Item 12. Results of Operations and Financial Condition

The following sets forth certain information regarding certain historical non-GAAP financial measures (within the meaning of Regulation G and Item 10 of Regulation S-K) of the Company as well as reconciliations of such non-GAAP financial measures to the financial measures of the Company calculated and presented in accordance with GAAP that are most directly comparable to such non-GAAP financial measures.

Non-GAAP Financial Measures

Adjusted EBITDA means net income plus income taxes, non-floorplan interest expense (other interest expense, net), and depreciation and amortization. Adjusted EBITDAR means net income plus income taxes, non-floorplan interest expense, depreciation and amortization and rent expense. EBITDAR means net income plus income taxes, interest expense, depreciation and amortization and rent expense. EBITDA means net income plus income taxes, interest expense and depreciation and amortization. Rent Adjusted Total Debt means non-floorplan long-term debt plus 8 times the annualized rent expense. Adjusted EBITDA, Adjusted EBITDAR, EBITDAR and EBITDA are not measures of financial performance

or liquidity under accounting principles generally accepted in the United States ("GAAP"). Rent Adjusted Total Debt is not a measure of indebtedness under GAAP. Accordingly, these measures should not be considered as substitutes for net income, income from operations, net cash provided by operating activities, total indebtedness or any other operating, liquidity, indebtedness or capitalization measure prepared in accordance with GAAP. Additionally, our Adjusted EBITDA, Adjusted EBITDAR, EBITDAR, EBITDA and Rent Adjusted Total Debt computations may not be comparable to other similarly titled measures of other companies.

We believe that Adjusted EBITDA, Adjusted EBITDAR, EBITDAR, EBITDA and Rent Adjusted Total Debt and any ratios using Adjusted EBITDA, Adjusted EBITDAR, EBITDAR, EBITDA and Rent Adjusted Total Debt provide additional information regarding our ability to assess and evaluate the performance of our operations, our ability to meet our future debt service, capital expenditures and working capital requirements and the amount of our cash available for discretionary spending. These measures are widely used by investors and rating agencies in the valuation, comparison, rating and investment recommendations of companies. EBITDA and Adjusted EBITDA are also financial measurements that are reported to our lenders under our credit facilities and our other debt instruments.

Our calculation of Adjusted EBITDA and Adjusted EBITDAR are different than the calculation of EBITDA and EBITDAR in that in arriving at Adjusted EBITDA and Adjusted EBITDAR we do not add back floorplan interest expense. We view floorplan financing more akin to trade payables than debt. The reasons for this view include: (1) floorplan financing is readily available from numerous sources, including vehicle manufacturers and a large number of commercial lenders, (2) loan-to-value ratios are typically 100%, (3) repayment is generally not required until the vehicles are sold and (4) the balance outstanding generally tracks recent sales activity. As a result, we believe that Adjusted EBITDA and Adjusted EBITDAR provide additional useful information as to our ability to meet our future non-floorplan debt service requirements.

Our calculation for Adjusted EBITDAR adds back rent expense to Adjusted EBITDA. We believe Adjusted EBITDAR provides additional information as to our ability to meet future non-floorplan debt service requirements and make rent payments.

Our calculation for Rent Adjusted Total Debt provides additional information to evaluate our indebtedness including our off-balance sheet operating leases.

While we believe that Adjusted EBITDA, Adjusted EBITDAR, EBITDAR, EBITDA and Rent Adjusted Total Debt may provide additional information with respect to our ability to meet our future debt service, capital expenditures and working capital requirements and the amount of our cash available for discretionary spending, certain functional or legal requirements of our business may require us to use our available funds for other purposes.

Adjusted EBITDA, Adjusted EBITDAR, EBITDAR and EBITDA are calculated as follows:
