NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2008

NOTE 1 — ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

On November 16, 2005, a wholly-owned subsidiary of MDwerks, Inc. (f/k/a Western Exploration, Inc., and hereinafter referred to as the “Company”) was merged with and into MDwerks Global Holdings, Inc., a Florida corporation (“MDwerks”), with MDwerks surviving. The Company acquired all of the outstanding capital stock of MDwerks in exchange for issuing 9,246,339 shares of the Company’s common stock, par value \$0.001 per share to MDwerks’ stockholders, which at closing of the Merger Agreement represented approximately 87.4% of the issued and outstanding shares of the Company’s common stock. In connection with the Merger, the Company changed its corporate name to MDwerks, Inc.

The Company has three operating subsidiaries. Xeni Medical Systems, Inc. (“Xeni Medical”) was incorporated under the laws of the state of Delaware on July 21, 2004. Xeni Medical provides a Web-based package of electronic claims solutions to the healthcare provider industry through Internet access to its “MDwerks” suite of proprietary products and services so that healthcare providers can significantly improve daily insurance claims transaction processing, administration and management. Xeni Financial Services, Corp. (“Xeni Financial”) was incorporated under the laws of the state of Florida on February 3, 2005. Xeni Financial offers financing and advances to health care providers secured by claims processed through the MDwerks system. Xeni Medical Billing, Corp. (“Xeni Billing”) was incorporated under the laws of the state of Florida on March 2, 2005. Xeni Billing offers health care providers billing services facilitated through the MDwerks system. Patient Payment Solutions, Inc. (“PPS”) was incorporated under the laws of the state of Florida on May 30, 2007. PPS planned to offer healthcare providers a payment improvement process for “out of network” claims, but never became operational and is a dormant entity.

Going concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered losses that raise substantial doubt about its ability to continue as a going concern. While the Company is attempting to attain revenue growth and profitability, the growth has not been significant enough to support the Company’s daily operations. Management may need to raise additional funds by way of a public or private offering and make strategic acquisitions. While the Company believes in the viability of its strategy to improve sales volume and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent on the Company’s ability to further implement its business plan and generate revenue. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Management believes that the actions presently being taken to further implement its business plan and generate revenue, including institutional financing described in Note 4, provide the opportunity for the Company to continue as a going concern.

The Company has raised funds in the first quarter of 2008 through the sale of preferred stock. As reflected in the accompanying consolidated financial statements, the Company has stockholders’ equity of \$5,809,301 and working capital of \$5,492,234 at March 31, 2008.

Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Item

310(b) of Regulation S-B. Accordingly, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and such adjustments are of a normal recurring nature. These consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2007 and notes thereto and other pertinent information contained in the Form 10-KSB of the Company as filed with the Securities and Exchange Commission (the “Commission”). The results of operations for the three months ended March 31, 2008 are not necessarily indicative of what the results will be for the full fiscal year ending December 31, 2008.

NOTE 1 — ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair value of financial instruments

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts reported in the consolidated balance sheet for cash, notes receivable, accounts receivable, accounts payable and accrued expenses, notes payable and loans payable approximate their fair market value based on the short-term maturity of these instruments.

Cash and cash equivalents

For purposes of the consolidated statements of cash flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less and money market accounts to be cash equivalents.

At various times, the Company has deposits in excess of the Federal Deposit Insurance Corporation limit. At March 31, 2008, the Company was approximately \$6,700,000 in excess of the \$100,000 limit. The Company has not experienced any losses on these accounts.

Advertising

The Company expenses advertising costs as incurred. Advertising costs charged to operations were approximately \$2,001 and \$34,293 for the three months ended March 31, 2008 and 2007, respectively.

Property and equipment

Property and equipment are stated at cost. Depreciation and amortization are provided using the straight-line method over the estimated useful life.

Revenue recognition

The Company follows the guidance of the Securities and Exchange Commission's ("SEC") Staff Accounting Bulletin 104 for revenue recognition. In general, the Company records revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. The following policies reflect specific criteria for the various revenue streams of the Company.

Revenue derived from fees related to claims and contract management services are generally recognized when services are provided to the customer.

MDWERKS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2008

NOTE 1 — ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

The Company, through its subsidiaries, provides advance funding for medical claims and term loan services to unaffiliated healthcare providers that are customers of the Company. The customer advances are typically collateralized by Security Agreements granting first position liens on the medical claims submitted by its customers to third party payers (the “Payers”). The advances are repaid through the remittance of payments of customer medical claims, by Payers, directly to the Company. The Company can withhold from these advances interest, an administrative fee and other charges as well as any amount for prior advances that remain unpaid after a specified number of days. These interest charges, administrative fees and other charges are recognized as revenue when earned. There is no right of cancellation or refund provisions in these arrangements and the Company has no further obligations once the services are rendered.

Revenue derived from fees related to billing and collection services are generally recognized when the customer’s accounts receivable are collected.

Revenue from implementation fees are generally recognized over the term of the customer’s agreement. Revenue derived from maintenance, administrative and support fees are generally recognized at the time the services are provided to the customer.

Income taxes

Income taxes are accounted for under the asset and liability method of Statement of Financial Accounting Standards No. 109, “Accounting for Income Taxes” (“SFAS 109”). Under SFAS 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Loss per common share

Basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted loss per share is computed by dividing net loss by the weighted average number of shares of common stock and potentially dilutive securities outstanding during each period. For the three months ended March 31, 2008 and 2007, the Company had outstanding options to purchase an aggregate of 3,514,250 and 2,876,250 shares of common stock, respectively and warrants to purchase an aggregate of 57,566,346 and 2,733,012 shares of common stock, respectively, 40,000 and 100,000 shares of common stock, respectively, issuable upon conversion of Series A preferred stock, 13,333,334 and 0 shares of common stock, respectively, issuable upon conversion of Series B preferred stock, and 2,222,222 and 2,222,222 shares of common stock, respectively, issuable upon conversion of notes payable which could potentially dilute future earnings per share. Diluted loss per common share has not been presented for the three months ended March 31, 2008 and 2007 since the impact of the stock options and warrants would be antidilutive.

NOTE 1 — ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Stock-based compensation

In January 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share Based Payment (“SFAS No. 123R”) utilizing the modified prospective method. SFAS No. 123R establishes the financial accounting and reporting standards for stock-based compensation plans. As required by SFAS No. 123R, the Company recognizes the cost resulting from all stock-based payment transactions including shares issued under its stock option plans in the consolidated financial statements.

Recent accounting pronouncements

In February 2007, the FASB issued SFAS No. 159 *The Fair Value Option for Financial Assets and Financial Liabilities - including an Amendment of SFAS No. 115*, (“SFAS 159”), which permits an entity to measure many financial assets and financial liabilities at fair value that are not currently required to be measured at fair value. Entities that elect the fair value option will report unrealized gains and losses in earnings at each subsequent reporting date. The fair value option may be elected on an instrument-by-instrument basis, with few exceptions. SFAS 159 amends previous guidance to extend the use of the fair value option to available-for-sale and held-to-maturity securities. The Statement also establishes presentation and disclosure requirements to help financial statement users understand the effect of the election. SFAS No. 159 is effective as of the beginning of the first fiscal year beginning after November 15, 2007. The Company is currently evaluating the impact of adopting SFAS 159.

In December 2007, the FASB issued two new pronouncements, SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements- an amendment of ARB NO. 51 and SFAS No. 141 (revised 2007) Business Combinations. Both pronouncements call for prospective reporting only and would not effect any current (or currently contemplated) transactions by the Company.

The Company does not believe that any other recently issued, but not yet effective accounting standards will have a material effect on the Company’s consolidated financial position, results of operations or cash flows.

NOTE 2 — ACCOUNTS AND NOTES RECEIVABLE

Accounts receivable are recorded when revenue has been recognized but not yet collected. The Company had \$79,424 of accounts receivable as of March 31, 2008 and 66,985 as of December 31, 2007 from implementation, processing, collection, and other fees, and disbursements not yet collected.

Accounts and notes receivable are reported at their outstanding unpaid principal balances reduced by an allowance for doubtful accounts. The Company estimates doubtful accounts based on historical bad debts, factors related to specific customers' ability to pay and current economic trends. The Company writes off receivables against the allowance when a balance is determined to be uncollectible.

At March 31, 2008, the Company advanced six healthcare providers under lines of credit and note agreements, respectively, aggregating \$1,636,091. Advances under the lines of credit are due to be repaid out of providers' claims collections, as defined in the agreement. The notes receivable under note agreements are payable as the provider collects certain receivables. The Company charged the healthcare providers interest and other charges as defined in the agreements. At March 31, 2008, no amounts were past due, but an allowance for doubtful accounts of \$125,000 was recorded for one note receivable due to the company's estimate of the note holder's ability to pay. At December 31, 2007, the Company had \$1,652,079 of notes receivable.

NOTE 4 — NOTES PAYABLE

On August 24, 2006, we received gross proceeds of \$250,000 (net proceeds of \$236,566, after expenses) in connection with a financing provided by an unrelated party. These notes bore interest at 7% per year, and both interest and principal were paid in full on October 1, 2007.

On August 24, 2006, the Company received gross proceeds of \$110,000 (net proceeds of \$100,000, after expenses) in connection with a financing provided equally by two unrelated parties. These notes bore interest at 10% per year, and both interest and principal were paid in full on the January 21, 2007 maturity date.

On each of October 20, 2006 and November 9, 2006 we received gross proceeds of \$2,500,000 (\$2,375,000 net proceeds) for a total of \$5,000,000 in the aggregate (\$4,750,000 in the aggregate) in connection with a financing provided by Gottbetter Capital Master, Ltd. (in liquidation, an unaffiliated accredited institutional investor ("Gottbetter")). Pursuant to the terms of a Securities Purchase Agreement that we entered into with Gottbetter in connection with the financing, we issued two senior secured convertible promissory notes to Gottbetter, each in the original principal amount of \$2,500,000 (each a "Senior Note" and collectively, the "Senior Notes"), five year Series D Warrants to purchase 375,000 shares of our common stock at a price of \$2.25 per share ("Series D Warrants") and five year Series E Warrants to purchase 375,000 shares of our common stock at a price of \$3.25 per share ("Series E Warrants").

NOTE 4 — NOTES PAYABLE (continued)

In connection with an extension until February 1, 2008 of repayment of principal on the Senior Notes described above, the Company granted to Gottbetter an additional five year Series D warrants to purchase 500,000 shares of its common stock at an exercise price of \$2.25 per share which warrants expire on September 27, 2012. These warrants were treated as a discount on the secured promissory note and were valued at \$252,361 amortized over the 4-month extension. The fair market value of each stock warrant was estimated on the date of grant using the Black-Scholes option-pricing model in accordance with SFAS No. 123R using the following weighted-average assumptions: expected dividend yield 0%; risk-free interest rate of 4.23%; volatility of 116% and an expected term of 5 years.

In order to memorialize the extension of the principal payment date to February 1, 2008 in the October Note and the November Note, we issued to Gottbetter an amended and restated October Note and an amended and restated November Note.

In connection with obtaining the consent and waiver of Gottbetter to the financing provided by Vicis Capital Master Fund, an unaffiliated accredited investor ("Vicis") described below, we entered into the Gottbetter Consent Agreement, pursuant to which Gottbetter agreed to waive its anti-dilution rights under the Series D Warrants, Series E Warrants and promissory notes that we previously issued to Gottbetter and Gottbetter consented to the financing provided by Vicis.

On December 3, 2007 we received gross proceeds of \$575,000 in connection with a financing provided by Vicis. In connection with the financing, we issued a Convertible Note to Vicis in the original principal amount of \$575,000 (the "Note"). The Note bears interest at the rate of 8% per year. Subject to certain prepayment provisions, unpaid principal and interest due under the Note was due and payable on December 2, 2008. On March 31, 2008 both interest and principal on this Note were paid in full as part of the March Securities Purchase Agreement described below.

As consideration for Gottbetter entering into the Gottbetter Consent Agreement, we issued to Gottbetter a Series I warrant to purchase 1,000,000 shares of our common stock at an exercise price of \$0.75 per share. The Series I Warrant is exercisable for a period of five years from the date of issuance. The Series I Warrant may be exercised on a cashless basis to the extent that the resale of shares of common stock underlying the Series I Warrant is not covered by an effective registration statement. The exercise price will be subject to adjustment in the event of subdivision or combination of shares of our common stock and similar transactions, distributions of assets, issuances of shares of common stock with a purchase price below the exercise price of the Series I Warrant, issuances of any rights, warrants or options to purchase shares of our common stock with an exercise price below the exercise price of the Series I Warrant and issuances of convertible securities with a conversion price below the exercise price of the Series I Warrant. The fair market value of each stock warrant was estimated on the date of grant using the Black-Scholes option-pricing model in accordance with SFAS No. 123R using the following weighted-average assumptions: expected dividend yield 0%; risk-free interest rate of 2.46%; volatility of 117% and an expected term of 5 years.

NOTE 4 — NOTES PAYABLE (continued)

We amended the Registration Rights Agreement, previously entered into, by and between Vicis and us in September 2007. We agreed, in addition to registering the securities previously covered by such Registration Rights Agreement, to register for resale, the common stock relating to convertible shares of our preferred stock and the Series F Warrants and the Series G Warrants that are exercisable pursuant to the January Securities Purchase Agreement.

On March 1, 2008, the Company and Gottbetter amended the Senior Notes to extend the maturity date of the Senior Notes to January 1, 2011 and to delay principal payments until March 1, 2008, since the Company was able to secure additional financing by March 31, 2008. If the Company was unable to secure additional financing by March 31, 2008, the amendment to the Senior Notes would have been void and of no force and effect. In consideration of the amendment to the Senior Notes, the Company issued to Gottbetter 1,000,000 Series I warrants. The Series I Warrants are exercisable at a price of \$0.75 per share for a period of five years from the date of issuance.

The fair market value of each stock warrant was estimated on the date of grant using the Black-Scholes option-pricing model in accordance with SFAS No. 123R using the following weighted-average assumptions: expected dividend yield 0%; risk-free interest rate of 2.46%; volatility of 117% and an expected term of 7 years.

Pursuant to the March Securities Purchase Agreement, the aggregate gross purchase price for the Series B Preferred Stock and the Series H Warrant was \$7,500,000, which was paid by wire transfer of immediately available funds and the surrender for cancellation of a promissory note that we issued to Vicis in the principal amount of \$575,000. Principal and accrued interest under the promissory note and \$100,000 of Vicis' expenses were applied against the purchase price.

The March Securities Purchase Agreement provides to Vicis, for a period of eighteen months after the closing date, a right of first refusal with respect to subsequent placements of equity or equity equivalent securities by us. The right of first refusal is on a pro rata basis (based upon the amount invested) with Gottbetter.

NOTE 4 — NOTES PAYABLE (continued)

The March Securities Purchase Agreement further provides that our obligations to Vicis under the Series B Preferred Stock, the March Securities Purchase Agreement and the various transaction documents entered into in connection with the March Securities Purchase Agreement (the “March Transaction Documents”) are secured by a lien on all of our assets pursuant to the Security Agreement, dated September 28, 2007, between us and Vicis (the “Company Security Agreement”).

The Certificate of Designations, which designates the rights, preferences, privileges and terms of the Series B Preferred Stock, provides that the Series B Preferred Stock will rank senior to other classes of Common Stock and Preferred Stock that are currently outstanding as to distributions of assets upon liquidation, dissolution or winding up and as to payment of dividends on shares of equity securities.

Each share of Series B Preferred Stock is entitled to cumulative dividends at the annual rate of 12% of the stated value of the Series B Preferred Stock. The stated value of each share of Series B Preferred Stock is \$10,000. Dividends are payable in cash or additional shares of Series B Preferred Stock.

Each share of Series B Preferred Stock is convertible, at any time, at the option of the holder, into the number of shares of Common Stock determined by dividing the stated value of the Series B Preferred Stock by the conversion price. The initial conversion price of the Series B Preferred Stock is \$0.75 per share.

The conversion price is subject to adjustment for stock splits, dividends, subdivisions, distributions, reorganizations and similar transactions. Furthermore, the conversion price is also subject to adjustment in the event of the issuance of securities for a price below the conversion price then in effect or the issuance of convertible securities with an exercise or conversion price that is less than the then current conversion price for the shares of Series B Preferred Stock.

To the extent that any shares of Series B Preferred Stock remain outstanding on March 31, 2010, each holder thereof shall have the option to either require us to redeem such holder’s shares of Series B Preferred Stock or convert such holder’s shares of Series B Preferred Stock into shares of Common Stock at the conversion price then in effect.

Holders of Series B Preferred Stock have the option to require us to redeem shares of Series B Preferred Stock in the event of a Change of Control (as defined in the Certificate of Designations).

Holders of Series B Preferred Stock are entitled to vote on matters submitted to our stockholders as if the Series B Preferred Stock had been converted into shares of Common Stock pursuant to the terms of the Certificate of Designations. Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Overview

We offer a comprehensive technology-based selection of electronic medical claims processing, funding and collection solutions to the healthcare provider industry through an Internet Web browser. Our services help doctors, hospital based practices, and other healthcare providers and their vendors to significantly improve daily insurance claims transaction administration and management.

Our Xeni Medical Systems, Inc. ("Xeni Medical") CLAIMwerks™ solutions can provide actual contract based, insurance company comparable screening and analysis of medical claims directly from a client's practice management system, so that deficiencies and errors can be corrected before they are submitted to insurance companies for electronic payment. Further, the matching, settlement and posting of private insurance company claims payments is electronically performed for clients, minimizing the bookkeeping and investigation necessary to determine payment status and collection actions.

Since the system has the capability of analyzing value and risk of claims payment, clients may also qualify for pre-approved revolving line of credit advances on claims processed by our Xeni Financial Services, Corp. ("Xeni Financial") FUNDwerks™ solution. FUNDwerks™ can electronically manage loans, loan repayments and the movement of funds through linked bank accounts administered by us for banks or finance companies; clients can receive electronic advance funding on claims they select within five business days on commercially favorable terms.

Additionally, clients may choose to complete the claims management cycle by subscribing to the Xeni Medical Billing, Inc. ("Xeni Billing") BILLwerks™ services, which can include patient billing and collections and/or managing third party appeals on the provider's behalf.

There is no major hardware or software investment required to use the Company's Web-based systems. All transactions are designed to comply with the Health Insurance Portability and Accountability Act of 1996 ("HIPAA").

We offer our services to physician and clinical service group practices, hospitals, rehabilitation centers, nursing homes and certain related practice vendors, by using internal and external resources. Internal resources consist mainly of specialized sales executives with industry knowledge and/or a portfolio of contacts. External resources consist primarily of independent sales representatives as well as channel associates, such as vendors of practice management systems and medical industry specific sales groups such as office management consultants. These sales resources can leverage an existing customer base and contacts. Our marketing is based on prioritizing potential subscribers by size, location and density, need for our products and services and distribution opportunities. Accordingly, we are focusing our marketing efforts in geographic areas such as California, Florida, Texas, New York, Illinois and New Jersey, which contains a high concentration of prospective clients.

Because we have had a limited operating history, it is difficult to accurately forecast our revenues and expenses. Additionally, our operations will continue to be subject to risks inherent in the establishment of a new business, including, among other things, efficiently deploying our capital, developing our product and services offerings, developing and implementing our marketing campaigns and strategies and developing awareness and acceptance of our products. Our ability to generate future revenues will be dependent on a number of factors, many of which are beyond our control, including the pricing of other services, overall demand for our products, market competition and government regulation.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We apply the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, we record revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. We have identified the policy below as critical to our business operations and understanding of our financial results:

Revenues derived from fees related to claims and contract management services are generally recognized when services are provided to the customer. We provide advance funding for medical claims and term loan services to unaffiliated healthcare providers. These arrangements typically require us to advance funds to these unaffiliated healthcare providers (our customers) in exchange for liens on the receivables related to invoices remitted to their clients for services performed. The advances are generally repaid through the remittance of payments of receivables by their payors directly to us. We may withhold from these advances interest, a fee charged in consideration of administration of advance funding and loans and other charges as well as the amount of receivables relating to prior advances that remain unpaid after a specified number of days. These interest charges, administrative fees and other charges are recognized as revenue when earned and are calculated on a daily basis.

Revenues derived from fees related to billing and collection services are generally recognized when the customer's accounts receivable are collected. Revenues from implementation fees are generally recognized over the term of the customer agreement. Revenues derived from maintenance, administrative and support fees are generally recognized at the time the services are provided to the customer.

We believe we have sufficient funds to conduct our business and operations as they are currently undertaken for the balance of the fiscal year.

While the Company is attempting to attain revenue growth and profitability, the growth has not been significant enough to support the Company's daily operations. Management may need to raise additional funds by way of a public or private offering and make strategic acquisitions. While the Company believes in the viability of its strategy to improve sales volume and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent on the Company's ability to further implement its business plan and generate revenue. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Management believes that the actions presently being taken to further implement its business plan and generate revenue, including institutional financing described in Note 4, provide the opportunity for the Company to continue as a going concern.

We currently have no material commitments for capital expenditures.
