With respect to **Note 45.1.3 Financial instruments Credit risk** of the Notes to the Consolidated Financial Statements as of December 31, 2013, and particularly the caption **Debt securities**, Portugal Telecom provides the following clarifications, which should be viewed as supplemental information in addition to the information required to be disclosed under IFRS 7:

- As of December 31, 2013 and 2012, investments in short-term securities issued by ESI, a Espírito Santo Group entity, in the total amounts of Euro 750 million and Euro 510 million, respectively, represented the following percentages of the captions set forth below:

	Caption amount	Percentage (%)	Caption amount	Percentage (%)

- With respect to the information on our policy on investments in cash and short-term investments, as presented in general terms in the Report and Consolidated Financial Statements in the same note of the Notes to the Consolidated Financial Statements as of December 31, 2013, in Item 10 *Main Risks and Uncertainties Financial Risks Credit* of our Consolidated Annual Report 2013 and in Item 03.III *Internal Organization Internal Control and Risk Management Main economic, financial and legal risks Financial Risks Credit* of our Corporate Governance Report 2013, and in particular the criterion for investments in diversified financial institutions that are reputable in the market, it should be mentioned that, given the concentration in deposits and treasury applications in BES/GES, as of December 31, 2013, the Company was not implementing an effective diversification.

With respect to **Note 48.b) Related Parties Shareholders** of the Notes to the Consolidated Financial Statements as of December 31, 2013, Portugal Telecom provides the following clarifications, which constitute supplemental information and more extensive information than that required under IAS 24:

- For purposes of this note, PT took into consideration its principal shareholders holding a qualified interest in its share capital equal to or in excess of 2%, based on the ownership information communicated by such shareholders to the company, even though those shareholders should not be deemed to be related parties as defined by IAS 24 as they do not meet the requirements set forth in such accounting standard.
- Taking into account the matters described above, in the table setting forth information about related party transactions, references to the shareholder Banco Espírito Santo (BES) should be considered references to Grupo Espírito Santo (GES),

which includes BES and all entities that, according to information provided by BES, could be considered related parties of BES, including ESI (See Annex I).

- In footnote (i) to the table, Portugal Telecom informs that interest payments received by PT include amounts relating to interest received on bank deposits and on the short-term investments in ESI referred to in Note 24 to the Notes to the Consolidated Financial Statements as of December 31, 2013.

- As of December 31, 2013 and 2012, the balances relating to bank deposits, short-term investments and other financing transactions with our principal shareholders were as follows:
