NOTES TO CONDENSED FINANCIAL STATEMENTS (Unaudited)

Note 1 – The information shown with respect to the three and nine months ended November 30, 2013 and 2012, which is unaudited, includes all adjustments which in the opinion of Management are considered to be necessary for a fair presentation of earnings for such periods. The adjustments reflected in the financial statements represent normal recurring adjustments. The results of operations for the three and nine months ended November 30, 2013 and 2012 are not necessarily indicative of the results to be expected at year end due to seasonality of the product sales.

These financial statements and notes are prepared pursuant to the rules and regulations of the Securities and Ex-change Commission for interim reporting and should be read in conjunction with the financial statements and accompanying notes contained in our Annual Report to Shareholders for the fiscal year ended February 28, 2013.

Note 2 – Effective June 30, 2013, we signed a Fifteenth Amendment to the Credit and Security Agreement with Arvest Bank (the Bank) which provides a \$2,500,000 line of credit through June 30, 2014. Interest is payable monthly at the greater of (a) prime-floating rate minus 0.75% or (b) 4.00%. At November 30, 2013, the rate in effect was 4.00%. Borrowings are collateralized by substantially all the assets of the Company.

We had \$500,000 in borrowings outstanding on the above revolving credit agreement at November 30, 2013 and \$1,250,000 at February 28, 2013. Available credit under the revolving credit agreement was \$2,000,000 at November 30, 2013. This agreement also contains a provision for our use of the Bank's letters of credit. The Bank agrees to issue, or obtain issuance of, commercial or stand-by letters of credit provided that no letters of credit will have an expiry date later than June 30, 2014 and that the sum of the line of credit plus the letters of credit would not exceed the borrowing base in effect at the time. The agreement contains provisions that require us to maintain specified financial ratios, restrict transactions with related parties, prohibit mergers or consolidation, disallow additional debt, and limit the amount of compensation, salaries, investments, capital expenditures and leasing transactions. We intend to renew the bank agreement or obtain other financing upon maturity. For the quarter ended November 30, 2013, we had no letters of credit outstanding.

Note 3 – Inventories consist of the following:

	2013	
	November 30,	February 28,
Current:		
Book inventory	\$ 9,610,100	\$ 9,749,700
Inventory valuation allowance	(25,000)	(25,000)
Inventories net–current	\$ 9,585,100	\$ 9,724,700
Non-current:		
Book inventory	\$ 727,000	\$ 934,000
Inventory valuation allowance	(326,800)	(375,000)
Inventories net–non-current	\$ 400,200	\$ 559,000

We occasionally purchase book inventory in quantities in excess of what will be sold within the normal operating cycle due to minimum order requirements of our primary supplier. These amounts are included in non-current inventory.

Significant portions of our inventory purchases are concentrated with an England-based publishing company. Purchases from this company were approximately \$2.6 million and \$1.9 million for the three months ended November 30, 2013 and 2012, respectively. Total inventory purchases from all suppliers were approximately \$3.2 million and \$2.5 million for the three months ended November 30, 2013 and 2012, respectively.

For the nine-month period ended November 30, 2013 and 2012, respectively, purchases from this company were approximately \$6.7 million and \$7.0 million. Total inventory purchases from all suppliers were approximately \$8.7 million and \$8.9 million for the nine-month period ended November 30, 2013 and 2012, respectively.

Note 4 – Basic earnings per share (“EPS”) is computed by dividing net earnings by the weighted average number of common shares outstanding during the period. Diluted EPS is based on the combined weighted average number of common shares outstanding and dilutive potential common shares issuable which include, where appropriate, the assumed exercise of options. In computing diluted EPS we have utilized the treasury stock method.

The computation of weighted average common and common equivalent shares used in the calculation of basic and diluted earnings per share (“EPS”) is shown below.

In April 2008, our Board of Directors authorized us to purchase up to 500,000 additional shares of our common stock under a plan initiated in 1998. This plan has no expiration date. During the current quarter of fiscal year 2014, we purchased 26,451 shares of common stock. The maximum number of shares that can be repurchased in the future is 304,654.

Note 5 – We account for stock-based compensation whereby share-based payment transactions with employees, such as stock options and restricted stock, are measured at estimated fair value at date of grant and recognized as compensation expense over the vesting period. No such transactions occurred in the nine-month periods ended November 30, 2013 and 2012.

Note 6 – Freight costs and handling costs incurred are included in operating and selling expenses and were \$802,800 and \$748,400 for the three months ended November 30, 2013 and 2012, respectively. These costs were \$1,949,300 and \$1,818,000 for the nine-month period ended November 30, 2013 and 2012, respectively.

Note 7 – We have two reportable segments: Publishing and Usborne Books and More (“UBAM”). These reportable segments are business units that offer different methods of distribution to different types of customers. They are managed separately based on the fundamental differences in their operations. The Publishing Division markets its products to retail accounts, which include book, school supply, toy and gift stores and museums, through commissioned sales representatives, trade and specialty wholesalers and an internal telesales group. The UBAM Division markets its product line through a network of independent sales consultants through a combination of direct sales, home shows, book fairs and the Internet.

The accounting policies of the segments are the same as those of the rest of the Company. We evaluate segment performance based on earnings before income taxes of the segments, which is defined as segment net sales reduced by cost of sales and direct expenses. Corporate expenses, depreciation, interest expense and income taxes are not allocated to the segments, but are listed in the “other” row. Corporate expenses include the executive department, accounting department, information services department, general office management and building facilities management. Our assets and liabilities are not allocated on a segment basis.

Note 8 - The Financial Accounting Standards Board ("FASB") periodically issues new accounting standards in a continuing effort to improve standards of financial accounting and reporting. We have reviewed the recently issued pronouncements and concluded that the recently issued accounting standards are not currently applicable to us.

Note 9 - At February 28, 2013, we had a receivable in the amount of \$364,300 due from a customer who has filed for protection from its creditors under Chapter 11 of the Bankruptcy Reform Act of 1978 ("Act"), as it had been unable to secure further financing to satisfy the claims of its creditors. During this fiscal year, we received a payment towards this receivable in the amount of \$44,800 representing 12% of the allowed amount of our general unsecured claim. As of November 30, 2013, this receivable balance is \$319,500 and is fully reserved.

Note 10 - During fiscal year 2012, we signed a Stock Purchase Agreement to acquire an 11% position with Demibooks, Inc. for an initial investment of \$250,000. We have accounted for this investment using the cost method, as reflected on the balance sheet under 'investment in nonmarketable equity securities'. Demibooks provides a publishing platform, Composer, which is a code-free way for publishers and self-published authors and illustrators to create interactive books for the iPad on the device itself. We utilize the Composer platform to create proprietary interactive products. The Stock Purchase Agreement allowed for an additional \$250,000 investment, of which we invested an additional \$180,300 during fiscal year 2013, resulting in a total position of 15.6%. Our investment in Demibooks is subject to a high degree of risk because such securities are illiquid and the value of such securities could decline causing us to write-down or write-off the value of our investment, which would result in a negative impact to our earnings.

Note 11 - The valuation hierarchy included in U.S. GAAP considers the transparency of inputs used to value assets and liabilities as of the measurement date. The less transparent or observable the inputs used to value assets and liabilities, the lower the classification of the assets and liabilities in the valuation hierarchy. A financial instrument's classification within the valuation hierarchy is based on the lowest level of input that is significant to its fair value measurement. The three levels of the valuation hierarchy and the classification of our financial assets and liabilities within the hierarchy are as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly. If an asset or liability has a specified term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs for the asset or liability.

Table of Contents

We do not report any assets or liabilities at fair value in the financial statements. However, the estimated fair value of our line of credit is estimated by management to approximate the carrying value of \$500,000 at November 30, 2013 and \$1,250,000 at February 28, 2013. Management's estimates are based on the obligations' characteristics, including a floating interest rate, maturity, and collateral. Such valuation inputs are considered a Level 2 measurement in the fair value valuation hierarchy.

It was not practicable to estimate the fair value of an investment representing 15.6% of the issued common stock of an untraded company; that investment is carried at its original cost of \$430,300 at November 30, 2013 and February 28, 2013.

There were no transfers among Level 1, Level 2 or Level 3 assets during the nine-month periods ended November 30, 2013 and February 28, 2013.

Note 12 – On December 20, 2013, we paid the previously declared \$0.08 dividend per share to shareholders of record as of December 13, 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Factors Affecting Forward Looking Statements

MD&A contains statements that are forward-looking and include numerous risks which you should carefully consider. Additional risks and uncertainties can also materially and adversely affect our business. You should read the following discussion in connection with our financial statements, including the notes to those statements, included in this document. Our fiscal years end on February 28.

Overview

We operate two separate divisions, Publishing and Usborne Books and More ("UBAM"), to sell the Usborne and Kane Miller lines of children's books. These two divisions each have their own customer base. The Publishing Division markets its products on a wholesale basis to various retail accounts. The UBAM Division markets its products to individual consumers as well as school and public libraries. We have implemented electronic publishing capabilities to enhance our existing products.

The UBAM Division's gross sales increased \$211,100 during the three-month period ending November 30, 2013 when compared with the same quarterly period a year ago. This increase resulted from increases of 28% in internet sales, 10% in home party sales, and 5% in school and library sales, offset by decreases of 41% in fundraiser sales and 18% in direct sales.

Table of Contents

The increase in internet sales is attributed to a 22% increase in the total number of orders and a 5% increase in order size. The increase in home party sales is attributed to a 12% increase in the total number of orders, offset by a 1% decrease in average order size. The increase in school and library sales is attributed to a 12% increase in the total number of orders. The decrease in fundraiser sales is attributed to a 36% decrease in the total number of orders and an 8% decrease in average order size. The decrease in direct sales is attributed to a 10% decrease in the average order size and a 9% decrease in the total number of orders.

The Publishing Division's gross sales increased \$438,700 during the three-month period ending November 30, 2013 when compared with the same quarterly period a year ago. We attribute this to a 13% increase in sales to smaller retail stores, a 10% increase in inside sales and a 1% increase in sales to major national accounts.

The UBAM Division's discounts and allowances were \$773,300 and \$935,400 for the quarterly periods ended November 30, 2013 and 2012, respectively. The UBAM Division is a multi-level selling organization that markets its products through independent sales representatives ("consultants"). Sales are made to individual purchasers and school and public libraries. Gross sales in the UBAM Division are based on the retail sales prices of the products. As a part of the UBAM Division's varied marketing programs, discounts relevant to the particular program are offered. The discounts and allowances in the UBAM Division will vary from year-to-year depending on the marketing programs in place during any given period. The UBAM Division's discounts and allowances were 13.4% and 16.8% of UBAM's gross sales for the quarterly periods ended November 30, 2013 and 2012, respectively.

The Publishing Division's discounts and allowances are a much larger percentage of gross sales than discounts and allowances in the UBAM Division due to the different customer markets that each division targets. The Publishing Division's discounts and allowances were \$3,421,700 and \$3,194,400 for the quarterly periods ended November 30, 2013 and 2012, respectively. The Publishing Division sells to retail book chains, regional and local bookstores, toy and gift stores, school supply stores and museums. To be competitive with other wholesale book distributors, the Publishing Division sells at discounts between 48% and 55% of the retail sales prices of the products, based upon the quantity of books ordered and the dollar amount of the order. The Publishing Division's discounts and allowances were 51.9% of Publishing's gross sales for the quarterly periods ended November 30, 2013 and November 30, 2012.

Expenses

	For the Three Months Ended November 30,			
	2013	2012	\$ Change	% Change
Cost of sales	\$3,294,500	\$3,051,200	\$243,300	8.0

Sales commissions	1,741,900	1,582,700	159,200	10.1
General and administrative	495,500	480,100	15,400	3.2
Total	\$7,580,700	\$7,013,100	\$567,600	8.1

Cost of sales increased 8.0% for the three months ended November 30, 2013 when compared with the three months ended November 30, 2012. Cost of sales as a percentage of gross sales were 26.7% and 26.1%, respectively, for each of the three-month periods ended November 30, 2013 and 2012, respectively. Cost of sales is the inventory cost of the product sold, which includes the cost of the product itself and inbound freight charges. Purchasing and receiving costs, inspection costs, warehousing costs, and other costs of our distribution network are included in operating and selling expenses, not in cost of sales. These costs totaled \$300,100 in the quarter ended November 30, 2013 and \$274,200 in the quarter ended November 30, 2012.

In addition to costs associated with our distribution network (noted above), operating and selling costs include expenses of the Publishing Division, the UBAM Division and the order entry and customer service

functions. Operating and selling expenses as a percentage of gross sales were 16.6% for the quarter ended November 30, 2013 and 16.2% for the quarter ended November 30, 2012.

Table of Contents

Sales commissions in the Publishing Division increased 10.2% to \$89,900 for the three months ended November 30, 2013. Publishing Division sales commissions are paid on net sales and were 2.8% of net sales for the quarter ended November 30, 2013 and 2.7% for the quarter ended November 30, 2012. Sales commissions in the Publishing Division fluctuate depending upon the amount of sales made to our “house accounts,” which are the Publishing Division’s largest customers and do not have any commission expense associated with them, and sales made by our outside sales representatives.

Sales commissions in the UBAM Division increased 10.1% to \$1,652,000 for the three months ended November 30, 2013, primarily due to the increase in net sales for the same period. UBAM Division sales commissions were 28.6% of gross sales for the three months ended November 30, 2013 and 27.0% of gross sales for the three months ended November 30, 2012. The fluctuation in the percentages of commission expense to gross sales is the result of the type of sale. Home shows, book fairs, school and library sales, and direct sales have different commission rates. Also contributing to the fluctuations in the percentages is the payment of overrides and bonuses, both dependent on consultants’ monthly sales and downline sales.

Our effective tax rate was 37.7% for the both quarterly periods ended November 30, 2013 and 2012. These rates are higher than the federal statutory rate due to the inclusion of state income and franchise taxes, which is partially offset by the Federal Indian Employment Credit.

Operating Results for the Nine-month period Ended November 30, 2013

We earned income before income taxes of \$1,118,400 for the nine months ended November 30, 2013 compared with \$1,625,500 for the nine-month period ended November 30, 2012.

The UBAM Division’s gross sales decreased \$712,600 during the nine-month period ending November 30, 2013 when compared with the same nine-month period a year ago. This decrease resulted from decreases of 37% in fundraiser sales, 22% in direct sales, 3% in school and library sales, offset by an increase of 19% in internet sales and 2% in home party sales.

The decrease in fundraiser sales is attributed to a 30% decrease in the total number of orders and a 10% decrease in average order size. The decrease in direct sales is attributed to a 13% decrease in the total number of orders and an 11% decrease in the average order size. The decrease in school and library sales is attributed to a 2% decrease in the total number of orders and a 1% decrease in average order size. The increase in internet sales is attributed to a 15% increase in the total number of orders and 3% increase in average order size. The increase in home party sales is attributed to a 3% increase in the total number of orders, offset by a 1% decrease in average order size.

The Publishing Division’s gross sales increased \$812,600 during the nine-month period ending November 30, 2013 when compared with the same nine-month period a year ago. We attribute this to a 9% increase in sales to smaller retail stores and a 4% increase in inside sales, offset by a 1% decrease in sales to major national accounts.

The UBAM Division's discounts and allowances were \$1,834,300 and \$2,447,500 for the nine-month periods ended November 30, 2013 and 2012, respectively. The UBAM Division's discounts and allowances were 14.6% and 18.4% of UBAM's gross sales for the nine-month periods ended November 30, 2013 and 2012, respectively.

The Publishing Division's discounts and allowances were \$9,483,200 and \$9,008,100 for the nine-month periods ended November 30, 2013 and 2012, respectively. The Publishing Division's discounts and allowances were 52.1% and 51.8% of Publishing's gross sales for the respective nine-month periods ended November 30, 2013 and November 30, 2012.

Operating and selling expenses as a percentage of gross sales were 17.5% for the nine-month period ended November 30, 2013 and 16.3% for the nine-month period ended November 30, 2012.

Sales commissions in the Publishing Division increased 8.7% to \$251,500 for the nine months ended November 30, 2013. Publishing Division sales commissions are paid on net sales and were 2.9% of net sales for the nine-month period ended November 30, 2013 and 2.8% for the nine-month period ended November 30, 2012. Sales commissions in the Publishing Division fluctuate depending upon the amount of sales made to our “house accounts,” which are the Publishing Division’s largest customers and do not have any commission expense associated with them, and sales made by our outside sales representatives.

Sales commissions in the UBAM Division decreased slightly to \$3,516,200 for the nine-month period ended November 30, 2013 from \$3,527,800 for the same period a year ago, primarily due to the decrease in net sales for the same period. UBAM Division sales commissions were 27.9% of gross sales for the nine months ended November 30, 2013 and 26.5% of gross sales for the nine months ended November 30, 2012. The fluctuation in the percentages of commission expense to gross sales is the result of the type of sale. Liquidity and Capital Resources

Our primary source of cash is typically operating cash flow. Typically, our primary uses of cash are to pay dividends, repurchase outstanding shares of stock, and purchase property and equipment. We utilize our bank credit facility to meet our short-term cash needs when necessary.

Our Board of Directors has adopted a stock repurchase plan in which we may purchase up to a total of 3,000,000 shares as market conditions warrant. Management believes the stock is undervalued and when stock becomes available at an attractive price, we will utilize free cash flow to repurchase shares. Management believes this enhances the value to the remaining stockholders and that these repurchases will have no adverse effect on our short-term and long-term liquidity. We repurchased 43,349 shares at a cost of \$129,200 during the nine-month period ended November 30, 2013.

Table of Contents

We have a history of profitability and positive cash flow. We can sustain planned operating levels with minimal capital requirements. Consequently, cash generated from operations is used to liquidate any existing debt, pay capital distributions through dividends or repurchase shares outstanding.

For the nine-month period ended November 30, 2013, we experienced a positive cash flow from operating activities of \$1,752,900. Cash flow from operating activities resulted primarily from an increase in certain current liabilities of \$1,325,600, net income after taxes of \$670,800, an increase in income taxes payable of \$372,300, a decrease in inventory of \$298,400, a decrease in certain prepaid expenses and other current assets of \$185,600, and a decrease in deferred income taxes of \$52,700. These were offset by an increase in accounts receivable of \$1,238,000.

We believe that in fiscal year 2014 we will experience a positive cash flow and that this positive cash flow along with the bank credit facility will be adequate to meet our liquidity requirements for the foreseeable future.

Cash used in investing activities was \$57,800 for the nine-month period ended November 30, 2013. This was for capital expenditures to replace our stock-picking forklift, upgrade our computer equipment, office facilities and equipment, and warehouse lighting and shelving. We estimate that total cash used in investing activities for fiscal year 2014 will be less than \$250,000. This would consist of software and hardware enhancements to our existing data processing equipment and property improvements.

For the nine-month period ended November 30, 2013, cash used in financing activities was \$1,702,900, resulting from payments under our revolving credit agreement of \$2,000,000, dividend payments of \$954,600 and the purchase of \$129,200 of treasury stock, offset by borrowings under our revolving credit agreement of \$1,250,000 and the sale of \$130,900 of treasury stock.

Effective June 30, 2013, we signed a Fifteenth Amendment to the Credit and Security Agreement with Arvest Bank (the Bank) which provides a \$2,500,000 line of credit through June 30, 2014. Interest is payable monthly at the greater of (a) prime-floating rate minus 0.75% or (b) 4.00%. At November 30, 2013, the rate in effect was 4.00%. Borrowings are collateralized by substantially all the assets of the Company.

We had \$500,000 in borrowings outstanding on the above revolving credit agreement at November 30, 2013 and at \$1,250,000 February 28, 2013. Available credit under the revolving credit agreement was \$2,000,000 at November 30, 2013. This agreement also contains a provision for our use of the Bank's letters of credit. The Bank agrees to issue, or obtain issuance of, commercial or stand-by letters of credit provided that no letters of credit will have an expiry date later than June 30, 2014 and that the sum of the line of credit plus the letters of credit would not exceed the borrowing base in effect at the time. The agreement contains provisions that require us to maintain specified financial ratios, restrict transactions with related parties, prohibit mergers or consolidation, disallow additional debt, and limit the amount of compensation, salaries, investments, capital expenditures and leasing transactions. We intend to renew the bank agreement or obtain other financing upon maturity. For the quarter ended November 30, 2013, we had no letters of credit outstanding.

As of November 30, 2013 we did not have any commitments in excess of one year.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to our valuation of inventory,

allowance for uncollectible accounts receivable, allowance for sales returns, long-lived assets and deferred income taxes. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Actual results may materially differ from these estimates under different assumptions or conditions. Historically, however, actual results have not differed materially from those determined using required estimates. Our significant accounting policies are described in the notes accompanying the financial statements included elsewhere in this report. However, we consider the following accounting policies to be more significantly dependent on the use of estimates and assumptions.

Table of Contents

Revenue Recognition

Sales are recognized and recorded when products are shipped. Products are shipped FOB shipping point. The UBAM Division's sales are paid at the time the product is shipped. These sales accounted for 56.7% of net revenues for the nine-month period ended November 30, 2013 and 57.8% for the nine-month period ended November 30, 2012. The provisions of the Accounting Standards Codification 605 "Revenue Recognition" (ASC 605) have been applied, and as a result, a reserve is provided for estimated future sales returns.

Estimated allowances for sales returns are recorded as sales are recognized and recorded. Management uses a moving average calculation to estimate the allowance for sales returns. We are not responsible for product damaged in transit. Damaged returns are primarily from the retail stores. The damages occur in the stores, not in shipping to the stores. It is industry practice to accept returns from wholesale customers. Transportation revenue, the amount billed to the customer for shipping the product, is recorded when products are shipped. Management has estimated and included a reserve for sales returns of \$100,000 as of November 30, 2013 and February 28, 2013.

Allowance for Doubtful Accounts

We maintain an allowance for estimated losses resulting from the inability of our customers to make required payments. An estimate of uncollectable amounts is made by management based upon historical bad debts, current customer receivable balances, age of customer receivable balances, the customer's financial condition and current economic trends. If the actual uncollected amounts significantly exceed the estimated allowance, then our operating results would be significantly adversely affected. Management has estimated and included an allowance for doubtful accounts of \$474,100 as of November 30, 2013 and \$471,900 February 28, 2013.

Inventory

Management continually estimates and calculates the amount of non-current inventory. Non-current inventory arises due to occasionally purchasing book inventory in quantities in excess of what will be sold within the normal operating cycle due to minimum order requirements of our primary supplier. Non-current inventory was estimated by management using the current year turnover ratio by title. All inventory in excess of 2 ½ years of anticipated sales was classified as non-current inventory. Non-current inventory balances, before valuation allowance, were \$727,000 at November 30, 2013 and \$934,000 at February 28, 2013.

Inventories are presented net of a valuation allowance. Management has estimated and included a valuation allowance for both current and non-current inventory. This allowance is based on management's identification of slow moving inventory on hand. Management has estimated a valuation allowance for both current and non-current inventory of \$351,800 and \$400,000 as of November 30, 2013 and February 28, 2013, respectively.

Stock-Based Compensation

We account for stock-based compensation whereby share-based payment transactions with employees, such as stock options and restricted stock, are measured at estimated fair value at date of grant and recognized as compensation expense over the vesting period.
