**.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the transition period from _____ to _____

Commission file number: **001-35774**

INNODATA INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

13-3475943
(I.R.S. Employer
Identification No.)

55 Challenger Road
Ridgefield Park, New Jersey
(Address of principal executive offices)

07660
(Zip Code)

(201) 371-8000

(Registrant's telephone number, including area code)

[None]

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of outstanding shares of the registrant's common stock, \$.01 par value, as of November 1, 2018 was 25,877,454.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

1. Description of Business and Summary of Significant Accounting Policies

Description of Business - Innodata Inc. and Subsidiaries (“we”, the “Company”, or “Innodata”) is a global services and technology company focused on data transformation, enrichment, and management. Through Innodata’s data refinery platform and related products and services, we enable the world’s preeminent media, publishing and information services companies, as well as data-driven enterprises, to improve operational efficiency, drive growth, and bring new data-enabled products to market. Innodata Labs, the Company’s technology incubator, focuses on applied machine learning and emerging artificial intelligence.

The Company, founded in 1988, consists of a team of over 3,500 diverse people in eight countries.

The Company operates in three reporting segments: Digital Data Solutions (DDS) which is the Company’s core business, Agility PR Solutions (Agility), and Synodex. Agility and Synodex are venture businesses that utilize the Company’s capabilities and assets to provide digital workflow products to new markets.

Prior to the first quarter of 2018, the Company referred to the Agility segment as Media Intelligence Solutions (MIS) and the Synodex segment as Innodata Advanced Data Solutions (IADS), and reported the results of the Innodata docGenix, LLC subsidiary (docGenix) within the IADS segment. Effective with the first quarter of 2018, the results for docGenix are reported within the DDS segment. As of September 30, 2018, Innodata Inc. owned 94% of docGenix.

The Company’s DDS segment provides solutions to digital retailers, information services companies, publishers and enterprises that have one or more of the following broad business requirements: development of digital content; development of new digital information products; or operational support of existing digital information products and systems. By blending consulting, technology and global operations with deep domain expertise, we provide measurable outcomes for publishing companies, information services companies, and enterprises through digital business transformation, accelerating innovation and efficiency of operations.

The Company's Agility segment provides public relations ("PR") tools and related managed services that enable PR and communications professionals to identify influencers, amplify messages, monitor coverage, and measure the impact of campaigns.

Agility's software-as-a-service (SaaS) tools include:

Media contact database and email distribution capabilities to help PR professionals find and connect with journalists and influencers. The Agility media contact database includes detailed contact information of over 800,000 journalists, outlets, bloggers and influencers around the globe.

Media monitoring to help PR professionals track what is being said about their brand, industry or competitors. Users can monitor and report on coverage across print, broadcast, online and social media sources. With Agility's self-service monitoring tool Agility Plus, users can create topic alerts, email news briefs/clipbooks, and pre-made executive reports to help analyze PR campaign reach and effectiveness.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

Agility's managed services include:

Full-service media monitoring and PR analytic services. Our team of media analysts use our SaaS monitoring solution to pull coverage and hand curate daily news briefs to eliminate noise and duplicates and add context and sentiment. This enterprise-grade media monitoring solution is for clients with complex monitoring or reporting requirements.

Advanced PR reporting and analysis services including custom reports, PR measurement and social media / influencer analysis.

Agility also owns Bulldog Reporter, a publisher of PR-related news and insights, the Daily Dog, a well-known daily e-newsletter, and the Bulldog Awards, the only PR awards program judged exclusively by working journalists. The Bulldog Awards program recognizes overall outstanding performance among PR and communications professionals as well as accomplishments in diverse categories including corporate social responsibility, media relations, digital and social marketing, and not-for-profit activity.

The Company's Synodex segment designs and develops new capabilities to enable clients in the insurance and healthcare sectors to transform medical records into useable digital data and to apply technologies to the data to augment decision support. The Company's Synodex segment operates through the Company's Innodata Synodex, LLC subsidiary. As of September 30, 2018, Innodata Inc. owned 92.5% of Innodata Synodex, LLC, an increase of 1.5% from June 30, 2018. As a result, the Company reduced the carrying value of the non-controlling interest in Innodata Synodex, LLC by approximately \$492,000, which was charged against the Company's additional paid-in capital.

Basis of Presentation - The condensed consolidated financial statements for the interim periods included herein are unaudited; however, they contain all adjustments (consisting of only normal recurring adjustments) which, in the opinion of management, are necessary to present fairly the consolidated financial position of the Company as of September 30, 2018, the results of its operations and comprehensive income (loss) for the three and nine months ended September 30, 2018 and 2017, cash flows for the nine months ended September 30, 2018 and 2017, and stockholders' equity for the nine months ended September 30, 2018. The results of operations for the interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year.

These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2017, included in the Company's Annual Report on Form 10-K. Unless otherwise noted, the accounting policies used in preparing these condensed consolidated financial statements are the same as those described in the December 31, 2017 consolidated financial statements.

Principles of Consolidation - The consolidated financial statements include the accounts of Innodata Inc. and its wholly-owned subsidiaries, Agility PR Solutions Canada, a corporation in which the Company owns substantially all of the economic interest, and the Synodex and docGenix limited liability companies that are majority-owned by the Company. The non-controlling interests in the Synodex and docGenix limited liability companies are accounted for in accordance with Financial Accounting Standards Board (FASB) non-controlling interest guidance. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP), management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include those related to revenue recognition, allowance for doubtful accounts and billing adjustments, long-lived assets, intangible assets, goodwill, valuation of deferred tax assets, valuation of securities underlying stock-based compensation, litigation accruals, valuation of derivative instruments and estimated accruals for various tax exposures.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

Foreign Currency Translation - The functional currency of the Company's production operations located in the Philippines, India, Sri Lanka and Israel is the U.S. dollar. Transactions denominated in Philippine pesos, Indian and Sri Lankan rupees or Israeli shekels are translated to U.S. dollars at rates which approximate those in effect on the transaction dates.

The functional currency for the Company's subsidiaries in Germany, the United Kingdom and Canada are the Euro, the Pound Sterling and the Canadian dollar, respectively. The financial statements of these subsidiaries are reported in these respective currencies. Financial information is translated from the applicable functional currency to the U.S. dollar (the reporting currency) for inclusion in their consolidated financial statements. Income, expenses and cash flows are translated at weighted average exchange rates prevailing during the fiscal period, and assets and liabilities are translated at fiscal period-end exchange rates. Resulting translation adjustments are included as a component of accumulated other comprehensive income (loss) in stockholders' equity. Foreign exchange transaction gains or losses are included in direct operating costs in the accompanying condensed consolidated statements of operations and comprehensive income (loss).

Revenue Recognition – Revenue is recognized when control of the promised services is transferred to a customer, in an amount that reflects the consideration that the Company expects to receive in exchange for those services as per the agreement with the customer. The Company generates all its revenue from agreements with customers. In case there are agreements with multiple performance obligations, the Company identifies each performance obligation and evaluates whether the performance obligations are distinct within the context of the agreement at the agreement's inception. Performance obligations that are not distinct at agreement inception are combined. The Company allocates the transaction price to each distinct performance obligation proportionately based on the estimated standalone selling price for each performance obligation, if any, and then evaluates how the services are transferred to the customer to determine the timing of revenue recognition.

For the DDS segment, revenue is recognized primarily based on the quantity delivered or resources utilized in the period in which services are performed and performance conditions are satisfied as per the agreement. Revenues for agreements billed on a time-and-materials basis are recognized as services are performed. Revenues under fixed-fee agreements, which are not significant to the overall revenues, are recognized on the percentage of completion method of accounting, as services are performed, or milestones are achieved.

For the Synodex segment, revenue is recognized primarily based on the quantity delivered in the period in which services are performed and performance conditions are satisfied as per the agreement. A portion of our Synodex segment revenue is derived from licensing our functional software and providing access to our hosted software platform. Revenue from such services is recognized monthly when access to the service is provided to the end user; all parties to the agreement have agreed to the agreement; each party's rights are identifiable; the payment terms are identifiable; the agreement has commercial substance; and collection is probable.

The Agility segment derives its revenues primarily from subscription arrangements and provision of enriched media analysis services. It also derives revenues as a reseller of corporate communication solutions. Revenue from subscriptions is recognized monthly when access to the service is provided to the end user; all parties to the agreement have agreed to the agreement; each party's rights are identifiable; the payment terms are identifiable; the agreement has commercial substance; and collection is probable. Revenue from enriched media analysis services is recognized when the services are performed, and performance conditions are satisfied. Revenues from the reseller agreements, which are not significant to the overall revenues, are recognized at gross with the Company functioning as a principal due to the Company meeting the following criteria. It acts as the primary obligor in the sales transaction, assumes the credit risk, sets the price, can select suppliers, and is involved in the execution of the services, including after sales service.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

Revenues include reimbursement of out-of-pocket expenses, with the corresponding out-of-pocket expenses included in direct operating costs.

Valuation of Goodwill and Intangible Assets - The Company performs valuations of assets acquired and liabilities assumed on each acquisition accounted for as a business combination and allocates the purchase price of each acquired business to its respective net tangible and intangible assets and liabilities. Acquired intangible assets principally consist of technology, customer relationships, backlog and trademarks. Liabilities related to intangibles principally consist of unfavorable vendor contracts. The Company determines the appropriate useful life by performing an analysis of expected cash flows based on projected financial information of the acquired businesses. Intangible assets are amortized over their estimated useful lives using the straight-line method, which approximates the pattern in which the majority of the economic benefits are expected to be consumed. Intangible liabilities are amortized into direct operating costs ratably over their expected related revenue streams over their useful lives.

Goodwill represents the excess of the cost of an acquired entity over the fair value of the acquired net assets. The Company does not amortize goodwill but evaluates it for impairment at the reporting unit level annually during the third quarter of each fiscal year (as of September 30 of that quarter) or when an event occurs, or circumstances change, that indicates the carrying value may not be recoverable. In 2018, the Company adopted Accounting Standard Update (ASU) 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Accounting for Goodwill Impairment. Under the newly adopted guidance, the optional qualitative assessment, referred to as “Step 0”, and the first step of the quantitative assessment (“Step 1”) remained unchanged compared to the prior guidance. However, the requirement to complete the second step (“Step 2”), which involved determining the implied fair value of goodwill and comparing it to the carrying value of that goodwill to measure the impairment loss, was eliminated. As a result, Step 1 will be used to determine both the existence and amount of goodwill impairment. An impairment loss will be recognized for the amount by which the reporting unit’s carrying value exceeds its fair value, not to exceed the carrying amount of goodwill in that reporting unit.

The Company periodically analyzes whether any indicators of impairment have occurred. As part of these periodic analyses, the Company compares its estimated fair value, as determined based on its stock price, to its net book value. Due to a continuing decline in its stock price and other indicators of impairment that arose during the second quarter of 2018, the Company deemed it appropriate to assess goodwill impairment as of June 30, 2018, rather than the historical testing date of September 30. Based on its assessment the Company concluded that the goodwill of the DDS

segment, amounting to \$675,000, is fully impaired. Refer to Note 3, "Goodwill and Intangible Assets".

The Company conducted its annual goodwill impairment test for the Agility segment as of September 30, 2018. The estimated fair value of the reporting unit exceeded its carrying value, including goodwill, and the Company concluded that there is no impairment of the goodwill of the Agility segment.

Recent Accounting Pronouncements - In February 2016, the FASB issued guidance related to leases. This new guidance requires lessees to recognize on the balance sheet a right-of-use asset, representing its right to use the underlying asset for the lease term, and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. This new guidance is effective for annual periods beginning after December 15, 2018. Early application is permitted. The Company is in the process of evaluating the effect the guidance will have on its existing accounting policies and consolidated financial statements but expects there will be an increase in assets and liabilities on the consolidated balance sheets at adoption due to the recording of right-of-use assets and corresponding lease liabilities, which may be significant.

INNODATA INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017****(Unaudited)**

In August 2017, the FASB amended the requirements of the Derivatives and Hedging Topic of the Accounting Standards Codification to improve the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. The amendments will be effective for the Company for interim and annual periods beginning after December 15, 2018. Early adoption is permitted. The Company does not anticipate that the adoption of this guidance will have a material impact on its consolidated financial statements.

2. Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization (in thousands), and consist of the following:

	September 30, 2018	December 31, 2017
Equipment	\$ 13,478	\$ 13,574
Software	8,605	7,291
Furniture and equipment	2,257	2,276
Leasehold improvements	5,331	5,342
Total	29,671	28,483
Less: accumulated depreciation and amortization	(22,591)	(21,294)
	\$ 7,080	\$ 7,189

Depreciation and amortization expense of property and equipment was approximately \$0.5 million and \$0.6 million for the three months ended September 30, 2018 and 2017, respectively. Depreciation and amortization expense of property and equipment was approximately \$1.7 million and \$1.9 million for the nine months ended September 30, 2018 and 2017, respectively.

INNODATA INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017****(Unaudited)****3. Goodwill and Intangible Assets**

The changes in the carrying amount of goodwill for the nine months ended September 30, 2018 and 2017 were as follows (in thousands):

Goodwill	
Balance as of January 1, 2018	\$2,832
Foreign currency translation adjustment	(35)
Goodwill impairment	(675)
Balance as of September 30, 2018	\$2,122
Balance as of January 1, 2017	\$2,734
Foreign currency translation adjustment	105
Balance as of September 30, 2017	\$2,839

The Company recorded a full goodwill impairment of \$675,000 for its DDS segment as of June 30, 2018.

The Company periodically analyzes whether any indicators of impairment have occurred. As part of these periodic analyses, the Company compares its estimated fair value, as determined based on its stock price, to its net book value. The continued decline in the Company's stock price was viewed by the Company as a triggering event under ASU 2017-04 which required an assessment for possible goodwill impairment as of June 30, 2018. Under the provisions of ASU 2017-04, which the Company opted to early adopt, goodwill impairment is recognized based on Step 1 of the current guidance, which calculates the carrying value in excess of the reporting unit's fair value.

The Company performed this assessment as of June 30, 2018 and determined that the fair value of the Agility segment exceeded its carrying value, but the fair value of the DDS segment was below its carrying value. As a result, the Company recorded a full goodwill impairment of \$675,000 for the DDS segment reporting unit as of June 30, 2018.

Edgar Filing: INNODATA INC - Form 10-Q

The Company performed its annual goodwill assessment for the Agility segment as of September 30, 2018 and reached the conclusion that there is no goodwill impairment because the Agility segment's fair value exceeded its carrying value.

The fair value measurement of goodwill was classified within Level 3 of the fair value hierarchy because the income approach was used, which utilizes significant inputs that are unobservable in the market. The Company believes it made reasonable estimates and assumptions to calculate the fair value of the reporting unit as of the impairment test measurement date.

Information regarding the Company's acquisition-related intangible assets is as follows (in thousands):

4. Income Taxes

In December 2017, the President signed the U.S. Tax Cuts and Jobs Act (2017 Tax Act) which includes a broad range of provisions, many of which significantly differ from those contained in previous U.S. tax law. The 2017 Tax Act contains several key provisions including, among other things:

A one-time tax on the mandatory deemed repatriation of post-1986 untaxed foreign earnings and profits (“E&P”), referred to as the “toll charge”;

A reduction in the maximum Corporate tax rate from 35% to 21% for tax years beginning after December 31, 2017; and

An introduction of a new U.S. tax on certain off-shore earnings referred to as Global Intangible Low-Taxed Income (GILTI) at an effective tax rate of 10.5% for tax years beginning after December 31, 2017 (increasing to 13.125% for tax years beginning after December 31, 2025) with a partial offset by applicable foreign tax credits.

Pursuant to the 2017 Tax Act, in the fourth quarter of 2017 the Company incurred an approximately \$9.1 million toll charge on the Company’s post-1986 untaxed foreign E&P which was offset against the Company’s net loss carryforwards. In addition, the Company remeasured its deferred tax assets and adjusted its deferred tax valuation allowance to reflect the new U.S. Federal tax rate of 21%.

The Company will not have any liability for taxes with respect to repatriated foreign earnings under IRS Reg 956 until its cumulative exposure for unrepatriated foreign earnings reaches a threshold of \$25.8 million. Nevertheless, the Company currently intends to reinvest the foreign earnings in its foreign subsidiaries and not repatriate them to the U.S. until needed because of the foreign jurisdiction withholding taxes that the Company would incur on repatriation.

As of September 30, 2018, the Company performed a calculation of the GILTI provisions and concluded that it has no impact on account of the net losses of the Company’s foreign subsidiaries.

The Company had unrecognized tax benefits of approximately \$0.8 million as of September 30, 2018 and \$0.9 million December 31, 2017, respectively. The portion of unrecognized tax benefits relating to interest and penalties was approximately \$0.4 million at September 30, 2018 and December 31, 2017. The unrecognized tax benefits as of September 30, 2018 and December 31, 2017, if recognized, would have an impact on the Company's effective tax rate.

Our deferred tax assets are primarily on account of continuing losses incurred by our U.S. entity and Canadian subsidiaries and temporary differences arising from accrued expenses and book versus tax depreciation methods in our Asian subsidiaries. In assessing its realization, management considers whether it is more likely than not that all or some portion of the deferred tax assets will not be realizable. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences are deductible and net operating losses are available. As of September 30, 2018, the Company continues to maintain a valuation allowance on all U.S. and Canadian deferred tax assets.

The following presents a roll-forward of the Company's unrecognized tax benefits and associated interest for the nine months ended September 30, 2018 (in thousands):

	Unrecognized tax benefits
Balance - January 1, 2018	\$ 911
Interest accrual	-
Foreign currency revaluation	(77)
Balance - September 30, 2018	\$ 834

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

The Company is subject to Federal income tax, as well as income tax in various states and foreign jurisdictions. The Company is no longer subject to examination by Federal tax authorities for years prior to 2006 and by New Jersey tax authorities for years prior to 2012. Various foreign subsidiaries currently have open tax years from 2003 through 2017.

In October 2010, the Company's Indian subsidiary received an assessment from the Indian Income Tax Department for the fiscal year ended March 31, 2006. Management disagrees with the basis of this tax assessment, has filed an appeal against the assessment and is contesting it. Management believes that its recorded tax liability of \$317,000 for this matter, which includes interest, is adequate.

In January 2012, the Company's Indian subsidiary received an assessment from the Indian Income Tax Department for the fiscal year ended March 31, 2008. Management disagrees with the basis of this tax assessment and successfully appealed the assessment. The income tax assessing officer has filed an appeal against the decision entered in favor of the subsidiary. Management is contesting the appeal filed by the assessing officer. Management believes that its recorded tax liability of \$332,000 for this matter, which includes interest, is adequate.

Management believes that the Company's recorded tax liabilities are adequate in the aggregate for its income tax exposures.

In September 2015, the Company's Indian subsidiary was subject to an inquiry by the Service Tax Department in India regarding the classification of services provided by this subsidiary, asserting that the services provided by this subsidiary fall under the category of online information and database access or retrieval services (OID Services), and not under the category of business support services (BS Services) that are exempt from service tax as historically indicated in the subsidiary's service tax filings. The Company disagrees with the Service Tax Department's position and is vigorously contesting these assertions. In the event the Service Tax Department is successful in proving that the services fall under the category of OID Services, the revenues earned by the Company's Indian subsidiary for the period July 2012 through November 2016 would be subject to a service tax of between 12.36% and 15%. The revenue of our Indian subsidiary during this period was approximately \$65.0 million. In accordance with new rules promulgated by the Service Tax Department, as of December 1, 2016, service tax is no longer applicable to OID or

BS Services.

In October 2016, the Company's Indian subsidiary received notices of appeal from the Indian Service Tax Department in India seeking to reverse service tax refunds of approximately \$160,000 previously granted to our Indian subsidiary for three quarters in 2014, asserting that the services provided by this subsidiary fall under the category of OID Services and not BS Services. The appeal was determined in favor of the Service Tax Department. The Indian subsidiary disagrees with the basis of this decision and is contesting it vigorously. The Company expects delays in its Indian subsidiary receiving further service tax refunds until this matter is adjudicated with finality, and currently has service tax credits of approximately \$1.0 million recorded as a receivable.

From time-to-time the Company is subject to various other tax proceedings and claims for its Philippines subsidiaries. The Company has recorded a tax provision amounting to \$184,000, which includes interest, for several ongoing tax proceedings in the Philippines. Although the ultimate outcome cannot be determined at this time, the Company continues to contest these claims vigorously.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

5. Commitments and Contingencies

Litigation – In 2008, a judgment was rendered in the Philippines against a Philippines subsidiary of the Company that is no longer active and purportedly also against Innodata Inc., in favor of certain former employees of the Philippines subsidiary. The payment amount as recalculated in November 2017 by the Philippines Department of Labor and Employment National Labor Relations Commission aggregates approximately \$6.2 million, plus legal interest that accrued at 12% per annum from August 13, 2008 to June 30, 2013, and thereafter accrued and continues to accrue at 6% per annum. The payment amount as expressed in U.S. dollars varies with the Philippine peso to U.S. dollar exchange rate. In December 2017, a group of 97 of the former employees indicated that they proposed to record the judgment as to them in New Jersey. In January 2018, in response to an action initiated by Innodata Inc., the United States District Court for the District of New Jersey (the “USDC”) entered a preliminary injunction that enjoins these former employees from pursuing or seeking recognition or enforcement of the judgment against Innodata Inc. in the United States during the pendency of the action and until further order of the USDC. In June 2018, the USDC entered a consent order administratively closing the action subject to return of the action to the active docket upon the written request of Innodata Inc. or the former employees, with the USDC retaining jurisdiction over the matter and the preliminary injunction remaining in full force and effect.

The Company is also subject to various other legal proceedings and claims which arise in the ordinary course of business.

While management currently believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company’s consolidated financial position or overall trends in consolidated results of operations, litigation is subject to inherent uncertainties. Substantial recovery against the Company in the above-referenced Philippines action could have a material adverse impact on the Company, and unfavorable rulings or recoveries in the other proceedings could have a material adverse impact on the consolidated operating results of the period in which the ruling or recovery occurs. In addition, the Company’s estimate of potential impact on the Company’s consolidated financial position or overall consolidated results of operations for the above referenced legal proceedings could change in the future.

The Company's legal reserves related to legal proceedings and claims are based on a determination of whether or not a loss is probable. The Company reviews outstanding proceedings and claims with external counsel to assess probability and estimates of loss. The reserves are adjusted if necessary. While the Company intends to defend these matters vigorously, adverse outcomes that it estimates could reach approximately \$350,000 in the aggregate beyond recorded amounts are reasonably possible. If circumstances change, the Company may be required to record adjustments that could be material to its reported consolidated financial condition and results of operations.

Foreign Currency - To the extent that the currencies of the Company's production facilities located in the Philippines, India, Sri Lanka and Israel fluctuate, the Company is subject to risks of changing costs of production after pricing is established for certain client projects. In addition, the Company is exposed to the risk of foreign currency fluctuation on the non-U.S. dollar denominated revenues, and on the monetary assets and liabilities held by its foreign subsidiaries that are denominated in local currency.

Indemnifications - The Company is obligated under certain circumstances to indemnify directors, certain officers and employees against costs and liabilities incurred in actions or threatened actions brought against such individuals because such individuals acted in the capacity of director and/or officer or fiduciary of the Company. In addition, the Company has contracts with certain clients pursuant to which the Company has agreed to indemnify the client for certain specified and limited claims. These indemnification obligations occur in the ordinary course of business and, in many cases, do not include a limit on potential maximum future payments. As of September 30, 2018, the Company has not recorded a liability for any obligations arising as a result of these indemnifications.

6. Stock Options

On June 7, 2016, stockholders of the Company approved amendments to the Innodata Inc. 2013 Stock Plan. The Innodata Inc. 2013 Stock Plan as amended and restated effective June 7, 2016 is referred to herein as the “Plan.” The number of shares of common stock of Innodata Inc. that may be delivered, purchased or used for reference purposes (with respect to stock appreciation rights or stock units) for awards granted under the Plan after June 7, 2016 is 5,858,892 (the “Share Reserve”). Shares subject to an option or stock appreciation right granted under the Plan after June 7, 2016 shall count against the Share Reserve as one share for every share granted, and shares subject to any other type of award granted under the Plan after June 7, 2016 shall count against the Share Reserve as two shares for every share granted. Any award, or portion of an award, under the Plan or under the 2009 Stock Plan (as amended and restated (the “Prior Plan”)) that expires or terminates unexercised, becomes unexercisable or is forfeited or otherwise terminated, surrendered or canceled as to any shares without delivery of shares or other consideration shall be added back to the Share Reserve as one share for each such share that was subject to an option or stock appreciation right granted under the Plan or the Prior Plan, and two shares for each such share that was subject to an award other than an option or stock appreciation right granted under the Plan or the Prior Plan. If any shares are withheld, tendered or exchanged by a participant in the Plan as full or partial payment to Innodata Inc. of the exercise price under an option under the Plan or the Prior Plan or in satisfaction of a participant’s tax withholding obligations with respect to any award under the Plan or the Prior Plan, there shall be added back to the Share Reserve one share for each such share that was withheld, tendered or exchanged in respect of an option or stock appreciation right granted under the Plan or the Prior Plan, and two shares for each such share that was withheld, tendered or exchanged in respect of an award other than an option or stock appreciation right granted under the Plan or the Prior Plan.

(Unaudited)

The fair value of stock options is estimated on the date of grant using the Black-Scholes option pricing model. The weighted average fair value of the options granted and weighted average assumptions are as follows:

	Nine Months Ended September 30, 2018 2017	
Weighted average fair value of options granted	\$0.54	\$0.72
Risk-free interest rate	2.77%	1.91 %
Expected life (years)	5-6	6
Expected volatility factor	49 %	49.62%
Expected dividends	-	-

The compensation cost related to non-vested stock awards not yet recognized as of September 30, 2018 totaled approximately \$1.3 million. The weighted average period over which these costs will be recognized is 22 months.

The stock-based compensation expense related to the Company's various stock awards was allocated as follows (in thousands):

	Three months ended September 30, 2018 2017		Nine months ended September 30, 2018 2017	
Direct operating costs	\$62	\$55	\$171	\$204
Selling and administrative expenses	206	130	368	458
Total stock-based compensation	\$268	\$185	\$539	\$662

7. Long-term Obligations

Total long-term obligations as of September 30, 2018 and December 31, 2017 consist of the following (in thousands):

	September 30, 2018	December 31, 2017
Capital lease obligations	\$ 530	\$ 829
Deferred lease payments ⁽¹⁾	593	731
Microsoft licenses ⁽²⁾	344	751

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

(1) Deferred lease payments represent the effect of straight-lining operating lease payments over the respective lease terms.

(2) In March 2017, the Company renewed a vendor agreement to acquire certain additional software licenses and to receive support and subsequent software upgrades on these and other currently owned software licenses through February 2020. Pursuant to this agreement, the Company is obligated to pay approximately \$0.4 million annually over the term of the agreement. The total cost, net of deferred interest (in thousands), was allocated to the following asset accounts in 2017:

Prepaid expenses and other current assets	\$404
Other assets	809
	\$1,213

(3) On September 30, 2016, the Company and the other parties to the transaction in which the Company acquired MediaMiser amended the terms on which a subsidiary of the Company is required to make a supplemental purchase price payment for MediaMiser. Prior to the amendment, the amount of the supplemental purchase price payment was to be determined by the achievement of certain financial thresholds and was in no event to exceed \$3.8 million (C\$5 million). The amendment fixed the amount of the supplemental purchase price payment at \$1.5 million (C\$2 million) payable in two equal installments on March 31, 2017 and 2018 to designated recipients, except that no payments will be made to designated recipients who fail to satisfy specified conditions. The Company had the option to pay up to 70% of the supplemental amount in shares of Innodata Inc. stock. In March 2017, the Company paid 70% of the first installment by issuing 253,622 shares of Innodata Inc.'s common stock and paid 30% of the first installment in cash in April 2017. The Company paid the entire second installment in cash in April 2018.

(4) In the second quarter of 2017, the Company relocated its U.S. and Canadian headquarters to new premises. As a financial incentive for the Company to lease office space in each of the new locations, the respective lessor for each of the locations offered to partially defray the construction cost for the new office space by offering tenant improvement allowances, subject to the refund to be made by the Company of any unamortized portion of the allowance under specified circumstances as set forth in each lease. These amounts will be amortized based on the contractual lease term and recognized as a reduction in rent expense for the periods covered.

Net amount reclassified to earnings	(174)	245	-	71
Balance at September 30, 2018	\$ 1,017	\$ (147)	\$ (938)) \$ (68)

	Pension Liability Adjustment	Fair Value of Derivatives	Foreign Currency Translation Adjustment	Accumulated Other Comprehensive Income (Loss)
Balance at January 1, 2017	\$ 1,387	\$ (318)	\$ (1,393) \$ (324)
Other comprehensive income before reclassifications, net of taxes	-	42	780	822
Total other comprehensive income (loss) before reclassifications, net of taxes	1,387	(276)	(613)	498
Net amount reclassified to earnings	(183)	57	-	(126)
Balance at September 30, 2017	\$ 1,204	\$ (219)	\$ (613)) \$ 372

All reclassifications out of accumulated other comprehensive income (loss) had an impact on direct operating costs in the condensed consolidated statements of operations and comprehensive loss.

9. Segment Reporting and Concentrations

The Company's operations are classified in three reporting segments: Digital Data Solutions (DDS), Agility PR Solutions (Agility), and Synodex.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

Prior to the first quarter of 2018 the Company referred to the Agility segment as Media Intelligence Solutions (MIS) and the Synodex segment as Innodata Advanced Data Solutions (IADS), and reported the results of the Innodata docGenix, LLC subsidiary (docGenix) within the IADS segment. Effective with the first quarter of 2018, the results for docGenix are reported within the DDS segment.

The DDS segment provides solutions to digital retailers, information services companies, publishers and enterprises that have one or more of the following broad business requirements: development of digital content; development of new digital information products; or operational support of existing digital information products and systems. By blending consulting, technology and global operations with deep domain expertise, we provide measurable outcomes for publishing companies, information services companies, and enterprises through digital business transformation, accelerating innovation and efficiency of operations.

The Synodex segment designs and develops new capabilities to enable clients in the insurance and healthcare sectors to transform medical records into useable digital data and to apply technologies to the data to augment decision support.

The Agility segment provides PR tools and related managed services that enable PR and communications professionals to identify influencers, amplify messages, monitor coverage, and measure the impact of campaigns. Agility also owns Bulldog Reporter, a publisher of PR-related news and insights, the Daily Dog, a well-known daily e-newsletter, and the Bulldog Awards, the only PR awards program judged exclusively by working journalists.

A significant portion of the Company's revenues is generated from its production facilities in the Philippines, India, Sri Lanka, Canada, Germany, the United Kingdom and Israel.

Revenues from external clients and segment operating profit (loss), and other reportable segment information are as follows (in thousands):

The results below for the three and nine months ended September 30, 2017 are presented on a reclassified basis as if for the first nine months of 2017 docGenix had been included in the DDS segment and the Synodex segment had solely included the results of Synodex. docGenix revenue was \$126,000 and \$224,000 for the three months ended September 30, 2018 and 2017, respectively. docGenix revenue was \$423,000 and \$843,000 for the nine months ended September 30, 2018 and 2017, respectively.

Two clients in the DDS segment generated approximately 29% of the Company's total revenues for the three months ended September 30, 2018 and 30% of the Company's total revenues for the three months ended September 30, 2017. No other client accounted for 10% or more of total revenues during these periods. Further, revenues from non-U.S. clients accounted for 54% and 49% of the Company's total revenues for the three months ended September 30, 2018 and 2017, respectively.

Two clients in the DDS segment generated approximately 30% of the Company's total revenues for the nine months ended September 30, 2018 and 29% of the Company's total revenues for the nine months ended September 30, 2017. No other client accounted for 10% or more of total revenues during these periods. Further, revenues from non-U.S. clients accounted for 57% and 50% of the Company's total revenues for the nine months ended September 30, 2018 and 2017, respectively.

Edgar Filing: INNODATA INC - Form 10-Q

As of September 30, 2018, approximately 56% of the Company's accounts receivable was from foreign (principally European) clients and 43% of the Company's accounts receivable was due from three clients. As of December 31, 2017, approximately 61% of the Company's accounts receivable was from foreign (principally European) clients and 51% of the Company's accounts receivable was due from three clients.

10. Income (Loss) Per Share

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

(Unaudited)

Basic net income (loss) per share is computed using the weighted average number of common shares outstanding during the period. For those securities that are not convertible into a class of common stock, the “two-class” method of computing income (loss) per share is used.

Options to purchase 3.5 million shares and 5.1 million shares of common stock for the three months ended September 30, 2018 and 2017, respectively, were outstanding but not included in the computation of diluted income (loss) per share because the exercise price of the options was greater than the average market price of the common shares and therefore the effect would have been anti-dilutive. Options to purchase 4.3 million shares and 5.1 million shares of common stock for the nine months ended September 30, 2018 and 2017, respectively, were outstanding but not included in the computation of diluted net income (loss) per share because the exercise price of the options was greater than the average market price of the common shares and therefore the effect would have been anti-dilutive.

11. Derivatives

The Company conducts a large portion of its operations in international markets that subject it to foreign currency fluctuations. The most significant foreign currency exposures occur when revenue and associated accounts receivable are collected in one currency and expenses to generate that revenue are incurred in another currency. The Company’s primary exchange rate exposure relates to payroll, other payroll costs and operating expenses in the Philippines, India, Sri Lanka and Israel.

In addition, although most of the Company’s revenues are denominated in U.S. dollars, a significant portion of the total revenues is denominated in Canadian dollars, Pound Sterling and Euros.

To manage its exposure to fluctuations in foreign currency exchange rates, the Company enters into foreign currency forward contracts, authorized under Company policies, with counterparties that are highly rated financial institutions. The Company utilizes non-deliverable forward contracts expiring within 12 months to reduce its foreign currency risk.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking hedge transactions. The Company does not hold or issue derivatives for trading purposes. All derivatives are recognized at their fair value and classified based on the instrument's maturity date. The total notional amount for outstanding derivatives as of September 30, 2018 and December 31, 2017 was \$2.6 million and \$15.9 million, respectively, which is comprised of cash flow hedges denominated in U.S. dollars.

INNODATA INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017****(Unaudited)**

The following table presents the fair value of derivative instruments included within the condensed consolidated balance sheets as of September 30, 2018 and December 31, 2017 (in thousands):

	Balance Sheet Location	Fair Value	
		2018	2017
Derivatives designated as hedging instruments:			
Foreign currency forward contracts	Prepaid expenses and other current assets	\$-	\$342
Foreign currency forward contracts	Accrued expenses	\$147	\$-

The effects of foreign currency forward contracts designated as cash flow hedges on the Company's condensed consolidated statements of operations and comprehensive loss for the three and nine months ended September 30, 2018 and 2017, respectively, were as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Net gain (loss) recognized in OCI ⁽¹⁾	\$(50)	\$(119)	\$(734)	\$42
Net loss reclassified from accumulated OCI into income ⁽²⁾	\$(153)	\$(82)	\$(245)	\$(57)
Net gain recognized in income ⁽³⁾	\$-	\$-	\$-	\$-

(1) Net change in fair value of the effective portion classified into other comprehensive income (loss) ("OCI").

(2) Effective portion classified within direct operating costs.

(3) There were no ineffective portions for the periods presented.

12. Financial Instruments

The carrying amounts of financial instruments, including cash and cash equivalents, accounts receivable and accounts payable approximated their fair value as of September 30, 2018 and December 31, 2017, because of the relative short maturity of these instruments.

“*Fair Value Measurements and Disclosures*” defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The accounting standard establishes a fair value hierarchy that prioritizes the inputs used to measure fair value into three levels. The three levels are defined as follows:

- *Level 1*: Unadjusted quoted price in active market for identical assets and liabilities.
- *Level 2*: Observable inputs other than those included in Level 1.
- *Level 3*: Unobservable inputs reflecting management’s own assumptions about the inputs used in pricing the asset or liability.

INNODATA INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017****(Unaudited)**

The following tables set forth the liabilities as of September 30, 2018 and December 31, 2017 that the Company measured at fair value, on a recurring basis by level, within the fair value hierarchy (in thousands). As required by the standard, liabilities measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement (in thousands).

September 30, 2018	Level 1	Level 2	Level 3
--------------------	---------	---------	---------

Liabilities

Derivatives	\$-	\$147	\$-
-------------	-----	-------	-----

December 31, 2017	Level 1	Level 2	Level 3
-------------------	---------	---------	---------

Assets

Derivatives	\$-	\$342	\$-
-------------	-----	-------	-----

The Level 2 assets and liabilities contain foreign currency forward contracts. Fair value is determined based on the observable market transactions of spot and forward rates. The fair value of these contracts as of September 30, 2018 is included in accrued expenses in the accompanying condensed consolidated balance sheets. The fair value of these contracts as of December 31, 2017 is included in prepaid expenses and other current assets in the accompanying condensed consolidated balance sheets.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Disclosures in this Form 10-Q contain certain forward-looking statements, including without limitation, statements concerning our operations, economic performance, and financial condition. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The words “project,” “head start,” “believe,” “expect,” “should,” “anticipate,” “indicate,” “point to,” “forecast,” “likely,” “goals,” “optimistic,” “foster,” “estimate,” “plan” and other similar expressions generally identify forward-looking statements, which speak only as of their dates.

These forward-looking statements are based largely on our current expectations and are subject to a number of risks and uncertainties, including without limitation, that contracts may be terminated by clients; projected or committed volumes of work may not materialize; the primarily at-will nature of contracts with our Digital Data Solutions clients and the ability of these clients to reduce, delay or cancel projects; continuing Digital Data Solutions segment revenue concentration in a limited number of clients; continuing Digital Data Solutions segment reliance on project-based work; inability to replace projects that are completed, canceled or reduced; our dependency on content providers in our Agility segment; difficulty in integrating and deriving synergies from acquisitions, joint venture and strategic investments; potential undiscovered liabilities of companies and businesses that we may acquire; potential impairment of the carrying value of goodwill and other acquired intangible assets of companies and businesses that we acquire; changes in our business or growth strategy; depressed market conditions; changes in external market factors; the ability and willingness of our clients and prospective clients to execute business plans which give rise to requirements for our services; changes in our business or growth strategy; the emergence of new or growing competitors; various other competitive and technological factors; and other risks and uncertainties indicated from time to time in our filings with the Securities and Exchange Commission.

Our actual results could differ materially from the results referred to in the forward-looking statements. In light of these risks and uncertainties, there can be no assurance that the results referred to in the forward-looking statements contained in this Form 10-Q will occur.

We undertake no obligation to update or review any guidance or other forward-looking information, whether as a result of new information, future developments or otherwise.

Business Overview

Edgar Filing: INNODATA INC - Form 10-Q

Innodata Inc. (NASDAQ: INOD) is a global services and technology company focused on data transformation, enrichment, and management. Through our data refinery platform and related products and services, we enable the world's preeminent media, publishing and information services companies, as well as data-driven enterprises, to improve operational efficiency, drive growth, and bring new data-enabled products to market. Innodata Labs, our technology incubator, focuses on applied machine learning and emerging artificial intelligence.

The Company, founded in 1988, consists of a team of over 3,500 diverse people in eight countries.

The Company operates in three reporting segments: Digital Data Solutions (DDS) which is the Company's core business, Agility PR Solutions (Agility), and Synodex. Agility and Synodex are venture businesses that utilize the Company's capabilities and assets to provide digital workflow products to new markets.

Prior to the first quarter of 2018 we referred to the Agility segment as Media Intelligence Solutions (MIS) and the Synodex segment as Innodata Advanced Data Solutions (IADS), and reported the results of the Innodata docGenix, LLC subsidiary (docGenix) within the IADS segment. Effective with the first quarter of 2018 the results for docGenix are reported within the DDS segment. As of September 30, 2018, Innodata Inc. owned 94% of docGenix.

Our DDS segment provides solutions to digital retailers, information services companies, publishers and enterprises that have one or more of the following broad business requirements: development of digital content; development of new digital information products; or operational support of existing digital information products and systems. By blending consulting, technology and global operations with deep domain expertise, we provide measurable outcomes for publishing companies, information services companies, and enterprises through digital business transformation, accelerating innovation and efficiency of operations.

Many of our clients are driving or are responding to rapid and fundamental changes in the way end users discover, consume and create published information. For some of our publishing and information services clients, this means transforming information products from print to digital; for others, it means migrating already-digital products from web-only distribution to multiple-channel distribution that includes mobile and tablet devices and incorporates mobility, social platform and semantic search; and for others still, it means re-tooling pure search-based information products into workflow-embedded analytical tools that combine content with software to enable context-aware decision-making; and for a select number of our information services clients, it means embracing the content-as-a-service model to integrate content with other tools, applications and data. Each of these transformations requires shifts in products, as well as the technology and the operations that support them.

For our enterprise publishing clients, changes in the way end users discover, consume and create published information often necessitates replacing old processes and technologies that generated static, whole documents with new processes and technologies that enable content to reside as modular components which are re-combined dynamically to create up-to-date, product-specific assembly guides, engineering diagrams/schematics, compliance documentation, field operations guides and clinical documentation destined for simultaneous access on the web, from PCs, tablets and smartphones.

We help our clients develop high-value information products. Our clients include four of the ten largest information industry companies in the world, spanning financial, legal, healthcare and scientific information.

We work with clients at a strategic business and technology level to address business process and technology challenges related to digital content supply chain optimization and strategy. By aligning operations and technology with business goals, we help businesses accelerate new product development and introduction; control cost; consolidate and leverage technology investment; and obtain benefits of scale.

Many enterprises are embracing new digital information technologies and workflow processes within their operations to improve internal decision-support systems.

Our Agility segment provides PR tools and related managed services that enable PR and communications professionals to identify influencers, amplify messages, monitor coverage, and measure the impact of campaigns.

Agility's software-as-a-service (SaaS) tools include:

Media contact database and email distribution capabilities to help PR professionals find and connect with journalists and influencers. The Agility media database includes detailed contact information of over 800,000 journalists, outlets, bloggers and influencers around the globe.

Media monitoring to help PR professionals track what is being said about their brand, industry or competitors. Users can monitor and report on coverage across print, broadcast, online and social media sources. With Agility's self-service monitoring tool Agility Plus, users can create topic alerts, email news briefs/ clipbooks, and pre-made executive reports to help analyze PR campaign reach and effectiveness.

Agility's managed services include:

Full-service media monitoring and PR analytic services. Our team of media analysts use our SaaS monitoring solution to pull coverage and hand curate daily news briefs to eliminate noise and duplicates and add context and sentiment. This enterprise-grade media monitoring solution is for clients with complex monitoring or reporting requirements.

Advanced PR reporting and analysis services including custom reports, PR measurement and social media / influencer analysis.

Agility also owns Bulldog Reporter, a publisher of PR-related news and insights, the Daily Dog, a well-known daily e-newsletter, and the Bulldog Awards, the only PR awards program judged exclusively by working journalists. The Bulldog Awards program recognizes overall outstanding performance among PR and communications professionals as well as accomplishments in diverse categories including corporate social responsibility, media relations, digital and social marketing, and not-for-profit activity.

Our Synodex segment designs and develops new capabilities to enable clients in the insurance and healthcare sectors to transform medical records into useable digital data and to apply technologies to the data to augment decision support. The main focus of the Synodex business is the extraction and classification of data from unstructured medical records in an innovative way to provide improved data service capabilities for insurance underwriting, insurance claims, medical records management and clinical trial support services. Synodex has developed and deployed its APS.Extract[®] product for specific use with life insurance underwriting and claims. Our Synodex segment operates through our Innodata Synodex, LLC subsidiary. As of September 30, 2018, Innodata Inc. owned 92.5% of Innodata Synodex, LLC an increase of 1.5% from June 30, 2018. As a result, the Company reduced the carrying value of the non-controlling interest in Innodata Synodex, LLC by approximately \$492,000, which was charged against the Company's additional paid-in capital.

We provide our services using a globally distributed workforce utilizing advanced technologies that automate portions of our process and help ensure that our work product is highly accurate and consistent.

Our delivery centers in Asia are ISO 27001 certified. In addition, we comply with the requirements of the United States Health Insurance Portability and Accountability Act of 1996 as amended (HIPAA) (including by the Health Information Technology for Economic and Clinical Health Data (HITECH)) and the United Kingdom's Data Protection Act 2018, as applicable. Innodata Inc. is certified to the EU-U.S. Privacy Shield framework, which certification includes Innodata Synodex, Innodata docGenix, Agility PR Solutions and Bulldog Reporter as covered entities. We encrypt all individual protected health information, both at rest and in motion, to the AES 256 or similar standard, and we employ a range of security features including monitored firewalls and intrusion detection devices.

For our data extraction services, we maintain staff in a wide spectrum of disciplines, including medicine, law, engineering, management, finance, science and the humanities.

Our service/process-aligned groups include engineering personnel and delivery personnel. Our engineering teams are responsible for creating secure and efficient custom workflows and integrating proprietary and third-party technologies to automate manual processes and improve the consistency and quality of our work product. These tools include categorization engines that utilize pattern recognition algorithms based on comprehensive rule sets and related heuristics, data extraction tools that automatically retrieve specific types of information from large data sources, and workflow systems that enable various tasks and activities to be performed across our multiple facilities.

Our globally distributed delivery personnel are responsible for executing our client engagements in accordance with service-level agreements. We deliver services from facilities in the United States, the Philippines, India, Sri Lanka, Israel, the United Kingdom, Germany and Canada.

Other support groups are responsible for managing diverse enabling functions including human resources, organizational development, network and communications technology infrastructure support and physical infrastructure and facilities management.

Our sales staff, program managers and consultants operate primarily from our North American and European locations, as well as from client sites.

Revenues

Revenue is recognized when control of the promised services is transferred to a customer, in an amount that reflects the consideration the Company expects to receive in exchange for the services as per the agreement with the customer. The Company generates all its revenue from agreements with customers. In case there are agreements with multiple performance obligations, we identify each performance obligation and evaluate whether the performance obligations are distinct within the context of the agreement at the agreement's inception. Performance obligations that are not distinct at agreement inception are combined. The Company allocates the transaction price to each distinct performance obligation proportionately based on the estimated standalone selling price for each performance obligation, if any, and then evaluates how the services are transferred to the customer to determine the timing of revenue recognition.

For the DDS segment, revenue is recognized primarily based on the quantity delivered or resources utilized and in the period in which services are performed and performance conditions are satisfied as per the agreement. Revenues for agreements billed on a time-and-materials basis are recognized as services are performed. Revenues under fixed-fee agreements, which are not significant to the overall revenues, are recognized on the percentage of completion method of accounting, as services are performed, or milestones are achieved.

For the Synodex segment, revenue is recognized primarily based on the quantity delivered and the period in which services are performed and performance conditions are satisfied as per the agreement. A portion of our Synodex segment revenue is derived from licensing our functional software and providing access to our hosted software platform. Revenue from such services is recognized monthly when access to the service is provided to the end user; all parties to the agreement have agreed to the agreement; each party's rights are identifiable; the payment terms are identifiable; the agreement has commercial substance; and collection is probable.

The Agility segment derives its revenues primarily from subscription arrangements and provision of enriched media analysis services. It also derives revenues as a reseller of corporate communication solutions. Revenue from subscriptions is recognized monthly when access to the service is provided to the end user; all parties to the agreement have agreed to the agreement; each party's rights are identifiable; the payment terms are identifiable; the agreement has commercial substance; and collection is probable. Revenues from enriched media analysis services is recognized when the services are performed, and performance conditions are satisfied. Revenues from the reseller agreements, which are not significant to the overall revenues, are recognized at gross with the Company functioning as a principal due to the Company meeting the following criteria. It acts as the primary obligor in the sales transaction, assumes the credit risk, sets the price, can select suppliers, and is involved in the execution of the services, including after sales service.

Revenues include reimbursement of out-of-pocket expenses, with the corresponding out-of-pocket expenses included in direct operating costs.

We consider U.S. GAAP criteria for determining whether to report revenue gross as a principal versus net as an agent. Factors considered include whether we are the primary obligor, have risks and rewards of ownership, and bear the risk that a client may not pay for the services performed. If there are circumstances where the above criteria are not met and therefore we are not the principal in providing services, amounts received from clients are presented net of payments in the condensed consolidated statements of operations and comprehensive loss.

Contract acquisition costs for our DDS and Synodex segments are amortized over a maximum contract term of two years. Contract acquisition costs for our Agility segments are amortized over the term of the subscription agreement which normally has a duration of 12 months or less. We review these costs on a periodic basis to determine the need to adjust the carrying values for pre-terminated contracts.

Direct Operating Costs

Direct operating costs consist of direct payroll, occupancy costs, data center hosting fees, content acquisition costs, depreciation and amortization, travel, telecommunications, computer services and supplies, realized gain (loss) on forward contracts, foreign currency revaluation gain (loss), and other direct expenses that are incurred in providing services to our clients.

Selling and Administrative Expenses

Selling and administrative expenses consist of management and administrative salaries, sales and marketing costs including commissions, new services research and related software development, third-party software, advertising and trade conferences, professional fees and consultant costs, and other administrative overhead costs.

Valuation of Goodwill and Intangible Assets

The Company performs valuations of assets acquired and liabilities assumed on each acquisition accounted for as a business combination and allocates the purchase price of each acquired business to its respective net tangible and intangible assets and liabilities. Acquired intangible assets principally consist of technology, customer relationships, backlog and trademarks. Liabilities related to intangibles principally consist of unfavorable vendor contracts. The Company determines the appropriate useful life by performing an analysis of expected cash flows based on projected financial information of the acquired businesses. Intangible assets are amortized over their estimated useful lives using the straight-line method, which approximates the pattern in which the majority of the economic benefits are expected to be consumed. Intangible liabilities are amortized into direct operating costs ratably over their expected related revenue streams over their useful lives.

Goodwill represents the excess of the cost of an acquired entity over the fair value of the acquired net assets. The Company does not amortize goodwill but evaluates it for impairment at the reporting unit level annually during the third quarter of each fiscal year (as of September 30 of that quarter) or when an event occurs, or circumstances change, that indicates the carrying value may not be recoverable. In 2018 the Company adopted ASU 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Accounting for Goodwill Impairment. Under the newly adopted guidance, the optional qualitative assessment, referred to as “Step 0”, and the first step of the quantitative assessment (“Step 1”) remained unchanged versus the prior guidance. However, the requirement to complete the second step (“Step 2”), which involved determining the implied fair value of goodwill and comparing it to the carrying value of that goodwill to measure the impairment loss, was eliminated. As a result, Step 1 will be used to determine both the existence and amount of goodwill impairment. An impairment loss will be recognized for the amount by which the reporting unit’s carrying amount exceeds its fair value, not to exceed the carrying value of goodwill in that reporting unit.

The Company periodically analyzes whether any indicators of impairment have occurred. As part of these periodic analyses, the Company compares its estimated fair value, as determined based on its stock price, to its net book value. During 2018, due to a continuing decline in its stock price and other indicators of impairment that arose during the second quarter of 2018, the Company deemed it appropriate to assess goodwill impairment as of June 30, 2018, rather than the historical testing date of September 30. Based on its assessment, the Company concluded that the goodwill of the DDS segment, amounting to \$675,000 is fully impaired.

The Company conducted its annual goodwill impairment test for the Agility segment as of September 30, 2018. The estimated fair value of the reporting unit exceeded its carrying value, including goodwill, and the Company concluded that there is no impairment of the goodwill of the Agility segment.

Adjusted EBITDA

In addition to measures of financial performance presented in our consolidated financial statements, we monitor “Adjusted EBITDA” to help us evaluate our ongoing operating performance including our ability to operate the business effectively.

We define Adjusted EBITDA as net income (loss) attributable to Innodata Inc. and Subsidiaries in accordance with U.S. GAAP before income taxes, depreciation, amortization of intangible assets, impairment charges, changes in fair value of contingent consideration, stock-based compensation, loss attributable to non-controlling interests and interest income (expense).

We believe Adjusted EBITDA is useful to our management and investors in evaluating our operating performance and for financial and operational decision-making purposes. In particular, it facilitates comparisons of the core operating performance of our Company from period to period on a consistent basis and helps us identify underlying trends in our business. We believe it provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects and allows for greater transparency with respect to key metrics used by the management in our financial and operational decision-making. We use this measure to establish operational goals for managing our business and evaluating our performance.

Adjusted EBITDA has limitations as an analytical tool and should not be considered in isolation or as a substitute for results reported under U.S. GAAP. Some of these limitations are:

- Adjusted EBITDA does not reflect tax payments, and such payments reflect a reduction in cash available to us;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs and for our cash expenditures or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA excludes the potential dilutive impact of stock-based compensation expense related to our workforce, interest income (expense) and net loss attributable to non-controlling interests, and these items may represent a reduction or increase in cash available to us;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements; and
- Other companies, including companies in our own industry, may calculate Adjusted EBITDA differently from our calculation, limiting its usefulness as a comparative measure.

Adjusted EBITDA should be considered as a supplement to, and not as a substitute for or superior to, U.S. GAAP net income.

The following table reconciles net income (loss) to Adjusted EBITDA for the periods presented (in thousands):

The results below for the three and nine months ended September 30, 2017 are presented on a reclassified basis as if for the first nine months of 2017 docGenix had been included in the DDS segment and the Synodex segment had solely included the results of Synodex. docGenix revenue was \$126,000 and \$224,000 for the three months ended September 30, 2018 and 2017, respectively. docGenix revenue was \$423,000 and \$843,000 for the nine months ended September 30, 2018 and 2017, respectively.

Results of Operations**Three Months Ended September 30, 2018 and 2017**

The results below for the three months ended September 30, 2017 are presented on a reclassified basis as if for the third quarter of 2017 docGenix had been included in the DDS segment and the Synodex segment had solely included the results of Synodex. docGenix revenue was \$126,000 and \$224,000 in the three months ended September 30, 2018 and 2017, respectively.

Revenues

Total revenues were \$14.0 million for the three months ended September 30, 2018 compared to \$15.0 million for the three months ended September 30, 2017, a decrease of approximately \$1.0 million or 7%.

Revenues from the DDS segment were \$10.8 million and \$11.8 million for the three months ended September 30, 2018 and 2017, respectively, a decrease of approximately \$1 million or 8%. The decrease is attributable to one large project that ended last year, a decrease in volume from one client and the balance is attributable to volume fluctuations from other clients.

Revenues from the Synodex segment were \$1.0 million for each of the three months ended September 30, 2018 and 2017.

Revenues from the Agility segment were \$2.3 million and \$2.2 million for the three months ended September 30, 2018 and 2017, respectively, an increase of approximately \$0.1 million or 5%.

Two clients in the DDS segment generated approximately 29% of the Company's total revenues for the three months ended September 30, 2018 and 30% of the Company's total revenues for the three months ended September 30, 2017. No other client accounted for 10% or more of total revenues during these periods. Further, revenues from non-U.S. clients accounted for 54% and 49% of the Company's total revenues for the three months ended September 30, 2018 and 2017, respectively.

Direct Operating Costs

Direct operating costs were \$9.2 million and \$11.5 million for the three months ended September 30, 2018 and 2017, respectively, a decrease of \$2.3 million or 20%. Direct operating costs as a percentage of total revenues decreased to 66% for the three months ended September 30, 2018 compared to 77% for the three months ended September 30, 2017.

Direct operating costs for the DDS segment were approximately \$6.9 million and \$8.9 million for the three months ended September 30, 2018 and 2017, respectively, a decrease of \$2.0 million or 22%. Direct operating costs for the DDS segment as a percentage of DDS segment revenues were 64% and 75% for the three months ended September 30, 2018 and 2017, respectively. The decrease in direct operating costs is attributable to labor cost savings arising from headcount reductions that commenced in the second half of 2017.

Direct operating costs for the Synodex segment were \$0.8 million for the three months ended September 30, 2018 and \$1.0 million for the three months ended September 30, 2017, net of intersegment profits, a decrease of \$0.2 million or 20%. The decline in direct operating costs reflects efficiencies in the production headcount. Direct operating costs for the Synodex segment as a percentage of Synodex segment revenues were 80% and 100% for the three months ended September 30, 2018 and 2017, respectively.

Direct operating costs for the Agility segment were \$1.5 million and \$1.6 million for the three months ended September 30, 2018 and 2017, respectively, a decrease of \$0.1 million or 6%. Direct operating costs for the Agility segment as a percentage of Agility segment revenues were 70% and 73% for the three months ended September 30, 2018 and 2017, respectively.

Selling and Administrative Expenses

Selling and administrative expenses were \$3.7 million for the three months ended September 30, 2018 compared to \$4.5 million for the three months ended September 30, 2017, a decrease of \$0.8 million or approximately 18%. Selling and administrative expenses as a percentage of total revenues were 26% and 30% for the three months ended September 30, 2018 and 2017, respectively.

Selling and administrative expenses for the DDS segment were \$2.2 million and \$2.7 million for the three months ended September 30, 2018 and 2017, respectively, a decline of \$0.5 million or 19%. As a percentage of DDS

revenues, DDS selling and administrative expenses were 20% for the three months ended September 30, 2018 and 23% for the three months ended September 30, 2017. The decline in selling and administrative expenses is attributable to labor cost savings arising from headcount reductions that commenced in the second half of 2017.

Selling and administrative expenses for the Synodex segment were \$0.1 million for the three months ended September 30, 2018 and \$0.2 million for the three months ended September 30, 2017, respectively, a decrease of \$0.1 million or 50%. Selling and administrative expenses for the Synodex segment as a percentage of Synodex segment revenues were 10% for the three months ended September 30, 2018 and 20% for the three months ended September 30, 2017.

Selling and administrative expenses for the Agility segment were \$1.4 million and \$1.6 million for the three months ended September 30, 2018 and 2017, respectively, a decrease of \$0.2 million or 13%. Selling and administrative expenses for the Agility segment as a percentage of Agility segment revenues were 61% for the three months ended September 30, 2018 and 73% for the three months ended September 30, 2017.

Income Taxes

We recorded a provision for income taxes of \$0.5 million and \$0.3 million for the three months ended September 30, 2018 and 2017, respectively. Taxes primarily consist of a provision for foreign taxes recorded in accordance with the local tax regulations by our foreign subsidiaries. Effective income tax rates are disproportionate due to the losses incurred by our U.S. entity and our Canadian subsidiaries and a valuation allowance recorded on deferred taxes on these entities. Some of our foreign subsidiaries are subject to tax holidays or preferential tax rates which reduce our overall effective tax rate when compared to the U.S. statutory tax rate.

In December 2017, the President signed the U.S. Tax Cuts and Jobs Act (2017 Tax Act), which includes a broad range of provisions, many of which significantly differ from those contained in previous U.S. tax law. The 2017 Tax Act contains several key provisions including, among other things:

A one-time tax on the mandatory deemed repatriation of post-1986 untaxed foreign earnings and profits (“E&P”), referred to as the “toll charge”;

A reduction in the maximum Corporate tax rate from 35% to 21% for tax years beginning after December 31, 2017; and

An introduction of a new U.S. tax on certain off-shore earnings referred to as Global Intangible Low-Taxed Income (GILTI) at an effective tax rate of 10.5% for tax years beginning after December 31, 2017 (increasing to 13.125% for tax years beginning after December 31, 2025) with a partial offset by applicable foreign tax credits.

Pursuant to the 2017 Tax Act, in the fourth quarter of 2017 we incurred an approximately \$9.1 million toll charge on the Company’s post-1986 untaxed foreign E&P which was offset against our Company’s net loss carryforwards. In addition, we remeasured our deferred tax assets and adjusted its deferred tax valuation allowance to reflect the new U.S. Federal tax rate of 21%.

The Company will not have any liability for taxes with respect to repatriated foreign earnings under IRS Reg 956 until its cumulative exposure for unrepatriated foreign earnings reaches a threshold of \$25.8 million. Nevertheless, the Company currently intends to reinvest the foreign earnings in its foreign subsidiaries and not repatriate them to the U.S. until needed because of the foreign jurisdiction withholding taxes that the Company would incur on repatriation.

For the nine months ended September 30, 2018, we performed a calculation of the GILTI provisions and concluded that it has no impact on account of the net losses of our foreign subsidiaries.

We have a valuation allowance on all of our U.S. deferred tax assets on account of continuing losses incurred by our U.S. entity. In addition, we also have a valuation allowance on deferred tax assets of our Canadian subsidiary on account of continuing losses.

Net Income (Loss)

We earned net income of \$0.7 million during the three months ended September 30, 2018 compared to a net loss of \$1.1 million during the three months ended September 30, 2017.

Net income for the DDS segment was \$1.2 million for the three months ended September 30, 2018, compared to a net loss of \$50,000 for the three months ended September 30, 2017, net of intersegment profits. Net income for the Synodex segment was \$0.1 million for the three months ended September 30, 2018 compared to a net loss of \$0.2 million for the three months ended September 30, 2017, net of intersegment profits. Net loss for the Agility segment was \$0.6 million and \$0.9 million for the three months ended September 30, 2018 and 2017, respectively.

Adjusted EBITDA

Adjusted EBITDA for the three months ended September 30, 2018 was \$2.3 million compared to \$0.2 million for the three months ended September 30, 2017. Adjusted EBITDA for the DDS segment was \$2.4 million compared to \$1.0 million for the three months ended September 30, 2018 and 2017, respectively. Adjusted EBITDA for the Synodex segment was \$0.1 million and a loss of \$0.3 million for the three months ended September 30, 2018 and 2017, respectively. Adjusted EBITDA for the Agility segment was a loss of \$0.2 million and \$0.5 million for the three months ended September 30, 2018 and 2017, respectively.

Nine Months Ended September 30, 2018 and 2017

The results below for the nine months ended September 30, 2017 are presented on a reclassified basis as if for the first nine months of 2017 docGenix had been included in the DDS segment and the Synodex segment had solely included the results of Synodex. docGenix revenue was \$423,000 and \$843,000 in the nine months ended September 30, 2018 and 2017, respectively.

Revenues

Total revenues were \$42.4 million for the nine months ended September 30, 2018 compared to \$45.3 million for the nine months ended September 30, 2017, a decrease of \$2.9 million or 6%.

Revenues from the DDS segment were \$32.0 million and \$35.6 million for the nine months ended September 30, 2018 and 2017, respectively, a decrease of approximately \$3.6 million or 10%. Approximately \$1.8 million of the decrease is attributable to one large project that ended last year and the balance is attributable to volume fluctuations from other clients.

Revenues from the Synodex segment were \$3.0 million and \$2.6 million for the nine months ended September 30, 2018 and 2017, respectively, an increase of \$0.4 million or 15%. The increase is primarily due to additional volume from an existing client combined with volume increases from other clients.

Revenues from the Agility segment were \$7.4 million and \$7.1 million for the nine months ended September 30, 2018 and 2017, respectively, an increase of \$0.3 million or 4%. The increase in revenues primarily reflects additional revenue from a reseller.

Two clients in the DDS segment generated approximately 30% of the Company's total revenues for the nine months ended September 30, 2018 and 29% of the Company's total revenues for the nine months ended September 30, 2017. No other client accounted for 10% or more of total revenues during these periods. Further, revenues from non-U.S. clients accounted for 57% and 50% of the Company's total revenues for the nine months ended September 30, 2018 and 2017, respectively.

Direct Operating Costs

Direct operating costs were \$29.1 million and \$34.6 million for the nine months ended September 30, 2018 and 2017, respectively, a decrease of \$5.5 million or 16%. Direct operating costs as a percentage of total revenues were 69% for the nine months ended September 30, 2018 and 76% for the nine months ended September 30, 2017.

Direct operating costs for the DDS segment were approximately \$22.1 million and \$27.3 million for the nine months ended September 30, 2018 and 2017, respectively, a decrease of \$5.2 million or 19%. Direct operating costs for the DDS segment as a percentage of DDS segment revenues were 69% and 76% for the nine months ended September 30, 2018 and 2017, respectively. The decrease in direct operating costs is attributable to labor cost savings arising from headcount reductions that commenced in the second half of 2017.

Direct operating costs for the Synodex segment were \$2.3 million for the nine months ended September 30, 2018 and \$2.7 million for the nine months ended September 30, 2017, net of intersegment profits, a decrease of \$0.4 million or 15%. The decline in direct operating costs reflects efficiencies in the production headcount. Direct operating costs for the Synodex segment as a percentage of Synodex segment revenues were 77% and 104% for the nine months ended September 30, 2018 and 2017, respectively.

Direct operating costs for the Agility segment were \$4.7 million and \$4.6 million for the nine months ended September 30, 2018 and 2017, respectively, an increase of \$0.1 million or 2%. Direct operating costs for the Agility segment as a percentage of Agility segment revenues were 64% and 65% for the nine months ended September 30, 2018 and 2017, respectively. The increase is due to higher content related costs.

Selling and Administrative Expenses

Selling and administrative expenses were \$11.2 million for the nine months ended September 30, 2018 compared to \$13.1 million for the nine months ended September 30, 2017, a decrease of \$1.9 million or 15%. Selling and administrative expenses as a percentage of total revenues decreased to 26% for the nine months ended September 30, 2018 from 29% for the nine months ended September 30, 2017.

Selling and administrative expenses for the DDS segment were \$6.6 million and \$8.2 million for the nine months ended September 30, 2018 and 2017, respectively, a decrease of \$1.6 million or 20%. As a percentage of DDS revenues, DDS selling and administrative expenses were 21% and 23% for each of the nine months ended September 30, 2018 and 2017, respectively. The decline in selling and administrative expenses is attributable to labor cost savings arising from headcount reductions that commenced in the second half of 2017.

Selling and administrative expenses for the Synodex segment were \$0.5 million and \$0.8 million for each of the nine months ended September 30, 2018 and 2017, respectively, a decrease of \$0.3 million or 38%. Selling and administrative expenses for the Synodex segment as a percentage of Synodex segment revenues were 17% and 31% for the nine months ended September 30, 2018 and 2017, respectively.

Selling and administrative expenses for the Agility segment were \$4.2 million and \$4.1 million for each of the nine months ended September 30, 2018 and 2017, respectively, an increase of \$0.1 million or 2%. Selling and administrative expenses for the Agility segment as a percentage of Agility segment revenues were 55% and 58% for the nine months ended September 30, 2018 and 2017.

Goodwill Impairment

During the nine months ended September 30, 2018, we recorded a full goodwill impairment of \$675,000 for the DDS segment. There was no goodwill impairment recorded during the nine months ended September 30, 2017.

We periodically analyze whether any indicators of impairment have occurred. As part of these periodic analyses, we compare the Company's estimated fair value, as determined based on our stock price, to our net book value. The continued decline in our stock price was viewed as a triggering event under ASU 2017-04 which required an assessment for possible goodwill impairment as of June 30, 2018. Under the provisions of ASU 2017-04, which we opted to early adopt, goodwill impairment is recognized based on Step 1 of the current guidance, which calculates the carrying value in excess of the reporting unit's fair value.

We performed this assessment as of June 30, 2018 and determined that the fair value of the Agility segment exceeded its carrying value, but that the fair value of the DDS segment was below its carrying value. As a result, we recorded a full goodwill impairment of \$675,000 for the DDS segment reporting unit as of June 30, 2018. In addition, we also recorded an adjustment to reverse the deferred tax liability that was previously recorded as a result of amortizing goodwill for tax purposes.

The Company conducted its annual goodwill impairment test for the Agility segment as of September 30, 2018. The estimated fair value of the reporting unit exceeded its carrying value, including goodwill, and the Company concluded that there is no impairment of the goodwill of the Agility segment.

Income Taxes

We recorded a provision for income taxes of \$1.5 million and \$0.8 million for the nine months ended September 30, 2018 and 2017, respectively. Taxes primarily consist of a provision for foreign taxes recorded in accordance with the local tax regulations by our foreign subsidiaries. Effective income tax rates are disproportionate due to the losses incurred by our U.S. entity and our Canadian subsidiaries and a valuation allowance recorded on deferred taxes on these entities. Some of our foreign subsidiaries are subject to tax holidays or preferential tax rates which reduce our overall effective tax rate when compared to the U.S. statutory tax rate.

For the nine months ended September 30, 2018, we performed a calculation of the GILTI provisions and concluded that it has no impact on account of the net losses of our foreign subsidiaries.

We have a valuation allowance on all of our U.S. deferred tax assets on account of continuing losses incurred by our U.S. entity. In addition, we also have a valuation allowance on deferred tax assets of our Canadian subsidiaries. Our Canadian subsidiaries also have research and development expenditures available to reduce taxable income in future years, which may be carried forward indefinitely. The potential benefits from these balances have not been recognized for financial statement purposes.

Net Income (Loss)

We incurred a net loss of \$46,000 during the nine months ended September 30, 2018 compared to net loss of \$3.0 million during the nine months ended September 30, 2017.

Net income for the DDS segment was \$1.1 million for the nine months ended September 30, 2018, compared to a net loss of \$0.6 million for the nine months ended September 30, 2017, net of intersegment profits. The change is due to the decline in revenues offset by a decline in direct operating costs and selling and administrative expenses attributable to our cost rationalization initiatives.

Net income for the Synodex segment was \$250,000 for the nine months ended September 30, 2018 compared to net loss of \$0.8 million for the nine months ended September 30, 2017, net of intersegment profits. The change is primarily due to an increase in revenues and a decline in direct operating costs and selling and administrative expense.

Net loss for the Agility segment was \$1.4 million for the nine months ended September 30, 2018 compared to a net loss of \$1.6 million for the nine months ended September 30, 2017.

Adjusted EBITDA

Adjusted EBITDA for the nine months ended September 30, 2018 was \$5.3 million compared to Adjusted EBITDA of \$1.0 million for the nine months ended September 30, 2017. Adjusted EBITDA for the DDS segment was \$5.3 million for the nine months ended September 30, 2018 compared to \$2.6 million for the nine months ended September 30, 2017. Adjusted EBITDA for the Synodex segment was \$0.3 million and a loss of \$1.0 million for the nine months ended September 30, 2018 and 2017, respectively. Adjusted EBITDA for the Agility segment was a net loss of \$0.3 million and \$0.6 million for the nine months ended September 30, 2018 and 2017, respectively.

Liquidity and Capital Resources

Selected measures of liquidity and capital resources, expressed in thousands, are as follows:

	September 30, 2018	December 31, 2017
Cash and cash equivalents	\$ 11,890	\$ 11,407
Working capital	10,974	9,729

At September 30, 2018, we had cash and cash equivalents of \$11.9 million, of which \$6.3 million was held by our foreign subsidiaries, and the \$5.6 million balance was held in the United States. Based on our calculations, as a result of the one-time transition tax on the deemed repatriation of post-1986 undistributed foreign subsidiary earnings and profits, we will not have any liability for taxes with respect to repatriated foreign earnings under IRS Reg 956 until our cumulative exposure for unrepatriated foreign earnings reaches a threshold of \$24.8 million. Although we do not currently intend to repatriate amounts held by foreign subsidiaries, we could if needed repatriate these amounts less up to 21% in withholding taxes of foreign jurisdictions.

We have used, and plan to use, our cash and cash equivalents for (i) investments in the Agility segment; (ii) the expansion of our other operations; (iii) general corporate purposes, including working capital; and (iv) possible business acquisitions. As of September 30, 2018, we had working capital of approximately \$11 million, as compared to working capital of approximately \$9.7 million as of December 31, 2017.

We believe that our existing cash and cash equivalents and internally generated funds will provide sufficient sources of liquidity to satisfy our financial needs, at least through November 9, 2019. However, we have no bank facilities or lines of credit, and continuing material reductions in our cash and cash equivalents from operating losses, capital expenditures, adverse legal decisions, acquisitions or otherwise would materially and adversely affect the Company.

Net Cash Provided by Operating Activities

Cash provided by our operating activities for the nine months ended September 30, 2018 was \$4.0 million, resulting from lower operating costs due to cost rationalization initiatives. Adjustments for non-cash items primarily consisted of \$2.6 million for depreciation and amortization, goodwill impairment of \$0.7 million, stock option expense of \$0.5 million and a reduction in deferred tax provisions of \$0.2 million. Working capital activities primarily consisted of a source of cash of \$1.0 million due to a decrease in accounts receivable offset by a \$1.0 million increase in the other working capital accounts.

Our days' sales outstanding (DSO) were 61 days for each of the nine months ended September 30, 2018 and the year ended December 31, 2017. We calculate DSO for a reported period by first dividing the total revenues for the period by the average net accounts receivable for the period (which is the sum of the net accounts receivable at the beginning of the period and the net accounts receivable at the end of the period, divided by two), to yield an amount we refer to as the "accounts receivable turnover." Then we divide the total number of days within the reported period by the accounts receivable turnover to yield DSO expressed in number of days.

Net Cash Used in Investing Activities

For the nine months ended September 30, 2018 cash used in our investing activities was \$1.7 million. These expenditures principally consisted of purchases of technology equipment including servers, network infrastructure and workstations. We continue to expense all capital expenditures for the Synodex segment.

During the next 12 months, we anticipate that capital expenditures for ongoing technology, equipment and infrastructure upgrades will approximate \$1.0 to \$2.0 million, a portion of which we may finance.

Net Cash Used in Financing Activities

For the nine months ended September 30, 2018, cash used in financing activities was for payments of long-term obligations of \$1.8 million.

Contractual Obligations

The table below summarizes our contractual obligations (in thousands) at September 30, 2018 and the effects that those obligations are expected to have on our liquidity and cash flows in future periods.

Payments Due by Period

Contractual Obligations	Total	Less than 1 year	1 - 3 years	4 - 5 years	After 5 years
Capital leases	\$530	\$ 403	\$ 127	\$ -	\$ -
Vendor obligations	344	344	-	-	-
Non-cancellable operating leases	2,382	436	749	444	753
Total contractual cash obligations	\$3,256	\$ 1,183	\$ 876	\$ 444	\$ 753

Future expected obligations under our pension benefit plan have not been included in the contractual cash obligations in the table above.

Inflation, Seasonality and Prevailing Economic Conditions

Our most significant costs are the salaries and related benefits of our employees in Asia. We are exposed to higher inflation in wage rates in the countries in which we operate. We generally perform work for our clients under project-specific contracts, requirements-based contracts or long-term contracts. We must adequately anticipate wage increases, particularly on our fixed-price contracts. There can be no assurance that we will be able to recover cost increases through increases in the prices that we charge for our services to our clients.

Our quarterly operating results are subject to certain fluctuations. We experience fluctuations in our revenue and earnings as we replace and begin new projects, which may have some normal start-up delays, or we may be unable to replace a project entirely. These and other factors may contribute to fluctuations in our operating results from quarter to quarter. In addition, as some of our Asian facilities are closed during holidays in the fourth quarter, we typically incur higher wages, due to overtime, that reduce our margins.

Our Synodex subsidiary experiences seasonal fluctuations in revenues. Typically, revenue is lowest in the third quarter of the calendar year and highest in the fourth quarter of the calendar year. The seasonality is directly linked to the number of life insurance applications received by the insurance companies.

Critical Accounting Policies and Estimates

Our discussion and analysis of our results of operations, liquidity and capital resources is based on our consolidated financial statements which have been prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and judgments, including those related to revenue recognition, allowance for doubtful accounts and billing adjustments, long-lived assets, intangible assets, goodwill, valuation of deferred tax assets, value of securities underlying stock-based compensation, litigation accruals, pension benefits, purchase price allocation of Agility, valuation of derivative instruments and estimated accruals for various tax exposures. We base our estimates on historical and anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances, including assumptions as to future events. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results may differ from our estimates and could have a significant adverse effect on our consolidated results of operations and financial position. We believe the following critical accounting policies affect our more significant estimates and judgments in the preparation of our consolidated financial statements.

Recent Accounting Pronouncements

In February 2016, the FASB issued guidance related to leases. This new guidance requires lessees to recognize on the balance sheet a right-of-use asset, representing its right to use the underlying asset for the lease term, and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. This new guidance is effective for annual periods beginning after December 15, 2018. Early application is permitted. We are in the process of evaluating the effect the guidance will have on our existing accounting policies and consolidated financial statements but expect there will be an increase in assets and liabilities on the consolidated balance sheets at adoption due to the recording of right-of-use assets and corresponding lease liabilities, which may be significant.

In January 2017, the FASB issued guidance simplifying the accounting for goodwill impairment by removing Step 2 of the goodwill impairment test. Under current guidance, Step 2 of the goodwill impairment test requires entities to calculate the implied fair value of goodwill in the same manner as the amount of goodwill recognized in a business combination by assigning the fair value of a reporting unit to all of the assets and liabilities of the reporting unit. The carrying value in excess of the implied fair value is recognized as goodwill impairment. Under the new standard, goodwill impairment is recognized based on Step 1 of the current guidance, which calculates the carrying value in excess of the reporting unit's fair value. The new standard is effective beginning in January 2020, with early adoption permitted. We opted to early adopt the provisions of ASU 2017-04 in the second quarter of 2018. We periodically analyze whether any indicators of impairment have occurred. As part of these periodic analyses, we compare the estimated fair value of the Company, as determined based on its stock price, to its net book value. In applying the new guidance, we consider changes in the current business and economic factors that would be considered as "triggering events". Such triggering events require an assessment for possible goodwill impairment. Due to the continuing decline in the Company's stock price, we deemed it appropriate to assess goodwill impairment for our DDS and Agility segments as of June 30, 2018. Based on our assessment we concluded that the goodwill of the DDS segment, amounting to \$675,000, is fully impaired as of June 30, 2018. The Company performed its annual goodwill assessment for the Agility segment as of September 30, 2018 and reached the conclusion that there is no goodwill impairment because Agility segment's fair value exceeded its carrying value.

In August 2017, the FASB amended the requirements of the Derivatives and Hedging Topic of the Accounting Standards Codification to improve the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. The amendments will be effective for the Company for interim and annual periods beginning after December 15, 2018. Early adoption is permitted. We do not anticipate that the adoption of this guidance will have a material impact on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable for Smaller Reporting Companies.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Acting Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision, and with the participation of our management, including our Chief Executive Officer and our Acting Principal Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined under Exchange Act Rule 13a-15(e). Based on this evaluation, our Chief Executive Officer and our Acting Principal Financial Officer concluded that, as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures were effective.

There have been no changes in our internal controls over financial reporting (as such term is defined in Rules 13a-15(f) or 15d-15(f) under the Exchange Act) during the last fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Reference is made to the disclosure under “Legal Proceedings” in Part II, Item 1. in our Form 10-Q for the quarterly period ended June 30, 2018.

Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017 as updated by the disclosure under “Risk Factors” in Part II, Item 1A. in our Form 10-Q for the quarterly period ended June 30, 2018.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

43

Item 6. Exhibits

31.1 Certificate of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certificate of Acting Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
