Roy Porat, Camtek's General Manager, commented, "This quarter we again strongly grew our top line and we achieved profit on a non-GAAP basis. Our tight expense control coupled with a continued increase in orders, has enabled us to end 2009 in a stronger position." Continued Mr. Porat, "As we move into 2010, our business is primed for growth. We are enjoying a recovery in the two industries that we operate in, particularly the semiconductor industry. Our expected new growth engines that we recently acquired, SELA and Printar, also represent significant potential for us and we are very excited with regard to their prospects as we move through 2010 and beyond. Looking ahead, we are cautiously optimistic. We are seeing a continued improvement in orders and we believe 2010 will be a stronger year for Camtek. For the first quarter, which is normally seasonally weak, we expect revenues of between \$16-18 million. We also expect to increase our operating expenses in both sales and marketing as well as R&D, in order to capitalize on a number of current strategic opportunities for both our legacy businesses as well as our new growth engines. Our overall goal remains to build Camtek into a larger and more profitable business, by increasing our addressable markets by providing customers new products and offering that are synergetic with our overall business."
