JRS

Nuveen Real Estate Income Fund

IMPORTANT DISTRIBUTION NOTICE
for Shareholders of the Nuveen Real Estate Income Fund (JRS)
Semi-Annual Shareholder Report for the period ending June 30, 2014

The Nuveen Real Estate Income Fund seeks to offer attractive cash flow to its shareholders, by converting the expected long-term total return potential of the Fund's investments in REITs into regular quarterly distributions. Following is a discussion of the Managed Distribution Policy the Fund uses to achieve this.

The Fund pays quarterly common share distributions that seek to convert the Fund's expected long-term total return potential into regular cash flow. As a result, the Fund's regular common share distributions (presently \$0.2250 per share) may be derived from a variety of sources, including:

- distributions from portfolio companies (REITs),
- realized capital gains or,
- possibly, returns of capital representing in certain cases unrealized capital appreciation.

Such distributions are sometimes referred to as "managed distributions." The Fund seeks to establish a distribution rate that roughly corresponds to the Adviser's projections of the total return that could reasonably be expected to be generated by the Fund over an extended period of time. The Adviser may consider many factors when making such projections, including, but not limited to, long-term historical returns for the asset classes in which the Fund invests. As portfolio and market conditions change, the distribution amount and distribution rate on the Common Shares under the Fund's Managed Distribution Policy could change.

When it pays a distribution, the Fund provides holders of its Common Shares a notice of the estimated sources of the Fund's distributions (i.e., what percentage of the distributions is estimated to constitute ordinary income, short-term capital gains, long-term capital gains, and/or a non-taxable return of capital) on a year-to-date basis. It does this by posting the notice on its website (www.nuveen.com/cef), and by sending it in written form.

You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's Managed Distribution Policy. The Fund's actual financial performance will likely vary from month-to-month and from year-to-year, and there may be extended periods when the distribution rate will exceed the Fund's actual total returns. The Managed Distribution Policy provides that the Board may amend or terminate the Policy at any time without prior notice to Fund shareholders. There are presently no reasonably foreseeable circumstances that might cause the Fund to terminate its Managed Distribution Policy.

Nuveen Investments to be acquired by TIAA-CREF

On April 14, 2014, TIAA-CREF announced that it had entered into an agreement to acquire Nuveen Investments, the parent company of your fund's investment adviser, Nuveen Fund Advisors, LLC ("NFAL") and the Nuveen affiliates that act as sub-advisers to the majority of the Nuveen Funds. TIAA-CREF is a national financial services organization with approximately \$569 billion in assets under management (as of March 31, 2014) and is a leading provider of retirement services in the academic, research, medical and cultural fields. Nuveen anticipates that it will operate as a separate subsidiary within TIAA-CREF's asset management business, and that its current leadership and key investment teams will stay in place.

Your fund investment will not change as a result of Nuveen's change of ownership. You will still own the same fund shares and the underlying value of those shares will not change as a result of the transaction. NFAL and your fund's sub-adviser(s) will continue to manage your fund according to the same objectives and policies as before, and we do not anticipate any significant changes to your fund's operations. Under the securities laws, the consummation of the transaction will result in the automatic termination of the investment management agreements between the funds and NFAL and the investment sub-advisory agreements between NFAL and each fund's sub-adviser(s). The new agreements have been approved by shareholders of your fund.

The transaction is currently expected to close early in the fourth quarter of 2014, but remains subject to customary closing conditions.

Nuveen Investments

Chairman's Letter

to Shareholders

Dear Shareholders,

After significant growth in 2013, domestic and international equity markets have been less compelling during the first part of 2014. Concerns about deflation, political uncertainty in many places and the potential for more fragile economies to impact other countries have produced uncertainty in the markets.

Europe is beginning to emerge slowly from the recession in mid-2013, with improved GDP and employment trends in some countries. However, Japan's deflationary headwinds have resurfaced; and China shows signs of slowing from credit distress combined with declines in manufacturing and exports. Most recently, tensions between Russia and Ukraine may continue to hold back stocks and support government bonds in the near term.

Despite these headwinds, there are some encouraging signs of forward momentum in the markets. In the U.S., the news is more positive with financial risks slowly receding, positive GDP trends, downward trending unemployment and stronger household finances and corporate spending.

It is in such changeable markets that professional investment management is most important. Investment teams who have experienced challenging markets in the past understand how their asset class can behave in rapidly changing times. Remaining committed to their investment disciplines during these times is a critical component to achieving long-term success. In fact, many strong investment track records are established during challenging periods because experienced investment teams understand that volatile markets place a premium on companies and investment ideas that can weather the short-term volatility. By maintaining appropriate time horizons, diversification and relying on practiced investment teams, we believe that investors can achieve their long-term investment objectives.

As always, I encourage you to communicate with your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

William J. Schneider
Chairman of the Board
August 25, 2014

Portfolio Managers'

Comments

Nuveen Real Estate Income Fund (JRS)

The Fund is managed by a team of real estate investment professionals at Security Capital Research & Management Incorporated (Security Capital), a wholly-owned subsidiary of JPMorgan Chase & Company. Anthony R. Manno Jr., Kenneth D. Statz and Kevin W. Bedell lead the team and have managed JRS since its inception in 2001.

Here they discuss their management strategy and performance of the Fund over the six-month reporting period ended June 30, 2014.

What key strategies were used to manage the Fund during this six-month reporting period ended June 30, 2014?

The Fund is designed to invest at least 90% of its assets in income producing common stocks, preferred stocks, convertible preferred stocks and debt securities issued by real estate companies, with at least 80% of its total assets invested in income producing equity securities issued by Real Estate Investment Trusts (REITs).

In managing the JRS portfolio, Security Capital seeks to maintain significant property type and geographic diversification while taking into account company credit quality, sector, and security-type allocations. Investment decisions are based on a multi-layered analysis of the company, the real estate it owns, its management and the relative price of the security, with a focus on securities that we believe will be best positioned to generate sustainable income and potential price appreciation over the long-run. In addition to fundamental security research, the proportion of the Fund invested in common equity versus preferred, fixed income and cash investments is a key tactic we use to manage risk at a portfolio level. In general, in times of strong economic growth we tilt the portfolio towards more ownership of equity. In highly uncertain times, we tend to favor more allocation toward senior securities. The allocation for the portfolio between equity, preferred, debt and cash investments as of June 30, 2014 was 54% in equity, 40% in preferreds and 6% in cash.

How did the Fund perform during this six-month reporting period ended June 30, 2014?

The table in the Performance Overview and Holding Summaries section of this report provides total return performance for the Fund for the six-month, one-year, five-year and ten-year periods ended June 30, 2014. For the six-month reporting period ended June 30, 2014, the Fund's total return on common share net asset value (NAV) outperformed its Blended Benchmark and the Wilshire U.S. Select Real Estate Securities Index (RESI).

Returns for the common equity of U.S. REITs surged in the first half of 2014, in the context of easing long-term interest rates, healthy underlying operating fundamentals and highly accommodating debt and equity markets after materially lagging both private real estate and broader equity market benchmarks in 2013. Easing long-term interest rate trends

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual

investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Fund disclaims any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's (S&P), Moody's Investors Service (Moody's), Inc. or Fitch, Inc. (Fitch). Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

Nuveen Investments

5

Portfolio Managers' Comments (continued)

were also evident in the strong returns generated by REIT senior fixed income securities during the reporting period, particularly the perpetual preferred securities with their extended duration profile.

Within the Fund's common equity holdings there were distinctive performance differences by major property type with the underlying themes and influences reflecting company specific factors, earlier period performance differentials as well as shifting investor expectations colored by macro-economic trends. In this context, the performance leaders by major property were the office, apartment and regional mall companies. Office property operations in general have been challenged by generally weak user demand driven by cost sensitive business tenants and efficiency gains in office space use. However, asset pricing for quality assets in primary markets has remained strong and strength in technology and life science markets has driven leasing and development opportunities for a number of office companies, both areas of overweight in the Fund's holdings for the period. Apartment companies continue to drive healthy revenue growth, but investors have been wary of asset and company valuations in the context of rebounding levels of new supply, rising property taxes and perceived headwinds from a recovering single family housing market. Underperformance coming into 2014 and evidence of a sputtering single family housing recovery this year have been key drivers of strong stock performance in 2014. Finally, investors have been cautious over trends impacting regional malls including a deceleration in sales growth over the last several quarters, renewed worries over the health of mall anchors Sears and JCPenney and escalating competition from internet based sales. But operations have been resilient and the companies were poised for a bounce-back after underperformance in 2013 and the first quarter of this year.

Within the Fund's common equity holdings, the relative underperformers by major property-type during the reporting period were the hotel, industrial and self-storage companies. For hotel companies, returns in the Fund were positive on an absolute basis as economically sensitive operations continued to respond very favorably to a combination of healthy corporate and leisure travel patterns and the generally low level of new supply. Within industrial, while rent and occupancy trends have been healthy, investors were wary of escalating levels of new construction in a number of key distribution markets, particularly given the very short lead times for delivering new industrial assets and abundant capital availability. Lastly, self-storage companies continued to exhibit strong and durable property operations driven, in part, by housing market trends, a shortfall of new supply as well as expense-saving technology. Self-storage companies delivered strong returns to start the year suggesting a reversion of sorts as investors were cautious on valuations.

The average allocation for the Fund's portfolio between REIT common equity and REIT preferreds for the reporting period was 57% in REIT common equity and 39% in REIT preferreds with the balance in cash, ending June 30, 2014 at 54% REIT common equity and 40% REIT preferreds with the balance in cash. The Fund's second quarter allocation between common equity and preferred investments shifted modestly away from the historically more volatile common equity investments due to the rapid price increases in many of these securities compared with our outlook for a moderate improvement in fundamentals. The Fund's ability to shift allocation between common equity and preferred investments is an important management tool to balance growth and income safety in an economy experiencing a slow but uneven recovery.

The issue at hand in our view, is the extent to which increasing interest rates will be corrosive to real estate valuations and investor returns. On this question, real estate investors and generalist stock investors appear to disagree and this tension is leading to some significant quarter-to-quarter price volatility within REIT common equity.

While dedicated real estate investors are focused on interest rates, the continued advance of underlying asset values suggest that private real estate markets as a whole have largely shrugged off interest rate

movement. Real estate investors appear focused to a greater extent on a host of factors which have not changed and together characterize a highly favorable fundamental and financial positioning for continued cash flow growth and stable valuations. These include low borrowing spreads, accommodating debt markets, low levels of new construction and stable-to-improving rent/occupancy levels. In this context, U.S. and global institutional demand for U.S. real estate investments is strong,

Nuveen Investments

6

pricing is stable-to-improving, and there is a suggestion that private capital stands ready to take advantage of public market overreactions where they occur.

The behavior of generalist stock investors, including large/small cap stock funds, hedge funds, closed end funds, suggest a different view. Many of these investors embrace a dividend orientation to investing in REIT common equity and within their portfolios REITs are aligned with a group of income oriented investments, which become significantly less appealing as interest rates rise and vice versa.

Nuveen Investments

7

Fund**Leverage****IMPACT OF THE FUND'S LEVERAGE STRATEGY ON PERFORMANCE**

One important factor impacting the return of the Fund relative to its benchmarks was the Fund's use of leverage through the use of bank borrowings. The Fund uses leverage because our research has shown that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by the Fund decline, the negative impact of these valuation changes on common share NAV and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by the Fund generally are rising. The Fund's use of leverage had a positive impact on performance during this reporting period.

The Fund also continued to use swap contracts to partially fix the interest cost of leverage, which as mentioned previously, the Fund uses through bank borrowings. The swap contracts impact on performance was modestly negative during this reporting period as interest rates moved lower.

As of June 30, 2014, the Fund's percentages of leverage are as shown in the accompanying table.

	JRS
Effective Leverage*	29.07%
Regulatory Leverage*	29.07%

* Effective leverage is the Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund's portfolio that increase the Fund's investment exposure. Regulatory leverage consists of preferred shares issued or borrowings of the Fund. Both of these are part of the Fund's capital structure. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

THE FUND'S REGULATORY LEVERAGE*Bank Borrowings*

The Fund employs regulatory leverage through the use of bank borrowings. As of June 30, 2014, the Fund had outstanding bank borrowings of \$133,500,000.

Refer to Notes to Financial Statements, Note 8 Borrowing Arrangements for further details.

Common Share

Information

DISTRIBUTION INFORMATION

The following information regarding the Fund's distributions is current as of June 30, 2014. The Fund's distribution levels may vary over time based on the Fund's investment activities and portfolio investment value changes.

The Fund has a managed distribution program. The goal of this program is to provide common shareholders with relatively consistent and predictable cash flow by systematically converting the Fund's expected long-term return potential into regular distributions. As a result, regular common share distributions throughout the year are likely to include a portion of expected long-term gains (both realized and unrealized), along with net investment income.

Important points to understand about the managed distribution program are:

- The Fund seeks to establish a relatively stable common share distribution rate that roughly corresponds to the projected total return from its investment strategy over an extended period of time. However, you should not draw any conclusions about the Fund's past or future investment performance from its current distribution rate.
- Actual common share returns will differ from projected long-term returns (and therefore the Fund's distribution rate), at least over shorter time periods. Over a specific timeframe, the difference between actual returns and total distributions will be reflected in an increasing (returns exceed distributions) or a decreasing (distributions exceed returns) Fund net asset value.
- Each distribution is expected to be paid from some or all of the following sources:
 - net investment income (regular interest and dividends),
 - realized capital gains and
 - unrealized gains, or, in certain cases, a return of principal (non-taxable distributions).
- A non-taxable distribution is a payment of a portion of the Fund's capital. When the Fund's returns exceed distributions, it may represent portfolio gains generated, but not realized as a taxable capital gain. In periods when the Fund's returns fall short of distributions, the shortfall will represent a portion of your original principal, unless the shortfall is offset during other time periods over the life of your investment (previous or subsequent) when the Fund's total return exceeds distributions.
- Because distribution source estimates are updated during the year based on the Fund's performance and forecast for its current fiscal year (which is the calendar year for the Fund), estimates on the nature of your distributions provided at the time the distributions are paid may differ from both the tax information reported to you in your Fund's IRS Form 1099 statement provided at year end, as well as the ultimate economic sources of distributions over the life of your investment.

Common Share Information (continued)

The following table provides estimated information regarding the Fund's common share distributions and total return performance for the six months ended June 30, 2014. This information is provided on a tax basis rather than a generally accepted accounting principles (GAAP) basis. This information is intended to help you better understand whether the Fund's returns for the specified time period were sufficient to meet its distributions.

As of June 30, 2014 (Common Shares)	JRS
Inception date	11/15/01
Six months ended June 30, 2014:	
Per share distribution:	
From net investment income	\$ 0.16
From realized capital gains	0.29
Return of capital	0.00
Total per share distribution	\$ 0.45
Annualized distribution rate on NAV	7.99%
Current distribution rate*	8.05%
Average annual total returns:	
Excluding retained gain tax credit/refund**:	
6-Month (Cumulative) on NAV	22.76%
1-Year on NAV	14.50%
5-Year on NAV	25.21%
10-Year on NAV	5.13%
Including retained gain tax credit/refund**:	
6-Month (Cumulative) on NAV	22.76%
1-Year on NAV	14.50%
5-Year on NAV	25.21%
10-Year on NAV	5.87%

* Current distribution rate is based on the Fund's current annualized quarterly distribution divided by the Fund's current market price. The Fund's quarterly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the fiscal year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a return of capital for tax purposes.

** The Fund elected to retain a portion of its realized long-term capital gains for the tax years ended December 31, 2007 and December 31, 2006, and pay required federal corporate income taxes on these amounts. As reported on Form 2439, common shareholders on record date must include their pro-rata share of these gains on their applicable federal tax returns, and are entitled to take offsetting tax credits, for their pro-rata share of the taxes paid by the Fund. The total returns "Including retained gain tax credit/refund" include the economic benefit to common shareholders on record date of these tax credits/refunds. The Fund had no retained capital gains for the tax years ended December 31, 2008 through December 31, 2013 or for the tax years ended prior to December 31, 2006.

COMMON SHARE EQUITY SHELF PROGRAM

The Fund filed a registration statement with the Securities and Exchange Commission (SEC) authorizing the Fund to issue an additional 7.1 million common shares through its equity shelf program, which was declared effective by the SEC during the current reporting period. Under this program, the Fund, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods

at a net price at or above the Fund's NAV per common share.

During the current reporting period, the Fund sold common shares through its equity shelf program at a weighted average premium to its NAV per common share as shown in the accompanying table.

	JRS
Common Shares Sold through Equity Shelf Program	29,500
Weighted Average Premium to NAV per Common Share Sold	1.47%

Nuveen Investments
10

Refer to Notes to Financial Statements, Note 1 General Information and Significant Accounting Policies for further details on the Fund's equity shelf program.

COMMON SHARE REPURCHASES

As of June 30, 2014, and since the inception of the Fund's repurchase program, the Fund has cumulatively repurchased and retired common shares as shown in the accompanying table.

	JRS
Common Shares Cumulatively Repurchased and Retired	0
Common Shares Authorized for Repurchase	2,880,000

OTHER COMMON SHARE INFORMATION

As of June 30, 2014, and during the current reporting period, the Fund's common share price was trading at a premium/(discount) to its common share NAV as shown in the accompanying table.

	JRS
Common Share NAV	\$ 11.27
Common Share Price	\$ 11.18
Premium/(Discount) to NAV	(0.80)%
6-Month Average Premium/(Discount) to NAV	(0.15)%

Nuveen Investments

Risk

Considerations

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Shares of closed-end funds are subject to investment risks, including the possible loss of principal invested. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment, Market and Price Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the corporate securities owned by the Fund, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like the Fund frequently trade at a discount to their NAV. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. The Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price and distributions. Leverage risk can be introduced through regulatory leverage (issuing preferred shares or debt borrowings at the Fund level) or through certain derivative investments held in the Fund's portfolio. Leverage typically magnifies the total return of the Fund's portfolio, whether that return is positive or negative. The use of leverage creates an opportunity for increased common share net income, but there is no assurance that the Fund's leveraging strategy will be successful.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations. This is particularly true for funds employing a managed distribution program.

Real Estate Risks. The Fund's performance is linked to the performance of the commercial real estate markets, which may fall due to increasing vacancies, declining rents or the failure of borrowers to pay their loans.

Common Stock Risk. Common stock returns often have experienced significant volatility.

Issuer Credit Risk. This is the risk that a security in the Fund's portfolio will fail to make dividend or interest payments when due.

Dividend Income Risk. There is no guarantee that the issuers of common stocks in which the Fund invests will declare dividends in the future or that, if declared, they will remain at current levels or increase over time.

Preferred Stock Risk. Preferred stocks are subordinated to bonds and other debt instruments in a company's capital structure, and therefore are subject to greater credit risk.

Derivatives Strategy Risk. Derivative securities, such as calls, puts, warrants, swaps and forwards, carry risks different from, and possibly greater than, the risks associated with the underlying investments.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Interest Rate Swaps Risk. The risk that yields will move in the direction opposite to the direction anticipated by a Fund, which would cause a Fund to make payments to its counterparty in the transaction that could adversely affect the Fund's performance.

Reinvestment Risk. If market interest rates decline, income earned from the Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Nuveen Investments

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Investment, or portion of investment, is out on loan as described in Note 9 Borrowing Arrangements. The total value of investments out on loan as of the end of the reporting period was \$985,600.
- (3) Non-income producing; issuer has not declared a dividend within the past twelve months.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.
- (5) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (6) Borrowings as a percentage of Total Investments is 28.7%.
- (7) The Fund may pledge up to 100% of its eligible investments (excluding any investments separately pledged as collateral for specific investments in derivatives) in the Portfolio of Investments as collateral for Borrowings. As of the end of the reporting period investments with a value of \$279,007,973 have been pledged as collateral for Borrowings.
- (8) Other Assets Less Liabilities includes the Unrealized Appreciation (Depreciation) of derivative instruments as listed within Investments in Derivatives as of the end of the reporting period.
- (9) For fair value measurement disclosure purposes, Real Estate Investment Trust Preferred Stocks categorized as Level 2. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more Information.
- (10) Effective date represents the date on which both the Fund and Counterparty commence interest payment accruals on each contract.

Nuveen Investments

(a) Per share Net Investment Income (Loss) is calculated using the average daily shares method.

(b) The amounts shown are based on common share equivalents.

(c) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(d) • Ratios do not reflect the effect of dividend payments to Taxable Auctioned Preferred shareholders, where applicable.

• Net Investment Income (Loss) ratios reflect income earned and expenses incurred on assets attributable to Taxable Auctioned Preferred shares and/or borrowings, where applicable, as described in Note 8 Borrowing Arrangements.

• Each ratio includes the effect of all interest expense paid and other costs related to borrowings as follows:

Ratios of Borrowings Interest Expense to Average Net Assets Applicable to Common Shares

Year Ended

12/31:

2014 49%***

2013 49

2012 56

2011 42

2010 35

2009 41

(e) After expense reimbursement from the Adviser, where applicable. As of November 30, 2011, the Adviser is no longer reimbursing the Fund for any fees or expenses.

(f) Portfolio Turnover Rate is calculated based on the lesser of long-term purchases or sales (as disclosed in Note 5 Investment Transactions) divided by the average long-term market value during the period.

(g) For the six months ended June 30, 2014.

N/A Fund no longer has a contractual reimbursement agreement with the Adviser.

* Rounds to less than \$.01 per share.

** Represents distributions paid "From and in excess of net investment income" for the six months ended June 30, 2014, as described in Note 1 General Information and Significant Accounting Policies, Dividends and Distributions to Shareholders.

*** Annualized.

Fund Information

Nuveen Real Estate Income Fund (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified closed-end registered investment company. The Fund's common shares are listed on the NYSE MKT and trade under the ticker symbol "JRS." The Fund was organized as a Massachusetts business trust on August 27, 2001.

Investment Adviser

The Fund's investment adviser is Nuveen Fund Advisors, LLC (the "Adviser"), a wholly-owned subsidiary of Nuveen Investments, Inc. ("Nuveen"). The Adviser is responsible for the Fund's overall investment strategy and asset allocation decisions. The Adviser has entered into a sub-advisory agreement with Security Capital Research & Management Incorporated ("Security Capital"). Security Capital manages the Fund's investment portfolio, while the Adviser manages the Fund's investments in swap contracts.

Agreement and Plan of Merger

On April 14, 2014, TIAA-CREF, a national financial services organization, announced that it had entered into an agreement (the "Purchase Agreement") to acquire Nuveen, the parent company of the Adviser. The transaction is expected to be completed by the end of the year, subject to customary closing conditions, including obtaining necessary Nuveen fund and client consents sufficient to satisfy the terms of the Purchase Agreement and obtaining customary regulatory approvals. There can be no assurance that the transaction described above will be consummated as contemplated or that necessary conditions will be satisfied.

The consummation of the transaction will be deemed to be an "assignment" (as defined in the Investment Company Act of 1940) of the investment management agreements between the Nuveen funds and the Adviser and the investment sub-advisory agreements between the Adviser and each Nuveen fund's sub-adviser or sub-advisers, and will result in automatic termination of each agreement. It is anticipated that the Board of Directors/Trustees of the Nuveen funds will consider a new investment management agreement with the Adviser and new investment sub-advisory agreements with each sub-adviser.

The transaction is not expected to result in any change in the portfolio management of the Fund or in the Fund's investment objectives or policies.

Investment Objective

The Fund seeks to provide high current income and capital appreciation by investing at least 90% of its total assets in income producing common stocks, preferred stocks, convertible preferred stocks and debt securities issued by real estate companies. The Fund will invest at least 80% of its total assets in income producing equity securities issued by Real Estate Investment Trusts ("REITs"), and will not invest more

than 25% of its total assets in non-investment grade preferred stocks, convertible preferred stocks and debt securities.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Fund has instructed the custodian to earmark securities in the Fund's portfolio with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments.

As of June 30, 2014, the Fund's outstanding when-issued/delayed delivery purchase commitments were as follows:

Outstanding when-issued/delayed delivery purchase commitments		\$
	Nuveen Investments	
	26	

Investment Income

Dividend income is recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which reflects the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also reflects paydown gains and losses, if any. Other income is comprised of fees earned in connection with the rehypothecation of pledged collateral as further described in Note 8 Borrowing Arrangements.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment or to pursue other claims or legal actions on behalf of Fund shareholders. If a refund is received for workout expenditures paid in a prior reporting period, such amounts will be recognized as "Legal fee refund" on the Statement of Operations.

Dividends and Distributions to Common Shareholders

Distributions to common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

The Fund makes quarterly cash distributions to common shareholders of a stated dollar amount per share. Subject to approval and oversight by the Fund's Board of Trustees, the Fund seeks to maintain a stable distribution level designed to deliver the long-term return potential of the Fund's investment strategy through regular quarterly distributions (a "Managed Distribution Program"). Total distributions during a calendar year generally will be made from the Fund's net investment income, net realized capital gains and net unrealized capital gains in the Fund's portfolio, if any. The portion of distributions paid attributed to net unrealized gains, if any, is distributed from the Fund's assets and is treated by shareholders as a non-taxable distribution ("Return of Capital") for tax purposes. In the event that total distributions during a calendar year exceed the Fund's total return on net asset value ("NAV"), the difference will reduce NAV per share. If the Fund's total return on NAV exceeds total distributions during a calendar year, the excess will be reflected as an increase in NAV per share. The final determination of the source and character of all distributions for the fiscal year are made after the end of the fiscal year and is reflected in the financial statements contained in the annual report as of December 31 each year.

REIT distributions received by the Fund are generally comprised of ordinary income, long-term capital gains and a return of REIT capital. The actual character of amounts received during the period are not known until after the fiscal year-end. For the fiscal year ended December 31, 2013, the character of distributions to the Fund from the REITs was 73.95% ordinary income, 15.33% long-term capital gains and 10.72% return of REIT capital.

For the fiscal year ended December 31, 2013, the Fund applied the actual character of distributions reported by the REITs in which the Fund invests to its receipts from the REITs. If a REIT held in the portfolio of investments did not report the actual character of its distributions during the period, the Fund treated the distributions as ordinary income.

For the six months ended June 30, 2014, the Fund applied the actual percentages for the fiscal year ended December 31, 2013, described above, to its receipts from the REITs and treated as income on the Statement of Operations only the amount of ordinary income so calculated. The Fund adjusts that

estimated breakdown of income type (and consequently its net investment income) as necessary early in the following calendar year when the REITs inform their shareholders of the actual breakdown of income type.

The actual character of distributions made by the Fund during the fiscal year ended December 31, 2013, is reflected in the accompanying financial statements.

The distributions made by the Fund during the six months ended June 30, 2014, are provisionally classified as being "From and in excess of net investment income," and those distributions will be classified as being from net investment income, net realized capital gains and/or a return of capital for tax purposes after the fiscal year end. For purposes of calculating "Undistributed (Overdistribution of) net investment income" as of June 30, 2014, the distribution amounts provisionally classified as "From and in excess of net investment income" were treated as being entirely from net investment income. Consequently, the financial statements as of June 30, 2014, reflect an over-distribution of net investment income.

Taxable Auctioned Preferred Shares

The Fund is authorized to issue auction rate preferred ("Taxable Auctioned Preferred") shares. During prior fiscal periods, the Fund redeemed all of its outstanding Taxable Auctioned Preferred shares, at liquidation value.

Common Shares Equity Shelf Program and Offering Costs

The Fund has filed a registration statement with the Securities and Exchange Commission ("SEC") authorizing the Fund to issue additional common shares through an equity shelf program ("Shelf Offering").

Under the Shelf Offering, the Fund, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above the Fund's NAV per share.

Notes to Financial Statements (Unaudited) (continued)

Authorized common shares, common shares issued and offering proceeds, net of offering costs under the Fund's Shelf Offering during the six months ended June 30, 2014, were as follows:

	Six Months Ended 6/30/14
Authorized common shares	7,100,000*
Common shares issued	29,500
Offering proceeds, net of offering costs	\$ 312,363

* Shelf Offering declared effective by the SEC during the current reporting period.

Costs incurred by the Fund in connection with its Shelf Offering will be recorded as a deferred charge and recognized as a component of "Deferred offering costs" on the Statement of Assets and Liabilities. These deferred charges are recognized over the period such additional shares are sold by reducing the proceeds from such sales and is recognized as a component of "Proceeds from shelf offering, net of offering costs" on the Statement of Changes in Net Assets, when applicable. At the end of the one-year life of the Shelf Offering period, any remaining deferred charges will be expensed accordingly and recognized as a component of "Other expenses" on the Statement of Operations. Any additional costs the Fund may incur in connection with its Shelf Offering are expensed as incurred and recognized as a component of "Proceeds from shelf offering, net of offering costs" on the Statement of Changes in Net Assets, when applicable.

During the six months ended June 30, 2014, Nuveen Securities, LLC, the Fund's distributor and a wholly-owned subsidiary of Nuveen, received commissions of \$560, related to the sale of common shares as a result of the Fund's Shelf Offering.

Indemnifications

Under the Fund's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

Netting Agreements

In the ordinary course of business, the Fund may enter into transactions subject to enforceable master repurchase agreements, International Swaps and Derivative Association, Inc. ("ISDA") master agreements or other similar arrangements ("netting agreements"). Generally, the right to offset in netting agreements allows the Fund to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, the Fund manages its cash collateral and securities collateral on a counterparty basis.

As of June 30, 2014, the Fund was invested in repurchase agreements and swap contracts that are subject to netting agreements and further described in Note 3 Portfolio Securities and Investments in Derivatives.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Investment Valuation and Fair Value Measurements

The fair valuation input levels as described below are for fair value measurement purposes.

Investment Valuation

Common stocks and other equity-type securities are valued at the last sales price on the securities exchange on which such securities are primarily traded and are generally classified as Level 1. Securities primarily traded on the NASDAQ National Market ("NASDAQ") are valued at the NASDAQ Official Closing Price and are generally classified as Level 1. However, securities traded on a securities exchange or NASDAQ for which there were no transactions on a given day or securities not listed on a securities exchange or NASDAQ are valued at the quoted bid price and are generally classified as Level 2.

Prices of fixed-income securities are provided by a pricing service approved by the Nuveen funds' Board of Directors/Trustees. The pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider

information about a security, its issuer or market activity, provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Prices of swap contracts are also provided by a pricing service approved by the Nuveen funds' Board of Directors/Trustees using the same methods as described above, and are generally classified as Level 2.

Repurchase agreements are valued at contract amount plus accrued interest, which approximates market value. These securities are generally classified as Level 2.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Nuveen funds' Board of Directors/Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a fund's NAV (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Nuveen funds' Board of Directors/Trustees or its designee.

Fair Value Measurements

Fair value is defined as the price that would be received upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

Level 1 Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.

Level 2 Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of the Fund's fair value measurements as of the end of the reporting period:

	Level 1	Level 2	Level 3	Total
Long-Term Investments*:				
Real Estate				
Investment Trust				
Common Stocks	\$252,685,074	\$	\$	\$252,685,074
Real Estate				
Investment Trust				
Preferred Stocks	169,754,248	14,950,527		184,704,775
Short-Term Investments:				
Repurchase				
Agreements		28,028,069		28,028,069
Investments in Derivatives:				
Interest Rate				
Swaps**		564,376		564,376
Total	\$422,439,322	\$43,542,972	\$	\$465,982,294

* Refer to the Fund's Portfolio of Investments for industry classifications and breakdown of Real Estate Investment Trust Preferred Stocks classified as Level 2.

** Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

The Nuveen funds' Board of Directors/Trustees is responsible for the valuation process and has delegated the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board of Directors/Trustees, is responsible for making fair value determinations, evaluating the effectiveness of the funds' pricing policies and reporting to the Board of Directors/Trustees. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services

Notes to Financial Statements (Unaudited) (continued)

for investments owned by the funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making a fair value determination, based on the facts and circumstances specific to the portfolio instrument. Fair value determinations generally will be derived as follows, using public or private market information:

- (i) If available, fair value determinations shall be derived by extrapolating from recent transactions or quoted prices for identical or comparable securities.
- (ii) If such information is not available, an analytical valuation methodology may be used based on other available information including, but not limited to: analyst appraisals, research reports, corporate action information, issuer financial statements and shelf registration statements. Such analytical valuation methodologies may include, but are not limited to: multiple of earnings, discount from market value of a similar freely-traded security, discounted cash flow analysis, book value or a multiple thereof, risk premium/yield analysis, yield to maturity and/or fundamental investment analysis.

The purchase price of a portfolio instrument will be used to fair value the instrument only if no other valuation methodology is available or deemed appropriate, and it is determined that the purchase price fairly reflects the instrument's current value.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors/Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board of Directors/Trustees.

3. Portfolio Securities and Investments in Derivatives

Portfolio Securities

Foreign Currency Transactions

To the extent that the Fund invests in securities and/or contracts that are denominated in a currency other than U.S. dollars, the Fund will be subject to currency risk, which is the risk that an increase in the U.S. dollar relative to the foreign currency will reduce returns or portfolio value. Generally, when the U.S. dollar rises in value against a foreign currency, the Fund's investments denominated in that currency will lose value because its currency is worth fewer U.S. dollars; the opposite effect occurs if the U.S. dollar falls in relative value. Investments and other assets and liabilities denominated in foreign currencies are converted into U.S. dollars on a spot (i.e. cash) basis at the spot rate prevailing in the foreign currency exchange market at the time of valuation. Purchases and sales of investments and income denominated in foreign currencies are translated into U.S. dollars on the respective dates of such transactions.

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, assets and liabilities are translated into U.S. dollars at 4:00 p.m. Eastern Time. Investment transactions, income and expenses are translated on the respective dates of such transactions. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date of the transactions, foreign currency transactions and the difference between the

amounts of interest and dividends recorded on the books of the Fund and the amounts actually received.

The realized gains and losses resulting from changes in foreign currency exchange rates and changes in foreign exchange rates associated with other assets and liabilities on investments, forward foreign currency exchange contracts, futures, options purchased, options written and swaps are recognized as a component of "Net realized gain (loss) from investments and foreign currency," on the Statement of Operations, when applicable.

The unrealized gains and losses resulting from changes in foreign currency exchange rates and changes in foreign exchange rates associated with other assets and liabilities on investments are recognized as a component of "Change in net unrealized appreciation (depreciation) of investments and foreign currency," on the Statement of Operations, when applicable. The unrealized gains and losses resulting from changes in foreign exchange rates associated with forward foreign currency exchange contracts, futures, options purchased, options written and swaps are recognized as a component of "Change in net unrealized appreciation (depreciation) of forward foreign currency exchange contracts, futures contracts, options purchased, options written and swaps," respectively, on the Statement of Operations, when applicable.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Nuveen Investments

30

The following table presents the repurchase agreements for the Fund that are subject to netting agreements as of the end of the reporting period, and the collateral delivered related to those repurchase agreements.

Counterparty	Short-Term Investments, at Value	Collateral Pledged (From) Counterparty*	Net Exposure
Fixed Income Clearing Corporation	\$ 28,028,069	\$(28,028,069)	\$

* As of June 30, 2014, the value of the collateral pledged from the counterparty exceeded the value of the repurchase agreements. Refer to the Fund's Portfolio of Investments for details on the repurchase agreements.

Investments in Derivatives

The Fund is authorized to invest in certain derivative instruments, such as futures, options and swap contracts. The Fund limits its investments in futures, options on futures and swap contracts to the extent necessary for the Adviser to claim the exclusion from registration by the Commodity Futures Trading Commission as a commodity pool operator with respect to the Fund. The Fund records derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Fund's investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

Swap Contracts

Interest rate swap contracts involve the Fund's agreement with the counterparty to pay or receive a fixed rate payment in exchange for the counterparty receiving or paying a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on any variable rate borrowing. Forward interest rate swap contracts involve the Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the swap contract. Swap contracts do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that the Fund is to receive. Swap contracts are valued daily. Upon entering into an interest rate swap contract (and beginning on the effective date for a forward interest rate swap contract), the Fund accrues the fixed rate payment expected to be paid or received and the variable rate payment expected to be received or paid on a daily basis, and recognizes the daily change in the fair value of the Fund's contractual rights and obligations under the contracts. The net amount recorded for these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of "Unrealized appreciation or depreciation on interest rate swaps (,net)" with the change during the fiscal period recognized on the Statement of Operations as a component of "Change in net unrealized appreciation (depreciation) of swaps." Income received or paid by the Fund is recognized as a component of "Net realized gain (loss) from swaps" on the Statement of Operations, in addition to the net realized gains or losses recognized upon the termination of a swap contract and are equal to the difference between the Fund's basis in the swap contract and the proceeds from (or cost of) the closing transaction. Payments received or made at the beginning of the measurement period are recognized as a component of "Interest rate swap premiums paid and/or received" on the Statement of Assets and Liabilities, when applicable. For tax purposes, periodic payments are treated as ordinary income or expense.

During the six months ended June 30, 2014, the Fund continued to use interest rate swap contracts to partially fix its interest cost of leverage, which the Fund employs through the use of bank borrowings.

The average notional amount of interest rate swap contracts outstanding during the six months ended June 30, 2014, was as follows:

Average notional amount of interest rate swap contracts outstanding*	\$99,158,667
--	--------------

* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

The following table presents the fair value of all interest rate swap contracts held by the Fund as of June 30, 2014, the location of these instruments on the Statement of Assets and Liabilities and the primary underlying risk exposure.

Underlying Risk Exposure	Derivative Instrument	Location on the Statements of Assets and Liabilities			
		Asset Derivatives		(Liability) Derivatives	
		Location	Value	Location	Value
Interest rate	Swaps	Unrealized appreciation on interest rate swaps	\$1,263,124	Unrealized depreciation on interest rate swaps	\$(698,748)
			Nuveen Investments		
			31		

Notes to Financial Statements (Unaudited) (continued)

The following table presents the swap contracts subject to netting agreements and the collateral delivered related to those swap contracts as of June 30, 2014.

	Gross Unrealized Appreciation on Interest Rate Swaps*	Gross Unrealized (Depreciation) on Interest Rate Swaps*	Amounts Netted on Statement of Assets and Liabilities	Net Unrealized Appreciation (Depreciation) on Interest Rate Swaps	Collateral Pledged to (from) Counterparty	Net Exposure
JPMorgan	\$ 1,263,124	\$	\$	\$ 1,263,124	\$(1,263,124)	\$
Morgan Stanley		(698,748)		(698,748)	698,748	
Total	\$ 1,263,124	\$ (698,748)	\$	\$ 564,376	\$ (564,376)	\$

* Represents gross unrealized appreciation (depreciation) for the counterparty as reported in the Fund's Portfolio of Investments.

The following table presents the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized on swap contracts on the Statement of Operations during the six months ended June 30, 2014, and the primary underlying risk exposure.

Underlying Risk Exposure	Derivative Instrument	Net Realized Gain (Loss) from Swaps	Change in Net Unrealized Appreciation (Depreciation) of Swaps
Interest rate	Swaps	\$ (291,312)	\$ (1,725,964)

Market and Counterparty Credit Risk

In the normal course of business the Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose the Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of the Fund's exposure to counterparty credit risk in respect to these financial assets approximates its carrying value as recorded on the Statement of Assets and Liabilities.

The Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of the Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when the Fund has an unrealized loss, the Fund has instructed the custodian to pledge assets of the Fund as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

4. Fund Shares*Common Shares*

Since the inception of the Fund's repurchase program, the Fund has not repurchased any of its outstanding common shares.

Transactions in common shares were as follows:

	Six Months Ended 6/30/14	Year Ended 12/31/13
Common shares:		
Sold through shelf offering	29,500	
Issued to shareholders due to reinvestment of distributions	45,371	101,564
Total	74,871	101,564
Weighted average common share:		
Premium to NAV per shelf offering share sold	1.47%	%

5. Investment Transactions

Long-term purchases and sales (including maturities but excluding derivative transactions) during the six months ended June 30, 2014, aggregated \$138,833,223 and \$151,102,045, respectively.

6. Income Tax Information

The Fund intends to distribute substantially all of its investment company taxable income to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. In any year when the Fund realizes net capital gains, the Fund may choose to distribute all or a portion of its net capital gains to shareholders, or alternatively, to retain all or a portion of its net capital gains and pay federal corporate income taxes on such retained gains.

For all open tax years and all major taxing jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Fund is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the NAV of the Fund.

As of June 30, 2014, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives), as determined on a federal income tax basis, were as follows:

Cost of investments	\$381,719,592
Gross unrealized:	
Appreciation	\$ 89,701,436
Depreciation	(6,003,110)
Net unrealized appreciation (depreciation) of investments	\$ 83,698,326

Permanent differences, primarily due to tax basis earnings and profits adjustments and treatment of notional principal contracts, resulted in reclassifications among the Fund's components of common share net assets as of December 31, 2013, the Fund's last tax year end, as follows:

Paid-in surplus	\$(18,156,946)
Undistributed (Over-distribution of) net investment income	17,463,840
Accumulated net realized gain (loss)	693,106

The tax components of undistributed net ordinary income and net long-term capital gains as of December 31, 2013, the Fund's last tax year end, were as follows:

Undistributed net ordinary income	\$
Undistributed net long-term capital gains	

The tax character of distributions paid during the Fund's last tax year ended December 31, 2013, was designated for purposes of the dividends paid deduction as follows:

Distributions from net ordinary income ¹	\$27,195,724
Distributions from net long-term capital gains	

¹ Net ordinary income consists of net taxable income derived from dividends and interest, and current year earnings and profits attributable to realized gains.

As of December 31, 2013, the Fund's last tax year end, the Fund had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows as shown in the following table. The losses not subject to expiration will be utilized first by the Fund.

Expiration: December 31, 2017	\$141,222,053
-------------------------------	---------------

During the Fund's last tax year ended December 31, 2013, the Fund utilized \$23,897,408 of its capital loss carryforwards.

The Fund has elected to defer late-year losses in accordance with federal income tax rules. These losses are treated as having arisen on the first day of the current fiscal year. The Fund has elected to defer losses as follows:

Post-October capital losses ²	\$ 464,724
Late-year ordinary losses ³	

² Capital losses incurred from November 1, 2013 through December 31, 2013, the Fund's last tax year end.

³ Specified losses incurred from November 1, 2013 through December 31, 2013.

Notes to Financial Statements (Unaudited) (continued)**7. Management Fees and Other Transactions with Affiliates**

The Fund's management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. Security Capital is compensated for its services to the Fund from the management fees paid to the Adviser.

The Fund's management fee consists of two components a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within the Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, is calculated according to the following schedule:

Average Daily Managed Assets*	Fund-Level Fee Rate
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For managed assets over \$2 billion	.6000

The annual complex-level fee, payable monthly, is calculated according to the following schedule:

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to certain types of leverage. For these purposes, leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen funds or assets in excess of \$2 billion added to the Nuveen fund complex in connection with the Adviser's assumption of the management of the former

First American Funds effective January 1, 2011. As of June 30, 2014, the complex-level fee rate for the Fund was .1653%.

The Fund pays no compensation directly to those of its trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent trustees that enables trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

8. Borrowing Arrangements

Borrowings

The Fund has entered into a \$140 million (maximum commitment amount) prime brokerage facility ("Borrowings") with BNP Paribas Prime Brokerage, Inc. ("BNP") as a means of leverage. As of June 30, 2014, the outstanding balance on these Borrowings was \$133.5 million. During the six months ended June 30, 2014, the average daily balance outstanding and interest rate on these Borrowings were \$123.9 million and 1.00%, respectively.

In order to maintain these Borrowings, the Fund must meet certain collateral, asset coverage and other requirements. Borrowings outstanding are fully secured by securities held in the Fund's portfolio of investments ("Pledged Collateral"). Interest is charged on these Borrowings at 1-Month LIBOR (London Inter-Bank Offered Rate) plus .85% per annum on the amount borrowed and .50% per annum on the undrawn balance.

Borrowings outstanding are recognized as "Borrowings" on the Statement of Assets and Liabilities. Interest expense incurred on the borrowed amount and undrawn balance are recognized as a component of "Interest expense on borrowings" on the Statement of Operations.

Rehypothecation

The Adviser has entered into a Rehypothecation Side Letter ("Side Letter") with BNP, allowing BNP to re-register the Pledged Collateral in its own name or in a name other than the Fund's to pledge, repledge, hypothecate, rehypothecate, sell, lend or otherwise transfer or use the Pledged Collateral (the "Hypothecated Securities") with all rights of ownership as described in the Side Letter. Subject to certain conditions, the total value of the outstanding

Hypothecated Securities shall not exceed the lesser of (i) 98% of the outstanding balance on the Borrowings to which the Pledged Collateral relates and (ii) 33 1/3% of the Fund's total assets. The Fund may designate any Pledged Collateral as ineligible for rehypothecation. The Fund may also recall Hypothecated Securities on demand.

The Fund also has the right to apply and set-off an amount equal to one-hundred percent (100%) of the then-current fair market value of such Pledged Collateral against the current Borrowings under the Side Letter in the event that BNP fails to timely return the Pledged Collateral and in certain other circumstances. In such circumstances, however, the Fund may not be able to obtain replacement financing required to purchase replacement securities and, consequently, the Fund's income generating potential may decrease. Even if the Fund is able to obtain replacement financing, it might not be able to purchase replacement securities at favorable prices.

The Fund will receive a fee in connection with the Hypothecated Securities ("Rehypothecation Fees") in addition to any principal, interest, dividends and other distributions paid on the Hypothecated Securities.

As of June 30, 2014, the Fund had Hypothecated Securities totalling \$985,600. During the six months ended June 30, 2014, the Fund earned Rehypothecation Fees of \$94,460, which is recognized as "Other income" on the Statement of Operations.

9. New Accounting Pronouncement

Financial Accounting Standards Board ("FASB") Financial Services Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements

During 2013, the FASB issued Accounting Standards Update ("ASU") 2013-08, "Financial Services Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements," which amends the criteria that define an investment company and clarifies the measurement guidance and requires new disclosures for investment companies. ASU 2013-08 is effective for fiscal years beginning on or after December 15, 2013. Management has evaluated the implications of ASU 2013-08 and determined that the Fund's current disclosures already followed this guidance and therefore it does not have an impact on the Fund's financial statements or footnote disclosures.

10. Subsequent Events

As previously described in Note 1 General Information and Significant Accounting Policies, Agreement and Plan of Merger, the new investment management agreements and the new sub-advisory agreements have been approved by shareholders of the Fund.

The transaction is currently expected to close early in the fourth quarter of 2014, but remains subject to customary closing conditions.

* The Board of Trustees of the Fund, upon recommendation of the Audit Committee, engaged KPMG LLP as the Fund's independent registered public accounting firm as of August 7, 2014. On August 11, 2014, Ernst & Young LLP ("Ernst & Young") resigned as the independent registered public accounting firm of the Fund.

Ernst & Young's report on the Fund's financial statements for the period ended December 31, 2013, contained no adverse opinion or disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope or accounting principles. For the period ended December 31, 2013, there were no disagreements with Ernst & Young on any matter of accounting principles, financial statement disclosure or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Ernst & Young, would have caused it to make reference to the subject matter of the disagreements in connection with its report on the Fund's financial statements.

Quarterly Form N-Q Portfolio of Investments Information

The Fund is required to file its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. You may obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC toll-free at (800) SEC -0330 for room hours and operation.

Nuveen Funds' Proxy Voting Information

You may obtain (i) information regarding how each fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com and (ii) a description of the policies and procedures that each fund used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll free at (800) 257-8787. You may also obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov>.

CEO Certification Disclosure

The Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

The Fund has filed with the SEC the certification of its CEO and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Common Share Information

The Fund intends to repurchase shares of its own common stock at such times and in such amounts as is deemed advisable. During the period covered by this report, the Fund repurchased shares of its common stock as shown in the accompanying table.

JRS

Common Shares Repurchased

Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

FINRA BrokerCheck

The Financial Industry Regulatory Authority (FINRA) provides information regarding the disciplinary history of FINRA member firms and associated investment professionals. This information as well as an investor brochure describing FINRA BrokerCheck is available to the public by calling the FINRA BrokerCheck Hotline number at (800) 289-9999 or by visiting www.FINRA.org.

Glossary of Terms

Used in this Report

- n **Average Annual Total Return:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- n **Blended Benchmark:** A blended return comprised of: 1) 60% Wilshire U.S. Real Estate Securities Index (RESI). The Wilshire U.S. Real Estate Securities Index measures the performance of publicly traded real estate investment trusts (REITs) 2) 40% Wells Fargo Hybrid and Preferred Securities REIT Index (inception date 5/31/2007). The Wells Fargo Hybrid and Preferred Securities REIT Index is designed to track the performance of preferred securities issued in the U.S. market by real estate investment trusts (REITs). The index is composed exclusively of preferred shares and depositary shares. Index returns assume reinvestment of distributions, but do not include the effects of any applicable sales charges or management fees.
- n **Dow Jones Industrial Average:** A price-weighted index of the 30 largest, most widely held stocks traded on the New York Stock Exchange. The index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.
- n **Effective Leverage:** Effective leverage is a fund's effective economic leverage, and includes both regulatory leverage (see below) and the leverage effects of certain derivative investments in the fund's portfolio.
- n **Gross Domestic Product (GDP):** The total market value of all final goods and services produced in a country/region in a given year, equal to total consumer, investment and government spending, plus the value of exports, minus the value of imports.
- n **Leverage:** Leverage is created whenever a fund has investment exposure (both reward and/or risk) equivalent to more than 100% of the investment capital.
- n **Net Asset Value (NAV) Per Share:** A fund's Net Assets is equal to its total assets (securities, cash, accrued earnings and receivables) less its total liabilities. NAV per share is equal to the fund's Net Assets divided by its number of shares outstanding.
- n **Regulatory Leverage:** Regulatory leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a fund's capital structure. Regulatory leverage is subject to asset coverage limits set in the Investment Company Act of 1940.
- n **Russell 2000® Index:** An index that measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000® Index is a subset of the Russell 3000® Index representing approximately 10% of the total market capitalization of that index. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership. The index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

n **S&P 500® Index:** An unmanaged index generally considered representative of the U.S. stock market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

n **Wilshire U.S. Real Estate Securities Index (RESI):** A float-adjusted market capitalization index that is reviewed quarterly. This index is designed to measure the performance of publicly traded real estate investment trusts and to serve as a proxy for direct real estate investments. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

Nuveen Investments

37

Reinvest Automatically,

Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each quarter you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to

another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Annual Investment

Management Agreement Approval Process (Unaudited)

I. The Approval Process

The Board of Trustees of the Fund (the "*Board*" and each Trustee, a "*Board Member*"), including the Board Members who are not parties to the Fund's advisory or sub-advisory agreement or "interested persons" of any such parties (the "*Independent Board Members*"), is responsible for overseeing the performance of the investment adviser and the sub-adviser to the Fund and determining whether to approve or continue the Fund's advisory agreement (the "*Original Investment Management Agreement*") between the Fund and Nuveen Fund Advisors, LLC (the "*Adviser*") and sub-advisory agreement (the "*Original Sub-Advisory Agreement*" and, together with the Original Investment Management Agreement, the "*Original Advisory Agreements*") between the Adviser and Security Capital Research & Management Incorporated (the "*Sub-Adviser*"). Pursuant to the Investment Company Act of 1940, as amended (the "*1940 Act*"), the Board is required to consider the continuation of the respective Original Advisory Agreements on an annual basis. In addition, prior to its annual review, the Board Members were advised of the potential acquisition of Nuveen Investments, Inc. ("*Nuveen*") by TIAA-CREF (the "*Transaction*"). For purposes of this section, references to "Nuveen" herein include all affiliates of Nuveen Investments, Inc. providing advisory, sub-advisory, distribution or other services to the Nuveen funds. In accordance with the 1940 Act and the terms of the Original Advisory Agreements, the completion of the Transaction would terminate the Original Investment Management Agreement and the Original Sub-Advisory Agreement. Accordingly, at an in-person meeting held on April 30, 2014 (the "*April Meeting*"), the Board, including all of the Independent Board Members, performed its annual review of the Original Advisory Agreements and approved the continuation of the Original Advisory Agreements for the Fund. Furthermore, in anticipation of the termination of the Original Advisory Agreements that would occur upon the consummation of the Transaction, the Board also approved a new advisory agreement (the "*New Investment Management Agreement*") between the Fund and the Adviser and a new sub-advisory agreement (the "*New Sub-Advisory Agreement*" and, together with the New Investment Management Agreement, the "*New Advisory Agreements*") between the Adviser and the Sub-Adviser, each on behalf of the Fund to be effective following the completion of the Transaction and the receipt of the requisite shareholder approval.

Leading up to the April Meeting, the Independent Board Members had several meetings and deliberations, with and without management from Nuveen present and with the advice of legal counsel, regarding the Original Advisory Agreements, the Transaction and its impact and the New Advisory Agreements. At its meeting held on February 25-27, 2014 (the "*February Meeting*"), the Board Members met with a senior executive representative of TIAA-CREF to discuss the proposed Transaction. At the February Meeting, the Independent Board Members also established an ad hoc committee comprised solely of the Independent Board Members to monitor and evaluate the Transaction and to keep the Independent Board Members updated with developments regarding the Transaction. On March 20, 2014, the ad hoc committee met telephonically to discuss with management of Nuveen, and separately with independent legal counsel, the terms of the proposed Transaction and its impact on, among other things: the governance structure of Nuveen; the strategic plans for Nuveen; the operations of the Nuveen funds (which include the Fund); the quality or level of services provided to the Nuveen funds; key personnel that service the Nuveen funds and/or the Board and the compensation or incentive arrangements to retain such personnel; Nuveen's capital structure; the regulatory requirements applicable to Nuveen or fund operations; and the Nuveen funds' fees and expenses, including the funds' complex-wide fee arrangement. Following the meeting of the ad hoc committee, the Board met in person (two Independent Board Members participating telephonically) in an executive session on March 26, 2014 to further discuss the proposed Transaction. At the executive session, the Board met privately with independent legal counsel to review its duties with respect to

reviewing advisory agreements, particularly in the context of a change of control, and to evaluate further the Transaction and its impact on the Nuveen funds, the Adviser and the Sub-Adviser (collectively, the "*Fund*

Nuveen Investments

39

Annual Investment Management Agreement Approval Process (Unaudited) (continued)

Advisers" and each, a *"Fund Adviser"*) and the services provided. Representatives of Nuveen also met with the Board to update the Board Members on developments regarding the Transaction, to respond to questions and to discuss, among other things: the governance of the Adviser and the affiliated sub-advisers following the Transaction; the background, culture (including with respect to regulatory and compliance matters) and resources of TIAA-CREF; the general plans and intentions of TIAA-CREF for Nuveen; the terms and conditions of the Transaction (including financing terms); any benefits or detriments the Transaction may impose on the Nuveen funds, TIAA-CREF or the Fund Advisers; the reaction from the employees of the Adviser and the affiliated sub-advisers knowledgeable of the Transaction; the incentive and retention plans for key personnel of the Adviser and the affiliated sub-advisers; the potential access to additional distribution platforms and economies of scale; and the impact of any additional regulatory schemes that may be applicable to the Nuveen funds given the banking and insurance businesses operated in the TIAA-CREF enterprise. As part of its review, the Board also held a separate meeting on April 15-16, 2014 to review the Nuveen funds' investment performance and consider an analysis provided by the Adviser of each sub-adviser of the Nuveen funds (including the Sub-Adviser) and the Transaction and its implications to the Nuveen funds. During their review of the materials and discussions, the Independent Board Members presented the Adviser with questions and the Adviser responded. Further, the Independent Board Members met in an executive session with independent legal counsel on April 29, 2014 and April 30, 2014.

In connection with their review of the Original Advisory Agreements and the New Advisory Agreements, the Independent Board Members received extensive information regarding the Fund and the Fund Advisers including, among other things: the nature, extent and quality of services provided by each Fund Adviser; the organization and operations of any Fund Adviser; the expertise and background of relevant personnel of each Fund Adviser; a review of the Fund's performance (including performance comparisons against the performance of its peer group and appropriate benchmarks); a comparison of Fund fees and expenses relative to peers; a description and assessment of shareholder service levels for the Fund; a summary of the performance of certain service providers; a review of fund initiatives and shareholder communications; and an analysis of the Adviser's profitability with comparisons to peers in the managed fund business. In light of the proposed Transaction, the Independent Board Members, through their independent legal counsel, also requested in writing and received additional information regarding the proposed Transaction and its impact on the provision of services by the Fund Advisers.

The Independent Board Members received, well in advance of the April Meeting, materials which responded to the request for information regarding the Transaction and its impact on Nuveen and the Nuveen funds including, among other things: the structure and terms of the Transaction; the impact of the Transaction on Nuveen, its operations and the nature, quality and level of services provided to the Nuveen funds, including, in particular, any changes to those services that the Nuveen funds may experience following the Transaction; the strategic plan for Nuveen, including any financing arrangements following the Transaction and any cost-cutting efforts that may impact services; the organizational structure of TIAA-CREF, including the governance structure of Nuveen following the Transaction; any anticipated effect on each Nuveen fund's expense ratios (including changes to advisory and sub-advisory fees) and economies of scale that may be expected; any benefits or conflicts of interest that TIAA-CREF, Nuveen or their affiliates can expect from the Transaction; any benefits or undue burdens or other negative implications that may be imposed on the Nuveen funds as a result of the Transaction; the impact on Nuveen or the Nuveen funds as a result of being subject to additional regulatory schemes that TIAA-CREF must comply with in operating its various businesses; and the costs associated with obtaining necessary shareholder approvals and the bearer of such costs. The Independent Board Members also received a memorandum describing the applicable laws, regulations and duties in approving advisory contracts,

including in conjunction with a change of control, from their independent legal counsel.

The materials and information prepared in connection with the review of the Original Advisory Agreements and New Advisory Agreements supplemented the information and analysis provided to the Board during the year. In this regard, throughout the year, the Board, acting directly or through its committees, regularly reviewed the performance and various services provided by

Nuveen Investments

40

the Adviser and Sub-Adviser. The Board met at least quarterly as well as at other times as the need arose. At its quarterly meetings, the Board reviewed reports by the Adviser regarding, among other things, fund performance, fund expenses, premium and discount levels of closed-end funds, the performance of the investment teams and compliance, regulatory and risk management matters. In addition to regular reports, the Adviser provided special reports to the Board or a committee thereof from time to time to enhance the Board's understanding of various topics that impact some or all the Nuveen funds (such as distribution channels, oversight of omnibus accounts and leverage management topics), to update the Board on regulatory developments impacting the investment company industry or to update the Board on the business plans or other matters impacting the Adviser. The Board also met with key investment personnel managing certain Nuveen fund portfolios during the year.

In addition, the Board has created several standing committees (the Executive Committee; the Dividend Committee; the Audit Committee; the Compliance, Risk Management and Regulatory Oversight Committee; the Nominating and Governance Committee; the Open-End Funds Committee; and the Closed-End Funds Committee). The Open-End Funds Committee and Closed-End Funds Committee are intended to assist the full Board in monitoring and gaining a deeper insight into the distinctive business practices of closed-end and open-end funds. These two Committees have met prior to each quarterly Board meeting, and the Adviser provided presentations to these Committees permitting them to delve further into specific matters or initiatives impacting the respective product line.

Further, the Board continued its program of seeking to have the Board Members or a subset thereof visit each sub-adviser to the Nuveen funds and meet key investment and business personnel at least once over a multiple year rotation.

The Board considered the information provided and knowledge gained at these meetings and visits during the year when performing its annual review of the Original Advisory Agreements and its review of the New Advisory Agreements. The Independent Board Members also were assisted throughout the process by independent legal counsel. During the course of the year and during their deliberations regarding the review of advisory contracts, the Independent Board Members met with independent legal counsel in executive sessions without management present. In addition, it is important to recognize that the management arrangements for the funds are the result of many years of review and discussion between the Independent Board Members and Nuveen fund management and that the Board Members' conclusions may be based, in part, on their consideration of fee arrangements and other factors developed in previous years.

The Board considered all factors it believed relevant with respect to the Fund, including, among other things: (a) the nature, extent and quality of the services provided by the Fund Advisers, (b) the investment performance of the Fund and the Fund Advisers, (c) the advisory fees and costs of the services to be provided to the Fund and the profitability of the Fund Advisers, (d) the extent of any economies of scale, (e) any benefits derived by the Fund Advisers from the relationship with the Fund and (f) other factors. With respect to the New Advisory Agreements, the Board also considered the Transaction and its impact on the foregoing factors. Each Board Member may have accorded different weight to the various factors in reaching his or her conclusions with respect to the Original Advisory Agreements and New Advisory Agreements. The Independent Board Members did not identify any single factor as all-important or controlling. The Independent Board Members' considerations were instead based on a comprehensive consideration of all the information presented. The principal factors considered by the Board and its conclusions are described below.

A. Nature, Extent and Quality of Services

1. The Original Advisory Agreements

In considering renewal of each Original Advisory Agreement, the Independent Board Members considered the nature, extent and quality of the respective Fund Adviser's services, including portfolio management services (and the resulting Fund performance) and administrative services. The Independent Board Members further considered the overall reputation and

Nuveen Investments

41

Annual Investment Management Agreement Approval Process (Unaudited) (continued)

capabilities of the Adviser and its affiliates, the commitment of the Adviser to provide high quality service to the Fund, their overall confidence in the capability and integrity of the Adviser and its staff and the Adviser's responsiveness to questions and concerns raised by them. The Independent Board Members reviewed materials outlining, among other things: each Fund Adviser's organization and business; the types of services that each Fund Adviser or its affiliates provide to the Fund; the performance record of the Fund (as described in further detail below); and any initiatives Nuveen had taken for the closed-end fund product line.

In considering the services provided by the Fund Advisers, the Board recognized that the Adviser provides a myriad of investment management, administrative, compliance, oversight and other services for the Fund, and the Sub-Adviser generally provides the portfolio advisory services to the Fund under the oversight of the Adviser. The Board considered the wide range of services provided by the Adviser to the Nuveen funds beginning with developing the fund and monitoring and analyzing its performance to providing or overseeing the services necessary to support a fund's daily operations. The Board recognized the Adviser, among other things, provides: (a) product management (such as analyzing ways to better position a fund in the marketplace, maintaining relationships to gain access to distribution platforms and setting dividends); (b) fund administration (such as preparing a fund's tax returns, regulatory filings and shareholder communications; managing fund budgets and expenses; overseeing a fund's various service providers; and supporting and analyzing new and existing funds); (c) Board administration (such as supporting the Board and its committees, in relevant part, by organizing and administering the Board and committee meetings and preparing the necessary reports to assist the Board in its duties); (d) compliance (such as monitoring adherence to a fund's investment policies and procedures and applicable law; reviewing the compliance program periodically and developing new policies or updating existing compliance policies and procedures as considered necessary or appropriate; responding to regulatory requests; and overseeing compliance testing of sub-advisers); (e) legal support (such as preparing or reviewing fund registration statements, proxy statements and other necessary materials; interpreting regulatory requirements and compliance thereof; and maintaining applicable registrations); and (f) investment services (such as overseeing and reviewing sub-advisers and their investment teams; analyzing performance of the funds; overseeing investment and risk management; overseeing the daily valuation process for portfolio securities and developing and recommending valuation policies and methodologies and changes thereto; and participating in fund development, leverage management and the development of investment policies and parameters). With respect to closed-end funds, the Adviser also monitors asset coverage levels on leveraged funds, manages leverage, negotiates the terms of leverage, evaluates alternative forms and types of leverage, promotes an orderly secondary market for common shares and maintains an asset maintenance system for compliance with certain rating agency criteria.

In its review, the Board also considered the new services, initiatives or other changes adopted since the last advisory contract review that were designed to enhance the services and support the Adviser provides to the Nuveen funds. The Board recognized that some initiatives are a multi-year process. In reviewing the activities of 2013, the Board recognized that the year reflected the Adviser's continued focus on fund rationalization for both closed-end and open-end funds, consolidating certain funds through mergers that were designed to improve efficiencies and economies of scale for shareholders, repositioning various funds through updates in their investment policies and guidelines with the expectation of bringing greater value to shareholders, and liquidating certain funds. As in the past, the Board recognized the Adviser's significant investment in its technology initiatives, including the continued progress toward a central repository for fund and other Nuveen product data and implementing a data system to support the risk oversight group enabling it to provide more detailed risk analysis for the Nuveen funds. The Board noted the new data system has permitted more in-depth analysis of the investment risks of the Fund and across the complex

providing additional feedback and insights to the investment teams and more comprehensive risk reporting to the Board. The Adviser also conducted several workshops for the Board regarding the new data system, including

Nuveen Investments

42

explaining the risk measures being applied and their purpose. The Board also recognized the enhancements in the valuation group within the Adviser, including centralizing the fund pricing process within the valuation group, trending to more automated and expedient reviews and continuing to expand its valuation team. The Board further considered the expansion of personnel in the compliance department enhancing the collective expertise of the group, investments in additional compliance systems and the updates of various compliance policies.

In addition to the foregoing actions, the Board also considered other initiatives related to the closed-end funds, including the continued investment of considerable resources and personnel dedicated to managing and overseeing the various forms of leverage utilized by certain funds. The Board recognized the results of these efforts included the development of less expensive forms of leverage, expansion of leverage providers, the negotiation of more favorable terms for existing leverage, the enhanced ability to respond to market and regulatory developments and the enhancements to technology systems to manage and track the various forms of leverage. The Board also noted Nuveen's continued capital management services, including executing share repurchase programs, its implementation of data systems that permit more targeted solicitation strategies for fund mergers and more targeted marketing and promotional efforts and its continued focus and efforts to address the discounts of various funds. The Board further noted Nuveen's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a comprehensive communication program designed to further educate the investor and analyst about closed-end funds. Nuveen's support services included, among other things, maintaining and enhancing a closed-end fund website, creating marketing campaigns and educational materials, communicating with financial advisers, sponsoring and participating in conferences, providing educational seminars and programs and evaluating the results of these marketing efforts.

As noted, the Adviser also oversees the Sub-Adviser who provides the portfolio advisory services to the Fund. In reviewing the portfolio advisory services provided to the Fund, the Nuveen Investment Services Oversight Team of the Adviser analyzes the performance of the Sub-Adviser and may recommend changes to the investment team or investment strategies as appropriate. In assisting the Board's review of the Sub-Adviser, the Adviser provides a report analyzing, among other things, the Sub-Adviser's investment team and changes thereto, organization and history, assets under management, the investment team's philosophy and strategies in managing the Fund, developments affecting the Sub-Adviser or the Fund and their performance. In their review of the Sub-Adviser, the Independent Board Members considered, among other things, the experience and qualifications of the relevant investment personnel, their investment philosophy and strategies, the Sub-Adviser's organization and stability, its capabilities and any initiatives taken or planned to enhance its current capabilities or support potential growth of business and, as outlined in further detail below, the performance of the Fund. The Independent Board Members also reviewed portfolio manager compensation arrangements to evaluate each Fund Adviser's ability to attract and retain high quality investment personnel, preserve stability, and reward performance while not providing an inappropriate incentive to take undue risks.

Given the importance of compliance, the Independent Board Members also considered Nuveen's compliance program, including the report of the chief compliance officer regarding the Nuveen funds' compliance policies and procedures; the resources dedicated to compliance; the record of compliance with the policies and procedures; and Nuveen's supervision of the Fund's service providers. The Board recognized Nuveen's commitment to compliance and strong commitment to a culture of compliance. Given the Adviser's emphasis on monitoring investment risk, the Board has also appointed two Independent Board Members as point persons to review and keep the Board apprised of developments in this area and work with applicable Fund Adviser personnel.

Based on their review, the Independent Board Members found that, overall, the nature, extent and quality of services provided to the Fund under each respective Original Advisory Agreement were satisfactory.

Nuveen Investments

43

Annual Investment Management Agreement Approval Process (Unaudited) (continued)

2. The New Advisory Agreements

In evaluating the nature, quality and extent of the services expected to be provided by the Fund Advisers under the New Investment Management Agreement and the New Sub-Advisory Agreement, the Board Members concluded that no diminution in the nature, quality and extent of services provided to the Fund and its shareholders by the respective Fund Advisers is expected as a result of the Transaction. In making their determination, the Independent Board Members considered, among other things: the expected impact, if any, of the Transaction on the operations, facilities, organization and personnel of each Fund Adviser; the ability of each Fund Adviser to perform its duties after the Transaction, including any changes to the level or quality of services provided to the Fund; the potential implications of any additional regulatory requirements imposed on the Fund Advisers or the Nuveen funds following the Transaction; and any anticipated changes to the investment and other practices of the Nuveen funds.

The Board noted that the terms of the New Investment Management Agreement, including the fees payable thereunder, are substantially identical to those of the Original Investment Management Agreement. Similarly, the terms of the New Sub-Advisory Agreement, including fees payable thereunder, are substantially identical to those of the Original Sub-Advisory Agreement. The Board considered that the services to be provided and the standard of care under the New Investment Management Agreement and the New Sub-Advisory Agreement are the same as the corresponding original agreements. The Board Members noted the Transaction also does not alter the allocation of responsibilities between the Adviser and the Sub-Adviser. The Sub-Adviser will continue to furnish an investment program, make investment decisions and place all orders for the purchase and sale of securities, all on behalf of the Fund and subject to oversight of the Board and the Adviser. The Board noted that TIAA-CREF did not anticipate any material changes to the advisory, sub-advisory or other services provided to the Nuveen funds as a result of the Transaction. The Independent Board Members recognized that there were not any planned "cost cutting" measures that could be expected to reduce the nature, extent or quality of services. The Independent Board Members further noted that there were currently no plans for material changes to senior personnel at Nuveen or key personnel who provide services to the Nuveen funds and the Board following the Transaction. The key personnel who have responsibility for the Nuveen funds in each area, including portfolio management, investment oversight, fund management, fund operations, product management, legal/compliance and board support functions, are expected to be the same following the Transaction, although such personnel may have additional reporting requirements to TIAA-CREF. The Board also considered the anticipated incentive plans designed to retain such key personnel. Notwithstanding the foregoing, the Board Members recognized that personnel changes may occur in the future as a result of normal business developments or personal career decisions.

The Board Members also considered Nuveen's proposed governance structure following the Transaction and noted that Nuveen was expected to remain a stand-alone business within the TIAA-CREF enterprise and operate relatively autonomously from the other TIAA-CREF businesses, but would receive the general support and oversight from certain TIAA-CREF functional groups (such as legal, finance, internal audit, compliance, and risk management groups). The Board recognized, however, that Nuveen may be subject to additional reporting requirements as it keeps TIAA-CREF abreast of developments affecting the Nuveen business, may be required to modify certain of its reports, policies and procedures as necessary to conform to the practices followed in the TIAA-CREF enterprise and may need to collaborate with TIAA-CREF with respect to strategic planning for its business.

In considering the implications of the Transaction, the Board Members also recognized the reputation and size of TIAA-CREF and the benefits that the Transaction may bring to the Nuveen funds and Nuveen. In

this regard, the Board recognized, among other things, that the increased resources and support that may be available to Nuveen from TIAA-CREF and the improved capital structure of Nuveen Investments, Inc. (the parent of the Adviser) that would result from the significant reduction in its debt level may reinforce and enhance Nuveen's ability to provide quality services to the Nuveen funds and to invest further into its infrastructure.

Nuveen Investments

44

Further, with the consummation of the Transaction, the Board recognized the enhanced distribution capabilities for the Nuveen funds as the funds may gain access to TIAA-CREF's distribution network, particularly through TIAA-CREF's retirement platform and institutional client base. The Board also considered that investors in TIAA-CREF's retirement platform may choose to roll their investments as they exit their retirement plans into the Nuveen funds. The Independent Board Members recognized the potential cost savings to the benefit of all shareholders of the Nuveen funds from reduced expenses as assets in the Nuveen fund complex rise pursuant to the complex-wide fee arrangement described in further detail below.

Based on their review, the Independent Board Members found that the expected nature, extent and quality of services to be provided to the Fund under its New Advisory Agreements were satisfactory and supported approval of the New Advisory Agreements.

B. The Investment Performance of the Fund and Fund Advisers

1. The Original Advisory Agreements

The Board, including the Independent Board Members, considered the performance history of the Fund over various time periods. The Board reviewed reports, including an analysis of the Fund's performance and its investment team. In considering the Fund's performance, the Board recognized that a fund's performance can be reviewed through various measures including the fund's absolute return, the fund's return compared to the performance of other peer funds and the fund's performance compared to its benchmark. Accordingly, the Board reviewed, among other things, the Fund's historic investment performance as well as information comparing the Fund's performance information with that of other funds (the "*Performance Peer Group*") and with recognized and/or customized benchmarks (*i.e.*, generally benchmarks derived from multiple recognized benchmarks) for the quarter, one-, three- and five-year periods ending December 31, 2013, as well as performance information reflecting the first quarter of 2014. With respect to closed-end funds, the Independent Board Members also reviewed historic premium and discount levels, including a summary of actions taken to address or discuss other developments affecting the secondary market discounts of various funds. This information supplemented the Nuveen fund performance information provided to the Board at each of its quarterly meetings.

In evaluating performance, the Board recognized several factors that may impact the performance data as well as the consideration given to particular performance data.

- The performance data reflects a snapshot in time, in this case as of the end of the most recent calendar year or quarter. A different performance period, however, could generate significantly different results.
- Long-term performance can be adversely affected by even one period of significant underperformance so that a single investment decision or theme has the ability to disproportionately affect long-term performance.
- The investment experience of a particular shareholder in a fund will vary depending on when such shareholder invests in such fund, the class held (if multiple classes offered in the fund) and the performance of the fund (or respective class) during that shareholder's investment period.
- The usefulness of comparative performance data as a frame of reference to measure a fund's performance may be limited because the Performance Peer Group, among other things, does not adequately reflect the objectives and strategies of the fund, has a different investable universe, or the composition of the peer set may be limited in size or number as well as other factors. In this regard, the

Board noted that the Adviser classified the Performance Peer Groups of the Nuveen funds from highly relevant to less relevant. For funds classified with less relevant Performance Peer Groups, the Board considered a fund's performance compared to its benchmark to help assess the fund's comparative performance. A fund was generally considered to have performed comparably to its benchmark if the fund's performance was within certain thresholds compared to the performance of its benchmark and was considered to have outperformed or underperformed its benchmark

Nuveen Investments

45

Annual Investment Management Agreement Approval Process (Unaudited) (continued)

if the fund's performance was beyond these thresholds for the one- and three-year periods, subject to certain exceptions.¹ While the Board is cognizant of the relative performance of a fund's peer set and/or benchmark(s), the Board evaluated fund performance in light of the respective fund's investment objectives, investment parameters and guidelines and considered that the variations between the objectives and investment parameters or guidelines of the fund with its peers and/or benchmarks result in differences in performance results. Further, for funds that utilize leverage, the Board understands that leverage during different periods can provide both benefits and risks to a portfolio as compared to an unlevered benchmark.

With respect to any Nuveen funds for which the Board has identified performance concerns, the Board monitors such funds closely until performance improves, discusses with the Adviser the reasons for such results, considers those steps necessary or appropriate to address such issues and reviews the results of any efforts undertaken. The Board is aware, however, that shareholders chose to invest or remain invested in a fund knowing that the Adviser manages the fund and knowing the fund's fee structure.

In considering the performance data, the Independent Board Members noted that the Fund lagged its peers somewhat in the shorter periods, but demonstrated more favorable performance in the longer periods. In this regard, although it performed in the fourth quartile in the one-year period, the Fund performed in the second quartile for the three- and five-year periods.

Based on their review, the Independent Board Members determined that the Fund's investment performance had been satisfactory.

2. The New Advisory Agreements

With respect to the performance of the Fund, the Board considered that the portfolio investment personnel responsible for the management of the Fund's portfolio were expected to continue to manage the portfolio following the completion of the Transaction and the investment strategies of the Fund were not expected to change as a result of the Transaction (subject to changes unrelated to the Transaction that are approved by the Board and/or shareholders). Accordingly, the findings regarding performance outlined above for the Original Advisory Agreements are applicable to the review of the New Advisory Agreements.

C. Fees, Expenses and Profitability

1. Fees and Expenses

The Board evaluated the management fees and expenses of the Fund, reviewing, among other things, the Fund's gross management fees, net management fees and net expense ratios in absolute terms as well as compared to the fees and expenses of a comparable universe of funds provided by an independent fund data provider (the "*Peer Universe*") and any expense limitations.

The Independent Board Members further reviewed the methodology regarding the construction of the applicable Peer Universe. In reviewing the comparisons of fee and expense information, the Independent Board Members took into account that in certain instances various factors such as the limited size and particular composition of the Peer Universe (including the inclusion of other Nuveen funds in the peer set); expense anomalies; changes in the funds comprising the Peer Universe from year to year; levels of reimbursement or fee waivers; the timing of information used; and the differences in the type and use of leverage may impact the comparative data thereby limiting somewhat the ability to make a meaningful

comparison with peers.

In reviewing the fee schedule for a fund, the Independent Board Members also considered the fund-level and complex-wide breakpoint schedules (described in further detail below) and any fee waivers and reimbursements provided by Nuveen. In reviewing fees and expenses (excluding leverage costs and leveraged assets for the closed-end funds), the Board considered the

i The Board recognized that the Adviser considered a fund to have outperformed or underperformed its benchmark if the fund's performance was higher or lower than the performance of the benchmark by the following thresholds: for open-end funds (+/- 100 basis points for equity funds excluding index funds; +/- 30 basis points for tax exempt fixed income funds; +/- 40 basis points for taxable fixed income funds) and for closed-end funds (assuming 30% leverage) (+/- 130 basis points for equity funds excluding index funds; +/- 39 basis points for tax exempt funds and +/- 52 basis points for taxable fixed income funds).

Nuveen Investments

46

expenses and fees to be higher if they were over 10 basis points higher, slightly higher if they were approximately 6 to 10 basis points higher, in line if they were within approximately 5 basis points higher than the peer average and below if they were below the peer average of the Peer Universe. In reviewing the reports, the Board noted that the majority of the Nuveen funds were at, close to or below their peer average based on the net total expense ratio. The Independent Board Members noted that the Fund had a net management fee higher than the peer average, but a net expense ratio (including fee waivers and expense reimbursements) in line with the peer average.

Based on their review of the fee and expense information provided, the Independent Board Members determined that the Fund's management fees (as applicable) to a Fund Adviser were reasonable in light of the nature, extent and quality of services provided to the Fund.

2. Comparisons with the Fees of Other Clients

The Board recognized that all Nuveen funds have a sub-adviser, either affiliated or non-affiliated, and therefore the overall fund management fee can be divided into two components, the fee retained by the Adviser and the fee paid to the sub-adviser. In general terms, the fee to the Adviser reflects the administrative and other services it provides to support the Nuveen fund (as described above) and, while some administrative services may occur at the sub-adviser level, the fee to the sub-adviser generally reflects the portfolio management services provided by the sub-adviser. The Independent Board Members considered the fees the Adviser assesses to the Fund compared to that of other clients. With respect to non-municipal funds, such other clients of the Adviser and/or its affiliated sub-advisers may include: separately managed accounts (both retail and institutional accounts), hedge funds, foreign investment funds offered by Nuveen, collective trust funds and funds that are not offered by Nuveen but are sub-advised by one of Nuveen's investment management teams.

The Independent Board Members reviewed the nature of services provided by the Adviser, including through its affiliated sub-advisers and the average fee the affiliated sub-advisers assessed such clients as well as the range of fees assessed to the different types of separately managed accounts (such as retail, institutional or wrap accounts) to the extent applicable to the respective sub-adviser. In their review, the Independent Board Members considered the differences in the product types, including, but not limited to: the services provided, the structure and operations, product distribution and costs thereof, portfolio investment policies, investor profiles, account sizes and regulatory requirements. In evaluating the comparisons of fees, the Independent Board Members noted that the fee rates charged to the Nuveen funds and other clients vary, among other things, because of the different services involved and the additional regulatory and compliance requirements associated with registered investment companies, such as the Fund. The Independent Board Members noted that, as a general matter, higher fee levels reflect higher levels of service, increased investment management complexity, greater product management requirements and higher levels of risk or a combination of the foregoing. The Independent Board Members further noted, in particular, that the range of services provided to the Fund (as discussed above) is generally much more extensive than that provided to separately managed accounts. Many of the additional administrative services provided by the Adviser are not required for institutional clients. The Independent Board Members also recognized that the management fee rates of the foreign funds advised by the Adviser may vary due to, among other things, differences in the client base, governing bodies, operational complexities and services covered by the management fee. Given the inherent differences in the various products, particularly the extensive services provided to the Fund, the Independent Board Members believe such facts justify the different levels of fees.

With respect to the Sub-Adviser, the Independent Board Members also considered the pricing schedule or fees that the Sub-Adviser charges for other clients. The Independent Board Members noted that the fees

paid to the Sub-Adviser for its sub-advisory services were at the low end of its fee schedule. The Independent Board Members also noted that the fees paid to the Sub-Adviser were the result of arm's-length negotiations.

Nuveen Investments

47

Annual Investment Management Agreement Approval Process (Unaudited) (continued)

3. Profitability of Fund Advisers

In conjunction with their review of fees, the Independent Board Members also considered the profitability of Nuveen for its advisory activities and its financial condition. The Independent Board Members reviewed the revenues and expenses of Nuveen's advisory activities for the last two calendar years, the allocation methodology used in preparing the profitability data, an analysis of the key drivers behind the changes in revenues and expenses that impacted profitability in 2013 and Nuveen's consolidated financial statements for 2013. The Independent Board Members noted this information supplemented the profitability information requested and received during the year to help keep them apprised of developments affecting profitability (such as changes in fee waivers and expense reimbursement commitments). In this regard, the Independent Board Members noted that two Independent Board Members served as point persons to review the profitability analysis and methodologies employed, and any changes thereto, and to keep the Board apprised of such changes. The Independent Board Members also considered Nuveen's revenues for advisory activities, expenses and profit margin compared to that of various unaffiliated management firms.

In reviewing profitability, the Independent Board Members noted the Adviser's continued investment in its business with expenditures to, among other things, upgrade its investment technology and compliance systems and provide for additional personnel and other resources. The Independent Board Members recognized the Adviser's continued commitment to its business should enhance the Adviser's capacity and capabilities in providing the services necessary to meet the needs of the Nuveen funds as they grow or change over time. In addition, in evaluating profitability, the Independent Board Members also noted the subjective nature of determining profitability which may be affected by numerous factors including the allocation of expenses and that various allocation methodologies may each be reasonable but yield different results. Further, the Independent Board Members recognized the difficulties in making comparisons as the profitability of other advisers generally is not publicly available, and the profitability information that is available for certain advisers or management firms may not be representative of the industry and may be affected by, among other things, an adviser's particular business mix, capital costs, size, types of funds managed and expense allocations. Notwithstanding the foregoing, the Independent Board Members noted the Adviser's adjusted operating margin appears to be reasonable in relation to other investment advisers and sufficient to operate as a viable investment management firm meeting its obligations to the Nuveen funds. Based on their review, the Independent Board Members concluded that the Adviser's level of profitability for its advisory activities was reasonable in light of the services provided.

With respect to sub-advisers that are not affiliated with Nuveen, including the Sub-Adviser, the Independent Board Members considered such sub-advisers' revenues, expenses and profitability margins for their advisory activities with the applicable funds. Based on their review, the Independent Board Members were satisfied that the Sub-Adviser's level of profitability was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Independent Board Members also considered other amounts paid to a Fund Adviser by the funds as well as indirect benefits (such as soft dollar arrangements), if any, the Fund Adviser and its affiliates receive or are expected to receive that are directly attributable to the management of a Nuveen fund. See Section E below for additional information on indirect benefits the Fund Advisers may receive as a result of its relationship with a Nuveen fund. Based on their review of the overall fee arrangements of the Fund, the Independent Board Members determined that the advisory fees and expenses of the Fund were reasonable.

4. The New Advisory Agreements

As noted above, the terms of the New Advisory Agreements are substantially identical to their corresponding Original Advisory Agreements. The fee schedule, including the breakpoint schedule and complex-wide fee schedule, in each New Advisory Agreement is identical to that under the corresponding Original Advisory Agreement. The Board Members also noted that Nuveen has

Nuveen Investments
48

committed for a period of two years from the date of closing the Transaction not to increase contractual management fee rates for any Nuveen fund. This commitment shall not limit or otherwise affect mergers or liquidations of any funds in the ordinary course. Based on the information provided, the Board Members did not believe that the overall expenses would increase as a result of the Transaction. In addition, the Board Members recognized that the Nuveen funds may gain access to the retirement platform and institutional client base of TIAA-CREF, and the investors in the retirement platforms may roll their investments into one or more Nuveen funds as they exit their retirement plans. The enhanced distribution access may result in additional sales of the Nuveen funds resulting in an increase in total assets under management in the complex and a corresponding decrease in overall management fees if additional breakpoints at the fund-level or complex-wide level are met. Based on its review, the Board determined that the management fees and expenses under each New Advisory Agreement were reasonable.

Further, other than from a potential reduction in the debt level of Nuveen Investments, Inc., the Board recognized that it is difficult to predict with any degree of certainty the impact of the Transaction on Nuveen's profitability. Given the fee schedule was not expected to change under the New Advisory Agreements, however, the Independent Board Members concluded that each Fund Adviser's level of profitability for its advisory activities under the respective New Advisory Agreements would continue to be reasonable in light of the services provided.

D. Economies of Scale and Whether Fee Levels Reflect These Economies of Scale

1. The Original Advisory Agreements

With respect to economies of scale, the Independent Board Members have recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base, although economies of scale are difficult to measure and predict with precision, particularly on a fund-by-fund basis. One method to help ensure the shareholders share in these benefits is to include breakpoints in the advisory fee schedule. Generally, management fees for funds in the Nuveen complex are comprised of a fund-level component and a complex-level component, subject to certain exceptions. Accordingly, the Independent Board Members reviewed and considered the applicable fund-level breakpoints in the advisory fee schedules that reduce advisory fees as asset levels increase. Further, the Independent Board Members noted that, although closed-end funds may from time-to-time make additional share offerings, the growth of their assets would occur primarily through the appreciation of such funds' investment portfolios.

In addition to fund-level advisory fee breakpoints, the Board also considered the Nuveen funds' complex-wide fee arrangement. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex are reduced as the assets in the fund complex reach certain levels. The complex-wide fee arrangement seeks to provide the benefits of economies of scale to fund shareholders when total fund complex assets increase, even if assets of a particular fund are unchanged or have decreased. The approach reflects the notion that some of Nuveen's costs are attributable to services provided to all its funds in the complex and therefore all funds benefit if these costs are spread over a larger asset base.

Based on their review, the Independent Board Members concluded that the breakpoint schedules and complex-wide fee arrangement (as applicable) were acceptable and reflect economies of scale to be shared with shareholders when assets under management increase.

2. The New Advisory Agreements

As noted, the Independent Board Members recognized that the fund-level and complex-wide schedules will not change under the New Advisory Agreements. Assets in the funds advised by TIAA-CREF or its current

affiliates will not be included in the complex-wide fee calculation. Nevertheless, the Nuveen funds may have access to TIAA-CREF's retirement platform and institutional client base. The access to this distribution network may enhance the distribution of the Nuveen funds which, in turn, may

Nuveen Investments

49

Annual Investment Management Agreement Approval Process (Unaudited) (continued)

lead to reductions in management and sub-advisory fees if the Nuveen funds reach additional fund-level and complex-wide breakpoint levels. Based on their review, including the considerations in the annual review of the Original Advisory Agreements, the Independent Board Members determined that the fund-level breakpoint schedules and complex-wide fee schedule continue to be appropriate and desirable in ensuring that shareholders participate in the benefits derived from economies of scale under the New Advisory Agreements.

E. Indirect Benefits

1. The Original Advisory Agreements

In evaluating fees, the Independent Board Members received and considered information regarding potential "fall out" or ancillary benefits the respective Fund Adviser or its affiliates may receive as a result of its relationship with the Fund. In this regard, with respect to closed-end funds, the Independent Board Members considered any revenues received by affiliates of the Adviser for serving as co-manager in initial public offerings of new closed-end funds as well as revenues received in connection with secondary offerings.

In addition to the above, the Independent Board Members considered whether the Fund Advisers received any benefits from soft dollar arrangements whereby a portion of the commissions paid by a fund for brokerage may be used to acquire research that may be useful to a Fund Adviser in managing the assets of the fund and other clients. The Fund's portfolio transactions are allocated by the Sub-Adviser. Accordingly, the Independent Board Members considered that the Sub-Adviser may benefit from its soft dollar arrangements pursuant to which it receives research from brokers that execute the Fund's portfolio transactions. With respect to any fixed income securities, however, the Board recognized that such securities generally trade on a principal basis that does not generate soft dollar credits. Similarly, the Board recognized that the research received pursuant to soft dollar arrangements by the Sub-Adviser may also benefit the Fund and its shareholders to the extent the research enhances the ability of the Sub-Adviser to manage the Fund. The Independent Board Members noted that the Sub-Adviser's profitability may be somewhat lower if it did not receive the research services pursuant to the soft dollar arrangements and had to acquire such services directly.

Based on their review, the Independent Board Members concluded that any indirect benefits received by a Fund Adviser as a result of its relationship with the Fund were reasonable and within acceptable parameters.

2. The New Advisory Agreements

The Independent Board Members noted that, as the applicable policies and operations of the Fund Advisers with respect to the Nuveen funds were not anticipated to change significantly after the Transaction, such indirect benefits should remain after the Transaction. The Independent Board Members further noted the benefits the Transaction would provide to TIAA-CREF and Nuveen, including a larger-scale fund complex, certain shared services (noted above) and a broader range of investment capabilities, distribution capabilities and product line. Further, the Independent Board Members noted that Nuveen Investments, Inc. (the parent of the Adviser) would benefit from an improved capital structure through a reduction in its debt level.

F. Other Considerations for the New Advisory Agreements

In addition to the factors above, the Board Members also considered the following with respect to the Nuveen funds:

- Nuveen would rely on the provisions of Section 15(f) of the 1940 Act. In this regard, to help ensure that an unfair burden is not imposed on the Nuveen funds, Nuveen has committed for a period of two years from the date of the closing of the Transaction not to increase contractual management fee rates for any fund. This commitment shall not limit or otherwise affect mergers or liquidations of any funds in the ordinary course.

Nuveen Investments

50

- The Nuveen funds would not incur any costs in seeking the necessary shareholder approvals for the new investment management agreements or the new sub-advisory agreements (except for any costs attributed to seeking shareholder approvals of fund specific matters unrelated to the Transaction, such as election of Board Members or changes to investment policies, in which case a portion of such costs will be borne by the applicable funds).
- The reputation, financial strength and resources of TIAA-CREF.
- The long-term investment philosophy of TIAA-CREF and anticipated plans to grow Nuveen's business to the benefit of the Nuveen funds.
- The benefits to the Nuveen funds as a result of the Transaction including: (i) increased resources and support available to Nuveen as well as an improved capital structure that may reinforce and enhance the quality and level of services it provides to the funds; (ii) potential additional distribution capabilities for the funds to access new markets and customer segments through TIAA-CREF's distribution network, including, in particular, its retirement platforms and institutional client base; and (iii) access to TIAA-CREF's expertise and investment capabilities in additional asset classes.

G. Other Considerations

The Independent Board Members did not identify any single factor discussed previously as all-important or controlling. The Board Members, including the Independent Board Members, unanimously concluded that the terms of each Original Advisory Agreement and New Advisory Agreement are fair and reasonable, that the respective Fund Adviser's fees are reasonable in light of the services provided to the Fund and that the Original Advisory Agreements be renewed and the New Advisory Agreements be approved.

II. Approval of Interim Advisory Agreements

At the April Meeting, the Board Members, including the Independent Board Members, unanimously approved an interim advisory agreement (the "*Interim Investment Management Agreement*") between the Fund and the Adviser and an interim sub-advisory agreement (the "*Interim Sub-Advisory Agreement*") between the Adviser and the Sub-Adviser. If necessary to assure continuity of advisory services, the Interim Investment Management Agreement and Interim Sub-Advisory Agreement will take effect upon the closing of the Transaction if shareholders have not yet approved the corresponding New Investment Management Agreement or New Sub-Advisory Agreement. The terms of the Interim Investment Management Agreement and Interim Sub-Advisory Agreement are substantially identical to those of the corresponding Original Investment Management Agreement and New Investment Management Agreement and the corresponding Original Sub-Advisory Agreement and New Sub-Advisory Agreement, respectively, except for certain term and fee escrow provisions. In light of the foregoing, the Board Members, including the Independent Board Members, unanimously determined that the scope and quality of services to be provided to the Fund under the Interim Investment Management Agreement and the Interim Sub-Advisory Agreement are at least equivalent to the scope and quality of services provided under the Original Investment Management Agreement and the Original Sub-Advisory Agreement, respectively.

Nuveen Investments:

Serving Investors for Generations

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions through continued adherence to proven, long-term investing principles. Today, we offer a range of high quality equity and fixed-income solutions designed to be integral components of a well-diversified core portfolio.

Focused on meeting investor needs.

Nuveen Investments provides high-quality investment services designed to help secure the long-term goals of institutional and individual investors as well as the consultants and financial advisors who serve them. Nuveen Investments markets a wide range of specialized investment solutions which provide investors access to capabilities of its high-quality boutique investment affiliates Nuveen Asset Management, Symphony Asset Management, NWQ Investment Management Company, Santa Barbara Asset Management, Tradewinds Global Investors, Winslow Capital Management and Gresham Investment Management. In total, Nuveen Investments managed approximately \$231 billion as of June 30, 2014.

ESA-A-0614D 2835 - INV -B08/15

ITEM 2. CODE OF ETHICS.

Not applicable to this filing.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable to this filing.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable to this filing.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable to this filing.

ITEM 6. SCHEDULE OF INVESTMENTS.

(a) See Portfolio of Investments in Item 1.

(b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSRS

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSRS

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: See Ex-99.CERT attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed filed for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: See Ex-99.906 CERT attached hereto.
