Section 1 – Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

This Form SD of NuVasive, Inc. (the “Company”) has been prepared and filed pursuant to Rule 13p-1 promulgated under the Securities Exchange Act of 1934, as amended (the “Rule”), for the reporting period January 1, 2013 to December 31, 2013. A copy of the Company’s Conflict Minerals Report (the “Report”) is attached as Exhibit 1.02 to this Form SD, and is publicly available at www.nuvasive.com.

The Rule requires disclosure of certain information when a company manufactures or contracts to manufacture products and the minerals specified in the Rule are necessary to the functionality or production of those products. The specified minerals referred to as “Conflict Minerals” are gold, columbite-tantalite (coltan), cassiterite and wolframite, including their derivatives which are limited to tantalum, tin and tungsten. The “Covered Countries” for purposes of the Rule and the Company’s Report are the Democratic Republic of Congo (the “DRC”) or an “adjoining country” (as defined by Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010).

The Company conducted an analysis and evaluation of all of its current products to determine whether such products contain “Conflict Minerals” and determined that certain products it manufactures or contracts to be manufactured do contain “Conflict Minerals,” as defined by the Rule. In accordance with the Rule, the Company performed a reasonable country of origin inquiry to seek to determine the source and chain of custody of the “Conflicts Minerals” contained within its products and determined such products to be “DRC Conflict Undeterminable.” As a result of this determination, the Company has filed a Conflict Minerals Report attached as Exhibit 1.02 hereto.

Item 1.02 Exhibit

A copy of NuVasive, Inc.'s Conflict Minerals Report is filed as Exhibit 1.02 hereto and is publicly available at www.nuvasive.com.
