**CHINA NATURAL RESOURCES, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(Amounts in thousands, except share and per share data)

1.

**BASIS OF PRESENTATION**

Management has elected to prepare the accompanying unaudited condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant to rules and regulations of the Securities and Exchange Commission ( SEC ). Accordingly, they do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. It is therefore suggested that these unaudited condensed consolidated financial statements be read in conjunction with the summary of significant accounting policies and notes to financial statements included in the Company s Annual Report on Form 20-F for the year ended December 31, 2007, filed with the SEC in June 2008. In the opinion of management, except as disclosed below, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and six-month periods ended June 30, 2008, are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

Our consolidated financial statements include the accounts of China Natural Resources, Inc. and those of its direct and indirect wholly-owned and majority-owned subsidiaries (collectively referred to as the Company ). The Company s subsidiaries as of January 1, 2008, are as described in the Company s Form 20-F for the year ended December 31, 2007.

On March 4, 2008, the Company acquired Mark Faith Technology Development Limited, a Hong Kong company and its wholly-owned subsidiary, Bayannaer City Feishang Copper Company Limited, a PRC company (Note 2). The results of operations of Mark Faith have been included in the Company s interim consolidated financial statements since its acquisition date.

During the six months ended June 30, 2008, the Company also formed a new wholly-owned subsidiary, China Coal Mining Investment Limited ( China Coal ). The Company, through Yunnan Feishang Mining Co. Ltd. and China Coal, also established an indirectly wholly-owned subsidiary Yangpu Lianzhong Mining Co., Ltd. ( Yangpu Lianzhong ).

For the convenience of the reader, amounts in Renminbi ( RMB ) have been translated into United States dollars ( US\$ ) at the applicable rate of US\$1.00 = RMB6.8543 as quoted by the People s Bank of China as of June 30, 2008. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate, or at all.

2.

## ACQUISITION

On March 4, 2008 (the Acquisition Date ), the Company acquired all of the issued and outstanding capital stock of Mark Faith Technology Development Limited ( Mark Faith ) and its wholly-owned subsidiary, Bayannaer City Feishang Copper Company Limited ( Feishang Copper ), collectively referred to as Mark Faith . The Company acquired Mark Faith from Feishang Group Limited (the Shareholder ). The Shareholder, a British Virgin Islands corporation, is also the principal shareholder of China Natural Resources, Inc., and Mr. Li Feilie, the sole officer, director and beneficial owner of the Shareholder, is the Chairman and Chief Executive Officer of China Natural Resources, Inc.

The Company paid cash of RMB24,252 (approximately US\$3,538), which was based on the lesser of the audited consolidated net asset value of Mark Faith as of December 31, 2007 or RMB24,252. In addition, the Company paid the Shareholder RMB47,291 (approximately US\$6,899) in satisfaction of outstanding indebtedness of Mark Faith to the Shareholder. The acquisition was accounted for using the purchase method of accounting.

---

Mark Faith was incorporated in Hong Kong in August 2006. Mark Faith operates through its wholly-owned subsidiary, Feishang Copper, a company established under the laws of the People's Republic of China ("PRC") in Inner Mongolia.

Feishang Copper's principal business activity is the smelting of copper concentrates to produce blister copper (a highly pure copper produced during an intermediate stage of copper smelting). The production process also produces sulfuric acid, gold and silver. The copper smelting plant of Feishang Copper is located at Bayannaer City, Inner Mongolia, the PRC, approximately 1,050 kilometers north of Beijing.

Feishang Copper commenced construction and installation of its copper smelting and refining facilities (the Smelter) in late 2005. The Smelter has been in trial production since May 2007 and is not yet operating at full capacity. The Smelter is expected to commence commercial production in early 2009, subject to the procurement of necessary permits from the relevant government authorities.

The following represents the preliminary purchase price allocation at the date of the Mark Faith acquisition:

	<b>RMB</b>	<b>US\$</b>
Cash and cash equivalents	38,947	5,682
Accounts receivable	8,876	1,295
Inventories and other current assets	259,593	37,873
Property and equipment	216,315	31,559
Other assets	2,480	362
Excess of purchase price over net asset value of Mark Faith	13,136	1,916
Current liabilities	(494,341 )	(72,121 )
Non current liabilities	(20,754 )	(3,028 )
Purchase price	24,252	3,538

The purchase price allocation is not considered final as of the date of this report because the audited net asset value of Mark Faith as of December 31, 2007 has not yet been finalized. The excess of the consideration paid over the carrying value of the net assets acquired has been classified as contra equity, similar to a distribution of equity.

The following unaudited pro forma financial information presents the Company's consolidated results of operations as if the acquisition of Mark Faith had occurred as of the beginning of each of the periods presented below. The unaudited pro forma financial information is not intended to represent or be indicative of the consolidated results of operations that would have been reported by the Company had the acquisitions been completed as of the beginning of the periods presented, and should not be taken as representative of the Company's future consolidated results of

operations or financial condition.

More than one year, but not exceeding			
five years	15,868		2,315
Present value of lease obligations	25,475		3,717
Less: amount due within one year	(9,607 )		(1,402 )
Amount due after one year	15,868		2,315

The Company, through its recently acquired subsidiary Mark Faith, has entered into a capital lease obligation for certain of its plant and machinery for a lease term of three years commencing in December 2007. The present value of this capital lease in December 2007 was RMB30,000 (US\$4,377)

8.

## ADDITIONAL PAID IN CAPITAL

	<b>RMB</b>	<b>US\$</b>
Balance at December 31, 2007	127,707	18,632
Exercise of warrant	57,557	8,397

Share based compensation	13,008	1,898
Balance at June 30, 2008	198,272	28,927

On February 1, 2008, the warrant holder exercised warrants to purchase 2,000,000 common shares and paid the Company the exercise price of US\$8,000 (RMB57,557).

On January 7, 2008, 1,000,000 stock options were granted to the Company's CEO at an exercise price of US\$22.64 per share (the fair market value of the Company's common stock as of the grant date). The options were valued at approximately RMB78,048 (US\$11,387), which are being amortized over the requisite service period of three years.

9.

#### INCOME TAXES

In March 2007, the 10th People's Congress of China passed the China Unified Corporate Income Tax Law (the Unified Tax Law), effective on January 1, 2008, which establishes a single unified 25% income tax rate for most companies, with a preferential income tax rate of 15% to be applicable to sino-foreign joint ventures for three years commencing from its third profitable year [2005 for Wuhu Feishang Enterprise Development Company Limited ( Wuhu )] through its fifth profitable year (2007 for Wuhu). Beginning January 1, 2008, income tax for all PRC subsidiaries of the Company is now levied at a 25% tax rate. For the six months ended June 30, 2008, the difference between the statutory tax rate of 25% and the effective tax rate of approximately 34% is due to operating losses of certain companies of the Group for which these losses have been fully allowed for.

10.

#### SUBSEQUENT EVENTS

On July 11, 2008, the Company entered into an agreement to acquire all of the issued and the outstanding capital stock of Pineboom Investment Ltd. and its wholly-owned subsidiaries (collectively, the Dayun Coal Mine ) and to assume the outstanding indebtedness of Dayun Coal Mine to the former shareholder on the closing date. The total purchase price is to be US\$25,000, subject to adjustment. The closing of this acquisition is expected to occur in 2009.

On August 13, 2008, the Company entered into an agreement to acquire all of the issued and the outstanding capital stock of Newhold Investment Ltd. and its wholly-owned subsidiaries (collectively, the Yongfu Coal Mine ) and to assume the outstanding indebtedness of Yongfu Coal Mine to the former shareholder on the closing date. The total purchase price is to be US\$42,000, subject to adjustment. The closing of this acquisition is expected to occur in 2009.

11.

#### CONCENTRATION OF RISK

Concentration of credit risk:

Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of cash deposits and trade receivables.

(i)

Cash and cash deposits

The Company maintains its cash and cash deposits primarily with various PRC state-owned banks and Hong Kong based financial institutions. The Company performs periodic evaluations of the relative credit standing of those financial institutions.

(ii)

Sales and trade receivables

The Company sells zinc, iron and copper products to companies in the PRC. Management considers that the Company's current customers are generally creditworthy, and credit is extended based on an evaluation of the customers' financial conditions and, therefore, generally collateral is not required. The Company maintains reserves for potential credit losses based on its loss history and aging analysis. Such losses have been within management's expectations. At December 31, 2007, the largest five customers accounted for 100% of the Company's trade receivables. During the six months ended June 30, 2008, the largest five customers accounted for approximately 89% of Wuhu's sales (approximately 12% of the Company's total sales). During the same period, the five largest customers of Feishang Copper accounted for approximately 93% of Mark Faith's sales (approximately 81% of the Company's total sales).

Wuhu's entire production of zinc for the six months ended June 30, 2008 was sold to a single customer, Huludao Zinc Industry Co. Ltd. (Huludao). Wuhu is a party to a one-year non-binding sales contract with Huludao, subject to renewal every year. While the sales contract has been renewed on an annual basis in the past, in the event Wuhu and Huludao are unable to agree upon renewal terms or if Wuhu's sales contract with Huludao is not renewed for any other reason, Wuhu will have to identify one or more alternative outlets for its mineral production.

Wuhu sub-contracts its ore extraction work to a third party. To some extent, Wuhu's operations are affected by the performance of the contractor, whose activities are not within the Company's control. If the contractor fails to achieve the guaranteed monthly extraction volume, or the contractor otherwise fails to perform its obligations under its agreement with the Company, the agreement may be terminated by the Company; however, termination of the relationship could adversely affect the Company's operating results.

---

Feishang Copper has a one-year sales contract with Wuhu Hengchang (a related party) subject to annual renewal; however, the sales contract does not obligate Wuhu Hengchang to purchase copper from Feishang Copper. Given the large percentage of sales derived from Wuhu Hengchang, in the event Wuhu Hengchang ceases or reduces its purchases from Feishang Copper, or if Feishang Copper and Wuhu Hengchang are unable to agree upon renewal terms, or Feishang Copper's sales contract with Wuhu Hengchang is not renewed for any other reason, Feishang Copper will have to identify other alternative outlets for its copper production which may have a material adverse effect on Feishang Copper's results of operations.

Copper concentrates are required for Feishang Copper's smelting and refining operation. Copper concentrates are generally purchased domestically. Feishang Copper has a long term supply agreement with Bayannaer West Region Copper Co. Ltd. ( Bayannaer West ), in connection with which Feishang Copper is required to make payment for materials prior to delivery. For the period from the acquisition date through June 30, 2008, Bayannaer West accounted for approximately 66% of Feishang Copper's purchases of copper concentrates.

Feishang Copper's financial results are significantly affected by the market price of the metal that it produces. It has entered into copper future index contracts to manage price fluctuation.

---

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### FORWARD LOOKING STATEMENTS

The following discussion includes statements that constitute forward-looking statements within the meaning of Federal securities laws. These statements include, without limitation, statements regarding the intent, belief and current expectations of management with respect to the Company's policies regarding investments, dispositions, financings, conflicts of interest and other matters; and trends affecting the Company's financial condition or results of operations. Forward-looking statements are not a guarantee of future performance and involve risks and uncertainties, many of which are outside of our control, and actual results may differ materially from those in the forward-looking statement. Among the risks and uncertainties that could cause our actual results to differ from our forward-looking statements are uncertainties relating to our business operations and operating results, uncertainties regarding the governmental, economic and political environment in the People's Republic of China, risks and hazards associated with the Company's mining and smelting activities, uncertainties associated with metal price volatility, uncertainties associated with the Company's reliance on third-party contractors and other risks detailed from time to time in the Company's filings with the Securities and Exchange Commission, including without limitation the information set forth in our Annual Report on Form 20-F under the heading, "Risk Factors". While management believes that its assumptions forming the bases for forward looking statements are reasonable, assumed facts or bases generally vary from actual results, and there can be no assurance that the expectations or beliefs expressed in forward looking statements will be achieved or accomplished.

### SALES AND GROSS PROFIT

Sales for the six months ended June 30, 2008 reached a record RMB282.14 million (US\$41.16 million), a surge of 378.53% compared to the same period of 2007. The increase was mainly attributable to the consolidation of sales of blister copper, sulphuric acid following the acquisition of Mark Faith on March 4, 2008. Revenue from Mark Faith contributed RMB243.88 million (US\$35.58 million), or approximately 86.44% of the total sales of the Company.

Sales for the second quarter of 2008 totaled RMB243.48 million (US\$35.52 million), a 636.22% increase over the same period last year. The increase was mainly attributable to the contribution of the recently acquired Mark Faith subsidiary.

Sales of zinc concentrates, iron concentrates and micaceous dioxide iron grey by Wuhu during the six month period decreased by RMB20.69 million (US\$3.02 million) or 35.09% to RMB38.27 million (US\$5.58 million). The decrease was mainly caused by (i) a production suspension of all mines in Fanchang county (including our Wuhu mine site) for the first quarter of 2008 for safety evaluation triggered by a nearby mine accident that occurred on December 11, 2007 in Fanchang county; (ii) a drop in zinc concentrates production as a result of its mining operation entering the low ore grade zone; and (iii) a plunge in zinc concentrates from the peak in 2006 to only an average of approximately

RMB9,659 during the period, despite a 121.93% rise in iron concentrates average price.

Sales of zinc concentrates, iron concentrates and micaceous dioxide iron grey by Wuhu for the second quarter of 2008 totaled RMB29.72 million (US\$4.34 million), representing a decrease of RMB3.35 million (US\$0.49 million) or 10.13% from the same period a year ago. This was mainly caused by (i) the drop in the average selling price of zinc concentrates, although the price effect was partially offset by the increase in iron concentrates average selling price; and (ii) the drop in the volume of zinc concentrates as the mining operation was in the low ore grade region.

Gross profit margin for the six months ended June 30, 2008 fell to 18.80% from 69.49% in the same period of 2007. This was a result of (i) the inherently lower gross profit margin characteristics of blister copper product from the recently acquired Mark Faith; and (ii) the drop in average selling price of zinc concentrates. The gross profit margin for the second quarter of 2008 dropped from 69.14% last year to 18.91% this year primarily due to the same reasons cited above.

---

Gross profit margin of Wuhu dropped from 69.49% for the six months ended June 30, 2007 to 59.08% for the same period of 2008. This was due to (i) an increase in processing cost arising from the decline of zinc grade; (ii) an increase in labor cost; and (iii) a decrease in the average selling price of zinc concentrates, although the decrease was partly offset by the increase in the average selling price of iron concentrates. The drop in gross profit margin for the second quarter of 2008 was caused by the same factors.

## **SELLING, GENERAL AND ADMINISTRATIVE EXPENSES**

Selling, general and administrative expenses increased by RMB19.70 million (US\$2.87 million) or 343.27% to RMB25.44 million (US\$3.71 million) for the six months ended June 30, 2008 from RMB5.74 million (US\$0.84 million) for the same period of 2007. The increase was mainly due to (i) the recognition of RMB13.01 million (US\$1.90 million) employee share-based compensation expense (a non-cash item calculated at the time the share options were granted and based on a number of inputs such as the volatility of the market price of the company's stock for the past years); and (ii) the inclusion of selling, general and administrative expenses of RMB3.78 million (US\$0.55 million) from the acquisition of Mark Faith since March 4, 2008.

Selling, general and administrative expenses increased by RMB9.02 million (US\$1.32 million) or 337.56% to RMB11.70 million (US\$1.71 million) for the second quarter of 2008 from RMB2.67 million (US\$0.39 million) for the same quarter of 2007. The increase was mainly resulted from (i) the recognition of RMB6.51 million (US\$0.95 million) share-based compensation expense; and (ii) the inclusion of selling, general and administrative expenses following the acquisition of Mark Faith.

## **INTEREST EXPENSE**

Interest expense for the three and six months ended June 30, 2008, primarily consisted of the capital lease obligation by Mark Faith. The Company did not incur any interest expense for the three and six months ended June 30, 2007.

## **INTEREST INCOME**

Interest income increased by RMB277,000 (US\$40,000) or 32.86%, to RMB1,120,000 (US\$163,000) for the six months ended June 30, 2008 from RMB843,000 (US\$123,000) for the same period in 2007. This increase was contributed by the higher cash balance in 2008 arising from the funds received in a private placement and the exercise price of employee stock options.

Interest income decreased by RMB52,000 (US\$7,600) or 12.26%, to RMB372,000 (US\$54,000) for the second quarter of 2008 from RMB424,000 (US\$62,000) for the same quarter in 2007. This was due to the lower saving rate earned on Hong Kong dollar deposits.

**OTHER INCOME/ EXPENSE**

Other income for the six months ended June 30, 2008 increased to RMB2,705,000 (US\$394,000) from a net loss of RMB41,000 (US\$6,000) for the same period in 2007. This is primarily attributable to the gain on the copper future contracts, which was accounted for by the Company as a derivative financial instrument at fair value, for the purpose of hedging against a drop in the raw material copper price of Mark Faith.

The Company recorded a net loss of RMB698,000 (US\$102,000) for the second quarter of 2008, compared to a net loss of RMB34,000 (US\$5,000) for the same period a year earlier. The increase was mainly due to the RMB RMB766,000 (US\$112,000) loss on the copper future contracts for hedging purpose.

---

## **INCOME TAXES**

Management believes that the Company is not subject to US taxes.

Under the current laws of the BVI, dividends and capital gains arising from the Company's investments in the BVI are not subject to income taxes and no withholding tax is imposed on payments of dividends to the Company.

In March 2007, the 10th People's Congress of China passed the Unified Tax Law, effective on January 1, 2008, which establishes a single unified 25% income tax rate for most companies, with a preferential income tax rate of 15% to be applicable to sino-foreign joint ventures for three years commencing from its third profitable year (2005 for Wuhu) through fifth profitable year (2007 for Wuhu). Beginning January 1, 2008, income tax for all PRC's subsidiaries of the Company is levied at a 25% tax rate. For the six months ended June 30, 2008, the difference between the statutory tax rate of 25% and the effective tax rate of approximately 34% is due to operating losses of certain companies of the Group for which these losses have been fully allowed for.

## **NET INCOME**

Net income decreased by RMB13,051,000 (US\$1,904,000) from RMB30,237,000 (US\$4,411,000) for the six months ended June 30, 2007 to RMB17,186,000 (US\$2,507,000) for the six months ended June 30, 2008. The drop was primarily due to (i) a continued softening in the price of zinc after it reached its peak in 2006; (ii) a reduction in the production of zinc concentrates as a result of its mining operations entering the low ore grade zone; (iii) a production suspension of all mines in Fanchang county for the first quarter of 2008 for safety evaluation; and (iv) the recognition of approximately RMB 13.1 million (US\$1.9 million) relating to non-cash employee share-based compensation expense.

Net income increased by RMB5,440,000 (US\$794,000) from RMB17,315,000 (US\$2,526,000) for the three months ended June 30, 2007 to RMB22,755,000 (US\$3,320,000) for the three months ended June 30, 2008. The increase was primarily attributable to the contribution of the recently acquired Mark Faith subsidiary, although the contribution was partially offset by the factor (i), (ii) and (iv) described above..

## **LIQUIDITY AND CAPITAL RESOURCES**

The Company's primary liquidity needs are to fund operating expenses, capital expenditures and acquisitions. To date, the Company has financed its working capital requirements primarily through internally generated cash.

Net cash used in operating activities for the six months ended June 30, 2008 was approximately RMB69,545,000 (US\$10,146,000), as compared to the net cash from operating activities of RMB22,443,000 (US\$3,274,000) for the corresponding period in 2007. The change from net cash inflows from last period to net cash outflow this period was mainly due to the increases of RMB51,506,000 (US\$7,514,000) inventory and RMB60,030,000 (US\$8,758,000) other receivable and prepayment in copper smelting business of Mark Faith.

The following summarizes the Company's financial condition and liquidity at the dates indicated:

	<b>June 30,</b>	<b>December</b>
	<b>2008</b>	<b>31,</b>
	<b>RMB</b>	<b>2007</b>
	<b>(Unaudited)</b>	<b>RMB</b>
Current ratio	1.83x	10.72x
Working capital	326,290,000	456,806,000
Ratio of interest-bearing debt to shareholders' equity	0.04x	0.00x

---

Net cash used in investing activities for the six months ended June 30, 2008 was RMB123,080,000 (US\$17,957,000). This is comprised of (i) a net repayment of RMB100,466,000 (US\$14,657,000) to related companies; (ii) net cash received on the acquisition of Mark Faith amounting to RMB14,694,000 (US\$2,144,000); (iii) an investment and advance to an unconsolidated investee of RMB30,696,000 (US\$4,479,000); and (iv) payment for acquisition of property, plant and equipment amounting to RMB6,612,000 (US\$965,000)

Net cash provided by financing activities for the six months ended June 30, 2008 was RMB53,034,000 (US\$7,737,000), as compared with nil amount of financing activities in the corresponding period of 2007. This was primarily attributable to (i) the monies received on the exercise of warrants of RMB57,558,000 (US\$8,397,000); and (ii) a RMB4,524,000 (US\$660,000) principal repayment by Mark Faith under the capital lease during the period.

Other than the capital lease obligation disclosed above, the Company has no other contractual obligations and commercial commitments as at June 30, 2008.

Except as disclosed above, there have been no other significant changes in financial condition and liquidity for the period ended June 30, 2008. The Company plans to finance the two coal mine acquisitions announced on July 15, 2008 and August 13, 2008 by equity/ debt financing. Other than the financing of the two acquisitions, the Company believes that internally generated funds will be sufficient to satisfy its anticipated working capital needs for at least the next twelve months.

In the event that our operating plan changes due to changes in our strategic plans, lower-than-expected revenues, unanticipated expenses, increased competition, unfavorable economic conditions or other unforeseen circumstances, including the continued turmoil and tightening of the credit markets, and further weakening of consumer confidence and spending, our liquidity may be negatively impacted. If so, we could be required to adjust our expenditures for the remainder of 2008 and for 2009 to conserve working capital or raise additional capital, possibly including debt or equity financing, to fund operations and our growth strategy.

#### **OFF BALANCE SHEET ARRANGEMENTS**

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.
