CELAYA, Mexico, April 24 /PRNewswire-FirstCall/ -- Industrias Bachoco S.A.B. de C.V. ("Bachoco" or "the Company") (NYSE: IBA; BMV: Bachoco), Mexico's leading producer and processor of poultry products, today announced its unaudited results for the quarter ended March 31, 2008. All figures have been prepared in accordance with Mexican GAAP. In accordance with Mexican Accounting Principles, 2008's first quarter is presented in nominal pesos while the first quarter of 2007 is presented in constant pesos as of December 31, 2007.

Highlights:

- The Company recorded sales of Ps. 4,743.3 million during the first quarter of 2008, 16.5% above the Ps. 4,071.0 million reached during the same period last year.
- Bachoco sales increased across all its business lines. - Operating profit increased 7.6% during the quarter, while EBITDA was 7.4% higher at Ps. 393.3 million in 1Q08 from Ps. 366.1 million in 1Q07.

CEO's Comments:

Cristobal Mondragon, Bachoco's CEO, stated, "During the quarter our company, as most companies in the industry worldwide, was affected by continuous increases in the cost of grain and soybean meal, our main raw materials.

"In response to the current adverse conditions, we reinforced our productivity efforts, optimized our mix products and transferred part of our cost increases to products price as the demand and economy allowed us to do so. Demand and supply were stable during most of the quarter.

"We continued growing, volume sold increased in our main product lines as well as total sales, operating profits and EBITDA.

"Our financial condition remains strong, Cash and Cash equivalents totaled Ps. 3,162.0 millions and our CAPEX was entirely financed by own generated resources.

"We also continued to reinforce our new image launched last December to improve our brand recognition," concluded Mr. Mondragon.

Recent Developments:

On April 16, the Company announced that the secondary process of its plant located in Monterrey, in Northern Mexico, caught fire on April 13. Presently, the Company is still evaluating the extent of the damage. Nevertheless, Bachoco continues supplying normally to its costumers.

Adoption of New Accounting Standards

As of January 1, 2008, the Company has adopted the changes to "Inflationary Effects" in accordance with the Mexican Accounting Principles. Due to the relatively low inflation that the country has consistently achieved during the past several years, a new accounting principle went into effect on January 1, 2008, which eliminates the recognition of inflationary effects in its financial information. Consequently, financial information corresponding to the period ended March 31, 2007 is expressed in Millions of Mexican Pesos with purchasing power as of December 31, 2007, while the financial information for the period ended March 31, 2008, is stated in current or nominal Mexican Pesos.

FIRST QUARTER 2008 RESULTS

Net Sales

Net sales for the quarter reached Ps. 4,743.3 million, 16.5% above the Ps. 4,071.0 million reported in 1Q07. This increase was mainly driven by the 16.5% increase in chicken sales, 25.4% in table eggs sales, 7.1% in balanced feed

sales and 11.0% increase in swine sales.

Net Sales by Product Line	1Q08 (%)	1Q07 (%)
CHICKEN	76.2	76.2
EGGS	11.4	10.6
BALANCED FEED	7.8	8.5
SWINE	0.9	0.9
OTHER LINES	3.8	3.9
TOTAL COMPANY	100.0	100.0

Operating Results

Bachoco's first quarter gross margin of 17.4% was lower than 18.5% in 1Q07. As it occurred in the previous quarters, the decrease is mainly attributed to the increase in raw materials costs. The Company's operating profit increased 7.6% to Ps. 244.4 million with respect to the same quarter last year while EBITDA increased 7.4% during the quarter to Ps. 393.3 million, above the Ps. 366.1 million in the same period of 2007.

Taxes

Taxes recognized by the Company during the quarter were Ps. 63.2 million.

Net Income

Net income for 1Q08 was Ps. 230.8 million, or Ps. 0.38 per share (US\$0.43 per ADS), compared to net income of Ps. 248.8 million, or Ps. 0.41 per share (US\$0.47 per ADS) reported in the same 2007 period.

Balance Sheet

The Company's financial structure remained healthy. Liquidity is solid with cash and cash equivalents of Ps. 3,162.0 million as of March 31, 2008. Total debt outstanding was Ps. 102.6 million as of March 31, 2008. CAPEX during the quarter amounted to Ps. 368.5 million.

RESULTS BY BUSINESS SEGMENT

Chicken

Chicken sales rose 16.5% during 1Q08 as a result of an 8.6% increase in price and 7.2% volume gain. During this quarter, demand for chicken was stable, while we observed a good level in chicken prices during most of the quarter. The volume increase was driven mainly by productivity improvements and the integration of the business arrangement with the company Libra, announced in February of 2007.

Table Eggs

As it occurred in the previous quarter, sales of table eggs were stronger, increasing 25.4%, as a result of 22.9% higher egg prices and 2.0% volume gain. Demand for table eggs was strong during the quarter.

Balanced Feed

This business line has been directly affected by cost increases in our main raw material. Even when the Company achieved an increase of 7.1% in sales, volume dropped 6.4% when compared with previous year.

Swine

Sales of swine increased 11.0% in the quarter as a result of the 11.4% volume gain, which was partially offset by a 0.3% decrease in prices.

Other Lines

Sales of other lines increased by 15.2% during 1Q08, mainly as a result of the integration of our two new business lines: turkey and beef products.
