-

Item 2.05 Costs Associated with Exit or Disposal Activities

On January 25, 2010, the Board of Directors of Chemtura Corporation (“Chemtura” or the “Company”) approved a restructuring plan involving the consolidation and idling of certain assets within the Flame Retardants business operations in El Dorado, Arkansas. The restructuring plan is subject to bankruptcy court approval and, if such approval is obtained, is expected to be completed by the fourth quarter of 2010. As a result of the restructuring plan, the Company expects to record exit costs of approximately \$40 million, primarily in the first half of 2010, consisting of approximately \$35 million in accelerated depreciation of property, plant and equipment and approximately \$5 million in other facility-related shutdown costs, which include accelerated recognition of asset retirement obligations, decommissioning of wells and pipelines and severance. The Company expects cash costs, including capital costs, to be approximately \$20 million primarily in 2010.

On January 25, 2010, the Company filed a motion in the United States Bankruptcy Court for the Southern District of New York seeking an order approving the restructuring plan. The motion will be heard on February 23, 2010.

SIGNATURES
