[President's Letter \(unaudited\)](#)

Dear Fellow Shareholders:

We are pleased to present you with this annual report for Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc. and Value Line Core Bond Fund (individually, a “Fund” and collectively, the “Funds”) for the 12 months ended December 31, 2013. We are especially excited to present this annual report in its new format, revised to be more informative, more useful and more reader-friendly.

The 12 months ended December 31, 2013 were rewarding ones for the equity and hybrid Value Line Funds but challenging ones for the fixed income Value Line Funds, as investors generally focused on the economic recovery despite persistent volatility. At the same time, the annual period was highlighted by several of the Funds being recognized for their long-term performance.

Value Line Premier Growth Fund, Inc. outpaced its peers for the three-, five- and ten-year periods ended December 31, 2013, as noted by leading independent mutual fund advisory service Lipper Inc.<sup>1</sup> (multi-cap growth category). Lipper also awarded its top Lipper Leader rating of 5 to the Fund for Preservation<sup>i</sup> versus its peers as of December 31, 2013. Additionally, the Fund earned an Overall four-star rating from Morningstar<sup>2</sup> in the mid-cap growth category among 638 funds as of December 31, 2013 based on risk-adjusted returns. Morningstar gave the Fund a Risk rating of Below Average.<sup>ii</sup>

The Value Line Fund, Inc. was named a Lipper Leader<sup>1</sup> for overall Preservation versus its peers as of December 2013.<sup>iii</sup>

Value Line Income and Growth Fund, Inc. outpaced its peers for the three-, five- and ten-year periods ended December 31, 2013, as noted by Lipper Inc.<sup>1</sup> (mixed-asset target allocation moderate category). The Fund also earned an Overall four- star rating from Morningstar<sup>2</sup> in the moderate allocation category among 739 funds as of December 31, 2013 based on risk- adjusted returns.<sup>iv</sup> The Fund, along with Value Line Premier Growth Fund, Inc., was featured in various national publications for its consistent performance over multiple time periods.

Also a highlight of the annual period was Value Line Core Bond Fund transitioning to a new, more efficient strategy. Value Line Core Bond Fund, having changed its strategy to be a broad-based intermediate-term investment grade bond fund in December 2012, enjoyed significantly increased assets with the merger of the Value Line U.S. Government Securities Fund, Inc. into the Fund in March 2013. The Fund has already begun to realize the benefits of a larger, more efficiently managed fund, and the investment adviser, EULAV Asset Management (the “Adviser”) permanently reduced the management fee in February 2013.

On the following pages, the Funds’ portfolio managers discuss the management of their respective Funds over the annual period. The discussions highlight key factors influencing recent performance of the Funds. You will also find a schedule of investments and financial statements for each of the Funds.

Before reviewing the performance of your individual mutual fund investment, we encourage you to take a brief look at the major factors affecting the financial markets over the 12 months ended December 31, 2013, especially given the newsworthy events of the year. With the exciting developments and performance results of the Funds during 2013, we also invite you to take this time to consider a broader diversification strategy by including additional Value Line

Funds, which you can read about on the following pages, in your investment portfolio.

#### Economic Review

U.S. real Gross Domestic Product (GDP) was lackluster with growth in the first half of 2013 at less than 2% in the first and second calendar quarters. The U.S. economy faced strong headwinds, including increases in the payroll tax and disruptions from the sequester budget cuts. Third quarter GDP, however, turned sharply upward, coming in at 4.1%, as boosted by higher consumer spending, increased business investment and rising inventories. Estimates for fourth quarter GDP suggest the U.S. economy may have ended the year with more momentum than had been anticipated.

Despite the growing economy, inflation remained modest. Consumer prices stayed in check, with the Consumer Price Index (CPI) rising just 1.5% before seasonal adjustment. Limited wage growth and declining energy prices contributed to the relatively benign inflation scenario. The U.S. also saw moderate job growth, as reflected in a drop in unemployment from 7.8% at the close of 2012 to 6.7% at the close of 2013. The makeup of job growth, however, was somewhat disappointing, with hiring generally concentrated in sectors representative of low-wage jobs.

In recognition of the improving U.S. economy, the Federal Reserve (the “Fed”) had ongoing—and well-publicized—discussions throughout the year about the possibility of reducing its monthly bond-buying program. Speculation about the timing and magnitude of the tapering had a great impact on both the equity and fixed income markets. Ultimately, Fed Chair Ben Bernanke kept the focus on key market data as the basis for the decision on tapering. As unemployment dropped close to the Fed’s stated target of 6.5%, the Fed finally announced in December 2013 that it would modestly reduce its monthly bond purchases—from \$85 billion to \$75 billion—beginning in January 2014. At the same time, the Fed reaffirmed its commitment to maintaining low short-term interest rates, with the targeted federal funds rate not likely to exceed 0.25%. At the end of the annual period, the appointment of Janet Yellen as new Fed Chair was seen by the financial markets as likely to not steer the Fed too far off the course set by Ben Bernanke.

(continued)

### Equity Market Review

U.S. equities, as measured by the S&P 500® Index<sup>3</sup>, posted robust double-digit gains for 2013, supported by a significantly stronger real estate market, steady growth in manufacturing and a modest drop in the national unemployment rate.

Stocks began the year strong upon the announcement of a partial bi-partisan deal regarding the federal budget, debt ceiling and government shutdown—which drove a generally steady climb through May 2013. The S&P 500® Index subsequently dropped between the end of May and the end of June, as fears of over-bought conditions, an imminent end to the quantitative easing program by the Fed and worries over second quarter corporate earnings arose. The U.S. equity market snapped back to post solid gains after reasonably good earnings reports and what were perceived as dovish words by Fed members that eased investors' concerns. A notable acceleration in market appreciation occurred in early October in response to the Fed's surprise announcement in September that it would not yet begin tapering its asset purchases. This announcement combined with improving employment reports to drive the S&P 500® Index higher between early October and the end of December. Also boosting the U.S. equity market's gain at the end of the annual period was the Fed's announcement, ending seven months of speculation, that it would finally but gradually begin to taper its asset purchases in January 2014. A particularly notable catalyst for the U.S. equity market during the annual period was the expansion of the price/earnings multiple investors were willing to pay, as the price/earnings multiple of the S&P 500® Index expanded from 14x to 17x by the end of December 2013. The S&P 500® Index posted 45 new all-time closing highs in 2013, including a new closing high on the final day of trading. The last time the Index closed the year with a new high was in 1999.

All ten sectors of the S&P 500® Index posted positive double-digit absolute performance for the year, with the consumer discretionary, health care and industrials sectors leading the way. Telecommunication services and utilities, both traditionally considered defensive sectors, were the weakest sectors during the annual period.

### Fixed Income Market Review

The broad U.S. fixed income market, as measured by the Barclays U.S. Aggregate Bond Index<sup>4</sup>, posted negative returns during the annual period. The U.S. fixed income market faced several headwinds, including speculation of the Fed tapering its bond-buying program and Congressional discord resulting in protracted budget disputes and a partial U.S. government shutdown for 16 days. Economic indicators, while mixed, were generally improving during the year.

Against this backdrop, interest rates rose across the spectrum of maturities, but most dramatically in the intermediate segment of the yield curve. The rise in interest rates helped propel investor demand for investment grade and high yield corporate bonds at the expense of owning U.S. Treasuries. In turn, spread, or non-U.S. Treasury, sectors of the U.S. fixed income market were the best performers in the Barclays U.S. Aggregate Bond Index during the annual period. Generally speaking, lower quality bonds outpaced higher quality bonds, as investors sought yield amidst the underlying support of a growing economy. U.S. Treasuries posted negative returns overall.

\* \* \*

We thank you for trusting us to be a part of your long-term, comprehensive investment strategy. We appreciate your confidence in the Value Line Funds and look forward to serving your investment needs in the years ahead just as we have been helping to secure generations' financial futures for more than 60 years—based on solid fundamentals, sound

investment principles and the power of disciplined and rigorous analytics. If you have any questions or would like additional information on these or other Value Line Funds, we invite you to contact your investment representative or visit us at [www.vlfunds.com](http://www.vlfunds.com).

Sincerely,

/s/ Mitchell Appel  
Mitchell Appel  
President of the Value Line Funds

Past performance does not guarantee future results. Investment return and principal value of an investment can fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost; and that current performance may be lower or higher than the performance data quoted. Investors should carefully consider the investment objective, risks, charges and expense of a fund. This and other important information about a fund is contained in the fund's prospectus. A copy of our funds' prospectuses can be obtained free of charge by going to our website at [www.vlfunds.com](http://www.vlfunds.com) or calling 800.243.2729.

(continued)

- 1 Lipper Leader ratings are derived from highly sophisticated formulas that analyze funds against clearly defined criteria. Funds are compared to similar funds, and only those that trust stand out are awarded Lipper Leader status. Funds are ranked against their peers on each of four measures: Total Return, Consistent Return, Preservation and Expense. A fifth measure, Tax Efficiency, applies in the United States. Scores are subject to change every month and are calculated for the following periods: 3-year, 5-year, 10-year and overall. The overall calculation is based on an equal-weighted average of percentile ranks for each measure over 3-year, 5-year and 10-year periods (if applicable). For each measure, the highest 20% of funds in each peer group are named Lipper Leaders. The next 20% receive a rating of 4: the middle 20% are rated 3: the next 20% are rated 2; and the lowest 20% are rated 1.
  - i For Value Line Premier Growth Fund, Inc.: Preservation 5 rating for 3-year (10,671 funds); 5-year (9,050 funds) and overall (10,671 funds) periods ended December 31, 2013; 4 rating for 10-year (5,264 funds) period ended December 31, 2013.
  - iii For The Value Line Fund, Inc.: overall Preservation (10,671 funds); 3-year 5 rating (10,671 funds); 5-year 5 rating (9,050 funds) and 10-year 3 rating (5,264 funds) periods ended December 31, 2013.
- 2 The Morningstar Rating<sup>TM</sup> for funds methodology rates funds based on an enhanced Morningstar Risk-Adjusted Return measure, which also accounts for the effects of all sales charges, loads, or redemption fees. Funds are ranked by their Morningstar Risk-Adjusted Return scores and stars are assigned using the following scale: 5 stars for top 10%; 4 stars next 22.5%; 3 stars next 35%; 2 stars next 22.5%; 1 star for bottom 10%. Funds are rated for up to three periods: the trailing three-, five- and 10-years. For a fund that does not change categories during the evaluation period, the overall rating is calculated using the following weights: At least 3 years, but less than 5 years uses 100% three-year rating. At least 5 years but less than 10 years uses 60% five-year ratings/40% three-year rating. At least 10 years uses 50% ten-year rating/30% five-year rating/20% three-year rating.
  - ii For Value Line Premier Growth Fund, Inc.: Four-star rating for 3-year (638 funds), 10-year (416 funds) and Overall (638 funds) periods ended December 31, 2013; 5-year period ended December 31, 2013 3 stars/548 funds). Morningstar Risk: Below Average for the 5-year, 10-year and Overall periods ended December 31, 2013; Low for the 3- year period ended December 31, 2013.
  - iv For Value Line Income and Growth Fund, Inc.: Overall four-star rating (739 funds); 3-year 3 stars (739 funds), 5-year 3 stars (674 funds), 10-year 5 stars (422 funds) for periods ended December 31, 2013. All in the moderate allocation category.
- 3 The S&P 500<sup>®</sup> Index consists of 500 stocks that are traded on the New York Stock Exchange, American Stock Exchange and the NASDAQ national Market System and is representative of the broad stock market. This is an unmanaged index and does not reflect charges, expenses or taxes, and it is not possible to directly invest in this index.

## Edgar Filing: VALUE LINE FUND INC - Form N-CSR

The Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar- denominated, fixed-rate taxable bond market, including U.S. Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS and CMBS. This is an unmanaged index and does not reflect charges, expenses or taxes, which are deducted from the Fund's return. It is not possible to directly invest in this index.

## VALUE LINE PREMIER GROWTH FUND, INC.

### INVESTMENT OBJECTIVE AND STRATEGY

The Fund primarily seeks long-term growth of capital.

To achieve the Fund's goal, the Fund's investment adviser invests at least 80% of the Fund's net assets in a diversified portfolio of U.S. equity securities with favorable growth prospects. In selecting securities for purchase or sale, the Adviser generally analyzes the issuer of a security using fundamental factors such as growth potential and earnings estimates and quantitative factors such as historical earnings, earnings momentum and price momentum. The Fund may invest in small, mid or large capitalization companies, including foreign companies. There are no set limitations of investments according to a company's size, or to a sector weighting.

---

### Manager Discussion of Fund Performance

Below, Value Line Premier Growth Fund, Inc. portfolio manager Stephen E. Grant discusses the Fund's performance and positioning for the 12 months ended December 31, 2013.

How did the Fund perform during the annual period?

The Fund generated a total return of 26.56% during the 12 months ended December 31, 2013. This compares to the 32.39% return of the Fund's benchmark, the S&P 500® Index, during the same period.

What key factors were responsible for the Fund's performance during the 12-month reporting period?

While the Fund generated robust double-digit absolute gains, its underperformance of the S&P 500® Index during the 12-month reporting period can be attributed primarily to stock selection. Sector allocation overall was effective.

Which equity market sectors most significantly affected Fund performance?

Stock selection in the financials, health care, consumer staples and consumer discretionary sectors detracted from the Fund's performance most during the annual period. In financials, an underweighted exposure to the strongly performing insurance industry hurt most. In health care, a lesser exposure than the S&P 500® Index to the strongly performing biotechnology industry particularly dampened results. In consumer staples, holdings of select foreign companies, via American Depositary Receipts (ADRs), proved disappointing. In consumer discretionary, we missed the rallies in select stocks that performed well. (An ADR is a negotiable certificate issued by a U.S. bank representing a specified number of shares in a foreign stock that is traded on a U.S. exchange.) Holding an average 3% position in cash during a period when the U.S. equity market rallied also hurt.

Partially offsetting these detractors were the positive contributions made by effective stock selection in the information technology sector, having an overweighted allocation in the strongly performing industrials sector, and both stock selection in and having an underweighted allocation to the lagging energy sector.

Which stocks detracted significantly from the Fund's performance during the annual period?

During the annual period, among the stocks that detracted most from the Fund's relative performance were several foreign banks, including Colombia's Bancolombia, India's HDFC Bank, Brazil's Itau Unibanco Holding and Chile's Banco de Chile. In health care, overweighted positions in laggards such as cardiovascular device manufacturer Edwards Lifesciences, pharmacy benefits management services provider Catamaran and surgical systems manufacturer Intuitive Surgical detracted. In consumer discretionary, we missed the rallies in online retailer Amazon.com, online travel company priceline.com, entertainment subscription company Netflix and entertainment giant The Walt Disney Company, and thus these positions detracted on a relative basis.

What were some of the Fund's best-performing individual stocks?

Among the individual stocks that contributed most to the Fund's relative results were two sizable positions in the information technology sector—namely, Alliance Data Systems, which provides data-driven and transaction-based marketing and customer loyalty solutions, and MasterCard, which is a global payment solutions company that provides a variety of services in support of the credit, debt and related payment programs of financial institutions. Avoiding several laggards in the information technology sector, such as Apple, IBM and Oracle, also boosted the Fund's results.

(continued)

Several Fund positions in the industrials sector added value. Top contributors in the sector were human resources firm Towers Watson, rail transportation equipment manufacturer Wabtec, inland tank barge fleet operator Kirby and renewable energy equipment manufacturer EnerSys.

In the energy sector, a position in Core Laboratories was an outstanding performer. Core Laboratories provides reservoir description, production enhancement and reservoir management services for oil and gas producers.

How did the Fund use derivatives and similar instruments during the reporting period?

The Fund did not use derivatives during the reporting period.

Did the Fund make any significant purchases or sales during the fiscal year?

During the fiscal year, we initiated a Fund position in Chevron. Whereas this large integrated oil company had inconsistent results prior to 2003, over the past decade it has demonstrated the ability to consistently grow its earnings and stock price. We added to the Fund's long-time position in supplemental insurance company Aflac because it came through the 2008-09 world financial crisis in good shape and because we believe the company is now back on track to add to its long-term record of consistent growth in its earnings and stock price. In each case, we purchased shares as a dip in their respective share prices offered what we believed to be an attractive entry point.

A Fund position in Warnaco Group was eliminated because the company was acquired by PVH, combining to form one of the largest global branded lifestyle apparel companies in the world, with a diversified portfolio of brands, including Calvin Klein, Tommy Hilfiger, Van Heusen, IZOD, ARROW, Bass, Speedo, Olga and Warner's. We sold the Fund's position in food retailer Harris Teeter Supermarkets after its stock rose in response to a takeover bid by competitor Kroger.

Were there any notable changes in the Fund's weightings during the 12-month period?

There were no material changes in the Fund's sector weightings during the 12-month period ended December 31, 2013.

How was the Fund positioned relative to its benchmark index at the end of December 2013?

As of December 31, 2013, the Fund was overweighted relative to the S&P 500® Index in the industrials and materials sectors. The Fund was underweighted relative to the S&P 500® Index in the energy, financials and information technology sectors and rather neutrally weighted relative to the Index in the consumer discretionary, consumer staples, health care, utilities, telecommunication services sectors on the same date.

What is your tactical view and strategy for the months ahead?

Calendar year 2013 saw lower quality stocks outperform higher quality stocks, as investors became more bold and more confident in the economy and the financial system. Speculative stocks, such as those of biotechnology companies, and Initial Public Offerings, such as those of Facebook and Twitter, outperformed the broad U.S. equity market, along with the more cyclical, economically-sensitive stocks. Lagging were the more consistent, "steady-eddy," long-term growth stocks in which we traditionally invest, i.e., those companies that have established strongholds in their market or market niche through proprietary products or services, which, in our view, gives them greater control

of their own destiny and makes them less subject to ups and downs of the economy. We consider the Fund's underperformance of the S&P 500® Index in 2013 as part of the natural ebb and flow of the market, as the lower quality stocks that performed poorly in 2011 and 2012 regained some ground. We do not know whether the trends of 2013 will continue into the new year, but, regardless of market trends and conditions, we do not intend to vary from our strategy of investing in high quality securities with a long-term perspective. Our portfolio turnover and trading costs have remained lower than many of our peers, as we have patience with a consistent grower until a change in the company's strategy or its earnings and stock performance give solid reason to sell.

As always, we intend to stay true to our time-tested investment discipline going forward.

## THE VALUE LINE FUND, INC.

### INVESTMENT OBJECTIVE AND STRATEGY

The Fund's primary investment objective is long-term growth of capital. Current income is a secondary investment objective.

To achieve the Fund's investment objectives the Advisor invests substantially all of the Fund's net assets in common stocks. While the Fund is actively managed by the Advisor, the Advisor relies primarily on the rankings of companies by the Value Line Timeliness™ Ranking System (the "Ranking System") in selecting securities for purchase or sale. The Fund's investments principally are selected from common stocks ranked 1, 2 or 3 by the Ranking System at the time of purchase. The Advisor will determine the percentage of the Fund's assets invested in each stock based on the stock's relative attractiveness.

### Manager Discussion of Fund Performance

Below, The Value Line Fund, Inc. portfolio manager Stephen E. Grant discusses the Fund's performance and positioning for the 12 months ended December 31, 2013.

How did the Fund perform during the annual period?

The Fund generated a total return of 30.86% during the 12 months ended December 31, 2013. This compares to the 32.39% return of the Fund's benchmark, the S&P 500® Index, during the same period.

What key factors were responsible for the Fund's performance during the 12-month reporting period?

While the Fund generated robust double-digit absolute gains, its underperformance of the S&P 500® Index during the 12-month reporting period can be attributed primarily to holding a position in cash during a strong rally in the U.S. equity market. Stock selection and sector allocation overall provided mixed results.

Which equity market sectors most significantly affected Fund performance?

Stock selection in the health care sector detracted from the Fund's performance during the annual period. A lesser exposure than the S&P 500® Index to the strongly performing biotechnology industry particularly dampened results. Having an underweighted allocation to the financials sector, which outpaced the S&P 500® Index during the annual period, and an overweighted position in the materials sector, which lagged the S&P 500® Index during the annual period, also detracted. Perhaps most significantly, holding an average 2% position in cash during a period when the U.S. equity market rallied hurt.

Offsetting these detractors were the positive contributions made by effective stock selection in the information technology, consumer staples and energy sectors, having an overweighted allocation in the strongly performing industrials sector, and having an underweighted allocation to the lagging energy sector.

Which stocks detracted significantly from the Fund's performance during the annual period?

During the annual period, among the stocks that detracted most from the Fund's relative performance were overweighted positions in several health care laggards. These included positions in cardiovascular device manufacturer Edwards Lifesciences, pharmacy benefits management services provider Catamaran and surgical systems manufacturer Intuitive Surgical.

What were some of the Fund's best-performing individual stocks?

Among the individual stocks that contributed most to the Fund's relative results were three sizable positions in the information technology sector—namely, Alliance Data Systems, which provides data-driven and transaction-based marketing and customer loyalty solutions; MasterCard, which is a global payment solutions company that provides a variety of services in support of the credit, debt and related payment programs of financial institutions; and Open Text, which provides intranet, extranet and corporate portal solutions to organizations. Avoiding several laggards in the information technology sector, such as Apple, IBM and Oracle, boosted the Fund's results as well.

Several Fund positions in the industrials sector added value. Top contributors in the sector were inland tank barge fleet operator Kirby, construction and engineering services firm Chicago Bridge & Iron, flow control equipment manufacturer IDEX, food preparation equipment manufacturer Middleby and aerospace and defense company HEICO.

In the consumer staples sector, positions in brewer The Boston Beer Company, food products manufacturer Hormel Foods and bakery foods producer Flowers Foods were outstanding performers. We also successfully avoided positions in several giant-capitalization laggards during the annual period, including The Coca-Cola Company, Altria Group, The Wal-Mart Stores and Procter & Gamble.

(continued)

How did the Fund use derivatives and similar instruments during the reporting period?

The Fund did not use derivatives during the reporting period.

Did the Fund make any significant purchases or sales during the fiscal year?

In our view, the Fund was under-represented in the energy sector, so to enhance diversification, we were glad to identify two stocks that we believed well deserved to be in the portfolio—Chevron, one of the world’s largest integrated oil companies, and EQT, an integrated energy company with emphasis on Appalachian area natural gas supply, transmission and distribution. Both companies had inconsistent results prior to 2003, but over the past decade have demonstrated the ability to consistently grow their earnings and stock price. In each case, we purchased shares as a dip in their respective share prices offered what we believed to be an attractive entry point.

We initiated a Fund position in insurance company Prudential because, in our view, its earnings and stock price appeared to be back on a good growth track after struggling in the wake of the country’s financial crisis.

We reduced the Fund’s position in rail freight transportation company Union Pacific, taking profits after a strong run. We eliminated the Fund’s position in leather goods retailer Coach, as the company reported worse than expected earnings results. We sold the Fund’s position in food retailer Harris Teeter Supermarkets after its stock rose in response to a takeover bid by competitor Kroger.

Were there any notable changes in the Fund’s weightings during the 12-month period?

There were no material changes in the Fund’s sector weightings during the 12-month period ended December 31, 2013.

How was the Fund positioned relative to its benchmark index at the end of December 2013?

As of December 31, 2013, the Fund was overweighted relative to the S&P 500® Index in the industrials, consumer discretionary and materials sectors. The Fund was underweighted relative to the S&P 500® Index in the energy, financials and information technology sectors and rather neutrally weighted relative to the Index in the health care, consumer staples, utilities and telecommunication services sectors on the same date.

What is your tactical view and strategy for the months ahead?

Calendar year 2013 saw lower quality stocks outperform higher quality stocks, as investors became more bold and more confident in the economy and the financial system. Speculative stocks, such as those of biotechnology companies, and Initial Public Offerings, such as those of Facebook and Twitter, outperformed the broad U.S. equity market, along with the more cyclical, economically-sensitive stocks. Lagging were the more consistent, “steady-eddy,” long-term growth stocks in which we traditionally invest, i.e., those companies that have established strongholds in their market or market niche through proprietary products or services, which, in our view, gives them greater control of their own destiny and makes them less subject to ups and downs of the economy. We consider the Fund’s underperformance of the S&P 500® Index in 2013 as part of the natural ebb and flow of the market, as the lower quality stocks that performed poorly in 2011 and 2012 regained some ground. We do not know whether the trends of 2013 will continue into the new year, but, regardless of market trends and conditions, we do not intend to vary from our strategy of investing in high quality securities with a long-term perspective. Our portfolio turnover and trading

costs have remained lower than many of our peers, as we have patience with a consistent grower until a change in the company's strategy or its earnings and stock performance give solid reason to sell.

As always, we intend to stay true to our time-tested investment discipline going forward.

The following graph compares the performance of The Value Line Fund, Inc. to that of the S&P 500 Index (the “Index”). The Value Line Fund, Inc. is a professionally managed mutual fund, while the Index is not available for investment and is unmanaged. The returns for the Index do not reflect charges, expenses or taxes, but do include the reinvestment of dividends. The comparison is shown for illustrative purposes only.

Comparison of a Change in Value of a \$10,000 Investment in The Value Line Fund, Inc. and the S&P 500 Index\*

Performance Data: \*\*

	Average Annual Total Return	Growth of an Assumed Investment of \$10,000
1 year ended 12/31/13	30.86 %	\$13,086
5 years ended 12/31/13	16.87 %	\$21,800
10 years ended 12/31/13	5.45 %	\$17,004

\* The Standard and Poor’s 500 Stock Index is an unmanaged index that is representative of the larger-capitalization stocks traded in the United States.

\*\* The performance data quoted represent past performance and are no guarantee of future performance. The average annual total returns and growth of an assumed investment of \$10,000 include dividends reinvested and capital gains distributions accepted in shares. The investment return and principal value of an investment will fluctuate so that an investment, when redeemed, may be worth more or less than its original cost. The performance data and graph do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.

VALUE LINE INCOME AND GROWTH FUND, INC.

INVESTMENT OBJECTIVE AND STRATEGY

The Fund's primary investment objective is income, as high and dependable as is consistent with reasonable risk. Capital growth to increase total return is a secondary objective.

To achieve the Fund's goals, the Adviser invests not less than 50% of the Fund's net assets in common or preferred stocks or securities convertible into common stock which may or may not pay dividends. The balance of the Fund's net assets are primarily invested in U.S. government securities, money market securities and investment grade debt securities rated at the time of purchase from the highest (AAA) to medium (BBB) quality. Although the Fund can invest in companies of any size, it generally invests in U.S. securities issued by larger, more established companies (those with a market capitalization of more than \$5 billion).

Manager Discussion of Fund  
Performance

Below, Value Line Income and Growth Fund, Inc. portfolio managers Mark T. Spellman and Liane Rosenberg discuss the Fund's performance and positioning for the 12 months ended December 31, 2013.

How did the Fund perform during the annual period?

The Fund generated a total return of 19.55% during the 12 months ended December 31, 2013. This compares to the 18.62% return of the Fund's blended benchmark, comprised 60% of the S&P 500® Index and 40% of the Barclays U.S. Aggregate Bond Index (the "Barclays Index"), during the same period.

What key factors were responsible for the Fund's performance during the 12-month reporting period?

The Fund benefited most from effective asset allocation. Throughout the 12-month reporting period, the Fund was underweighted fixed income and overweighted equities. With U.S. equities, as measured by the S&P 500® Index, up 32.39% during the annual period, and bonds, as measured by the Barclays Index, posting a return of -2.02%, this asset allocation clearly added value. Stock selection overall within the equity portion of the Fund also proved beneficial.

Which equity market sectors most significantly affected Fund performance?

Stock selection in the information technology, industrials, utilities and health care sectors contributed most positively to the Fund's results. The Fund also benefited from having underweighted allocations to the information technology and energy sectors, which each lagged the S&P 500® Index during the annual period, and from having an overweighted allocation to the industrials sector, which outpaced the S&P 500® Index during the annual period.

Only partially offsetting these positive contributors was stock selection in the consumer discretionary and energy sectors, which detracted. Having an overweighted allocation to utilities, which lagged the S&P 500® Index during the annual period, and having underweighted exposures to the consumer discretionary and health care sectors, which outpaced the broad U.S. equity market during the annual period, also hurt.

What were some of the Fund's best-performing individual stocks?

Contributing most to the Fund's relative results were retail food and drug chain operator Safeway, financial services provider Charles Schwab and construction and engineering services firm Chicago Bridge & Iron. Safeway performed well, as its restructuring program added value and its store performance improved. Shares of Charles Schwab rose, as its fee revenue and market share increased with the stock market's rally. Chicago Bridge & Iron's shares rose significantly, as its bookings for new construction projects rose and as its acquisition of a competitor positively impacted its results.

Which stocks detracted significantly from the Fund's performance during the annual period?

During the annual period, the stocks that detracted most from the Fund's performance were Canadian gold producer Yamana Gold, data storage center real estate investment trust (REIT) Digital Realty Trust and offshore oil and gas drilling contractor Diamond Offshore Drilling. Shares of Yamana Gold fell significantly reflecting the precipitous decline in the price of gold bullion. Digital Realty Trust performed poorly along with the broad REIT industry. The company also posted less than expected operating results. Diamond Offshore Drilling saw its shares decline due to poor fundamentals in offshore drilling as well as company-specific shortfalls.

(continued)

Did the equity portion of the Fund make any significant purchases or sales?

During the fiscal year, we initiated positions in semiconductor device manufacturer Qualcomm, specialty pharmaceuticals company Allergan and Canadian telecommunications carrier BCE. We established a position in Qualcomm when the stock declined after an earnings disappointment, and we considered it an attractive entry point based on a longer-term perspective. We purchased Allergan after a dip in its share price, as we felt the fundamental outlook for the company was positive and the market had overreacted to news that it was delaying final studies for drugs to treat age-related macular degeneration and baldness. We initiated a position in BCE, as we believe its dividend yield is attractive and its shares, at the time of purchase, undervalued.

We sold the Fund's position in integrated utilities company The Southern Company, as we became increasingly bearish on the outlook for this stock and on electric utilities in general. We exited the Fund's position in clinical laboratory test provider Laboratory Corporation of America, after it hit the price target we had established for the company.

Were there any notable changes in the equity portion of the Fund's weightings during the 12-month period?

During the annual period, we decreased weightings in the utilities sector and in the REITs industry, and we increased positions in the information technology and financials sectors.

How was the equity portion of the Fund positioned relative to its benchmark index at the end of December 2013?

As of December 31, 2013, the Fund was overweighted relative to the S&P 500® Index in the industrials, utilities, financials, telecommunication services and consumer staples sectors. The Fund was underweighted relative to the S&P 500® Index in the consumer discretionary, materials, information technology, energy and health care sectors on the same date.

What was the duration strategy of the fixed income portion of the Fund?

We kept the fixed income portion of the Fund's duration short relative to that of the Barclays Index. As interest rates rose, this duration positioning contributed positively to relative results.

Which fixed income market segments most significantly affected Fund performance?

Overall, the fixed income portion of the Fund underperformed its benchmark, the Barclays Index. Detracting most from relative results was security selection within the securitized sector. Within the securitized sector, we held an overweighted allocation to seven-year to 10-year maturities. The flattening yield curve benefited shorter-term and longer-term maturities, where the Fund was underweight, but hurt the intermediate segment of the yield curve.

Conversely, having an underweighted allocation to U.S. Treasuries, the worst performing sector in the Barclays Index during the annual period, contributed most positively to the fixed income portion of the Fund's performance. An overweighted allocation to corporate bonds also added value, as this sector experienced steady spread tightening throughout the year. Within the Fund's corporate bond allocation, a heavier weighting in bonds of financial institutions proved beneficial.

Were there any notable changes in the fixed income portion of the Fund's weightings during the 12-month period?

The most significant sector shifts in the fixed income portion of the Fund were a reduction in U.S. Treasuries and an increase in corporate bonds, both investment grade and high yield.

How was the fixed income portion of the Fund positioned relative to its benchmark index at the end of December 2013?

As of December 31, 2013, the fixed income portion of the Fund was overweight relative to the Barclays Index in corporate bonds. The Fund was underweight relative to the Barclays Index in U.S. Treasuries and government-related securities and was rather neutrally weighted to the benchmark index in the securitized sector on the same date.

How did the Fund's overall asset allocation shift from beginning to end of the annual period?

At the end of December 2012, the Fund had a weighting of 63% in stocks, 4% in bonds convertible into common stocks, 28% in fixed income securities and 3% in cash equivalents. By mid-year 2013, cash levels began to rise due to net sales in the equity portion of the Fund, as stock-specific price targets were hit and shares sold to take profits. Due primarily to market appreciation and depreciation, at the end of December 2013, the Fund had a weighting of 66% in stocks, 4% in bonds convertible into common stocks, 22% in fixed income securities and 8% in cash equivalents.

(continued)

How did the Fund use derivatives and similar instruments during the reporting period?

During the reporting period, the Fund made limited use of covered equity call writing as a method of generating additional income for the Fund. Covered equity call writing is an options strategy whereby an investor holds a long position in an asset and writes, or sells, call options on that same asset in an attempt to generate increased income from the asset.

What is your tactical view and strategy for the months ahead?

Our view ahead for the U.S. equity market was a bit more cautious at the end of 2013 than it was at the start of the year, but we continued to believe many opportunities remain to purchase quality stocks with historically high dividend yields, relatively low payout ratios, good balance sheets and cash flow generation, and a track record of consistently raising their dividends. We remained comfortable at the end of the annual period with the Fund's underweighted allocation to fixed income, as we saw better return potential in other asset classes.

As always, our goal is to preserve capital in the near term while generating solid total return (i.e., income plus capital appreciation) over the long term and across economic cycles.

The following graph compares the performance of the Value Line Income and Growth Fund, Inc. to that of the 60/40 S&P 500 Index/Barclays Capital Aggregate Bond Index, (the "Index"). The Value Line Income and Growth Fund, Inc. is a professionally managed mutual fund, while the Index is not available for investment and is unmanaged. The returns for the Index do not reflect charges, expenses or taxes, but do include the reinvestment of dividends. The comparison is shown for illustrative purposes only.

Comparison of a Change in Value of a \$10,000 Investment in the Value Line Income and Growth Fund, Inc. and 60/40 S&P 500 Index/Barclays Capital Aggregate Bond Index\*

Performance Data: \*\*

	Average Annual Total Return	Growth of an Assumed Investment of \$10,000
1 year ended 12/31/13	19.55 %	\$11,955
5 years ended 12/31/13	12.26 %	\$17,829
10 years ended 12/31/13	7.74 %	\$21,083

\* The 60/40 S&P 500 Index/Barclays Capital Aggregate Bond Index is an unmanaged custom Index that is representative of 60% weighting of the S&P 500 Index which consists of larger-capitalization stocks traded in the United States and a 40% weighting of the Barclays Capital Aggregate Bond Index which consists of investment grade, U.S. dollar denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-through's) ABS, and CMBS.

\*\* The performance data quoted represent past performance and are no guarantee of future performance. The average annual total returns and growth of an assumed investment of \$10,000 include dividends reinvested and capital gains distributions accepted in shares. The investment return and principal value of an investment will fluctuate so that an investment, when redeemed, may be worth more or less than its original cost. The performance data and graph do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.

VALUE LINE LARGER COMPANIES FUND, INC.

INVESTMENT OBJECTIVE AND STRATEGY

The Fund's investment objective is to realize capital growth.

To achieve the Fund's investment objective the Adviser invests substantially all of the Fund's assets in common stock. While the Fund is actively managed by the Adviser, the Adviser relies primarily on the rankings of companies by the Value Line Timeliness™ Ranking System (the "Ranking System") in selecting securities for purchase or sale. The Fund's investments usually, as measured by the number and total value of purchases, are selected from common stocks of the 100 largest companies by capitalization that are ranked 1, 2, or 3 by the Ranking System. The Adviser will determine the percentage of the Fund's assets invested in each stock based on the stock's relative attractiveness.

Manager Discussion of Fund Performance

Below, Value Line Larger Companies Fund, Inc. portfolio manager Mark T. Spellman discusses the Fund's performance and positioning for the 12 months ended December 31, 2013.

How did the Fund perform during the annual period?

The Fund generated a total return of 30.05% during the 12 months ended December 31, 2013. This compares to the 32.39% return of the Fund's benchmark, the S&P 500® Index, during the same annual period.

What key factors were responsible for the Fund's performance during the 12-month reporting period?

While the Fund generated robust double-digit absolute gains, its underperformance of the S&P 500® Index during the 12-month reporting period can be attributed primarily to sector allocation. Stock selection overall proved effective.

Which equity market sectors most significantly affected Fund performance?

Overweighted allocations to and stock selection in the information technology and materials sectors, which each lagged the S&P 500® Index during the annual period, detracted from the Fund's performance. Having an underweighted allocation to financials, which outpaced the S&P 500® Index during the annual period, also dampened results.

Partially offsetting these detractors were the positive contributions made by overweighted allocations to the consumer discretionary and health care sectors, which each outpaced the S&P 500® Index during the annual period. Having an underweighted allocation to energy, which underperformed the S&P 500® Index during the annual period, also boosted relative results. Effective stock selection in the health care sector added value as well.

Which stocks detracted significantly from the Fund's performance during the annual period?

During the annual period, the stocks that detracted most from the Fund's performance were U.K.-based international resources company BHP Billiton, Canadian gold producer Yamana Gold and U.S. security services provider ADT.

BHP Billiton's shares declined as global natural resource prices dropped. Shares of Yamana Gold fell significantly along with the precipitous decline in the price of gold bullion. ADT performed poorly on weaker than expected reported results. We sold the Fund's position in Yamana Gold by the end of the annual period.

What were some of the Fund's best-performing individual stocks?

The individual stocks that contributed most to the Fund's relative results were all U.S.-based companies—casino resort and convention center owner and operator Las Vegas Sands, Internet-based airline and hotel services provider priceline.com and pharmaceuticals manufacturer Actavis, each of which posted robust double-digit gains during the annual period. Las Vegas Sands performed well, as gaming revenue and profit both in the U.S. and abroad rebounded with improved global economic conditions. Shares of priceline.com were up strongly as its reported results were better than anticipated. Actavis saw its shares soar as the generic drug company's results were better than expected, and investors responded favorably to the company's accretive acquisition of Ireland-based Warner Chilcott.

How did the Fund use derivatives and similar instruments during the reporting period?

The Fund did not use derivatives during the reporting period.

(continued)

Did the Fund make any significant purchases or sales during the fiscal year?

During the fiscal year, we initiated Fund positions in apparel and accessories designer Ralph Lauren and applications software provider Salesforce.com, in each case as a dip in their respective share prices offered what we believed to be an attractive entry point into the companies. We established a Fund position in investment management company Franklin Resources, as its upside potential appeared attractive to us given its asset flows and the strong equity market.

We sold the Fund's position in semiconductor device manufacturer Altera, as broad semiconductor industry fundamentals began to deteriorate, in our view. We eliminated the Fund's position in leather goods retailer Coach, as the company reported worse than expected earnings results. We exited the Fund's position in agricultural chemicals producer Potash Corp. of Saskatchewan after it reported disappointing results, and we detected a deterioration in industry fundamentals.

Were there any notable changes in the Fund's weightings during the 12-month period?

There were no material changes in the Fund's sector weightings during the 12-month period ended December 31, 2013.

How was the Fund positioned relative to its benchmark index at the end of December 2013?

As of December 31, 2013, the Fund was overweighted relative to the S&P 500® Index in the consumer discretionary, information technology, materials, health care and industrials sectors. The Fund was underweighted relative to the S&P 500® Index in the financials, consumer staples and energy sectors and rather neutrally weighted relative to the Index in the utilities and telecommunication services sectors on the same date.

What is your tactical view and strategy for the months ahead?

As we look toward 2014, we intend to continue to look for and to emphasize larger-capitalization stocks that generally are ranked in the higher categories of 1, 2 or 3 in the Value Line TimelinessII Ranking System. As of December 31, 2013, a majority of the Fund's assets were in stocks that met these criteria. The Fund's weighted average price-earnings and debt-to-capital ratios were below that of the S&P 500® Index, while its historical sales growth, earnings growth, return on assets and return on equity were all higher than the Index. We seek to maintain these Fund portfolio characteristics going forward.

As always, our goal is to generate solid returns through capital growth across market cycles.

See Notes to Financial Statements.

## VALUE LINE CORE BOND FUND

### INVESTMENT OBJECTIVE AND STRATEGY

The investment objective of the Fund is to maximize current income. Capital appreciation is a secondary objective but only when consistent with the Fund's primary objective.

The Fund invests primarily in a diversified portfolio of primarily investment grade, fixed income obligations, including securities issued or guaranteed by the U.S. government, its agencies or instrumentalities (U.S. government securities), mortgage-backed securities, asset-backed securities, corporate bonds, and other fixed income securities. Under normal circumstances, the Fund invests at least 80% of its assets in fixed income securities. The Fund invests in debt securities of any maturity, and there is no limit on the Fund's maximum average portfolio maturity.

### Manager Discussion of Fund Performance

Effective December 31, 2013, Value Line Core Bond Fund's fiscal year-end was changed from January 31 to December 31. Thus, below, Fund portfolio managers Liane Rosenberg and Jeffrey D. Geffen discuss the Fund's performance and positioning for the 11 months ended December 31, 2013.

How did the Fund perform during the reporting period?

The Fund generated a total return of -3.13% during the 11 months ended December 31, 2013 (the reporting period). This compares to the -1.33% return of the Fund's benchmark, the Barclays U.S. Aggregate Bond Index (the "Barclays Index"), during the same period.

What key factors were responsible for the Fund's performance during the reporting period?

The Fund underperformed its benchmark, the Barclays Index, due primarily to issue selection, especially within the securitized and corporate bond sectors. Sector allocation overall and duration positioning contributed positively.

Which fixed income market sectors most significantly affected Fund performance?

Detracting most from relative results was security selection within the securitized sector. Within the securitized sector, we held an overweighted allocation to seven-year to 10-year maturities. However, this intermediate "belly" of the curve underperformed because the U.S. Treasury yield curve flattened during the reporting period, which means yield differentials between longer-term and shorter-term maturities narrowed. The flattening yield curve benefited shorter-term and longer-term maturities, where the Fund was underweight, but hurt the intermediate segment of the yield curve, and thus, such positioning hurt. Some of this detracting effect was offset by having a shorter duration than the Barclays Index in the securitized sector, especially in the mortgage-backed securities sub-sector, as interest rates markedly increased during the year.

Also detracting from the Fund's results was security selection amongst longer-maturity corporate bonds. While maintaining an underweight exposure relative to the Barclays Index, a position in a long-dated electric utility bond—issued by Alabama Power—lost ground during the reporting period. A position in a long-dated bond issued by broadcasting company Comcast also declined during the reporting period. There were no serious credit problems with either of these credits, but longer maturity bonds generally were out of favor.

On the positive side, having an underweighted allocation to U.S. Treasuries, which was the worst performing sector in the Barclays Index during the reporting period, contributed to the Fund's performance. An overweighted allocation to corporate bonds also added significant value, as this sector experienced steady spread tightening throughout the year. (Spread tightening is when the yield differential between a non-U.S. Treasury sector and the U.S. Treasury sector narrows.) Within the Fund's corporate bond allocation, an underweight to utilities bonds and overweights to financials and industrials bonds proved beneficial, as utilities bonds underperformed both financials and industrials bonds during the reporting period. Our corporate credit bias toward bonds rated BBB also buoyed the Fund's results, as this market segment of the investment grade corporate bond sector outperformed higher quality bonds during the reporting period.

A modest out-of-benchmark exposure to high yield corporate bonds boosted relative results, as high yield corporate bonds outperformed investment grade corporate bonds.

What was the Fund's duration strategy?

Duration positioning in the Fund contributed most positively to the Fund's performance relative to the Barclays Index during the reporting period. Based upon expectations of a bias toward rising interest rates, we kept the Fund's duration short relative to that of the Barclays Index. As interest rates did rise significantly during the reporting period, this duration positioning contributed positively to relative results. Duration is a measure of the Fund's sensitivity to changes in interest rates.

(continued)

How did yield curve positioning decisions affect the Fund's performance?

Yield curve positioning had a rather neutral effect on the Fund's performance during the reporting period, but did detract at certain points. For example, the Fund was overweighted in the intermediate segment of the yield curve, or spectrum of maturities. When the Federal Reserve (the Fed) first started talking seriously in May 2013 about tapering its asset purchases, the yield curve started to flatten, meaning the differential in yields between longer-term and shorter-term maturities narrowed. The flattening yield curve benefited shorter-term and longer-term maturities, where the Fund was underweight, but hurt the intermediate segment of the yield curve, and thus, such positioning hurt.

How did the Fund use derivatives and similar instruments during the reporting period?

The Fund did not use derivatives during the reporting period.

Were there any notable changes in the Fund's weightings during the reporting period?

We increased the Fund's allocation to corporate bonds, both investment grade and high yield, during the reporting period, as we sought to take advantage of what we considered to be attractive spreads and yields. The high yield corporate bond market performed particularly strongly, as it gained alongside the rallying U.S. equity market. Concurrently, we reduced the Fund's exposure to U.S. Treasuries, using the proceeds to invest in spread, or non-U.S. Treasury, fixed income sectors. We kept the Fund's duration within a neutral to half-year short stance compared to that of the Barclays Index.

How was the Fund positioned relative to its benchmark index at the end of December 2013?

At the end of December 2013, the Fund was significantly overweight relative to the Barclays Index in the corporate bond sector and more modestly overweight in the securitized sector. As of December 31, 2013, the Fund was significantly underweight the Barclays Index in U.S. Treasuries and more modestly underweight in government-related securities. The Fund had an approximately 2% allocation to cash equivalents at the end of the reporting period.

What is your tactical view and strategy for the months ahead?

We expect performance of the fixed income asset class to be highly sensitive in the months ahead to Fed policy and the timetable for its tapering actions. Also, economic factors, including jobs growth, unemployment, Gross Domestic Product and inflation are likely to be critical factors that may impact the fixed income market ahead. While Fed tapering of the bond purchase program is scheduled to begin in January 2014, any sustained economic weakness could affect the Fed's current course. We also believe there may continue to be interest rate volatility with the ultimate bias toward higher rates.

Given this view, at the end of the reporting period, we continued to favor corporate bonds over U.S. Treasuries within the Fund, especially corporate bonds rated BBB, or mid-grade credits, and high yield corporate bonds. We believe corporate bonds' comparatively higher investment income is likely to remain attractive to investors, and we expect the technicals, or supply and demand factors, within the sector to remain supportive. That is, we expect to see modest new issuance relative to strong investor demand. In our view, corporate bonds were also at a relatively strong point in the credit cycle at the end of the reporting period, with relatively low debt and high cash levels. All that said, we do not

expect to significantly increase the Fund's overall exposure from end-of-year levels given how tight spreads have become.

Of course, any significant weakening in the U.S. economy will lead us to re-evaluate the Fund's duration stance as well as its sector allocation. Similarly, any significant deterioration in overall credit metrics would likely lead to a reduction in overall corporate exposure. As we continue to seek to maximize current income, we maintain a long-term investment perspective.

The following graph compares the performance of the Value Line Core Bond Fund to that of the Barclays Capital U.S. Corporate High Yield Index and the Barclays Capital Aggregate Bond Index (the "Indices"). The Value Line Core Bond Fund is a professionally managed mutual fund, while the Indices are not available for investment and are unmanaged. The returns for the Indices do not reflect charges, expenses or taxes, but do include the reinvestment of dividends. The comparison is shown for illustrative purposes only.

Comparison of a Change in Value of a \$10,000 Investment in the Value Line Core Bond Fund, the Barclays Capital U.S. Corporate High Yield Index\* and the Barclays Capital Aggregate Bond Index\*\*

Performance Data: \*\*\*

	Average Annual Total Return	Growth of an Assumed Investment of \$10,000
1 year ended 12/31/13	(3.16 %) %	\$ 9,684
5 years ended 12/31/13	11.86 %	\$ 17,511
10 years ended 12/31/13	5.70 %	\$ 17,410

\* The Barclays Capital U.S. Corporate High Yield Index is representative of the broad based fixed-income market. It includes noninvestment grade corporate bonds. The returns for the Index do not reflect charges, expenses, or taxes, which are deducted from the Fund's returns, and it is not possible to directly invest in this unmanaged Index.

\*\* The Barclay's Capital U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-through's), ABS, and CMBS. This is an unmanaged index and does not reflect charges, expenses or taxes. It is not possible to directly invest in this Index.

\*\*\* The performance data quoted represent past performance and are no guarantee of future performance. The average annual total returns and growth of an assumed investment of \$10,000 include dividends reinvested and capital gains distributions accepted in shares. The investment return and principal value of an investment will fluctuate so that an investment, when redeemed, may be worth more or less than its original cost. The performance data and graph do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.

\* Ratio reflects expenses grossed up for the custody credit arrangement, waiver of the advisory fees by the Adviser and the service and distribution plan fees by the Distributor. The custody credit arrangement was discontinued as of January 1, 2013.

\*\* Ratio reflects expenses net of the custody credit arrangement, waiver of the advisory fees by the Adviser and the service and distribution plan fees by the Distributor. The custody credit arrangement was discontinued as of January 1, 2013.

(1) Amount is less than \$0.01 per share.

(2) Amount rounds to less than 0.005%.

(3) Based on average shares outstanding.

(4) Ratio reflects expenses grossed up for the reimbursement by Value Line, Inc. of certain expenses incurred by the Fund.

(5) Ratio reflects expenses net of the reimbursement by Value Line, Inc. of certain expenses incurred by the Fund.

(6) Period from February 1, 2013 to December 31, 2013.

(7) Not Annualized.

(8) Annualized.

(9) The ratio of expenses to average net assets, net of custody credits, but exclusive of the fee waivers would have been 1.48%.

See Notes to Financial Statements.

## Notes to Financial Statements

### 1. Significant Accounting Policies

Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc., and Value Line Core Bond Fund, (individually a “Fund” and collectively, the “Funds”) are each registered under the Investment Company Act of 1940, as amended, as diversified, open-end management investment companies. The primary investment objective of the Value Line Premier Growth Fund, Inc. and The Value Line Fund, Inc. is long-term growth of capital. The primary investment objective of the Value Line Income and Growth Fund, Inc. is income, as high and dependable as is consistent with reasonable risk and capital growth to increase total return is a secondary objective. The sole investment objective of the Value Line Larger Companies Fund, Inc. is to realize capital growth. The primary investment objective of the Value Line Core Bond Fund is to maximize current income. As a secondary investment objective, the Fund will seek capital appreciation, but only when consistent with its primary objective. The Value Line Funds (the “Value Line Funds”) is a family of 10 mutual funds that includes a wide range of solutions designed to meet virtually any investment goal and consists of a variety of equity, fixed income, and hybrid funds.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements.

(A) Security Valuation: Securities listed on a securities exchange are valued at the closing sales prices on the date as of which the net asset value is being determined. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ Official Closing Price. In the absence of closing sales prices for such securities and for securities traded in the over-the-counter market, the security is valued at the midpoint between the latest available and representative asked and bid prices. Short-term instruments with maturities of 60 days or less at the date of purchase are valued at amortized cost, which approximates fair value. Short-term instruments with maturities greater than 60 days at the date of purchase are valued at the midpoint between the latest available and representative asked and bid prices, and commencing 60 days prior to maturity such securities are valued at amortized cost.

The Board of Directors (the “Board”) has determined that the value of bonds and other fixed income corporate securities be calculated on the valuation date by reference to valuations obtained from an independent pricing service that determines valuations for normal institutional-size trading units of debt securities, without exclusive reliance upon quoted prices. This service takes into account appropriate factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data in determining valuations. Bonds and fixed income securities are valued at the evaluated bid on the date as of which the net asset value is being determined. Securities, other than bonds and other fixed income securities, not priced in this manner are valued at the midpoint between the latest available and representative bid and asked prices or, when stock valuations are used, at the latest quoted sale price as of the regular close of business of the New York Stock Exchange on the valuation date.

The Board has adopted procedures for valuing portfolio securities in circumstances where market quotes are not readily available, and has delegated the responsibility for applying the valuation methods to the Adviser. A valuation

committee (the “Valuation Committee”) was established by the Board to oversee the implementation of the Funds’ valuation methods and to make fair value determinations on behalf of the Board, as instructed. The Adviser monitors the continued appropriateness of methods applied and determines if adjustments should be made in light of market changes, events affecting the issuer, or other factors. If the Adviser determines that a valuation method may no longer be appropriate, another valuation method may be selected, or the Valuation Committee will be convened to consider the matter and take any appropriate action in accordance with procedures set forth by the Board. The Board shall review the appropriateness of the valuation methods and these methods may be amended or supplemented from time to time by the Valuation Committee. In addition, the Funds may use the fair value of a security when the closing market price on the primary exchange where the security is traded no longer reflects the value of a security due to factors affecting one or more relevant securities markets or the specific issuer.

December 31, 2013

(B) Fair Value Measurements: The Funds follow fair valuation accounting standards (FASB ASC 820-10) which establishes a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion of changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 – Inputs that are unobservable.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Funds follow the updated provisions surrounding fair value measurements and disclosures on transfers in and out of all levels of the fair value hierarchy on a gross basis and the reasons for the transfers as well as to disclosures about the valuation techniques and inputs used to measure fair value for investments that fall in either Level 2 or Level 3 of the fair value hierarchy.

The Funds' policy is to recognize transfers between levels at the beginning of the reporting period.

The amounts and reasons for all transfers in and out of each level within the three-tier hierarchy are disclosed when the Funds had an amount of total transfers during the reporting period that were meaningful in relation to their net assets as of the end of the reporting period (e.g. greater than 1%). An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation techniques used.

For the year ended December 31, 2013 there were no Level 3 investments. The Schedule of Investments includes a breakdown of the Funds' investments by category.

(C) Repurchase Agreements: Each Fund may enter into repurchase agreements, under the terms of a Master Repurchase Agreement, with selected commercial banks and broker-dealers, under which the Funds acquire securities as collateral and agrees to resell the securities at an agreed upon time and at an agreed upon price. Each Fund, through the custodian or a sub-custodian, receives delivery of the underlying securities collateralizing repurchase agreements. The Funds' custodian takes possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, it is the Funds' policy to mark-to-market the value of the underlying securities daily to ensure the adequacy of the collateral. In the event of default by either the seller or the Funds, the Master Repurchase Agreement may permit the non-defaulting party to net and close out all transactions. The Funds have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Under certain circumstances, in the event of default

or bankruptcy by the other party to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings. The repurchase and joint repurchase agreements held by the Funds at the year end had been entered into on December 31, 2013.

At year end, Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., and Value Line Larger Companies Fund, Inc., respectively, had investments in repurchase agreements with a gross value of \$4,100,000, \$1,500,000, \$26,300,000 and \$6,000,000 on the Statements of Assets and Liabilities. The value of each Fund's related collateral exceeded the value of the repurchase agreements at year end. There were no open repurchase agreements for Value Line Core Bond Fund at December 31, 2013.

At year end, Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc., and Value Line Core Bond Fund, respectively, had investments in joint repurchase agreements with a gross value of \$14,515,511, \$956,822, \$10,299,560, \$7,108,098 and \$235,156 on the Statements of Assets and Liabilities. The value of each Fund's related collateral exceeded the value of the joint repurchase agreements at year end.

(D) Federal Income Taxes: It is the policy of the Funds to each qualify as a regulated investment company by complying with the provisions available to regulated investment companies, as defined in applicable sections of the Internal Revenue Code, and to distribute all of their investment income and capital gains to its shareholders. Therefore, no provision for federal income tax is required.

Notes to Financial Statements (continued)

Management has analyzed the Funds' tax positions taken on federal and state income tax returns for all open tax years (fiscal years ended December 31, 2010 through December 31, 2013), and has concluded that no provision for federal or state income tax is required in the Funds' financial statements. The Funds' federal and state income tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

(E) Security Transactions and Distributions: Security transactions are accounted for on the date the securities are purchased or sold. Realized gains and losses on sales of securities are calculated for financial accounting and federal income tax purposes on the basis of the first in first out contention ("FIFO"). Dividend income and distributions to shareholders are recorded on the ex-dividend date. Distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Interest income, adjusted for the amortization of discount and premium, is earned from settlement date and recognized on the accrual basis. Gains and losses realized on prepayments received on mortgage-related securities are recorded as interest income.

The Funds may purchase mortgage pass-through securities on a to-be-announced ("TBA") basis, with payment and delivery scheduled for a future date. The Funds may enter into a TBA agreement, sell the obligation to purchase the pools stipulated in the TBA agreement prior to the stipulated settlement date and enter into a new TBA agreement for future delivery of pools of mortgage pass-through securities (a "TBA roll"). A TBA roll is treated by the Funds as a purchase transaction and a sale transaction in which the Funds realize a gain or loss. The Funds' use of TBA rolls may cause the Funds to experience higher portfolio turnover and higher transaction costs. The Funds could be exposed to possible risk if there is an adverse market action, expenses or delays in connection with TBA transactions, or if the counterparty fails to complete the transaction.

The Value Line Core Bond Fund may invest in Treasury Inflation-Protection Securities ("TIPS"). The principal value and interest payout of TIPS are periodically adjusted according to the rate of inflation based on the Consumer Price Index. The adjustments for principal and income due to inflation are reflected in interest income in the Statements of Operations.

Dividends from net investment income will be declared daily and paid monthly for the Value Line Core Bond Fund. Income dividends and capital gains distributions are automatically reinvested in additional shares of the Fund unless the shareholder has requested otherwise. Income earned by the Fund on weekends, holidays and other days on which the Fund is closed for business is declared as a dividend on the next day on which the Fund is open for business. The Value Line Income and Growth Fund, Inc. distributes all of its net investment income quarterly and the Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., and the Value Line Larger Companies Fund, Inc. distribute all of their net investment income annually. Net realized capital gains, if any, are distributed to shareholders annually or more frequently if necessary to comply with the Internal Revenue Code.

(F) Foreign Currency Translation: The books and records of the Funds are maintained in U.S. dollars. Assets and liabilities which are denominated in foreign currencies are translated to U.S. dollars at the prevailing rates of exchange at the valuation date. The Funds do not isolate changes in the value of investments caused by foreign exchange rate differences from the changes due to other circumstances.

Income and expenses are translated to U.S. dollars based upon the rates of exchange on the respective dates of such transactions.

Net realized foreign exchange gains or losses arise from currency fluctuations realized between the trade and settlement dates on securities transactions, the differences between the U.S. dollar amounts of dividends, interest, and foreign withholding taxes recorded by the Funds, and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities, other than investments, at the end of the fiscal period, resulting from changes in the exchange rates. The effect of the change in foreign exchange rates on the value of investments is included in realized gain/ (loss) on investments and change in net unrealized appreciation/(depreciation) on investments.

(G) Representations and Indemnifications: In the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

December 31, 2013

(H) Accounting for Real Estate Investment Trusts: The Funds own shares of Real Estate Investment Trusts (“REITs”) which report information on the source of their distributions annually. Distributions received from REITs during the year which represent a return of capital are recorded as a reduction of cost and distributions which represent a capital gain dividend are recorded as a realized long-term capital gain on investments.

(I) Foreign Taxes: The Funds may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Funds will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

(J) Securities Lending: Under an agreement with State Street Bank & Trust (“State Street”), the Funds can lend their securities to brokers, dealers and other financial institutions approved by the Board. By lending their investment securities, the Funds attempt to increase their net investment income through receipt of interest on the loan. Any gain or loss in the market price of the securities loaned that might occur and any interest or dividends declared during the term of the loan would accrue to the account of the Funds. Risks of delay in recovery of the securities or even loss of rights in the collateral may occur should the borrower of the securities fail financially. Generally, in the event of a counter-party default, the Funds have the right to use the collateral to offset the losses incurred. The lending fees received and the Funds’ portion of the interest income earned on the cash collateral are included in the Statements of Operations.

Upon entering into a securities lending transaction, the Funds receive cash or other securities as collateral in an amount equal to or exceeding 102% of the current market value of the loaned securities. Any cash received as collateral is invested by State Street Global Advisors, acting in its capacity as securities lending agent (the “Agent”), in The Value Line Funds collateral account, which is subsequently invested into joint repurchase agreements. A portion of the dividends received on the collateral is rebated to the borrower of the securities and the remainder is split between the Agent and the Funds.

The Funds enter into joint repurchase agreements whereby their uninvested cash collateral from securities lending is deposited into a joint cash account with other funds managed by the Adviser and is used to invest in one or more repurchase agreements. The value and face amount of the joint repurchase agreement are allocated to the funds based on their pro-rata interest in the repurchase agreement. A repurchase agreement is accounted for as a loan by the funds to the seller, collateralized by securities which are delivered to the Fund’s custodian. The market value, including accrued interest, of the initial collateralization is required to be at least 102% of the dollar amount invested by the funds, with the value of the underlying securities marked to market daily to maintain coverage of at least 100%.

As of December 31, 2013, the Funds loaned securities which were collateralized by cash. The value of the securities on loan and the value of the related collateral were as follows:

Fund	Value of Securities Loaned	Value of Collateral	Total Collateral (including Calculated Mark)*
Value Line Premier Growth Fund, Inc.	\$ 15,893,168	\$ 16,241,965	\$ 16,274,746
The Value Line Fund, Inc.	1,048,806	1,070,625	1,070,625
Value Line Income and Growth Fund, Inc.	11,304,497	11,524,575	11,547,888
Value Line Larger Companies Fund, Inc.	7,803,401	7,953,525	7,972,775

Value Line Core Bond Fund	257,657	263,125	263,125
---------------------------	---------	---------	---------

\*Balances represent the end of day mark-to-market of securities lending collateral that will be reflected by the Funds as of the next business day.

Additionally refer to Note 1(c) for details on joint repurchase agreements which were entered into using security lending cash collateral.

(K) Options: The Value Line Income and Growth Fund, Inc.'s investment strategy allows the use of options. The Fund utilizes options to hedge against changes in market conditions or to provide market exposure while trying to reduce transaction costs.

When the Fund writes a put or call option, an amount equal to the premiums received is included on the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option. If an option expires on its stipulated expiration date or if the Fund enters into a closing purchase transaction, a gain or loss is realized. If a written call option on an individual security is exercised, a gain or loss is realized for the sale of the underlying security, and the proceeds from the sale are increased by the premium originally received. If a written put option on an individual security is exercised, the cost of the security acquired is decreased by the premium originally received. As a writer of an option, a Fund bears the market risk of an unfavorable change in the price of the individual security underlying the written option. Additionally, written call options may involve the risk of limited gains.

## Notes to Financial Statements (continued)

The Fund may also purchase put and call options. When a Fund purchases a put or call option, an amount equal to the premium paid is included on the Fund's Statement of Assets and Liabilities as an investment, and is subsequently marked-to-market to reflect the current market value of the option. If an option expires on the stipulated expiration date or if the Fund enters into a closing sale transaction, a gain or loss is realized. If the Fund exercises a call option on an individual security, the cost of the security acquired is increased by the premium paid for the call. If the Fund exercises a put option on an individual security, a gain or loss is realized from the sale of the underlying security, and the proceeds from such a sale are decreased by the premium originally paid. Written and purchased options are non-income producing securities.

As of December 31, 2013, the Value Line Income and Growth Fund, Inc. had no open options contracts at December 31, 2013.

The Value Line Income and Growth Fund, Inc.'s written options are collateralized securities held at the Options Clearing Corporation's account at the Fund's custodian. The securities pledged as collateral are included on the Schedule of Investments. Such collateral is restricted from the Fund's use.

The number of options contracts written and the premiums received by the Value Line Income and Growth Fund, Inc. during the year ended December 31, 2013, were as follows:

	Number of Contracts	Premiums Received
<b>Purchased Options</b>		
Options outstanding at December 31, 2012	—	\$ 0
Options purchased	400	45,018
Options expired/closed	(400 )	(45,018 )
Options outstanding at December 31, 2013	—	\$ 0
	Number of Contracts	Premiums Received
<b>Written Options</b>		
Options outstanding at December 31, 2012	—	\$ 0
Options written	630	69,248
Options assigned	(300 )	(29,318 )
Options expired/closed	(330 )	(39,930 )
Options outstanding at December 31, 2013	—	\$ 0

The following is a summary of how these derivatives are treated in the financial statements and their impact on the Fund:

Risk Type	Gain or (Loss) Derivative Recognized in Income	
	Realized Gain (Loss)(a)	Change in Appreciation(b)
Equity - Purchased options	(45,018 )	\$ 0
Equity - Written options	69,248	0

For the year ended December 31, 2013, the Fund's quarterly holdings of written options contracts were as follows:

Quarter Ended	Number of Purchased Options Contracts Outstanding	Number of Written Options Contracts Outstanding
March 31, 2013	—	—
June 30, 2013	—	200
September 30, 2013	—	30
December 31, 2013	—	—

(a) Statements of Operations location: Net Realized Gain (Loss) from: Investments and Written options.

(b) Statements of Operations location: Change in Net Unrealized Appreciation/(Depreciation) of: Investments and Written options

December 31, 2013

(L) Subsequent Events: Management has evaluated all subsequent transactions and events through the date on which these financial statements were issued and has determined that no additional items require disclosure.

## 2. Investment Risks

Securities issued by U.S. Government agencies or government-sponsored enterprises may not be guaranteed by the U.S. Treasury. The Government National Mortgage Association (“GNMA” or “Ginnie Mae”), a wholly-owned U.S. Government corporation, is authorized to guarantee, with the full faith and credit of the U.S. Government, the timely payment of principal and interest on securities issued by institutions approved by GNMA and backed by pools of mortgages insured by the Federal Housing Administration or guaranteed by the Department of Veterans Affairs. Government-related guarantors (i.e., not backed by the full faith and credit of the U.S. Government) include the Federal National Mortgage Association (“FNMA” or “Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“FHLMC” or “Freddie Mac”). Pass-through securities issued by FNMA are guaranteed as to timely payment of principal and interest by FNMA, but are not backed by the full faith and credit of the U.S. Government. FHLMC guarantees the timely payment of interest and ultimate collection of principal, but its participation certificates are not backed by the full faith and credit of the U.S. Government.

## 3. Capital Share Transactions, Dividends and Distributions to Shareholders

Transactions in capital stock were as follows:

	Year Ended December 31, 2013	Year Ended December 31, 2012
Value Line Premier Growth Fund, Inc.

Distributions per share from net realized gains	\$ —	\$ 0.0040	\$ —

## 4. Reorganization

On December 13, 2012, the Board approved an agreement and plan of reorganization (the “Reorganization”) pursuant to which the Value Line U.S. Government Securities Fund, Inc. (the “Acquired Fund”) would merge into and become shareholders of the Value Line Core Bond Fund (the “Surviving Fund”). The Board believes the reorganization would be advantageous to the shareholders of both Funds for the reason that both Funds have similar investment objectives, improved performance and a larger and more diverse investment universe, potentially allowing for economies of scale to be realized over time.

On March 22, 2013, the Surviving Fund acquired all of the assets and assumed the liabilities of the Acquired Fund, in a tax-free exchange for Federal tax purposes, pursuant to the Reorganization approved by the Board of both Funds and shareholders of record of the Acquired Fund as of the applicable record date. All of the expenses incurred in connection with the Reorganization were paid by both the Acquired and Surviving Funds proportionately based on the Funds’ respective net assets. The total Reorganization costs are \$172,439. The value of shares issued by the Surviving Fund is presented in the Statement of Changes in Net Assets. The following table sets forth the number of shares issued by the Surviving Fund, the net assets and unrealized appreciation or depreciation of the Acquired Fund immediately prior to the Reorganization, and the net assets of the Surviving Fund immediately prior to and after the Reorganization:

Date of Reorganization	Surviving Fund	Shares Issued In Acquisition	Net Assets Before Reorganization	Net Assets After Reorganization
3-22-13	Value Line Core Bond Fund	14,453,737	\$ 29,565,559	\$ 102,961,637
Date of	Acquired	Shares	Acquired Portfolio	Acquired Portfolio Unrealized

Edgar Filing: VALUE LINE FUND INC - Form N-CSR

Reorganization	Fund	Outstanding	Net Assets	Depreciation
3-22-13	Value Line U.S. Government Securities Fund, Inc.	6,308,486	\$ 73,396,078	\$ 1,483,441

Assuming the Reorganization had been completed on February 1, 2013, the beginning of the period for the Surviving Fund, the Surviving Fund's pro forma results of operations for the year ended December 31, 2013 would have been as follows:

Net investment income	\$1,580,309
Net loss on investments	\$(4,057,854)
Net decrease in net assets from operations	\$(2,477,545)

December 31, 2013

Because the combined investment portfolios have been managed as a single integrated portfolio since the closing of the Reorganization, it is not practicable to separate the amounts of revenue and earnings of the Acquired Fund that have been included in the Surviving Fund's Statement of Operations since March 22, 2013.

#### 5. Purchases and Sales of Securities

Purchases and sales of securities, excluding short-term investments, were as follows:

Fund	Purchases of Investment Securities	Sales of Investment Securities	Purchases of U.S. Government Agency Obligations	Sales of U.S. Government Agency Obligations
Value Line Premier Growth Fund, Inc.	\$ 39,674,376	\$ 58,797,318	\$ —	\$ —
The Value Line Fund, Inc.	8,190,659	24,430,107	—	—
Value Line Income and Growth Fund, Inc.	45,871,025	72,514,502	33,049,685	38,736,132
Value Line Larger Companies Fund, Inc.	14,937,961	40,117,920	—	—
Value Line Core Bond Fund*	30,832,806	13,532,506	18,652,139	40,689,173

\* Period from February 1, 2013 to December 31, 2013.

#### 6. Income Taxes

At December 31, 2013, information on the tax components of capital is as follows:

Fund	Cost of investments for tax purposes	Gross tax unrealized appreciation	Gross tax unrealized depreciation	Net tax unrealized appreciation (depreciation) on investments	Undistributed ordinary income	Undistributed long-term gain
Value Line Premier Growth Fund, Inc.	\$ 207,410,240	\$ 208,166,767	\$ (421,860 )	\$ 207,744,907	\$ 61,037	\$ 1,666,569
The Value Line Fund, Inc.	68,457,649	56,889,504	(59,355 )	56,830,149	56,121	—
Value Line Income and Growth Fund, Inc.	262,790,014	79,242,189	(2,019,268 )	77,222,921	162,848	3,102,111
Value Line Larger Companies Fund, Inc.	132,109,136	86,323,590	(16,006 )	86,307,584	933,119	—
Value Line Core Bond Fund	85,295,569	1,075,489	(2,336,375 )	(1,260,886 )	—	—

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 ("the Act") was signed by the President of the United States of America. Under the Act, net capital losses recognized by the Funds after December 31, 2010 may get carried forward indefinitely, and retain their character as short-term and/or long term losses. Prior to

Edgar Filing: VALUE LINE FUND INC - Form N-CSR

this Act, pre-enactment net capital losses incurred by the Funds were carried forward for eight years and treated as short-term losses. The Act requires under the transition that post-enactment net capital losses are used before pre-enactment net capital losses.

As of December 31, 2013, the following Funds had a realized capital loss carryforward, for federal income tax purposes, available to be used to offset future realized capital gains:

Fund	Expiring December 31, 2016	Expiring December 31, 2017	Unlimited Short-Term Losses
Value Line Premier Growth Fund, Inc.	\$ —	\$ —	\$—
The Value Line Fund, Inc.	1,132,225	41,718,238	—
Value Line Income and Growth Fund, Inc.	—	—	—
Value Line Larger Companies Fund, Inc.	—	35,132,762	—
Value Line Core Bond Fund	—	—	684,299

## Notes to Financial Statements (continued)

During the year ended December 31, 2013, the following Funds utilized capital loss carryforwards:

Fund	Amount
Value Line Premier Growth Fund, Inc.	\$ —
The Value Line Fund, Inc.	9,219,454
Value Line Income and Growth Fund, Inc.	—
Value Line Larger Companies Fund, Inc.	12,204,530
Value Line Core Bond Fund*	—

\* Period from February 1, 2013 to December 31, 2013.

To the extent that current or future capital gains are offset by capital losses, the Funds do not anticipate distributing any such gains to shareholders.

It is uncertain whether the Funds will be able to realize the benefits of the losses before they expire.

Net realized gain (loss) differs from financial statements and tax purposes primarily due to wash sales, contingent payment debt instruments, return of capital from investments in REITs, and investments in partnerships.

Permanent book-tax differences relating to the current year were reclassified within the composition of the net asset accounts.

A reclassification has been made on the Statements of Assets and Liabilities to increase/(decrease) undistributed net investment income, accumulated net realized gain, and additional paid-in capital for the Funds as follows:

Fund	Undistributed Net Investment Income (Loss)	Accumulated Net Realized Gains (Losses)	Additional Paid-In Capital
Value Line Premier Growth Fund, Inc.	\$ 88,900	\$ (88,900 )	\$—
The Value Line Fund, Inc.	(31,771 )	31,769	2
Value Line Income and Growth Fund, Inc.	(697 )	1,026	(329 )
Value Line Larger Companies Fund, Inc.	(102,716 )	102,843	(127 )
Value Line Core Bond Fund	(5,250 )	(5,894 )	11,144

These reclassifications were primarily due to differing treatments of foreign currency gains/(losses) and litigation interest. Net assets were not affected by these reclassifications.

During the period ended December 31, 2013, as permitted under federal income tax regulations, the Value Line Core Bond Fund elected to defer \$173,600 of post October short-term losses.

The tax composition of distributions paid to shareholders during fiscal 2013 and 2012, were as follows:

Year Ended December 31, 2013

Fund	Distributions Paid from			Total Distributions Paid
	Ordinary Income	Long-Term Capital Gain	Return of Capital	
Value Line Premier Growth Fund, Inc.	\$822,653	\$26,840,247	\$—	\$27,662,900
The Value Line Fund, Inc.	526,843	—	—	526,843
Value Line Income and Growth Fund, Inc.	3,803,097	13,525,713	—	17,328,810
Value Line Larger Companies Fund, Inc.	1,253,220	—	—	1,253,220
Value Line Core Bond Fund*	893,166	—	155,298	1,048,464

\* Period from February 1, 2013 to December 31, 2013.

	December 31, 2013		
	Year Ended December 31, 2012		
	Distributions Paid from		
Fund	Ordinary Income	Long-Term Capital Gain	Total Distributions Paid
Value Line Premier Growth Fund, Inc.	\$2,146,661	\$23,018,017	\$ 25,164,678

Value Line Income and Growth Fund, Inc.	4,450,666	11,216,365	15,667,031
Value Line Larger Companies Fund, Inc.	1,087,423	—	1,087,423
Value Line Core Bond Fund	1,614,009	25,662	1,639,671

\* Year ended January 31, 2013.

	Year Ended January 31, 2012	
	Distributions Paid from Ordinary Income	
Fund		
Value Line Core Bond Fund	\$	1,950,884

#### 7. Investment Advisory Fee, Service and Distribution Fees and Transactions With Affiliates

Advisory fees of \$2,798,432, \$807,293, \$2,095,572, \$1,458,201 and \$382,486 for the Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc., and Value Line Core Bond Fund, respectively, were paid or payable to the Adviser for the period ended December 31, 2013. For the year ended January 31, 2013, advisory fees of \$237,606 were paid or payable to the Adviser for the Value Line Core Bond Fund. For the Value Line Premier Growth Fund, Inc. and Value Line Larger Companies Fund, Inc. advisory fees were computed at an annual rate of 0.75% of the daily net assets during the period. For The Value Line Fund, Inc. and Value Line Income and Growth Fund, Inc. advisory fees were computed at an annual rate of 0.70% of the first \$100 million of the Fund's average daily net assets plus 0.65% of the excess thereof. For the Value Line Core Bond Fund, for the period ended December 31, 2013, this was computed at an annual rate of 0.50% of the Fund's average daily net assets during the period prior to any fee waivers, and for the year ended January 31, 2013, the Fund's advisory fees were computed at an annual rate of 0.75% of the first \$100 million of the Fund's average daily net assets during the period and 0.50% on the average daily net assets in excess thereof prior to any fee waivers. The Funds advisory fees are paid monthly. The Adviser provides research, investment programs, and supervision of the investment portfolio and pays costs of administrative services, office space, equipment and compensation of administrative, bookkeeping, and clerical personnel necessary for managing the affairs of the Funds. The Adviser also provides persons, satisfactory to the Funds' Board, to act as officers and employees of the Funds and pays their salaries. Effective June 1, 2010 and voluntarily renewed annually through January 31, 2013, the Adviser contractually agreed to waive 0.20% of the advisory fee for the Value Line Core Bond Fund. Fees waived amounted to \$63,362 for the year ended January 31, 2013. Effective February 1, 2013, and voluntarily renewed annually through June 30, 2014, the Adviser contractually agreed to waive 0.10% of the advisory fee for the Value Line Core Bond Fund. The fees waived amounted to \$76,530 for the period ended December 31, 2013. The Adviser has no right to recoup previously waived amounts.

The Funds have a Service and Distribution Plan (the “Plan”), adopted pursuant to Rule 12b-1 under the Investment Company Act of 1940, which compensates EULAV Securities LLC (the “Distributor”) for advertising, marketing and distributing the Funds’ shares and for servicing the Funds’ shareholders at an annual rate of 0.25% of the Funds’ average daily net assets. For the period ended December 31, 2013, fees amounting to \$932,811, \$291,282, \$785,503, \$486,089 and \$191,271 before fee waivers for the Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc., and Value Line Core Bond Fund, respectively, were accrued under this Plan. For the year ended January 31, 2013, fees amounting to \$79,202 before fee waivers were accrued under this Plan for the Value Line Core Bond Fund. Effective May 1, 2009, and voluntarily renewed annually through July 31, 2013, the Distributor contractually agreed to waive The Value Line Fund, Inc.’s 12b-1 fee by 0.25%; effective August 1, 2013, the Distributor discontinued to waive The Value Line Fund, Inc.’s 12b-1 fee. Effective March 1, 2009, and voluntarily renewed annually, the Distributor contractually agreed to reduce the fee for the Value Line Income and Growth Fund, Inc. by 0.05%. Effective May 1, 2007, and voluntarily renewed annually through July 31, 2013, the Distributor contractually agreed to waive Value Line Larger Companies Fund, Inc.’s 12b-1 fee by 0.25%; effective August 1, 2013 and voluntarily renewed annually, the Distributor contractually agreed to waive the Value Line Larger Companies Fund, Inc.’s 12b-1 fee by 0.10%. Effective June 1, 2007 and voluntarily renewed annually through January 31, 2013, the Distributor contractually agreed to reduce the 12b-1 fee by 0.10% for the Value Line Core Bond Fund; effective February 1, 2013, and voluntarily renewed annually, the Distributor contractually agreed to reduce the 12b-1 fee by 0.05% for the Value Line Core Bond Fund. The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc. and Value Line Core Bond Fund’s fees waived amounted to \$165,777, \$156,915, \$360,818, and \$38,265, respectively, for the period ended December 31, 2013. For the year ended January 31, 2013, the Value Line Core Bond Fund’s fees waived amounted to \$31,681. The Distributor has no right to recoup previously waived amounts.

## Notes to Financial Statements (continued)

Effective July 5, 2012, the Funds have a Sub-Transfer Agent Plan (the “sub TA plan”) which compensates financial intermediaries that provide sub-transfer agency and related services to investors that hold their Fund shares in omnibus accounts maintained by the financial intermediaries with the Funds. The sub-transfer agency fee, which may be paid directly to the financial intermediary or indirectly via the Distributor, is equal to the lower of (i) the aggregate amount of additional transfer agency fees and expenses that the Funds would otherwise pay to the transfer agent if each subaccount in the omnibus account maintained by the financial intermediary with the Funds were a direct account with the Funds and (ii) the amount by which the fees charged by the financial intermediary for including the Funds on its platform and providing shareholder, sub-transfer agency and related services exceed the amount paid under the Funds’ Plan with respect to each Fund’s assets attributable to shares held by the financial intermediary in the omnibus account. In addition, the amount of sub-transfer agency fees payable by the Fund’s to all financial intermediaries in the aggregate is subject to a maximum cap of 0.05% of each Fund’s average daily net assets. If the sub-transfer agency fee is paid to financial intermediaries indirectly via the Distributor, the Distributor does not retain any amount thereof and such fee otherwise reduces the amount that the Distributor is contractually obligated to pay to the financial intermediary. For the year ended December 31, 2013, fees amounting to \$110,726, \$7,527, \$61,727 and \$13,109 for the Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., and Value Line Larger Companies Fund, Inc., respectively, were paid under the sub TA plan.

Each Fund bears direct expenses incurred specifically on its behalf while common expenses of the Value Line Funds are allocated proportionately based upon each Fund’s respective net assets. The Funds bear all other costs and expenses.

Certain officers and a trustee of the Adviser are also officers and a director of the Funds. At December 31, 2013, the officers and directors of the Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc., and Value Line Core Bond Fund as a group owned less than 1% of the outstanding shares of each Fund.

#### 8. Other

The Value Line Income and Growth Fund, Inc. received notice that it has been named as a defendant in In re: Tribune Company Fraudulent Conveyance Litigation, Consol. MDL 11 MD 2296 (RJS), which includes two specific cases in which the Fund is named, Kirschner, as Litigation Trustee for the Tribune Litigation Trust v. Fitzsimone, et al., 12 CV 02652 (RJS) (The “Trustee Litigation”) and Deutsche Bank Trust Company Americas, in its Capacity as Successor Indenture Trustee for Certain Series of Senior Notes, et al. v. Adaly Opportunity Fund TD Securities Inc. c/o Adaly Investment Management Co., et al., No. 1:11-cv-04784-RJH (S.D.N.Y.) (the “Adaly Action”). The Adaly Action is part of a larger group of noteholder and individual creditor complaints, which were dismissed by the lower federal district court on September 23, 2013, but are now part of an appeal by counsel for some of the individual creditors. Both the Adaly Action and Trustee Litigation seek to recover alleged transfers received in connection with the purchase, repurchase or redemption of Tribune stock as a result of a 2007 leveraged buyout and tender offer. The alleged value of the proceeds received by the Fund is \$490,522 (less than 1% of net assets) and the Fund will incur legal expenses in the defense of these actions. Management continues to assess the actions and has made no determination about the effect, if any, on the Fund’s net assets and results of operations.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc. and Value Line Core Bond Fund:

In our opinion, the accompanying statements of assets and liabilities, including the schedules of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Value Line Premier Growth Fund, Inc., The Value Line Fund, Inc., Value Line Income and Growth Fund, Inc., Value Line Larger Companies Fund, Inc. and Value Line Core Bond Fund (the “Funds”) at December 31, 2013, the results of their operations, the changes in their net assets and the financial highlights for the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as “financial statements”) are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2013 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP  
New York, New York

February 24, 2014

## Fund Expenses (unaudited)

## Example

As a shareholder of the Funds, you incur ongoing costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in each Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (July 1, 2013 through December 31, 2013).

## Actual Expenses

The first line in the table below for each Fund provides information about actual account values and actual expenses. You may use this information, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for each Fund under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

## Hypothetical Example for Comparison Purposes

The second line in the table for each Fund provides information about hypothetical account values and hypothetical expenses based on the Funds’ actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Funds’ actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs would have been higher.

	Beginning account value 7/1/13	Ending account value 12/31/13	Expenses paid during period 7/1/13 thru 12/31/13*
Actual			
Value Line Premier Growth Fund, Inc.	\$ 1,000.00	\$ 1,160.24	\$ 6.82
The Value Line Fund, Inc.	1,000.00	1,180.96	6.61
Value Line Income and Growth Fund, Inc.	1,000.00	1,106.36	5.91
Value Line Larger Companies Fund, Inc.	1,000.00	1,192.01	6.19
Value Line Core Bond Fund	1,000.00	996.55	6.44
Hypothetical (5% return before expenses)			
Value Line Premier Growth Fund, Inc.	1,000.00	1,018.89	6.38
The Value Line Fund, Inc.	1,000.00	1,019.14	6.12
Value Line Income and Growth Fund, Inc.	1,000.00	1,019.59	5.67

Edgar Filing: VALUE LINE FUND INC - Form N-CSR

Value Line Larger Companies Fund, Inc.	1,000.00	1,019.56	5.70
Value Line Core Bond Fund	1,000.00	1,018.75	6.51

\* Expenses are equal to the Funds' annualized expense ratio of 1.25%, 1.20%, 1.11%, 1.12%, and 1.28%, respectively, multiplied by the average account value over the period, multiplied by 184/365 to reflect the one-half year period. These expense ratios may differ from the expense ratios shown in the Financial Highlights

## Federal Tax Notice (unaudited)

Each Fund designates the following amounts distributed during the fiscal year ended December 31, 2013, if any, as capital gain dividends, dividends eligible for the corporate dividends received deduction and/or qualified dividend income:

Fund	% of Qualifying Dividend Income	% of Dividends Eligible for the Corporate Dividends Received Deduction	Long-Term Capital Gains
Value Line Premier Growth Fund, Inc.	100%	100%	\$ 26,840,247
The Value Line Fund, Inc.	100	100	—
Value Line Income and Growth Fund, Inc.	100	100	13,525,713
Value Line Larger Companies Fund, Inc.	100	100	—
Value Line Core Bond Fund	—	—	—

The Funds file their complete schedule of portfolio holdings with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. The Funds’ Form N-Q is available on the SEC’s website at <http://www.sec.gov> and may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities, and information regarding how the Funds voted these proxies for the 12-month period ended June 30 is available through the Funds’ website at <http://www.vlfunds.com> and on the SEC’s website at <http://www.sec.gov>. The description of the policies and procedures is also available without charge, upon request, by calling 1-800-243-2729.

## Management of the Funds

## MANAGEMENT INFORMATION

The business and affairs of the Funds are managed by the Funds' officers under the direction of the Board. The following table sets forth information on each Director and Officer of the Funds. Each Director serves as a director or trustee of each of the 10 Value Line Funds. Each Director serves until his or her successor is elected and qualified.

Name, Address, and Year of Birth	Position (Since)	Principal Occupation During the Past 5 Years
Interested Director* Mitchell E. Appel 1970 Other Directorships: Forethought Variable Insurance Trust, since 2013	Director (2010)	President of each of the Value Line Funds since June 2008; Chief Financial Officer of the Distributor since April 2008 and President since February 2009; President of the Adviser since February 2009, Trustee since December 2010 and Treasurer since January 2011; Chief Financial Officer of Value Line, Inc. ("Value Line") from April 2008 to December 2010 and from September 2005 to November 2007; Director from February 2010 to December 2010.

## The Value Line Family of Funds

In 1950, Value Line started its first mutual fund. Since then, knowledgeable investors have been relying on the Value Line Funds to help them build their financial futures. Over the years, Value Line Funds has evolved into what we are today – a diversified family of no-load mutual funds with a wide range of investment objectives – ranging from small, mid and large capitalization equities to fixed income. We also provide strategies that effectively combine both equities and fixed income, diligently taking into account the potential risk and reward of each investment.

- \* Only available through the purchase of Guardian Investor, a tax deferred variable annuity, or ValuePlus, a variable life insurance policy.
- \*\* Formerly known as the Value Line Aggressive Income Trust.
- \*\*\* Formerly known as the Value Line Emerging Opportunities Fund, Inc.

For more complete information about any of the Value Line Funds, including charges and expenses, send for a prospectus from EULAV Securities LLC, 7 Times Square, New York, New York 10036-6524 or call 1-800-243-2729, 9am – 5pm CST, Monday – Friday, or visit us at [www.vlfunds.com](http://www.vlfunds.com). Read the prospectus carefully before you invest or send money.

Item 2. Code of Ethics

(a) The Registrant has adopted a Code of Ethics that applies to its principal executive officer, and principal financial officer and principal accounting officer.

(f) Pursuant to item 12(a), the Registrant is attaching as an exhibit a copy of its Code of Ethics that applies to its principal executive officer, and principal financial officer and principal accounting officer.

Item 3. Audit Committee Financial Expert.

(a)(1)The Registrant has an Audit Committee Financial Expert serving on its Audit Committee.

(2) The Registrant's Board has designated Daniel S. Vandivort, a member of the Registrant's Audit Committee, as the Registrant's Audit Committee Financial Expert. Mr. Vandivort is an independent director who has served as President, Chief Investment Officer to Weis, Peck and Greer/Robeco Investment Management. He has also previously served as Managing Director for Weis, Peck and Greer (1995-2005). A person who is designated as an "audit committee financial expert" shall not make such person an "expert" for any purpose, including without limitation under Section 11 of the Securities Act of 1933 or under applicable fiduciary laws, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and Board of Trustees in the absence of such designation or identification.

Item 4. Principal Accountant Fees and Services

(a) Audit Fees 2013 - \$39,435

Audit Fees 2012 - \$31,271

(b) Audit-Related fees – None.

(c) Tax Preparation Fees 2013 - \$13,915

Tax Preparation Fees 2012 - \$14,340

(d) All Other Fees – None

(e) (1) Audit Committee Pre-Approval Policy. All services to be performed for the Registrant by PricewaterhouseCoopers LLP must be pre-approved by the audit committee. All services performed were pre-approved by the committee.

(e) (2) Not applicable.

(f) Not applicable.

(g) Aggregate Non-Audit Fees 2013 - \$1,200

Aggregate Non-Audit Fees 2012 - \$2,400

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants

Not Applicable.

Item 6. Investments

Not Applicable

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

Not Applicable

Item 8. Portfolio Managers of Closed-End Management Investment Companies

Not Applicable

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers

Not Applicable

Item 10 Submission of Matters to a Vote of Security Holders

Not Applicable

Item 11. Controls and Procedures

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in rule 30a-2(c) under the Act (17 CFR 270.30a-2(c)) based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this report, are appropriately designed to ensure that material information relating to the registrant is made known to such officers and are operating effectively.

(b)The registrant's principal executive officer and principal financial officer have determined that there have been no significant changes in the registrant's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including corrective actions with regard to significant deficiencies and material weaknesses.

Item 12. Exhibits

(a)Code of Business Conduct and Ethics for Principal Executive and Senior Financial Officers attached hereto as Exhibit 100.COE.

(b)(1) Certification pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2) attached hereto as Exhibit 99.CERT.

(2) Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 attached hereto as Exhibit 99.906.CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

By: /s/ Mitchell E. Appel  
Mitchell E. Appel, President
