiaries' ability to increase their registered capital or distribute profits to us, or may otherwise adversely affect us.

SAFE has promulgated several regulations, including the Notice on Issues Relating to the Administration of Foreign Exchange in Fund-Raising and Round-trip Investment Activities of Domestic Residents Conducted via Offshore Special Purpose Companies, or SAFE Circular 75, issued on November 1, 2005. To further clarify and simplify the implementation of SAFE Circular 75, SAFE issued Implementing Rules Relating to the Administration of Foreign Exchange in Fund-Raising and Round-trip Investment Activities of Domestic Residents Conducted via Offshore Special Purpose Companies, or SAFE Circular 19 on May 20, 2011, which came into effect on July 1, 2011. These regulations require PRC residents and PRC corporate entities to register with local branches of SAFE in connection with their direct or indirect offshore investment activities. These regulations apply to our shareholders who are PRC residents by virtue of their establishment or their maintaining a controlling interest in our company, and may apply to any offshore acquisitions that we make in the future.

Mr. Joseph Chen, our founder, chairman and chief executive officer, is not a PRC citizen, but resides in China and has established and maintains a major shareholding in our company. Based on our oral inquiry with the relevant local branch of SAFE, the requirements for registration under SAFE Circular 75 are not applicable to Mr. Chen.

Mr. James Jian Liu, our executive director and chief operating officer, and a few other senior management personnel of our company, all of whom are PRC residents, became shareholders of our company as a result of the exercise of employee share options. Based on our inquiry with the relevant local branch of SAFE, any application to such local SAFE branch with respect to the registration of Mr. Liu and the other PRC resident shareholders' holdings of shares in our offshore holding company under SAFE Circular 75 and related rules will not be officially

accepted or examined because they became shareholders of our offshore holding company as a result of their exercise of employee share options.

Table of Contents

However, we cannot conclude that SAFE or its local branch responsible for our PRC subsidiary's foreign exchange registrations will not later alter their position on and interpretation of the applicability of these foreign exchange regulations to Mr. Chen, Mr. Liu or the other PRC resident shareholders of our company. In the event that the registration procedures set forth in these foreign exchange regulations becomes applicable to Mr. Chen, Mr. Liu or any of the PRC resident shareholders of our company, we will urge these individuals to file necessary registrations and amendments as required under SAFE Circular 75 and related rules. However, we cannot assure you that all of these individuals can successfully file or update any applicable registration or obtain the necessary approval required by these foreign exchange regulations. We can provide no assurance that we will in the future continue to be informed of the identities of all PRC residents holding direct or indirect interests in our company. The failure or inability of such individuals to comply with the registration procedures set forth in these regulations may subject us to fines or legal sanctions, restrictions on our cross-border investment activities or our PRC subsidiary's ability to distribute dividends to, or obtain foreign-exchange-dominated loans from, our company, or prevent us from making distributions or paying dividends. As a result, our business operations and our ability to make distributions to you could be materially and adversely affected.

Furthermore, as these foreign exchange regulations are still relatively new and their interpretation and implementation has been constantly evolving, it is unclear how these regulations, and any future regulation concerning offshore or cross-border transactions, will be interpreted, amended and implemented by the relevant government authorities. We cannot predict how these regulations will affect our business operations or future strategy. In addition, if we decide to acquire a PRC domestic company, we cannot assure you that we or the owners of such company, as the case may be, will be able to obtain the necessary approvals or complete the necessary filings and registrations required by the foreign exchange regulations. This may restrict our ability to implement our acquisition strategy and could adversely affect our business and prospects.

Any lack of requisite permits for any of our online video content may expose us to regulatory sanctions.

In 2009, SARFT released a Notice on Strengthening the Administration of Online Audio/Video Content, or the SARFT Notice. The SARFT Notice reiterated, among other things, that all movies and television shows released or published online must be in compliance with applicable regulations concerning the administration of radio, film and television. In particular, movies and television shows, whether produced in the PRC or overseas, must be pre-approved by SARFT prior to their release, and distributors of such movies and television shows must obtain an applicable permit prior to their release.

We rely on written representations from the content providers regarding the SARFT approval status of the content licensed to us. Under our content licensing agreements, the content providers generally represent and warrant that (i) they have obtained required approvals and all required permits under applicable laws with respect to the content that they provide and (ii) the content itself, as well as the authorization or rights granted to us, neither breach any applicable laws or regulations nor impair any third party rights. In the event such approvals and permits are not obtained, applicable laws or regulations are breached or third party rights are impaired, we maintain the right to delete such content without any notification to the content providers. Further, if the content providers breach the contract in such a way that the contract can no longer be performed, we maintain the right to terminate the contract and, under the contract, the content providers is required to indemnify us for any actual loss resulting from such breach.

However, we cannot guarantee that the remedies provided under these contracts will be sufficient to compensate us for potential regulatory sanctions imposed by SARFT due to violations of the approval and permit requirements, nor can we ensure that any such sanctions will not adversely affect either the general availability of video content on our website or our reputation. In addition, such risks may persist due to ambiguities and uncertainties relating to the implementation and enforcement of the SARFT Notice.

Failure to comply with PRC regulations regarding the registration requirements for employee share ownership plans or share option plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.

In December 2006, the People's Bank of China promulgated the Administrative Measures of Foreign Exchange Matters for Individuals, which set forth the respective requirements for foreign exchange transactions by individuals (both PRC or non-PRC citizens) under either the current account or the capital account. In January 2007, SAFE issued implementing rules for the Administrative Measures of Foreign Exchange Matters for Individuals, which, among other things, specified approval requirements for certain capital account transactions such as a PRC citizen's participation in the employee share ownership plans or share option plans of an overseas publicly listed company. In March, 2007, SAFE promulgated the Application Procedures of Foreign Exchange Administration for Domestic Individuals Participating in Employee Stock Ownership Plan or Stock Option Plan of Overseas-Listed Company, or the Stock Option Rules.

Table of Contents

In February 2012, SAFE promulgated the Notice on the Administration of Foreign Exchange Matters for Domestic Individuals Participating in the Stock Incentive Plans of Overseas Listed Companies, or the Stock Option Notice. This Stock Option Notice replaced the previous Stock Option Rules. The Stock Option Notice simplifies the requirements and procedures for the registration of stock incentive plan participants, especially in respect of the required application documents and the absence of strict requirements on offshore and onshore custodian banks, as were stipulated in the earlier Stock Option Rules. Under these rules, for PRC resident individuals who participate in stock incentive plans of overseas publicly-listed companies, which includes employee stock ownership plans, stock option plans and other incentive plans permitted by relevant laws and regulations, a PRC domestic qualified agent or the PRC subsidiary of such overseas listed company must, among other things, file, on behalf of such resident, an application with SAFE or its local counterpart to obtain approval for an annual allowance with respect to the purchase of foreign exchange in connection with the stock holding or share option exercises as PRC residents may not directly use overseas funds to purchase shares or exercise share options. In addition, within three months after any substantial changes to any such stock incentive plan, including for example any changes due to merger or acquisition or changes to the domestic or overseas custodian agent, the domestic agent must update the registration with SAFE.

As our company became listed on the NYSE in May 2011, we and our PRC citizen employees who participate in an employee share ownership plan or a share option plan are subject to these regulations. If we or our PRC optionees fail to comply with these regulations, we or our PRC optionees may be subject to fines and other legal or administrative sanctions. See Item 4.B Business Overview Regulation Regulations on Employee Stock Options Plans.

We face uncertainties with respect to indirect transfers of equity interests in PRC resident enterprises by their non-PRC holding companies.

Pursuant to the Notice on Strengthening Administration of Enterprise Income Tax for Share Transfers by Non-PRC Resident Enterprises, or SAT Circular 698, issued by the State Administration of Taxation on December 10, 2009 with retroactive effect from January 1, 2008, where a non-resident enterprise transfers the equity interests of a PRC resident enterprise indirectly via disposing of the equity interests of an overseas holding company, or an Indirect Transfer, and such overseas holding company is located in a tax jurisdiction that: (i) has an effective tax rate less than 12.5% or (ii) does not tax foreign income of its residents, the non-resident enterprise, being the transferor, shall report to the relevant tax authority of the PRC resident enterprise this Indirect Transfer. Using a substance over form principle, the PRC tax authority may disregard the existence of the overseas holding company if it lacks a reasonable commercial purpose and was established for the purpose of reducing, avoiding or deferring PRC tax. As a result, gains derived from such Indirect Transfer may be subject to PRC withholding tax at a rate of up to 10%. SAT Circular 698 also provides that, where a non-PRC resident enterprise transfers its equity interests in a PRC resident enterprise to its related parties at a price lower than the fair market value, the relevant tax authority has the power to make a reasonable adjustment to the taxable income of the transaction.

There is uncertainty as to the application of SAT Circular 698. For example, while the term Indirect Transfer is not clearly defined, it is understood that the relevant PRC tax authorities have jurisdiction regarding requests for information over a wide range of foreign entities having no direct contact with China. Moreover, the relevant authority has not yet promulgated any formal provisions or formally declared or stated how to calculate the effective tax rates in foreign tax jurisdictions, and the process and format of the reporting of an Indirect Transfer to the relevant tax authority of the PRC resident enterprise. In addition, there are not any formal declarations with regard to how to determine whether a foreign investor has adopted an abusive arrangement in order to reduce, avoid or defer PRC tax. SAT Circular 698 may be determined by the tax authorities to be applicable to our private equity financing transactions where non-resident investors were involved, if any of such transactions were determined by the tax authorities to lack reasonable commercial purpose. As a result, we and our non-resident investors in such transactions may become at risk of being taxed under SAT Circular 698 and we may be required to expend valuable resources to comply with SAT Circular 698 or to establish that we should not be taxed under the general anti-avoidance rule of the PRC Enterprise Income Tax Law, which may have a material adverse effect on our financial condition and results of operations or such non-resident investors' investments in us.

Table of Contents

Discontinuation of any of the preferential tax treatments or imposition of any additional taxes could adversely affect our financial condition and results of operations.

The Enterprise Income Tax Law applies a uniform statutory income tax rate of 25% to enterprises in China. The Enterprise Income Tax Law and the implementation rules promulgated under it provide that software enterprises enjoy an income tax exemption for two years beginning with their first profitable year and a 50% tax reduction to a rate of 12.5% for the subsequent three years. Qianxiang Wangjing has been qualified as a software enterprise by the Beijing Municipal Commission of Science and Technology and, accordingly, enjoyed an enterprise income tax rate of 0% for 2010, enjoyed a tax reduction of 50% for 2011 and 2012, and will enjoy a tax reduction of 50% for 2013. Qianxiang Changda has been qualified as a software enterprise by the Beijing Municipal Commission of Science and Technology and, accordingly, was exempt from enterprise income tax rate in 2011 and 2012, and will enjoy a tax reduction of 50% for 2013, 2014 and 2015.

There are uncertainties surrounding the interpretation and implementation of the Enterprise Income Tax Law and its implementation rules. We cannot assure you that the qualification of Qianxiang Wangjing or Qianxiang Changda as a software enterprise by the relevant tax authority will not be challenged in the future by their supervising authorities and be repealed, or that there will not be future implementation rules that are inconsistent with current interpretation of the Enterprise Income Tax Law. If the tax benefits that each of Qianxiang Wangjing and Qianxiang Changda enjoy as a software enterprise are revoked prior to expiration of its term, and we are otherwise unable to qualify Qianxiang Wangjing or Qianxiang Changda for other income tax exemptions or reductions, our effective income tax rate will be adversely affected. In addition, we may have to pay additional taxes to make up any previously unpaid tax. As a result, our results of operations could be materially and adversely affected.

Our global income and the dividends that we may receive from our PRC subsidiaries, dividends distributed to our non-PRC shareholders and ADS holders, and gain recognized by such shareholders or ADS holders, may be subject to PRC taxes under the Enterprise Income Tax Law, which would have a material adverse effect on our results of operations.

Under the Enterprise Income Tax Law and its implementation rules, both of which became effective on January 1, 2008, an enterprise established outside of the PRC with de facto management bodies within the PRC is considered a resident enterprise and will be subject to the enterprise income tax at the rate of 25% on its global income. The implementation rules define the term de facto management bodies as establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. of an enterprise. The State Administration of Taxation issued the Notice Regarding the Determination of Chinese-Controlled Offshore Incorporated Enterprises as PRC Tax Resident Enterprises on the Basis of De Facto Management Bodies, or SAT Circular 82, on April 22, 2009. SAT Circular 82 provides certain specific criteria for determining whether the de facto management body of a Chinese-controlled offshore-incorporated enterprise is located in China. See Item 4.B Business Overview Regulation Regulations on Tax PRC Enterprise Income Tax. Although SAT Circular 82 only applies to offshore enterprises controlled by PRC enterprises, not those controlled by PRC individuals, the determining criteria set forth in Circular 82 may reflect the State Administration of Taxation's general position on how the de facto management body test should be applied in determining the tax resident status of offshore enterprises, regardless of whether they are controlled by PRC enterprises or individuals. Although we do not believe that our legal entities organized outside of the PRC constitute PRC resident enterprises, it is possible that the PRC tax authorities could reach a different conclusion. In such case, we may be considered a resident enterprise and may therefore be subject to enterprise income tax at a rate of 25% on our global income. If we are considered a resident enterprise and earn income other than dividends from our PRC subsidiaries, a 25% enterprise income tax on our global income could significantly increase our tax burden and materially and adversely affect our cash flow and profitability.

Under the PRC enterprise income taxation law applicable to us prior to January 1, 2008, dividend payments to foreign investors made by foreign-invested enterprises in China, such as Qianxiang Shiji, Wole Technology and Renren Network, were exempt from PRC withholding tax. Pursuant to the Enterprise Income Tax Law and its implementation rules, however, dividends generated after January 1, 2008 and payable by a

Edgar Filing: Renren Inc. - Form 20-F

foreign-invested enterprise in China to its foreign investors, which are non-PRC tax resident enterprises without an establishment in China, or whose income has no connection with their institutions and establishments inside China, are subject to withholding tax at a rate of 10%, unless any such foreign investor's jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement. We are a Cayman Islands holding company and we conduct substantially all of our operations in China through contractual arrangements between our wholly owned PRC subsidiaries and our consolidated affiliated entities. As long as our offshore holding companies are considered non-PRC resident enterprises, dividends that they respectively receive from our PRC subsidiaries may be subject to withholding tax at a rate of 10%. See Item 4.B Business Overview Regulation Regulations on Tax Dividends Withholding Tax.

Table of Contents

As uncertainties remain regarding the interpretation and implementation of the Enterprise Income Tax Law and its implementation rules, we cannot assure you that if we are regarded as a PRC resident enterprise, any dividends to be distributed by us to our non-PRC shareholders and ADS holders would not be subject to any PRC withholding tax at a rate of up to 10%. Similarly, any gain recognized by such non-PRC shareholders or ADS holders on the sale of shares or ADSs, as applicable, may also be subject to PRC withholding tax. If we are required under the Enterprise Income Tax Law to withhold PRC income tax on our dividends payable to our non-PRC enterprise shareholders and ADS holders, or on gain recognized by such non-PRC shareholders or ADS holders, such investors' investment in our ordinary shares or ADSs may be materially and adversely affected.

The audit report included in this annual report is prepared by auditors who are not inspected by the Public Company Accounting Oversight Board, and, as such, you are deprived of the benefits of such inspection.

Our independent registered public accounting firm, Deloitte Touche Tohmatsu Certified Public Accountants LLP, as auditors of companies that are publicly traded in the United States and a firm registered with the PCAOB is required by the laws of the United States to undergo regular inspection by the PCAOB to assess its compliance with the laws of the United States and applicable professional standards. Since the PRC is a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the PRC regulatory authorities, the operations in the PRC of our auditor, similar to the PRC operations of other independent registered public accounting firms, is not currently inspected by the PCAOB.

Inspections of other firms that the PCAOB has conducted outside the PRC have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. This lack of PCAOB inspections in the PRC prevents the PCAOB from regularly evaluating our auditor's audits and its quality control procedures. As a result, investors may be deprived of the benefits of the PCAOB inspections.

The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our auditor's audit procedures or quality control procedures as compared to auditors outside of the PRC that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

We may be adversely affected by the outcome of the administrative proceedings brought by the SEC against five accounting firms in China.

Recently, the SEC commenced administrative proceedings under Rule 102(e) of its Rules of Practice and also under the Sarbanes-Oxley Act of 2002 against the Chinese affiliates of five audit firms, including our auditors. The Rule 102(e) proceedings initiated by the SEC relate to these firms' failure to produce documents, including audit workpapers, to the request of the SEC pursuant to Section 106 of the Sarbanes-Oxley Act of 2002, as the auditors located in the PRC are not in a position lawfully to produce documents directly to the SEC because of restrictions under PRC law and specific directives issued by the China Securities Regulatory Commission. As the administrative proceedings are ongoing, it is impossible to determine their outcome or the consequences thereof to us. The issues raised by the proceedings are not specific to our auditors or to us, but affect equally all audit firms based in China and all China-based businesses with securities listed in the United States. However, if the administrative judge were to find in favor of the SEC under the proceeding and depending upon the remedies sought by the SEC, these audit firms could be barred from practicing before the SEC. As a result, listed companies in the United States with major PRC operations, including our company, may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which may result in their delisting. Moreover, any negative news about the proceedings against these audit firms may erode investor confidence in China-based, United States listed companies and the market price of our ADSs may be adversely affected.

Table of Contents

Risks Related to Our ADSs

The market price for our ADSs has fluctuated and may continue to be volatile.

The market price for our ADSs has fluctuated significantly since we first listed our ADSs. Since our ADSs became listed on the NYSE on May 4, 2011, the closing prices of our ADSs have ranged from US\$2.60 to US\$18.01 per ADS, and the last reported trading price on April 22, 2013 was US\$2.60 per ADS.

The market price for our ADSs may be highly volatile and subject to wide fluctuations in response to factors including the following:

- regulatory developments in our industry affecting us, our advertisers or our competitors;
- announcements of studies and reports relating to the quality of our services or those of our competitors;
- changes in the economic performance or market valuations of other companies that provide SNS, online games, online advertising or social commerce services or other internet companies;
- actual or anticipated fluctuations in our quarterly results of operations and changes or revisions of our expected results;
- changes in financial estimates by securities research analysts;
- conditions in the SNS, online game, online advertising and social commerce industries or the internet industry in general;
- announcements by us or our competitors of new services, acquisitions, strategic relationships, joint ventures or capital commitments;
- additions to or departures of our senior management;

- fluctuations of exchange rates between the RMB and the U.S. dollar; and
- sales or perceived potential sales of additional ordinary shares or ADSs.

In addition, the stock market in general, and the market prices for internet-related companies and companies with operations in China in particular, have experienced volatility that often has been unrelated to the operating performance of such companies. The securities of some China-based companies that have listed their securities in the United States have experienced significant volatility since their initial public offerings, including, in some cases, substantial price declines in the trading prices of their securities. The trading performances of these Chinese companies' securities after their offerings may affect the attitudes of investors toward Chinese companies listed in the United States, which consequently may impact the trading performance of our ADSs, regardless of our actual operating performance. In addition, any negative news or perceptions about inadequate corporate governance practices or fraudulent accounting, corporate structure or other matters of other Chinese companies may also negatively affect the attitudes of investors towards Chinese companies in general, including us, regardless of whether we have conducted any inappropriate activities. Further, the global financial crisis and the ensuing economic recessions in many countries have contributed and may continue to contribute to extreme volatility in the global stock markets. These broad market and industry fluctuations may adversely affect operating performance. Volatility or a lack of positive performance in our ADS price may also adversely affect our ability to retain key employees, most of whom have been granted options or other equity incentives.

Our dual-class voting structure will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

We have a dual-class voting structure which consists of Class A ordinary shares and Class B ordinary shares. Subject to certain exceptions, in respect of matters requiring the votes of shareholders, holders of Class A ordinary shares are entitled to one vote per share, while holders of Class B ordinary shares are entitled to ten votes per share. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof, while Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any transfer of Class B ordinary shares by a holder thereof to any person or entity which is not an affiliate of such holder, such Class B ordinary shares shall be automatically and immediately converted into the equal number of Class A ordinary shares.

Table of Contents

We issued Class A ordinary shares represented by our ADSs in our initial public offering in May 2011. Mr. Joseph Chen, our founder, chairman and chief executive officer and SB Pan Pacific Corporation are our only shareholders who hold Class B ordinary shares. Due to the disparate voting powers attached to the two classes of ordinary shares, Mr. Chen and SB Pan Pacific Corporation beneficially own approximately 56.5% and 33.9%, respectively, of the aggregate voting power of our company as of March 31, 2013 and have controlling power over matters requiring shareholder approval, subject to certain exceptions. As between Mr. Chen and SB Pan Pacific Corporation, the approvals of SB Pan Pacific Corporation are required for certain important matters relating to our company. See Item 10. Additional Information B. Memorandum and Articles of Association Ordinary Shares Voting Rights. This concentrated control will limit your ability to influence corporate matters and could discourage others from pursuing any potential merger, takeover or other change of control transactions that holders of Class A ordinary shares and ADSs may view as beneficial.

Because we do not expect to pay dividends in the foreseeable future, you must rely on price appreciation of our ADSs for return on your investment.

We currently intend to retain most, if not all, of our available funds and any future earnings to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Therefore, you should not rely on an investment in our ADSs as a source for any future dividend income.

Our board of directors has complete discretion as to whether to distribute dividends. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiary, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in our ADSs will likely depend entirely upon any future price appreciation of our ADSs. There is no guarantee that our ADSs will appreciate in value or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in our ADSs and you may even lose your entire investment in our ADSs.

Substantial future sales or perceived potential sales of our ADSs in the public market could cause the price of our ADSs to decline.

Sales of our ADSs or ordinary shares in the public market, or the perception that these sales could occur, could cause the market price of our ADSs to decline. As of March 31, 2013, we have 1,136,397,903 ordinary shares outstanding, comprised of (i) 431,017,239 Class A ordinary shares represented by ADSs, which ADSs are freely transferable without restriction or additional registration under the Securities Act, (ii) 299,992,214 Class A ordinary shares not represented by ADSs, which are available for sale subject to volume and other restrictions as applicable under Rules 144 and 701 under the Securities Act, and (iii) 405,388,450 Class B ordinary shares which, following conversion to Class A ordinary shares by the holder of the Class B ordinary shares, are available for sale subject to volume and other restrictions as applicable under Rules 144 and 701 under the Securities Act.

Certain holders of our ordinary shares have the right to cause us to register under the Securities Act the sale of their shares. Registration of these shares under the Securities Act would result in ADSs representing these shares becoming freely tradable without restriction under the Securities Act immediately upon the effectiveness of the registration. Sales of these registered shares in the form of ADSs in the public market could cause the price of our ADSs to decline.

Table of Contents

You may not have the same voting rights as the holders of our ordinary shares and may not receive voting materials in time to be able to exercise your right to vote.

Except as described in this annual report and in the deposit agreement, dated as of May 4, 2011, by and among our company, Citibank, N.A., as depositary, and the holders and beneficial owners of American depositary shares, holders of our ADSs will not be able to exercise voting rights attaching to the Class A ordinary shares represented by our ADSs on an individual basis. Holders of our ADSs will appoint the depositary or its nominee as their representative to exercise the voting rights attaching to the Class A ordinary shares represented by the ADSs. Upon receipt of your voting instructions, the depositary will vote the underlying Class A ordinary shares in accordance with these instructions.

Pursuant to our amended and restated memorandum and articles of association, we may convene a shareholders' meeting upon seven (7) calendar days' notice. If we give timely notice to the depositary under the terms of the deposit agreement (30 days' notice), the depositary will notify you of the upcoming vote and arrange to deliver our voting materials to you. We cannot assure you that you will receive the voting materials in time to instruct the depositary to vote the Class A ordinary shares underlying your ADSs, and it is possible that you, or persons who hold their ADSs through brokers, dealers or other third parties, will not have the opportunity to exercise a right to vote. In addition, the depositary and its agents are not responsible for failing to carry out voting instructions or for the manner of carrying out voting instructions. This means that you may not be able to exercise your right to vote and there may be nothing you can do if the Class A ordinary shares underlying your ADSs are not voted as you requested. In addition, although you may directly exercise your right to vote by withdrawing the Class A ordinary shares underlying your ADSs, you may not receive sufficient advance notice of an upcoming shareholders' meeting to withdraw the Class A ordinary shares underlying your ADSs to allow you to vote with respect to any specific matter.

Your right to participate in any future rights offerings may be limited, which may cause dilution to your holdings, and you may not receive cash dividends if it is impractical to make them available to you.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to you in the United States unless we register both the rights and the securities to which the rights relate under the Securities Act or an exemption from the registration requirements is available. Under the deposit agreement, the depositary will not make rights available to you unless both the rights and the underlying securities to be distributed to ADS holders are either registered under the Securities Act or exempt from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective and we may not be able to establish a necessary exemption from registration under the Securities Act. Accordingly, you may be unable to participate in our rights offerings and may experience dilution in your holdings.

The depositary of our ADSs has agreed to pay to you the cash dividends or other distributions it or the custodian receives on our ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of ordinary shares your ADSs represent. However, the depositary may, at its discretion, decide that it is inequitable or impractical to make a distribution available to any holders of ADSs. For example, the depositary may determine that it is not practicable to distribute certain property through the mail, or that the value of certain distributions may be less than the cost of mailing them. In these cases, the depositary may decide not to distribute such property to you.

You may be subject to limitations on transfer of your ADSs.

Edgar Filing: Renren Inc. - Form 20-F

Your ADSs are transferable on the books of the depositary. However, the depositary may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. In addition, the depositary may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depositary are closed, or at any time if we or the depositary deems it advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason in accordance with the terms of the deposit agreement.

Table of Contents

You may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. federal courts may be limited because we are incorporated under Cayman Islands law, we conduct substantially all of our operations in China and substantially all of our directors and officers reside outside the United States.

We are incorporated in the Cayman Islands and conduct substantially all of our operations in China through our PRC subsidiaries and consolidated affiliated entities. Most of our directors and officers reside outside the United States and a substantial portion of the assets of such directors and officers are located outside of the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the Cayman Islands or in China in the event that you believe that your rights have been infringed under the securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands and of China may render you unable to enforce a judgment against our assets or the assets of our directors and officers. There is no statutory recognition in the Cayman Islands of judgments obtained in the United States, although a final and conclusive judgment in the federal or state courts of the United States under which a sum of money is payable, other than a sum payable in respect of taxes, fines, penalties or similar charges, and which was neither obtained by fraud or in proceedings contrary to natural justice or the public policy of the Cayman Islands, may be subject to enforcement proceedings as a debt in the courts of the Cayman Islands under the common law doctrine of obligation without any re-examination of the merits of the underlying dispute.

Our corporate affairs are governed by our amended and restated memorandum and articles of association, as amended and restated from time to time, and by the Companies Law (2012 Revision) and common law of the Cayman Islands. The rights of shareholders to take legal action against us and our directors, actions by minority shareholders and the fiduciary responsibilities of our directors are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, which provides persuasive, but not binding, authority. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedents in the United States. In particular, the Cayman Islands has a less developed body of securities laws than the United States and provides significantly less protection to investors. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in U.S. federal courts.

As a result, our public shareholders may have more difficulty in protecting their interests through actions against us, our management, our directors or our major shareholders than would shareholders of a corporation incorporated in a jurisdiction in the United States.

Our amended and restated memorandum and articles of association contain anti-takeover provisions that could adversely affect the rights of holders of our ordinary shares and ADSs.

Our amended and restated memorandum and articles of association contain certain provisions that could limit the ability of others to acquire control of our company, including a provision that grants authority to our board directors to establish from time to time one or more series of preferred shares without action by our shareholders and to determine, with respect to any series of preferred shares, the terms and rights of that series. The provisions could have the effect of depriving our shareholders of the opportunity to sell their shares at a premium over the prevailing market price by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transactions.

Our two largest shareholders are able to significantly influence our actions over important corporate matters, which may deprive you of an opportunity to receive a premium for your shares and reduce the price of our ADSs.

Edgar Filing: Renren Inc. - Form 20-F

As of March 31, 2013, Mr. Joseph Chen, our founder, chairman and chief executive officer, beneficially owns approximately 66.7% of our outstanding Class B ordinary shares, representing in aggregate 56.5% of our total voting power, and SB Pan Pacific Corporation beneficially owns approximately 37.0% of our outstanding Class A ordinary shares and approximately 33.3% of our outstanding Class B ordinary shares, representing in aggregate 33.9% of our total voting power. As between Mr. Chen and SB Pan Pacific Corporation, the approvals of SB Pan Pacific Corporation are required for certain important matters relating to our company. See Item 10. Additional Information B. Memorandum and Articles of Association Ordinary Shares Voting Rights. Consequently, these shareholders are able to significantly influence matters such as electing directors and approving material mergers, acquisitions or other business combination transactions. This concentration of ownership and voting power may also discourage, delay or prevent a change in control of our company, which could have the dual effect of depriving our shareholders of an opportunity to receive a premium for their shares as part of a sale of our company and reducing the price of our ADSs. These actions may be taken even if they are opposed by our other shareholders, including those who purchase ADSs. In addition, these persons could divert business opportunities away from us to themselves or others.

Table of Contents

We may be a passive foreign investment company for United States federal income tax purposes, which could subject United States investors in the ADSs or ordinary shares to significant adverse United States income tax consequences.

Depending upon the value of our ordinary shares and ADSs and the nature of our assets and income over time, we could be a passive foreign investment company, or PFIC, for United States federal income tax purposes. A non-United States corporation will be treated as a PFIC for any taxable year if either (i) 75% or more of its gross income for such year consists of certain types of passive income, or (ii) 50% or more of the value of its assets (determined on the basis of a quarterly average) during such year is attributable to assets that produce passive income or are held for the production of passive income. Passive income is any income that would be foreign personal holding company income under the Internal Revenue Code of 1986, as amended, including, without limitation, dividends, interest, royalties, rents, annuities, net gains from the sale or exchange of property producing such income, net gains from commodity transactions, net foreign currency gains and income from notional principal contracts.

We believe we were a PFIC for the taxable years ending December 31, 2011 and December 31, 2012. Our PFIC status for the current taxable year will not be determinable until after the close of the current taxable year. Because we currently hold, and expect to continue to hold, a substantial amount of cash and other passive assets and, because, as a public company, the value of our assets for this purpose is determined in part by reference to the market prices of our ADSs and outstanding ordinary shares, there can be no assurance that we will not be a PFIC for the current or any future taxable year.

If we are a PFIC for any taxable year in which you hold our ADSs or ordinary shares and you are a U.S. Holder (as defined in Item 10.E Additional Information Taxation Certain United States Federal Income Tax Considerations General), you generally will become subject to increased U.S. federal income tax liabilities and special U.S. federal income tax reporting requirements, unless you make a timely mark-to-market election to mitigate some of the applicable consequences. For more information on the U.S. federal income tax consequences to you that would result from our classification as a PFIC, see Item 10.E Additional Information Taxation Certain United States Federal Income Tax Considerations Passive Foreign Investment Company Rules.

Item 4. Information on the Company

A. History and Development of the Company

We began our operations in China in 2002 through Beijing Qianxiang Tiancheng Technology Development Co., Ltd., or Qianxiang Tiancheng, which has subsequently become one of our consolidated affiliated entities through the contractual arrangements described below. CIAC/ChinaInterActiveCorp, or CIAC, was incorporated in August 2005 in the Cayman Islands. CIAC wholly owns Qianxiang Shiji Technology Development (Beijing) Co., Ltd., or Qianxiang Shiji, a company established in Beijing, China and one of the subsidiaries through which we operate our business in China in reliance on a series of contractual arrangements.

Our current holding company, Renren Inc., was incorporated in February 2006 in the Cayman Islands under our prior name, Oak Pacific Interactive. Through a corporate restructuring, in March 2006, CIAC's shareholders exchanged all of their outstanding ordinary and preferred shares of CIAC for ordinary and preferred shares of Oak Pacific Interactive on a pro rata basis. As a result, Oak Pacific Interactive acquired all of the equity interests in CIAC and CIAC became a wholly owned subsidiary of Oak Pacific Interactive. In December 2010, we changed our

Edgar Filing: Renren Inc. - Form 20-F

corporate name from Oak Pacific Interactive to Renren Inc.

On March 25, 2011, we implemented a ten-for-one share split. Except as otherwise indicated, all information in this annual report concerning share and per share data gives retroactive effect to the ten-for-one share split.

Table of Contents

In May 2011, we completed our initial public offering, wherein we issued and sold 50,863,711 ADSs, and certain selling shareholders sold 10,201,289 ADSs, at an initial offering price of \$14.00 per ADS. On May 4, 2011, we listed our ADSs on the New York Stock Exchange under the symbol RENN. In addition, concurrently with our initial public offering, we sold an aggregate of 23,571,426 Class A ordinary shares to certain unrelated third party investors in a private placement, at a price of US\$4.67 per Class A ordinary share.

In October 2011, we completed the acquisition of 100% of the equity interest in Wole Inc., a Cayman Islands limited liability company. Wole Inc. operates 56.com, a leading user generated content online video sharing website in China, through a set of contractual arrangements between Wole Inc.'s PRC subsidiary, Wole Technology, and Qianjun Technology. We acquired Wole Inc. for US\$80.0 million in cash. See Item 4.C Information on the Company Organizational Structure for more information.

In March 2013, we completed a corporate restructuring wherein we moved our online games business to Renren Games, a PRC company incorporated in November 2012. Through a set of contractual arrangements between Renren Network, one of our wholly owned PRC subsidiaries, and Renren Games, we effectively control and receive substantially all of the economic benefits of Renren Games. See Item 4.C Information on the Company Organizational Structure for more information.

Our principal executive offices are located at 23/F, Jing An Center, 8 North Third Ring Road East, Chao Yang District, Beijing, 100028, the People's Republic of China. Our telephone number at this address is +86 (10) 8448-1818. Our registered office in the Cayman Islands is located at PO Box 309, Umland House, Grand Cayman, KY1-1104, Cayman Islands. Our telephone number at this address is +1 345-949-8066. We also have offices in over 50 cities in China, including Shanghai, Guangzhou and Wuhan. Our agent for service of process in the United States in connection with our registration statement on Form F-1 for our initial public offering in May 2011 is Law Debenture Corporate Services Inc., located at 400 Madison Avenue, 4th Floor, New York, New York 10017.

B. Business Overview

Overview

Renren operates a leading real name social networking internet platform in China. We enable users to connect and communicate with each other, share information and user generated content, play online games, shop for deals, watch videos and enjoy a wide range of other features and services. Our primary services are:

- *Renren.com*, our main social networking website;
- *Renren Games*, our online games business, available at wan.renren.com and major mobile game distribution platforms, such as Apple's appstore;

Edgar Filing: Renren Inc. - Form 20-F

- *Nuomi*, our social commerce services, available at nuomi.com; and
- *56.com*, our user-generated content focused video sharing website.

Renren.com

Renren.com, our main real name social networking website, is the foundation of our service offerings. Renren.com enables users to communicate and stay connected with their friends, classmates, family members and co-workers. We began at university campuses, and we believe our users include a majority of all current college students and a significant portion of recent college graduates in China. Our real name social networking community has diversified over the years to include white-collar professionals, university-bound high school students and other demographics. We believe real name relationships, through which users share personal content and experiences, provide the basis for a deeper and more authentic sense of community, and hence create stronger and more enduring social graphs on the network.

Since our inception, our user base has grown rapidly. As of December 31, 2010, 2011 and 2012, the cumulative total of our activated users was approximately 110 million, 147 million and 178 million, respectively. From January 2012 through December 2012, we added an average of approximately 2.6 million new activated users per month. In December 2010, December 2011 and December 2012, the number of our monthly unique log-in users was approximately 26 million, 38 million and 56 million, respectively. Our users' high level of engagement with our platform is reflected in the amount of time our users spend on our platform. From January 2012 through December 2012, our unique log-in users spent a monthly average of approximately 7.6 hours on our platform, compared to an average of 7.1 hours in 2011.

Table of Contents

Our SNS platform is accessible from internet-enabled devices, including PCs and mobile phones, so that users can access our platform anytime from anywhere they are connected to the internet. We offer versions of our sites and client applications that have been optimized for a range of mobile device operating systems, including for the iPhone, Android and Windows. Increasingly, our users are accessing and spending time on Renren.com through mobile devices. For example, the mobile percentage of our monthly total user time spent on Renren.com was 20.2%, 54.1%, and 69.1% in December 2010, December 2011 and December 2012, respectively, and the number of our monthly unique smartphone users who accessed Renren's mobile applications grew from approximately 1.4 million in December 2010 to 8.5 million in December 2011 and to 14.0 million in December 2012, respectively. We have also developed Renren Check-In for mobile devices, which enables our users to share their location information with friends.

By providing content and applications that are attractive to Chinese internet users, we have been able to strengthen our user base and increase user engagement and retention. For example, our Renren Open Platform program, which is one of the first and largest open application programming interface programs in China, enables our users to access and enjoy a wide variety of third-party applications. Our Renren Connect program allows our users to log on to over 3,000 Renren Connect partner websites using their Renren identity. Our Renren Desktop software, which can be downloaded by users, displays real time news feeds, notifications, reminders and other interactive content to users while they are logged on to our platform. Through Renren Voice SNS, a new initiative of ours, users can send voice status and exchange voice comments on friends' status and photos.

In addition, from time to time, we develop and offer new services that we believe have synergies with our SNS platform. For instance, we have Jingwei, a business card reader and social networking mobile application for professionals, Jiexi, an on-line wedding planning and service business, Chewen, a vertical portal focused on automotive related information, and Xiaozhao, an on-line campus recruiting service dedicated to connecting and helping college graduates find jobs.

One of the primary approaches for us to monetize our user base on Renren.com is online advertising services. We offer a broad range of advertising formats and solutions, such as social ads, display advertisements, top promoted news feeds, fan or brand page advertising, sponsored online events, campaigns and virtual gifts and mobile advertising, which are described in more detail below. For social ads, display advertising, and top promoted news feed items, we have the capability to target and reach users meeting certain geographic and demographic criteria, such as users with a certain educational background, a certain life stage (for example, students or white collar workers), certain user interests and/or residence in a certain geographic region. We have developed mobile advertisement solutions which offer similar targeting capabilities, including location based recommendations.

- **Social ads** Our social ads come in a variety of formats, including video advertisements, user icon displays, and light flash-based interactions, including polls and coupons. Our social ads allow users to interact with the advertisement alone or together with friends using user-initiated call-to-action buttons such as participate, like this ad, comment on this ad, share this ad and become a fan, which can result in friend recommendations and other forms of social influence. Our social ads are designed to be non-intrusive and typically do not employ heavy flashing fields or pop-ups that cover large parts of the user's screen. Advertisers pay for social ads based on the time period that the advertisement is displayed or the number of impressions delivered.

- **Display advertisements** Our display advertisements are delivered alongside a web page primarily as graphical advertisements and also as bottom scrolling banners. Display advertisements can be targeted to certain users or can be displayed on a page at a certain time to all users viewing the page. Advertisers can pay for display advertising based on the time period that the advertisement is displayed, the number of ad impressions delivered or the number of clicks on their advertisement. An ad impression is delivered when an advertisement appears on a page and the page is viewed by a user.

- **Top promoted news feeds** Our promoted news feeds display news, events and promotions regarding an advertiser or its brand to users, in various formats, including text and text plus graphic, which can be further shared among their friends.
- **Fan or brand page advertising** Advertisers can create a page within our platform that users may choose to join. The page builds an advertiser's base of fans, and the advertiser can use the page and its fan base as a long-term community where the advertiser can constantly communicate with, educate and engage its target consumers by publishing content in diverse formats, promoting new products, and holding online events to continue to grow the fan base.
- **Sponsored online events, campaigns and virtual gifts** We enable advertisers to sponsor a particular area on our website for online events or campaigns, and to sponsor virtual gifts.
- **Mobile advertising** Our mobile advertising products include top and bottom banner, location-based services promotions and promoted top news feeds through our mobile applications. Advertisers may pay for different types of advertising formats including user interests, time period, demographics and geographic criteria selections. We are currently still in the early phases of developing our mobile advertising strategies.

Table of Contents

The social attributes of our promoted news feeds, social ads and fan or brand pages allow advertisers to earn organic word-of-mouth impressions, clicks and engagement through users' further sharing and spreading of information among their friends. In addition, we believe that mobile targeting, while still at a nascent stage, will also become more important as users continue to spend more time on our mobile services.

Our online advertising serves a broad base of advertisers, including leading international companies such as Yum and Coca-Cola, leading companies in China such as China Mobile, Snow Beer and Lenovo, and various small- and medium-sized enterprises, or SMEs. In 2010, 2011 and 2012, the number of our brand advertisers was 248, 301 and 277, respectively, and the average annual spending by our brand advertisers was approximately US\$129,000, US\$181,000 and US\$165,000, respectively. Our advertisers operate in a variety of industries, including fast-moving consumer goods, information technology hardware, apparel and accessories, personal care products, automobile manufacturing and financial services. Our online advertising service team has direct contacts with our advertisers, the vast majority of whom purchase our online advertising services through third-party advertising agencies. As of December 31, 2012, we had 307 sales representatives and supporting personnel for online advertising services.

We also have an advertising division dedicated to servicing SME brand advertisers. We utilize our Renren.com platform to allow SME advertisers to select certain user information, such as city, gender, age, interest graph and university, for better targeting accuracy. SME advertising verticals typically consists of services relating to tutoring, wedding packages, personal electronics and on-line B2C services. In 2012, SME advertising represented approximately 14% of our total advertising revenue.

In addition to online advertising, we also monetize our Renren user base through VIP memberships and virtual gifts. VIP memberships provide users with larger size limits on photo albums and email inboxes and other additional features and benefits. Virtual gifts, such as cartoon images, flashes, birthday cards and gift cards containing our virtual currency, can be sent by users to friends. Some virtual gifts are free and others must be purchased.

Renren Games

We offer a portfolio of web-based, cross-platform and mobile games to our users through Renren Games. The games we offer include games that we develop internally and games licensed from third parties. Through our strong internal technology and creative game design capabilities, we develop in-house web-based, mobile and cross-platform games. We market our in-house games on our own games platform as well as other direct-to-consumer digital storefronts and marketing channels. By offering games from third-party developers, we enhance the portfolio of games available to users on our platform.

Web-based games are games that can be played directly from the user's internet browser without downloading additional software. We believe we developed and launched one of the first web-based role-playing games in the world, Pet Mop, in early 2007, which has won many awards, including China's Most Valuable Web Game in 2008. We subsequently developed and launched one of the first web-based MMORPGs in the world, Tianshu Qitan, in late 2008.

Table of Contents

Cross-platform games are games that allow users to play the same game between PC and mobile devices seamlessly while also using the same account. Cross-platform games are optimized for both PC and mobile games so that user experience on both mediums remains high. In the third quarter of 2011, we launched what we believe was one of the first successful cross-platform games in the world, Luanshi Tianxia, and have since continued to offer additional cross-platform games as part of our games services. Our cross-platform games have shown early signs of acceptance by users as gamers begin to shift and share more time between PC and mobile devices. In 2012, Luanshi Tianxia received the Gold Feather Award, the highest honor in China's online games industry, as one of the top ten web games in China for 2012. With smartphone and tablet penetration continuing to increase in China and globally, we believe our cross-platform strategy coupled with mobile games for iOS and Android devices will be welcomed by the new breed of mobile gamers. Our platform and games options provide users with easy access to our games, while allowing them to select and choose conveniently whichever device they wish to use to play our games.

We use a virtual item-based revenue model for our games, under which players can play games for free but are charged for optional purchases of virtual in-game items, such as items that improve the strength of game character, in-game accessories and pets. In most cases, users that wish to obtain such items immediately can do so by paying a fee.

Nuomi

Nuomi.com offers deep-discount localized social commerce services and products to Nuomi users. Entertainment, dining, health and beauty services make up the majority of our social commerce deals. Nuomi users can access nuomi.com from internet-enabled devices, including PCs and mobile phones.

We launched our social commerce services in June 2010 in Beijing, and the business has since expanded rapidly. As of December 31, 2010, 2011 and 2012, the aggregate number of our paying users was approximately 0.7 million, 4.9 million and 11.2 million, respectively, and the number of total deals sold was approximately 2.1 million, 29.2 million and 72.5 million, respectively. As of December 31, 2012, Nuomi had sales offices in 57 major cities and municipalities in China and we employed 1,391 employees for Nuomi. In 2012, Nuomi was awarded the "Best Chinese Internet Company for User Experience" by Analysys International, a third party research provider.

We have also recognized the importance of mobile for Nuomi, as over 20% of the total value of transactions completed through our Nuomi social commerce services are now conducted via mobile devices. We launched our first Nuomi mobile application in 2011, and it is now on all major mobile operating systems.

56.com

56.com, which we acquired in October 2011, is a video service we provide to our users which allows them to load, view and share user generated content videos and other contents. A majority of 56.com's video library is comprised of user generated content, created by users such as video enthusiasts, performing artists and amateur groups. The rest of the video library is comprised of content created in-house by our 56.com production team and, to a lesser extent, purchased content produced by professionals.

Edgar Filing: Renren Inc. - Form 20-F

Woxiu, which means “a show of your own” in Chinese, is a virtual stage we offer at 56.com where grassroots musicians and performers can live-stream their performances and share them with other viewers. Fans of the performing user can chat along with the performer and other live audience and purchase consumer virtual items from us to show support to the performers.

We monetize 56.com’s users primarily through on-line advertising and sales of Woxiu virtual items. On 56.com, the primary advertising formats and solutions offered are display advertisements, pre-roll advertisements, post-roll advertisements, pause advertisements and text-link, and other formats such as sponsored online events and branded virtual gifts.

Table of Contents

Payment Methods and Systems

In October 2007, we launched Renren Beans, virtual currency that can be used to purchase any of our IVAS or other paid services and applications for users. Users can acquire our virtual currency through:

- **Online sales** Users can purchase the virtual currency directly on the Renren platform through third-party online payment systems using bank cards and mobile and SMS payments, among other methods. In cooperation with third-party payment service providers, such as Alipay, 99 Bills, Yeepay and Jcard, we provide a wide selection of payment services to users.
- **Offline distribution** Users can purchase online prepaid cards redeemable for our virtual currency from retail points across China, which primarily consist of newsstands, convenience stores and internet cafés.

Sales and Marketing

Advertising Sales

As is customary in China, we sell our online advertising services and solutions primarily through third-party advertising agencies that represent end-advertisers. We cultivate and strengthen our relationships with end-advertisers by sharing our understanding of the evolving social networking industry and related online advertising services and solutions. As a relatively young company in the online advertising sector, we also intend to leverage advertising agencies' existing client relationships and network resources to increase our sales and expand our advertiser base. We market our services and solutions through direct marketing, by hosting or attending public relations events such as trade marketing events, and through other marketing activities.

We rely primarily on our direct sales force for our social commerce services, which are directed at local merchants or event organizers seeking to target customers in a specific city or region. Advertising agencies in China currently do not generally cover social commerce services such as those offered by Nuomi.

As of December 31, 2012, we had 307 sales representatives and supporting personnel for online advertising services. Our sales force for online advertising services is organized by industry and provides a broad range of services and solutions. In addition to building and maintaining customer relationships, our sales force assists advertisers in structuring advertising campaigns by analyzing the advertisers' target audiences and marketing objectives. As of December 31, 2012, we also had 762 sales representatives for our nuomi.com social commerce services. Our sales force for Nuomi is organized by the regions in which we offer social commerce services. The Nuomi sales team works directly with current and prospective customers to secure social commerce deals for each day in each Nuomi location.

Marketing and Brand Promotion

We believe brand recognition is important to our ability to attract users. We have engaged in both online and offline marketing activities to promote our Renren and Nuomi brands. To date, user recognition of our Renren and Nuomi brands has primarily grown virally, and we have built our Renren brand, and especially our Nuomi brand, with only modest marketing and brand promotion expenditures. Since acquiring the rights to operate 56.com in October 2011, we have not had significant expenditures to promote the 56.com brand.

To facilitate such viral growth, we focus on continuously improving the quality of our services, as we believe satisfied users and their friends are more likely to recommend our services to others. We also work with other operators and platforms for cross-marketing and co-branding projects to further leverage our existing brand value.

We have a marketing team that initiates various marketing activities. For example, we market our services through media partnerships, co-branding campaigns with other brands, initiatives with hit movies and sponsorship of cultural events such as music festivals.

Seasonality

Seasonal fluctuations and industry cyclicalities have affected, and are likely to continue to affect, our online advertising services. We generally generate less revenue from online advertising during national holidays in China, in particular during the first quarter of each year due to the slowdown of business during the Chinese New Year holiday season that lasts approximately two weeks. To a lesser extent, we also generally generate less revenues from online advertising during the fourth quarter of each year. This decrease in revenues is due to the fact that historically a large concentration of our advertising customers are in the consumer sector, with many of them purchasing more of our advertising services in the spring and summer seasons due to the fact that certain of their major products sell better during spring and summer. In addition, advertising spending in China has historically been cyclical, reflecting overall economic conditions as well as the budgeting and buying patterns of our advertisers. We expect that seasonal fluctuations and cyclicalities will continue to cause our quarterly and annual operating results to fluctuate. See [Item 3.D Risk Factors Risks Related to Our Business and Industry](#) Our quarterly revenues and operating results may fluctuate, which makes our results of operations difficult to predict and may cause our quarterly results of operations to fall short of expectations.

Table of Contents

Competition

The internet industry in China is rapidly evolving and highly competitive. We face significant competition in almost every aspect of our business. In our social networking business, we compete with companies and services such as Tencent's Q-zone and WeChat, SINA's Weibo.com, and kaixin001.com. In our online games business, we primarily compete with companies such as Tencent, Qihu360 and 7Road.com. In our social commerce business, we mainly compete against meituan.com, dianping.com and lashou.com. In our online video business, we compete against companies that enable users to upload, view and/or share video content, such as Youku Tudou, Sohu.com, iQiyi.com and Tencent, as well companies which provide online entertainment services, such as YY Inc. Competition in the mobile landscape of these services is as intense, if not more, as with their PC counterparts.

We also compete for online advertising revenues with other websites that sell online advertising services in China. In addition, we indirectly compete for advertising budgets with traditional advertising media in China, such as television and radio stations, newspapers and magazines, and major out-of-home media. We may also face potential competition from global social networking service providers that seek to enter the China market.

We compete for advertisers primarily on the basis of size and purchasing power of our user base, effectiveness of services in reaching targeted consumers, ability to demonstrate marketing results, knowledge of our sales force, and leadership in our social network services category. In social commerce services, we compete for merchant partners and deals primarily on the basis of the effectiveness of our services in generating sales, the size and purchasing power of our user base, and the rate of commission for our services.

We compete for users and user engagement primarily on the basis of helping users communicate, share and have fun on our platform as a result of quality and innovation in our user-facing products, as well as brand name and recognition and quality of user-generated content. We believe the mobile market competitive landscape will continue to intensify in the near future.

Regulation

This section summarizes the principal current PRC laws and regulations relevant to our business and operations.

Regulations on Value-Added Telecommunications Services

On September 25, 2000, the State Council promulgated the Telecommunications Regulations. These regulations draw a distinction between basic telecommunication services and value-added telecommunication services. Internet content provision services, or ICP services, is a subcategory of value-added telecommunications services. Under the Telecommunications Regulations, commercial operators of value-added telecommunications services must first obtain an operating license from the MIIT or its provincial level counterparts.

Edgar Filing: Renren Inc. - Form 20-F

On September 25, 2000, the State Council issued the Administrative Measures on Internet Information Services, which in particular regulate ICP services. According to these measures, commercial ICP service operators must obtain an ICP license from the relevant government authorities before engaging in any commercial ICP operations within the PRC. In November 2000, the MIIT promulgated the Administrative Measures on Internet Electronic Messaging Services, which requires the operator to obtain a special BBS Permit from the local bureau of the MIIT prior to engaging in BBS services. BBS services include electronic bulletin boards, electronic forums, message boards and chat rooms.

Table of Contents

On December 26, 2001, the MIIT promulgated the Administrative Measures on Telecommunications Business Operating Licenses. The measures were subsequently revised on April 10, 2009. These measures set forth the types of licenses required to operate value-added telecommunications services and the qualifications and procedures for obtaining such licenses. For example, an information services operator providing value-added services in multiple provinces is required to obtain an inter-regional license, whereas an information services operator providing the same services in one province is required to obtain a local license.

On April 19, 2004, the MIIT issued a notice stating that mobile network carriers can only provide mobile network access to those mobile internet service providers that have obtained licenses from the MIIT before conducting operations, and that such carriers must terminate mobile network access for those providers who have not secured the required licenses.

To comply with these PRC laws and regulations, our information services operator, Qianxiang Tiancheng, holds a value-added telecommunications business operating license and an ICP license, and our ICP operators Qianxiang Wangjing, Beijing Nuomi, Qianxiang Changda, Qianjun Technology and Renren Games all hold ICP licenses. Moreover, Qianxiang Tiancheng, Qianxiang Wangjing, Beijing Nuomi and Qianjun Technology all possess BBS Permits issued by the local bureau of the MIIT.

Restrictions on Foreign Ownership in Value-Added Telecommunications Services

According to the Provisions on Administration of Foreign Invested Telecommunications Enterprises, promulgated by the State Council on December 11, 2001 and amended on September 10, 2008, the ultimate foreign equity ownership in a value-added telecommunications service provider must not exceed 50%. Moreover, for a foreign investor to acquire any equity interest in a value-added telecommunications business in China, it must demonstrate a good track record and experience in operating value-added telecommunications services. Foreign investors that meet these requirements must obtain approvals from the MIIT and the Ministry of Commerce or their authorized local branches, and the relevant approval application process usually takes six to nine months. Due to the limitation of foreign investment in value-added telecommunications services companies that conduct online culture activities, we would be prohibited from acquiring any equity interest in our PRC domestic companies without diverting management attention and resources. In addition, we believe that our contractual arrangements with our PRC domestic companies and their respective individual/entity shareholders provide us with sufficient and effective control over our PRC domestic companies. Accordingly, we currently do not plan to acquire any equity interest in our PRC domestic companies.

On July 13, 2006, the MIIT issued the Notice of the MIIT on Intensifying the Administration of Foreign Investment in Value-added Telecommunications Services. This notice prohibits domestic telecommunication services providers from leasing, transferring or selling telecommunications business operating licenses to any foreign investor in any form, or providing any resources, sites or facilities to any foreign investor for their illegal operation of a telecommunications business in China. According to this notice, either the holder of a value-added telecommunication business operating license or its shareholders must legally own the domain names and trademarks used by such license holders in their provision of value-added telecommunication services. The notice further requires each license holder to have the necessary facilities, including servers, for its approved business operations and to maintain such facilities in the regions covered by its license. In addition, all value-added telecommunications service providers are required to maintain network and internet security in accordance with the standards set forth in relevant PRC regulations. If a license holder fails to comply with the requirements in the notice and cure such non-compliance, the MIIT or its local counterparts have the discretion to take measures against such license holders, including revoking their value-added telecommunications business operating licenses.

Edgar Filing: Renren Inc. - Form 20-F

To comply with these PRC regulations, we operate our websites through our PRC domestic companies, i.e., Qianxiang Tiancheng, Qianxiang Wangjing, Beijing Nuomi, Qianxiang Changda, Qianjun Technology and Renren Games. Qianxiang Tiancheng is currently 99% owned by Ms. Jing Yang and 1% owned by Mr. James Jian Liu, both of whom are PRC citizens. Qianxiang Tiancheng holds a value-added telecommunications business operating license, an ICP license and a BBS Permit. Qianxiang Wangjing and Beijing Nuomi are currently wholly owned by Qianxiang Tiancheng, and each holds an ICP license and a BBS Permit. Qianxiang Changda is currently wholly owned by Qianxiang Tiancheng, and holds an ICP license. Qianjun Technology is currently 80% owned by Mr. Sheng Liang and 20% owned by Ms. Juan Zhou, both of whom are PRC citizens. Qianjun Technology holds an ICP license and a BBS Permit. Renren Games is currently 70% owned by Mr. Chuan He and 30% owned by Mr. James Jian Liu, both of whom are PRC citizens. Renren Games holds an ICP license.

Table of Contents

If, despite these precautions, the PRC government determines that we do not comply with applicable laws and regulations, it could revoke our business and operating licenses, require us to discontinue or restrict our operations, restrict our right to collect revenues, block our websites, require us to restructure our operations, including possibly the establishment or restructuring of a foreign-invested telecommunication enterprise, re-application for the necessary licenses, or relocation of our businesses, staff and assets, impose additional conditions or requirements with which we may not be able to comply, or take other regulatory or enforcement actions against us. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of Our Business. If the PRC government finds that the agreements that establish the structure for operating our services in China do not comply with PRC governmental restrictions on foreign investment in internet businesses, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.

Regulations on Internet Content Services

National security considerations are an important factor in the regulation of internet content in China. The National People's Congress, the PRC's national legislature, has enacted laws with respect to maintaining the security of internet operations and internet content. According to these laws, as well as the Administrative Measures on Internet Information Services, violators may be subject to penalties, including criminal sanctions, for internet content that:

- opposes the fundamental principles stated in the PRC constitution;
- compromises national security, divulges state secrets, subverts state power or damages national unity;
- harms the dignity or interests of the state;
- incites ethnic hatred or racial discrimination or damages inter-ethnic unity;
- undermines the PRC's religious policy or propagates heretical teachings or feudal superstitions;
- disseminates rumors, disturbs social order or disrupts social stability;
- disseminates obscenity or pornography, encourages gambling, violence, murder or fear or incites the commission of a crime;

Edgar Filing: Renren Inc. - Form 20-F

- insults or slanders a third party or infringes upon the lawful rights and interests of a third party; or
- is otherwise prohibited by law or administrative regulations.

ICP service operators are required to monitor their websites. They may not post or disseminate any content that falls within these prohibited categories and must remove any such content from their websites. The PRC government may shut down the websites of ICP license holders that violate any of the above-mentioned content restrictions, order them to suspend their operations, or revoke their ICP licenses.

To comply with these PRC laws and regulations, we have adopted internal procedures to monitor content displayed on our websites, including a team of employees dedicated to screening and monitoring content uploaded on our websites and removing inappropriate or infringing content. However, due to the large amount of user uploaded content, we may not be able to identify all videos, photos or other content that may violate relevant laws and regulations.

To the extent that PRC regulatory authorities find any content displayed on or through our websites objectionable, they may require us to limit or eliminate the dissemination or availability of such content on our websites or impose penalties, including the revocation of our operating licenses or the suspension or shutdown of our online operations. In addition, the costs of compliance with these regulations may increase as the volume of content and users on our website increases. See [Item 3.D Risk Factors Risks Related to Our Business and Industry Content posted or displayed on our websites may be found objectionable by PRC regulatory authorities and may subject us to penalties and other administrative actions.](#)

Table of Contents

Regulations on Information Security

Internet content in China is also regulated and restricted from a state security standpoint. The National People's Congress, China's national legislative body, enacted a law on December 28, 2000, as amended on August 28, 2009, that makes it unlawful to: (i) gain improper entry into a computer or system of strategic importance; (ii) disseminate politically disruptive information; (iii) leak State secrets; (iv) spread false commercial information; or (v) infringe intellectual property rights.

The Ministry of Public Security has promulgated measures on December 16, 1997 that prohibit the use of the internet in ways which, among other things, result in a leakage of State secrets or the distribution of socially destabilizing content. Socially destabilizing content includes any content that incites defiance or violations of PRC laws or regulations or subversion of the PRC government or its political system, spreads socially disruptive rumors or involves cult activities, superstition, obscenities, pornography, gambling or violence. State secrets are defined broadly to include information concerning PRC national defense, state affairs and other matters as determined by the PRC authorities.

On December 13, 2005, the Ministry of Public Security promulgated Provisions on Technological Measures for Internet Security Protection, or the Internet Protection Measures. The Internet Protection Measures require all ICP operators to keep records of certain information about its users (including user registration information, log-in and log-out time, IP address, content and time of posts by users) for at least 60 days and submit the above information as required by laws and regulations. The ICP operators must regularly update information security systems for their websites with local public security authorities, and must also report any public dissemination of prohibited content. If an ICP operator violates these measures, the PRC government may revoke its ICP license and shut down its websites.

In addition, the State Secrecy Bureau has issued provisions authorizing the blocking of access to any website it deems to be leaking State secrets or failing to comply with the relevant legislation regarding the protection of State secrets.

As Qianxiang Tiancheng, Qianxiang Wangjing, Beijing Nuomi, Qianjun Technology and Renren Games are all ICP operators, they are subject to the laws and regulations relating to information security. To comply with these laws and regulations, Qianxiang Tiancheng, Qianxiang Wangjing, Beijing Nuomi and Qianjun Technology have completed the mandatory security filing procedures with the local public security authorities, regularly update their information security and content-filtering systems with newly issued content restrictions, and maintain records of users' information as required by the relevant laws and regulations. In connection with the recent corporate restructuring relating to our online games business, Renren Games will also start the mandatory security filing procedures with the local public security authorities. Qianxiang Tiancheng, Qianxiang Wangjing, Beijing Nuomi, Qianjun Technology and Renren Games have also taken measures to delete or remove links to content that to their knowledge contains information violating PRC laws and regulations. Substantially all of the content published on our websites is manually screened by employees who are dedicated to screening and monitoring content published on our website and removing prohibited content. All of the other content, primarily consisting of comments posted by users, is first screened by our filtering systems and content containing prohibited words or images is manually screened by our employees. We believe that with these measures in place, no prohibited content under PRC information security laws and regulations should have been publicly disseminated through our website in the past. However, due to the significant amount of content published on our website by our users on a daily basis, if any prohibited content is publicly disseminated in the future and we become aware of it, we will report it to the relevant governmental authority. We believe these measures are generally in compliance with the relevant laws and regulations.

If, despite the precautions, we fail to identify and prevent illegal or inappropriate content from being displayed on or through our websites, we may be subject to liability. In addition, these laws and regulations are subject to interpretation by the relevant authorities, and it may not be

possible to determine in all cases the types of content that could result in liability. To the extent that PRC regulatory authorities find any content displayed on or through our websites objectionable, they may require us to limit or eliminate the dissemination or availability of such content or impose penalties, including the revocation of our operating licenses or the suspension or shutdown of our online operations. In addition, the costs of compliance with these regulations may increase as the volume of content and users on our website increases. See Item 3.D Risk Factors Risks Related to Our Business and Industry Content posted or displayed on our websites may be found objectionable by PRC regulatory authorities and may subject us to penalties and other administrative actions.

Regulations on Internet Privacy

The PRC Constitution states that PRC law protects the freedom and privacy of communications of citizens and prohibits infringement of such rights. In recent years, PRC government authorities have enacted legislation on internet use to protect personal information from any unauthorized disclosure. The PRC law does not prohibit ICP operators from collecting and analyzing personal information from their users. However, the Administrative Measures on Internet Information Services prohibit an ICP operator from insulting or slandering a third party or infringing the lawful rights and interests of a third party. Pursuant to Administrative Measures on Internet Electronic Messaging Services, ICP operators that provide electronic messaging services must keep users' personal information confidential and must not disclose such personal information to any third party without the users' consent or unless required by law. The regulations further authorize the relevant telecommunications authorities to order ICP operators to rectify unauthorized disclosure. ICP operators are subject to legal liability if the unauthorized disclosure results in damages or losses to users. The PRC government, however, has the power and authority to order ICP operators to turn over personal information if an internet user posts any prohibited content or engages in illegal activities on the internet. On December 29, 2011, the MIIT promulgated the Several Provisions on Regulating the Market Order of Internet Information Services, in effect as of March 15, 2012. In regard to user personal data, it stipulates that ICP operators must not, without user consent, collect information on users that can be used alone or in combination with other information to identify the user (defined as User Personal Information) and may not provide any such information to third parties without prior user consent. ICP operators may only collect User Personal Information necessary to provide their services and must expressly inform the users of the method, content and purpose of the collection and processing of such User Personal Information. In addition, an ICP operator may only use such User Personal Information for the stated purposes under the ICP operator's scope of service. ICP operators are also required to ensure the proper security of User Personal Information, and take immediate remedial measures if User Personal Information is suspected to have been disclosed. If the consequences of any such disclosure are expected to be serious, ICP operators must immediately report the incident to the telecommunications regulatory authority and cooperate with the authorities in their investigations.

On December 28, 2012, the Standing Committee of the National People's Congress of the PRC issued the Decision on Strengthening the Protection of Online Information. Most requirements under the decision that are relevant to ICP operators are consistent with the requirements already established under the MIIT Provisions, as discussed above, though often more strict and broad. Under the decision, if an ICP operator wishes to collect or use personal electronic information, it must do so in a legal and appropriate manner, and may do so only if it is necessary for the services it provides. It must disclose the purpose, method and scope of any such collection or use, and must seek consent from the relevant individuals. ICP operators are also required to publish their policies relating to information collection and use, must keep such information strictly confidential, and must take technological and other measures to ensure the safety of such information. ICP operators are further prohibited from divulging, distorting or destroying of any such personal electronic information, or selling or proving such information to other parties. The decision also requires that ICP operators providing information publishing services must collect from users their personal identification information, for registration. In very broad terms, the decision provides that violators may face warnings, fines, confiscation of illegal gains, license revocations, filing cancellations and website closures.

To comply with these laws and regulations, we require our users to accept a user term whereby they agree to provide certain personal information to us, and have established information security systems to protect users' privacy and have filed them with the MIIT or its local branch as required. However, due to the significant amount of content uploaded by users on a daily basis, we cannot ensure that no content uploaded by our users will infringe the privacy rights of any third party without receiving notice from such third party. If our ICP operators violate PRC laws in this regard, the MIIT or its local bureaus may impose penalties and the ICP operators may be liable for damages caused to their users. See Item 3.D Risk Factors Risks Related to Our Business and Industry Concerns about collection and use of personal data could damage our reputation and deter current and potential users from using our services.

Regulations on Online Game Operations

Online Game Publishing and Operation

Online games operation is covered extensively by a number of existing laws and regulations issued by various PRC governmental authorities, including the MIIT, the GAPP and the Ministry of Culture.

On December 30, 1997, the GAPP issued the Rules for the Administration of Electronic Publications. These rules were later replaced by new rules effective April 15, 2008. The rules regulate the production, publishing and importation of electronic publications in the PRC and outline a licensing system for business operations involving electronic publishing. Under these rules and other regulations issued by the GAPP, online games are classified as a kind of electronic production and publishing of online games is required to be done by licensed electronic publishing entities with standard publication codes. If a PRC company is contractually authorized to publish foreign electronic publications, it must obtain the approval of, and register the copyright license contract with, the GAPP.

The GAPP and the MIIT jointly promulgated the Tentative Measures for Internet Publication Administration, or the Internet Publishing Rules, on June 27, 2002, which took effect on August 1, 2002 and imposed a license requirement for any company that intends to engage in internet publishing, defined as any act by an internet information service provider to select, edit and process content or programs and to make such content or programs publicly available on the internet. Since the provision of online games is deemed to be an internet publication activity, an online game operator needs to obtain an internet publishing license in order to directly make its online games publicly available in the PRC. In connection with the corporate restructuring of our online games business, we are in the process of applying for such license for Renren Games with the GAPP.

On February 17, 2011, the Ministry of Culture issued the Provisional Regulations for the Administration of Online Culture, which took effect on April 1, 2011. This regulation applies to entities engaging in activities related to online cultural products, including music and video files, internet games, animation features and audiovisual products, performed plays and artwork converted for dissemination via the internet. Pursuant to these regulations, commercial entities are required to apply to the relevant local branch of the Ministry of Culture for an Online Culture Operating Permit if they engage in any of the following types of activities:

- the production, duplication, importation, publication or broadcasting of online cultural products;

- the dissemination of cultural products on the internet or transmission thereof to (i) client end devices such as computers, fixed-line or mobile phones, television sets or games consoles, and (ii) places offering internet access services such as internet cafes for the purpose of browsing, reading, using or downloading such products; or

- the exhibition or holding of contests related to online cultural products.

On July 1, 2009, the GAPP issued the Notice on Strengthening the Approval and Administration of Imported Online Games. Pursuant to this notice, GAPP is the only competent approval authority authorized by the State Council for imported online games authorized by offshore copyright owners. Any enterprise engaging in online game publication or operation within China must undergo examination and approval by the GAPP and obtain the relevant internet publication service license. Moreover, the showing, exhibiting, trading or promoting of offshore online games in China also must be examined and approved by the GAPP.

On September 7, 2009, the State Commission Office for Public Sector Reform issued the Notice on Interpretation of the State Commission Office for Public Sector Reform on Several Provisions Relating to Animation, Online Games and Comprehensive Law Enforcement in the Culture Market in the Three Provisions jointly promulgated by the Ministry of Culture, the SARFT and the GAPP. According to this notice, the GAPP is responsible for the examination and approval of online games that will be uploaded on the internet, while after the uploading, such online games shall be regulated by the Ministry of Culture. The notice further clarifies that the GAPP is responsible for the examination and approval of game publications authorized by offshore copyright owners to be uploaded on the internet, while other imported online games shall be examined and approved by the Ministry of Culture.

Table of Contents

On September 28, 2009, the GAPP, the National Copyright Administration, and the National Office of Combating Pornography and Illegal Publications jointly published the Further Strengthening of the Administration of Pre-examination and Approval of Online Games and the Examination and Approval of Imported Online Games, or the GAPP Notice. According to this notice, where new versions, expansion packs or new content shall be updated for online games that have been approved by the GAPP, the operating entity shall undertake the same examination and approval procedures with the GAPP as would be applicable to new content. The GAPP Notice further emphasizes the GAPP's examination and approval authority over online games, and defines online games as all games interactively played via internet (including cable internet and wireless mobile telecommunication networks) or provided via the internet for downloading, including without limitation, MMORPGs, web-based games (web games), casual games, online downloads of offline games, games with networking functions, game platforms for online network play and mobile online games. Pursuant to the Internet Publishing Rules, the GAPP requires every entity wishing to operate online games to hold an Online Publishing Permit, which specifically authorizes the publishing of games on the internet.

The Ministry of Culture issued the Interim Measures for Online Game Administration effective August 1, 2010. These measures define online games as game products and services composed of software programs and information databases, provided via the internet or mobile networks or other information networks.

To comply with these regulations, each of Qianxiang Wangjing and Qianxiang Changda possesses an Online Culture Operating Permit, and Qianxiang Changda holds an Internet Publishing License. In connection with the corporate restructuring of our online games business, Renren Games has obtained an Online Culture Operating Permit and will apply for an Internet Publishing Permit.

The GAPP Notice also restates that foreign investors are not permitted to invest in online game operating businesses in China via wholly owned, equity joint venture or cooperative joint venture investments and expressly prohibits foreign investors from gaining control over or participating in domestic online game operators through the establishment of other joint venture companies, or contractual or technical arrangements.

Based on the advice of TransAsia Lawyers, our PRC legal counsel, the corporate structure of our consolidated affiliated entities and our subsidiary in China comply with all existing PRC laws and regulations. However, it is unclear whether the GAPP will deem our corporate structure and operations to be in violation of these provisions. If they are, our corporate structure and operations may be challenged by the GAPP. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of our Business. If the PRC government finds that the agreements that establish the structure for operating our services in China do not comply with PRC governmental restrictions on foreign investment in internet businesses, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations. If we are found to be in violation of any existing or future PRC laws or regulations, including the Notice of the MIIT on Intensifying the Administration of Foreign Investment in Value-added Telecommunications Services and the GAPP Notice, the relevant regulatory authorities would have broad discretion in dealing with such a violation, including taking actions such as levying fines, confiscating our income, revoking Renren Games's business or operating licenses, requiring us to restructure the relevant ownership structure or operations or requiring us to discontinue all or any portion of our game operations. Any of these actions could cause significant disruption to our business operations.

Regulatory Developments Relating to Web-Based Games

We are both a game operator and a third-party platform provider and operate web-based games under two models:

Edgar Filing: Renren Inc. - Form 20-F

- Self-developed games launched on our platform;
- Cooperation with third-party online game developers to launch their games on our platform. For this model, the developer must register any software copyrights and be responsible for game maintenance and customer service.

Prior to the promulgation of the GAPP Notice and the Interim Measures for Online Game Administration, both the GAPP and the Ministry of Culture attempted to regulate the operation and operators of MMORPGs, and there was no specific regulation or policy that included web-based games as online games. However, due to the growing popularity of social and web-based games, these games are coming under increasing scrutiny with efforts being made to limit the role and impact of foreign companies in this sector. The GAPP and the Ministry of Culture have both indicated that social and web-based games should be regulated similarly to other online games. However, this principle has not been strictly enforced in respect of social and web-based games published through third-party platforms and SNS websites.

Table of Contents

In addition, according to the Provisional Regulations for the Administration of Online Culture, domestically developed online games are required to be filed with the Ministry of Culture. Most major players in the online games industry typically publish their online games in cooperation with traditional publishing houses. This is known as the Traditional Publishing Entity Model, and is also acceptable to the GAPP in practice. In light of this continuing uncertainty, it has been reported that the GAPP is considering promulgating new regulations soon, which would seek to improve the administration of internet publishing activities by requiring all private entities engaging in such activities including those already operating without an Internet Publishing Permit to obtain one and thus be subject to the GAPP's monitoring and regulatory control.

To keep up with developments in the regulation of web-based games, we have already filed with the Ministry of Culture certain online games that we developed and with the GAPP for the imported games available on our SNS website, and will continue such filings for these types of games. However, we cannot assure you as to whether our understanding of the applicability and scope of such filings is correct as the interpretation and enforcement of the applicable laws and regulations by the GAPP and Ministry of Culture are still evolving.

The consequences of operating a web-based game without the relevant approvals or filings remain uncertain. Moreover, due to the numerous web-based games launching on our platform, we cannot assure you that all such games have been or can be approved by the GAPP or its provincial bureaus prior to their launching, or have been or can be filed with the Ministry of Culture. Therefore, if we are found to be in violation of such approval and/or filing requirements, the GAPP, the Ministry of Culture or their respective local branches could impose penalties. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of Our Business Changes in government policies or regulations may have material and adverse impact on our business, financial condition and results of operations.

Online Game Censorship and Imported Games

On May 14, 2004, the Ministry of Culture issued the Notice Regarding the Strengthening of Online Game Censorship. This notice mandates the establishment of a new committee under the Ministry of Culture that will screen the content of imported online games. In addition, all imported and domestic online games are required to be examined and filed with the Ministry of Culture.

On July 12, 2005, the Ministry of Culture and the MIIT promulgated the Opinions on the Development and Administration of Online Games, reflecting the government's intent to both foster and control the development of the online game industry in China. In addition, the Ministry of Culture will censor online games that threaten state security, disturb the social order, or contain obscenity or violence.

On November 13, 2009, the Ministry of Culture issued its Notice Regarding Improving and Strengthening the Administration of Online Game Content (or the Online Game Content Notice). This notice calls for online game operators to improve and innovate their game models. Emphasis is placed specifically on the following: (i) mitigating the pre-eminence of the upgrade by monster fighting model, (ii) imposing more severe restraints on the player kill model (i.e., where one player's character attempts to kill another player's character), (iii) restricting in-game marriages among game players, and (iv) improving the enforcement of the legal requirements for the registration of minors and games time-limits.

The Online Game Content Notice also requires online game operators to set up committees to carry out game content self-censorship. The person responsible for such self-censorship must receive training from the Ministry of Culture or its local department/counterpart. The Ministry of Culture also intends to introduce a training and evaluation system for the persons in charge of research and development and operations at online game companies. This system is expected to be launched within two years. In addition, the Ministry of Culture intends to formulate

Edgar Filing: Renren Inc. - Form 20-F

technical standards and norms for game development, in order to provide technological support for original domestic games. The development and operation of thoughtful and educational online games is also to be encouraged.

The Interim Measures for Online Game Administration require that domestic online games must be filed with the Ministry of Culture within 30 days of their initial launch and in case of any substantial change (for example, any prominent modification to a game's storyline, language, tasks or trading system). These measures also require that all imported online games be subject to content review prior to their launch.

Table of Contents

Pursuant to the Provisional Regulations for the Administration of Online Culture, an Online Game Import Approval must be obtained from the GAPP before a game is launched in China. The GAPP handles applications for such approval through its provincial branches. The local provincial bureau of the GAPP will review an application and forward it to the GAPP for approval within 20 days of its own decision, together with a preliminary approval document. These provisional regulations also require that imported online games be subject to content review and approval by the Ministry of Culture. On May 14, 2004, the Ministry of Culture issued the Notice Regarding the Strengthening of Online Game Censorship. This notice mandates the establishment of a new committee, called the Committee for the Censorship of the Content of Imported Game Products, under the Ministry of Culture, which will be responsible for the censorship of politically sensitive content in imported online games. This committee will also be responsible for censoring games that threaten national security, disturb social order, distort historical facts or infringe on third-party intellectual property rights.

To comply with these requirements, we carry out game content self-censorship. We have also filed with the Ministry of Culture and/or GAPP certain online games that we developed and those imported games available on our SNS website, and will continue to do so. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of Our Business Changes in government policies or regulations may have material and adverse impact on our business, financial condition and results of operations.

Anti-Fatigue System and the Real Name Registration System

On April 15, 2007, the MIIT, the GAPP, the Ministry of Education and five other government authorities jointly issued the Notice on the Implementation of Online Game Anti-Fatigue System to Protect the Physical and Psychological Health of Minors, or the Anti-Fatigue Notice. Pursuant to the Anti-Fatigue Notice, online game operators are required to install an anti-fatigue system that discourages game players from playing games for more than five hours per day. Under the anti-fatigue system, three hours or less of continuous play by minors is considered to be healthy, three to five hours to be fatiguing, and five hours or more to be unhealthy. Game operators are required to reduce the value of in-game benefits to a game player by half if the player has reached the fatiguing level, and to zero for the unhealthy level.

To identify whether a game player is a minor and thus subject to the anti-fatigue system, a real name registration system also must be used. This requires online game players to register their identity and requires us to submit such identity information to the public security authorities for verification.

On January 15, 2011, the Ministry of Culture, the MIIT and six other central government authorities jointly issued a circular entitled Implementation of Online Game Monitor System of the Guardians of Minors, or the Monitor System Circular, aiming to provide specific protection measures to monitor the online game activities of minors and curb addictive online game play behaviors of minors. Under the Monitor System Circular, online game operators are required to adopt various measures to maintain a system to communicate with the parents or other guardians of minors playing online games and online game operators are required to monitor the online game activities of minors, and must suspend the account of a minor if so requested by the minor's parents or guardians. The monitoring system was formally implemented on March 1, 2011.

On July 1, 2011, the GAPP, the MIIT, the Ministry of Education and five other governmental authorities issued a Notice on Initializing the Verification of Real-name Registration for Anti-Fatigue System on Internet Games, or the Real-name Registration Notice, which took effect on October 1, 2011, to strengthen the implementation of the anti-fatigue system and real-name registration. The Real-name Registration Notice's main focus is to prevent minors from using an adult ID to play internet games and, accordingly, the Real-name Registration Notice imposes stringent punishments on online game operators that do not implement the required anti-fatigue and real-name registration measures properly.

and effectively. The most severe punishment under the Real-name Registration Notice is to require termination of the operation of the online game if the operator is found to be in violation of the Anti-Fatigue Notice, the Monitor System Circular or the Real-name Registration Notice.

We have developed our own anti-fatigue and real name registration systems, which have been in place since December 2007. As renren.com is a real name system, game players are required to use their real identification to create accounts. For game players who do not provide age information, we assume that they are minors. In order to comply with the anti-fatigue rules, after three hours of play, users under 18 years of age only receive only half of the experience or other benefits they would otherwise earn. After five hours of play, minors receive no experience points. These restrictions could limit our ability to increase our online games business among minors. Furthermore, if these restrictions were expanded to apply to adult game players in the future, our online games business could be affected. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of Our Business Our operations may be adversely affected by implementation of new anti-fatigue-related regulations. In connection with the corporate restructuring relating to our online games business, Renren Games will use our own anti-fatigue and real name registration systems in its operation.

Table of Contents

Virtual Currency and Virtual Items

On February 15, 2007, the Ministry of Culture, the People's Bank of China and other relevant government authorities jointly issued the Notice on the Reinforcement of the Administration of Internet Cafés and Online Games. Under this notice, the People's Bank of China is directed to strengthen the administration of virtual currency in online games to avoid any adverse impact on the real economic and financial systems. This notice provides that the total amount of virtual currency issued by online game operators and the amount purchased by individual users should be strictly limited, with a strict and clear division between virtual transactions and real e-commerce transactions. This notice also provides that virtual currency should only be used to purchase virtual items.

On June 4, 2009 the Ministry of Culture and the Ministry of Commerce jointly issued the Notice on the Strengthening of Administration on Online Game Virtual Currency. Virtual currency is broadly defined in the Notice as a type of virtual exchange instrument issued by internet game operation enterprises, purchased directly or indirectly by the game user by exchanging legal currency at a certain exchange rate, saved outside the game programs, stored in servers provided by the internet game operation enterprises in electronic record format and represented by specific numeric units. Virtual currency is used to exchange internet game services provided by the issuing enterprise for a designated extent and time, and is represented by several forms, such as online prepaid game cards, prepaid amounts or internet game points, and does not include game props obtained from playing online games. Notably, game props (i.e., virtual items or equipment used in a particular game), are explicitly excluded from the above definition. The notice specifically states that game props should not be confused with virtual currency and that the Ministry of Culture, jointly with other authorities, will issue separate rules to govern them.

On July 20, 2009, the Ministry of Culture promulgated the Filing Guidelines on Online Game Virtual Currency Issuing Enterprises and Online Game Virtual Currency Trading Enterprises, which specifically defines issuing enterprise and trading enterprise and stipulates that a single enterprise may not operate both types of business.

Further clarifying virtual currency operations, the Ministry of Culture establishes in the Interim Measures for Online Game Administration that the issuance of virtual currency falls within the scope of online game operations and those operators shall thus be subject to relevant Online Culture Operating Permit requirements.

In addition, when applying for an Online Culture Operating Permit or for permission to issue virtual currency, a virtual currency issuer must file detailed information about its currency with the Ministry of Culture, including form, extent of circulation, unit purchase price, and how the virtual currency will be refunded upon termination of services. Issuers are prohibited from altering the unit purchase price of the virtual currency after filing, and must complete filing procedures with the Ministry of Culture or its local counterparts before issuing new types of virtual currency.

Each of Qianxiang Wangjing and Qianxiang Changda possess Online Culture Operating Permits with a business scope encompassing the issuance of virtual currency. In connection with the corporate restructuring relating to our online games business, Renren Games obtained an Online Culture Operating Permit with a business scope encompassing the issuance of virtual currency on December 28, 2011. Each of Qianxiang Wangjing, Qianxiang Changda and Renren Games must also make certain filings with the Ministry of Culture prior to the issuance of virtual currency and conduct their respective businesses in compliance with PRC law.

Regulations on Advertisements

The PRC government regulates advertising, including online advertising, principally through the State Administration for Industry and Commerce, although there is no PRC law or regulation at the national level that specifically regulates the online advertising business. Prior to November 30, 2004, in order to conduct any advertising business, an enterprise was required to hold an operating license for advertising in addition to a relevant business license. On November 30, 2004, the State Administration for Industry and Commerce issued the Administrative Rules for Advertising Operation Licenses, effective as of January 1, 2005, granting a general exemption to this requirement for most enterprises (other than radio stations, television stations, newspapers and magazines, non-corporate entities and entities specified in other regulations). Because Qianxiang Tiancheng, Qianxiang Wangjing and Beijing Nuomi qualify for the exemption noted above, they are not required to hold an advertising operation license.

Table of Contents

Under the Rules for Administration of Foreign Invested Advertising Enterprises, which were jointly promulgated by the State Administration for Industry and Commerce and the Ministry of Commerce on March 2, 2004 and amended on August 22, 2008, certain foreign investors are permitted to hold direct equity interests in PRC advertising companies. A foreign investor in a Chinese advertising company is required to have previously had direct advertising operations as its main business outside of China for two years if the Chinese advertising company is a joint venture, or three years if the Chinese advertising company is a wholly foreign-owned enterprise. In practice, the foreign investor is deemed compliant with the main business requirement if it derives more than 50% of its revenues from advertising business within the past two or three years, as applicable. Since we have not been involved in the advertising industry outside of China for the required number of years, we are not permitted to hold direct equity interests in PRC companies engaging in the advertising business. Therefore, we conduct our advertising business through consolidated affiliated entities in China, namely Qianxiang Tiancheng, Qianxiang Wangjing, Beijing Nuomi and Qianjun Technology.

Advertisers, advertising operators and advertising distributors are required by PRC advertising laws and regulations to ensure that the content of the advertisements they produce or distribute are true and in full compliance with applicable laws and regulations. In addition, where a special government review is required for certain categories of advertisements before publishing, the advertisers, advertising operators and advertising distributors are obligated to confirm that such review has been duly performed and that the relevant approval has been obtained. Violation of these regulations may result in penalties, including fines, confiscation of advertising income, orders to cease dissemination of the advertisements and orders to publish an advertisement correcting the misleading information. In circumstances involving serious violations, the State Administration for Industry and Commerce or its local branches may order the violator to terminate its advertising operation or even revoke its business license. Furthermore, advertisers, advertising operators or advertising distributors may be subject to civil liabilities if they infringe on the legal rights and interests of third parties. To comply with these laws and regulations, we include clauses in all of our advertising contracts requiring that all advertising content provided by advertisers must comply with relevant laws and regulations. Under PRC law, the advertising agencies are liable for all damages to us caused by their breach of such representations. Prior to website posting, our account execution personnel are required to review all advertising materials, including video commercials, flashes and pictures to ensure there is no violent, pornographic or any other improper content, and will request the advertiser to provide government approval if the advertisement is subject to special government review.

On July 8, 2004, the State Food and Drug Administration promulgated the Administration Measures on Internet Drug Information Services, which require that internet operators providing drug information services obtain approval from the competent food and drug administration and that drug advertisements be examined and approved by the competent food and drug administration as well. Each of Qianxiang Wangjing, Beijing Nuomi and Qianjun Technology holds an Internet Drug Information Service Permit.

Regulation on Social Commerce

On March 12, 2012, the State Administration for Industry and Commerce issued the Opinions on Strengthening the Administration of Online Social Commerce Operations, or the Social Commerce Operation Opinions. The Social Commerce Operation Opinions stipulate the qualification requirements for operators of social commerce websites, and certain other obligations, such as an examination of the licenses/authorizations of the providers of the relevant products/services offered on the social commerce website, the social commerce website operator's contracts with such suppliers and customers, data protection for consumers, and after sale services, among other items.

Pursuant to the Social Commerce Operation Opinions, operators of social commerce websites must complete all relevant registrations, obtain a relevant business license and disclose or link to the business license information in a prominent place on the homepage of the website. Social commerce websites without business licenses are prohibited. Social commerce website with business licenses but engaged in business operations in violation of the relevant PRC laws and regulations will be punished or may have their business licenses revoked.

Table of Contents

The Social Commerce Operation Opinions require operators of social commerce websites to offer for sale only services and products from entities and individuals with a relevant business license and the necessary regulatory authorizations and that such operators must examine such licenses/authorizations, maintain records of all of their suppliers and update such records in a timely fashion. In addition, the descriptions of any goods and services must be accurate and complete.

The Social Commerce Operation Opinions also stipulate certain requirements for the contracts that the operators of social commerce websites may enter into with suppliers and customers. Supplier contracts must be detailed and specify adequate quality assurances and consumer protection. Contracts with customers must comply with relevant laws and regulations and may not exempt the operator from any material obligations. The key provisions must also be highlighted for customers.

The Social Commerce Operation Opinions require the social commerce website operators to establish data protection systems and not to knowingly disclose any confidential information relating to their suppliers or customers.

Under the Social Commerce Operation Opinions, operators of social commerce websites must (i) establish a comprehensive after-sales service system, consumer dispute settlement system and professional customer service team, (ii) ensure that their complaint and customer support channels are smooth, and (iii) provide customers with troubleshooting assistance and feedback in a timely manner.

In addition, under the Social Commerce Operation Opinions, operators of social commerce websites must observe the refund requirements of the Consumer Protection Law. Specifically, social commerce website operators may not impose no-refund restrictions or restrict refunds to website credit.

Social commerce website operators must also preserve all relevant data for a period of two years following their cessation of operations. In undertaking promotions, operators of social commerce websites must obey the Anti-unfair Competition Law and the Certain Regulations on Prohibiting Unfair Competition in Prize-attached Sales.

Regulations on Online Music

On November 20, 2006, the Ministry of Culture issued Several Suggestions of the Ministry of Culture on the Development and Administration of Internet Music. This document, among other things, reiterates the requirement for an internet service provider to obtain an internet culture business permit to carry out any business relating to internet music products. In addition, foreign investors are prohibited from operating internet culture businesses. However, the laws and regulations on internet music products are still evolving, and there have not been any provisions stipulating whether or how this document will regulate music videos.

On August 18, 2009, the Ministry of Culture promulgated the Notice on Strengthening and Improving the Content Review of Online Music. According to this notice, only internet culture operating entities approved by the Ministry of Culture may engage in the production, release, dissemination (including providing direct links to music products) and importation of online music products. The content of online music shall

Edgar Filing: Renren Inc. - Form 20-F

be reviewed by or filed with the Ministry of Culture. Internet culture operating entities should establish a strict self-monitoring system of online music content and set up a special department in charge of such monitoring.

With respect to the above, we have obtained relevant licenses from third parties and provide online music to our users through our SNS website. Qianxiang Wangjing has been granted an Online Culture Operating Permit, the scope of which covers online games and online music operations. If any music provided through our website is found to be in violation of the filings and/or approvals required, we could be requested to cease providing such music or be subject to penalties from the Ministry of Culture or its local branches.

Regulations on Broadcasting Audio/Video Programs through the Internet

On July 6, 2004, the SARFT promulgated the Rules for the Administration of Broadcasting of Audio/Video Programs through the Internet and Other Information Networks, or the A/V Broadcasting Rules. These rules apply to the launch, broadcasting, aggregation, transmission or download of audio/video programs via televisions, mobile phones and the internet and other information networks. Anyone who wishes to engage in internet broadcasting activities must first obtain an audio/video program transmission license, with a term of two years, issued by the SARFT and operate pursuant to the scope as provided in such license. Foreign invested enterprises are not allowed to engage in the above business.

On April 13, 2005, the State Council announced Several Decisions on Investment by Non-state-owned Companies in Culture-related Business in China. These decisions encourage and support non-state-owned companies to enter certain culture-related business in China, subject to restrictions and prohibitions for investment in audio/video broadcasting, website news and certain other businesses by non-state-owned companies. These decisions authorize the SARFT, the Ministry of Culture and the General Administration of Press and Publication to adopt detailed implementation rules according to these decisions.

On December 20, 2007, the SARFT and the MIIT jointly issued the Rules for the Administration of Internet Audio and Video Program Services, commonly known as Circular 56, which came into effect as of January 31, 2008. Circular 56 reiterates the requirement set forth in the A/V Broadcasting Rules that online audio/video service providers must obtain a license from the SARFT. Furthermore, Circular 56 requires all online audio/video service providers to be either wholly state-owned or state-controlled. According to relevant official answers to press questions published on the SARFT's website dated February 3, 2008, officials from the SARFT and the MIIT clarified that online audio/video service providers that already had been operating lawfully prior to the issuance of Circular 56 may re-register and continue to operate without becoming state-owned or controlled, provided that such providers have not engaged in any unlawful activities. This exemption will not be granted to online audio/video service providers established after Circular 56 was issued. Such policies have been reflected in the Application Procedure for Audio/Video Program Transmission License.

Qianjun Technology, the operator of our 56.com online video website, holds an Audio/Video Program Transmission License. In addition, through 56.com and other video websites, users of renren.com can upload, view and share videos, which can be shown on a user's page on renren.com. No online video-related PRC regulations have clearly specified whether this type of practice would be subject to any licensing or permit requirements. If so, we may need to apply for a permit or license in the future. In addition, there is a risk that third parties may initiate intellectual property infringement claims for the videos shared on our platform.

Through 56.com, our user generated content online video sharing website, our users can upload, view and share videos. No online video-related PRC regulations have clearly specified whether this type of practice would be subject to any licensing or permit requirements. If so, we may need to apply for a permit or license in the future. In addition, there is a risk that third parties may initiate intellectual property infringement claims for the videos shared on our platform.

Regulations on Internet Mapping Services

Edgar Filing: Renren Inc. - Form 20-F

According to the Administrative Rules of Surveying Qualification Certificates and the amended Standard for Internet Map Services issued by the National Administration of Surveying, Mapping and Geoinformation, or NASMG, in March 2009 and May 2010, respectively, the provision of internet mapping services by any non-surveying and mapping enterprise is subject to the approval of the NASMG and requires a surveying and mapping qualification certificate. According to these rules, certain conditions and requirements, such as a minimum number of technical and map security verification personnel, security facilities, and approval from relevant provincial or national governments of the service provider's security, qualification management and filing management systems, must be complied with by an enterprise applying for a Surveying and Mapping Qualification Certificate. Pursuant to the Notice on Further Strengthening the Administration of Internet Map Services Qualifications issued by the NASMG in December 2011, any entity that has not yet applied for a surveying qualification certificate for internet mapping services is prohibited from providing any internet mapping services. Qianxiang Wangjing holds a Surveying and Mapping Qualification Certificate for internet mapping.

Table of Contents

Regulations on Intellectual Property Rights

China has adopted legislation governing intellectual property rights, including trademarks, patents and copyrights. China is a signatory to the major international conventions on intellectual property rights and became a member of the Agreement on Trade Related Aspects of Intellectual Property Rights upon its accession to the World Trade Organization in December 2001.

Patent. The National People's Congress adopted the Patent Law in 1984, and amended it in 1992, 2000 and 2008. The purpose of the Patent Law is to protect lawful interests of patent holders, encourage invention, foster applications of invention, enhance innovative capabilities and promote the development of science and technology. To be patentable, invention or utility models must meet three conditions: novelty, inventiveness and practical applicability. Patents cannot be granted for scientific discoveries, rules and methods for intellectual activities, methods used to diagnose or treat diseases, animal and plant breeds, substances obtained by means of nuclear transformation or a design which has major marking effect on the patterns or colors of graphic print products or a combination of both patterns and colors. The Patent Office under the State Intellectual Property Office is responsible for receiving, examining and approving patent applications. A patent is valid for a term of twenty years in the case of an invention and a term of ten years in the case of utility models and designs. A third-party user must obtain consent or a proper license from the patent owner to use the patent. Otherwise, the use constitutes an infringement of patent rights.

We have obtained one patent granted by the State Intellectual Property Office.

Copyright. The National People's Congress adopted the Copyright Law in 1990 and amended it in 2001 and 2010, respectively. The amended Copyright Law extends copyright protection to internet activities, products disseminated over the internet and software products. In addition, there is a voluntary registration system administered by the China Copyright Protection Center. The amended Copyright Law also requires registration of a copyright pledge.

To address the problem of copyright infringement related to the content posted or transmitted over the internet, the National Copyright Administration and the MIIT jointly promulgated the Measures for Administrative Protection of Copyright Related to Internet on April 29, 2005. This measure became effective on May 30, 2005.

This measure applies to situations where an ICP operator (i) allows another person to post or store any works, recordings or audio or video programs on the websites operated by such ICP operator, or (ii) provides links to, or search results for, the works, recordings or audio or video programs posted or transmitted by such person, without editing, revising or selecting the content of such material. Upon receipt of an infringement notice from a legitimate copyright holder, an ICP operator must take remedial actions immediately by removing or disabling access to the infringing content. If an ICP operator knowingly transmits infringing content or fails to take remedial actions after receipt of a notice of infringement harming public interest, the ICP operator could be subject to administrative penalties, including: cessation of infringement activities; confiscation by the authorities of all income derived from the infringing activities; and payment of a fine of up to three times the unlawful income or, in cases where the amount of unlawful income cannot be determined, a fine of up to RMB100,000. An ICP operator is also required to retain all infringement notices for a minimum of six months and to record the content, display time and IP addresses or the domain names related to the infringement for a minimum of 60 days. Failure to comply with this requirement could result in an administrative warning and a fine of up to RMB30,000.

Edgar Filing: Renren Inc. - Form 20-F

On May 18, 2006, the State Council promulgated the Protection of the Right of Communication through Information Networks, which became effective on July 1, 2006. Under this regulation, with respect to any information storage space, search or link services provided by an internet service provider, if the legitimate right owner believes that the works, performance or audio or video recordings pertaining to that service infringe his or her rights of communication, the right owner may give the internet service provider a written notice containing the relevant information along with preliminary materials proving that an infringement has occurred, and requesting that the internet service provider delete, or disconnect the links to, such works or recordings. The right owner will be responsible for the truthfulness of the content of the notice.

Upon receipt of the notice, the internet service provider must delete or disconnect the links to the infringing content immediately and forward the notice to the user that provided the infringing works or recordings. If the written notice cannot be sent to the user due to the unknown IP address, the contents of the notice shall be publicized via information networks. If the user believes that the subject works or recordings have not infringed others' rights, the user may submit to the internet service provider a written explanation with preliminary materials proving non-infringement, and a request for the restoration of the deleted works or recordings. The internet service provider should then immediately restore the deleted or disconnected content and forward the user's written statement to the right owner.

Table of Contents

An internet service provider that provides information storage space to users through which users may provide works, performance or audio or video recordings to the public will be exempted from liability for compensation to rights owners where the following conditions apply (i) the internet service provider has clearly indicated that the information storage space is provided to users, and published the name, contact person and IP address of the network service provider; (ii) it has not altered the works or recordings provided by users; (iii) it did not know, or could not reasonably have been expected to know, that the content provided by users infringed other s rights; (iv) it has not received any direct financial gain from the users provision of the content; and (v) it deletes the allegedly infringing content upon receiving written notice from the rights owners. An internet service provider that provides users with search or link services will be exempted from liability for compensation to rights owners if the internet service provider promptly disconnects the link to the infringing content after receiving the rights owner s notice. This exemption is not valid however if the internet service provider knew or should know that the linked content infringed another s rights; in that case, it will be jointly liable with the user who provided the content.

Since 2005, the National Copyright Administration and certain other PRC governmental authorities have jointly launched annual campaigns specifically aimed to crack down on internet copyright infringement and piracy in China, which normally last for three to four months every year. According to the Notice of 2010 Campaign to Crack Down on Internet Infringement and Piracy promulgated by the National Copyright Administration, the Ministry of Public Security and the MIIT on July 19, 2010, one of the main targets, among others, of the 2010 campaign is internet audio and video programs. Since the 2010 campaign commenced in late July, the local branches of the National Copyright Administration have been focusing on popular movies and television series, newly published books, online games and animation, music and software and illegal uploading or transmission of a third party s works without proper license or permission, sales of pirated audio/video and software through e-commerce platforms, providing search links, information storage, web hosting or internet access services for third parties engaging in copyright infringement or piracy and the infringement by use of mobile media. In serious cases, the operating permits of the websites engaging in illegal activities may be revoked, and such websites may be ordered to shut down.

We have adopted measures to mitigate copyright infringement risks. For example, our policy is to remove links to web pages if we know these web pages contain materials that infringe third-party rights or if we are notified by the legitimate copyright holder of the infringement with proper evidence.

On December 26, 2009, the Standing Committee of the National People s Congress adopted the Torts Liability Law, which became effective on July 1, 2010. Under this new law, both internet users and internet service providers may be liable for the wrongful acts of users who infringe the lawful rights of other parties. If an internet user utilizes internet services to commit a tortious act, the party whose rights are infringed may request the internet service provider to take measures, such as removing or blocking the content, or disabling the links thereto, to prevent or stop the infringement. If the internet service provider does not take necessary measures after receiving such notice, it shall be jointly liable for any further damages suffered by the rights holder. Furthermore, if an internet service provider fails to take necessary measures when it knows that an internet user utilizes its internet services to infringe the lawful rights and interests of other parties, it shall be jointly liable with the internet user for damages resulting from the infringement.

To address issues related to the hearing of civil disputes concerning the infringement of the right of communication through information networks, the PRC Supreme People s Court promulgated the Provisions on Several Issues Concerning the Application of Law in Hearings of Civil Dispute Cases on the Infringement of Information Networking Transmission Rights, which took effect as of January 1, 2013. These provisions provide more detailed guidance as to the circumstances in which the provision by network users or network service providers of other s works, performances, and audio or video products without permission from the rights owner constitutes infringement of information network transmission rights. These provisions provide that internet service providers will be jointly liable if they assist in infringing activities, or fail to remove infringing content from their websites once they know of the infringement or receive notice from the rights holder. These provisions also hold that where a network service provider obtains economic advantage directly from the works, performances, and sound or visual recordings provided by the network service provider, it must pay close attention to any network user infringement of network information transmission rights.

Table of Contents

On October 27, 2000, the MIIT issued the Administrative Measures on Software Products to strengthen the regulation of software products and to encourage the development of the PRC software industry. The MIIT later issued amended measures effective April 10, 2009. These measures provide a registration and filing system with respect to software products made in or imported into China. These software products may be registered with the competent local authorities in charge of software industry administration. Registered software products may enjoy preferential treatment status granted by relevant software industry regulations. Software products can be registered for five years, and the registration is renewable upon expiration.

In order to further implement the Computer Software Protection Regulations promulgated by the State Council on December 20, 2001, the National Copyright Administration of the PRC issued Computer Software Copyright Registration Procedures on February 20, 2002, which apply to software copyright registration, license contract registration and transfer contract registration.

In compliance with, and in order to take advantage of, the above rules, we have registered 80 computer software copyrights.

Trademark. The PRC Trademark Law, adopted in 1982 and revised in 1993 and 2001, protects registered trademarks. The Trademark Office under the State Administration for Industry and Commerce handles trademark registrations and grants a term of ten years for registered trademarks. Trademark license agreements must be filed with the Trademark Office for record. *renren* is a registered trademark in China. We have also registered additional trademarks and logos, including a new version of *renren56.com*, *renren56.com*, and *renren56.com*, with the Trademark Office.

Domain Names. In September 2002, the CNNIC issued the Implementing Rules for Domain Name Registration setting forth detailed rules for registration of domain names. On November 5, 2004, the MIIT promulgated the Measures for Administration of Domain Names for the Chinese Internet, or the Domain Name Measures. These measures regulate the registration of domain names, such as the first tier domain name *.cn*. In February 2006, the CNNIC issued the Measures on Domain Name Dispute Resolution and its implementing rules, pursuant to which the CNNIC can authorize a domain name dispute resolution institution to decide disputes. We have registered domain names including *renren.com*, *nuomi.com*, *xiaonei.com*, *jingwei.com*, *chewen.com*, *98un.com*, *jiexi.com* and *56.com*.

Regulations on Foreign Exchange

Foreign exchange activities in China are primarily governed by the following regulations:

- the Foreign Currency Administration Rules (2008); and
- the Administration Rules for the Settlement, Sale and Payment of Foreign Exchange (1996).

Edgar Filing: Renren Inc. - Form 20-F

Under the Foreign Currency Administration Rules, if documents certifying the purposes of the conversion of RMB into foreign currency are submitted to the relevant foreign exchange conversion bank, the RMB will be convertible for current account items, including the distribution of dividends, interest and royalties payments, and trade and service-related foreign exchange transactions. Conversion of RMB for capital account items, such as direct investment, loans, securities investment and repatriation of investment, however, is subject to the approval of SAFE or its local counterpart.

Under the Administration Rules for the Settlement, Sale and Payment of Foreign Exchange, foreign-invested enterprises may only buy, sell and/or remit foreign currencies at banks authorized to conduct foreign exchange business after providing valid commercial documents and, in the case of capital account item transactions, obtaining approval from SAFE or its local counterpart. Capital investments by PRC entities outside of China, after obtaining the required approvals of the relevant approval authorities, such as the Ministry of Commerce and the National Development and Reform Commission or their local counterparts, are also required to register with SAFE or its local counterpart.

Table of Contents

In utilizing the proceeds we received from our initial public offering in May 2011 in the manner described in the "Use of Proceeds" section of the prospectus in our Registration Statement on Form F-1 (File No. 333-173548), as an offshore holding company with a PRC subsidiary, we may (i) make additional capital contributions to our PRC subsidiaries, (ii) establish new PRC subsidiaries and make capital contributions to these new PRC subsidiaries, (iii) make loans to our PRC subsidiaries or consolidated affiliated entities, or (iv) acquire offshore entities with business operations in China in offshore transactions. However, most of these uses are subject to PRC regulations and approvals. For example:

- capital contributions to our PRC subsidiaries, whether existing or newly established ones, must be approved by the Ministry of Commerce or its local counterparts;
- loans by us to our PRC subsidiaries, each of which is a foreign-invested enterprise, to finance their activities cannot exceed statutory limits and must be registered with SAFE or its local branches; and
- loans by us to our consolidated affiliated entities, which are domestic PRC entities, must be approved by the National Development and Reform Commission and must also be registered with SAFE or its local branches.

On August 29, 2008, SAFE issued the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, or SAFE Circular 142. Pursuant to SAFE Circular 142, RMB resulting from the settlement of foreign currency capital of a foreign-invested enterprise must be used within the business scope as approved by the applicable government authority and cannot be used for domestic equity investment, unless it is otherwise approved. Documents certifying the purposes of the settlement of foreign currency capital into RMB, including a business contract, must also be submitted for the settlement of the foreign currency. In addition, SAFE strengthened its oversight of the flow and use of RMB capital converted from foreign currency registered capital of a foreign-invested company. The use of such RMB capital may not be altered without SAFE's approval, and such RMB capital may not be used to repay RMB loans if such loans have not been used. Violations of SAFE Circular 142 could result in severe monetary fines or penalties. We expect that after the conversion of the net proceeds from our initial public offering in May 2011 into RMB pursuant to SAFE Circular 142, our use of RMB funds have been, and will be, within the approved business scope of our PRC subsidiaries. Such business scope includes "technical services" which we believe permits our PRC subsidiary to purchase or lease servers and other equipment and to provide operational support to our consolidated affiliated entities. However, we may not be able to use such RMB funds to make equity investments in the PRC through our PRC subsidiaries. There are no costs associated with applying for registration or approval of loans or capital contributions with or from relevant PRC governmental authorities, other than nominal processing charges. Under PRC laws and regulations, the PRC governmental authorities are required to process such approvals or registrations or deny our application within a prescribed time period, which is usually less than 90 days. The actual time taken, however, may be longer due to administrative delays. We cannot assure you that we will be able to obtain these government registrations or approvals on a timely basis, if at all, with respect to our future plans to use the U.S. dollar proceeds we received from our initial public offering in 2011 for our expansion and operations in China. If we fail to receive such registrations or approvals, our ability to use the proceeds from our initial public offering and to capitalize our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and ability to fund and expand our business. See "Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of Our Business" PRC regulation of loans to, and direct investment in, PRC entities by offshore holding companies and governmental control of currency conversion may restrict or prevent us from using the proceeds of our initial public offering to make loans to our PRC subsidiaries and consolidated affiliated entities or to make additional capital contributions to our PRC subsidiaries, which may materially and adversely affect our liquidity and our ability to fund and expand our business.

Regulations on Dividend Distribution

Edgar Filing: Renren Inc. - Form 20-F

The principal regulations governing dividend distributions of wholly foreign-owned enterprises include:

- the Companies Law (2005);
- the Wholly Foreign-Owned Enterprise Law (2000); and
- the Wholly Foreign-Owned Enterprise Law Implementing Rules (2001).

Table of Contents

Under these regulations, wholly foreign-owned enterprises in the PRC may pay dividends only out of their accumulated profits as determined in accordance with PRC accounting standards and regulations. In addition, these wholly foreign-owned enterprises are required to set aside at least 10% of their respective accumulated profits each year, if any, to fund certain reserve funds, until the aggregate amount of such fund reaches 50% of its registered capital. At the discretion of these wholly foreign-owned enterprises, they may allocate a portion of their after-tax profits based on PRC accounting standards to staff welfare and bonus funds. These reserve funds and staff welfare and bonus funds are not distributable as cash dividends.

As of December 31, 2012, the registered capital of our wholly foreign-owned subsidiary Qianxiang Shiji was US\$100.0 million. Qianxiang Shiji has not made any profits to date, and thus are not subject to the statutory reserve fund requirement. Qianxiang Shiji has not and will not be able to pay dividends to our offshore entities until they generate accumulated profits and meet the requirements for statutory reserve funds. As of December 31, 2012, our PRC subsidiaries Qianxiang Shiji and Wole Technology had accumulated deficits of approximately US\$36.3 million and US\$20.9 million, respectively, in accordance with PRC accounting standards and regulations. The registered capital for Renren Network is US\$20.0 million, with paid-in capital of US\$10.0 million.

Regulations on Offshore Investment by PRC Residents

Pursuant to the SAFE Notice on Relevant Issues Concerning Foreign Exchange Administration for PRC Residents to Engage in Financing and Inbound Investment via Overseas Special Purpose Vehicles, generally known in China as SAFE Circular 75, issued on October 21, 2005: (i) a PRC citizen residing in the PRC or non-PRC citizen primarily residing in the PRC due to his or her economic ties to the PRC, who is referred to as a PRC resident in SAFE Circular 75, shall register with the local branch of SAFE before it establishes or controls an overseas special purpose company, for the purpose of overseas equity financing; (ii) when a PRC resident contributes the assets of, or its equity interests in, a domestic enterprise into an overseas special purpose company, or engages in overseas financing after contributing assets or equity interests into a special purpose company, such PRC resident shall register his or her interest in the special purpose company and the change thereof with the local branch of SAFE; and (iii) when the special purpose company undergoes a material event outside of China not involving inbound investments, such as change in share capital, creation of any security interests on its assets or a merger or division, the PRC resident shall, within 30 days from the occurrence of such event, register such change with the local branch of SAFE. PRC residents who are shareholders of special purpose companies established before November 1, 2005 were required to register with the local branch of SAFE before March 31, 2006. To further clarify and simplify the implementation of SAFE Circular 75, SAFE issued the Implementing Rules Relating to the Administration of Foreign Exchange in Fund-Raising and Round-trip Investment Activities of the Domestic Residents Conducted via Offshore Special Purpose Companies, or SAFE Circular 19 on May 20, 2011, which came into effect on July 1, 2011.

Both Mr. Sheng Liang and Ms. Juan Zhou have obtained registration under SAFE Circular 75. We have made due inquiries with the competent local branch of SAFE regarding the applicability of the above foreign exchange registration requirements to our founder and our PRC resident shareholders. However, as these foreign exchange regulations are still relatively new and their interpretation and implementation has been constantly evolving, it is unclear how these regulations, and any future regulation concerning offshore or cross border transactions, will be interpreted, amended or implemented by the relevant government authorities. We cannot predict how these regulations will affect our business operations or future strategy. See Item 3.D Risk Factors Risks Related to Doing Business in China PRC regulations relating to the establishment of offshore holding companies by PRC residents may subject our PRC resident beneficial owners or our PRC subsidiary to liability or penalties, limit our ability to inject capital into our PRC subsidiary, limit our PRC subsidiary's ability to increase its registered capital or distribute profits to us, or may otherwise adversely affect us.

Regulations on Employee Stock Options Plans

In December 2006, the People's Bank of China promulgated the Administrative Measures of Foreign Exchange Matters for Individuals, setting forth the respective requirements for foreign exchange transactions by individuals (both PRC or non-PRC citizens) under either the current account or the capital account. In January 2007, SAFE issued implementing rules for the Administrative Measures of Foreign Exchange Matters for Individuals, which, among other things, specified approval requirements for certain capital account transactions, such as a PRC citizen's participation in employee stock ownership plans or share option plans of an overseas publicly listed company. On March 28, 2007, SAFE promulgated the Application Procedures of Foreign Exchange Administration for Domestic Individuals Participating in Employee Stock Ownership Plans or Stock Option Plans of Overseas Listed Companies, or the Stock Option Rules. In February 2012, SAFE promulgated the Notice on the Administration of Foreign Exchange Matters for Domestic Individuals Participating in the Stock Incentive Plans of Overseas Listed Companies, or the Stock Option Notice. This Stock Option Notice replaced the previous Stock Option Rules. The Stock Option Notice simplifies the requirements and procedures for the registration of stock incentive plan participants, especially in respect of the required application documents and the absence of strict requirements on offshore and onshore custodian banks, as were stipulated in the previous Stock Option Rules. The purpose of the Stock Option Notice is to regulate the foreign exchange administration of PRC resident individuals who participate in employee stock holding plans and share option plans of overseas listed companies.

Table of Contents

Under these rules, for PRC resident individuals who participate in stock incentive plans of overseas publicly-listed companies, which includes employee stock ownership plans, stock option plans and other incentive plans permitted by relevant laws and regulations, a PRC domestic qualified agent or the PRC subsidiary of such overseas listed company must, among other things, file on behalf of such resident an application with SAFE or its local counterpart to obtain approval for an annual allowance with respect to the purchase of foreign exchange in connection with the stock holding or share option exercises, as PRC residents may not directly use overseas funds to purchase shares or exercise share options. In addition, within three months after any substantial changes to any such stock incentive plan, including example any changes due to a merger or acquisition or changes to the domestic or overseas custodian agent, the domestic agent must update the registration with SAFE.

Under the Foreign Currency Administration Rules, as amended in 2008, the foreign exchange proceeds of domestic entities and individuals can be remitted into China or deposited abroad, subject to the terms and conditions to be issued by SAFE. However, the implementing rules in respect of depositing the foreign exchange proceeds abroad have not been issued by SAFE. The foreign exchange proceeds from the sales of shares can be converted into RMB or transferred to such individuals' foreign exchange savings account after the proceeds have been remitted back to the special foreign exchange account opened at the PRC domestic bank. If share options are exercised in a cashless exercise, the PRC domestic individuals are required to remit the proceeds to special foreign exchange accounts.

Many issues with respect to the Stock Option Rules require further interpretation. As our company has become an overseas listed company following the listing of our ADSs on the NYSE in May 2011, we and our PRC employees who have participated in an employee stock ownership plan or share option plan are subject to the Stock Option Rules. If we or our PRC employees fail to comply with the Stock Option Rules, we and our PRC employees may face sanctions imposed by the PRC foreign exchange authority or any other PRC government authorities, including restriction on foreign currency conversions and additional capital contribution to our PRC subsidiaries.

In addition, the State Administration of Taxation has issued circulars concerning employee share options. Under these circulars, our employees working in China who exercise share options will be subject to PRC individual income tax. Our PRC subsidiaries have obligations to file documents related to employee share options with relevant tax authorities and withhold the individual income taxes of employees who exercise their share options. If our employees fail to pay and we fail to withhold their income taxes, we may face sanctions imposed by tax authorities or any other PRC government authorities. See Item 3.D Risk Factors Risks Related to Doing Business in China Failure to comply with PRC regulations regarding the registration requirements for employee share ownership plans or share option plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.

Labor Laws and Social Insurance

Pursuant to the PRC Labor Law and the PRC Labor Contract Law, employers must execute written labor contracts with full-time employees. All employers must compensate their employees with wages equal to at least the local minimum wage standards. All employers are required to establish a system for labor safety and sanitation, strictly abide by state rules and standards and provide employees with workplace safety training. Violations of the PRC Labor Contract Law and the PRC Labor Law may result in the imposition of fines and other administrative liabilities. Criminal liability may arise for serious violations.

Table of Contents

In addition, employers in China are obliged to provide employees with welfare schemes covering pension insurance, unemployment insurance, maternity insurance, work-related injury insurance, medical insurance and housing funds.

To comply with these laws and regulations, we have caused all of our full-time employees to enter into labor contracts and provide our employees with the proper welfare and employment benefits. If we are made subject to severe penalties or incur significant liabilities in connection with labor disputes or investigations, our business and results of operations may be adversely affected.

Regulations on Concentration in Merger and Acquisition Transactions

In August 2006, six PRC regulatory agencies jointly adopted the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rule, as amended on June 22, 2009. The M&A Rule established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time-consuming and complex. These rules require, among other things, that the Ministry of Commerce be notified in advance of any change-of-control transaction in which a foreign investor will take control of a PRC domestic enterprise or a foreign company with substantial PRC operations, if certain thresholds under the Provisions on Thresholds for Prior Notification of Concentrations of Undertakings issued by the State Council on August 3, 2008 are triggered.

Complying with these requirements could affect our ability to expand our business or maintain our market share. See [Item 3.D Risk Factors Risks Related to Doing Business in China](#) Certain regulations in the PRC may make it more difficult for us to pursue growth through acquisitions.

Table of Contents

C. **Organizational Structure**

The following diagram illustrates our principal subsidiaries and consolidated affiliated entities as of the date of this annual report:

(1) Qianxiang Tiancheng is 99% owned by Ms. Jing Yang, who is the wife of Mr. Joseph Chen, our founder, chairman and chief executive officer, and 1% owned by Mr. James Jian Liu, our director and chief operating officer. Qianjun Technology is 20% owned by Ms. Juan Zhou and 80% owned by Mr. Sheng Liang, both of whom are employees of our company. Renren Games is 70% owned by Mr. Chuan He, our senior

vice president for games, and 30% owned by Mr. James Jian Liu. We effectively control Qianxiang Tiancheng, Qianjun Technology and Renren Games and their respective subsidiaries through contractual arrangements. See Item 4.C Organizational Structure Contractual Arrangements with Our Consolidated Affiliated Entities Agreements that Provide us Effective Control Over Qianxiang Tiancheng, Qianjun Technology and Renren Games for more information.

Table of Contents

Contractual Arrangements with Our Consolidated Affiliated Entities

Applicable PRC laws and regulations currently restrict foreign ownership of companies that provide value-added telecommunications services. To comply with these foreign ownership restrictions, our wholly owned subsidiary Qianxiang Shiji has entered into a series of contractual arrangements with Qianxiang Tiancheng and its shareholders, our wholly owned subsidiary Wole Technology has entered into a series of contractual arrangements with Qianjun Technology and its shareholders, and our wholly owned subsidiary Renren Network has entered into a series of contractual arrangements with Renren Games and its shareholders, which enable us to:

- exercise effective control over Qianxiang Tiancheng, Qianjun Technology and Renren Games and their respective subsidiaries through powers of attorney and a business operations agreement;
- receive substantially all of the economic benefits of Qianxiang Tiancheng, Qianjun Technology and Renren Games and their respective subsidiaries in the form of service and license fees in consideration for the technical services provided, and the intellectual property rights licensed, by Qianxiang Shiji, Wole Technology and Renren Network, respectively; and
- have an exclusive option to purchase all of the equity interests in Qianxiang Tiancheng, Qianjun Technology and Renren Games when and to the extent permitted under PRC laws, regulations and legal procedures.

We have been, and are expected to continue to be, dependent on our contractual arrangements with Qianxiang Tiancheng, Qianjun Technology, Renren Games and their respective shareholders to operate substantially all of our business in China as long as PRC law does not allow us to directly operate such business in China. We rely on our consolidated affiliated entities, namely Qianxiang Tiancheng, Qianjun Technology, Renren Games and their respective subsidiaries, to maintain or renew their respective qualifications, licenses or permits necessary for our business in China. We believe that under our contractual arrangements, we have substantial control over our consolidated affiliated entities and their respective shareholders to renew, revise or enter into new contractual arrangements prior to the expiration of the current arrangements on terms that would enable us to continue to operate our business in China after the expiration of the current arrangements, or pursuant to certain amendments and changes of the current applicable PRC laws, regulations and rules on terms that would enable us to continue to operate our business in China legally. For a detailed description of the regulatory environment that necessitates the adoption of our corporate structure, see [Item 4.B Business Overview Regulation](#). For a detailed description of the risks associated with our corporate structure and the contractual arrangements that support our corporate structure, see [Item 3.D Key Information Risk Factors Risks Related to Our Corporate Structure and the Regulation of our Business](#).

The business operation of Qianxiang Shiji is within the approved business scope as set forth in its business license, which includes research and development of computer software, communication software and system integration; sale of self-produced products; provision of after-sale technical consulting and services. Qianxiang Tiancheng is a limited liability company established in China. Its approved business scope includes the provision of internet information, internet advertising and advertising agency services, and it holds an internet content provision license, or ICP license. Qianxiang Tiancheng is 99% owned by Ms. Jing Yang, who is the wife of Mr. Joseph Chen, our founder, chairman and chief executive officer, and 1% owned by Mr. James Jian Liu, our executive director and chief operating officer. Both Ms. Yang and Mr. Liu are PRC citizens.

Edgar Filing: Renren Inc. - Form 20-F

Qianxiang Wangjing, Qianxiang Changda and Beijing Nuomi are wholly owned subsidiaries of Qianxiang Tiancheng. Qianxiang Wangjing is the operator of our renren.com website and holds the licenses and permits necessary to conduct our real name social networking services, online advertising and online game business in China. Beijing Nuomi is the operator of our nuomi.com website and holds the licenses and permits necessary to conduct our social commerce business in China. Qianxiang Changda holds the licenses and permits necessary to conduct our social networking services and online games business.

The business operations of Wole Technology are within the approved business scope as set forth in its business license, which includes research and development of computer software, sale of self-produced products, provision of technical consulting, management consulting and technical services. Qianjun Technology is a limited liability company established in China. Its approved business scope includes research and development of computer software, computer hardware, electronic products, webpage design, advertisement design, production, release and agency, internet information service and other services, and it holds an ICP license. Qianjun Technology is 80% owned by Mr. Sheng Liang and 20% owned by Ms. Juan Zhou. Both Mr. Liang and Ms. Zhou are PRC citizens and are employees of our company. Qianjun Technology owns 100% equity interest in Wole Shijie. Wole Shijie is the operator of our quanquan.net website.

Table of Contents

The business operations of Renren Games are within the approved business scope as set forth in its business license, which includes the development and transfer of internet technology and provision of internet technical consultation and services, as well as the design, production, publishing of advertisements and acting as advertisement agent for domestic and overseas clients. Renren Games is a limited liability company established in China. It holds an ICP license. Renren Games is 70% owned by Mr. Chuan He, our senior vice president for games, and 30% owned by Mr. James Jian Liu, our director and chief operating officer. Both Mr. He and Mr. Liu are PRC citizens. Renren Games owns 100% equity interest in Suzhou Sijifeng. Suzhou Sijifeng is the developer and provider of designs and other games-related technologies for Renren Games.

The following is a summary of the currently effective contracts (i) among our subsidiary Qianxiang Shiji, our consolidated affiliated entity Qianxiang Tiancheng, and the shareholders of Qianxiang Tiancheng, (ii) among our subsidiary Wole Technology, our consolidated affiliated entity Qianjun Technology, and the shareholders of Qianjun Technology, and (iii) among our subsidiary Renren Network, our consolidated affiliated entity Renren Games, and the shareholders of Renren Games. These contracts provide us with the power to direct the activities that most significantly affect the economic performance of our consolidated affiliated entities and enable us to receive substantially all the economic benefits from them.

Business Operations Agreements. Pursuant to a business operations agreement among Qianxiang Shiji, Qianxiang Tiancheng and its shareholders, Qianxiang Tiancheng shall appoint the candidates designated by Qianxiang Shiji as the executive director or directors, general manager, chief financial officer and any other senior officers of Qianxiang Tiancheng. Qianxiang Tiancheng agrees to follow the proposal provided by Qianxiang Shiji from time to time relating to employment, daily operation and financial management. Without Qianxiang Shiji's prior written consent, Qianxiang Tiancheng shall not conduct any transaction that may materially affect its assets, obligations, rights or operations, including but not limited to, (i) incurrence or assumption of any indebtedness, (ii) sale or purchase of any assets or rights, (iii) incurrence of any encumbrance on any of its assets or intellectual property rights in favor of a third party, or (iv) transfer of any rights or obligations under this agreement to a third party. The term of this agreement is ten years and will be extended automatically for another ten years unless Qianxiang Shiji provides a written notice requesting not to extend the term three months prior to the expiration date, which is December 23, 2020. Qianxiang Shiji may terminate the agreement at any time by providing a 30-day advance written notice to Qianxiang Tiancheng and to each of its shareholders. Neither Qianxiang Tiancheng nor any of its shareholders may terminate this agreement during the term or the extension of the term, if applicable.

Wole Technology, Qianjun Technology and its shareholders have entered into a business operations agreement, and Renren Network, Renren Games and its shareholders have entered into a business operations agreement. Each of these two business operations agreements contains substantially the same terms as the terms of the business operations agreement among Qianxiang Shiji, Qianxiang Tiancheng and its shareholders described above. The expiration date of the business operations agreement among Wole Technology, Qianjun Technology and its shareholders is October 26, 2021, and the expiration date of the business operations agreement among Renren Network, Renren Games and its shareholders is November 30, 2022. The term of each of these agreement is ten years and will be extended automatically for another ten years unless Wole Technology or Renren Network, as applicable, provides a written notice requesting not to extend the term three months prior to the expiration date.

Powers of Attorney. Pursuant to powers of attorney, the shareholders of Qianxiang Tiancheng each irrevocably appointed our executive director and chief operating officer, Mr. James Jian Liu (the person designated by Qianxiang Shiji) as their attorney-in-fact to vote on their behalf on all matters of Qianxiang Tiancheng that requires shareholder approval under PRC laws and regulations as well as Qianxiang Tiancheng's articles of association. The appointment of Mr. Liu is conditional upon his being the employee and the designated person of Qianxiang Shiji. Each power of attorney will remain in effect from December 23, 2010 to December 23, 2020, unless and until the earlier of the following events: (i) Mr. Liu loses his position in Qianxiang Shiji or Qianxiang Shiji issues a written notice to dismiss or replace Mr. Liu; and (ii) the business operations agreement among Qianxiang Shiji, Qianxiang Tiancheng and its shareholders terminates or expires.

Each of the shareholders of Qianjun Technology has signed powers of attorney which contain substantially the same terms as those described above. The powers of attorney signed by the shareholders of Qianjun Technology will remain in effect from October 26, 2011 to October 26, 2021. Ms. Juan Zhou (the person designated by Wole Technology), a vice president at our company, was irrevocably appointed as the attorney-in-fact to vote on the behalf of the shareholders of Qianjun Technology on all matters of Qianjun Technology that require shareholder approval under PRC laws and regulations as well as Qianjun Technology articles of association.

Table of Contents

Pursuant to a proxy agreement and power of attorney, the shareholders of Renren Games each irrevocably appointed Renren Network as their attorney-in-fact to exercise on their behalf any and all rights that such shareholders have in respect of their equity interests in Renren Games conferred by relevant laws and regulations and the articles of associate of Renren Games. The proxy agreement and power of attorney became effective on November 30, 2012 and will remain effective as long as Renren Games exists. Neither of the shareholders of Renren Games has the right to terminate the proxy agreement or revoke the power of attorney without the prior written consent of Renren Network.

Spousal Consent Letters. Pursuant to spousal consent letters, the spouse of each of the shareholders of Qianxiang Tiancheng acknowledged that certain equity interests of Qianxiang Tiancheng held by and registered in the name of his/her spouse will be disposed of pursuant to the equity option agreements. These spouses understand that such equity interests are held by their respective spouse on behalf of Qianxiang Shiji, and they will not take any action to interfere with the disposition of such equity interests, including, without limitation, claiming that such equity interests constitute communal property of marriage.

Pursuant to spousal consent letters, the spouse of each of the shareholders of Qianjun Technology and Renren Games has acknowledged that certain equity interests of Qianjun Technology and Renren Games, respectively, held by and registered in the name of his/her spouse will be disposed of pursuant to the loan agreement, equity option agreement and equity interest pledge agreement of which they are respectively a party, and they will not take any action to interfere with such arrangement, including claiming that such equity interests constitute property or communal property between his/her spouse and himself/herself.

Equity Option Agreements. Pursuant to equity option agreements between Qianxiang Shiji and each of the shareholders of Qianxiang Tiancheng, Qianxiang Tiancheng's shareholders granted Qianxiang Shiji or its designated representative(s) an exclusive option to purchase, to the extent permitted under PRC law, all or part of their equity interests in Qianxiang Tiancheng in consideration of the loans extended to Qianxiang Tiancheng's shareholders under the loan agreements mentioned below. In addition, Qianxiang Shiji has the option to acquire the equity interests of Qianxiang Tiancheng at the lowest price then permitted by PRC law in consideration of the cancellation of all or part of the loans extended to the shareholders of Qianxiang Tiancheng under the loan agreements. Qianxiang Shiji or its designated representative(s) have sole discretion as to when to exercise such options, either in part or in full. Qianxiang Shiji or its designated representative(s) is entitled to exercise the options for unlimited times until all of the equity interests of Qianxiang Tiancheng have been acquired, and can be freely transferred, in whole or in part, to any third party. Without Qianxiang Shiji's consent, Qianxiang Tiancheng's shareholders shall not transfer, donate, pledge, or otherwise dispose their equity shareholdings in Qianxiang Tiancheng in any way. The equity option agreement will remain in full force and effect until the earlier of: (i) the date on which all of the equity interests in Qianxiang Tiancheng have been acquired by Qianxiang Shiji or its designated representative(s); or (ii) the receipt of the 30-day advance written termination notice issued by Qianxiang Shiji to the shareholders of Qianxiang Tiancheng. The key factors for our decision to exercise the option are whether the current regulatory restrictions on foreign investment in the internet business and advertising business will be relaxed in the future, which is rather unpredictable at the moment. If such restrictions are relaxed, we will, through Qianxiang Shiji, exercise the option and purchase all or part of the equity interests in Qianxiang Tiancheng.

Wole Technology and each of the shareholders of Qianjun Technology have entered into an equity option agreement, and Renren Network and each of the shareholders of Renren Games have entered into an equity option agreement. The terms of these two agreements are substantially the same as the terms of the equity option agreement between Qianxiang Shiji and each of the shareholders of Qianxiang Tiancheng.

Exclusive Technical Service Agreements. Pursuant to an exclusive technical service agreement between Qianxiang Shiji and Qianxiang Tiancheng, Qianxiang Shiji has the exclusive right to provide certain technical services, including maintenance of servers, development, updating and upgrading of web user application software, e-commerce technical services, to Qianxiang Tiancheng. Without Qianxiang Shiji's prior written consent, Qianxiang Tiancheng shall not engage any third party to provide any of the technical services under this agreement. In addition, Qianxiang Shiji exclusively owns all intellectual property rights resulting from the performance of this agreement. Qianxiang

Edgar Filing: Renren Inc. - Form 20-F

Tiancheng agrees to pay a service fee to Qianxiang Shiji at a specific fee rate proposed by Qianxiang Shiji. Qianxiang Shiji shall have the right to adjust at any time the fee rate based on the quantity, difficulty and urgency of the services it provides to Qianxiang Tiancheng and other factors. The term of this agreement is ten years and will be extended automatically for another ten years unless terminated by Qianxiang Shiji's written notice three months prior to the expiration of the term, which is December 23, 2020. Qianxiang Shiji can terminate the agreement at any time by providing a 30-day prior written notice. Qianxiang Tiancheng is not permitted to terminate this agreement prior to the expiration of the term, unless Qianxiang Shiji fails to comply with any of its obligations under this agreement and such breach makes Qianxiang Shiji unable to continue to perform this agreement.

Table of Contents

Pursuant to an exclusive technical service agreement between Wole Technology and Qianjun Technology, Wole Technology has the exclusive right to provide certain technical services, including services relating to video CDN distributed synchronous technology, real-time conversion of FLV video file to HTTP live streaming technology and real-time scheduling of video CDN flow technology, to Qianjun Technology. Qianjun Technology agrees to pay a service fee to Wole Technology at a specific fee rate proposed by Wole Technology. Wole Technology shall have the right to adjust at any time the fee rate based on the quantity, difficulty and urgency of the services it provides to Qianjun Technology and other factors. The other terms of this agreement are substantially the same as the terms of the exclusive technical service agreement between Qianxiang Shiji and Qianxiang Tiancheng. The expiration date of the agreement is October 26, 2021. The agreement will be extended automatically for another ten years unless terminated by Wole Technology's written notice three months prior to the expiration of the term.

Pursuant to an exclusive technology support and technology services agreement between Renren Network and Renren Games, Renren Network has the exclusive right to provide to Renren Games certain development, maintenance and support services for the servers and computer software and hardware for Renren Games' online game business. Renren Games agrees to pay a service fee to Renren Network at a specific fee rate proposed by Renren Network. Renren Network shall have the right to adjust at any time the fee rate based on certain factors, including the quantity, scope and nature of the services it provides to Renren Games. The other terms of this agreement are substantially the same as the terms of the exclusive technical service agreement between Qianxiang Shiji and Qianxiang Tiancheng. The term of this agreement is ten years commencing from November 30, 2012, and Renren Network has the right in its sole discretion to extend the term of this agreement for additional ten-year terms by notifying Renren Games at least three months prior to the end of each such ten-year term.

Intellectual Property Right License Agreements. Pursuant to an intellectual property right license agreement between Qianxiang Shiji and Qianxiang Tiancheng, Qianxiang Shiji grants a non-exclusive and non-transferable license, without sublicense rights, to Qianxiang Tiancheng to use certain of the domain names, registered trademarks and non-patent technology (software) owned by Qianxiang Shiji. Qianxiang Tiancheng may only use the intellectual property rights in its own business operations. The amount, payment method and classification of the license fees under this agreement shall be determined based on the precondition that they facilitate Qianxiang Shiji's securing of all preferential treatments under the PRC tax policies and shall be agreed by both Qianxiang Shiji and Qianxiang Tiancheng considering, among others, the following factors: (i) the number of users purchasing Qianxiang Tiancheng's products or receiving Qianxiang Tiancheng's services; and (ii) the types and quantity of the intellectual property rights, which are specified under this agreement, actually used by Qianxiang Tiancheng for selling products or providing services to its users. The term of this agreement is five years and the current term expires on December 23, 2015. The term of this agreement can be extended for another five years with both parties' consents. Qianxiang Shiji may terminate this agreement at any time by providing a 30-day prior written notice. Any party may terminate this agreement immediately with written notice to the other party if the other party materially breaches the relevant agreement and fails to cure its breach within 30 days from the date it receives the written notice specifying its breach from the non-breaching party. The parties will review this agreement every three months and determine if any amendment is needed.

Wole Technology and Qianjun Technology have entered into an intellectual property right license agreement, and Renren Network and Renren Games have entered into an intellectual property right license agreement. Each of these two intellectual property right license agreements contain substantially the same terms as the intellectual property right license agreement between Qianxiang Shiji and Qianxiang Tiancheng. Under the intellectual property right license agreement between Wole Technology and Qianjun Technology, Wole Technology has granted a non-exclusive and non-transferable license, without sublicense rights, to Qianjun Technology to use certain online video-related intellectual property owned by Wole Technology. Under the intellectual property right license agreement between Renren Network and Renren Games, Renren Network has granted a non-exclusive and non-transferable license, without sublicense rights, to Renren Games to use certain intellectual property rights owned by Renren Network. The current term of the intellectual property right license agreement between Wole Technology and Qianjun Technology expires on October 26, 2015, and the term can be extended for another five years with both parties' consent. The current term of the intellectual property right license agreement between Renren Network and Renren Games expires on November 30, 2017, and the term will be automatically extended for additional one year terms unless either party provides the other party with notice of its desire to terminate this agreement.

Table of Contents

Equity Interest Pledge Agreements. Pursuant to equity interest pledge agreements between Qianxiang Shiji and each of the shareholders of Qianxiang Tiancheng, the shareholders of Qianxiang Tiancheng pledge all of their equity interests in Qianxiang Tiancheng to Qianxiang Shiji, to guarantee Qianxiang Tiancheng and its shareholders' performance of their obligations under, where applicable, (i) the loan agreements, (ii) the exclusive technical service agreement, (iii) the intellectual property right license agreement and (iv) the equity option agreements. If Qianxiang Tiancheng and/or any of its shareholders breach their contractual obligations under the aforesaid agreements, Qianxiang Shiji, as the pledgee, will be entitled to certain rights and entitlements, including the priority in receiving payments by the evaluation or proceeds from the auction or sale of whole or part of the pledged equity interests of Qianxiang Tiancheng in accordance with legal procedures. Without Qianxiang Shiji's prior written consent, shareholders of Qianxiang Tiancheng shall not transfer or assign the pledged equity interests, or incur or allow any encumbrance that would jeopardize Qianxiang Shiji's interests. During the term of this agreement, Qianxiang Shiji is entitled to collect all of the dividends or other distributions, if any, derived from the pledged equity interests. The equity interest pledge has become effective and will expire on the earlier of: (i) the date on which Qianxiang Tiancheng and its shareholders have fully performed their obligations under the loan agreements, the exclusive technical service agreement, the intellectual property right license agreement and the equity option agreements; (ii) the enforcement of the pledge by Qianxiang Shiji pursuant to the terms and conditions under this agreement to fully satisfy its rights under such agreements; or (iii) the completion of the transfer of all equity interests of Qianxiang Tiancheng by the shareholders of Qianxiang Tiancheng to another individual or legal entity designated by Qianxiang Shiji pursuant to the equity option agreement and no equity interest of Qianxiang Tiancheng is held by such shareholders.

Wole Technology has entered into an equity interest pledge agreement with each of the shareholders of Qianjun Technology, and Renren Network has entered into an equity interest pledge agreement with each of the shareholders of Renren Games. The terms of these four agreements are substantially the same as the terms of the equity interest pledge agreements between Qianxiang Shiji and the shareholders of Qianxiang Tiancheng. All of the equity interest pledge agreements between our subsidiaries and each of the shareholders of our consolidated affiliated entities have been registered.

Loan Agreements. Under loan agreements between Qianxiang Shiji and each of the shareholders of Qianxiang Tiancheng, Qianxiang Shiji made interest-free loans in an aggregate amount of RMB10.0 million to the shareholders of Qianxiang Tiancheng exclusively for the purpose of the initial capitalization and the subsequent financial needs of Qianxiang Tiancheng. The loans can only be repaid with the proceeds derived from the sale of all of the equity interests in Qianxiang Tiancheng to Qianxiang Shiji or its designated representatives pursuant to the equity option agreements. The term of the loans is ten years from the actual drawing down of such loans by the shareholders of Qianxiang Tiancheng, and will be automatically extended for another ten years unless a written notice to the contrary is given by Qianxiang Shiji to the shareholders of Qianxiang Tiancheng three months prior to the expiration of the loan agreements.

Wole Technology and each of the shareholders of Qianjun Technology have entered into loan agreements, and Renren Network and each of the shareholders of Renren Games have entered into loan agreements. Under the loan agreements, Wole Technology made interest-free loans in an aggregate amount of RMB20.0 million to the shareholders of Qianjun Technology, and Renren Network made interest-free loans in an aggregate amount of RMB10.0 million to the shareholders of Renren Games. The other terms of each of these loan agreements are substantially the same as the terms of the loan agreements between Qianxiang Shiji and each of the shareholders of Qianxiang Tiancheng.

D. Property, Plants and Equipment

Our principal executive offices are located at 23/F, Jing An Center, 8 North Third Ring Road East, Beijing 100028, People's Republic of China, where we lease approximately 26,049 square meters of office space as of March 31, 2013. We also lease an additional 38,041 square meters of office space in 56 cities throughout China, including Beijing, Shanghai, Guangzhou and Wuhan. We lease our premises from unrelated third parties under non-cancelable operating lease agreements. Some of the lessors of our leased premises do not have valid title to such premises or proper authorization from the title owner to sublease such premises. For further details, see Item 3.D Risk Factors Risks Related to Our Business

and Industry The leasehold interests of some of our consolidated affiliated entities might not be fully protected by the terms of the relevant lease agreements due to defects in or the landlord's failure to provide certain title documents with respect to some of our leased properties. Our leases typically have terms of one or two years, approximately two-thirds of which are due to expire during 2013. We plan to renew our leases before they expire.

Table of Contents

Our servers are primarily hosted at internet data centers owned by major domestic internet data center providers. The hosting services agreements typically have terms of one year. We believe that we will be able to obtain adequate facilities, principally through leasing, to accommodate our future expansion plans.

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the consolidated financial statements and the related notes included elsewhere in this annual report on Form 20-F. This discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties. Our actual results and the timing of selected events could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under Item 3.D. Key Information Risk Factors and elsewhere in this annual report on Form 20-F.

A. Operating Results

Overview

In 2011, we had one reportable segment. This included two operating segments, Renren and 56.com, mainly as a result of our acquisition of Wole Inc., the company that operates 56.com, in October 2011. Our revenues were divided into the two revenue streams of online advertising and IVAS, with IVAS including online games and other IVAS.

During 2012, we incurred the following changes in our operations:

- the operations of 56.com were fully integrated into those of Renren, mainly under online advertising, online game and other IVAS (such as the Woxiu business); and
- the group-buy business of Nuomi, which originally was under IVAS in 2011, grew to be more significant.

After evaluating the facts for an operating segment and in turn reportable segment, we concluded that we have two operating and reportable segments in 2012, namely Renren and Nuomi. We retrospectively adjusted our segment information for all periods presented to reflect these changes in our segment reporting. These adjustments are also reflected in the following discussion of our segment operating results for comparison to prior year results.

We currently generate revenues from our Renren segment and our Nuomi segment. Our Renren segment accounted for 98.4%, 94.5% and 90.7% of our total net revenues in 2010, 2011 and 2012, respectively, and our Nuomi segment accounted for 1.6%, 5.5% and 9.3%, respectively. Our Renren segment had net revenues from both internet value-added services, or IVAS, and online advertising. IVAS revenues accounted for 57.5%, 46.5% and 66.5% of our Renren segment's total net revenues in 2010, 2011 and 2012, respectively, and online advertising revenues accounted for 42.5%, 53.5% and 33.5%, respectively. Our Renren segment's IVAS revenues are comprised of online games revenues and other IVAS revenues. The substantial majority of our Renren segment's IVAS revenues are derived from online games, and the substantial majority of our online games revenues are generated from users' purchases of in-game virtual items offered through Renren Games. Our Renren segment's other IVAS revenues include revenues from virtual gifts on 56.com, and revenues from VIP memberships, virtual gifts and other paid applications on Renren.com. Our Renren segment's online advertising revenues are derived from a wide range of advertising formats and solutions. Our Nuomi segment's revenues include revenues we earn from merchants who offer services and products on nuomi.com and revenues from online advertising on nuomi.com.

Our total net revenues increased from US\$76.5 million in 2010 to US\$118.0 million in 2011 and to US\$176.1 million in 2012, representing a compound annual growth rate, or CAGR, of 51.7% from 2010 to 2012. We had a loss from continuing operations of US\$61.2 million, income from continuing operations of US\$41.0 million, and a loss from continuing operations of US\$75.1 million in 2010, 2011 and 2012, respectively. Our loss from continuing operations in 2010 reflects the aggregate impact of non-cash items relating to the change in fair value of our then outstanding series D warrants, share-based compensation, amortization of intangible assets and impairment of intangible assets, amounting to an aggregate of US\$78.6 million in expenses in 2010. All outstanding warrants to purchase series D preferred shares were exercised in December 2010. Our income from continuing operations in 2011 was due in part to a one-time gain of US\$50.9 million from the sale of eLong ADSs, and income from continuing operations in 2011 also reflected the aggregate impact of non-cash items relating to share-based compensation, amortization of intangible assets and impairment of intangible assets, amounting to an aggregate of US\$8.7 million in 2011. Our net loss from continuing operations in 2012 was primarily due to substantial investments in research and development, particularly those related to mobile initiatives, continued investment in our Nuomi social commerce business, and investment in our video sharing business 56.com, which we acquired in October 2011.

The major factors affecting our results of operations and financial condition are discussed below.

Table of Contents**Net Revenues**

We derive all of our revenues from our Renren and Nuomi segments. Our Renren segment includes online game, other IVAS and online advertising service lines. Our Nuomi segment is our social commerce services. Our IVAS revenues comprise online games revenues and other IVAS revenues. As is customary in the advertising industry in China, we offer rebates to third-party advertising agencies and recognize online advertising revenues net of these rebates. We recognize all of our revenues net of business taxes in 2010 and 2011. Starting from 2012, we recognize our revenues net of business taxes or value added tax.

The following table sets forth the principal components of our net revenues, both as absolute amounts and as percentages of our total net revenues from our continuing operations, for the periods presented.

Net revenues:							
Renren segment:							
Online games	\$	34,413	45.0%	\$	42,289	35.8%	\$ 90,175 51.2%
Other IVAS		8,912	11.6		9,608	8.2	15,952 9.1
Online advertising		32,003	41.8		59,613	50.5	53,508 30.4
Renren segment total		75,328	98.4		111,510	94.5	159,635 90.7
Nuomi segment		1,207	1.6		6,457	5.5	16,451 9.3
Total net revenues	\$	76,535	100.0%	\$	117,967	100.0%	\$ 176,086 100.0%

Our Renren segment

Our Renren segment has net revenues from both IVAS and online advertising.

IVAS. Our Renren segment's IVAS revenues are comprised of online games revenues and other IVAS revenues. The substantial majority of our Renren segment's IVAS revenues are derived from online games, and the substantial majority of our online games revenues are generated from users' purchases of in-game virtual items, such as accessories and pets, on wan.renren.com and other direct-to-consumer store fronts such as Apple's appstore. Other IVAS revenues include virtual gifts on 56.com, and VIP memberships, virtual gifts and other paid applications on Renren.com. Revenues generated from online games or applications developed by third parties are subject to revenue-sharing agreements with the third-party developers.

We collect most of our online games revenues through third-party online payment systems. We also sell online prepaid cards to distributors at a discount to the face value of the cards. For a detailed discussion of how revenues from IVAS are recognized in our financial statements, see **Critical Accounting Policies Revenue Recognition.**

Edgar Filing: Renren Inc. - Form 20-F

As our Renren segment's IVAS business is comprised of several business models, including the sale of in-game virtual items, virtual gifts on 56.com, and VIP memberships, virtual gifts and other paid applications on Renren.com, and as each business model has its own revenue sources, quantitative price analysis for our Renren segment's IVAS business as a whole is not practical or meaningful. Consequently, we are generally not able to use conventional average sale price analysis in evaluating the financial performance of our Renren segment's IVAS businesses.

The most significant factors that directly or indirectly affect our Renren segment's IVAS revenues include the following:

- the number of users visiting our websites and mobile applications, and the amount of IVAS they consume from our Renren segment;
- our ability to continue to offer new self-developed and third-party revenue-generating online games and applications that are attractive to users;
- costs relating to developing, licensing or acquiring, and marketing new online games, including cross-platform games and mobile games, and applications;
- our ability to maintain and improve revenue-sharing arrangements with third-party online game and application developers;
- competition in China's online games and online talent show markets; and
- government regulations or policies affecting online games businesses.

Table of Contents

Although user metrics such as total page views, time spent on our social networking websites, the number of users visiting game sites and amount of IVAS consumed are important measures for the quality of our user experience, they are not directly correlated to our revenue trends for historical periods and are not expected to be directly correlated for the foreseeable future. At this stage of our development, we believe that the main revenue drivers for our lines of business are those that have been set forth in our discussion of year-on-year results of operations.

Online Advertising. We offer a wide range of online advertising formats and solutions, including social ads, display advertising, promoted news feed items, fan and brand pages, self-service advertising solutions targeted at small- and medium-sized enterprises, video advertising solutions on 56.com which, in addition to display advertising, include pre-roll, post-roll and word-link advertising, and other formats such as sponsored online events and branded virtual gifts. In 2010, 2011 and 2012, approximately 94.3%, 91.5% and 85.6%, respectively, of our online advertising revenues were derived from pay-for-time arrangements, whereby advertisers place their orders based on the period of time an advertisement is displayed in a specific format on a specific web page. In addition to pay-for-time arrangements, advertisers can pay for our advertising solutions based on the number of ad impressions delivered or the number of clicks on their advertisement. An ad impression is delivered when an advertisement appears on a page and the page is viewed by a user.

Substantially all of our online advertising revenues are generated from the PC version of our platform. In this regard, the migration of our user traffic from PC to mobile, which gathered momentum in 2011 and noticeably increased in 2012, has had an adverse impact on our online advertising revenues. The primary reason for this is that advertisers have, to date, spent considerably less money advertising on mobile devices as compared to advertising on PCs due to the limited screen size of mobile devices and the under-developed measurement and tracking services for mobile advertising.

Historically, the most significant factor that has contributed to the increase in our online advertising revenues was the growth of our SNS platform and user base and therefore, the increased use of our platform by advertisers to reach our users. The number of our activated users increased from approximately 110 million as of December 31, 2010 to approximately 147 million as of December 31, 2011 and to approximately 178 million as of December 31, 2012. Our monthly unique log-in users increased from approximately 26 million in December 2010 to approximately 38 million in December 2011 and to approximately 56 million in December 2012. In 2010, 2011 and 2012, the number of our brand advertisers was 248, 301 and 277, respectively, and the average annual spending by our brand advertisers was approximately US\$129,000, US\$181,000 and US\$165,000, respectively. The decrease in the number of brand advertisers and the average annual spending by our brand advertisers from 2011 to 2012 was an overall result of a weaker macroeconomic environment, increased competition and the continuing shift of our traffic from PC to mobile.

Due to the rapidly evolving nature of both the online advertising industry and social networking websites as an advertising platform, we are generally not able to use conventional price and volume analysis in evaluating the financial performance of our online advertising services. Because we offer a variety of advertisement formats on different locations of our webpages and both the advertisement formats and webpages have changed significantly in the past few years, we do not have meaningful advertisement volume information that can be used for period to period comparison purposes. Similarly, the price for the same duration of an advertisement may change due to the location of the webpage, the location of the advertisement on the webpage and rotation frequency. In addition, because social networking websites as an advertising platform is an emerging business model and our pricing model for our advertising services has undergone significant changes in the past several years, period to period comparisons of prices of our advertising services would not be meaningful.

The most significant factors that directly or indirectly affect our online advertising revenues include the following:

Table of Contents

- the number of our users who visit the PC version of our social networking internet platform, and the amount of time as well as the page views spent on the PC version of our platform;
- acceptance by advertisers of online advertising in general and real name social networking services in particular as an effective marketing channel;
- the size of total online advertising budgets of advertisers;
- our ability to retain existing advertisers and attract new advertisers;
- the level of competition amongst companies providing SNS and social media services;
- our ability to continue providing innovative advertising solutions that enable advertisers to reach their target audiences;
- the state of the PRC and global economy; and
- government regulations or policies affecting the internet and SNS and online advertising businesses.

Our Nuomi segment

Our Nuomi segment's revenues primarily include revenues it earns from merchants who offer services and products on our nuomi.com social commerce website. Nuomi.com offers deep-discount localized social commerce services and products to Nuomi users. Entertainment, dining, health and beauty services make up the majority of our social commerce deals. The most significant factors that directly or indirectly affect our Nuomi segment's revenues include our ability to attract more merchants to offer services and products on nuomi.com, competition in China's social commerce market and government regulations or policies affecting social commerce businesses.

Cost of Revenues

Edgar Filing: Renren Inc. - Form 20-F

The following table sets forth the principal components of our cost of revenues, both as absolute amounts and as percentages of our total net revenues from our continuing operations, for the periods presented.

Cost of revenues:

Renren segment:

Bandwidth and co-location costs	\$	9,618	12.6%	\$	12,201	10.3%	\$	24,452	13.9%
Salaries and benefits		1,352	1.8		5,415	4.6		13,835	7.9
Games-related costs		2,246	2.9		3,256	2.8		9,872	5.6
Direct advertisement costs		1,571	2.1		1,048	0.9		4,890	2.7
Commission costs								4,028	2.3
Other expenses		1,809	2.3		3,691	3.1		8,013	4.5
Renren segment total		16,596	21.7		25,611	21.7		65,090	36.9
Nuomi segment		28	0.0		622	0.5		1,529	0.9
Total cost of revenues	\$	16,624	21.7%	\$	26,233	22.2%	\$	66,619	37.8%

Our Renren segment

Cost of revenues for our Renren segment consists primarily of bandwidth and co-location costs, salaries and benefits, games-related costs, direct advertisement costs and commission costs. We expect that our cost of revenues will increase in amount as we further grow our user base and expand our revenue-generating services.

Table of Contents

Bandwidth and co-location costs. Bandwidth and co-location costs are the fees we pay to telecommunications carriers and other service providers for telecommunications services and for hosting our servers at their internet data centers. Bandwidth and co-location costs are a significant component of our cost of revenues. We expect our bandwidth and co-location costs to increase as traffic to our websites continues to grow.

Salaries and benefits. Salaries and benefits primarily consist of salaries and welfare benefits for employees whose services are directly related to the generation of revenues.

Games-related costs. Games-related costs primarily consist of fixed and variable fees for licensing certain of our online games from third-party developers. Fixed licensing fees are amortized on a straight line basis over the shorter of the license period and the useful economic life of the licensed game. Variable licensing fees are calculated as a percentage of the revenues we generate from the licensed games and are recognized when the relevant revenues are recognized. In addition, games-related costs include the depreciation and amortization of computer servers and software which are attributable to our online games business.

Direct advertisement costs. Direct advertisement costs primarily include costs for licensing of professionally produced content for 56.com, as well as design, development and certain other costs incurred by third parties with whom we have contracted to provide certain services relating to our online advertising services. For example, if an advertiser places an advertisement on our renren.com website and we contract with a third party to provide technical assistance and design support for placing such advertisement, the fees paid to this third party are classified as direct advertisement costs.

Commission costs. Commission costs primarily consist of commissions paid to Woxiu performers. Such commissions are calculated as a percentage of the revenues we generate from the sales of virtual gifts that fans of the performers have purchased.

Other expenses. Other expenses primarily include depreciation and content costs. Depreciation expenses primarily consist of the depreciation of servers and other equipment. We include depreciation expenses for servers and other equipment that are directly related to our business operations and technical support in our cost of revenues. Content costs consist of fees we pay to license content from copyright owners or content distributors.

Our Nuomi segment

Cost of revenues for our Nuomi segment accounted for only 0.0%, 0.5% and 0.9% of our total net revenues from our continuing operations in 2010, 2011 and 2012, respectively. Cost of revenues for our Nuomi segment consists primarily of bandwidth and co-location costs. Our Nuomi segment has relatively low cost of revenues as a percentage of its revenues because we recognize Nuomi's revenue as service fee income based on the difference between the amounts we receive from Nuomi users and the amount we pay to third-party merchants.

Operating Expenses

Our operating expenses consist of selling and marketing expenses, research and development expenses, general and administrative expenses and impairment of intangible assets. Our operating expenses in 2011 were significantly higher than they were in 2010, primarily due to significant increases in expenses associated with the expansion of our Nuomi social commerce services, including marketing and promotion expenses and a rapid increase in headcount, as well as a significant increase in our overall research and development staff. Compared with 2011, our operating expenses increased by 65.0% in 2012, primarily due to a substantial increase in our investment in research and development for mobile related initiatives, an increase in the size of our sales force for Nuomi social commerce services, and an increase in the promotion expenses for our online games and 56.com.

The following table sets forth our operating expenses for continuing operations, both as absolute amounts and as percentages of our total net revenues, for the periods indicated.

Table of Contents

	2010		Years ended December 31, 2011				2012	
			(in thousands of US\$, except for percentages)					
	US\$	%	US\$	%	US\$	%		
Operating Expenses:								
Selling and marketing	\$ 20,281	26.5%	\$ 62,050	52.6%	\$ 82,789	47.0%		
Research and development	23,699	31.0	40,310	34.2	79,541	45.2		
General and administrative	7,511	9.8	17,215	14.6	38,860	22.1		
Impairment of intangible assets	739	1.0	2,351	2.0				
Total operating expenses	\$ 52,230	68.3%	\$ 121,926	103.4%	\$ 201,190	114.3%		

Our selling and marketing expenses, research and development expenses and general and administrative expenses include share-based compensation charges. See [Critical Accounting Policies](#) [Share-Based Compensation Expenses](#) for more information.

Selling and Marketing Expenses

Selling and marketing expenses consist primarily of salaries, benefits and commissions for our sales and marketing personnel and advertising and promotion expenses. The significant increase in our selling and marketing expenses in 2011 was primarily due to (i) the increase in headcount of selling and marketing personnel to support the expansion of our Nuomi social commerce services and (ii) marketing expenses for our Nuomi social commerce services. The increase in our selling and marketing expenses in 2012 was primarily due to (i) the increase in headcount of selling and marketing personnel to support the expansion of our Nuomi social commerce services, and (ii) the increase in promotion expenses for our games and 56.com. We expect that our selling and marketing expenses will continue to increase in the near term as we plan to increase our promotion expenses for online games and 56.com as well as hire additional sales and marketing personnel, particularly for our Nuomi social commerce services.

Research and Development Expenses

Research and development expenses consist primarily of salaries and benefits for research and development personnel. Research and development expenses increased substantially in each of the past two years, mostly due to the hiring of more research and development personnel to support the rapid growth of our business. Our mobile-related investments contributed a significant part of the increase of our research and development expenses in 2012. We expect our research and development expenses to increase on an absolute basis as we intend to hire additional research and development personnel to develop new features and services for our various websites, develop new online games and further improve our technology infrastructure, among other things.

General and Administrative Expenses

General and administrative expenses consist primarily of salaries and benefits for our general and administrative personnel and fees and expenses for third-party professional services. We expect our general and administrative expenses to increase in the future on an absolute basis as our business grows.

Impairment of Intangible Assets

Impairment of intangible assets in 2010 and 2011 related primarily to impairments of domain names which we no longer use. We did not record impairment of intangible assets in 2012.

Change in Fair Value of Warrants

Change in fair value of warrants relate to the warrants we granted to SOFTBANK CORP. in April 2008 and amended in July 2009 in connection with our issuance and sale of series D preferred shares to SOFTBANK CORP. See Critical Accounting Policies Fair Value of Warrants. As all of the warrants held by SOFTBANK CORP. have been exercised in full in December 2010, these warrants will not affect our results of operations for future periods.

Exchange (Loss) Gain on Dual Currency Deposit / Offshore Bank Accounts

In the past, we made dual currency deposits in addition to RMB deposits in the ordinary course of our business to enhance the yields on our cash balances. In 2010 and 2011, we had exchange gains on dual currency deposits in U.S. dollars and Japanese yen, which were mainly attributable to offshore bank deposits. In 2012, we had an exchange loss on offshore RMB deposits.

Table of Contents

Taxation

Cayman Islands

We are incorporated in the Cayman Islands. Under the current laws of the Cayman Islands, we are not subject to income or capital gains tax. In addition, dividend payments are not subject to withholding tax in the Cayman Islands.

PRC

All entities and individuals that engage in the provision of services, the transfer of intangible assets or the sale of real properties within the PRC are required to pay PRC business tax. Currently, we are subject to a 5.6% to 8.6% business tax on gross revenue generated from IVAS, online advertising and social commerce services, plus related surcharges.

On January 1, 2012, the Ministry of Finance and the State Administration of Taxation introduced a pilot plan for the imposition of a value-added tax to replace the business tax. This pilot plan was first launched in Shanghai and subsequently was expanded to ten other provinces and municipalities, between August and December of 2012. As of December 31, 2012, certain of our subsidiaries and consolidated affiliated entities based in Beijing, Guangzhou and Shanghai have been required by local tax authority to pay value-added tax at a rate of 6.72% to 6.78% on certain service revenues which were previously subject to business tax.

Effective as of January 1, 2008, the Enterprise Income Tax Law applies a uniform enterprise income tax rate of 25% to all domestic enterprises and foreign-invested enterprises and defines new tax incentives for qualifying entities. Enterprises established before March 16, 2007 that were entitled to the then available preferential tax treatment may continue to enjoy such treatment (i) in the case of preferential tax rates, for a maximum of a five-year period starting from January 1, 2008; during such period, the tax rate will gradually increase to 25%, or (ii) in the case of preferential tax exemption or reduction for a specified term, until the expiration of such term. In addition, dividends, interests, rent or royalties paid by a PRC entity to foreign non-resident enterprise investors, and proceeds from the disposition of assets by such foreign enterprise investor, will generally be subject to a 10% withholding tax.

On March 31, 2009, Qianxiang Wangjing, one of our consolidated affiliated entities, was qualified as a Software Enterprise by the Beijing Science and Technology Commission. According to such qualification, Qianxiang Wangjing is eligible for certain preferential tax treatments, including a two-year exemption and three-year 50% reduction on its annual enterprise income tax starting from the first year when it generated profits, which was 2009. This preferential tax treatment benefited us by reducing our income tax charge by US\$11.3 million in 2010 (when Qianxiang Wangjing was exempted from enterprise income tax) and by US\$1.4 million in 2011. In tax year 2013, Qianxiang Wangjing will pay income tax at 12.5% (i.e. 50% of the standard rate). Thereafter Qianxiang Wangjing will pay income tax at the standard rate of 25%. Consequently, our effective tax rate is expected to increase in future years. Qianxiang Changda has been qualified as a software enterprise by the Shanghai Municipal Commission of Science and Technology and, accordingly, was exempt from enterprise income tax rate in 2011 and 2012 and will enjoy a tax reduction of 50% for 2013, 2014 and 2015.

Under the Enterprise Income Tax Law, an enterprise established outside of the PRC with de facto management bodies located within the PRC is considered a PRC resident enterprise and therefore will be subject to a 25% PRC enterprise income tax on its global income. The implementation rules define de facto management bodies as establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. of an enterprise. In addition, SAT Circular 82 treats a Chinese-controlled enterprise established outside of China as a PRC resident enterprise with de facto management bodies located in the PRC for tax purposes where all of the following requirements are satisfied: (i) the senior management and core management departments in charge of its daily production or business operations are located in the PRC; (ii) its financial and human resource decisions are subject to determination or approval by persons or bodies in the PRC; (iii) its major assets, accounting books, company seals, and minutes and files of its board and shareholders meetings are located or kept in the PRC; and (iv) more than half of the enterprise's board members with voting rights or senior management habitually reside in the PRC. In addition, the State Administration of Taxation issued a bulletin effective September 1, 2011 to provide more guidance on the implementation of the above circular. The bulletin made clarification in the areas of resident status determination, post-determination administration and competent tax authorities. It also specifies that when provided with a copy of Chinese tax resident determination certificate from a resident Chinese controlled offshore incorporated enterprise, the payer should not withhold 10% income tax when paying the Chinese-sourced dividends, interest, royalties, etc. to the Chinese controlled offshore incorporated enterprise. Although both the circular and the bulletin only apply to offshore enterprises controlled by PRC enterprises and not those by PRC individuals, the determination criteria set forth in the circular and administration clarification made in the bulletin may reflect the State Administration of Taxation's general position on how the de facto management body test should be applied in determining the tax residency status of offshore enterprises and the administration measures should be implemented, regardless of whether they are controlled by PRC enterprises or PRC individuals. Despite the uncertainties resulting from limited PRC tax guidance on the issue, we do not believe that our legal entities organized outside of the PRC constitute PRC resident enterprises under the Enterprise Income Tax Law. If considered a PRC resident enterprise for tax purposes, we would be subject to the PRC enterprise income tax at the rate of 25% on our global income for the period after January 1, 2008. Given that Circular 82 was issued regarding overseas enterprises controlled by PRC enterprises (not those controlled by PRC individuals), it is not strictly applicable to us. As of December 31, 2012, we had not accrued reserves for PRC tax on such basis.

Table of Contents

For more information on PRC tax regulations, see Item 4.B Business Overview Regulation Regulations on Tax.

Discontinued Operations

In late 2008, due to regulatory changes to the operating environment of wireless value-added services, we decided to exit our wireless value-added services business. We discontinued the majority of this business in 2009 and the remainder in 2010. We received in aggregate approximately US\$0.8 million in proceeds from the sale of our wireless value-added services business to an unrelated third party in 2009. In addition, to further focus on our core SNS business in China, we sold all of our equity interests in Mop.com, an internet community website in China, and Gummy Inc., a social internet games provider in Japan, to Oak Pacific Holdings, a company owned by some of our shareholders, in December 2010. For more information, see Item 7.B Major Shareholders and Related party Transactions Related Party Transactions Disposal of Mop.com and Gummy Inc. The aggregate consideration for the sale of Mop.com and Gummy Inc. was approximately US\$18.1 million, and was determined based on a valuation prepared with the assistance of an independent valuation firm. The financial results associated with our wireless value-added services business and with Mop.com and Gummy Inc. have been presented as discontinued operations in 2010.

Critical Accounting Policies

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make estimates and assumptions that affect our reporting of, among other things, assets and liabilities, contingent assets and liabilities and net revenues and expenses. We regularly evaluate these estimates and assumptions based on the most recently available information, our own historical experiences and other factors that we believe to be relevant under the circumstances. Since our financial reporting process inherently relies on the use of estimates and assumptions, our actual results could differ from what we expect. This is especially true with some accounting policies that require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our audited consolidated financial statements because they involve the greatest reliance on our management's judgment.

Revenue Recognition

Historically, we have generated revenues primarily through online games, online advertising, our online talent show and social commerce. We recognize revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable, and collectability is reasonably assured.

Online games

We generate revenue from the provision of online games, particularly cross-platform and web-based online games. Our games can be accessed and played by end users free of charge, and the end users may choose to purchase in-game virtual merchandise or premium features to enhance their game-playing experience using virtual currency. The end users can purchase virtual currency by making direct online payments to us through third-party online payment platforms or purchasing online prepaid cards. The amount received from direct online payments is recorded initially as deferred revenues. We sell online prepaid cards through distributors across China with sales discounts from the face value offered by

Edgar Filing: Renren Inc. - Form 20-F

us. As we do not have control over and generally do not know the ultimate selling price of the online prepaid cards sold by the distributors, net proceeds received from distributors after deduction of sales discounts are recorded as deferred revenues. End users use an access code and password, either obtained through direct online payment or from the online prepaid card, to exchange the amount of direct online payment or the face value of these cards for virtual currency and deposit them into their personal accounts. End users consume the virtual currency for in-game virtual merchandise or premium features sold.

Table of Contents

For the consumptive in-game merchandise or premium features, we recognize the revenues as the in-game merchandise or premium features are first used by the end users. For the permanent merchandise or premium features, we recognize the revenues according to the character of the in-game merchandise or premium features: if the lives of permanent merchandise or premium features can be estimated, revenue is recognized over the estimated lives of permanent merchandise or premium features; if the lives of permanent merchandise or premium features can not be estimated, revenue is recognized over the average period that players typically play the games. When different assumptions were used in deriving the estimated lives of in-game merchandise or premium features and the typical average play period of our games, the timing in which we record our revenues would be impacted.

We are not able to track on an individual basis the virtual currency purchased by our users at various prices. Accordingly, we calculate the amount of revenues recognized for each game point consumed using a moving weighted average method, by dividing the sum of the payments received in the current month and the deferred revenue balance as of the beginning of the month by the sum of number of the units of the virtual currency purchased by the end users in the current month and the units unconsumed by the end users as of the beginning of the month.

An example calculation of the application of the moving weighted average method is as follows:

We sell a pre-paid card with a face value of 100 units of virtual currency through a distributor at a price of US\$80 and sell another 100 units virtual currency through direct on-line payment at a price of US\$100. There is no unused virtual currency or deferred revenues outstanding as of the beginning of the period. During the period, the game players completely used 150 units of virtual currency, and the computation of the revenues recognized by the application of the moving weighted average method is as follows:

	Units of virtual currency		Amount in US\$	
Outstanding units/deferred revenues as of beginning of the period		A		B
Sales during the period	200	C	US\$180(US\$80+US\$100)	D
Moving weighted average unit price for the period			US\$0.9	$E=(B+D)/(A+C)$
Units used/revenues recognized in the period	150	F	US\$135	$G=E*F$
Outstanding units/ deferred revenues as of ending of the period	50	$H=A+C-F$	US\$45	$I=B+D-G$

The deferred revenues in relation with the inactivated online prepaid cards are recognized as revenues when the term of the online prepaid card expires, which is normally two years from the date of purchase. The amount associated with the unused virtual currency, which are without contractual expiration term, are carried as deferred revenues indefinitely as we are not able to reasonably estimate the amount of virtual currency which will be ultimately given up by the users due to our short operating history.

We have also entered into revenue sharing agreements with certain third-party game developers. Under these agreements, we promote and provide links to the online games on our website and the third-party developers operate the games, which includes providing game software, hardware, technical support and customer services, the games. All of the web games are developed by third-party game developers and can be accessed and played by game players on our platforms without downloading separate software. We view the game developers to be our customers and consider our responsibility under our agreements with the game developers to be promotion of the game developers' games. We primarily collect payments from game players in connection with the sale of in-game currencies and remits certain agreed-upon percentages of the proceeds to the game developers and records revenue net of remittances. Revenue from the sale of in-game currency is primarily recorded net of remittances to game developers and deferred until the estimated consumption date, (i.e., the estimated date in-game currencies are

Edgar Filing: Renren Inc. - Form 20-F

consumed within the game), which is typically within a short period of time after purchase of the in-game currency. Purchases of in-game currency are not refundable after they have been sold unless there is unused in-game currency at the time a game is discontinued. Typically, a game will only be discontinued when the monthly revenue generated by a game is insignificant. To date, we have never been required to pay cash refunds to game players or game developers as a result of the discontinuation of a game, or for any other reason.

Table of Contents

Online advertising

Pursuant to advertising contracts, we provide advertisement placement services on our SNS platform and in our online games. We primarily enter into pay-for-time contracts, pursuant to which we bill our customers based on the period of time to display the advertisements in the specific formats on specific web pages. In recent years we have entered into pay-for-volume arrangements, pursuant to which we bill our customers based on the number of impressions or click-throughs that we deliver.

For pay-for-time contracts revenues are recognized ratably over the period the advertising is provided. Pay-for-volume contracts revenues are recognized based on traffic volume tracked and the pre-agreed unit price. Contractual billings in excess of recognized revenue and payments received in advance of revenue recognition are recorded as deferred revenues.

We enter into advertising placement contracts with advertisers, or more frequently, with the advertisers' advertising agents, and we offer volume rebates to certain advertisers' advertising agents. We treat these advertising agents as our customers and our advertising revenues are recognized after deducting the estimated rebates. An estimate of the total rebate is based on the estimates of the sales volume to be reached based on our historical experience. If amounts of future rebates cannot be reasonably estimated, a liability will be recognized for the maximum potential amount of the rebates.

Online talent show (Woxiu)

Our online talent show Woxiu, which means "a show of your own" in Chinese, is a virtual stage we offer at 56.com where grassroots musicians and performers can live-stream their performances and share them with other viewers. Fans of the performing user can chat along with the performer and other live audience and purchase consumer virtual items from us to show support to the performers.

All Woxiu live video shows are available free of charge and fans can purchase virtual items or features on the platform with virtual currencies called "56 beans" to support their favorite performers. The number of 56 beans consumed is kept track of by our operation system and will be deducted from users' accounts automatically when the 56 beans are deemed as consumed. Revenue is recognized monthly based on the number of 56 beans consumed. We pay the performers up to 35% of the amount of 56 beans consumed, or 40% if they enter into an exclusive service contract with us. We recognize the total revenue on a gross basis, and the commission paid to the performers is recorded as cost of revenues.

Renren Open Platform Program

Our social networking internet platform also allows our users to access for-purchase applications developed by third parties. Pursuant to revenue-sharing agreements entered between us and the third-party application developers, we are generally entitled to a 52% share of the revenues generated from our users accessing such for-purchase applications developed by third parties. The revenues are recognized on a net basis when the third-party applications are sold through our platform and our users make online payment to us, which generally occurs concurrently.

Social commerce

In June 2010, we began to engage in social commerce services through nuomi.com. Third-party merchants agree to provide Nuomi users discounted prices when pre-agreed amount of Nuomi users sign up for a deal consisting of services events or products provided by the merchants. We recognize revenue for the difference of the amounts we collect from Nuomi users and the amount we pay to the third-party merchants. The revenues are recognized when all of the following criteria are met: (i) the number of participating users reaches the minimum requirement of the merchants; (ii) the participating users have made their payments to us; (iii) we have released the electronic coupons for the agreed discounted prices to the participating users; and (iv) the electronic coupons have been consumed by the participating users. The payments received for unused coupons are initially recognized as other accounts payables and are recognized as revenues when the above criteria have been met.

Table of Contents

In March 2011, we revised some of the terms for the coupons released for our social commerce services business through our Nuomi website:

- Participating users are now entitled to a full cash refund within seven days of purchasing a coupon or they may deposit the payments made to us as credits for future transactions without a time limit.
- If the released electronic coupons expire without consumption, the participating user may now use the amounts as credits against future transactions without a time limit. This term applies retroactively to all expired coupons from the commencement of our social commerce service business in June 2010.
- We offer a refund to the participating users if the quality of the products or services provided by the third-party merchants does not meet the descriptions of the products or services provided by the third-party merchants on our Nuomi website.

In November 2012, we changed the refund policy of coupons that are refundable within seven days of purchasing to refundable at anytime, provided the coupon is still valid.

As a result of the above described changes, for deals with the revised terms, we henceforth recognize the revenue upon the consumption of the released coupon. We continue to believe we are an agent and recognize revenues on a net basis.

We no longer recognize the revenues for unused coupons upon their expiration. As we are not yet able to estimate how many users will ultimately neither use the coupon nor the credits received upon expiry of the initial unused coupon for a future purchase, we will carry all such amounts as a liability until the released coupon is ultimately used.

Based on the revised terms and policy, we have recognized a liability of US\$1.8 million as of December 31, 2012, for the cumulative effect of the credits extended to the unused coupons expired but have not been exchanged for new coupons.

We have not recognized any liability in connection with our commitment to refund the participating users if the quality of the products or services provided by third-party merchants does not meet the descriptions of the products or services offered on our Nuomi website. The third party merchants are responsible and liable for the quality of the products or services provided. We hold the right to claim reimbursements from the third party merchants or deduct from the amounts payable to them.

The third party merchants are responsible and liable for the quality of the products or services provided. We hold the right to claim reimbursements from the third party merchants or deduct from the amounts payable to them.

Goodwill and Intangible Assets

Goodwill represents the cost of an acquired business in excess of the fair value of identifiable tangible and intangible net assets purchased. We generally seek the assistance of an independent valuation firm in determining the fair value of the identifiable intangible net assets of the acquired business.

There are several methods that can be used to determine the fair value of assets acquired and liabilities assumed. For intangible assets, we typically use the income method. This method starts with a forecast of all of the expected future net cash flows associated with a particular intangible asset. These cash flows are then adjusted to present value by applying an appropriate discount rate that reflects the risk factors associated with the cash flow streams. Some of the more significant estimates and assumptions inherent in the income method or other methods include the amount and timing of projected future cash flows, the discount rate selected to measure the risks inherent in the future cash flows, and the assessment of the asset's economic life cycle and the competitive trends impacting the asset, including consideration of any technical, legal, regulatory or economic barriers to entry. Determining the useful life of an intangible asset also requires judgment as different types of intangible assets will have different useful lives.

Table of Contents

Goodwill is tested for impairment at least once annually. Impairment is tested using a two-step process. The first step compares the fair value of each reporting unit to its carrying amount, including goodwill. If the fair value of each reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step compares the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill.

In October 2011, we acquired Wole Inc., the Cayman Islands company that operates 56.com. The 56.com reporting unit has been fully integrated with the advertising reporting unit and has been renamed as Renren Platform as of December 31, 2012. The following table sets forth the estimated fair value, carrying value and goodwill allocated to our Renren Platform reporting unit as of December 31, 2012.

Reporting Unit	Renren Platform (in thousands of US\$ except for percentages)
Estimated fair value	215,710
Carrying value	189,027
Percentage by which fair value exceeds carrying value	14.1%
Amount of goodwill allocated to the reporting unit	59,673

The principal assumptions made by management in determining goodwill impairment as of December 31, 2012 include the following:

- cash flow discount rates of 25% and terminal value growth rates of 3.0% were used for the Renren Platform reporting unit;
- there will be no major changes in the existing political, legal, fiscal and economic conditions in the PRC;
- there will be no major changes in the current tax law in the PRC and all applicable laws and regulations will be complied with;
- exchange rates and interest rates will not differ materially from those presently prevailing;
- the availability of financing will not be a constraint on the forecasted growth of operations; and
- industry trends and market conditions for related industries will not deviate significantly from economic forecasts.

As of December 31, 2012, the estimated fair value of the Renren Platform reporting unit was 14.1% in excess of its carrying value. We also performed a sensitivity analysis of the results of all reporting units. If the discount rate were to increase by 1.5% or the revenue growth rate of future projection were to decrease by 3.5%, the fair value of the Renren Platform reporting unit would still remain higher than the carrying value of the respective reporting unit.

Table of Contents

Please see Item 3.D Key Information Risk Factors Risks Related to Our Business and Industry for a discussion of risks and uncertainties that may adversely affect our growth. These risks and uncertainties, if materialized, could also have a negative effect on the estimated fair value.

Intangible assets with indefinite useful lives are not subject to amortization and are tested for impairment at least annually when events or changes in circumstances indicate that the asset might be impaired. Such impairment test consists of the fair values of assets with their carrying value amounts and an impairment loss is recognized if and when the carrying amounts exceed the fair values. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets. During the years ended December 31, 2010, 2011 and 2012, we recorded impairment losses of nil, US\$2.2 million and nil, respectively, mainly related to domain names with indefinite life, since we decided to stop using the domain name uume.com after transferring all the online games operated on www.uume.com to one of our other operating platforms in 2010, and xiaonei.com, a domain name we previously acquired but no longer use in 2011.

Intangible assets with determinable useful lives are amortized on a straight-line basis.

We evaluate intangible assets with determinable useful life for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to the future undiscounted net cash flows expected to be generated by the asset. If these assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying value of the assets exceeds the fair value of the assets. During the year ended December 31, 2010, 2011 and 2012, we recognized impairment for intangible assets of US\$ 0.7 million, US\$ 0.1 million and nil for games licenses.

Estimates of fair value result from a complex series of judgments about future events and uncertainties and rely heavily on estimates and assumptions at a point in time. The judgments made in determining an estimate of fair value can materially impact our results of operations. The valuations are based on information available as of the impairment review date and are based on expectations and assumptions that have been deemed reasonable by management. Any changes in key assumptions, including unanticipated events and circumstances, may affect the accuracy or validity of such estimates and could potentially result in an impairment charge.

Business Combinations

Business combinations are recorded using the acquisition method of accounting. The assets acquired, the liabilities assumed, and any noncontrolling interest of the acquiree at the acquisition date, if any, are measured at their fair values as of that date. Goodwill is recognized and measured as the excess of the total consideration transferred plus the fair value of any noncontrolling interest of the acquiree, if any, at the acquisition date over the fair values of the identifiable net assets acquired. Previously, any noncontrolling interest was reflected at historical cost. Acquisition costs are expensed when incurred.

Common forms of the consideration made in acquisitions include cash and common equity instruments. Consideration transferred in a business acquisition is measured at the fair value as at the date of acquisition. For shares issued in a business combination, we used the fair value of our ordinary shares as of the date of acquisition.

Where the consideration in an acquisition includes contingent consideration, the contingent consideration is recognized and measured at its fair value at the acquisition date, and if recorded as a liability, it is subsequently carried at fair value with changes in fair value reflected in earnings.

Share-based Compensation

Our share-based payment transactions with employees are measured based on the grant date fair value of the equity instrument we issued and recognized as compensation expense over the requisite service period based on the straight-line method, with a corresponding impact reflected in additional paid-in capital. Share awards issued to non-employees, such as advisors, are measured at fair value at the earlier of the commitment date or the date the service is completed and recognized over the period the service is provided.

Table of Contents

The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized through a cumulative catch-up adjustment in the period of change and will also impact the amount of stock compensation expense to be recognized in future periods.

A change in any of the terms or conditions of share options shall be accounted for as a modification of the plan. Therefore, we calculate incremental compensation cost of a modification as the excess of the fair value of the modified option over the fair value of the original option immediately before its terms are modified, measured based on the share price and other pertinent factors at the modification date. For vested options, we would recognize incremental compensation cost in the period of the modification occurred and for unvested options, we would recognize, over the remaining requisite service period, the sum of the incremental compensation cost and the remaining unrecognized compensation cost for the original award on the modification date.

Volatility. The volatility of the underlying ordinary shares during the life of the options was estimated based on the historical stock price volatility of listed comparable companies over a period comparable to the expected term of the options.

Risk-free interest rate. Risk-free interest rate was estimated based on the yield to maturity of China Sovereign Bonds with a maturity period close to the expected term of the options.

Expected term. For the options granted to employees, we estimated the expected term based on the vesting and contractual terms and employee demographics, and we estimated the expected term as the average between the vesting term of the options and the original contractual term. For the options granted to non-employees, we estimated the expected term as the original contractual term.

Dividend yield. We estimated the dividend yield based on our expected dividend policy over the expected term of the options.

Exercise price. The exercise price of the options was determined by our board of directors.

Fair value of underlying ordinary shares. The fair value of the ordinary shares underlying the share options is the quoted market price of our ordinary shares on the date of grant.

Income Taxes

In preparing our consolidated financial statements, we must estimate our income taxes in each of the jurisdictions in which we operate. We estimate our actual tax exposure and assess temporary differences resulting from different treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which we include in our consolidated balance sheet. We must then assess the likelihood that we will recover our deferred tax assets from future taxable income. If we believe that recovery is not likely, we must establish a

valuation allowance. To the extent we establish a valuation allowance or increase this allowance, we must include an expense within the tax provision in our statement of operations.

Management must exercise significant judgment to determine our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. We base the valuation allowance on our estimates of taxable income in each jurisdiction in which we operate and the period over which our deferred tax assets will be recoverable. If actual results differ from these estimates or we adjust these estimates in future periods, we may need to establish an additional valuation allowance, which could materially impact our financial position and results of operations.

U.S. GAAP requires that an entity recognize the impact of an uncertain income tax position on the income tax return at the largest amount that is more likely than not to be sustained upon audit by the relevant tax authority. If we ultimately determine that payment of these liabilities will be unnecessary, we will reverse the liability and recognize a tax benefit during that period. Conversely, we record additional tax charges in a period in which we determine that a recorded tax liability is less than the expected ultimate assessment. We did not recognize any significant unrecognized tax benefits during the periods presented in this annual report.

Uncertainties exist with respect to the application of the PRC Enterprise Income Tax Law and its implementing rules to our operations, specifically with respect to our tax residency status. The Enterprise Income Tax Law specifies that legal entities organized outside of the PRC will be considered residents for PRC income tax purposes if their de facto management bodies are located within the PRC. The Enterprise Income Tax Law's implementation rules define the term de facto management bodies as establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. of an enterprise.

Table of Contents

Despite the uncertainties resulting from limited PRC tax guidance on the issue, we do not believe that our legal entities organized outside of the PRC constitute residents under the Enterprise Income Tax Law. If one or more of our legal entities organized outside of the PRC were characterized as PRC tax residents, the impact would adversely affect our results of operations. See Item 3.D Risk Factors Risk Related to Doing Business in China Our global income and the dividends that we may receive from our PRC subsidiaries, dividends distributed to our non-PRC shareholders and ADS holders, and gain recognized by such shareholders or ADS holders, may be subject to PRC taxes under the Enterprise Income Tax Law, which would have a material adverse effect on our results of operations.

Based on our analysis of the facts related to our corporate restructuring in 2005 and 2006, we do not believe that we should be treated as a United States corporation for United States federal income tax purposes. However, as there is no direct authority on how the relevant rules of the Code might apply to us, our company's conclusion is not free from doubt. Therefore, our conclusion may be challenged by the United States tax authorities and a finding that we owe additional United States taxes could substantially reduce the value of your investment in our company. If the United States taxing authorities successfully treated our company as a United States domestic corporation, our company would be subject to United States federal income tax on its worldwide taxable income as if it were a United States corporation. For more information, please refer to Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of Our Business If we are required to pay U.S. taxes, the value of your investment in our company could be substantially reduced.

Consolidation of Variable Interest Entity

PRC laws and regulations currently prohibit direct foreign ownership of business entities providing value-added telecommunications services in the PRC where certain licenses are required for the provision of such services. To comply with the PRC laws and regulations, we conduct substantially all of our business through our variable interest entities and their subsidiaries. We have, through three of our wholly owned subsidiaries in the PRC, entered into contractual arrangements with Qianxiang Tiancheng, Qianjun Technology and Renren Games, such that these entities are considered as our variable interest entities for which we are considered their primary beneficiary. We believe we have substantive kick-out rights per the terms of the equity option agreements, which gives us the power to control the shareholder of these entities. More specifically, we believe that the terms of the exclusive equity option agreements are currently exercisable and legally enforceable under PRC laws and regulations. Therefore, we believe this gives us the power to direct the activities that most significantly impact the economic performance of these entities and their subsidiaries. We believe that our ability to exercise effective control, together with the service agreements and the equity interest pledge agreements, give us the rights to receive substantially all of the economic benefits from these entities and their subsidiaries in consideration for the services provided by our wholly owned subsidiaries in China. Accordingly, as the primary beneficiary of these entities and in accordance with U.S. GAAP, we consolidate their financial results and assets and liabilities in our consolidated financial statements.

Based on the advice of TransAsia Lawyers, our PRC legal counsel, our corporate structure in China complies with all existing PRC laws and regulations. However, our PRC legal counsel has also advised us that as there are substantial uncertainties regarding the interpretation and application of PRC laws and regulations, we cannot assure you that the PRC government would agree that our corporate structure or any of the above contractual arrangements comply with current or future PRC laws or regulations. PRC laws and regulations governing the validity of these contractual arrangements are uncertain and the relevant government authorities have broad discretion in interpreting these laws and regulations.

Impairment of Long-term and Short-term Investments.

We review our long-term and short-term investments for other-than-temporary impairment in accordance with relevant accounting literature, based on the specific identification method. We consider available quantitative and qualitative evidence in evaluating potential factors, general market conditions, government economic plans, the duration and the extent to which the fair value of the investment is less than the cost, and our intent and ability to hold the investment. In view of the declines of fair value below the carrying cost of certain short-term and long-term investments, we performed an evaluation to determine whether any of the declines were other-than-temporary. We determined that there were no fair value declines in long-term and short-term investments, and thus made no provision for impairment losses, in 2012. We recognized nil, US\$79,000 and nil in impairment losses on long-term investments for the years ended December 31, 2010, 2011 and 2012, respectively. We recognized nil impairment losses on short-term investments for the years ended December 31, 2010, 2011 and 2012, respectively.

Accounting Pronouncements Newly Adopted

In May 2011, the FASB issued an authoritative pronouncement on fair value measurement. The guidance is the result of joint efforts by the FASB and International Accounting Standards Board to develop a single, converged fair value framework. The guidance is largely consistent with existing fair value measurement principles in U.S. GAAP. The guidance expands the existing disclosure requirements for fair value measurements and makes other amendments, mainly including:

Table of Contents

- Highest-and-best-use and valuation-premise concepts for nonfinancial assets the guidance indicates that the highest-and-best-use and valuation-premise concepts only apply to measuring the fair value of nonfinancial assets.

- Application to financial assets and financial liabilities with offsetting positions in market risks or counterparty credit risk the guidance permits an exception to fair value measurement principles for financial assets and financial liabilities (and derivatives) with offsetting positions in market risks or counterparty credit risk when several criteria are met. When the criteria are met, an entity can measure the fair value of the net risk position.

- Premiums or discounts in fair value measure the guidance provides that premiums or discounts that reflect size as a characteristic of the reporting entity's holding (specifically, a blockage factor that adjusts the quoted price of an asset or a liability because the market's normal daily trading volume is not sufficient to absorb the quantity held by the entity) rather than as a characteristic of the asset or liability (for example, a control premium when measuring the fair value of a controlling interest) are not permitted in a fair value measurement.

- Fair value of an instrument classified in a reporting entity's stockholders' equity the guidance prescribes a model for measuring the fair value of an instrument classified in stockholders' equity; this model is consistent with the guidance on measuring the fair value of liabilities.

- Disclosures about fair value measurements the guidance expands disclosure requirements, particularly for Level 3 inputs. Required disclosures include:
 - (i) For fair value measurements categorized in Level 3 of the fair value hierarchy: (1) a quantitative disclosure of the unobservable inputs and assumptions used in the measurement, (2) a description of the valuation process in place (e.g., how the entity decides its valuation policies and procedures, as well as changes in its analyses of fair value measurements, from period to period), and (3) a narrative description of the sensitivity of the fair value to changes in unobservable inputs and interrelationships between those inputs.

 - (ii) The level in the fair value hierarchy of items that are not measured at fair value in the statement of financial position but whose fair value must be disclosed.

The guidance is to be applied prospectively and is effective for interim and annual periods beginning after December 15, 2011, for public entities. Early application by public entities is not permitted. The adoption of this guidance did not have a significant effect on our consolidated financial statements included in this annual report.

In June 2011, the FASB issued an authoritative pronouncement to require an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for

comprehensive income. The guidance eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The guidance does not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. The guidance should be applied retrospectively. For public entities, the guidance is effective for fiscal years and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. In December 2011, the FASB issued an authoritative pronouncement related to deferral of the effective date for amendments to the presentation of reclassifications of items out of accumulated other comprehensive income. This guidance allows the FASB to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented. While the FASB is considering the operational concerns about the presentation requirements for reclassification adjustments and the needs of financial statement users for additional information about reclassification adjustments, entities should continue to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect before update the pronouncement issued in June 2011. We have adopted this guidance on January 1, 2012 and have separately presented the consolidated statements of comprehensive income since that date.

Table of Contents

In September 2011, the FASB issued an authoritative pronouncement related to testing goodwill for impairment. The guidance is intended to simplify how entities, both public and nonpublic, test goodwill for impairment. The guidance permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. The guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if a public entity's financial statements for the most recent annual or interim period have not yet been issued. The adoption of this pronouncement did not have a significant effect on our consolidated financial statements, as we chose to directly perform the two-step goodwill impairment test for 2012.

In July 2012, the FASB issued an authoritative pronouncement related to testing indefinite-lived intangible assets, other than goodwill, for impairment. Under the guidance, an entity testing an indefinite-lived intangible asset for impairment has the option of performing a qualitative assessment before calculating the fair value of the asset. If the entity determines, on the basis of qualitative factors, that the fair value of the indefinite-lived intangible asset is not more likely than not (i.e., a likelihood of more than 50 percent) impaired, the entity would not need to calculate the fair value of the asset. The guidance does not revise the requirement to test indefinite-lived intangible assets annually for impairment. In addition, the guidance does not amend the requirement to test these assets for impairment between annual tests if there is a change in events or circumstances; however, it does revise the examples of events and circumstances that an entity should consider in interim periods. The guidance was effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted. The adoption of this guidance did not have a significant effect on our consolidated financial statements included in this annual report.

Recent Accounting Pronouncements Not Yet Adopted

In December 2011, the FASB issued an authoritative pronouncement relating to disclosures about offsetting assets and liabilities. The guidance requires an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. An entity is required to apply the amendments for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the disclosures required by those amendments retrospectively for all comparative periods presented. We do not expect the adoption of this guidance to have a significant effect on its consolidated financial statements.

In February 2013, the FASB issued an authoritative pronouncement related to Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, to improve the transparency of reporting these reclassifications. Other comprehensive income includes gains and losses that are initially excluded from net income for an accounting period. Those gains and losses are later reclassified out of accumulated other comprehensive income into net income. The amendments in this pronouncement do not change the current requirements for reporting net income or other comprehensive income in financial statements. The amendments apply to all public and private companies that report items of other comprehensive income. Public companies are required to comply with these amendments for all reporting periods (interim and annual). The amendments are effective for reporting periods beginning after December 15, 2012, for public companies. Early adoption is permitted. We do not expect the adoption of this guidance will have a significant effect on its consolidated financial statements.

In March 2013, the FASB has issued an authoritative pronouncement related to parent's accounting for the cumulative translation adjustment upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. When a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity, the parent is required to release any related cumulative translation adjustment into net income. Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets

had resided.

Table of Contents

For an equity method investment that is a foreign entity, the partial sale guidance still applies. As such, a pro rata portion of the cumulative translation adjustment should be released into net income upon a partial sale of such an equity method investment. However, this treatment does not apply to an equity method investment that is not a foreign entity. In those instances, the cumulative translation adjustment is released into net income only if the partial sale represents a complete or substantially complete liquidation of the foreign entity that contains the equity method investment.

Additionally, the amendments in this pronouncement clarify that the sale of an investment in a foreign entity includes both: (1) events that result in the loss of a controlling financial interest in a foreign entity (i.e., irrespective of any retained investment); and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date (sometimes also referred to as a step acquisition). Accordingly, the cumulative translation adjustment should be released into net income upon the occurrence of those events.

The amendments in this pronouncement are effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013. The amendments should be applied prospectively to derecognition events occurring after the effective date. Prior periods should not be adjusted. Early adoption is permitted. If an entity elects to early adopt the amendments, it should apply them as of the beginning of the entity's fiscal year of adoption. We do not expect the adoption of this guidance will have a significant effect on its consolidated financial statements.

Results of Operations

The following table sets forth a summary of our consolidated results of operations for the years indicated. Our business has grown rapidly in recent years. We believe that period-to-period comparisons of our results of operations should not be relied upon as indicative of future performance.

	2010	Year ended December 31, 2011 (in thousands of US\$)	2012
Net revenues:			
Renren segment:			
Online games	\$ 34,413	\$ 42,289	\$ 90,175
Other IVAS	8,912	9,608	15,952
Online advertising	32,003	59,613	53,508

Net (loss) income attributable to Renren Inc.	\$ (64,155)	\$ 41,256	\$	(75,026)

Table of Contents

Year Ended December 31, 2012 Compared to Year Ended December 31, 2011

Net Revenues. Our net revenues increased by 49.3% from US\$118.0 million in 2011 to US\$176.1 million in 2012. This increase was primarily due to a 43.2% increase in the net revenues of our Renren segment, as well as to a 155% increase in the net revenues of our Nuomi segment.

- **Renren segment.** Our Renren segment's net revenues increased by 43.2% from US\$111.5 million in 2011 to US\$159.6 million in 2012. The increase in our Renren segment's net revenues was primarily due to an increase in its online games revenues, with a modest increase in its other IVAS revenues largely offset by a modest decrease in its online advertising revenues. Online games revenues increased by 113% from US\$42.3 million in 2011 to US\$90.2 million in 2012, primarily driven by our in-house developed cross-platform games. The number of in-house developed games we offered increased from 10 as of December 31, 2011 to 15 as of December 31, 2012. Including both in-house developed and third party games, we had approximately 219,000 active paying users on a quarterly average basis in 2012, compared to 243,000 active paying users on a quarterly average basis in 2011. The decrease in paying users resulted from the decrease of paying users on third party games, partially offset by the increase of paying users on our in-house developed games. Our Renren segment's other IVAS revenues increased by 66.0% from US\$9.6 million in 2011 to US\$16.0 million in 2012, primarily due to Woxiu services on 56.com, which increased from US\$0.7 million in 2011 to US\$7.2 million in 2012, and to a lesser extent, VIP memberships revenue of Renren.com. Online advertising revenues decreased by 10.2% from US\$59.6 million in 2011 to US\$53.5 million in 2012. The decrease was an overall result of a weaker macroeconomic environment, increased competition and the continuing shift of our traffic from PC to mobile. The majority of our Renren users' time on our SNS service is now spent on mobile, from which we do not currently monetize meaningful amounts of online advertising revenue. Due to these factors tempering demand for our online advertising services, the number of our brand advertisers decreased from 301 in 2011 to 277 in 2012 and the average annual spending by our brand advertisers decreased from approximately US\$181,000 in 2011 to approximately US\$165,000 in 2012. The number of our activated users increased from approximately 147 million as of December 31, 2011 to approximately 178 million as of December 31, 2012. Our monthly unique log-in users increased from 38 million in December 2011 to 56 million in December 2012.

- **Nuomi segment.** Our Nuomi segment's net revenues increased by 155% from US\$6.5 million in 2011 to US\$16.5 million in 2012, primarily due to social commerce services. Social commerce services accounted for 100% of our Nuomi segment's net revenues in 2011 and 98.0% of our Nuomi segment's net revenues in 2012. Our registered Nuomi users and paying users on Nuomi increased from 11.3 million and 4.9 million as of December 31, 2011 to 23.7 million and 11.2 million as of December 31, 2012.

Cost of Revenues. Our cost of revenues increased by 154% from US\$26.2 million in 2011 to US\$66.6 million in 2012. This increase was primarily due to a 154% increase in the cost of revenues of our Renren segment, as well as to a 146% increase in the cost of revenues of our Nuomi segment.

Table of Contents

- **Renren segment.** Our Renren segment's cost of revenues increased by 154% from US\$25.6 million in 2011 to US\$65.1 million in 2012. This increase was primarily due to a 100% increase in bandwidth and co-location costs for 56.com and Renren.com, from US\$12.2 million in 2011 to US\$24.5 million in 2012; an increase in salaries and benefits from US\$5.4 million in 2011 to US\$13.8 million in 2012, which resulted from the hiring of more game masters and other employees whose services are directly related to the generation of revenues; an increase in other games-related costs from US\$3.3 million in 2011 to US\$9.9 million in 2012, primarily due to the increased licence costs for launched games; and the US\$4.0 million commission paid to performers of Woxiu in 2012.

- **Nuomi segment.** Our Nuomi segment's cost of revenues increased by 146% from US\$0.6 million in 2011 to US\$1.5 million in 2012, primarily consisting in bandwidth and co-location costs and logistics costs.

Operating Expenses. Our operating expenses increased by 65.0% from US\$121.9 million in 2011 to US\$201.2 million in 2012, due to increases in our research and development expenses, selling and marketing expenses and general and administrative expenses.

- **Selling and marketing expenses.** Our selling and marketing expenses increased by 33.4% from US\$62.1 million in 2011 to US\$82.8 million in 2012. This increase was primarily due to an increase of US\$10.9 million in salaries and other benefits for our expanded Nuomi social commerce services sales and marketing personnel, an increase of US\$2.9 million in advertising expenses for our games, and an increase of US\$1.6 million in promotion expenses for 56.com.

- **Research and development expenses.** Our research and development expenses increased by 97.3% from US\$40.3 million in 2011 to US\$79.5 million in 2012. This increase was primarily due to a 114.1% increase in salaries and other benefits for research and development personnel, from US\$29.1 million in 2011 to US\$62.3 million in 2012. The increase in salaries and other benefits for these personnel was mainly due to an increase in headcount to further expand our research and development capabilities, particularly for our mobile related initiatives.

- **General and administrative expenses.** Our general and administrative expenses increased by 125.7% from US\$17.2 million in 2011 to US\$38.9 million in 2012. This increase was primarily due to the growth of the size of our company and our expanded business operations. In particular, salaries and other benefits for our general and administrative personnel increased from US\$9.2 million in 2011 to US\$20.2 million in 2012, resulting primarily from increased share-based compensation charges as well as an increased headcount due to the expansion of our business and expenses associated with our reporting obligations as a public company.

Exchange (Loss) Gain on Dual Currency Deposit / Offshore Bank Accounts. We had an exchange loss of US\$1.8 million on offshore RMB deposits in 2012, compared with an exchange gain of US\$7.8 million on dual currency deposits in 2011.

Interest Income. Interest income was US\$20.1 million in 2012, as compared to interest income of US\$9.6 million in 2011. The interest income for both years was primarily interest on term deposits at commercial banks, the cash balances of which increased significantly from 2011 to 2012.

Gain on Sales of Available-for-sale Investments. Gain on sales of available-for-sale investments was US\$4.3 million in 2012, compared to US\$50.9 million in 2011. The gain on sales of available-for-sale investments in 2012 was due to proceeds from sales of marketable securities and option strategies relating to those marketable securities.

Year Ended December 31, 2011 Compared to Year Ended December 31, 2010

Net Revenues. Our net revenues increased by 54.1% from US\$76.5 million in 2010 to US\$118.0 million in 2011. This increase was primarily due to a 48.0% increase in the net revenues of our Renren segment, as well as to a 435% increase in the net revenues of our Nuomi segment.

Table of Contents

- **Renren segment.** Our Renren segment's net revenues increased by 48.0% from US\$75.3 million in 2010 to US\$111.5 million in 2011. The increase in our Renren segment's net revenues was primarily due to an increase in its online advertising revenues and its online games revenues. Our Renren segment's online advertising revenues increased by 86.3% from US\$32.0 million in 2010 to US\$59.6 million in 2011. The significant increase was an overall result of the increasing adoption of our SNS platform as an advertising solution for advertisers, driven by our user base growth. The number of our activated users increased from approximately 110 million as of December 31, 2010 to approximately 147 million as of December 31, 2011. Our monthly unique log-in users increased from 26 million in December 2010 to 38 million in December 2011. The increased use of our platform by advertisers is reflected in an increase of our brand advertisers' average annual spending from US\$129,000 in 2010 to US\$181,000 in 2011 and an increase in the number of our brand advertisers from 248 in 2010 to 301 in 2011. The increase in the number of our brand advertisers was due to our effective marketing efforts to acquire new advertisers and the expansion of our sales force, as well as the greater market acceptance of SNS advertising as an effective way for advertisers to market their businesses. The increase of our average annual spending per brand advertiser was attributable to both an increase in advertising time and space our advertisers purchased from us during the period and the pricing strategy on our social networking internet platform which effectively increased the price we charged our advertisers for our advertising time and space. Our Renren segment's online games revenues increased by 22.9% from US\$34.4 million in 2010 to US\$42.3 million in 2011 due to the increases in revenues from purchases by end users of in-game virtual merchandise or premium features and an increase in the number of licensed and internally developed games offered through our online games business. The number of third-party developed games we offered increased from 28 as of December 31, 2010 to 50 as of December 31, 2011. We had approximately 243,000 active paying users on a quarterly average basis in 2011, compared to 225,000 active paying users on a quarterly average basis in 2010. Our Renren segment's other IVAS revenues increased by 7.8% from US\$8.9 million in 2010 to US\$9.6 million in 2011, primarily due to increases in revenues from paid applications, VIP memberships and other value-added services we provided to our customers.

- **Nuomi segment.** Our Nuomi segment's net revenues increased by 435% from US\$1.2 million in 2010 to US\$6.5 million in 2011. We began to offer services through Nuomi in June 2010, and social commerce services accounted for 100% of our Nuomi segment's net revenues in both 2010 and 2011. Our registered Nuomi users and paying users on Nuomi increased from 1.6 million and 0.7 million as of December 31, 2010 to 11.3 million and 4.9 million as of December 31, 2011.

Cost of Revenues. Our cost of revenues increased by 57.8% from US\$16.6 million in 2010 to US\$26.2 million in 2011. This increase was primarily due to a 54.3% increase in the cost of revenues of our Renren segment.

- **Renren segment.** Our Renren segment's cost of revenues increased by 54.3% from US\$16.6 million in 2010 to US\$25.6 million in 2011. This increase was primarily due to increases in salaries and benefits, which increased by 301% from US\$1.4 million in 2010 to US\$5.4 million in 2011, bandwidth and co-location costs, which increased by 26.9% from US\$9.6 million in 2010 to US\$12.2 million in 2011, and other expenses, which increased by 104% from US\$1.8 million in 2010 to US\$3.7 million in 2011, resulting from increased services needed to support the growth of our user traffic and users' content storage and consumption on our website.

- **Nuomi segment.** Our Nuomi segment had costs of revenues of US\$28,000 in 2010 and US\$0.6 million in 2011.

Operating Expenses. Our operating expenses increased by 133.4% from US\$52.2 million in 2010 to US\$121.9 million in 2011, primarily due to increases in selling and marketing expenses incurred in connection with the expansion of our social commerce services and increase in research and development expenses.

Table of Contents

- *Selling and marketing expenses.* Our selling and marketing expenses increased by 206.0% from US\$20.3 million in 2010 to US\$62.1 million in 2011. This increase was primarily due to an increase of US\$4.9 million in salaries and other benefits for our Nuomi sales and marketing personnel, mainly due to an increase in headcount as a result of the expansion of our social commerce services, an increase of US\$15.5 million in advertising expenses for Nuomi, and US\$13.5 million in salaries and other benefits associated with increased advertising sales on Renren.com.

- *Research and development expenses.* Our research and development expenses increased by 70.1% from US\$23.7 million in 2010 to US\$40.3 million in 2011. This increase was primarily due to a 74.3% increase in salaries and other benefits for research and development personnel, from US\$16.7 million in 2010 to US\$29.1 million in 2011. The increase in salaries and other benefits for these personnel was mainly due to an increase in headcount to further expand our research and development capabilities.

- *General and administrative expenses.* Our general and administrative expenses increased by 129.2% from US\$7.5 million in 2010 to US\$17.2 million in 2011. This increase was primarily due to a 240.7% increase in salaries and other benefits for our general and administrative personnel, from US\$2.7 million in 2010 to US\$9.2 million in 2011, resulting from increased headcount due to the expansion of our business and expenses associated with our having become a public company during 2011.

Other Income. We recognized other income of US\$2.3 million for the depositary refund in connection with the establishment and maintenance of the ADS program in 2011.

Change in Fair Value of Warrants. We did not record any gain or loss due to change in fair value of warrants in 2011, as all series D warrants had been exercised in December 2010. We had a loss from the change in fair value of the outstanding series D warrants of US\$74.4 million in 2010. For a detailed explanation of the change in the fair value of warrants, see Critical Accounting Policies Fair Value of Warrants.

Exchange Gain on Dual Currency Deposit / Offshore Bank Accounts. We had an exchange gain of US\$2.0 million on dual currency deposit in 2011, compared with an exchange gain of US\$3.8 million on dual currency deposit in 2010. The exchange gains related to dual currency deposits in U.S. dollars and Japanese yen and reflected the changes in the relative exchange rates between these currencies. An exchange gain of \$5.8 million was generated by offshore bank deposits in 2011.

Interest Income. Interest income was US\$9.6 million in 2011, as compared to interest income of US\$0.3 million in 2010. The interest income for both years was primarily interest on term deposits at commercial banks. The increase was primarily related to the increase in term deposits with financial institutions as a result of the IPO proceeds that we received.

Gain on Sales of Available-for-sale Investments. Gain on sales of available-for-sale investments was US\$50.9 million in 2011, compared to nil in 2010. The gain on sales of available-for-sale investments in 2011 was due to proceeds from the sale of eLong American depositary shares, which we sold to a third party in the fourth quarter of 2011.

Income Tax Expense (Benefit). We had an income tax expense of US\$0.7 million in 2011, primarily due to Qianxiang Wangjing, one of our wholly-owned subsidiaries, being subject to a 50% reduction in statutory tax rate on taxable income generated in 2011, as compared with an income tax benefit of US\$1.3 million in 2010, which was a result of loss in 2010.

Income (Loss) from Continuing Operations. As a result of the foregoing, including the US\$50.9 million gain on sales of available-for-sale investments, we recorded income from continuing operations of US\$41.0 million in 2011, compared to loss from continuing operations of US\$61.2 million in 2010.

Loss from Discontinued Operations. Loss from discontinued operations was nil in 2011, as compared with US\$4.3 million in 2010. The loss in 2010 primarily related to Gummy Inc. and Mop.com, which had losses of US\$3.5 million and US\$0.8 million, respectively. We disposed of Gummy Inc. and Mop.com in December 2010.

Gain on Disposal of Discontinued Operations. Gain on disposal of discontinued operations was nil in 2011, as compared with gain on disposal of discontinued operations of US\$1.3 million in 2010. The gain in 2010 was due to the sale in December 2010 of all of our equity interests in Mop.com and Gummy Inc. to a company owned by some of our existing shareholders for an aggregate consideration of approximately US\$18.1 million.

Table of Contents

Net (Loss) Income. As a cumulative result of the foregoing, including the US\$50.9 million gain on sales of available-for-sale investments, we had net income of US\$41.0 million in 2011, as compared with a net loss of US\$64.2 million in 2010.

Discussion of Segment Operations

We had two operating segments in 2012, our Renren segment and our Nuomi segment. Our Renren segment offers social networking services, online games, online video and other services. Our Nuomi segment offers social commerce services.

The following table lists our net revenues and operating costs and expenses by reportable segment for the periods indicated.

	Year ended December 31, 2011		
	Renren	Nuomi	Total
Net Revenues	\$ 111,510	\$ 6,457	\$ 117,967
Cost of Revenues	(25,611)	(622)	(26,233)
Operating Expenses	(91,761)	(30,165)	(121,926)
Operating Loss	(5,862)	(24,330)	(30,192)
Net Income (Loss)	65,328	(24,324)	41,004
Total Assets	\$ 1,259,171	\$ 18,837	\$ 1,278,008

	Years ended December 31, 2012		
	Renren	Nuomi	Total
Net Revenues	\$ 159,635	\$ 16,451	\$ 176,086
Cost of Revenues	(65,090)	(1,529)	(66,619)
Operating Expenses	(158,948)	(42,242)	(201,190)
Operating Loss	(64,403)	(27,320)	(91,723)
Net Loss	(47,758)	(27,295)	(75,053)
Total Assets	\$ 1,177,942	\$ 23,871	\$ 1,201,813

We have retrospectively adjusted our segment information for all periods presented to reflect the change in segment reporting. These adjustment are reflected in the discussion of segment results for comparison to prior year results.

B. Liquidity and Capital Resources**Cash Flows and Working Capital**

Prior to our initial public offering and concurrent private placement in May 2011, we financed our operations primarily through issuance and sale of preferred shares and warrants to investors in private placements and, to a much lesser extent, from cash generated from our operating

Edgar Filing: Renren Inc. - Form 20-F

activities. Since May 2011, we have financed our operations primarily from cash generated from our operating activities, and to a lesser extent from net cash provided by financing activities. As of December 31, 2012, we had US\$757.4 million in cash and cash equivalents and term deposits. We believe the remaining unused cash we received from our initial public offering and concurrent private placement in May 2011 will provide us with sufficient capital to meet our anticipated cash needs for the next 12 months. If we have additional liquidity needs in the future, we may obtain additional financing, including equity offering and debt financing in capital markets, to meet such needs. However, we cannot assure you that financing will be available in the amounts we need or on terms acceptable to us, if at all. If we are unable to obtain additional equity or debt financing as required, our business, operations and prospects may suffer.

Although we consolidate the results of Qianxiang Wangjing, Qianxiang Changda, Beijing Nuomi, Wole Shijie and Suzhou Sijifeng, our access to cash balances or future earnings of these entities is only through our contractual arrangements with these entities and their respective shareholders and subsidiaries. See Item 4.C Information on the Company Organizational Structure Contractual Arrangements with Our Consolidated Affiliated Entities. For restrictions and limitations on liquidity and capital resources as a result of our corporate structure, see Holding Company Structure.

Table of Contents

Our statement of cash flows in 2010 does not separately present the cash flows for continuing operations and the cash flows from our discontinued operations, which consist of our wireless value-added services business, Mop.com and Gummy Inc, other than the proceeds from the sale of the discontinued operations, which were separately reported in our statement of cash flow under the caption of Proceeds from disposal of subsidiaries. For the year 2010, the aggregate net operating cash outflow from these discontinued operations was US\$1.4 million. We do not expect that the absence of the discontinued operations will have a negative impact on our liquidity and capital resources in the future.

The following table sets forth a summary of our cash flows for the periods indicated:

	2010	Year ended December 31,		2012
		2011		
		(in thousands of US\$)		
Net cash provided by (used in) operating activities	\$ 17,288	\$ (3,200)	\$ (11,087)	
Net cash used in investing activities	(4,265)	(800,899)	(12,742)	
Net cash provided by (used in) financing activities	32,721	950,792	(53,892)	
Net increase (decrease) in cash and cash equivalents	45,744	146,693	(77,721)	
Cash and cash equivalents at the beginning of the year	90,376	136,063	284,643	
Effect of exchange rate changes	(57)	1,887	516	
Cash and cash equivalents at the end of the year	\$ 136,063	\$ 284,643	\$ 207,438	

Operating Activities

Net cash provided by or used in operating activities consisted primarily of our net income or loss as adjusted by change in fair value of warrants, depreciation of servers and other equipment, share-based compensation and non-cash adjustments, such as exchange loss on dual currency deposit/offshore bank accounts, and further adjusted by changes in assets and liabilities, such as accounts receivable, accrued expenses and other liabilities and prepaid expenses and other current assets. A primary factor affecting our operating cash flows is the timing of cash receipts from sales of our services.

Net cash used in operating activities amounted to US\$11.1 million in 2012, compared to a net loss of US\$75.1 million. Our accounts payable increased by US\$15.9 million, primarily due to increased payables to third-party merchants in social commerce services, and our accrued expenses and other payables increased by US\$11.6 million, primarily due to increased salaries and welfare payable resulting from increased headcount. The principal non-cash items accounting for the difference between our net loss and our net cash used in operating activities in 2012 were depreciation and amortization of US\$16.1 million and share-based compensation expenses of US\$10.9 million.

Net cash used in operating activities amounted to US\$3.2 million in 2011. Our net cash used in operating activities in 2011 reflected net income of US\$41.0 million, adjusted primarily by earnings on available-for-sale investments of US\$50.9 million, depreciation and amortization of US\$8.6 million, impairment on intangible assets of US\$2.4 million, exchange gain on dual currency deposit/offshore bank accounts of US\$7.8 million and share-based compensation expense of US\$5.5 million. Additional factors affecting operating cash flow included a decrease in operating assets and liabilities of US\$1.6 million.

Net cash provided by operating activities amounted to US\$17.3 million in 2010. Our net cash provided by operating activities in 2010 reflected a net loss of US\$64.2 million, adjusted by the reconciliation of non-cash items of US\$79.4 million, which mainly included a change of fair value

of warrants of US\$74.4 million, depreciation and amortization of US\$6.3 million, exchange gain on dual currency deposits of US\$3.8 million and gain on disposal of discontinued operations of US\$1.3 million. Additional factors affecting operating cash flow included an increase in prepaid expenses and other current assets of US\$4.3 million, an increase in accounts payable of US\$4.0 million and an increase in deferred revenue of US\$2.3 million. The increase in our account payable, prepaid expenses and other current assets and deferred revenue was in line with our overall revenue growth and the expansion of our operations from 2009 to 2010.

Investing Activities

Net cash used in investing activities largely reflects our investment in term deposits, our purchases and sales of short-term investments and our capital expenditures.

Table of Contents

Net cash used in investing activities amounted to US\$12.7 million in 2012, primarily attributable to US\$550.0 million in investments in term deposits, US\$140.7 million in purchase of short-term investments, US\$65.2 million in purchase of long-term investments, and US\$39.6 million in purchases of equipment and property, partially offset by US\$700.9 million in withdrawals of term deposits and US\$81.1 million in proceeds from the sale of short-term investments. The purchase of long-term investments related primarily to an equity investment of US\$49.0 million in Social Finance Inc. and the purchase of US\$10.0 million in 20-year notes from SoFi Lending Corp., a subsidiary of Social Finance Inc.

Net cash used in investing activities amounted to US\$800.9 million in 2011, primarily attributable to US\$696.9 million in investments in term deposits, US\$311.3 million in purchase of short-term investments, US\$74.3 million in considerations paid for business acquisition, US\$49.1 million in purchase of long-term investments and US\$19.0 million in purchases of equipment, partially offset by US\$331.4 million in proceeds from the sale of short-term investments and US\$18.4 million in proceeds from sales of discontinued business. The consideration paid for business acquisition was for our acquisition of 56.com, which we acquired in October 2011. The purchase of long-term investments related to an investment of US\$26.6 million in Mapbar Technology Limited and an investment of US\$20.0 million in Japan Macro Opportunities Offshore Partners, LP. The proceeds in disposal of business of US\$18.4 million related to Mop.com, Gummy Inc. and cost method investment in Global Net Limited in 2010.

Net cash used in investing activities amounted to US\$4.3 million in 2010, primarily attributable to the investment in our network infrastructure and intangible assets in the amount of US\$5.9 million to continue to support our business growth, offset in part by net proceeds of US\$1.6 million received from the redemption of a short-term investment.

Financing Activities

Net cash used in financing activities amounted to US\$53.9 million in 2012, primarily attributable to US\$53.6 million used to repurchase our ordinary shares, offset in part by US\$1.9 million in proceeds from the exercise of share options.

Net cash provided by financing activities amounted to US\$950.8 million in 2011, primarily attributable to US\$777.4 million in proceeds from our initial public offering and concurrent private placement in May 2011, US\$198.1 million in proceeds from the exercise of series D warrants by a series D preferred shareholder, US\$14.2 million in proceeds from the exercise of share options and US\$4.9 million in cash received from share subscription receivable, partially offset by US\$44.4 million used to repurchase our ordinary shares.

Net cash provided by financing activities amounted to US\$32.7 million in 2010, primarily attributable to proceeds from the exercise of series D warrants in July 2010 and subscription of our ordinary shares in the amount of US\$87.8 million, partially offset by cash paid for repurchase of shares and other financing-related activities in the amount of US\$55.1 million.

Holding Company Structure

Overview

We are a holding company with no material operations of our own. We conduct our operations in China principally through three sets of contractual arrangements, namely (i) a set of contractual arrangements among our wholly owned PRC subsidiary, Qianxiang Shiji, its consolidated affiliated entity, Qianxiang Tiancheng, and its shareholders, (ii) a set of contractual arrangements among our wholly owned PRC subsidiary, Wole Technology, its consolidated affiliated entity, Qianjun Technology, and its shareholders, and (iii) a set of contractual arrangements among our wholly owned PRC subsidiary, Renren Network, its consolidated affiliated entity, Renren Games, and its shareholders. See Item 4.C Information on the Company Organizational Structure Contractual Arrangements with Our Consolidated Affiliated Entities for a summary of these contractual arrangements. For each of the three years ended December 31, 2012, revenues from our consolidated affiliated entities constituted substantially all of our total consolidated net revenues.

Conducting our operations through contractual arrangements with our consolidated affiliated entities in China entails a risk that we may lose effective control over our consolidated affiliated entities, which may result in our being unable to consolidate their financial results with our results and may impair our access to their cash flow from operations and thereby reduce our liquidity. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of our Business for more information, including the risk factors titled If the PRC government finds that the agreements that establish the structure for operating our services in China do not comply with PRC governmental restrictions on foreign investment in internet businesses, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations and We rely on contractual arrangements with consolidated affiliated entities for our China operations, which may not be as effective in providing operational control as direct ownership.

Table of Contents

Dividend Distributions

As a holding company, our ability to pay dividends and other cash distributions to our shareholders depends solely upon dividends and other distributions paid to us by our PRC subsidiaries. The amount of dividends paid by each of our PRC subsidiaries to us depends solely on the service and license fees paid to each of our PRC subsidiaries by the consolidated affiliated entity with which it has contractual arrangements.

Under PRC law, all of our PRC subsidiaries and consolidated affiliated entities in China are required to set aside at least 10% of their respective after-tax profits each year, if any, to fund a statutory reserve until such reserve reaches 50% of their respective registered capital. Although the statutory reserves can be used, among other ways, to increase the registered capital and eliminate future losses in excess of retained earnings of the respective companies, the reserve funds are not distributable as cash dividends except in the event of liquidation. Our PRC subsidiaries are permitted to pay dividends to us only out of their respective retained earnings, if any, as determined in accordance with PRC accounting standards and regulations.

After Qianxiang Wangjing, Qianxiang Changda and Beijing Nuomi make appropriations for their respective statutory reserves and retain any profits, each of their remaining net profits are distributable to their sole shareholder, Qianxiang Tiancheng, in the form of an RMB dividend; after Wole Shijie makes appropriations for its statutory reserves and retains any profits, its remaining net profits are distributable to its sole shareholder, Qianjun Technology, in the form of an RMB dividend; and after Suzhou Sijifeng makes appropriations for its statutory reserves and retains any profits, its remaining net profits are distributable to its sole shareholder, Renren Games, in the form of an RMB dividend.

Pursuant to the contractual arrangements between Qianxiang Tiancheng and Qianxiang Shiji, Qianxiang Tiancheng's earnings and cash (including dividends received from its subsidiaries) are used to pay service and license fees in RMB to Qianxiang Shiji, in the manner and amount set forth in these agreements. There are similar contractual arrangements between Wole Technology and Qianjun Technology, and between Renren Network and Renren Games. After paying the withholding taxes applicable to Qianxiang Shiji's, Wole Technology's and Renren Network's respective revenues and earnings, making appropriations for their respective statutory reserve requirements and retaining any profits from accumulated profits, the remaining net profits of Qianxiang Shiji, Wole Technology and Renren Network would be available for distribution to us through the respective offshore holding companies through which we respectively own Qianxiang Shiji, Wole Technology and Renren Network, although we have not, and do not have, any present plan to make such distributions. As of December 31, 2012, the net assets of Qianxiang Shiji, Wole Technology, Renren Network and our consolidated affiliated entities which were restricted due to statutory reserve requirements and other applicable laws and regulations, and thus not available for distribution, was in aggregate US\$6.7 million, and the net assets of Qianxiang Shiji, Wole Technology, Renren Network and our consolidated affiliated entities which were unrestricted and thus available for distribution was in aggregate US\$1.1 billion. We do not believe that these restrictions on the distribution of our net assets will have a significant impact on our ability to timely meet our financial obligations in the future. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of our Business We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have. Any limitation on the ability of our PRC subsidiaries to pay dividends to us could have a material adverse effect on our ability to conduct our business and Item 3.D Risk Factors Risks Related to Doing Business in China Our global income and the dividends that we may receive from our PRC subsidiary, dividends distributed to our non-PRC shareholders and ADS holders, and gain recognized by such shareholders or ADS holders, may be subject to PRC taxes under the Enterprise Income Tax Law, which would have a material adverse effect on our results of operations for more information.

Furthermore, cash transfers from our PRC subsidiaries to our subsidiaries outside of China are subject to PRC government control of currency conversion. Restrictions on the availability of foreign currency may affect the ability of our PRC subsidiaries and our consolidated affiliated entities to remit sufficient foreign currency to pay dividends or other payments to us, or otherwise satisfy their foreign currency denominated obligations. See Item 3.D Risk Factors Risks Related to Doing Business in China Governmental control of currency conversion may limit our ability to utilize our revenues effectively and affect the value of your investment.

Table of Contents

Capital Expenditures

We made capital expenditures of US\$5.9 million, US\$19.3 million and US\$40.7 million in 2010, 2011 and 2012, respectively. In the past, our capital expenditures were primarily used to purchase servers and other equipment for our business, and purchase of real estate. In 2012, we purchased an office building in Shanghai for RMB200.0 million (US\$32.1 million). RMB100.0 million of the purchase price was paid in 2012 and the other RMB100.0 million is to be paid in 2013. We expect to incur capital expenditures of up to approximately US\$42.1 million in 2013, which will be primarily used to pay the remaining amount payable of RMB100.0 million (US\$16.1 million) of the purchase price of property purchased in 2012, purchase additional servers and computers, improve our new office leaseholds, and expand our network infrastructure to support the growth of our business.

C. Research and Development, Patents, and Licenses, etc.

Research and Development

Our research and development efforts focus on developing and improving the scalability, features and functions of each of our websites, services and applications, especially mobile applications. We have a large team of experienced engineers and developers, which accounted for over 47.0% of our employees as of December 31, 2012. Most of our engineers and developers are based at our headquarters in Beijing, and we also have a team of engineers and developers for 56.com who are based in Guangzhou.

Our research and development personnel are divided into the following groups:

- Our core Renren.com group focuses on the continual improvement and enhancement of all of our Renren SNS services for both mobile and PC, including communication-related features, user-generated content services, advertising and targeting solutions, as well as ensuring we are fully compatible with the latest mobile operating systems such as iPhone, Android and Windows.
- Our game group focuses on designing, developing and operating games that are suitable for publishing over different mobile and web distribution channels, including our own gaming platforms.
- Our social commerce group focuses on improving mobile and PC user experience and services, including data mining and targeting technologies, location based services (LBS), back-end support systems of our group-buying platform and other online to offline (O2O) services.
- Our video sharing group focuses on improving technology for both mobile and PC features, including our video hosting services and internet value added services (IVAS) on 56.com.

- Our mobile internet division focuses on developing new mobile applications, services and technology across multiple mobile phone operating systems such as iPhone, Android, and Windows.

Our research and development expenses primarily include salaries and benefits for our research and development personnel and depreciation of related PC and servers. We incurred US\$23.7 million, US\$40.3 million and US\$79.5 million of research and development expenses in 2010, 2011 and 2012, respectively.

Intellectual Property

Our intellectual property includes trademarks and trademark applications related to our brands and services, copyrights in software and games, trade secrets, patent applications and other intellectual property rights and licenses. We seek to protect our intellectual property assets and brand through a combination of monitoring and enforcement of trademark, patent, copyright and trade secret protection laws in the PRC and other jurisdictions, as well as through confidentiality agreements and procedures.

Table of Contents

renren is a registered trademark in China. We have also applied to register additional trademarks and logos, including a new version of renren , , 56.com , with the Trademark Office of the State Administration for Industry and Commerce in China. We have applied for patents relating to our technologies, among which we have been granted a patent for systems and methods for accelerating content downloads. We have registered domain names including renren.com, nuomi.com, xiaonei.com, jingwei.com, chewen.com and 56.com. In addition, we maintain 54 software copyright registrations, including those in connection with our games. We own the copyrights to the games we have developed. Our employees sign confidentiality and non-compete agreements when hired.

D. Trend Information

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the year ended December 31, 2012 that are reasonably likely to have a material adverse effect on our net revenues, income, profitability, liquidity or capital resources, or that would cause the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

E. Off-Balance Sheet Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties, and we have not entered into any derivative contracts that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

F. Tabular Disclosure of Contractual Obligations

The following table sets forth our contractual obligations as of December 31, 2012:

	Total	Payment Due by Period			
		Less than 1 year	1-3 years (in thousands of US\$)	3-5 years	More than 5 years
Operating lease obligations(1)	\$ 48,589	\$ 29,389	\$ 18,440	\$ 760	\$
Capital obligations(2)	17,370	17,370			
Purchase obligations	45,122	45,122			
TOTAL	\$ 111,081	\$ 91,881	\$ 18,440	\$ 760	\$

(1) We lease facilities and offices under non-cancelable operating lease agreements. In addition, we pay telecommunications carriers and other service providers for telecommunications services and for hosting our servers at their internet data centers under non-cancelable

agreements, which are treated as operating leases.

- (2) Capital obligations represent commitments for the purchase of office property and equipment.

G. Safe Harbor

See Forward Looking Statements on page 3 of this annual report.

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

The following table sets forth information regarding our directors and executive officers as of the date of this annual report.

Directors and Executive Officers	Age	Position/Title
Joseph Chen	43	Chairman, Chief Executive Officer
James Jian Liu	40	Director, Chief Operating Officer
Katsumasa Niki	45	Director
David K. Chao	46	Independent Director
Matthew Nimetz	73	Independent Director
Stephen Murphy	56	Independent Director
Chuanfu Wang	47	Independent Director
Hui Huang	40	Chief Financial Officer
Alvin Chiang	42	Chief Marketing Officer
Chuan He	33	Senior Vice President for Games
Lillian Liu	48	Senior Vice President
Derek Boyang Shen	39	Vice President for Nuomi
Jing Huang	31	Vice President
Jiang Wu	35	Vice President
Juan Zhou	37	Vice President for 56.com

Table of Contents

Joseph Chen is the founder of our company. Mr. Chen has served as the chairman of our board of directors and chief executive officer of our company since our inception. Mr. Chen is a pioneer of China's internet industry. Before founding our company, Mr. Chen was the co-founder, chairman and chief executive officer of ChinaRen.com, a first-generation SNS in China and one of China's most visited websites in 1999. He served as senior vice president for Sohu.com after ChinaRen.com was acquired by Sohu in 2000. Mr. Chen holds a bachelor's degree in physics from the University of Delaware, a master's degree in engineering from the Massachusetts Institute of Technology, and a M.B.A. degree from Stanford University.

James Jian Liu has served as our director since January 2008 and chief operating officer since February 2006. Before joining our company, he was the co-founder and chief executive officer of UUMe.com, one of the earliest social networking service websites in China. He served as product management director at Fortinet in its early years and held a senior product manager role at Siebel Systems. Mr. Liu started his career as a management consultant with the Boston Consulting Group in China. Mr. Liu holds a bachelor's degree in computer science from Shanghai Jiao Tong University and a M.B.A. degree from Stanford University, where he was an Arjay Miller Scholar.

Katsumasa Niki has served as a director of our company since January 2011. Mr. Niki serves as group manager of the finance department of SOFTBANK CORP. where he is in charge of investment activities, and as director of several subsidiaries of SOFTBANK CORP. Mr. Niki is a director of SB Pan Pacific Corporation, a wholly owned subsidiary of SOFTBANK CORP. and one of our major shareholders. Mr. Niki holds a bachelor's degree in economics from Kobe University and an M.B.A. degree in finance from Chuo Graduate School of Accounting. Mr. Niki was nominated to be our director by SB Pan Pacific Corporation, and as long as SB Pan Pacific Corporation and its affiliates continue to collectively hold over 50% of the number of our shares held by them as of May 9, 2011, they have the right to appoint one director to serve on our board of directors.

David K. Chao has served as a director of our company since March 2006. Mr. Chao is a co-founder and general partner of DCM, an early stage technology venture capital firm that manages over US\$2.0 billion of fund assets. Prior to joining DCM, Mr. Chao was a co-founder of Japan Communications, Inc., a public company that provides mobile data and voice communications services in Japan. He also worked as a management consultant at McKinsey & Company in San Francisco. Prior to that, Mr. Chao worked in marketing and product management at Apple Computer and was an account executive for Recruit Co., Ltd. Mr. Chao currently serves on the boards of directors of 51job, Inc. and numerous DCM portfolio companies. He serves on the advisory board of Legend Capital and is a trustee at the Thacher School. Mr. Chao received a bachelor's degree in economics and East Asian studies with high honors from Brown University and a M.B.A. degree from Stanford University.

Matthew Nimetz has served as a director of our company since December 2008. Mr. Nimetz currently serves as an advisory director of General Atlantic LLC, a leading global growth equity firm. He also serves as a director of Knight Capital Group, Inc. and a number of not-for-profit entities. He formerly served as the chief operating officer of General Atlantic Service Company, LLC from January 2000 to December 2011 and as a managing director of General Atlantic LLC and its affiliates and predecessors from January 2000 through December 2011. Prior to joining General Atlantic in 2000, Mr. Nimetz was a partner (and former chair) of the law firm of Paul, Weiss, Rifkind, Wharton & Garrison in New York City, where he concentrated on corporate and international law from December 1980 through January 2000. He previously practiced law as a partner at Simpson Thacher & Bartlett between 1969 and 1977. Mr. Nimetz served as Under Secretary of State for Security Assistance, Science and Technology from February through December 1980 and as Counselor of the Department of State from 1977 to 1980. His previous federal government positions include service as a Staff Assistant to President Lyndon Johnson from July 1967 to January 1969; a law clerk to Justice John M. Harlan of the Supreme Court of the United States from 1965 to 1967; and other positions with the U.S. and New York governments and with the United Nations. Mr. Nimetz received degrees from Williams College and Harvard Law School where he was president of the Harvard Law Review. He also received a master's degree from Balliol College, Oxford University, where he was a Rhodes Scholar.

Table of Contents

Stephen T. M. Murphy has served as a director of our company since May 2012. Mr. Murphy currently serves as Chairman of Jumeirah Group LLC, the major international UAE-based luxury hospitality company, Chairman of The Garden Centre Group, the U.K.'s largest horticultural retailer, and Chairman of The Learning Clinic Ltd, an innovative medical technology company based in the U.K. He also serves as a non-executive director and chairman of the audit committee of The Business Growth Fund, a US\$4.0 billion investment fund owned by the major U.K. clearing banks, and as an advisory partner at Ashcombe Advisers LLP, a boutique corporate finance advisory firm. Mr. Murphy is also the principal of his own advisory business. Mr. Murphy served as the Group Chief Executive Officer of The Virgin Group from 2005 to December 2011, having held a number of senior positions within Virgin, prior to his succeeding the founder as Chief Executive Officer in 2005. These included serving as Chief Financial Officer from 1994-2000 and as Chairman of Virgin Atlantic from 2006 to 2012. Mr. Murphy previously held senior finance positions at Mars Inc., Unilever Plc, Burton Group, and Quaker Oats Company. Mr. Murphy received a BA Hons degree from Liverpool John Moores University and is a member of the U.K. Institute of Certified Management Accountants.

Chuanfu Wang has served as a director of our company since June 2012. Mr. Wang is the Chairman of the Board and President of BYD Company Limited. He has been BYD's Executive Director since June 2002, in charge of BYD's general operations and overall strategies. Mr. Wang founded Shenzhen BYD Battery Company Limited (now BYD Company Limited) in February 1995. Before that he served as the Deputy Director of the Beijing General Research Institute for Nonferrous Metals from 1990 to 1995. Mr. Wang has received many awards, prizes and recognitions, such as Hong Kong's Bauhinia Cup Outstanding Entrepreneur Award in 2000 and BusinessWeek's Stars of Asia in 2003, among others. In addition, Mr. Wang was elected as a representative in the Shenzhen People's Congress in March 2000, a member of the Fourth Shenzhen Municipal People's Congress Standing Committee in May 2005, and a member of the Fifth Shenzhen Municipal People's Congress Standing Committee in 2010. Mr. Wang graduated from the Central South University of Technology (now Central South University) in 1987, majoring in Physical Chemistry of Metallurgy. He received his Master's degree in Physical Chemistry of Metallurgy at Beijing General Research Institute for Nonferrous Metals in 1990.

Hui Huang has served as the chief financial officer of our company since March 2010. From 2007 to February 2010, Ms. Huang was the chief financial officer and director of Cathay Industrial Biotech Ltd. From 2003 to 2007, she was an executive director and Shanghai chief representative of Johnson Electric Capital Limited. From 2000 to 2003, she was an associate of Goldman Sachs (Asia) L.L.C. in its principal investment area and executive office. From 1994 to 1998, she was an associate with the Boston Consulting Group. Ms. Huang received a bachelor's degree in industrial foreign trade from Shanghai Jiaotong University in 1994, and received a M.B.A. degree from the Wharton School of the University of Pennsylvania in 2000.

Alvin Chiang has served as our company's chief marketing officer in charge of our sales and marketing since December 2008. Prior to joining our company in November 2008, Mr. Chiang served as vice president for Alibaba Group from 2007 to 2008, vice president for sales at NetEase from 2004 to 2007. Prior to that, he served at various positions at Yahoo Inc. in Taiwan from 2000 to 2004. Prior to that, he worked at Acer Internet Service and an advertising agency in Taiwan. Mr. Chiang received a bachelor's degree in management science from National Chiao Tung University in 1992.

Chuan He is a senior vice president for our company in charge of our games business. Prior to joining our company in 2005, he worked at Tsinghua Unisplendor Corporation. Mr. He received a masters degree in computer science from Tsinghua University in 2004 and was also a computer science Ph.D. degree candidate at Tsinghua University. He is currently finishing his EMBA from China Europe International Business School.

Lillian Liu has served as a senior vice president for our company in charge of human resources since September 2012. Prior to joining our company, Ms. Liu served as the human resource director of Nokia from 2004 to 2012 and the human resource director of HP/Compaq Computer from 1999 to 2004. She also worked as a human resource manager at Nortel Networks from 1994 to 1999. Ms. Liu received a bachelor's degree in English from the Beijing Foreign Studies University in 1989 and received a M.B.A. degree from City University U.S. in 1999.

Derek Boyang Shen has served as vice president for our company in charge of nuomi.com since March 2010. Prior to joining our company, Mr. Shen served at various positions of Google Inc. from 2005 to 2010, including, among others, software engineer, engineer manager, strategic partner development and head of China business development. Mr. Shen received a bachelor's degree in environmental chemistry as well as management from Nankai University in 1996, and received a master's degree in computer science from the University of California, Los Angeles in 2000.

Table of Contents

Jing Huang is a vice president for our company in charge of Renren.com. He joined the company in 2003 upon graduation from Tsinghua University with a bachelor's degree in computer science.

Jiang Wu is a vice president for our company in charge of our mobile internet division. He joined the company in 2004. Mr. Wu also worked at SK Telecom from 2007 to 2008 as a director of strategic development before returning to our company. Mr. Wu received a bachelor's degree in international finance from Nankai University in 1998.

Kitty Juan Zhou has served as vice president for our company in charge of 56.com since September 2011. Ms. Zhou founded 56.com in April 2005. Prior to that, Ms. Zhou worked at Netease as Senior Product Director, responsible for Netease Personal Page and Netease E-Mail, among others. Ms. Zhou received a bachelor's degree in computer science from the University of Science and Technology of China in 1997.

B. Compensation

For the year ended December 31, 2012, we paid an aggregate of approximately US\$1.3 million in cash to our executive officers, and we did not pay any such compensation to our non-executive directors. Our PRC subsidiaries are required by law to make contributions equal to certain percentages of each employee's salary for his or her pension insurance, medical insurance, housing fund, unemployment and other statutory benefits. In 2012, our PRC subsidiaries accrued in aggregate US\$79 thousand worth of such benefits for our executive officers.

For the year ended December 31, 2012, we did not grant any restricted Class A ordinary shares to our executive officers or non-executive directors and we recorded nil share-based compensation expense for grants of restricted shares to our executive officers and non-executive directors for the year ended December 31, 2012. In addition, for the year ended December 31, 2012, we granted share options to our executive officers and non-executive directors representing the right to acquire a total of 23,460,000 and 1,050,000 Class A ordinary shares, respectively, and recorded a total share-based compensation expense of US\$4.9 million for grants of share options to our executive officers and non-executive directors for the year ended December 31, 2012. For more information, see Item 6.B. Directors, Senior Management and Employees Compensation Equity Incentive Plans.

Equity Incentive Plans

Since February 27, 2006, we have adopted four equity incentive plans to motivate, retain and attract the best personnel and promote the success of our business. Specifically, we adopted the 2006 Equity Incentive Plan, or the 2006 Plan, on February 27, 2006; the 2008 Equity Incentive Plan, or the 2008 Plan, on January 31, 2008; the 2009 Equity Incentive Plan, or the 2009 Plan, on October 15, 2009; and the 2011 Share Incentive Plan, or the 2011 Plan, on April 14, 2011. We refer to these four incentive plans collectively as the Plans. Our board of directors authorized the issuance and reservation of up to 97,430,220 ordinary shares under the 2006 Plan, 30,529,630 ordinary shares under the 2008 Plan, 40,000,000 ordinary shares under the 2009 Plan, and 65,014,158 ordinary shares under the 2011 Plan. As of March 31, 2013, options to purchase 12,357,375 ordinary shares were outstanding under the 2006 Plan, options to purchase 4,301,303 ordinary shares were outstanding under the 2008 Plan, 2,340,309 restricted share units and options to purchase 21,531,775 ordinary shares were outstanding under the 2009 Plan and 168,000 restricted share units and options to purchase 38,358,900 ordinary shares were outstanding under the 2011 Plan.

Edgar Filing: Renren Inc. - Form 20-F

The following table summarizes the outstanding share options granted to certain of our directors, executive officers and other individuals under the Plans as of March 31, 2013:

Table of Contents

Name	Number of Ordinary Shares Underlying Outstanding Options(1)	Exercise Price (US\$/Share)(1)	Grant Date	Expiration Date
Joseph Chen	16,800,000	1.10	April 5, 2012	April 4, 2022
	3,150,000	0.983	March 22, 2013	March 21, 2023
James Jian Liu	*	1.10	April 5, 2012	April 4, 2022
	*	0.983	March 22, 2013	March 21, 2023
David K. Chao	*	1.10	April 5, 2012	April 4, 2022
	*	0.983	March 22, 2013	March 21, 2023
Matthew Nimetz	*	1.20	January 4, 2011	January 3, 2021
	*	1.10	April 5, 2012	April 4, 2022
	*	0.983	March 22, 2013	March 21, 2023
Stephen Murphy	*	1.10	April 30, 2012	April 29, 2022
	*	0.983	March 22, 2013	March 21, 2023

	*	0.10	October 21, 2010	October 20, 2020
	*	1.10	April 5, 2012	April 4, 2022
	*	0.983	March 22, 2013	March 21, 2023
Other individuals as a group	41,107,683	(2)	(2)	(3)

* The aggregate beneficial ownership of our company held by the named grantee is less than 1% of our total outstanding shares.

(1) The number of share options granted and exercise prices in this table, including footnote 2, gives effect to the ten-for-one share split that became effective on March 25, 2011.

On December 28, 2012, we modified the exercise price of the outstanding share options granted that had exercise prices of \$4.00 per ADS or higher, reducing them uniformly to \$3.30 per ADS (\$1.10 per ordinary share), which was the closing price of our ADS on the modification date. Options exercisable for a total of 27,480,309 ordinary shares were modified. The total incremental cost as a result of the modification was \$4.3 million, of which \$0.9 million was recognized as share-based compensation expense in 2012 and the remaining balance will be amortized over the expected requisite service period.

Edgar Filing: Renren Inc. - Form 20-F

(2) We granted share options to other individuals on the following dates and at the following exercise prices: (i) on March 2, 2006, 1,079,400 options with an exercise price of US\$0.001 per share; (ii) on March 2, 2006, 10,204,000 options and on October 9, 2007, 700,000 options, each with an exercise price of US\$0.08 per share; (iii) on March 2, 2006, 4,410,670 options and on October 21, 2010, 47,780 options, each with an exercise price of US\$0.10 per share; (iv) on March 2, 2006, 18,176,960 options, on October 9, 2007, 21,342,000 options, on January 31, 2008, 13,109,500 options, on October 15, 2009, 14,164,000 options, on June 1, 2010, 490,000 options and on October 21, 2010, 11,180 options, each with an exercise price of US\$0.18 per share; (v) on March 2, 2006, 1,243,880 options with an exercise price of US\$0.20 per share; (vi) on October 9, 2007, 100,000 options with an exercise price of US\$0.26 per share; (vii) on October 9, 2007, 300,000 options with an exercise price of US\$0.28 per share; (viii) on October 9, 2007, 100,000 options with an exercise price of US\$0.30 per share; (ix) on October 9, 2007, 925,000 options with an exercise price of US\$0.35 per share; (x) on October 9, 2007, 220,000 options with an exercise price of US\$0.38 per share; (xi) on April 18, 2011, 3,346,500 options, on September 23, 2011, 519,000 options, on December 28, 2011, 1,639,107 options, on April 5, 2012, 831,000 options, on December 28, 2012, 3,203,400 options, each with an exercise price of 1.10 per share; (xii) on January 4, 2011, 10,688,500 options with an exercise price of US\$1.20 per share; and (xiii) on March 22, 2013, 987,000 options with an exercise price of US\$0.983 per share. As of March 31, 2013, 66,731,194 options had been forfeited, cancelled or exercised.

(3) Each option will expire after ten years from the grant date or such shorter period as the board of directors may determine at the time of its grant.

The following table summarizes the outstanding restricted share units granted to one of our executive officers and certain other individuals under the Plans as of March 31, 2013:

Table of Contents

Name	Number of Ordinary Shares Underlying Restricted Share Units Outstanding	Grant Date
Juan Zhou	*	December 28, 2011
Other individuals as a group	36,264	September 23, 2011
Other individuals as a group	1,800,285	December 28, 2011
Other individuals as a group	168,000	March 22, 2013

* The aggregate beneficial ownership of our company held by the named grantee is less than 1% of our total outstanding shares.

Principal Terms of 2006, 2008 and 2009 Equity Incentive Plans

The principal terms of the 2006 Plan, the 2008 Plan and the 2009 Plan are substantially the same. The following paragraphs summarize the principal terms of these three plans and, unless otherwise specified below, the following summary applies to each of these plans.

Types of Awards and Exercise Prices. Three types of awards may be granted under the plans.

- *Incentive share options.* Incentive share options are share options which satisfy the requirements of Section 422 of the Internal Revenue Code of 1986. The exercise price of an incentive share option must be at least equal to the fair market value of the shares on the date of grant. If an employee, officer or director owns or is deemed to own more than 10% of the combined voting power of all classes of shares and an incentive share option is granted to such person, the exercise price for such incentive share option shall be at least 110% of the fair market value of the shares on the date of grant.

- *Nonqualified share options.* Nonqualified share options are share options which do not satisfy the requirements of Section 422 of the Internal Revenue Code of 1986. The exercise price of a nonqualified share option may be less than, equal to or greater than the fair market value of the shares on the date of grant.

- *Restricted share options.* Restricted share options are options to purchases ordinary shares which are subject to certain restrictions or limitations set forth in the plans or in the related award agreement, and may be subject to risk of forfeiture. Unless otherwise determined by our plan administrator, a restricted share is nontransferable and may be forfeited or repurchased by us during a restricted period. The exercise price of restricted share options may be determined by the plan administrator in the award agreement.

Plan Administration. The plan administrator is our board of directors or a committee of two or more members of our board. The plan administrator designates the eligible optionees and determines the award type, award period, grant date, performance requirements and such other provisions and terms not inconsistent with the plans in each award agreement.

Edgar Filing: Renren Inc. - Form 20-F

Award Agreement. Incentive share options, nonqualified share options or restricted share options granted under the plans are evidenced by an award agreement that sets forth the terms, provisions, limitations and performance requirements for each grant.

Eligibility. At the discretion of the board of directors, we may grant awards to employees, officers, directors, outside directors or consultants of our company.

Transfer Restriction. Subject to certain exceptions, awards for incentive share options, nonqualified share options and restricted share options may not be transferred, assigned, pledged, hypothecated or otherwise conveyed or encumbered by the award holders.

Term of Awards. Unless otherwise provided in the award agreement by the plan administrator, each option shall expire after ten years from the grant date. If an employee, officer or director owns or is deemed to own more than 10% of the combined voting power of all classes of shares and an incentive share option is granted to such person, such incentive share option shall expire after five years from the grant date.

Vesting Schedule. The plan administrator may determine the vesting schedule and may provide additional vesting conditions in the award agreement to each optionee.

Amendment and Termination. Our board of directors may at any time by resolutions amend the plans, subject to certain exceptions. Unless earlier terminated by the board or directors, the 2006 Plan will terminate on September 15, 2013, the 2008 Plan will terminate on September 15, 2013, and the 2009 Plan will terminate on December 31, 2019. In each case, grants made before the termination date will continue to be effective in accordance with their terms and conditions.

Table of Contents

Principal Terms of the 2011 Share Incentive Plan

The following paragraphs describe the principal terms of our 2011 Share Incentive Plan:

Types of Awards and Exercise Prices. The plan permits the grant of options to purchase our Class A ordinary shares, restricted shares and restricted share units as deemed appropriate by the plan administrator.

- *Options.* Options provide for the right to purchase a specified number of our Class A ordinary shares at a specified price and usually will become exercisable in the discretion of the plan administrator in one or more installments after the grant date. Options include incentive share options, which are share options which satisfy the requirements of Section 422 of the Internal Revenue Code of 1986, and non-qualified share options, which do not satisfy these requirements. The exercise price of an option shall be determined by the plan administrator and set forth in the award agreement.
- *Restricted Shares.* A restricted share award is the grant of our Class A ordinary shares which are subject to certain restrictions or limitations set forth in the plan or in the related award agreement. Unless otherwise determined by our plan administrator, a restricted share is nontransferable and may be forfeited or repurchased by us during a restricted period. The exercise price of restricted share options may be determined by the plan administrator in the award agreement.
- *Restricted Share Units.* Restricted share units represent the right to receive our Class A ordinary shares at a specified date in the future. On the maturity date specified by the plan administrator, we will transfer to the participant one unrestricted, fully transferable share for each restricted share unit.

Plan Administration. The plan will be administered by the board of directors or the compensation committee of the board, or a committee of one or more directors to whom the board or the compensation committee shall delegate the authority to grant or amend awards to participants other than senior executives. The plan administrator shall consist of at least two individuals, each of whom qualifies as an independent director. With respect to the awards granted to independent directors, the plan administrator shall be the board of directors. The plan administrator will determine the terms and conditions of each award grant.

Awards and Award Agreement. Awards granted under the plan are evidenced by award agreements that set forth the terms, conditions and limitations for each award, which may include the term of an award, the provisions applicable in the event the participant's employment or service terminates, and our authority to unilaterally or bilaterally amend, modify, suspend, cancel or rescind an award.

Eligibility. We may grant awards to our employees, directors and consultants, as determined by our plan administrator.

Edgar Filing: Renren Inc. - Form 20-F

Term of the Awards. The term of each award grant shall be determined by our plan administrator, provided that the term shall not exceed ten years from the date of the grant.

Vesting Schedule. In general, the plan administrator determines, or the award agreement specifies, the vesting schedule.

Transfer Restrictions. Except as otherwise provided by our plan administrator, an award may not be transferred or otherwise disposed of by a participant other than by will or the laws of descent and distribution. Our plan administrator by express provision in the award or an amendment may permit an award (other than an incentive share option) to be transferred to or exercised by certain persons related to the participant.

Amendment and Termination of the Plan. With the approval of our board, our plan administrator may at any time amend, modify or terminate the plan, subject to certain exceptions.

Table of Contents

C. Board Practices

Composition of Board of Directors

Our board of directors currently consists of seven directors. A director is not required to hold any shares in the company by way of qualification. A director may vote with respect to any contract, proposed contract or arrangement in which he is materially interested provided the nature of the interest is disclosed prior to voting. A director may exercise all the powers of the company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of the company or of any third party. None of our non-executive directors and independent director appointees has a service contract with us that provides for benefits upon termination of employment. As long as SB Pan Pacific Corporation and its affiliates continue to collectively hold over 50% of the number of our shares held by them as of May 9, 2011, they have the right to appoint one director to serve on our board of directors. Our director, Katsumasa Niki, was appointed by SB Pan Pacific Corporation.

Code of Business Conduct and Ethics

Our code of business conduct and ethics provides that our directors and officers are expected to avoid any action, position or interest that conflicts with the interests of our company or gives the appearance of a conflict. Directors and officers have an obligation under our code of business conduct and ethics to advance our company's interests when the opportunity to do so arises.

Duties of Directors

Cayman Islands law does not prescribe by statute the specific duties of directors of Cayman Islands companies and therefore the duties of directors are dictated by common law. Our directors have certain duties of care, diligence and skill as well as a fiduciary duty to act honestly and in good faith in the best interests of our company. Our directors are not required to exhibit in the performance of their duties a greater degree of skill than may reasonably be expected from persons of their knowledge and experience. Our directors must exercise reasonable care and diligence but will not be liable for errors of judgment and therefore they may rely upon opinions and advice of outsiders but must still exercise their business judgment based upon such advice. The fiduciary relationship of our directors is with our company and our directors therefore do not usually owe a fiduciary duty to an individual shareholder, and instead, they owe a fiduciary duty to our shareholders as a whole. In addition, our directors have a duty to act in good faith, which means they must act bona fide in the interests of our company. Our directors must also use their powers for a proper purpose. If our directors take actions which are within their powers but for purposes other than those for which such powers were conferred, they may be personally liable. Our directors are also required not to put themselves into a position where there is a conflict, actual or potential, between their personal interests and their duties to our company or between their duty to our company and a duty owed to another person. Finally, our directors cannot validly contract, either with one another or with third parties, as to how they shall vote at future meetings of directors. In fulfilling their duty of care to us, our directors must ensure compliance with our amended and restated memorandum and articles of association. We have the right to seek damages if a duty owed by our directors is breached.

Terms of Directors and Executive Officers

Edgar Filing: Renren Inc. - Form 20-F

Our officers are elected by and serve at the discretion of the board of directors. Our directors are not subject to a set term of office and hold office until the next general meeting called for the election of directors and until their successor is duly elected or such time as they die, resign or are removed from office by special resolution or the unanimous written resolution of all shareholders. A director will be removed from office automatically if, among other things, the director (i) becomes bankrupt or makes any arrangement or composition with his creditors; or (ii) dies or is found by our company to be or becomes of unsound mind.

Committees of the Board of Directors

We have established three committees under the board of directors: the audit committee, the compensation committee and the corporate governance and nominating committee. We have adopted a charter for each of these committees. Each committee's members and functions are as follows.

Audit Committee. Our audit committee consists of Messrs. David Chao, Matthew Nimetz and Stephen Murphy. Mr. Chao is the chairman of our audit committee and our board of directors has determined that Mr. Chao is an audit committee financial expert. Mr. Chao, Mr. Nimetz and Mr. Murphy satisfy the independence requirements of Section 303A of the Corporate Governance Rules of the NYSE and Rule 10A-3 under the Exchange Act. The audit committee oversees our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee is responsible for, among other things:

Table of Contents

- selecting the independent registered public accounting firm and pre-approving all auditing and non-auditing services permitted to be performed by the independent registered public accounting firm;
- reviewing with the independent registered public accounting firm any audit problems or difficulties and management's response;
- reviewing and approving all proposed related party transactions, as defined in Item 404 of Regulation S-K under the Securities Act;
- discussing the annual audited financial statements with management and the independent registered public accounting firm;
- reviewing major issues as to the adequacy of our internal control and any special audit steps adopted in light of material control deficiencies; and
- meeting separately and periodically with management and the independent registered public accounting firm.

Compensation Committee. Our compensation committee consists of Messrs. Matthew Nimetz and David Chao. Mr. Nimetz is the chairman of our compensation committee. Mr. Nimetz and Mr. Chao satisfy the independence requirements of Section 303A of the Corporate Governance Rules of the NYSE. The compensation committee assists the board in reviewing and approving the compensation structure, including all forms of compensation, relating to our directors and executive officers. Our chief executive officer is prohibited from attending any committee meeting during which his compensation is deliberated. The compensation committee is responsible for, among other things:

- reviewing and approving the total compensation package for our chief executive officer;
- reviewing and recommending to the board the compensation of our directors; and
- reviewing periodically and approving any long-term incentive compensation or equity plans, programs or similar arrangements, annual bonuses, employee pension and welfare benefit plans.

Corporate Governance and Nominating Committee. Our corporate governance and nominating committee consists of Messrs. David Chao, Stephen Murphy and Chuanfu Wang, and is chaired by Mr. Chao. Mr. Chao, Mr. Murphy and Mr. Chuanfu Wang satisfy the independence requirements of Section 303A of the Corporate Governance Rules of the NYSE. The corporate governance and nominating committee assists the

Edgar Filing: Renren Inc. - Form 20-F

board of directors in identifying individuals qualified to become our directors and in determining the composition of the board and its committees. The corporate governance and nominating committee is responsible for, among other things:

- identifying and recommending to the board nominees for election or re-election to the board, or for appointment to fill any vacancy;
- reviewing annually with the board the composition of the board in light of the characteristics of independence, age, skills, experience and availability of service to us;
- identifying and recommending to the board the directors to serve as members of the board's committees;
- advising the board periodically with respect to significant developments in the law and practice of corporate governance as well as our compliance with applicable laws and regulations, and making recommendations to the board on all matters of corporate governance and on any corrective action to be taken; and
- monitoring compliance with our code of business conduct and ethics, including reviewing the adequacy and effectiveness of our procedures to ensure proper compliance.

Table of Contents**Employment Agreements**

We have entered into employment agreements with each of our executive officers. We may terminate an executive officer's employment for cause, at any time, without notice or remuneration, for certain acts of the officer, including, but not limited to, a conviction or plea of guilty to a felony, willful misconduct to our detriment or a failure to perform agreed duties. We may also terminate an executive officer's employment without cause by a one-month prior written notice. An executive officer may terminate his or her employment with us by a one-month prior written notice for certain reasons, in which case the executive officer is entitled to the same severance benefits as in the situation of termination by us without cause.

Our executive officers have also agreed not to engage in any activities that compete with us, or to directly or indirectly solicit the services of our employees, for a period of one year after termination of employment. Each executive officer has agreed to hold in strict confidence any confidential information or trade secrets of our company. Each executive officer also agrees to comply with all material applicable laws and regulations related to his or her responsibilities at our company as well as all material corporate and business policies and procedures of our company.

D. Employees

We had 1,570, 3,410 and 4,602 full-time employees as of December 31, 2010, 2011 and 2012, respectively. The following table sets forth the number of our employees by function as of December 31, 2012:

Functional Area	Number of Employees	% of Total
Management and administration	418	9.0
Sales and marketing	1,566	34.0
Operations	456	10.0
Research & development	2,162	47.0
Total	4,602	100.0

As of December 31, 2012, we had 3,906 employees located in Beijing, 306 employees located in Guangzhou and 390 employees located in other cities in China.

We have leveraged a combination of internal training, incentives and events, such as our Geek Conference, to develop a corporate culture focused on speed of innovation, research and development, and the pursuit of excellence. We provide stock options to our employees to align their interests more closely with those of our shareholders. We consider our relationship with our employees to be good.

E. Share Ownership

Edgar Filing: Renren Inc. - Form 20-F

The following table sets forth information with respect to the beneficial ownership of our ordinary shares (including Class A ordinary shares represented by our ADSs), as of March 31, 2013, by:

- each of our directors and executive officers; and
- each person known to us to own beneficially more than 5% of our ordinary shares.

The calculations in the table below are based on 1,136,397,903 ordinary shares outstanding as of March 31, 2013, including 731,009,453 Class A ordinary shares and 405,388,450 Class B ordinary shares. Beneficial ownership is determined in accordance with the rules and regulations of the SEC and includes voting or investment power with respect to our ordinary shares. In computing the number of ordinary shares beneficially owned by a person and the percentage ownership of that person, we have included shares that the person has the right to acquire within 60 days, including through the exercise of any option, warrant or other right or the conversion of any other security. These shares, however, are not included in the computation of the percentage ownership of any other person.

Table of Contents

	Ordinary Shares Beneficially Owned		% of Voting Power(2)
	number	%(1)	
Directors and Executive Officers:			
Joseph Chen(3)	274,808,970	24.1	56.5
James Jian Liu(4)	32,827,610	2.9	0.7
Katsumasa Niki(5)			
David K. Chao(6)	89,956,934	7.9	1.9
Matthew Nimetz(7)	*	*	*
Stephen Murphy(8)	*	*	*

Hui Huang(10)	*	*	*
Alvin Chiang(10)	*	*	*
Chuan He(10)	*	*	*
Lillian Liu(10)	*	*	*
Derek Boyang Shen(10)	*	*	*
Jing Huang(10)	*	*	*
Jiang Wu(10)	*	*	*
Juan Zhou(10)	*	*	*
All directors and executive officers as a group(11)	409,888,953	35.8	59.3
Principal Shareholders:			
SB Pan Pacific Corporation and affiliate(12)	405,388,451	35.7	33.9
Joseph Chen(3)	274,808,970	24.1	56.5
DCM and affiliates(13)	87,929,871	7.7	1.8

* Less than 1% of our total outstanding ordinary shares.

- (1) For each person and group included in this column, percentage ownership is calculated by dividing the number of ordinary shares beneficially owned by such person or group by the sum of the number of ordinary shares outstanding and the number of ordinary shares such person or group has the right to acquire upon exercise of the share options or warrants within 60 days of March 31, 2013.
- (2) For each person and group included in this column, percentage of voting power is calculated by dividing the voting power beneficially owned by such person or group by the voting power with respect to all of our Class A and Class B ordinary shares as a single class. Each holder of our Class B ordinary shares is entitled to ten votes per share and each holder of Class A ordinary shares is entitled to one vote per share held by our shareholders on all matters submitted to them for a vote. Subject to certain exceptions, our Class A ordinary shares and Class B ordinary shares vote together as a single class on all matters submitted to a vote of our shareholders. Our Class B ordinary shares are convertible at any time by the holder into Class A ordinary shares on a one-for-one basis.
- (3) Represents (i) 270,258,970 Class B ordinary shares held by Mr. Joseph Chen and (ii) 4,550,000 Class A ordinary shares issuable upon exercise of options held by Mr. Chen that that are exercisable within 60 days after March 31, 2013. See the two paragraphs following this table for more information on Class A and Class B ordinary shares. The business address of Mr. Chen is 23/F, Jing An Center, 8 North Third Ring Road East, ChaoYang District, Beijing 100028, People's Republic of China.
- (4) Represents (i) 31,365,110 Class A ordinary shares held by Mr. James Jian Liu and (ii) 1,462,500 Class A ordinary shares issuable upon exercise of options held by Mr. Liu that that are exercisable within 60 days after March 31, 2013. The business address of Mr. Liu is 23F, Jing An Center, North Third Ring East Road, Chao Yang District, Beijing, 100028, People's Republic of China.
- (5) The business address of Mr. Niki is c/o SOFTBANK CORP., 1-9-1 Higashi-shimbashi, Minato-ku, Tokyo, 105-7303, Japan.
- (6) Represents (i) 1,958,000 Class A ordinary shares held by Mr. David Chao, (ii) 69,063 Class A ordinary shares issuable upon exercise of options held by Mr. Chao that that are exercisable within 60 days after March 31, 2013 and (iii) 87,929,871 Class A ordinary shares held by DCM and affiliates. DCM Investment Management III, LLC is the general partner of DCM. Mr. David Chao and Mr. Peter W. Moran are the managing members of DCM Investment Management III, LLC. See note 13, below, for more information on the shares held by DCM and affiliates. The business address of Mr. Chao is 2420 Sand Hill Road, Suite 200 Menlo Park, CA 94025.

Edgar Filing: Renren Inc. - Form 20-F

- (7) The business address of Mr. Nimetz is Three Pickwick Plaza, Greenwich, Connecticut 06830.
- (8) The business address of Mr. Murphy is Syon Park, Middlesex, TW8 8JF, United Kingdom.
- (9) The business address of Mr. Wang is No. 3009, BYD Road, Pingshan, Shenzhen, 518118, China.
- (10) The business address of this individual is 23/F, Jing An Center, 8 North Third Ring Road East, Beijing, 100028, People's Republic of China.
- (11) Certain directors and executive officers have been granted options pursuant to our 2006, 2008 and 2009 Equity Incentive Plans and our 2011 Share Incentive Plan. See Item 6.B Directors, Senior Management and Employees Compensation Equity Incentive Plans.
- (12) The number of ordinary shares beneficially owned is as of December 31, 2011, as reported in a Schedule 13G filed by SB Pan Pacific Corporation and SOFTBANK CORP. on February 14, 2012, and consists of 270,258,971 Class A ordinary shares and 135,129,480 Class B ordinary shares held by SB Pan Pacific Corporation. See the two paragraphs following this table for more information on Class A and Class B ordinary shares. SB Pan Pacific Corporation is a corporation established under the laws of the Federated States of Micronesia, and is a wholly owned subsidiary of SOFTBANK CORP. SOFTBANK CORP. is a corporation established under the laws of Japan, and is a public company listed on the Tokyo Stock Exchange. On January 31, 2011, SOFTBANK CORP. transferred 2,582,200 series C preferred shares and 402,870,510 series D preferred shares to SB Pan Pacific Corporation, and, immediately prior to the completion of our initial public offering in May 2011, 135,129,480 of these series D preferred shares were converted into Class B ordinary shares on a one-to-one basis and the rest of the preferred shares held by SB Pan Pacific Corporation were converted into Class A ordinary shares on a one-to-one basis. The business address for SB Pan Pacific Corporation is P.O. Box 902, Kolonia, Pohnpei, FSM 96941, and the business address for SOFTBANK CORP. is 1-9-1 Higashi-Shimbashi, Minato-ku, Tokyo 105-7303, Japan.
- (13) The number of ordinary shares beneficially owned is as of December 31, 2011, as reported in a Schedule 13G filed by DCM (as defined below) and affiliates on February 13, 2012, and consists of (i) 81,768,285 Class A ordinary shares which are directly owned by DCM III, L.P. (DCM III), (ii) 2,166,501 Class A ordinary shares which are directly owned by DCM III-A, L.P. (DCM III-A) and (iii) 3,995,085 Class A ordinary shares which are directly owned by DCM Affiliates Fund III, L.P. (Aff III). We refer to DCM III, DCM III-A and Aff III collectively as DCM. DCM Investment Management III, LLC (GP III) is the general partner of DCM III, DCM III-A and Aff III and may be deemed to have sole power to vote and dispose these Class A ordinary shares respectively held by DCM III, DCM III-A and Aff III, and Mr. David Chao and Mr. Peter W. Moran, the managing members of GP III, may be deemed to have shared power to vote and dispose these Class A ordinary shares. As set forth in note 6 above, Mr. Chao also owns 1,958,000 Class A ordinary shares. The business address of DCM is 2420 Sand Hill Road, Suite 200 Menlo Park, CA 94025.

Table of Contents

Our ordinary shares are divided into Class A ordinary shares and Class B ordinary shares. Holders of Class A ordinary shares are entitled to one vote per share, while holders of Class B ordinary shares are entitled to ten votes per share. We issued Class A ordinary shares represented by our ADSs in our initial public offering in May 2011. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof, while Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any transfer of Class B ordinary shares by a holder thereof to any person or entity which is not an affiliate of such holder, such Class B ordinary shares shall be automatically and immediately converted into the equal number of Class A ordinary shares. See Item 10.B Additional Information Memorandum and Articles of Association Ordinary Shares for a more detailed description of our Class A ordinary shares and Class B ordinary shares.

To our knowledge, as of March 31, 2013, 431,017,239 Class A ordinary shares were held by one record holder in the United States, which was Citibank, N.A., the depository of our ADS program, and 270,258,970 Class B ordinary shares were held by one record holder in the United States. The number of beneficial owners of our ADSs in the United States is likely to be much larger than the number of record holders of our ordinary shares in the United States.

We are not aware of any arrangement that may, at a subsequent date, result in a change of control of our company. To our knowledge, we are not owned or controlled, directly or indirectly, by another corporation, by any foreign government or by any other natural or legal persons, severally or jointly.

For the options granted to our directors, officers and employees, please refer to Item 6.B Directors, Senior Management and Employees Compensation Equity Incentive Plans.

Item 7. Major Shareholders and Related Party Transactions

A. Major Shareholders

Please refer to Item 6.E. Directors, Senior Management and Employees—Share Ownership.

B. Related Party Transactions

Contractual Arrangements with Our Consolidated Affiliated Entities

Please refer to Item 4.C Information on the Company Organizational Structure Contractual Arrangements with Our Consolidated Affiliated Entities.

Related Party Transactions with Oak Pacific Holdings and Its Affiliates

The three largest shareholders of Oak Pacific Holdings are Mr. Joseph Chen, our founder, chairman and chief executive officer; James Jian Liu, our director and chief operating officer; and David Chao, our director. Collectively they hold approximately 98.5% of Oak Pacific Holdings. Summarized below are certain transactions our company has had with affiliates of Oak Pacific Holdings in 2012.

Table of Contents

Gummy Inc.

During 2011, we performed certain payment collection services to Gummy Inc., a subsidiary of Oak Pacific Holdings. These services amounted to approximately US\$44,000. As of December 31, 2012, Gummy Inc. owed our company approximately US\$20,000 for these services, which amount was unsecured, non-interest bearing and payable on demand.

Beijing Qian Xiang Hu Lian Technology Development Co., Ltd.

During 2012, we performed certain back office services for Beijing Qian Xiang Hu Lian Technology Development Co., Ltd., or Hu Lian Technology, which is a subsidiary of Oak Pacific Holdings. These services included provisions of human resources and accounting services and amounted to US\$0.3 million. As of December 31, 2012, Hu Lian Technology owed our company US\$126,000 for these services, which amount was unsecured, non-interest bearing and payable on demand.

SBPS

SBPS, an affiliate of SB Pan Pacific Corporation, provided third party collection services for our subsidiary in Japan in 2012. These services amounted to approximately US\$1.1 million. As of December 31, 2012, we owed SBPS US\$112,000 for these services, which amount was unsecured, non-interest bearing and payable on demand.

Mapbar Technology Limited

In October 2011, we acquired a 35% equity interest in Mapbar Technology Limited, or Mapbar, and accounted for the investment using equity method as we are able to exercise significant influence over Mapbar. During 2012, Mapbar performed approximately US\$304,000 of location-based services for our company. As of December 31, 2012, our company owed Mapbar US\$77,000 for these services, which amount was unsecured, non-interest bearing and payable on demand.

Transactions with Social Finance Inc.

In July 2012, we purchased \$10.0 million Series 2012-A Senior Secured Refi Loan Notes issued by SoFi Lending Corp., a subsidiary of Social Finance Inc. Oak Pacific Holdings is a shareholder of Social Finance Inc. and our chairman and chief executive officer, Joseph Chen, is a director of Social Finance Inc. The note has a maturity date of July 3, 2032 and a fixed annual interest rate of 4% with no redemption feature. We received monthly payments, including return of principal of \$414,000 and earned interest of \$137,000, from SoFi Lending Corp. in 2012. As of December 31, 2012, the carrying amount of the note was \$9,586,000.

In September 2012, we invested \$49.0 million in newly issued series B preferred shares of Social Finance Inc., concurrently with a group of other investors.

The transactions described above were approved by the independent, disinterested members of our board and the audit committee of the board.

Employment Agreement

Please refer to Item 6.C Directors, Senior Management and Employees—Board Practices Employment Agreements.

C. Interests of Experts and Counsel

Not applicable.

Item 8. Financial Information

A. Consolidated Statements and Other Financial Information

See Item 18. Financial Statements.

Legal Proceedings

From time to time, we have become and may in the future become a party to various legal or administrative proceedings arising in the ordinary course of our business, including actions with respect to intellectual property claims, breach of contract claims, labor and employment claims and other matters. Internet media companies are frequently involved in litigation based on allegations of infringement or other violations of intellectual property rights and other allegations based on the content available on their website or services they provide. See Item 3.D Risk Factors Risks Relating to Our Business and Our Industry We have been and may continue to be exposed to intellectual property infringement claims or other allegations by third parties for services we provide or for information or content displayed on, retrieved from or linked to our websites, or distributed to website users, which could materially and adversely affect our business and results of operations. Although such proceedings are inherently uncertain and their results cannot be predicted with certainty, we believe that the resolution of our current pending matters will not have a material adverse effect on our business, consolidated financial position, results of operations or cash flow. Regardless of the outcome, however, any litigation can have an adverse impact on us because of defense costs, diversion of management's attention and other factors.

Table of Contents

Dividend Policy

We have not paid in the past any cash dividends on our ordinary shares, and we do not have any present plan to pay in the foreseeable future any cash dividends on our ordinary shares. We currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business.

As we are a holding company, we rely, in part, on dividends paid to us by our PRC subsidiary for our cash requirements, including funds to pay dividends and other cash distributions to our shareholders, service any debt we may incur and pay our operating expenses. In China, the payment of dividends is subject to limitations. PRC laws and regulations currently permit payment of dividends only out of accumulated profits as determined in accordance with PRC accounting standards and regulations. Under current PRC laws and regulations, our PRC subsidiaries are required to set aside at least 10% of their respective accumulated profits each year, if any, to fund certain reserve funds until such reserve funds reach 50% of their registered capital. At the discretion of our PRC subsidiary, it may allocate a portion of its after-tax profits based on PRC accounting standards to staff welfare and bonus funds. These reserves may not be distributed as cash dividends. Further, if our PRC subsidiary incurs debt on its own behalf in the future, the instruments governing the debt may restrict its ability to pay dividends or make other payments to us. See Item 3.D Risk Factors Risks Related to Our Corporate Structure and the Regulation of Our Business We may rely on dividends and other distributions on equity paid by our PRC subsidiary to fund any cash and financing requirements we may have. Any limitation on the ability of our PRC subsidiary to pay dividends to us could have a material adverse effect on our ability to conduct our business.

Our board of directors has complete discretion on whether to distribute dividends. Even if our board of directors decides to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the board of directors may deem relevant. If we pay any dividends, they will be paid in accordance with Cayman Islands law, which provides, in summary, that dividends may be paid out of profits and/or our share premium account provided that in the case of our share premium account, no such distribution or dividend paid to our shareholders will cause us to be unable to pay our debts as they fall due in the ordinary course of our business. In addition, the Companies Law (2012 Revision) of the Cayman Islands prevents us from offering our shares or securities to individuals within the Cayman Islands, which may limit our ability to distribute a dividend comprised of our shares or other securities. We will pay our ADS holders to the same extent as holders of our ordinary shares, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. See Description of American Depositary Shares in our registration statement on Form F-1 (File No. 333-173548), as amended, initially filed with the SEC on April 15, 2011. Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

B. Significant Changes

Except as disclosed elsewhere in this annual report, we have not experienced any significant changes since the date of our audited consolidated financial statements included in this annual report.

Item 9. The Offer and Listing

A. Offering and Listing Details

See C. Markets

B. Plan of Distribution

Table of Contents**C. Markets**

Our ADSs, each representing three Class A ordinary shares, have been listed on the New York Stock Exchange since May 4, 2011 and trade under the symbol RENN. The following table provides the high and low trading prices for our ADSs on the New York Stock Exchange for the periods indicated. The last reported closing price for our ADSs on April 22, 2013 was US\$2.60 per ADS.

	Market Price (US\$)	
	High	Low
Annual High and Low		
Fiscal Year 2011(from May 4, 2011)	24.00	3.21
Fiscal Year 2012	7.87	3.00
Quarterly Highs and Lows		
Second Fiscal Quarter of 2011 (from May 4, 2011)	24.00	6.13
Third Fiscal Quarter of 2011	11.99	4.96
Fourth Fiscal Quarter of 2011	7.34	3.21
First Fiscal Quarter of 2012	6.80	3.39
Second Fiscal Quarter of 2012	7.87	4.19
Third Fiscal Quarter of 2012	4.61	3.51
Fourth Fiscal Quarter of 2012	4.08	3.00
First Fiscal Quarter of 2013	4.02	2.85
Monthly Highs and Lows		
October 2012	4.08	3.26
November 2012	3.60	3.21
December 2012	3.50	3.00
January 2013	4.02	3.31
February 2013	3.44	2.95
March 2013	3.24	2.85
April 2013 (through April 22, 2013)	2.93	2.58

Not applicable.

B. Memorandum and Articles of Association

We are a Cayman Islands company and our affairs are governed by our amended and restated memorandum and articles of association, as amended from time to time, and the Companies Law (2012 Revision) of the Cayman Islands, which is referred to below as the Companies Law.

The following are summaries of the material provisions of our amended and restated memorandum and articles of association and the Companies Law insofar as they relate to the material terms of our ordinary shares.

Table of Contents

Registered Office and Objects

Our registered office in the Cayman Islands is located at PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands. As set forth in article 3 of our memorandum of association, the objects for which our company is established are unrestricted and we have full power and authority to carry out any object not prohibited by the Companies Law (2012 Revision), as amended from time to time, or any other law of the Cayman Islands.

Board of Directors

See Item 6.C. Directors, Senior Management and Employees Board Practices Composition of Board of Directors and Item 6.C. Directors, Senior Management and Employees Board Practices Terms of Directors and Executive Officers.

Ordinary Shares

General. Our ordinary shares are divided into Class A ordinary shares and Class B ordinary shares. Holders of Class A ordinary shares and Class B ordinary shares have the same rights except for voting and conversion rights. Certificates representing the ordinary shares are issued in registered form. Our shareholders who are non-residents of the Cayman Islands may freely hold and vote their shares.

Dividends. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors subject to the Companies Law. The Companies Law provides, in summary, that dividends may be paid out of profits and/or our share premium account provided that in the case of our share premium account, no such distribution or dividend paid to our shareholders will cause us to be unable to pay our debts as they fall due in the ordinary course of our business. In addition, the Companies Law prevents us from offering our shares or securities to individuals within the Cayman Islands which may limit our ability to distribute a dividend comprised of our shares or other securities.

Conversion. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof. Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. All Class B ordinary shares beneficially owned by a holder and such holder's affiliates will automatically convert into the same number of Class A ordinary shares if the holder and its affiliates collectively own less than 50% of the total shares held by them immediately upon the completion of our initial public offering in May 2011. In addition, upon any transfer of Class B ordinary shares by a holder to any person or entity which is not over 50% owned by, or is not a direct family member of, the original holder, such Class B ordinary shares shall be automatically and immediately converted into an equal number of Class A ordinary shares. Furthermore, if a holder of the Class B ordinary shares transfers Class B ordinary shares to any entities in which the original holder owns over 50% but less than 100%, the number of Class B ordinary shares equal to the product of (X) the total number of Class B ordinary shares so transferred; and (Y) the difference between 100% and the percentage of ownership held by the original holder in the transferee shall be automatically and immediately converted into an equal number of Class A ordinary share.

Voting Rights. In respect of matters requiring shareholders' votes, each Class A ordinary share is entitled to one vote and each Class B ordinary share is entitled to ten votes. In addition, the following matters are subject to the approval by the holders representing a majority of the aggregate voting power of our company, the holders of a majority of total outstanding Class A ordinary shares and, for as long as SB Pan Pacific Corporation and its affiliates collectively own no less than 50% of the total shares held by them immediately upon the completion of our initial public offering, the approval of SB Pan Pacific Corporation: (i) a change of control event, and (ii) election of director(s) to the board at an annual general meeting. In addition, for as long as SB Pan Pacific Corporation and its affiliates collectively own no less than 50% of the total shares held by them immediately upon the completion of our initial public offering, we need to obtain SB Pan Pacific Corporation's approval for the following matters: (i) issuance of ordinary shares, or of securities convertible into or exercisable for ordinary shares, in the aggregate in excess of 10% of the number of all ordinary shares outstanding immediately prior to the issuance of such shares or securities on an as-converted basis in any 12-month period, (ii) acquisition of major assets or business for consideration exceeding 10% of our company market capitalization; (iii) disposals of our material assets with a value exceeding 5% of our company's market capitalization; or (iv) any amendment to our amended and restated memorandum and articles of association that specifically adversely affects the rights of SB Pan Pacific Corporation. In addition, for as long as SB Pan Pacific Corporation and its affiliates collectively own no less than 50% of the total shares held by them immediately upon the completion of our initial public offering, SB Pan Pacific Corporation and its affiliates will have the right to collectively appoint one director and the exclusive right to remove such director.

Table of Contents

A quorum required for a meeting of shareholders consists of at least one shareholder present in person or by proxy or, if a corporation or other non-natural person, by its duly authorized representative holding not less than an aggregate of one-third of all voting power of the shares in issue. Shareholders' meetings are held annually and may be convened by any one of our directors on its own initiative or upon a request to the directors by shareholders holding in aggregate at least one-third of our voting power of our share capital. Advance notice of at least seven days is required for the convening of our annual general meeting and other shareholders' meetings.

An ordinary resolution to be passed by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast in a general meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes cast attaching to the ordinary shares. A special resolution is required for important matters such as an amendment to our amended and restated memorandum and articles of association. Holders of the ordinary shares may effect certain changes by ordinary resolution, including altering the amount of our authorized share capital, consolidating and dividing all or any of our share capital into shares of larger amount than our existing share capital, and canceling any shares.

Transfer of Shares. Subject to the restrictions of our amended and restated memorandum and articles of association, which allows our directors to decline to register a transfer of any share which is not fully paid or on which we have a lien and to decline to recognize an instrument of transfer should it fail to comply with the form prescribed by our board or our transfer agent, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in the usual or common form or any other form approved by our board, and we will take all steps necessary to ensure that the transferee is entered on the register of members in order for the transfer to be effective. We understand that no further approval by any authority in the Cayman Islands will be required in order for the transfer of shares to be effective.

Liquidation. On a liquidation winding up, distribution or payment shall be made to the holders of ordinary shares. Considerations received by each Class B ordinary share and Class A ordinary share should be the same in any liquidation event. Assets available for distribution among the holders of ordinary shares shall be distributed among the holders of the ordinary shares on a pro rata basis. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders proportionally.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 days prior to the specified time and place of payment. The shares that have been called upon and remain unpaid on the specified time are subject to forfeiture.

Redemption of Shares. The provisions of the Companies Law, in summary, provides that provided our amended and restated articles of association permit it, we may issue shares which are to be redeemed or are liable to be redeemed at the option of our directors or a shareholder. In addition, the Companies Law allows us to purchase our own share, including any redeemable shares. Shares to be purchased or redeemed must be fully paid and there must remain at least one shareholder of the company holding shares. Share re-purchases or redemptions may be funded out of profits, capital or share premium, but to the extent funds other than profits are used, it is statutorily required that we be able to pay our debts as they fall due in our ordinary course of business following such a purchase or redemption. Subject to these provisions, our amended and restated articles of association allow us to issue shares on terms that are subject to either re-purchase by us or redemption, at our option or at the option of the holders, on such terms and in such manner as may be determined by special resolution.

Variations of Rights of Shares. All or any of the special rights attached to any class of shares may, subject to the provisions of our amended and restated articles of association, be varied either with the written consent of the holders of a 75% of the issued shares of that class or with the sanction of a special resolution passed at a general meeting of the holders of the shares of that class. The rights conferred upon the holders of the shares of any class shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the

creation or issue of further shares ranking in priority to or pari passu with such previously existing shares.

Table of Contents

Inspection of Books and Records. Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records, with the exception that, pursuant to statutory requirements, any of our creditors or shareholder may inspect our register of mortgages and charges, which includes details of any mortgage and change over our assets. We will provide our shareholders with annual audited financial statements.

Anti-Takeover Provisions. Some provisions of our amended and restated memorandum and articles of association may discourage, delay or prevent a change of control of our company or management that shareholders may consider favorable, including provisions that:

- authorize our board of directors to issue preference shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preference shares without any further vote or action by our shareholders; and
- establish advance notice requirements for nominating board of directors nominees or for proposing matters that can be acted on by shareholders at annual shareholder meetings.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our amended and restated memorandum and articles of association for a proper purpose and for what they honestly believe in good faith to be in the best interests of our company.

Rights of Non-resident or Foreign Shareholders. There are no limitations imposed by our amended and restated memorandum and articles of association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our amended and restated memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

C. Material Contracts

For the two years immediately preceding the date of this annual report, we have not entered into any material contracts, other than in the ordinary course of business or those described in Item 4. Information on the Company or elsewhere in this annual report on Form 20-F.

D. Exchange Controls

The Cayman Islands currently has no exchange control restrictions. See also Item 4.B Information on the Company Business Overview Regulation Regulations on Foreign Exchange.

E. Taxation

The following discussion of the material Cayman Islands, PRC and United States federal income tax consequences of an investment in our Class A ordinary shares or ADSs is based upon laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change. This discussion does not deal with all possible tax consequences relating to an investment in the Class A ordinary shares or ADSs, such as the tax consequences under U.S. state, local and other tax laws. To the extent that the discussion relates to matters of Cayman Islands tax law, it is the opinion of Maples and Calder, our Cayman Islands counsel, and to the extent it relates to PRC tax law, it is the opinion of TransAsia Lawyers, our PRC counsel.

Cayman Islands Taxation

We are an exempted company incorporated in the Cayman Islands. The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to us levied by the Government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or brought within the jurisdiction of the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payments made to or by our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

Table of Contents

People's Republic of China Taxation

We are a holding company incorporated in the Cayman Islands, and 100% of our equity interests in our PRC subsidiaries are held indirectly through our offshore holding companies. Our business operations are principally conducted through our PRC subsidiaries and consolidated affiliated entities. The Enterprise Income Tax Law and its implementation rules, both of which became effective on January 1, 2008, provide that China-sourced income of foreign enterprises, such as dividends paid by a PRC subsidiary to its overseas parent that is not a PRC resident enterprise and has no establishment in the PRC, will normally be subject to PRC withholding tax at a rate of 10%. Under the Enterprise Income Tax Law, enterprises established under the laws of jurisdictions outside China with their de facto management bodies located within China may be considered to be PRC tax resident enterprises for tax purposes. If we are considered a PRC tax resident enterprise under the above definition, then our global income will be subject to PRC enterprise income tax at the rate of 25%.

The implementation rules of the Enterprise Income Tax Law provide that (i) if the enterprise that distributes dividends is domiciled in the PRC, or (ii) if gains are realized from transferring equity interests of enterprises domiciled in the PRC, then such dividends or capital gains are treated as China-sourced income. It is not clear how domicile may be interpreted under the Enterprise Income Tax Law, and it may be interpreted as the jurisdiction where the enterprise is a tax resident. Therefore, if we are considered as a PRC tax resident enterprise for tax purposes, any dividends we pay to our overseas shareholders or ADS holders as well as gains recognized by such shareholders or ADS holders from the transfer of our shares or ADSs may be regarded as China-sourced income and as a result become subject to PRC withholding tax at a rate of up to 10%.

See Item 3.D Risk Factors Risks Related to Doing Business in China Our global income and the dividends that we may receive from our PRC subsidiary, dividends distributed to our non-PRC shareholders and ADS holders, and gain recognized by such shareholders or ADS holders, may be subject to PRC taxes under the Enterprise Income Tax Law, which would have a material adverse effect on our results of operations.

Certain United States Federal Income Tax Considerations

The following is a discussion of certain United States federal income tax considerations relating to the acquisition, ownership and disposition of our ADSs or ordinary shares by a U.S. Holder (as defined below) that acquires our ADSs or ordinary shares and holds our ADSs or ordinary shares as capital assets (generally, property held for investment) under the United States Internal Revenue Code of 1986, as amended (the Code). This discussion is based upon existing United States federal tax law, including the Code, its legislative history, existing, temporary and proposed regulations thereunder, published rulings and court decisions, all of which are subject to differing interpretations or change, possibly with retroactive effect. No ruling has been sought from the Internal Revenue Service (the IRS) with respect to any United States federal income tax consequences described below, and there can be no assurance that the IRS or a court will not take a contrary position. This discussion does not address all aspects of United States federal income taxation that may be important to particular investors in light of their individual investment circumstances, including investors subject to special tax rules (for example, financial institutions, insurance companies, regulated investment companies, real estate investment trusts, broker-dealers, traders in securities that elect mark-to-market treatment, partnerships (or other entities treated as partnerships for United States federal income tax purposes) and their partners and tax-exempt organizations (including private foundations), holders who are not U.S. Holders, holders who own (directly, indirectly or constructively) 10% or more of our voting stock, holders who acquire their ADSs or ordinary shares pursuant to any employee share option or otherwise as compensation, investors that will hold their ADSs or ordinary shares as part of a straddle, hedge, conversion, constructive sale or other integrated transaction for United States federal income tax purposes, or investors that have a functional currency other than the United States dollar, all of whom may be subject to tax rules that differ significantly from those summarized below. In addition, this discussion does not discuss any United States federal estate, gift or alternative minimum tax consequences or any non-United States, state or local tax considerations. Each U.S. Holder is urged to consult its tax advisor regarding the United States federal, state, local and non-United States income and other tax considerations of an investment in our ADSs or ordinary shares.

General

For purposes of this discussion, a "U.S. Holder" is a beneficial owner of our ADSs or ordinary shares that is, for United States federal income tax purposes, (i) an individual who is a citizen or resident of the United States, (ii) a corporation (or other entity treated as a corporation for United States federal income tax purposes) created in, or organized under the law of, the United States or any state thereof or the District of Columbia, (iii) an estate the income of which is includible in gross income for United States federal income tax purposes regardless of its source, or (iv) a trust (A) the administration of which is subject to the primary supervision of a United States court and which has one or more United States persons who have the authority to control all substantial decisions of the trust or (B) that has otherwise validly elected to be treated as a United States person under the Code.

Table of Contents

If a partnership (or other entity treated as a partnership for United States federal income tax purposes) is a beneficial owner of our ADSs or ordinary shares, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If a U.S. Holder is a partner of a partnership holding our ADSs or ordinary shares, the U.S. Holder is urged to consult its tax advisor regarding an investment in our ADSs or ordinary shares.

Our company is a corporation organized under the laws of the Cayman Islands. As such, our company believes that it is not a United States corporation for United States federal income tax purposes. Under certain provisions of the Code and regulations, however, if pursuant to a plan (or a series of related transactions), a non-United States corporation such as our company acquires substantially all of the assets of a United States corporation, and after the acquisition 80% or more of the stock (by vote or value) of the non-United States corporation (excluding stock issued in a public offering related to the acquisition) is owned by former shareholders of the United States corporation by reason of their ownership of the United States corporation, the non-United States corporation will be considered a United States corporation for United States federal income tax purposes. Based on our analysis of the facts related to our corporate restructuring in 2005 and 2006, we do not believe that we should be treated as a United States corporation for United States federal income tax purposes. However, as there is no direct authority on how the relevant rules of the Code might apply to us, our company's conclusion is not free from doubt. Therefore, our conclusion may be challenged by the United States tax authorities and a finding that we owe additional United States taxes could substantially reduce the value of your investment in our company. You are urged to consult your tax advisor concerning the income tax consequences of purchasing, holding or disposing of ADSs or ordinary shares if we were to be treated as a United States domestic corporation for United States federal income tax purposes. The remainder of this discussion assumes that our company is treated as a non-United States corporation for United States federal income tax purposes.

The discussion below assumes that the representations contained in the deposit agreement are true and that the obligations in the deposit agreement and any related agreement have been and will be complied with in accordance with the terms thereof.

For United States federal income tax purposes, a U.S. Holder of ADSs will be treated as the beneficial owner of the underlying shares represented by the ADSs.

Passive Foreign Investment Company Considerations

A non-United States corporation, such as our company, will be a passive foreign investment company, or PFIC, for United States federal income tax purposes for any taxable year, if either (i) 75% or more of its gross income for such year consists of certain types of passive income or (ii) 50% or more of the value of its assets (determined on the basis of a quarterly average) during such year produce or are held for the production of passive income. For this purpose, cash and assets readily convertible into cash are categorized as a passive asset and the company's unbooked intangibles are taken into account. Passive income is any income that would be foreign personal holding company income under the Code, including dividends, interest, royalties, rents, annuities, net gains from the sale or exchange of property producing such income, net gains from commodity transactions, net foreign currency gains and income from notional principal contracts. We will be treated as owning a proportionate share of the assets and earning a proportionate share of the income of any other corporation in which we own, directly or indirectly, more than 25% (by value) of the stock.

Although the law in this regard is unclear, we treat Qianxiang Tiancheng, Qianjun Technology and Renren Games as being owned by us for United States federal income tax purposes, not only because we exercise effective control over the operation of such entities but also because we are entitled to substantially all of their economic benefits, and, as a result, we consolidate their results of operations in our consolidated financial statements. If it were determined, however, that we were not the owner of the above entities for United States federal income tax purposes, then

we would likely be treated as a PFIC even if we would not otherwise have been treated as a PFIC for that particular year.

Table of Contents

We believe we were a PFIC for the taxable years ending December 31, 2011 and December 31, 2012. Our PFIC status for the current taxable year will not be determinable until after the close of the current taxable year. Because we currently hold, and expect to continue to hold, a substantial amount of cash and other passive assets and, because, as a public company, the value of our assets for this purpose is determined in part by reference to the market prices of our ADSs and outstanding ordinary shares, there can be no assurance that we will not be a PFIC for the current or any future taxable year. Under circumstances where revenues from activities that produce passive income significantly increase relative to our revenues from activities that produce non-passive income or where we determine not to deploy significant amounts of cash for active purposes, our risk of being a PFIC for the particular year may substantially increase.

If we are a PFIC, our ADSs or ordinary shares generally will continue to be treated as shares in a PFIC for all succeeding years during which a U.S. Holder holds our ADSs or ordinary shares, unless we cease to be a PFIC and the U.S. Holder makes a deemed sale election with respect to the ADSs or ordinary shares. If you make a deemed sale election, you will be deemed to have sold the ADSs or ordinary shares you hold at their fair market value as of the last day of the last year during which we were a PFIC (the termination date). Any gain from such deemed sale would be subject to the consequences described below under Passive Foreign Investment Company Rules. You are urged to consult your tax adviser regarding our possible status as a PFIC as well as the benefit of making a deemed sale election.

Dividends

If we are not a PFIC, any cash distributions (including the amount of any PRC tax withheld) paid on our ADSs or ordinary shares out of our current or accumulated earnings and profits, as determined under United States federal income tax principles, will generally be includible in the gross income of a U.S. Holder as dividend income on the day actually or constructively received by the U.S. Holder, in the case of ordinary shares, or by the depository, in the case of ADSs. Because we do not intend to determine our earnings and profits on the basis of United States federal income tax principles, any distribution paid will generally be treated as a dividend for United States federal income tax purposes. A non-corporate U.S. Holder that is the recipient of dividend income generally will be subject to tax on dividend income from a qualified foreign corporation at the lower applicable capital gains rate rather than the marginal tax rates generally applicable to ordinary income provided that certain holding period requirements are met. A non-United States corporation (other than a corporation that is classified as a PFIC for the taxable year in which the dividend is paid or the preceding taxable year) generally will be considered to be a qualified foreign corporation (i) if it is eligible for the benefits of a comprehensive tax treaty with the United States which the Secretary of Treasury of the United States determines is satisfactory for purposes of this provision and which includes an exchange of information program, or (ii) with respect to any dividend it pays on stock (or ADSs in respect of such stock) which is readily tradable on an established securities market in the United States. Our ADSs are listed on the NYSE, which is an established securities market in the United States, and our ADSs are readily tradable. Thus, we believe that dividends we pay on our ADSs will meet the conditions required for the reduced tax rates. Since we do not expect that our ordinary shares will be listed on an established securities market, we do not believe that dividends we pay on our ordinary shares that are not represented by ADSs will meet the conditions required for these reduced tax rates. Dividends received on our ADSs or ordinary shares will not be eligible for the dividend received deduction allowed to corporations.

In the event that we are deemed to be a PRC resident enterprise under the PRC New EIT Law, a U.S. Holder may be subject to PRC withholding taxes on dividends paid on our ADSs or ordinary shares. In such case, we may, however, be eligible for the benefits of the United States-PRC income tax treaty. If we are eligible for such benefits, dividends we pay on our ordinary shares, regardless of whether such shares are represented by our ADSs, would be eligible for the reduced rates of taxation applicable to qualified dividend income, as discussed above.

Dividends generally will be treated as income from foreign sources for United States foreign tax credit purposes and generally will constitute passive category income. A U.S. Holder may be eligible, subject to a number of complex limitations, to claim a foreign tax credit in respect of any foreign withholding taxes imposed on dividends received on our ADSs or ordinary shares. A U.S. Holder who does not elect to claim a foreign tax credit for foreign tax withheld, may instead claim a deduction, for United States federal income tax purposes, in respect of such

Edgar Filing: Renren Inc. - Form 20-F

withholdings, but only for a year in which such U.S. Holder elects to do so for all creditable foreign income taxes. The rules governing the foreign tax credit are complex. U.S. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

Table of Contents

If we are a PFIC, the rules described above would generally only apply to distributions that were not excess distributions received by a U.S. Holder who does not make a mark-to market election (described below).

Sale or Other Disposition of ADSs or Ordinary Shares

If we are not a PFIC, a U.S. Holder will generally recognize capital gain or loss upon the sale or other disposition of ADSs or ordinary shares in an amount equal to the difference between the amount realized upon the disposition and the U.S. Holder's adjusted tax basis in such ADSs or ordinary shares. Any capital gain or loss will be long-term if the ADSs or ordinary shares have been held for more than one year and will generally be United States source gain or loss for United States foreign tax credit purposes. Capital gains of non-corporate U.S. Holders derived from capital assets held for more than one year are currently eligible for reduced rates of taxation. In the event that gain from the disposition of the ADSs or ordinary shares is subject to tax in the PRC, such gain may be treated as PRC source gain under the United States-PRC income tax treaty. The deductibility of a capital loss is subject to limitations. U.S. Holders are urged to consult their tax advisors regarding the tax consequences if a foreign withholding tax is imposed on a disposition of our ADSs or ordinary shares, including the availability of the foreign tax credit under their particular circumstances.

Passive Foreign Investment Company Rules

If we are a PFIC for any taxable year during which a U.S. Holder holds our ADSs or ordinary shares, and unless the U.S. Holder makes a mark-to-market election (as described below), the U.S. Holder will generally be subject to special United States federal income tax rules that have a penalizing effect, regardless of whether we remain a PFIC, on (i) any excess distribution that we make to the U.S. Holder (which generally means any distribution paid during a taxable year to a U.S. Holder that is greater than 125% of the average annual distributions paid in the three preceding taxable years or, if shorter, the U.S. Holder's holding period for the ADSs or ordinary shares), and (ii) any gain realized on the sale or other disposition, including a pledge, of ADSs or ordinary shares. Under the PFIC rules the:

- excess distribution or gain will be allocated ratably over the U.S. Holder's holding period for the ADSs or ordinary shares;

- amounts allocated to the current taxable year and any taxable years in the U.S. Holder's holding period prior to the first taxable year in which we are classified as a PFIC, or a pre-PFIC year, will be taxable as ordinary income;

- the amount allocated to each of the other taxable years would be subject to tax at the highest rate of tax in effect for the applicable class of taxpayer for such year;

- and would be increased by an additional tax equal to interest on the resulting tax deemed deferred with respect to each such other taxable year.

Edgar Filing: Renren Inc. - Form 20-F

If we are a PFIC for any taxable year during which a U.S. Holder holds our ADSs or ordinary shares and any of our non-United States subsidiaries is also a PFIC, such U.S. Holder would be treated as owning a proportionate amount (by value) of the shares of each such non-United States subsidiary that is a PFIC (each such subsidiary, a lower-tier PFIC) and would be subject to the rules described above on certain distributions by a lower-tier PFIC and a disposition of shares of a lower-tier PFIC even though such U.S. Holder would not receive the proceeds of those distributions or dispositions. U.S. Holders should consult their tax advisors regarding the application of the PFIC rules to any of our subsidiaries.

Table of Contents

As an alternative to the foregoing rules, a U.S. Holder of marketable stock in a PFIC is permitted to make a mark-to-market election with respect to our ADSs, but not our ordinary shares, provided that our ADSs remain listed on the NYSE and are regularly traded. We anticipate that our ADSs should qualify as being regularly traded, but no assurances may be given in this regard. If a U.S. Holder makes a valid mark-to-market election, the U.S. Holder will generally (i) include as ordinary income for each taxable year that we are a PFIC the excess, if any, of the fair market value of ADSs held at the end of the taxable year over the adjusted tax basis of such ADSs and (ii) deduct as an ordinary loss the excess, if any, of the adjusted tax basis of the ADSs over the fair market value of such ADSs held at the end of the taxable year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. The U.S. Holder's adjusted tax basis in the ADSs would be adjusted to reflect any income or loss resulting from the mark-to-market election. If a U.S. Holder makes a mark-to-market election in respect of a corporation classified as a PFIC and such corporation ceases to be classified as a PFIC, the U.S. Holder will not be required to take into account the gain or loss described above during any period that such corporation is not classified as a PFIC. If a U.S. Holder makes a mark-to-market election, any gain such U.S. Holder recognizes upon the sale or other disposition of our ADSs will be treated as ordinary income and any loss will be treated as ordinary loss, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. In the case of a U.S. Holder who has held ADSs or ordinary shares during any taxable year in respect of which we were a PFIC and continues to hold such ADSs or ordinary shares (or any portion thereof) and has not previously made a mark-to-market election, but who is considering making a mark-to-market election, special tax rules may apply relating to purging the PFIC taint of such ADSs or ordinary shares through the use of a deemed sale election, as discussed above under Passive Foreign Investment Company Considerations.

Because, as a technical matter, a mark-to-market election cannot be made for any lower-tier PFICs that we may own, a U.S. Holder may continue to be subject to the PFIC rules with respect to such U.S. Holder's indirect interest in any investments held by us that are treated as an equity interest in a PFIC for United States federal income tax purposes.

We do not intend to provide information necessary for U.S. Holders to make qualified electing fund elections which, if available, would result in tax treatment different from the general tax treatment for PFICs described above.

If a U.S. Holder owns our ADSs or ordinary shares during any taxable year that we are a PFIC, the U.S. Holder must file an annual IRS Form 8621 or such other form as is required by the United States Treasury Department. Each U.S. Holder is urged to consult its tax advisor concerning the United States federal income tax consequences of purchasing, holding and disposing ADSs or ordinary shares, including the possibility of making a mark-to-market election and the unavailability of the election to treat us as a qualified electing fund.

Information Reporting and Backup Withholding

Dividend payments with respect to the ADSs or ordinary shares and proceeds from the sale, exchange or redemption of our ADSs or ordinary shares may be subject to information reporting to the IRS and possible United States backup withholding currently at a rate of 28%. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes other required certifications, or who is otherwise exempt from backup withholding. U.S. Holders that are required to establish their exempt status generally must provide such certification on IRS Form W-9. U.S. Holders should consult their tax advisors regarding the application of the United States information reporting and backup withholding rules.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder's United States federal income tax liability, and a U.S. Holder generally may obtain a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing any required information.

Pursuant to the Hiring Incentives to Restore Employment Act of 2010, individual U.S. Holders and certain entities may be required to submit to the IRS certain information with respect to their beneficial ownership of the ADSs or ordinary shares, if such ADSs or ordinary shares are not held on their behalf by a financial institution. This law also imposes penalties if an individual U.S. Holder is required to submit such information to the IRS and fails to do so.

H. Documents on Display

We previously filed with the SEC our registration statement on Form F-1 (Registration No. 333-173548), as amended, including the prospectus contained therein, to register our Class A ordinary shares. We have also filed with the SEC a related registration statement on F-6 (Registration No. 333-173515) to register the ADSs.

Table of Contents

We are subject to the periodic reporting and other informational requirements of the Exchange Act. Under the Exchange Act, we are required to file reports and other information with the SEC. Specifically, we are required to file annually a Form 20-F within four months after the end of each fiscal year, which is December 31. Copies of reports and other information, when so filed, may be inspected without charge and may be obtained at prescribed rates at the public reference facilities maintained by the Securities and Exchange Commission at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. The public may obtain information regarding the Washington, D.C. Public Reference Room by calling the Commission at 1-800-SEC-0330. The SEC also maintains a website at www.sec.gov that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system. As a foreign private issuer, we are exempt from the rules under the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act.

We will furnish Citibank, N.A, the depository of our ADSs, all notices of shareholders' meetings and other reports and communications that are made generally available to our shareholders. The depository will make such notices, reports and communications available to holders of ADSs and, upon our request, will mail to all record holders of ADSs the information contained in any notice of a shareholders' meeting received by the depository from us. We will file our annual report on Form 20-F, including our audited financial statements, with the SEC. Our annual report on Form 20-F can be accessed on the SEC's website as well the investor relations section of our website. Investors may request a hard copy of our annual report, free of charge, by contacting us.

I. Subsidiary Information

Not applicable.

Item 11. Quantitative and Qualitative Disclosures About Market Risk

Foreign Exchange Risk

Substantially all of our revenues and expenses are denominated in RMB. We had a gain of US\$3.8 million on dual currency deposit in 2010, which primarily related to dual currency deposits in U.S. dollars and Japanese yen and reflected the changes in the relative exchange rates between these currencies. We had a gain of US\$2.0 million on dual currency deposit in 2011, which primarily related to conversion into U.S. dollar of the Japanese yen equivalent of US\$198.0 million, which we received upon SOFTBANK CORP.'s exercise in full of all of their remaining warrants to purchase series D preferred shares. We had a loss of US\$1.8 million on foreign currency deposit in 2012, which primarily related to the exchange rate fluctuation of our RMB deposit during the year.

To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. Although our exposure to foreign exchange risks is generally limited, the value of your investment in our ADSs will be affected by the exchange rate between the U.S. dollar and the RMB because the value of our business is effectively denominated in RMB, while our ADSs are traded in U.S. dollars.

Edgar Filing: Renren Inc. - Form 20-F

The value of the RMB against the U.S. dollar and other currencies is affected by, among other things, changes in China's political and economic conditions and China's foreign exchange policies. The conversion of Renminbi into foreign currencies, including U.S. dollars, is based on rates set by the People's Bank of China. The PRC government allowed the Renminbi to appreciate by more than 20% against the U.S. dollar between July 2005 and July 2008. Between July 2008 and June 2010, this appreciation was halted and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. As a consequence, the RMB fluctuated significantly during that period against other freely traded currencies, in tandem with the U.S. dollar. Since June 2010, the PRC government has allowed the Renminbi to appreciate slowly against the U.S. dollar again. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future.

Table of Contents

There remains significant international pressure on the PRC government to adopt a substantial liberalization of its currency policy, which could result in further appreciation in the value of the RMB against the U.S. dollar.

To the extent that we need to convert U.S. dollars, including U.S. dollars we received from our initial public offering, into RMB for capital expenditures and working capital and other business purposes, appreciation of the RMB against the U.S. dollar would have an adverse effect on the RMB amount we would receive from the conversion. Conversely, if we decide to convert RMB into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs, strategic acquisitions or investments or other business purposes, appreciation of the U.S. dollar against the RMB would have a negative effect on the U.S. dollar amount available to us. As of December 31, 2012, we had RMB denominated cash balances of US\$30.2 million and U.S. dollar-denominated cash balances of US\$175.8 million. Assuming we had converted the U.S. dollar-denominated cash balance of US\$175.8 million as of December 31, 2012 into RMB at the exchange rate of US\$1.00 for RMB6.2301, the exchange rate set forth in the H.10 statistical release of the Board of Governors of Federal Reserve Bank on December 30, 2012, this cash balance would have been RMB1,095.3 million. Assuming a further 1% appreciation of the RMB against the U.S. dollar, this cash balance would have decreased to RMB1,084.3 million as of December 31, 2012.

Interest Risk

Our exposure to interest rate risk primarily relates to the interest income generated by excess cash, which is mostly held in interest-bearing bank deposits. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed to, nor do we anticipate being exposed to, material risks due to changes in market interest rates. However, our future interest income may fall short of expectations due to changes in market interest rates.

Inflation

Since our inception, inflation in China has not materially impacted our results of operations. According to the National Bureau of Statistics of China, the year-over-year percent changes in the consumer price index for December 2010, 2011 and 2012 were increases of 4.6%, 4.1% and 2.5%, respectively. Although we have not been materially affected by inflation in the past, we may be affected if China experiences higher rates of inflation in the future.

Item 12. Description of Securities Other than Equity Securities

A. Debt Securities

Not applicable.

B. Warrants and Rights

Not applicable.

C. Other Securities

Not applicable.

D. American Depositary Shares**Fees and Charges Our ADS Holders May Have to Pay**

Citibank, N.A., is the depository of our ADS program. Set forth below is a summary of fees holders of our ADSs may be required to pay for various services the depository may provide:

Service	Fee
Issuance of ADSs	Up to US\$0.05 per ADS issued
Cancellation of ADSs	Up to US\$0.05 per ADS canceled
Distribution of cash dividends or other cash distributions	Up to US\$0.05 per ADS held
Distribution of ADSs pursuant to stock dividends, free stock distributions or exercise of rights	Up to US\$0.05 per ADS held
Distribution of securities other than ADSs or rights to purchase additional ADSs	Up to US\$0.05 per ADS held
Depository services	Up to US\$0.05 per ADS held on the applicable record date(s) established by the depository
Transfer of ADRs	US\$1.50 per certificate presented for transfer

Table of Contents

As an ADS holder you will also be responsible to pay certain fees and expenses incurred by the depositary and certain taxes and governmental charges such as:

- fees for the transfer and registration of Class A ordinary shares charged by the registrar and transfer agent for the Class A ordinary shares in the Cayman Islands (i.e., upon deposit and withdrawal of Class A ordinary shares);
- expenses incurred for converting foreign currency into U.S. dollars;
- expenses for cable, telex and fax transmissions and for delivery of securities;
- taxes and duties upon the transfer of securities (i.e., when Class A ordinary shares are deposited or withdrawn from deposit); and
- fees and expenses incurred in connection with the delivery or servicing of Class A ordinary shares on deposit.

Depositary fees payable upon the issuance and cancellation of ADSs are typically paid to the depositary by the brokers (on behalf of their clients) receiving the newly issued ADSs from the depositary and by the brokers (on behalf of their clients) delivering the ADSs to the depositary for cancellation. The brokers in turn charge these fees to their clients. Depositary fees payable in connection with distributions of cash or securities to ADS holders and the depositary services fee are charged by the depositary to the holders of record of ADSs as of the applicable ADS record date.

The depositary fees payable for cash distributions are generally deducted from the cash being distributed. In the case of distributions other than cash (such as stock dividends and rights distributions), the depositary charges the applicable fee to the ADS record date holders concurrent with the distribution. In the case of ADSs registered in the name of the investor (whether certificated or uncertificated in direct registration), the depositary sends invoices to the applicable record date ADS holders. In the case of ADSs held in brokerage and custodian accounts (via DTC), the depositary generally collects its fees through the systems provided by DTC (whose nominee is the registered holder of the ADSs held in DTC) from the brokers and custodians holding ADSs in their DTC accounts. The brokers and custodians who hold their clients' ADSs in DTC accounts in turn charge their clients' accounts the amount of the fees paid to the depositary.

The fees and charges ADS holders may be required to pay may vary over time and may be changed by us and by the depositary. ADS holders will receive prior notice of such changes.

Fees and Other Payments Made by the Depositary to Us

The depositary has agreed to reimburse us for certain expenses we incur that are related to establishment and maintenance of the ADS program, including investor relations expenses and exchange application and listing fees. There are limits on the amount of expenses for which the depositary will reimburse us, but the amount of reimbursement available to us is not related to the amounts of fees the depositary collects from investors. In 2011 and 2012, we received approximately US\$1.5 million and US\$2.5 million, respectively, net of applicable withholding taxes in the U.S., from the depositary as reimbursement for our expenses incurred in connection with the establishment and maintenance of the ADS program.

Table of Contents

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

Material Modifications to the Rights of Security Holders

See Item 10. Additional Information Ordinary Shares for a description of the rights of securities holders, which remain unchanged.

Use of Proceeds

The following Use of Proceeds information relates to the registration statement on Form F-1, as amended (File Number 333-173548) (the F-1 Registration Statement) in relation to (i) our initial public offering of 42,898,711 ADSs representing 128,696,133 Class A ordinary shares, and the underwriters' full exercise of their option to purchase from us an additional 7,965,000 ADSs representing 23,895,000 Class A ordinary shares, at an initial offering price of US\$14.00 per ADS, and (ii) an aggregate of 23,571,426 Class A ordinary shares which we sold in a private placement (the concurrent private placement) at a price of US\$4.67 per Class A ordinary share to a group of unrelated third party investors consisting of entities affiliated with Alibaba Group, China Media Capital and CITIC Securities concurrently with, and subject to, the completion of our initial public offering. Our initial public offering and the concurrent private placement closed in May 2011. Morgan Stanley & Co. International plc, Deutsche Bank Securities Inc. and Credit Suisse Securities (USA) LLC were the representatives of the underwriters for our initial public offering.

We received net proceeds of approximately US\$777 million from our initial public offering and the concurrent private placement. For the period from May 4, 2011, the date the F-1 Registration Statement was declared effective by the SEC, to December 31, 2012, we used net proceeds from our initial public offering and the concurrent private placement primarily as follows:

- US\$79.8 million in the acquisition of 56.com;
- US\$26.6 million for a long-term investment in Mapbar Technology Limited;

- US\$20.0 million for a long-term investment in Japan Macro Opportunities Offshore Partners, LP;
- US\$49.0 million for an equity investment in Social Finance, Inc.;
- US\$101.8 million for share repurchases;
- US\$15.9 million as partial payment for a property purchased in Shanghai;
- US\$53.4 million for investments in marketable securities of two publicly-listed companies; and
- US\$11.1 million used in operating activities during 2012.

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, has performed an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report, as required by Rule 13a-15(b) under the Exchange Act. Based upon this evaluation, our management, with the participation of our chief executive officer and chief financial officer, has concluded that, as of the end of the period covered by this annual report, our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in by the SEC's rules and forms, and that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Table of Contents

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, for our company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles, and includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of a company's assets, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that a company's receipts and expenditures are being made only in accordance with authorizations of a company's management and directors, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of a company's assets that could have a material effect on the consolidated financial statements.

Due to its inherent limitations, a system of internal control over financial reporting can provide only reasonable assurance with respect to consolidated financial statement preparation and presentation, and may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As required by Section 404 of the Sarbanes-Oxley Act and related rules as promulgated by the SEC, our management assessed the effectiveness of our company's internal control over financial reporting as of December 31, 2012 using criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that our company's internal control over financial reporting was effective as of December 31, 2012.

Our independent registered public accounting firm, Deloitte Touche Tohmatsu Certified Public Accountants LLP, has issued an attestation report on our internal control over financial reporting.

At the direction of the government of the PRC in accordance with the Scheme for the Localization Restructuring of Chinese-Foreign Cooperative Accounting firms, Deloitte Touche Tohmatsu CPA Limited has restructured to a new partnership and changed its name to Deloitte Touche Tohmatsu Certified Public Accountants LLP, effective from January 1, 2013. Deloitte Touche Tohmatsu Certified Public Accountants LLP has succeeded Deloitte Touche Tohmatsu CPA Limited for all purposes and assumed all of the obligations and rights of Deloitte Touche Tohmatsu CPA Limited with effect from January 1, 2013. Deloitte Touche Tohmatsu CPA Limited and Deloitte Touche Tohmatsu Certified Public Accountants LLP are hereinafter referred to as Deloitte Touche Tohmatsu.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Renren Inc.

Edgar Filing: Renren Inc. - Form 20-F

We have audited the internal control over financial reporting of Renren Inc., its subsidiaries and its variable interest entities (collectively the Group) as of December 31, 2012, based on the criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Group s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management s Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Group s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Table of Contents

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Group maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2012 of the Group and our report dated April 23, 2013 expressed an unqualified opinion on those financial statements and included an explanatory paragraph regarding the Group's adoption of the authoritative guidance on the presentation of comprehensive income.

Deloitte Touche Tohmatsu Certified Public Accountants LLP

Beijing, the People's Republic of China

April 23, 2013

Changes in Internal Control over Financial Reporting

We previously disclosed in our Form 20-F for the year ended December 31, 2011 that we and our independent registered public accounting firm identified one material weakness and one significant deficiency, each as defined in the U.S. Public Company Accounting Oversight Board Standard AU Section 325, Communications About Control Deficiencies in an Audit of Financial Statements, or AU325, in our internal control over financial reporting as of December 31, 2011. As defined in AU325, a material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis, and a significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of our financial reporting.

Edgar Filing: Renren Inc. - Form 20-F

The material weakness identified related to insufficient accounting personnel with appropriate U.S. GAAP knowledge. The significant deficiency identified was related to not having a formal policy for investment of our surplus cash and the management of our treasury functions. In response to the material weakness and significant deficiency identified in our 2011 annual report on Form 20-F, and in cooperation with our board of directors and under the supervision of our board's audit committee, we have actively engaged during 2012 in a number of actions to remediate the material weakness and significant deficiency described above, including:

Table of Contents

- we implemented regular and continuous U.S. GAAP accounting and SEC financial reporting training programs for our existing accounting and reporting personnel, including both junior and senior personnel;
- we recruited two additional qualified accounting personnel, with relevant experience in U.S. GAAP accounting and reporting and auditing, to be responsible for SEC and U.S. GAAP reporting;
- we have subscribed to a U.S. GAAP accounting and SEC reporting services tool from an external service provide; and
- we established formal treasury and investment policies.

As of December 31, 2012, we believe we have sufficient accounting personnel with appropriate U.S. GAAP knowledge to fulfill our reporting obligations pursuant to U.S. GAAP requirements. Our management also determined that, as of December 31, 2012, the applicable controls were effectively designed and operating so as to enable our management to conclude that the aforementioned material weakness and significant deficiency had been remediated.

However, during the process of preparing our consolidated financial statements included in this annual report, a significant deficiency was identified related to the preparation and disclosure of segment reporting information as of December 31, 2012. We intend to take actions to remediate such deficiency.

Except for the remedial measures described and the significant deficiency identified above, there were no other significant changes in our internal control over financial reporting during the year ended December 31, 2012 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Management, including our chief executive officer and our chief financial officer, does not expect that our disclosure controls and procedures or internal control over financial reporting will prevent or detect all errors and all fraud. A control system cannot provide absolute assurance due to its inherent limitations; it is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. A control system also can be circumvented by collusion or improper management override. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of such limitations, disclosure controls and procedures and internal control over financial reporting cannot prevent or detect all misstatements, whether unintentional errors or fraud. However, these inherent limitations are known features of the financial reporting process, therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

Item 16. Reserved

Item 16A. Audit Committee Financial Expert

Our board of directors has determined that Mr. David Chao, an independent director (under the standards set forth in Section 303A of the Corporate Governance Rules of the New York Stock Exchange and Rule 10A-3 under the Exchange Act) qualifies as an audit committee financial expert.

Item 16B. Code of Ethics

Our board has adopted a code of business conduct and ethics that provides that our directors and officers are expected to avoid any action, position or interest that conflicts with the interests of our company or gives the appearance of a conflict. Directors and officers have an obligation under our code of business conduct and ethics to advance our company's interests when the opportunity to do so arises. We have posted a copy of our code of business conduct and ethics on our website at <http://www.renren-inc.com>.

Item 16C. Principal Accountant Fees and Services

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by Deloitte Touche Tohmatsu Certified Public Accountants LLP, our principal external auditors, for the periods indicated.

Table of Contents

	For the Year Ended December 31,	
	2011	2012
	(In thousands of US\$)	
Audit fees (1)	735.1	1,105.2
Audit-related fees (2)	534.4	
Tax fees(3)	23.1	114.4
All other fees(4)	93.0	

(1) Audit fees means the aggregate fees billed or payable for professional services rendered by our independent auditors in connection with the audit of our consolidated financial statements or the review of our interim consolidated financial statements required for statutory or regulatory filings.

(2) Audit-related fees means the aggregate fees billed or payable for professional services rendered by our independent auditors in connection with the review of our interim consolidated financial statements not required for statutory or regulatory filings.

(3) Tax fees means the aggregate fees billed or payable for tax compliance services, transfer pricing and requests for rulings or technical advice from taxing authorities and tax planning services.

(4) All other fees means the aggregate fees billed for all other services provided by Deloitte Touche Tohmatsu Certified Public Accountants LLP, other than those services covered in footnotes (1) to (3) above.

All audit and non-audit services provided by our independent auditors must be pre-approved by our audit committee.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

On September 29, 2011, our board of directors approved a share repurchase program, whereby our company was authorized to repurchase of up to US\$150.0 million of our ADSs during the period from September 29, 2011 through September 28, 2012. The share repurchase program was publicly announced on September 29, 2011. By the completion of the share repurchase program on September 28, 2012, our company purchased a total of 24,173,666 ADSs at an aggregate consideration of US\$101.8 million.

Edgar Filing: Renren Inc. - Form 20-F

The following table sets forth information about our repurchases made in the year 2012 under the share repurchase program described in the paragraph above.

Period	Total Number of ADSs Purchased	Average Price Paid per ADS (US\$)	Total Number of ADSs Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of ADSs that May Yet be Purchased Under the Plans or Programs (US\$)
Month #1 (December 29, 2011 - January 28, 2012)	4,220,738	\$ 3.56	4,220,738	\$ 117,922,034
Month #2 (January 29, 2012 - February 27, 2012)				\$ 117,922,034
Month #3 (February 28, 2012 - March 28, 2012)				\$ 117,922,034
Month #4 (March 29, 2012 - April 28, 2012)				\$ 117,922,034
Month #5 (April 29, 2012 - May 28, 2012)				\$ 117,922,034
Month #6 (May 29, 2012 - June 28, 2012)	3,000,000	\$ 4.87	3,000,000	\$ 103,306,514
Month #7 (June 29, 2012 - July 28, 2012)	7,235,000	\$ 4.31	7,235,000	\$ 72,088,180
Month #8 (July 29, 2012 - August 28, 2012)	4,000,000	\$ 3.93	4,000,000	\$ 56,354,293
Month #9 (August 29, 2012 - September 28, 2012)	2,000,000	\$ 4.08	2,000,000	\$ 48,199,630
Month #10 (September 29, 2012 - October 29, 2012)				\$ 48,199,630

On December 26, 2012, we announced that our board of directors authorized the renewal of our company's share repurchase program dated September 29, 2011 for another 12 months from January 1, 2013 to December 31, 2013. During this 12-month period, our company is authorized, but not obligated, to repurchase up to US\$48.2 million of our ADSs, which represents the remaining balance of our previously announced share repurchase plan that ended on September 28, 2012. As of April 23, 2013, we had repurchased 2,703,921 ADSs under the renewal of our share repurchase program.

In addition, during the course of the administration of our equity incentive plans, we have, from time to time, canceled or repurchased restricted shares or other securities held by employees or other participants of our equity incentive plans.

Item 16F. Change in Registrant's Certifying Accountant

Not applicable.

Item 16G. Corporate Governance

Section 303A.12(a) of the NYSE Listed Company Manual requires each listed company's chief executive officer to certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards. We are a Cayman Islands company, and our chief executive officer is not required under applicable Cayman Islands law to make such a certification. Pursuant to the exception granted to foreign private issuers under Section 303A.00 of the NYSE Listed Company Manual, we have followed our home country practice in this regard and have not in the past submitted the certification set forth in Section 303A.12(a) of the NYSE Listed Company Manual.

Other than the requirements discussed above, there are no significant differences between our corporate governance practices and those followed by domestic listed companies as required under the NYSE Listed Company Manual.

Item 16H. Mine Safety Disclosure

Not applicable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF DIRECTORS AND SHAREHOLDERS OF RENREN INC.

We have audited the accompanying consolidated balance sheets of Renren Inc., and its subsidiaries and variable interest entities (collectively the Group) as of December 31, 2011 and 2012, and the related consolidated statements of operations, comprehensive income (loss), changes in equity (deficit) and cash flows for each of the three years in the period ended December 31, 2012. These consolidated financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2011 and 2012, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2, such statements have been adjusted for the retrospective application of the authoritative guidance regarding the presentation of comprehensive income, which was adopted by the Group on January 1, 2012.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Group's internal control over financial reporting as of December 31, 2012, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 23, 2013 expressed an unqualified opinion on the Group's internal control over financial reporting.
