

GENERAL AMERICAN INVESTORS CO INC
Form N-30B-2
October 26, 2016

For the nine months ended September 30, 2016, the net asset value per Common Share increased 6.32% while the investment return to our stockholders increased by 2.59%. By comparison, our benchmark, the Standard & Poor's 500 Stock Index (including income), increased 7.85%. For the twelve months ended September 30, 2016, the return on the net asset value per Common Share increased by 11.05%, and the return to our stockholders increased by 9.72%; these compare with an increase of 15.45% for the S&P 500. During both periods, the discount at which our shares traded continued to fluctuate and on September 30, 2016, it was 18.3%.

As detailed in the accompanying financial statements (unaudited), as of September 30, 2016, the net assets applicable to the Company's Common Stock were \$1,076,439,805 equal to \$39.98 per Common Share.

The increase in net assets resulting from operations for the nine months ended September 30, 2016 was \$54,867,516. During this period, the net realized gain on investments sold was \$85,564,434 and the decrease in net unrealized appreciation was \$29,521,051. Net investment income for the nine months was \$7,308,112. Distributions to common shareholders totaled \$2,826,870 and distributions to Preferred Stockholders amounted to \$8,483,979.

During the nine months, the Company also repurchased 1,371,884 of its shares at a cost of \$43,629,046 an average discount to net asset value of 17.6%. Our investments in the healthcare, materials, financials, and technology sectors contributed to our outperformance of our benchmark in the quarter, while industrials detracted modestly from performance. As well, our lack of an allocation to real estate and the utility sectors also contributed as those sectors experienced negative

For U.S. equity markets and the S&P specifically, valuation, as reflected in the price to earnings ratio and cash flow yields, is at the upper end of historic fair value, supported by ultra-low interest rates, corporate stock buybacks, dividend yields in excess of the 10 year U.S. Treasury Bond yield and no significant earning alternative for investors. Favorably, energy companies and their suppliers are stabilizing, potentially removing a significant drag on aggregate corporate earnings growth and margins. And though it appears likely that the Federal Reserve will be raising interest rates this year, changes are likely to be modest and the path to higher rates significantly elongated as world economic growth remains restrained.

As further evidence of stability, low quality bond yields when compared to U.S. Treasury yields remain controlled and significantly lower than earlier in the year. Historically, bull markets have ended with a significant geopolitical/financial event, a hostile Federal Reserve, or euphoric market behavior. Given recent economic data, particularly employment and consumption data, the prospect of a recession appears distant without some sort of shock. And though aggressive Quantitative Easing (QE) has ended in the U.S., it is being employed around the world in Europe and Japan to reflate their respective economies. Thus, assuming some QE stimulus is fungible, the U.S. economy should benefit, presuming no significant currency exchange ratio destabilization. Likewise with investors more skittish as evidenced by recent survey data, it would seem unlikely that the bull market has reached its zenith, particularly if easier traditional fiscal policy replaces the Federal Reserve's slow departure from its accommodative monetary stance. Thus, we remain optimistic for the long term performance of equities, while acknowledging some short term challenges.

performance in the quarter.

For the past year, we have highlighted the difficult economic environment facing equity markets. Slow GDP growth in the first half, due in part to inventory destocking throughout the economy, has given way to a modestly improved environment currently. Though revenue and earnings for the S&P 500 collectively have experienced declines for 5 of the last 6 consecutive quarters and 5 consecutive quarters, respectively, most of it is attributable to the decline in energy prices and its impact on the companies that operate in and around the sector. Employment data are favorable, corporate operating margins remain historically high despite headwinds, inventories look to be in a better position, recent purchasing manager surveys have improved, China's economy appears to have started to rebound, and retail sales remain a bright spot. Housing has been an improving addition and may be expected to contribute more as household formations improve. Constraints on growth remain the same; an aggressive regulatory environment, currency instability, political uncertainty - domestically and abroad (i.e. Brexit), dramatically rising U.S. healthcare costs and an elevated consumer debt burden which has led to a higher than normal savings rate.

Information about the Company, including our investment objectives, operating policies and procedures, investment results, record of dividend and distribution payments, financial reports and press releases, is on our website and has been updated through September 30, 2016. It can be accessed on the internet at www.generalamericaninvestors.com.

By Order of the Board of Directors,
General American Investors Company, Inc.

Jeffrey W. Priest
President and Chief Executive Officer

1. Significant Accounting Policies - General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The accompanying financial statements have been prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") pursuant to the requirements for reporting; Accounting Standards Codification 946, *Financial Services - Investment Companies* ("ASC946"), and Regulation S-X.

The preparation of financial statements in accordance with

U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income, expenses and gains and losses during the reported period. Changes in the economic environment, financial markets, and any other parameters used in determining these estimates could cause actual results to differ, and these differences could be material.

a. Security Valuation Equity securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Equity securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ equity securities for which no sales are reported on that day and other securities traded in the over-

the-counter market are valued at the last bid price (asked price for options written) on the valuation date. Equity securities traded

primarily in foreign markets are valued at the closing price of such securities on their respective exchanges or markets.

Corporate debt securities, domestic and foreign, are generally traded in the over-the-counter market rather than on a securities exchange. The

Company utilizes the latest bid prices provided by independent dealers and information with respect to transactions in such securities

to determine current market value. If, after the close of foreign markets, conditions change significantly, the price of certain foreign

securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio.

Investments in money market funds

are valued at their net asset value.

Special holdings (restricted securities) and other securities

for which quotations are not readily available are valued at fair value determined in good faith pursuant to specific procedures appropriate to each security as established by and under the general supervision of the Board of Directors. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

b. Options The Company may purchase and write (sell) put and call options. The Company typically purchases put options or writes call options to hedge the value of portfolio investments while it typically purchases call options and writes put options to obtain equity market exposure under specified circumstances. The risk

associated with purchasing an option is that the Company pays a premium

whether or not the option is exercised.

Additionally, the Company bears the risk of loss of the premium and a change in market

value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner

as portfolio securities.

Premiums received from writing options are reported as a liability on the Statement of Assets and Liabilities.

Those that expire unexercised are treated by the Company on the expiration date as realized gains on written option transactions

in the Statement of Operations.

The difference between the premium received and the amount paid on effecting a closing purchase

transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the

closing purchase transaction, as a realized loss on written option transactions in the Statement of Operations. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss on investments in the Statement of Operations. If a written put option is exercised, the premium reduces the cost basis for the securities purchased by the Company and is parenthetically disclosed under cost of investments on the Statement of Assets and Liabilities. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option. See Note 4 for written option activity.

c. Security Transactions and Investment Income Security transactions are recorded as of the trade date. Dividend income and

distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represent amortized cost.

d. Foreign Currency Translation and Transactions Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies versus U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value.

If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Company's Board of Directors. The Company does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign

denominated
assets and
liabilities other
than investments
in securities
held at the end of
the reporting
period.

Foreign security
and currency
transactions may
involve certain
considerations
and risks not
typically
associated with
those of U.S.

companies as a
result of, among
other factors, the
possibility of
political or
economic
instability or the
level of
governmental
supervi-
sion and
regulation of
foreign securities
markets.

e. Dividends and
Distributions The
Company expects
to pay dividends
of net investment
income and
distributions of
net realized
capital and
currency gains, if
any, annually to
common
shareholders and
quarterly to
preferred
shareholders.
Dividends and
distribu-
tions to common
and preferred
shareholders,
which are
determined in
accordance with
Federal income
tax regulations

are recorded on the ex-dividend date. Permanent book/tax differences relating to income and gains are reclassified to paid-in capital as they arise.

f. Federal Income Taxes The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required. In accordance with U.S. GAAP requirements regarding accounting for uncertainties in income taxes, management has analyzed the Company's tax positions taken or expected to be taken on Federal and state income tax returns for all open tax years (the current and the prior three tax years) and has concluded that no provision for income tax is required in the Company's

financial
statements.

g. Contingent
Liabilities

Amounts related
to contingent
liabilities are
accrued if it is
probable that a
liability has been
incurred

and an amount is
reasonably
estimable.

Management
evaluates whether
there are
incremental legal
or other costs
directly
associated

with the ultimate
resolution of a
matter that are
reasonably
estimable and, if
so, they are
included in the
accrual.

h.

Indemnifications

In the ordinary
course of
business, the
Company enters
into contracts that
contain a variety
of
indemnifications.

The Company's
maximum
exposure under
these
arrangements is
unknown.

However, the
Company has not
had prior claims
or losses

pursuant to these
indemnification
provisions and
expects the risk of
loss thereunder to
be remote.

2. Fair Value Measurements - Various data inputs are used in determining the value of the Company's investments. These inputs are summarized in a hierarchy consisting of the three broad levels listed below:

Level 1 - quoted prices in active markets for identical securities (including money market funds which are valued using amortized cost and which transact at net asset value, typically \$1.00 per share),

Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.), and

Level 3 - significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Company's net assets as of September 30, 2016:

Assets	Level 1	Level 2	Level 3	Total
Common stocks	\$1,089,720,693	—	—	\$1,089,720,693
Purchased options	1,725,000	—	—	1,725,000
Warrant	316,698	—	—	316,698
Money market fund	187,191,386	—	—	187,191,386
Total	\$1,278,953,777	—	—	\$1,278,953,777
Liabilities				
Options written	(\$750,000)	—	—	(\$750,000)

Transfers of Level 3 securities, if any, are reported as of the actual date of reclassification. No such transfers occurred during the nine months ended September 30, 2016.

3. Purchases and Sales of Securities - Purchases and sales of securities (other than short-term securities and options) for the nine months ended September 30, 2016 amounted to \$132,953,062 and \$259,521,693, on long transactions, respectively.

4. Written Options - The level of activity in written options varies from year to year based upon market conditions. Transactions in written covered call options and collateralized put options for the nine months ended September 30, 2016 were as follows:

	Covered Calls		Collateralized Puts	
	Contracts	Premiums	Contracts	Premiums
Options outstanding, December 31, 2015	2,250	\$1,473,462	2,500	\$404,556
Options written	6,000	1,566,530	25,000	773,965
Options terminated in closing purchase transaction	(4,500)	(1,672,355)	(1,500)	(247,869)
Options expired	(500)	(129,998)	0	0
Options assigned	(3,250)	(1,237,639)	(1,000)	(156,687)
Options outstanding, September 30, 2016	0	\$0	25,000	\$773,965

5. Capital Stock and Dividend Distributions - The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value. With respect to the Common Stock,

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

26,924,813 shares were issued and outstanding; 8,000,000 Preferred Shares were originally issued and 7,604,687 were outstanding on September 30, 2016.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares were noncallable for the 5 year period ended September 24, 2008 and have a liquidation preference of \$25.00 per share plus accumulated and unpaid dividends to the date of redemption. On December 10, 2008, the Board of Directors authorized the repurchase of up to 1 million Preferred Shares in the open market at prices below \$25.00 per share. This authorization has been reviewed annually thereafter. To date, 395,313 shares have been repurchased.

The Company allocates distributions from net capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from net capital gains, they will be paid from investment company taxable income or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% of the Preferred Stock. In addition, pursuant to Moody's Investor Service, Inc. Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds a Basic Maintenance Amount. If, the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends. In addition, failure to meet the foregoing asset coverage requirements could restrict the Company's ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

Holders of Preferred Stock will elect two members to the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company presents its Preferred Stock, for which its redemption is outside of the Company's control, outside of the net assets applicable to Common Stock in the Statement of Assets and Liabilities.

5. Capital Stock and Dividend Distributions - (Continued from bottom of previous page.)

Transactions in Common Stock during the nine months ended September 30, 2016 and the year ended December 31, 2015 were as follows:

	Shares		Amount	
	2016	2015	2016	2015
Par value of shares issued in payment of dividends and distributions (includes 439,217 shares issued from treasury)	—	439,217	—	\$439,217
			—	13,093,059
			—	13,532,276
Par value of shares purchased (at an average discount from net asset value of 17.6% and 15.5%, respectively)	(1,371,884)	(3,014,364)	(\$1,371,884)	(3,014,364)
Decrease in paid-in capital			(42,257,162)	(98,660,515)
Total decrease			(43,629,046)	(101,674,879)
Net decrease	(1,371,884)	(2,575,147)	(\$43,629,046)	(\$88,142,603)

At September 30, 2016, the Company held in its treasury 5,056,059 shares of Common Stock with an aggregate cost in the amount of \$168,679,999.

The tax basis distributions during the year ended December 31, 2015 were as follows: ordinary distributions of \$12,966,519 and net capital gains distributions of \$30,890,831. As of December 31, 2015, distributable earnings on a tax basis included \$1,442,060 from ordinary distributions, \$5,268,234 from undistributed net capital gains and \$529,240,330 from net unrealized appreciation on investments if realized in future years. Reclassifications arising from permanent “book/tax” differences reflect non-tax deductible expenses and redesignation of dividends during the year ended December 31, 2015. As a result, additional paid-in capital was decreased by \$3,081 and net investment income increased by \$3,081. As of December 31, 2015 the Company had straddle loss deferrals of \$252,864. Net assets were not affected by this reclassification .

6. Officers' Compensation - The aggregate compensation accrued and paid by the Company during the nine months ended September 30, 2016 to its officers (identified on back cover) amounted to \$5,238,375.

7. Benefit Plans - The Company has funded (qualified) and unfunded (supplemental) noncontributory defined benefit pension plans that are available to its employees. The pension plans provide defined benefits based on years of service and final average salary with an offset for a portion of social security covered compensation. The components of the net periodic benefit cost (income) of the plans for the nine months ended September 30, 2016 were:

Service cost	\$418,201
Interest cost	703,676
Expected return on plan assets	(1,019,762)

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

Amortization of prior service cost	13,353
Amortization of recognized net actuarial loss	263,258
Net periodic benefit cost	\$378,726

The Company recognizes the overfunded status of its defined benefit postretirement plan as an asset in the Statement of Assets and Liabilities and recognizes changes in funded status in the year in which the changes occur through other comprehensive income.

The Company also has funded (qualified) and unfunded (supplemental) defined contribution thrift plans that are available to its employees. The aggregate cost of such plans for the nine months ended September 30, 2016 was \$376,794. The qualified thrift plan acquired 19,000 shares and distributed 35,643 shares of the Company's Common Stock during the nine months ended September 30, 2016 and held 560,294 shares of the Company's Common Stock at September 30, 2016.

8. Operating Lease Commitment - In September 2007, the Company entered into an operating lease agreement for office space which expires in February 2018 and provided for aggregate rental payments of approximately \$10,755,000, net of construction credits. The lease agreement contains clauses whereby the Company receives free rent for a specified number of months and credit towards construction of office improvements, and incurs escalations annually relating to operating costs and real property taxes and to annual rent charges beginning in February 2013. The Company has the option to renew the lease after February 2018 for five years at market rates. Rental expense approximated \$886,700 for the nine months ended September 30, 2016. Minimum rental commitments under the operating lease are approximately \$1,183,000 in 2016 and 2017, and \$99,000 in 2018.

Previous purchases of the Company's Common and Preferred Stock are set forth in Note 5 on pages 10 and 11. Prospective purchases of Common and Preferred Stock may be made at such times, at such prices, in such amounts and in such manner as the Board of Directors may deem advisable.

The policies and procedures used by the Company to determine how to vote proxies relating to portfolio securities and the Company's proxy voting record for the twelve-month period ended September 30, 2016 are available: (1) without charge, upon request, by calling us at our toll-free telephone number (1-800-436-8401), (2) on the Company's website at www.generalamericaninvestors.com and (3) on the Securities and Exchange Commission's website at www.sec.gov.

In addition to distributing financial statements as of the end of each quarter, General American Investors files a Quarterly Schedule of Portfolio Holdings (Form N-Q) with the Securities and Exchange Commission ("SEC") as of the end of the first and third calendar quarters. The Company's Forms N-Q are available at www.generalamericaninvestors.com and on the SEC's website: www.sec.gov. Copies of Forms N-Q may also be obtained and reviewed at the SEC's Public Reference Room in Washington, DC or through the Company by calling us at 1-800-436-8401. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC-0330.

On April 15, 2016, the Company submitted a CEO annual certification to the New York Stock Exchange ("NYSE") on which the Company's principal executive officer certified that he was not aware, as of that date, of any violation by the Company of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Company's principal executive and principal financial officer made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q relating to, among other things, the Company's disclosure controls and procedures and internal control over financial reporting, as applicable.
