Use of Non-GAAP Financial Information

To supplement our consolidated financial statements presented in accordance with GAAP, Skyworks Solutions, Inc. uses non-GAAP measures of operating results, net income and earnings per share, which are adjusted from results based on GAAP to exclude certain expenses. These non-GAAP measures are provided to enhance the user's overall understanding of our current financial performance and our prospects for the future. Specifically, we believe the non-GAAP results provide useful information to both management and investors by excluding certain expenses that we believe are not indicative of our ongoing operations. Additionally, since we have historically reported non-GAAP results to the investment community, the inclusion of non-GAAP measures provides consistency in our financial reporting. Further, these non-GAAP results are one of the primary indicators management uses for planning and forecasting in future periods. The presentation of this additional information should not be considered in isolation or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States.
