LETTER FROM THE BOARD

As some of the applicable percentage ratios for the Transfer exceed 5% but are less than 25%, and if the Company is successful in the bidding, the Transfer will constitute a discloseable transaction for the Company under the Hong Kong Listing Rules. Further, as Chinalco is the controlling shareholder of the Company holding, directly and indirectly, approximately 41.78% of the issued share capital of the Company, the Transfer will also constitute a connected transaction for the Company under the Hong Kong Listing Rules and will be subject to the reporting and announcement requirements and approval of the Independent Shareholders requirements at the EGM. Chinalco and its associates will abstain from voting in respect of the resolution for approval of the Transfer at the EGM.

The Independent Board Committee has been established to advise the Independent Shareholders in relation to the transaction contemplated under the Acquisition Agreement and an independent financial advisor has been appointed to advise the independent board committee and the Independent Shareholders in this regard.

The purposes of this circular are

- (i) to provide you with further details of the proposed Transfer; and
- (ii) to set out the letter of advice from BOCOM International (Asia) Limited to the Independent Board Committee and the Independent Shareholders and the recommendation of the Independent Board Committee on the Transfer as advised by BOCOM International (Asia) Limited.

THE TRANSFER THROUGH CHINA BEIJING EQUITY EXCHANGE

Transferor: Chinalco, the controlling shareholder of the Company

The proposed Transferee: The Company

The Company will bid in an open tender process at China Beijing Equity Exchange for the transfer of the respective Target Equity Interests in the Target Companies from Chinalco. By reason of the tender conditions, the Board considers that the Company will have a good chance of success in the open tender process. The proposed selling price for the Target Equity Interests as determined by Chinalco is RMB4,180 million (or approximately HK\$4,460 million). The Directors have decided to bid at the selling price of RMB4,180 million (or approximately HK\$4,460 million) proposed by Chinalco. The Company has assessed the selling price with reference to (i) the aggregate net asset value attributable to the respective Target Equity Interests in the Target Companies based on their respective unaudited accounts of the five aluminum fabrication plants and the audited accounts of Longxing Aluminum, the primary aluminum plant as at November 2007; and (ii) the current and future earnings and business potential of the Target Companies, provided that the final purchase price shall not exceed RMB4,180 million (or approximately HK\$4,460 million). If the Company is successful in the bidding, the final consideration will be determined by the bidding result and the Acquisition Agreement will be entered into between Chinalco and the Company for the transfer of the respective Target Equity Interests in the Target Companies to the Company. The Company expects to pay the purchase price out of its internal resources.

LETTER FROM THE BOARD

THE TERMS OF THE PROPOSED ACQUISITION AGREEMENT

If the Company is successful in bidding the Target Equity Interests, the Company will enter into the Acquisition Agreement with Chinalco and will purchase from Chinalco the Target Equity Interests as a whole. The major terms of the Acquisition Agreement will be as follows:

1. Consideration:

The selling price proposed by Chinalco is RMB4,180 million. The Directors have decided to bid at the selling price of RMB4,180 million (or approximately HK\$4,460 million) proposed by Chinalco and have assessed the bidding price based on (i) the aggregate net asset value attributable to the respective Target Equity Interests in the Target Companies based on their respective unaudited accounts of the five aluminum fabrication plants and the audited accounts of Longxing Aluminum, the primary aluminum plant as at November 2007; and (ii) the current and future earnings and business potential of the Target Companies.

2. Conditions Precedent

The Transfer will be effective subject to satisfaction of the following conditions:

- (a) the due execution of the Acquisition Agreement by the parties;
- (b) the due filing of the valuation report of the Target Equity Interests by Chinalco;

- (e) final confirmation that the Company is the transferee of the Target Equity Interests through successful bidding in China Beijing Equity Exchange.

3. Completion

The parties shall jointly endeavour to complete the procedures for the change of shareholders' registration and amend the articles of association of each of Target Companies within 30 days from the effective date of the Acquisition Agreement.

LETTER FROM THE BOARD

TENDER PROCESS AT CHINA BEIJING EQUITY EXCHANGE

A summary of the tender process at China Beijing Equity Exchange is as follows:

- (a) Chinalco will specify the proposed selling price and the preferential terms of the sale. Such preferential terms require, among other things, that the bidder must be a PRC or overseas listed company with a specified credit rating by an approved credit rating agent and has entered into an agreement with Chinalco with regard to the employees of the Target Companies.
- (b) China Beijing Equity Exchange will specify a date upon which the Target Equity Interests will be openly available for tender.
- (c) Upon the obtaining of the Independent Shareholders' approval at the EGM in relation to the proposed Transfer, the Company will then submit the bidding application to China Beijing Equity Exchange to bid for the Target Equity Interests in the Target Companies from Chinalco. When submitting the tender offer, the Company has to pay RMB500 million as deposit and evidence of its financial ability by submitting credit proof of RMB4,180 million to China Beijing Equity Exchange.
- (d) After the expiration of the period for Chinalco to list the relevant open tender on China Beijing Equity Exchange (i.e. 13 May 2008), China Beijing Equity Exchange will notify the Company as to whether it has

succeeded in the bidding.

- (e) Within 10 working days of the confirmation of the successful bidding by the Company, the Company will enter into the Acquisition Agreement with Chinalco and will pay the purchase price to Chinalco.

China Beijing Equity Exchange is responsible for administering the tender process (including the selection and the finalization of the successful bidder).

The open tender has been announced by China Beijing Equity Exchange. It is the intention of the Company to submit the bidding application to China Beijing Equity Exchange upon the obtaining of the Independent Shareholders' approval at the EGM in relation to the proposed Transfer. As at the Latest Practicable Date, the relevant open tender is still listed on the China Beijing Equity Exchange for the acceptance of bidding applications and such period will expire on 13 May 2008. Further announcement will be made by the Company upon the announcement of the bidding result by China Beijing Equity Exchange.

Based on the above, the Acquisition Agreement will be entered into by the relevant parties within 10 working days once China Beijing Equity Exchange can confirm with the Company that it has succeeded in the bidding. The Company will pay RMB500 million as deposit of the proposed Transfer to China Beijing Equity Exchange accordingly. As the bidding of the Target Equity Interests is subject to Independent Shareholders' approval, such approval has to be obtained by the Company at the EGM before the Company can enter into the Acquisition Agreement. The Company has applied for a waiver from strict compliance with Rule 14.34 of the Listing Rules in this regard.

The Directors are of the view that (i) this circular provides sufficient information for the shareholders of the Company to make informed decision; and (ii) the Company is able to comply with the requirements under Rule 2.13 of the Listing Rules despite the fact that the date of the Acquisition Agreement is not able to be disclosed in this circular.

LETTER FROM THE BOARD

REASONS FOR AND BENEFITS OF THE TRANSFER

The reasons and benefits of the Transfer are:

1. Although alumina and primary production accounted for a substantial portion of the production of the Company, the industry chain of the Company is not very complete. From the point of view of the aluminum industry, aluminum fabrication is an important high value added part in the production chain. As the aluminum fabrication is only second to iron and steel in the fabrication industry, there is a big potential market for future development of aluminum fabrication in the PRC. The Directors believe that investment in aluminum fabrication meets with the development strategy of the Company.

2. Acquisition of the Target Companies will improve the production chain of the Company and reduce the exposure of the Company to risks as well as laying the foundation for future development of the Company.
3. Upon completion of the acquisition of the Target Equity Interests through the proposed Transfer, the Company would have acquired most of the aluminum fabrication business of Chinalco and upon centralization of the management of the aluminum fabrication business under the Company, this will reduce the competition as well as connected transactions between the Company and Chinalco and are advantageous to the strategic integration of aluminum fabrication business into the Company.
4. The acquisition will enable the Company to optimize its allocation of its raw materials, product position, waste recycle through centralized resources management.
5. Acquisition of Longxing Aluminum will reduce the competition between the Company and Chinalco and further strengthen the primary aluminum production capacity of the Company. The acquisition of Longxing Aluminum would also help to develop the local economy of the region where Longxing Aluminum is located.

The Directors, including the independent non-executive Directors, are of the view that the Agreement and the transactions contemplated thereunder are on normal commercial terms and such terms are fair and reasonable and in the interests of the Shareholders as a whole.

IMPLICATION UNDER THE LISTING RULES

As some of the applicable percentage ratios for the Transfer exceed 5% but are less than 25%, and if the Company is successful in the bidding, the Transfer (if implemented) will constitute a discloseable transaction for the Company under the Hong Kong Listing Rules. As Chinalco is the controlling shareholder of the Company holding, directly and indirectly, approximately 41.78% of the issued share capital of the Company, the Transfer will also constitute a connected transaction for the Company under the Hong Kong Listing Rules and will be subject to the reporting and announcement requirements and approval of the Independent Shareholders at the EGM. The EGM will be convened for the Independent Shareholders to consider and, if appropriate, approve the bidding by the Company of the Target Equity Interests at China Beijing Equity Exchange and if the bidding is successful, the entering into of the Acquisition Agreement in respect of the Target Equity Interests between the Company and Chinalco. The proposed duration of the authorization is 12 months from the date of submission of the bidding application by the Company.

Votes for all resolutions in the EGM shall be taken by way of poll. Chinalco, being the controlling shareholder of the Company is interested in the Transfer, and its associates will abstain from voting in respect of the resolution for approval of the Transfer at the EGM. Save for Chinalco and its associates, no Shareholder has any interest in the Transfer.

LETTER FROM BOCOM INTERNATIONAL (ASIA) LIMITED

Reasons for and benefits of the Transfer

It is the intention of the Company to maintain the existing operations of the Target Companies after the Transfer. The Directors consider that the reasons and benefits of the Transfer are:

1. Although alumina and primary production accounted for a substantial portion of the production of the Company, the industry chain of the Company is still not fully integrated. From the view point of the aluminum industry, aluminum fabrication is an important high-value-added part in the production chain. As the aluminum fabrication is only second to iron and steel in the fabrication industry, there is a big potential market for the future development of aluminum fabrication in the PRC. The Directors believe that the investment in aluminum fabrication will facilitate the Group to meet its development strategy.
2. Acquisition of the Target Companies will enrich the production chain of the Company and reduce the exposure of the Company to

operational risks as well as laying the foundation for future development of the Company. Currently, the production capacity of the Company are approximately 10.2 million tonnes of alumina, approximately 3.2 million tonnes of primary aluminum and approximately 0.2 million tonnes of aluminum fabrication per annum. Given the total annual aluminum fabrication capacities of the five aluminum fabrication plants are approximately 1.10 million tonnes, we concur with the Directors' view that, upon completion of the Transfer, the Group will increase its aluminum fabrication capacity from approximately 0.2 million tonnes to approximately 1.30 million tonnes, representing an increase of approximately 6.5 times.

3. Upon completion of the acquisition of Target Companies, the Company would have acquired most of the aluminum fabrication business from Chinalco and upon centralization of the management of the aluminum fabrication business under the Company, this will reduce the competition as well as connected transactions between the Company and Chinalco and are advantageous to the strategic integration of aluminum fabrication business into the Company.
4. The management of the Company had demonstrated solid expertise and proven track records in integrating newly acquired companies into the Group and enhancing the Group's efficiency in the past mergers and acquisitions. The Directors consider that the management of the Company will utilize their past experience and expertise in centralized resources management to enable the Group to optimize its allocation of raw materials, production and waste recycling after the Transfer.
5. The acquisition of Longxing Aluminum will reduce the competition between the Company and Chinalco, and further strengthen the primary aluminum production capacity of the Company. The acquisition of Longxing Aluminum will also help develop the local economy where Longxing Aluminum is located. Given that the sustained growth in the PRC economy and the wide application of aluminum processing products, the Directors expect that, and we concur with their view that, higher demand for aluminum processing products generating from the local economy will benefit the Group in medium terms.

- 24 -

LETTER FROM BOCOM INTERNATIONAL (ASIA) LIMITED

Save for the reasons and benefits stated above, we note from the A Share Prospectus that Chinalco had signed undertakings with the Company in November 2005 and April 2007, pursuant to which the Company has undertaken to Chinalco to acquire its primary aluminum fabrication business and primary aluminum production business when the market is mature and under favourable circumstances. Hence, the Transfer is in line with the Company's undertakings made to the Chinalco.

Taking into account of the reasons for and benefits of the Transfer described above, we concur with the views of the Directors that the Transfer can (i) reduce competition and connected transactions between the Company and Chinalco; (ii) enable the Group to optimize its allocation of raw materials, production and waste recycling; and (iii) is consistent with the Group's development strategy.

Given that the Transfer will also enrich the production chain of the Company and increase its primary aluminum production capacity, we therefore consider that the Transfer is in the interests of the Company and the Shareholders as a whole.

2. The Consideration

The Directors have decided to bid the Target Equity Interests at the purchase price of RMB4,180 million (equivalent to approximately HK\$4,460 million) ("Consideration") which will be satisfied in cash funded by the internal resources of the Group. As stated in the letter from the Board, the Consideration was assessed by the Company based on the aggregate net asset value attributable to the respective Target Equity Interests in the Target Companies and the unaudited accounts of the five aluminum fabrication plants and the audited accounts of Longxing Aluminum, the primary aluminum plant as at 30 November 2007, and the current and future earnings and business potential of the Target Companies.

Payment of the purchase price shall be made within 5 working days from the effective date of the Acquisition Agreement.

Comparable Companies analysis

If the Company is successful in the bidding, the Company will acquire from Chinalco the Target Equity Interests as a whole. In the light of above, when assessing the fairness and reasonableness of the Consideration, we consider to treat the Target Companies as a group instead of six individual companies.

To ascertain the fairness and reasonableness of the Consideration, we have conducted market comparison for our analysis and considered to apply the price-to-earnings ratio ("PER") and price-to-book ratio ("PBR") of other listed companies engaged in the similar principal businesses as those of the Target Companies. As the principal businesses of the Target Companies mainly involve aluminum fabrication, production and sale of primary aluminum products, primary aluminum ingots and carbon products, we are not able to identify listed companies whose principal business are perfectly comparable with the Target Companies.

- 25 -

LETTER FROM BOCOM INTERNATIONAL (ASIA) LIMITED

To implement our PER and PBR analysis, we have selected 8 companies (the "Comparables") listed in Hong Kong and other stock exchanges in USA, India, Australia, Romania and Egypt whose scope of business and scale of operations in terms of the sizes of revenue and profits are similar to those of the Target Companies. LETTER FROM BOCOM INTERNATIONAL (ASIA) LIMITED

- Note:
- (1) The PER of the Comparables are calculated base on their respective closing prices on the Latest Practicable Date as quoted on the respective stock exchanges of the Comparables divided by the net profit after taxation disclosed in their respective published financial reports of the Comparables.
 - (2) The PBR of the Comparables are calculated base on their respective closing prices on the Latest Practicable Date as quoted on the respective stock exchanges of the Comparables divided by the net asset value disclosed in their respective published financial reports of the Comparables.
 - (3) Based on the Consideration divided by the combined net profit after taxation for the year ended 31 December 2006 attributable to the Target Equity Interests.
 - (4) Based on the Consideration divided by the combined net asset value as at 30 November 2007 attributable to the Target Equity Interests.

Shareholders should be noted that the businesses, operations and prospects of the Target Companies are not the same as those Comparables set out in the table above. Accordingly, the Comparables may not be fully comparable.

Shareholders should also be noted that the financial information of the Comparables were prepared in accordance with their respective local generally accepted accounting principles; therefore their PER and PBR may not be fully comparable. As such, this information should be referenced with care.

As shown in the above table, the PER of the Comparables ranged from 1.36 times to 28.11 times, with an average of approximately 12.45 times. The Consideration represents an implied PER of approximately 11.00 times the combined net profit after taxation of the Target Companies for

the year ended 31 December 2006, which lies within the range and is slightly below the average of the PER of the Comparables; while the PBR represented by the Consideration of approximately 1.34 times lies at the lower range of those of the Comparables and is below the average of PBR of the Comparables.

Based on the above comparison, we considered that the implied PER and PBR attributable to the Target Companies represented by the Consideration is acceptable to the Group, and we are of the view that the Consideration is fair and reasonable so far as the Company and Independent Shareholders are concerned.

3. Possible financial effects of the Transfer on the Group

Net asset value

According to the 2007 Annual Results Announcement of the Company, the Group recorded a net assets of approximately RMB57,944.15 million as at 31 December 2007. Based on the PRC accounting standards, the combined net asset value attributable to the Target Equity Interests as at 30 November 2007 was approximately RMB3,116.00 million. Upon completion of the Transfer, the net asset value of the Target Companies will be consolidated into the Group. According to the PRC accounting standards, the net asset value of the Group would be decreased by approximately RMB1,064.01 million, being the difference between the Consideration and the net asset value attributable to the Target Equity Interests as at 30 September 2007, which in turn represents a decrease in the net assets of the Group as at 31 December 2007 by approximately 1.84%. The amount of RMB1,064.01 million would be offset against the equity account of the Group and no goodwill will be shown in the Group's accounts. We consider the Transfer will only have negligible effect to the net asset value of the Group.

Earnings

According to the 2007 Annual Results Announcement of the Company, the Group recorded a profit attributable to equity holders of the Company of approximately RMB10,244.55 million for the year ended 31 December 2007. The Target Companies recorded net profits after

taxation of approximately RMB607.82 million for the nine months ended 30 September 2007, representing approximately 5.93% of the profit attributable to equity holders of the Company for the year ended 31 December 2007.

Upon completion of the Transfer, the Target Companies will become directly-owned subsidiaries of the Company and their respective results will be consolidated into the accounts of the Group.

LETTER FROM BOCOM INTERNATIONAL (ASIA) LIMITED

Working capital

According to the letter from the Board, the Transfer will be financed by the internal resources of the Group. According to the 2007 Annual Results Announcement of the Company, as at 31 December 2007, the Group has cash and cash equivalents of approximately RMB7,802.91 million, and the Consideration accounted for approximately 53.57% of such cash and cash equivalents.

In connection with the Transfer, the Company will also be responsible for an amount equals to approximately 37% (equivalent to RMB474 million) of the total development cost of CSWA Cold Rolling Co. Ltd. if the Company is successful in the bidding. The Directors advised that the amount will be used for the production facilities of CSWA Cold Rolling Co. Ltd., and the Company will inject RMB300 million and RMB174 million to CSWA Cold Rolling Co., Ltd. in the first and second half of 2008 respectively.

Given the Group's strong cash position and its total available credit facilities amounting to approximately RMB52.5 billion as at 30 September 2007, the Directors consider that, if the Company is successful in the bidding, the Group will have sufficient financial resources to fund the Consideration and the amount of RMB474 million which represents approximately 37% of the total development cost of CSWA Cold Rolling Co. Ltd. without affecting the normal operations of the Group.

Based on the aforementioned analysis, we are concur with the Directors that the Acquisition Agreement and the transactions contemplated therein are on normal commercial terms and is in the interests of the Company and its Shareholders as a whole.

RECOMMENDATION

Having taken into account the principal factors and reasons which include (i) background of and reasons for the Transfer; (ii) the Consideration; and (iii) possible financial effects of the Transfer on the Group, we are of the view that, if the Company is successful in the bidding, the entering into the Acquisition Agreement the terms of the Acquisition Agreement and the transactions contemplated thereunder are on normal commercial terms and are fair and reasonable so far as the Company and its Shareholders are concerned and that the Transfer is in the interests of the Company and its Shareholders as a whole. Accordingly, we recommend the Independent Board Committee to advise the Independent Shareholders to vote in favour of the relevant resolutions to be proposed at the EGM to approve the Acquisition Agreement and the transactions contemplated thereunder.

Yours faithfully,
For and on behalf of
BOCOM International (Asia) Limited
