Gilat Announces Third Quarter 2013 Results

Petah Tikva, Israel – November 13, 2013 – Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today reported its results for the third quarter ended September 30, 2013.

Key Financial Updates:

- Revenue for Q3 2013 of \$71.3 million
- EBITDA for Q3 2013 of \$2.1 million
- Expenses reduced by around \$9 million per year during Q4 2013 with effects to be realized starting in Q1 2014
- Management objectives for 2013 lowered to approximately \$310 million in revenue and EBITDA of 6% primarily due to delayed deals in our Commercial Division and in Peru

Revenues for the third quarter of 2013 were \$71.3 million, compared to \$89.0 million for the same period in 2012.

On a non-GAAP basis, operating loss for the third quarter of 2013 was \$1.3 million compared to an operating income of \$5.7 million in the third quarter of 2012. On a non-GAAP basis, net loss for the period was \$1.9 million, or \$0.04 per diluted share, compared to net income of \$5.8 million, or \$0.13 per diluted share, in the comparable period in 2012.

EBITDA for the third quarter of 2013 reached \$2.1 million as compared with \$9.8 million in the comparable period in 2012.

In August, the Company announced that it entered into a definitive agreement to sell Spacenet to SageNet, subject to regulatory approval and the satisfaction of customary closing conditions. The Company received the required FCC regulatory approval last week and notified SageNet that all conditions for closing have been met. The Company has been notified by SageNet that it is not willing to proceed to closing at this time based on several assertions. While the Company rejects all of SageNet's assertions and believes them to be unfounded, it is in continuing discussions with SageNet concerning their assertions. At this time the closing has been delayed.

“The shortfall in Q3 was mainly attributed to two deals which were delayed in our Commercial Division, reduced revenue from Compartel in Colombia and a delayed project implementation in our Services Division,” said Erez Antebi, CEO of Gilat.

“We have taken immediate action to cut costs reducing our global headcount and fixed expenses by approximately \$9 million annually,” continued Antebi. “We expect to see most of the impact of the reductions beginning in the first quarter of 2014. It is important to note that we have taken care not to reduce our sales teams or our research and development investments in our strategic growth areas.”

“Going forward, we believe we are well positioned for success,” concluded Antebi. “While this has been a difficult quarter, we have taken the appropriate measures to significantly cut costs and further streamline the company. We continue to close deals in our Commercial Division with new and existing customers. Our Defense Division is stable and we see growing interest and need for our products. We are confident in the road ahead and believe that with the steps we have taken, the Company is better positioned to succeed going forward.”

Notes:

(1) The attached summary financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). The attached summary financial statements are unaudited. To supplement the consolidated financial statements presented in accordance with GAAP, the Company presents Gilat's EBITDA before the impact of non-cash share-based payment charges, depreciation and amortization, other income and other costs related to acquisition transactions. Non-GAAP presentations of net income, EBITDA and earnings per share are provided to enhance the understanding of the Company's historical financial performance and comparability between periods.

(2) Operating income before depreciation, amortization, non-cash stock option expenses as per ASC 718 (formerly SFAS 123(R)) and other costs related to acquisition transactions ('EBITDA') is presented because it is a measure commonly used and is presented solely in order to improve the understanding of the Company's operating results and to provide further perspective on these results. EBITDA, however, should not be considered as an alternative to operating income or net income for the period as an indicator of the operating performance of the Company.

Similarly, EBITDA should not be considered as an alternative to cash flows from operating activities as a measure of liquidity. EBITDA is not a measure of financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies. EBITDA may not be indicative of the historic operating results of the Company; nor is it meant to be predictive of potential future results. Reconciliation between the Company's Operating income and EBITDA is presented in the attached summary financial statements.
