CHINA BIOLOGIC PRODUCTS INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2015 AND 2014

NOTE 1 – BASIS OF PRESENTATION, SIGNIFICANT CONCENTRATION AND RISKS

(a)

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted as permitted by rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). The December 31, 2014 consolidated balance sheet was derived from the audited consolidated financial statements of China Biologic Products, Inc. (the “Company”). The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the December 31, 2014 audited consolidated financial statements of the Company included in the Company’s annual report on Form 10-K for the year ended December 31, 2014.

In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the financial position as of March 31, 2015, the results of operations for the three months ended March 31, 2015 and 2014, and cash flows for the three months ended March 31, 2015 and 2014, have been made. All significant intercompany transactions and balances are eliminated on consolidation.

The preparation of the unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the useful lives of property, plant and equipment and intangibles with definite lives, the allowance for doubtful accounts, the fair value determinations of equity instruments and stock compensation awards, the realizability of deferred tax assets and inventories, the recoverability of intangible assets, land use rights and property, plant and equipment, and accruals for income tax uncertainties and other contingencies.

(b)

Significant Concentration and Risks

The Company's operations are carried out in the People's Republic of China (the "PRC") and are subject to specific considerations and significant risks not typically associated with companies in North America and Western Europe. Accordingly, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environment in the PRC, and by the general state of the PRC economy. The Company's results may be adversely affected by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other matters.

The Company maintains cash and deposit balances at financial institutions which, from time to time, may exceed Federal Deposit Insurance Corporation insured limits for its bank accounts located in the United States or may exceed Hong Kong Deposit Protection Board insured limits for its bank accounts located in Hong Kong. Cash and deposit balances maintained at financial institutions or state-owned banks in the PRC are not covered by insurance. Total cash at banks and deposits as of March 31, 2015 and December 31, 2014 amounted to \$157,504,444 and \$184,186,306, respectively, of which \$124,246 and \$86,744 are insured, respectively. The Company has not experienced any losses in uninsured bank deposits and does not believe that it is exposed to any significant risks on cash held in bank accounts.

The Company's two major products are human albumin and human immunoglobulin for intravenous injection ("IVIG"). Human albumin accounted for 38.2% and 42.3% of the total sales for the three months ended March 31, 2015 and 2014, respectively. IVIG accounted for 46.7% and 36.5% of the total sales for the three months ended March 31, 2015 and 2014. If the market demands for human albumin and IVIG cannot be sustained in the future or the price of human albumin and IVIG decreases, the Company's operating results could be adversely affected.

Substantially all of the Company's customers are located in the PRC. There were no customers that individually comprised 10% or more of the total sales during the three months ended March 31, 2015. There was one customer that individually comprised 10% or more of the total sales during the three months ended March 31, 2014. There was one customer represented more than 10% of accounts receivables as at March 31, 2015. No individual customer represented 10% or more of accounts receivables at December 31, 2014. The Company performs ongoing credit evaluations of its customers' financial condition and, generally, requires no collateral from its customers.

There were no suppliers that comprised 10% or more of the total purchases for the three months ended March 31, 2015 and 2014, respectively. No vendors individually represented more than 10% of accounts payable at March 31, 2015 and December 31, 2014, respectively.

NOTE 2 – ACCOUNTS RECEIVABLE

Depreciation expense for the three months ended March 31, 2015 and 2014 was \$2,201,020 and \$1,472,397, respectively.

NOTE 5 – DEPOSITS RELATED TO LAND USE RIGHTS

In 2012, Guizhou Taibang made a refundable payment of RMB83,400,000 (approximately \$13,578,354) to the local government in connection with the public bidding for a land use right in Guizhou Province. Given the decrease of the land area to be provided by the local government, RMB23,000,000 (approximately \$3,744,630) was refunded by the local government. The remaining deposits will be refunded within one year following the completion of the bidding process.

NOTE 6 – RESTRICTED CASH DEPOSITS

In February 2014, the Company made time deposits of RMB246,500,000 (approximately \$40,132,665) and RMB194,600,000 (approximately \$31,682,826) with CMB BJ Branch as a security for a 24-month \$40,000,000 loan and an 18-month \$30,000,000 loan respectively lent by CMB NY Branch (see Note 7).

In August 2014, the Company made a time deposit of RMB196,300,000 (approximately \$31,959,603) with CMB BJ Branch as a security for a 6-month RMB194,000,000 (approximately \$31,585,140) loan lent by CMB BJ Branch (see Note 7). In February 2015, the Company repaid the loan and the time deposit matured accordingly.

NOTE 7 – BANK LOANS

(a) Current

The Company's bank loans as of March 31, 2015 and December 31, 2014 consisted of the following:

Loans	Maturity date	Annual interest rate	March 31, 2015 USD	December 31, 2014 USD
Short-term bank loan, secured	February 12, 2015	5.04 %	-	31,602,600
Current portion of long-term bank loans	February 3, 2016	See note (b)	40,000,000	-
Current portion of long-term bank loans	August 11, 2015	See note (b)	26,300,000	26,300,000
Total			66,300,000	57,902,600

In August 2014, the Company entered into a credit facility agreement with CMB BJ Branch to finance the acquisition of additional equity interest in Guizhou Taibang. Pursuant to the facility agreement, the Company made an 6-month RMB194,000,000 (approximately \$31,585,140) loan from CMB BJ Branch secured by a time deposit of RMB196,300,000 (approximately \$31,959,603). The Company repaid the loan in February 2015.

Interest expense on short-term bank loans was \$196,728 and \$132,744 for the three months ended March 31, 2015 and 2014, respectively.

The Company did not have any revolving line of credit at March 31, 2015.

(b) Non-current

March 31, 2015 December 31, 2014

	USD	USD
Long-term bank loans	66,300,000	66,300,000
Less: current portion of long-term bank loans	66,300,000	26,300,000
Total non-current bank loans	-	40,000,000

The Company entered into a credit facility agreement with CMB NY Branch in February, 2014 to finance the share repurchase. Pursuant to the facility agreement, CMB NY Branch lent to the Company a 24-month \$40,000,000 loan and an 18-month \$30,000,000 loan, secured by time deposits of RMB246,500,000 (approximately \$40,132,665) and RMB194,600,000 (approximately \$31,682,826), respectively, held at CMB BJ Branch. Both loans bear an interest rate of 3-month LIBOR plus 1.3% per annum and a facility fee of 1.2% per annum. In July 2014, the Company repaid \$3,700,000 out of the 18-month \$30,000,000 loan.

NOTE 8 – INCOME TAX

In October 2014, Shandong provincial government granted Shandong Taibang the High and New Technology Enterprise certificate. This certificate entitled Shandong Taibang to enjoy a preferential income tax rate of 15% for a period of three years from 2014 to 2016.

According to Cai Shui [2011] No. 58 dated July 27, 2011, Guizhou Taibang, being a qualified enterprise located in the western region of PRC, enjoys a preferential income tax rate of 15% effective retroactively from January 1, 2011 to December 31, 2020.

The Company's effective income tax rates were 16% and 18% for the three months ended March 31, 2015 and 2014.

As of and for the the three months ended March 31, 2015, the Company did not have any unrecognized tax benefits and thus no interest and penalties related to unrecognized tax benefits were recorded. In addition, the Company does not expect that the amount of unrecognized tax benefits to change significantly within the next 12 months.

NOTE 9 – OPTIONS AND NONVESTED SHARES

Options

A summary of stock options activity for the three months ended March 31, 2015 is as follow:

For the three months ended March 31, 2015 and 2014, the Company recorded stock compensation expense of \$1,676,923 and \$553,518 respectively in general and administrative expenses.

At March 31, 2015, approximately \$17,272,879 of stock compensation expense with respect to nonvested shares is expected to be recognized over approximately 2.70 years.

NOTE 10 – FAIR VALUE MEASUREMENTS

Management used the following methods and assumptions to estimate the fair value of financial instruments at the relevant balance sheet dates:

- Short-term financial instruments (including cash and cash equivalents, restricted cash deposits, accounts receivable, other receivables, short-term bank loans including current portion of long-term bank loans, accounts payable, and other payables and accrued expenses) – The carrying amounts of the short-term financial instruments approximate their fair values because of the short maturity of these instruments.
- Restricted cash and cash deposits, excluding current portion – The carrying amounts of the restricted cash and cash deposit approximate their fair value. The fair value is estimated using discounted cash flow analysis based on the Company's incremental borrowing rates for similar borrowing.
- Long-term bank loan excluding current portion – fair value is based on the amount of future cash flows associated with the long-term bank loan discounted at the Company's current borrowing rate for similar debt instruments of comparable terms. The carrying value of the long-term bank loan approximate its fair value as the long-term bank loan carry variable interest rate which approximate rate currently offered by the Company's bankers for similar debt instruments of comparable maturities.

NOTE 11 – SALES

The Company's sales are primarily derived from the manufacture and sale of Human Albumin and Immunoglobulin products. The Company's sales by significant types of product for the three months ended March 31, 2015 and 2014 are as follows:

	For the three months ended	
	March 31, 2015	March 31, 2014
	USD	USD
Human Albumin	26,893,030	23,781,001
Immunoglobulin products:		
Human Immunoglobulin for Intravenous Injection	32,865,791	20,529,771
Other Immunoglobulin products	4,334,122	8,283,248
Placenta Polypeptide	4,552,204	2,626,553
Others	1,709,184	1,046,004
Total	70,354,331	56,266,577

NOTE 12 – COMMITMENTS AND CONTINGENCIES

Capital commitments

At March 31, 2015, commitments outstanding for the purchase of property, plant and equipment approximated \$11,632,153.

Legal proceedings

Dispute with Jie'an over Certain Capital Injection into Guizhou Taibang

In May 2007, a 91% majority of Guizhou Taibang's shareholders approved a plan to raise additional capital from qualified strategic investors through the issuance of an additional 20,000,000 shares of Guizhou Taibang. The plan required all existing Guizhou Taibang shareholders to waive their rights of first refusal to subscribe for the additional shares. The remaining 9% minority shareholder of Guizhou Taibang's shares, Guizhou Jie'an Company, or Jie'an, did not support the plan and did not waive its right of first refusal. In May 2007, Guizhou Taibang signed an Equity Purchase Agreement with certain alleged strategic investors (who concealed their background), pursuant to which such investors agreed to invest an aggregate of RMB50,960,000 (approximately \$8,296,798) in exchange for 21.4% of Guizhou Taibang's equity interests. Such Equity Purchase Agreement was not approved or ratified by over two-thirds supermajority of Guizhou Taibang's shareholders, which approval or ratification is required under the PRC Company Law. At the same time, as an existing shareholder, Jie'an also subscribed for 1,800,000 shares, representing its pro rata share of the 20,000,000 shares being offered. In total, Guizhou Taibang received RMB50,960,000 (approximately \$8,296,798) from the investors and RMB6,480,000 (approximately \$1,055,009) from Jie'an.

In June 2007, Jie'an brought a lawsuit against Guizhou Taibang, alleging that it had a right to acquire the 18,200,000 shares offered to the investors under the Equity Purchase Agreement. The trial court denied Jie'an's request, and the PRC Supreme Court ultimately sustained the original ruling in May 2009 and denied the rights of first refusal of Jie'an over the 18,200,000 shares.

During the second quarter of 2010, Jie'an requested that Guizhou Taibang register its 1.8 million shares of additional capital injection with the local administration of industry and commerce, or AIC. Guizhou Taibang's board of directors withheld its required ratification of Jie'an's request, pending the outcome of the ongoing litigation. In March 2012, Jie'an brought another lawsuit against Guizhou Taibang for refusing to register the shares. In July 2013, the trial court dismissed the lawsuit for lack of jurisdiction. Jie'an did not appeal the dismissal.

In December 2013, Jie'an brought a third lawsuit against Guizhou Taibang, requesting Guizhou Taibang to register 1.8 million shares under its name with the local AIC. In July 2014, the trial court denied Jie'an's request to register such shares. Despite the denial of Jie'an's share registration request, the trial court, however, in its ruling, ordered Guizhou Taibang to pay accumulated dividends of RMB13,809,197 (approximately \$2,248,275) associated with these shares and the related interest expenses to Jie'an. Guizhou Taibang and Jie'an subsequently filed a cross-appeal. In December 2014, the appellate court ruled in favor of Jie'an supporting its request to register 1.8 million shares and ordered Guizhou Taibang to pay Jie'an its share of accumulated dividends of RMB18,339,227 (approximately \$2,985,810) associated with these shares plus the related interest expenses to Jie'an. In February 2015, Guizhou Taibang paid RMB18,339,227 (approximately \$2,985,810) to the trial court to be held in escrow pending further appeal of this case. Guizhou Taibang appealed to the High Court of Guizhou, which accepted the appeal in March 2015.

In November 2013, Guizhou Taibang held a shareholders meeting and the shareholders passed resolutions, or the November 2013 Resolutions, that, inter alia, (i) determined that it was no longer necessary for Guizhou Taibang to obtain additional capital from investors; (ii) rejected Jie'an's request that Jie'an subscribe for additional shares of Guizhou Taibang alone and one or more other shareholders reduce their shareholding in Guizhou Taibang; and (iii) approved the issuance of a total of 20,000,000 new shares to all existing shareholders on a pro rata basis. Jie'an subsequently filed a fourth lawsuit against Guizhou Taibang in December 2013, requesting that the court declare the November 2013 Resolutions void. Both the trial court and the appellate court denied Jie'an's request.

In March 2014, Guizhou Taibang held another shareholders meeting and the shareholders passed resolutions, or the March 2014 Resolutions, that, *inter alia*, re-calculated the ownership percentage in Guizhou Taibang based on the November 2013 Resolutions and the additional capital injections from existing shareholders. Guizhou Taibang subsequently updated the registration with the local AIC regarding the additional capital injections in August 2014. In September 2014, Jie'an and another minority shareholder of Guizhou Taibang filed a lawsuit against Guizhou Taibang, requesting that the court declare both the November 2013 Resolutions and the March 2014 Resolutions void and instruct Guizhou Taibang to withdraw the AIC registration. In November 2014, the trial court suspended this case pending the final outcome of the third lawsuit filed by Jie'an.

If the pending cases with Jie'an are ultimately ruled in Jie'an's favor, the ownership interest in Guizhou Taibang may be diluted to 71% and Jie'an may be entitled to receive accumulated dividends of RMB18,339,227 (approximately \$2,985,810) and the related interest expenses (being its claimed share of Guizhou Taibang's accumulated dividend distributions associated with the 1.8 million shares and the accrued interest from the date when Jie'an's capital contribution was deemed effective till March 31, 2015) from Guizhou Taibang. As of March 31, 2015, the Company had maintained, on its balance sheet, payables to Jie'an in the amounts of RMB5,040,000 (approximately \$820,562) as received funds in respect of the 1.8 million shares in dispute, RMB1,440,000 (approximately \$234,446) for the over-paid subscription price paid by Jie'an and RMB3,429,420 (approximately \$558,344) for the accrued interest. As these cases are closely interlinked to the outcome of the disputes with certain individual investor described below, based on its PRC litigation counsel's assessment, the Company does not expect Jie'an to prevail.

Dispute with Certain Individual Investor over Certain Capital Injection into Guizhou Taibang

In part due to the invalidity of the Equity Purchase Agreement with certain alleged strategic investors in May 2007, which was never approved or ratified by Guizhou Taibang's shareholders, such investors' equity ownership in Guizhou Taibang and the related increase in registered capital of Guizhou Taibang have never been registered with the local AIC. In January 2010, one individual among such investors brought a lawsuit against Guizhou Taibang requesting to register his 14.35% ownership interest in Guizhou Taibang with the local AIC and seeking the distribution of his share of Guizhou Taibang's dividends declared since 2007.

In October 2010, the trial court denied such individual investor's right as shareholders of Guizhou Taibang and his entitlement to share the dividends, which ruling was reaffirmed after a re-trial by the same trial court in December 2012. After such ruling, Guizhou Taibang attempted to return the originally received fund of RMB34,160,000 (approximately \$5,561,590) to such investor by wiring the fund back to his bank account but was unable to do so due to the closure of his bank account. Another investor, however, accepted the returned fund of RMB11,200,000 (approximately \$1,823,472) from Guizhou Taibang in November 2010. In 2013, the same individual investor appealed the case to the PRC Supreme Court, which also denied his claims for shareholder status in Guizhou Taibang and the related dividend distribution and accrued interest in September 2013. Such investor subsequently attempted to seek for a re-trial by the PRC Supreme Court, which request was denied by the PRC Supreme Court in January 2014. He then applied to the PRC Supreme Procuratorate to request for a review of the PRC Supreme Court's decision and seek an appeal by the PRC Supreme Procuratorate to the PRC Supreme Court for an ultimate re-trial on his behalf.

The PRC Supreme Procuratorate accepted his application in December 2014 and, with the assistance of its PRC litigation counsel, the Company is in the process of preparing its response to such application. The PRC Supreme Procuratorate will consider the Company's response in deciding whether to appeal to the PRC Supreme Court on behalf of such investor, which decision process may take several months. The PRC Supreme Procuratorate had not scheduled a hearing as of the date of this report.

Based on its PRC litigation counsel's assessment, the Company does not expect such individual investor to prevail in this pending re-trial application process, but the Company cannot assure that the PRC Supreme Procuratorate will decide not to appeal for re-trial or the final outcome of such ultimate re-trial by the PRC Supreme Court (if the PRC Supreme Procuratorate decides to appeal for re-trial) will be in favor of the Company. In case the PRC Supreme Procuratorate decides to appeal for re-trial on behalf of such investor and such ultimate re-trial by the PRC Supreme Court is ruled in such investor's favor, the ownership interest in Guizhou Taibang may be diluted to 66.29% and such investor may be entitled to receive his claimed share of accumulated dividends and the accrued interests from Guizhou Taibang although he has not specified the amount of the claimed damages in his appeal to the PRC Supreme Court or the re-trial application to the PRC Supreme Procuratorate. As of March 31, 2015, Guizhou Taibang had maintained, on its balance sheet, payables to the investors of RMB34,160,000 (approximately \$5,561,590) as originally received funds from such individual investor in respect of the shares in dispute, RMB16,342,743 (approximately \$2,660,762) for the interest expenses, and RMB341,600 (approximately \$55,616) for the 1% penalty imposed by the Equity Purchase Agreement for any breach in the event that Guizhou Taibang is required to return the original investment amount to such investor.

NOTE 13 - NET INCOME PER SHARE

The following table sets forth the computation of basic and diluted net income per share for the periods indicated:

	For the three months ended	
	March 31, 2015	March 31, 2014
	USD	USD
Net income attributable to China Biologic Products, Inc.	23,162,472	18,273,671
Earnings allocated to participating nonvested shares	(502,298)	(259,779)
Net income used in basic/diluted net income per common stock	22,660,174	18,013,892
Weighted average shares used in computing basic net income per common stock	24,816,877	24,950,549
Diluted effect of stock option	1,249,909	1,182,380
Weighted average shares used in computing diluted net income per common stock	26,066,786	26,132,929
Net income per common stock – basic	0.91	0.72
Net income per common stock – diluted	0.87	0.69

During the three months ended March 31, 2015 and 2014, no option was antidilutive and excluded from the calculation of diluted net income per common stock.

Overview of Our Business

We are a biopharmaceutical company principally engaged in the research, development, manufacturing and sales of human plasma-based biopharmaceutical products, or plasma products, in China. We operate our business through two majority owned subsidiaries, Shandong Taibang, a company based in Tai’an, Shandong Province and Guizhou Taibang, a company based in Guiyang, Guizhou Province. We also hold a minority equity interest in Huitian, a company based in Xi’an, Shaanxi Province.

We have a strong product portfolio with over 20 different dosage forms of plasma products. Our principal products are human albumin and immunoglobulin for intravenous injection, or IVIG. Albumin has been used for almost 50 years to treat critically ill patients by assisting the maintenance of adequate blood volume and pressure. IVIG is used for certain disease prevention and treatment by enhancing specific immunity. These products use human plasma as their principal raw material. Sales of human albumin products represented approximately 38.2% and 42.3% of our total sales for the three months ended March 31, 2015 and 2014, respectively. Sales of IVIG products represented approximately 46.7% and 36.5% of our total sales for the three months ended March 31, 2015 and 2014, respectively. All of our products are prescription medicines administered in the form of injections.

Our sales model focuses on direct sales to hospitals and inoculation centers and is complemented by distributor sales. We usually enter into short-term contracts with customers and therefore our largest customers have changed over the years. For the three months ended March 31, 2015 and 2014, our top five customers accounted for approximately 13.8% and 23.3%, respectively, of our total sales. As we continue to expand our geographic presence and diversify our customer base and product mix, we expect that our largest customers will continue to change from year to year.

We operate and manage our business as a single segment. We do not account for the results of our operations on a geographic or other basis.

Our principal executive offices are located at 18th Floor, Jialong International Building, 19 Chaoyang Park Road, Chaoyang District, Beijing 100125, the People’s Republic of China. Our corporate telephone number is + (86) 10-6598-3111 and our fax number is + (86) 10-6598-3222. We maintain a website at <http://www.chinabiologic.com>, which contains information about the Company, but that information is not part of this report.

Recent Developments

Approval to Purchase Raw Materials

Guizhou Taibang has received a one-time special approval from the CFDA to purchase up to approximately 143 tonnes of source plasma and plasma pastes from Xinjiang Deyuan Bioengineering Co., Ltd., or Xinjiang Deyuan, for a total consideration of up to approximately RMB139 million (approximately US\$22.6 million) pursuant to certain agreements entered into between Guizhou Taibang and Xinjiang Deyuan. Source plasma and plasma pastes are raw materials for producing human albumin and IVIG products.

These raw materials are expected to be delivered during the second quarter of 2015, and the final purchase volume is contingent upon our quality inspection of these raw materials. We expect that the final products made from such purchased raw materials will be released to market in 2015 and 2016.

Removal of Retail Price Ceilings for Drug Products

In an announcement published on May 5, 2015, Chinese National Development and Reform Commission removed the retail price ceilings for all drug products (except for anesthetics and category I antipsychotics), which will come into effect on June 1, 2015. Although we are still assessing the impact of the price ceiling removal on our plasma products, we believe that this deregulation move should be a favorable policy development for our industry and business in the long term.

First Quarter Financial Performance Highlights

The following are some financial highlights for the three months ended March 31, 2015:

Sales: Sales increased by \$14.1 million, or 25.0%, to \$70.4 million for the three months ended March 31, 2015, from \$56.3 million for the same period in 2014.

Gross profit: Gross profit increased by \$7.3 million, or 18.9%, to \$45.9 million for the three months ended March 31, 2015, from \$38.6 million for the same period in 2014.

Income from operations: Income from operations increased by \$6.7 million, or 23.9%, to \$34.7 million for the three months ended March 31, 2015, from \$28.0 million for the same period in 2014.

Net income attributable to the Company: Net income increased by \$4.9 million, or 26.8%, to \$23.2 million for the three months ended March 31, 2015, from \$18.3 million for the same period in 2014.

Diluted net income per share: Diluted net income per share was \$0.87 for the three months ended March 31, 2015, as compared to \$0.69 for the same period in 2014.

Sales

Our sales increased by \$14.1 million, or 25.0%, to \$70.4 million for the three months ended March 31, 2015, compared to \$56.3 million for the same period in 2014. The increase in sales for the three months ended March 31, 2015 was primarily attributable to the sales volume increases in major plasma-based products and placenta polypeptide.

The following table summarizes the breakdown of sales by significant types of product:

	For the three months ended				Change	
	March 31, 2015		2014			
	Amount	%	Amount	%	Amount	%
	(U.S. dollars in millions, except percentage)					
Human Albumin	26.9	38.2	23.8	42.3	3.1	13.0
Immunoglobulin products:						
IVIG	32.9	46.7	20.5	36.5	12.4	60.5
Other Immunoglobulin products	4.3	6.2	8.3	14.7	(4.0)	(48.2)
Placenta Polypeptide	4.6	6.5	2.6	4.6	2.0	76.9
Others	1.7	2.4	1.1	1.9	0.6	54.5
Totals	70.4	100.0	56.3	100.0	14.1	25.0

During the three months ended March 31, 2015 as compared to the three months ended March 31, 2014:

the average price for our approved human albumin products, which accounted for 38.2% of our total sales for the three months ended March 31, 2015, increased by 0.3% and 0.7% in USD term and RMB term, respectively; and

the average price for our approved IVIG products, which accounted for 46.7% of our total sales for the three months ended March 31, 2015, increased by 1.9% and 2.3% in USD term and RMB term, respectively.

The average sales price for our human albumin products and IVIG products increased slightly for the three months ended March 31, 2015 as compared to the same period in 2014, as a result of the combined effect of the reduced value added tax, or VAT, rate and our sales effort to increase market shares in tier-one cities and new markets. On the one hand, the VAT rate on sales of plasma products was reduced from 6% to 3%, effective on July 1, 2014, pursuant to a notice jointly promulgated by the PRC Ministry of Finance and the PRC State Administration of Taxation in June 2014. The reduction in the VAT rate had a positive impact on our sales prices as our sales are recognized as the invoiced price of the products sold minus VAT. All other factors being equal, the reduction in the VAT rate may increase our sales price of plasma products by 2.9%. On the other hand, to improve brand recognition, we increased the market share of our human albumin products and IVIG products in tier-one cities and new markets through distributors by lowering the invoiced prices during the three months ended March 31, 2015.

The sales volume of our products depends on market demand and our production volume. The production volume of our human albumin products and IVIG products depends primarily on the general plasma supply. The production volume of our hyper-immune products, which include human rabies immunoglobulin, human hepatitis B immunoglobulin and human tetanus immunoglobulin products, is subject to the availabilities of specific vaccinated plasma and our production capacity. The supply of specific vaccinated plasma requires several months of lead time. Our production facility currently can only accommodate the production of one type of hyper-immune products at any given time and we rotate the production of different types of hyper-immune products from time to time in response to market demand. As such, the sales volume of any given type of hyper-immune products may vary significantly from quarter to quarter.

The sales volume of our human albumin products increased by 13% for the three months ended March 31, 2015 as compared to the same period in 2014, as a result of the increased sales volume at Guizhou Taibang. Guizhou Taibang resumed production in March 2014 and shipped its first batch of products for sales in July 2014 after the completion of government batch approval. The sales volume of our IVIG products increased by 57% for the three months ended March 31, 2015 as compared to the same period in 2014. The increase in sales volume of IVIG was primarily due to the increased sales through distributors in tier-one cities and new markets supported by the increased output following the production resumption at Guizhou Taibang. Further, in anticipation of a favorable market environment and our increased sales capabilities this year, we reserved a large volume of the prior years' IVIG pastes to be processed and sold throughout 2015, which also contributed to our increased sales volume during the three months ended March 31, 2015.

The sales decrease of other immunoglobulin products in the three months ended March 31, 2015 as compared to the same period in 2014 was mainly attributable to the decrease in sales volume of human rabies immunoglobulin products. The decrease in sales volume of human rabies immunoglobulin was primarily a result of decreased production volume during this period. We adjusted the supply of various hyper-immune vaccinated plasma and their production in response to the market demand. For the three months ended March 31, 2015, we decreased our sales of human rabies immunoglobulin products by \$3.9 million as compared to the same period in 2014.

The sales increase of placenta polypeptide products was generally in line with the volume increase for the three months ended March 31, 2015 as compared to the same period in 2014. The sales volume of placenta polypeptide products increased by 74% for the three months ended March 31, 2015 as compared to the same period in 2014. This increase was due to the ramp-up of placenta polypeptide at Guizhou Taibang after its receipt of the GMP certification for the upgraded production facilities in January 2014.

Cost of sales & gross profit

	For the three months ended March 31,		Change	
	2015	2014	Amount	%
	(U.S. dollars in millions, except percentage)			
Cost of sales	24.5	17.7	6.8	38.4 %
as a percentage of total sales	34.8 %	31.5 %		3.3 %
Gross Profit	45.9	38.6	7.3	18.9 %
Gross Margin	65.2 %	68.5 %		(3.3)%

Our cost of sales was \$24.5 million, or 34.8% of our sales for the three months ended March 31, 2015, as compared to \$17.7 million, or 31.5% of our sales for the same period in 2014. Our gross profit was \$45.9 million and \$38.6 million for the three months ended March 31, 2015 and 2014, respectively, representing gross margins of 65.2% and 68.5%, respectively. Our cost of sales and gross margin are affected by the volume and pricing of our sold products, raw material costs, production mix and respective yields, inventory impairments, production cycles and routine maintenance costs.

The increase in cost of sales in the three month ended March 31, 2015 as compared to the same period in 2014 was generally in line with the increases in sales volume and cost of plasma. In an effort to increase plasma collection volume and expand our donor base, we increased the nutrition fees paid to donors consistent with the industry practice. We expected the nutrition fees to be paid to donors continue to increase as a result of improving living standards in China. Consequently, future improvements on margins will need to be derived from increases in product pricing and volume, product mix, yields and manufacturing efficiency. The increase in cost of sales as a percentage of sales for the three months ended March 31, 2015 as compared to the same period in 2014 was mainly due to the increase in cost of plasma partially offset by the change of our product mix to include products with higher margins.

Operating expenses

	For the three months ended March 31,		Change	
	2015	2014	Amount	%
	(U.S. dollars in millions, except percentage)			
Operating expenses	11.1	10.6	0.5	4.7 %
as a percentage of total sales	15.8 %	18.8 %		(3.0)%

Our total operating expenses increased by \$0.5 million, or 4.7%, to \$11.1 million for the three months ended March 31, 2015, from \$10.6 million for the same period in 2014. As a percentage of sales, total expenses decreased by 3.0% to 15.8% for the three months ended March 31, 2015, from 18.8% for the same period in 2014. The increase of the total operating expenses was a combined effect of the decrease of the selling expenses and the increase of research and development expenses and general and administrative expenses as discussed below.

Selling expenses

	For the three months ended		Change	
	March 31, 2015	2014	Amount	%

Edgar Filing: China Biologic Products, Inc. - Form 10-Q

	(U.S. dollars in millions, except percentage)			
Selling expenses	2.0	2.3	(0.3)	(13.0)%
as a percentage of total sales	2.8 %	4.1 %		(1.3)%

Our selling expenses decreased by \$0.3 million, or 13.0%, to \$2.0 million for the three months ended March 31, 2015, from \$2.3 million for the same period in 2014. As a percentage of sales, our selling expenses for the three months ended March 31, 2015 decreased by 1.3% to 2.8%, from 4.1% for the same period in 2014. The decrease was mainly due to the decreased per unit selling expense of placenta polypeptide for the three months ended March 31, 2015 as compared to the same period in 2014. Guizhou Taibang had engaged a service provider since 2011 for a fee to promote its sales of placenta polypeptide. We shifted to utilizing internal resources for our promotional efforts and did not renew the engagement upon its expiration in May 2014.

General and administrative expenses

	For the three months ended March 31,		Change	
	2015	2014	Amount	%
	(U.S. dollars in millions, except percentage)			
General and administrative expenses	7.9	7.2	0.7	9.7 %
as a percentage of total sales	11.2 %	12.8 %		(1.6)%

Our general and administrative expenses increased by \$0.7 million, or 9.7%, to \$7.9 million for the three months ended March 31, 2015, from \$7.2 million for the same period in 2014. General and administrative expenses as a percentage of sales decreased by 1.6% to 11.2% for the three months ended March 31, 2015, from 12.8% for the same period in 2014. The increase in general and administrative expenses was mainly due to the increase of share-based compensation expenses.

Research and development expenses

	For the three months ended March 31,		Change		
	2015	2014	Amount	%	
	(U.S. dollars in millions, except percentage)				
Research and development expenses	1.3	1.1	0.2	18.2	%
as a percentage of total sales	1.9 %	1.9 %		-	

Our research and development expenses increased by \$0.2 million, or 18.2%, to \$1.3 million for the three months ended March 31, 2015, from \$1.1 million for the same period in 2014. As a percentage of sales, our research and development expenses for the three months ended March 31, 2015 and 2014 were 1.9% and 1.9%, respectively. The increase in research and development expenses was mainly due to the expenditure paid for certain clinical trial programs and the raw materials consumed for certain pipeline products for the three months ended March 31, 2015.

Income tax

	For the three months ended March 31,		Change		
	2015	2014	Amount	%	
	(U.S. dollars in millions, except percentage)				
Income tax	5.6	5.3	0.3	5.7	%
as a percentage of total sales	8.0 %	9.5 %		(0.5)	%

Our provision for income taxes increased by \$0.3 million, or 5.7%, to \$5.6 million for the three months ended March 31, 2015, from \$5.3 million for the same period in 2014. Our effective income tax rates were 15.9% and 18.2% for the three months ended March 31, 2015 and 2014, respectively. Tax rate applicable to our major operating subsidiaries in the PRC for 2015 and 2014 is 15%. We no longer accrue dividend withholding income tax in respect of Shandong Taibang since 2015 due to internal corporate restructuring, which contributed to the decrease in effective income tax rate.

Liquidity and Capital Resources

To date, we have financed our operations primarily through cash flows from operations, augmented by bank borrowings and equity offerings. As of March 31, 2015, we had \$86.0 million in cash and cash equivalents, primarily consisting of cash on hand and demand deposits.

The following table provides the summary of our cash flows for the periods indicated:

	For the three months ended March 31,	
	2015	2014
	(U.S. dollars in millions)	
Net cash provided by operating activities	16.5	11.5
Net cash (used in) provided by investing activities	(8.5)	0.9
Net cash used in financing activities	(2.1)	(78.2)
Effects of exchange rate change on cash	(0.7)	(0.8)
Net increase (decrease) in cash and cash equivalents	5.2	(66.6)
Cash and cash equivalents at beginning of the period	80.8	144.1
Cash and cash equivalents at end of the period	86.0	77.5

Operating Activities

Net cash provided by operating activities for the three months ended March 31, 2015 was \$16.5 million, as compared to \$11.5 million for the same period in 2014. The increase in net cash provided by operating activities was primarily due to the impact from changes in net income for the three months ended March 31, 2015 as compared to the same period in 2014, partially offset by the impact from changes in accounts receivable during this period. Accounts receivable increased by \$9.2 million during the three months ended March 31, 2015, as compared to \$6.4 million during the same period in 2014, primarily due to the credit terms granted to the human rabies immunoglobulin distributors. In 2015, in order to further penetrate the market for human rabies immunoglobulin product, we changed our sales strategy to collaborate more closely with specialized distributors in their bidding efforts with provincial centers for disease control and prevention to facilitate the sales of human rabies immunoglobulin products. As a result, we granted credit terms ranging from two to three months to these specialized distributors rather than requiring full prepayments prior to deliveries.

Investing Activities

Net cash used in investing activities for the three months ended March 31, 2015 was \$8.5 million, as compared to net cash provided by investing activities of \$0.9 million for the same period in 2014. During the three months ended March 31, 2015 and 2014, we paid \$8.5 million and \$7.5 million, respectively, for the acquisition of property, plant and equipment, intangible assets and land use right for Shandong Taibang and Guizhou Taibang. During the three months ended March 31, 2014, we received a refund of deposit of \$1.6 million from the local government due to a decrease in the size of a land parcel that was granted to us in Guizhou, and received \$6.6 million upon the maturity of a time deposit.

Financing Activities

Net cash used in financing activities for the three months ended March 31, 2015 totaled \$2.1 million, as compared to \$78.2 million used for the same period in 2014. The net cash used in financing activities for the three months ended March 31, 2015 mainly consisted of a repayment of \$31.6 million on a short-term bank loan and a dividend of \$3.0 million to be held in escrow by a trial court in connection with disputes with a minority shareholder of Guizhou Taibang, partially offset by the maturity of a \$32.0 million deposit as security for the same short-term bank loan. The net cash used in financing activities for the three months ended March 31, 2014 mainly consisted of a payment of \$70.0 million for share repurchase, a deposit of \$72.1 million as cash collateral for certain long-term bank loans, a repayment of \$4.9 million on a short-term bank loan, and a dividend of \$1.4 million paid by our subsidiaries to the noncontrolling interest shareholders, partially offset by proceeds of \$70.0 million from certain long-term bank loans.

Management believes that the Company has sufficient cash on hand and continuing positive cash inflow, from the sale of its products in the PRC market, for its operations.

Obligations under Material Contracts

The following table sets forth our material contractual obligations as of March 31, 2015:

Contractual Obligations	Payments due by period				
	Total	Less than one year	One to three years	Three to five years	More than five years
Long-term bank loans, including current portion	66.3	66.3	-	-	-

(U.S. dollars in millions)

Interest on bank loans	1.2	1.2	-	-	-
Operating lease commitment	0.7	0.5	-	-	0.2
Capital commitment	11.6	10.5	1.1	-	-
Total	79.8	78.5	1.1	-	0.2

Seasonality of Our Sales

Our operating results and operating cash flows historically have not been subject to seasonal variations. This pattern may change, however, as a result of new market opportunities or new product introductions.

Inflation

Inflation does not materially affect our business or the results of our operations.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our investors.

Critical Accounting Policies

Critical accounting policies are those we believe are most important to portraying our financial conditions and results of operations and also require the greatest amount of subjective or complex judgments by management. Judgments and uncertainties regarding the application of these policies may result in materially different amounts being reported under various conditions or using different assumptions. There have been no material changes to the critical accounting policies previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our operations are carried out in the PRC and we are subject to specific considerations and significant risks not typically associated with companies in North America and Western Europe. Accordingly, our business, financial condition and results of operations may be influenced by the political, economic and legal environment in the PRC, and by the general state of the PRC economy. Our results may be adversely affected by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other things.

Interest Rate Risk

We are exposed to interest rate risk primarily with respect to our bank loans. We have not used any derivative financial instruments to manage our interest rate risk exposure. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates. However, our future interest expenses may increase due to changes in market interest rates.

A hypothetical 1.0% increase in the annual interest rates for all of our credit facilities under which we had outstanding borrowings as of March 31, 2015 would result in decrease of net income before provision for income taxes by approximately \$0.2 million for the three months ended March 31, 2015.

Management monitors the banks' prime rates in conjunction with our cash requirements to determine the appropriate level of debt balances relative to other sources of funds. We have not entered into any hedging transactions in an effort to reduce our exposure to interest rate risk.

Foreign Exchange Risk

All of our consolidated revenues and consolidated costs and majority of expenses are denominated in RMB. All of our assets are denominated in RMB, except certain cash balances. However, certain of our loan facilities are denominated in U.S. dollars and our reporting currency is U.S. dollars. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between U.S. dollars and RMB. If RMB depreciates against the U.S. dollars, the value of our RMB revenues, earnings and assets as expressed in our U.S. dollar financial statements will decline. Assets and liabilities are translated at exchange rates at the balance sheet dates and revenue and expenses are translated at the average exchange rates and shareholders' equity is translated at historical exchange rates. Any resulting translation adjustments are not included in determining net income but are

included in determining other comprehensive income, a component of stockholders' equity. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk.

The value of the RMB against the U.S. dollars and other currencies is affected by, among other things, changes in China's political and economic conditions. Since July 2005, the RMB has not been pegged to the U.S. dollars. Although the People's Bank of China regularly involved in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the RMB may appreciate or depreciate significantly in value against the U.S. dollars in the medium to long term. Moreover, it is possible that in the future, PRC authorities may lift restrictions on fluctuations in RMB exchange rate and lessen involvement in the foreign exchange market.

Account Balances

We maintain balances at financial institutions which, from time to time, may exceed Federal Deposit Insurance Corporation insured limits for the banks located in the United States or may exceed Hong Kong Deposit Protection Board insured limits for the banks located in Hong Kong. Balances at financial institutions or state-owned banks within the PRC are not covered by insurance. Total cash at banks and deposits as of March 31, 2015 and December 31, 2014 amounted to \$157.5 million and \$184.2 million, respectively, \$0.1 million and \$0.1 million of which are covered by insurance, respectively. We have not experienced any losses in such accounts and we do not believe that we are exposed to any significant risks on our cash at banks and deposits.

Inflation

Inflationary factors such as increases in the cost of our sales and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of net sales if the selling prices of our products do not increase with these increased costs.

Market for Human Albumin and IVIG

Our two major products, human albumin and IVIG, accounted for 38.2% and 46.7% of the total sales for the three months ended March 31, 2015, respectively. If the market demands for human albumin or IVIG cannot be sustained in the future or if there is substantial price decrease in either or both products, our operating results could be materially and adversely affected.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Disclosure controls and procedures refer to controls and other procedures designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15(e), our management has carried out an evaluation, with the participation and under the supervision of our Chief Executive Officer, Mr. David (Xiaoying) Gao and our Chief Financial Officer, Mr. Ming Yang, of the effectiveness of the design and operation of our disclosure controls and procedures, as of March 31, 2015. Based on that evaluation, Mr. Gao and Mr. Yang concluded that our disclosure controls and procedures were effective as of March 31, 2015.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

ITEM 1.LEGAL PROCEEDINGS.

From time to time, we may become involved in various lawsuits and legal proceedings arising in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these, or other matters, may arise from time to time that may harm our business. Other than the legal proceedings set forth below, we are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results.

Dispute with Jie'an over Certain Capital Injection into Guizhou Taibang

In May 2007, a 91% majority of Guizhou Taibang's shareholders approved a plan to raise additional capital from qualified strategic investors through the issuance of an additional 20,000,000 shares of Guizhou Taibang. The plan required all existing Guizhou Taibang shareholders to waive their rights of first refusal to subscribe for the additional shares. The remaining 9% minority shareholder of Guizhou Taibang's shares, Guizhou Jie'an Company, or Jie'an, did not support the plan and did not waive its right of first refusal. In May 2007, Guizhou Taibang signed an Equity Purchase Agreement with certain alleged strategic investors (who concealed their background), pursuant to which such investors agreed to invest an aggregate of RMB51.0 million (approximately \$8.3 million) in exchange for 21.4% of Guizhou Taibang's equity interests. Such Equity Purchase Agreement was not approved or ratified by over two-thirds supermajority of Guizhou Taibang's shareholders, which approval or ratification is required under the PRC Company Law. At the same time, as an existing shareholder, Jie'an also subscribed for 1,800,000 shares, representing its pro rata share of the 20,000,000 shares being offered. In total, Guizhou Taibang received RMB51.0 million (approximately \$8.3 million) from the investors and RMB6.5 million (approximately \$1.1 million) from Jie'an.

In June 2007, Jie'an brought a lawsuit against Guizhou Taibang, alleging that it had a right to acquire the 18,200,000 shares offered to the investors under the Equity Purchase Agreement. The trial court denied Jie'an's request, and the PRC Supreme Court ultimately sustained the original ruling in May 2009 and denied the rights of first refusal of Jie'an over the 18,200,000 shares.

During the second quarter of 2010, Jie'an requested that Guizhou Taibang register its 1.8 million shares of additional capital injection with the local administration of industry and commerce, or AIC. Guizhou Taibang's board of directors withheld its required ratification of Jie'an's request, pending the outcome of the ongoing litigation. In March 2012, Jie'an brought another lawsuit against Guizhou Taibang for refusing to register the shares. In July 2013, the trial court dismissed the lawsuit for lack of jurisdiction. Jie'an did not appeal the dismissal.

In December 2013, Jie'an brought a third lawsuit against Guizhou Taibang, requesting Guizhou Taibang to register 1.8 million shares under its name with the local AIC. In July 2014, the trial court denied Jie'an's request to register such shares. Despite the denial of Jie'an's share registration request, the trial court, however, in its ruling, ordered Guizhou Taibang to pay accumulated dividends of RMB13.8 million (approximately \$2.2 million) associated with these shares and the related interest expenses to Jie'an. Guizhou Taibang and Jie'an subsequently filed a cross-appeal. In December 2014, the appellate court ruled in favor of Jie'an supporting its request to register 1.8 million shares and ordered Guizhou Taibang to pay Jie'an its share of accumulated dividends of RMB18.3 million (approximately \$3.0 million) associated with these shares plus the related interest expenses to Jie'an. In February 2015, Guizhou Taibang paid RMB18.3 million (approximately \$3.0 million) to the trial court to be held in escrow pending further appeal of this case. Guizhou Taibang appealed to the High Court of Guizhou, which accepted the appeal in March 2015.

In November 2013, Guizhou Taibang held a shareholders meeting and the shareholders passed resolutions, or the November 2013 Resolutions, that, *inter alia*, (i) determined that it was no longer necessary for Guizhou Taibang to obtain additional capital from investors; (ii) rejected Jie'an's request that Jie'an subscribe for additional shares of Guizhou Taibang alone and one or more other shareholders reduce their shareholding in Guizhou Taibang; and (iii) approved the issuance of a total of 20,000,000 new shares to all existing shareholders on a pro rata basis. Jie'an subsequently filed a fourth lawsuit against Guizhou Taibang in December 2013, requesting that the court declare the November 2013 Resolutions void. Both the trial court and the appellate court denied Jie'an's request.

In March 2014, Guizhou Taibang held another shareholders meeting and the shareholders passed resolutions, or the March 2014 Resolutions, that, *inter alia*, re-calculated the ownership percentage in Guizhou Taibang based on the November 2013 Resolutions and the additional capital injections from existing shareholders. Guizhou Taibang subsequently updated the registration with the local AIC regarding the additional capital injections in August 2014. In September 2014, Jie'an and another minority shareholder of Guizhou Taibang filed a lawsuit against Guizhou Taibang, requesting that the court declare both the November 2013 Resolutions and the March 2014 Resolutions void and instruct Guizhou Taibang to withdraw the AIC registration. In November 2014, the trial court suspended this case pending the final outcome of the third lawsuit filed by Jie'an.

If the pending cases with Jie'an are ultimately ruled in Jie'an's favor, our ownership interest in Guizhou Taibang may be diluted to 71% and Jie'an may be entitled to receive accumulated dividends of RMB18.3 million (approximately \$3.0 million) and the related interest expenses (being its claimed share of Guizhou Taibang's accumulated dividend distributions associated with the 1.8 million shares and the accrued interest from the date when Jie'an's capital contribution was deemed effective till March 31, 2015) from Guizhou Taibang. As of March 31, 2015, the Company had maintained, on its balance sheet, payables to Jie'an in the amounts of RMB5.0 million (approximately \$0.8 million) as received funds in respect of the 1.8 million shares in dispute, RMB1.4 million (approximately \$0.2 million) for the over-paid subscription price paid by Jie'an and RMB3.4 million (approximately \$0.6 million) for the accrued interest. As these cases are closely interlinked to the outcome of the disputes with certain individual investor described below, based on our PRC litigation counsel's assessment, we do not expect Jie'an to prevail.

Dispute with Certain Individual Investor over Certain Capital Injection into Guizhou Taibang

In part due to the invalidity of the Equity Purchase Agreement with certain alleged strategic investors in May 2007, which was never approved or ratified by Guizhou Taibang's shareholders, such investors' equity ownership in Guizhou Taibang and the related increase in registered capital of Guizhou Taibang have never been registered with the local AIC. In January 2010, one individual among such investors brought a lawsuit against Guizhou Taibang requesting to register his 14.35% ownership interest in Guizhou Taibang with the local AIC and seeking the distribution of his share of Guizhou Taibang's dividends declared since 2007.

In October 2010, the trial court denied such individual investor's right as shareholders of Guizhou Taibang and his entitlement to share the dividends, which ruling was reaffirmed after a re-trial by the same trial court in December 2012. After such ruling, Guizhou Taibang attempted to return the originally received fund of RMB34.2 million (approximately \$5.6 million) to such investor by wiring the fund back to his bank account but was unable to do so due to the closure of his bank account. Another investor, however, accepted the returned fund of RMB11.2 million (approximately \$1.8 million) from Guizhou Taibang in November 2010. In 2013, the same individual investor appealed the case to the PRC Supreme Court, which also denied his claims for shareholder status in Guizhou Taibang and the related dividend distribution and accrued interest in September 2013. Such investor subsequently attempted to seek for a re-trial by the PRC Supreme Court, which request was denied by the PRC Supreme Court in January 2014. He then applied to the PRC Supreme Procuratorate to request for a review of the PRC Supreme Court's decision and seek an appeal by the PRC Supreme Procuratorate to the PRC Supreme Court for an ultimate re-trial on his behalf. The PRC Supreme Procuratorate accepted his application in December 2014 and, with the assistance of our PRC litigation counsel, we are in the process of preparing its response to such application. The PRC Supreme Procuratorate will consider our response in deciding whether to appeal to the PRC Supreme Court on behalf of such investor, which decision process may take several months. The PRC Supreme Procuratorate had not scheduled a hearing as of the date of this report.

Based on our PRC litigation counsel's assessment, we do not expect such individual investor to prevail in this pending re-trial application process, but we cannot assure you that the PRC Supreme Procuratorate will decide not to appeal for re-trial or the final outcome of such ultimate re-trial by the PRC Supreme Court (if the PRC Supreme Procuratorate decides to appeal for re-trial) will be in our favor. In case the PRC Supreme Procuratorate decides to appeal for re-trial on behalf of such investor and such ultimate re-trial by the PRC Supreme Court is ruled in such investor's favor, our ownership interest in Guizhou Taibang may be diluted to 66.29% and such investor may be entitled to receive his claimed share of accumulated dividends and the accrued interests from Guizhou Taibang although he has not specified the amount of the claimed damages in his appeal to the PRC Supreme Court or the re-trial application to the PRC Supreme Procuratorate. As of March 31, 2015, Guizhou Taibang had maintained, on its balance sheet, payables to the investors of RMB34.2 million (approximately \$5.6 million) as originally received funds from such individual investor in respect of the shares in dispute, RMB16.3 million (approximately \$2.7 million) for the interest expenses, and RMB0.3 million (approximately \$55,616) for the 1% penalty imposed by the Equity Purchase Agreement for any breach in the event that Guizhou Taibang is required to return the original investment amount to such investor.

ITEM 1A. RISK FACTORS.

As of the date of this filing, there have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K filed on March 4, 2015. We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could materially affect our operations. The risks, uncertainties and other factors set forth in the above-referenced Annual Report on Form 10-K may cause our actual results, performances and achievements to be materially different from those expressed or implied by our forward-looking statements. If any of these risks or events occurs, our business, financial condition or results of operations may be adversely affected.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

We have not sold any equity securities during the three months ended March 31, 2015 that were not previously disclosed in a quarterly report on Form 10-Q or a current report on Form 8-K that was filed during this period. No repurchases of our common stock were made during the three months ended March 31, 2015.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

ITEM 5. OTHER INFORMATION.

Disclosure pursuant to Section 13(r) of the Securities Exchange Act of 1934

Pursuant to Section 13(r) of the Securities Exchange Act of 1934, we, China Biologic, may be required to disclose in our annual and quarterly reports to the SEC, whether we or any of our “affiliates” knowingly engaged in certain activities, transactions or dealings relating to Iran or with certain individuals or entities targeted by US economic sanctions. Disclosure is generally required even where the activities, transactions or dealings were conducted in compliance with applicable law. Because the SEC defines the term “affiliate” broadly, it includes any entity under common “control” with us (and the term “control” is also construed broadly by the SEC).

The description of the activities below has been provided to us by Warburg Pincus LLC, or WP, affiliates of which: (i) beneficially own more than 10% of our outstanding common stock and are members of our board of directors and (ii) beneficially own more than 10% of the equity interests of, and have the right to designate members of the board of directors of Santander Asset Management Investment Holdings Limited, or SAMIH. SAMIH may therefore be deemed to be under common “control” with us; however, this statement is not meant to be an admission that common control exists.

The disclosure below relates solely to activities conducted by SAMIH and its non-U.S. affiliates that may be deemed to be under common “control” with us. The disclosure does not relate to any activities conducted by us or by WP and does not involve our or WP’s management. Neither we nor WP has had any involvement in or control over the disclosed activities of SAMIH, and neither we nor WP has independently verified or participated in the preparation of the disclosure. Neither we nor WP is representing as to the accuracy or completeness of the disclosure nor do we or WP undertake any obligation to correct or update it.

We understand that SAMIH’s affiliates intend to disclose in their next annual or quarterly SEC report that “Santander UK holds frozen savings and current accounts for two customers resident in the U.K. who are currently designated by the U.S. for terrorism. The accounts held by each customer were blocked after the customer’s designation and remained blocked and dormant throughout the first quarter of 2015. No revenue has been generated by Santander UK on these accounts.”

“An Iranian national, resident in the U.K., who is currently designated by the U.S. under the Iranian Financial Sanctions Regulations and the Weapons of Mass Destruction Proliferators Sanctions Regulations (“NPWMD sanctions program”), holds a mortgage with Santander UK that was issued prior to any such designation. No further drawdown has been made (or would be permitted) under this mortgage although Santander UK continues to receive repayment installments. In the first quarter of 2015, total revenue in connection with the mortgage was approximately £800 and net profits were negligible relative to the overall profits of Santander UK. Santander UK does not intend to enter into any new relationships with this customer, and any disbursements will only be made in accordance with applicable sanctions. The same Iranian national also holds two investment accounts with Santander Asset Management UK Limited. The accounts have remained frozen during quarter one of 2015. The investment returns are being automatically reinvested, and no disbursements have been made to the customer. Total revenue for the Santander Group in connection with the investment accounts was approximately £70 and net profits in the first quarter of 2015 were negligible relative to the overall profits of Banco Santander, S.A.”
