PART I

Item 1. Description of Business.

Our Background. We were incorporated in Nevada on September 26, 1997, as Aztec Ventures, Inc. Our original business was the sale of pay phone services. In June 2001, our management and business changed. On September 5, 2001, we amended our Articles of Incorporation to change our name to Togs for Tykes, Inc. We changed our name to Togs for Tykes, Inc., due to our new management's desire to shift our business focus to designing and marketing children's apparel.

Our Business. We had intended to engage in the business of designing, sourcing and marketing apparel primarily for children from infants to five years old, through sales conducted over the Internet. To date, we have not been successful in fully implementing our business plan due to lack of funds. Accordingly, we have been researching potential acquisitions or other suitable business partners which will assist us in realizing our business objectives. In that regard, in March 2003, we entered into negotiations regarding an acquisition of BioGentec Incorporated, a Nevada corporation ("BGC"), in order to merge it with and into our wholly-owned subsidiary, Togs for Tykes Acquisition Corporation, a Nevada corporation. We believe that the acquisition will increase the total value of the corporation to our investors.

BGC was incorporated on November 21, 2000 under the name St. Petka, Inc. BGC commenced operations doing business as Allergy Limited, and then changed its name in May, 2001 to BioGentec, Inc. At BGC's foundation are patent-protected biopharmaceutical technologies aimed at regulating Immunoglobulin Epsilon (IgE)

Edgar Filing: TOGS FOR TYKES INC - Form 10KSB/A

levels and relieving symptoms of atopic allergies and asthma. BGC's initial technologies have been tested in double blind clinical studies and have been proven to reduce the symptoms of various allergies, including rhinitis, which is more commonly known as hay fever. The technologies are based on Cyanocobalamin (B12), which has an excellent safety record and is non-sedative. BGC named its proprietary formula IGENEX.

During the upcoming fiscal year, BGC intends to begin clinical phase III trials designed to allow it to receive FDA approval to market the foundation technologies as Over the Counter (OTC) medications for the treatment of specific allergic diseases. It also plans to pursue the purchase, development and clinical trials of additional technologies that will allow expansion of product lines. BGC intends to focus its research on markets for menopausal treatments, antioxidants immune modulators and cholesterol lowering products.

BGC intends to expend a significant portion of its future income on research and development related to its foundation products and the products it intends to buy from other companies, and hopes to capitalize on the products and technologies it owns and develop through establishing licensing agreements with other businesses and by marketing its products to consumers through subsidiaries.

BGC has secured the rights and ownership of U.S. Patent No. 5,135,918, which was issued in 1992. The patent is titled: "Method for Decreasing Raegenic Antibody (IgE) Levels". This patent covers medical treatments of allergies with the use of Cyanocobalamin (B12). A second patent owned by BGC, U.S. Patent No. 6,255,294, was issued July 3, 2001. The patent is titled "Cyanocobalamin (vitamin B12) treatment in allergic disease."

BGC is the exclusive assignee of the patents. This assignment / purchase agreement allows BGC to commercialize the process and market products based on the patented proprietary technology. The 1992 patent covers the various analogs of B12 used to provide relief from allergy and asthma symptoms. This first US patent expires in 2009. The second US patent will expire in 2018.

Should we complete the acquisition of BGC, we will adopt BGC's business and operations, and file a report to describe that acquisition, including a description of our target markets and marketing strategy, growth strategy, effect of government regulations, our competitive environment, and intellectual property.

2

Item 5. Market Price for Common Equity and Related Stockholder Matters.

Reports to Security Holders. We are a reporting company with the Securities and Exchange Commission, or SEC. The public may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 450 Fifth Street N.W., Washington, D.C. 20549. The public may also obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The address of that site is <http://www.sec.gov>.

There are no outstanding options or warrants to purchase, or securities convertible into, shares of our common stock. There are no outstanding shares of our common stock that we have agreed to register under the Securities Act for sale by security holders. The approximate number of holders of record of shares of our common stock is twenty-nine (29).

There have been no cash dividends declared on our common stock. Dividends are declared at the sole discretion of our Board of Directors. On December 26, 2001, our Board of Directors authorized a forward split of 3 to 1.

We are authorized to issue 20,000,000 shares of \$.001 par value common stock,

Edgar Filing: TOGS FOR TYKES INC - Form 10KSB/A

each share of common stock having equal rights and preferences, including voting privileges. As of December 31, 2002, 5,532,000 shares of our common stock were issued and outstanding. We are also authorized to issue 5,000,000 shares of \$.001 par value preferred stock, none of which is issued and outstanding.

Prices of Common Stock. We participate in the OTC Bulletin Board, an electronic quotation medium for securities traded outside of the Nasdaq Stock Market, and prices for our common stock are published on the OTC Bulletin Board under the trading symbol "TTYK". This market is extremely limited and any prices quoted are not a reliable indication of the value of our common stock. As of March 31, 2003, our stock has not been traded on this market.

Penny Stock Regulation. Shares of our common stock are subject to rules adopted by the Securities and Exchange Commission that regulate broker-dealer practices in connection with transactions in "penny stocks". Penny stocks are generally equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in those securities is provided by the exchange or system). The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, deliver a standardized risk disclosure document prepared by the Securities and Exchange Commission, which contains the following:

- o a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- o a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to violation to such duties or other requirements of securities' laws;
- o a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the "bid" and "ask" price;
- o a toll-free telephone number for inquiries on disciplinary actions;
- o definitions of significant terms in the disclosure document or in the conduct of trading in penny stocks; and
- o such other information and is in such form (including language, type, size and format), as the Securities and Exchange Commission shall require by rule or regulation.

Prior to effecting any transaction in penny stock, the broker-dealer also must provide the customer the following:

- o the bid and offer quotations for the penny stock;
- o the compensation of the broker-dealer and its salesperson in the transaction;
- o the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- o monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements may have the effect of reducing the trading activity in the secondary market for a stock that becomes subject to the penny stock rules. Holders of shares of our common stock may have difficulty selling those shares because our common stock will probably be subject to the penny stock rules.

Item 6. Management's Discussion and Analysis of Financial Condition or Plan of Operation.

This following information specifies certain forward-looking statements of management of the company. Forward-looking statements are statements that estimate the happening of future events are not based on historical fact. Forward-looking statements may be identified by the use of forward-looking terminology, such as "may", "shall", "will", "could", "expect", "estimate", "anticipate", "predict", "probable", "possible", "should", "continue", or similar terms, variations of those terms or the negative of those terms. The forward-looking statements specified in the following information have been compiled by our management on the basis of assumptions made by management and considered by management to be reasonable. Our future operating results, however, are impossible to predict and no representation, guaranty, or warranty is to be inferred from those forward-looking statements.

4

The assumptions used for purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. No assurance can be given that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements.

Critical Accounting Policy and Estimates

Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition, accrued expenses, financing operations, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to them consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2002.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Edgar Filing: TOGS FOR TYKES INC - Form 10KSB/A

Liquidity and Capital Resources. Our only assets at December 31, 2002 were represented by cash of \$663. At December 31, 2001, our total assets were also \$663. At December 31, 2002, our total liabilities \$17,137 were represented by \$6,419 in accounts payable, and \$10,718 due to a stockholder. The funds were used for working capital. The funds bear no interest and the former shareholder has agreed to accept repayment if and when funds are available for repayment. At December 31, 2002, our liabilities exceeded our assets by \$16,474.

Operating Expenses. For the year ended December 31, 2002, our operating expenses were \$22,028 compared to the year ended December 31, 2001 when our operating expenses were \$15,846. During the year ended December 31, 2002, our expenses increased to \$22,028 due to expenses related to our status as a reporting company. From our inception on September 26, 1997, to December 31, 2002, our operating expenses have been \$55,074.

Results of Operations. For the fiscal years ended December 31, 2002, and December 31, 2001 we did not realize any revenues from operations. Our net loss from our inception on September 26, 1997 to December 31, 2002 was \$55,074. Our net loss for the year ended December 31, 2002 was \$22,028 compared to our net loss of \$15,846 for the year ended December 31, 2001. We do not know when we will begin realizing revenues, if ever. We are attempting to raise the necessary funding to complete the design of our first line of clothing but have not been able to secure such funding.

Our Plan of Operation for the Next Twelve Months. As of April 30, 2003, we had \$663 in cash resources. During the next several weeks, we hope to complete the transaction to acquire BGC as described herein. We cannot guaranty that we will acquire BGC or any other third party, or that in the event that we acquire BGC, this acquisition will increase the value of our common stock.

Our forecast of the period of time through which our financial resources will be adequate to support our operations is a forward looking statement that involves risks and uncertainties, and actual results could vary as a result of a number of factors.

If we are not able to complete the acquisition of BGC as described, we anticipate that we may need to raise additional capital to continue operations. Such additional capital may be raised through public or private financing as well as borrowings and other sources. We cannot guaranty that additional funding will be available on favorable terms, if at all. If adequate funds are not available, then our ability to expand our operations may be adversely affected. If adequate funds are not available, we hope that our officers and directors will contribute funds to pay for our expenses, although we cannot that guaranty that our officers will pay those expenses.

We are not currently conducting any research and development activities and do not anticipate conducting such activities in the near future. We do not anticipate hiring additional employees or independent contractors unless we are able to expand our current operations. We are focusing our efforts on completing the acquisition of BGC. We do not anticipate that we will purchase or sell any significant equipment.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Togs for Tykes, Inc.
Los Angeles, California

We have audited the accompanying balance sheet of Togs for Tykes, Inc. (A Development Stage Company) as of December 31, 2002 and the related statements of operations, stockholders' deficit and cash flows for the two year period then ended and for the period from September 26, 1997 (inception) to December 31, 2002. These financials statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Edgar Filing: TOGS FOR TYKES INC - Form 10KSB/A

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Togs for Tykes, Inc. as of December 31, 2002 and the results of its operations and its cash flows for the two year period then ended and for the period from September 26, 1997 (inception) to December 31, 2002 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the accompanying financial statements, the Company has no established source of revenue, which raises substantial doubt about its ability to continue as a going concern. Management's plan in regard to these matters is also discussed in Note 1. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

TOGS FOR TYKES, INC.
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

(1) Summary of Significant Accounting Policies:

Nature of Operations:

Togs for Tykes, Inc. (the "Company") is currently a development stage company under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 7. The Company was incorporated under the laws of the State of Nevada on September 26, 1997. In 2001, the Board of Directors approved the change of the Company's name from Aztec Ventures, Inc. to Togs for Tykes, Inc. Management was developing a business plan to design and market children's clothing. Management plans to seek a merger candidate that has ongoing business operations.

Basis of Presentation:

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has no established source of revenue. This matter raises substantial doubt about the Company's ability to continue as a going concern. Without realization of additional capital, it would be unlikely for the Company to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. Management plans to abandon its business model for the designing, sourcing and marketing apparel primarily for children from infants to five years old. Management plans to seek a merger candidate that has ongoing business operations. In that regard, in March 2003, management entered into negotiations regarding an acquisition of BioGentec Incorporated, a Nevada corporation ("BGC"), in order to merge it with and into its wholly owned subsidiary, Togs for Tykes Acquisition Corporation, a Nevada corporation.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2002 AND 2001

Edgar Filing: TOGS FOR TYKES INC - Form 10KSB/A

(1) Summary of Significant Accounting Policies, Continued:

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents:

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

Loss Per Share:

In accordance with SFAS No. 128, "Earnings Per Share", the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. The Company has no potentially dilutive securities.

Comprehensive Income:

SFAS No. 130, "Reporting Comprehensive Income", establishes standards for the reporting and display of comprehensive income and its components in the financial statements. As of December 31, 2002 and 2001, the Company has no items that represent other comprehensive income and, therefore, has not included a Statement of Comprehensive Income in the consolidated financial statements.

New Accounting Pronouncements:

In July 2001, the FASB issued SFAS No. 141 "Business Combinations." SFAS No. 141 supersedes Accounting Principles Board ("APB") No. 16 and requires that any business combinations initiated after June 30, 2001 be accounted for as a purchase; therefore, eliminating the pooling-of-interest method defined in APB 16. The statement is effective for any business combination initiated after June 30, 2001 and applies to all business combinations accounted for by the purchase method for which the date of acquisition is July 1, 2001 or later. The adoption did not have a material impact on the Company's financial position or results of operations as the Company has not participated in such activities covered under this pronouncement after the effective date.

In July 2001, the FASB issued SFAS No. 142, "Goodwill and Other Intangibles." SFAS No. 142 addresses the initial recognition, measurement and amortization of intangible assets acquired individually or with a group of other assets (but not those acquired in a business combination) and addresses the amortization provisions for excess cost over fair value of net assets acquired or intangibles acquired in a business combination. The statement is effective for fiscal years beginning after December 15, 2001, and is effective July 1, 2001 for any intangibles acquired in a business combination initiated after June 30, 2001. The adoption of this statement had no effect to the Company's financial position or results of operations.

In October 2001, the FASB recently issued SFAS No. 143, "Accounting for Asset Retirement Obligations," which requires companies to record the fair value of a liability for asset retirement obligations in the period in which they are incurred. The statement applies to a company's legal obligations associated with the retirement of a tangible long-lived asset that results from the acquisition, construction, and development or through the normal operation of a long-lived asset. When a liability is initially recorded, the company would capitalize the cost, thereby increasing the carrying amount of the related asset. The capitalized asset retirement cost is depreciated over the life of the respective asset while the liability is accreted to its present value. Upon settlement of the liability, the obligation is settled at its recorded amount or the company incurs a gain or loss. The statement is effective for fiscal years beginning after June 30, 2002. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

In October 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". Statement 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets. The statement provides a single accounting model for long-lived assets to be disposed of. New criteria must be met to classify the asset as an asset held-for-sale. This statement also focuses on reporting the effects of a disposal of a segment of a business. This statement is effective for fiscal years beginning after

December 15, 2001. The adoption of this statement had no effect to the Company's financial position or results of operations.

New Accounting Pronouncements, Continued:

In April 2002, the FASB issued Statement No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." This Statement rescinds FASB Statement No. 4, "Reporting Gains and Losses from Extinguishment of Debt", and an amendment of that Statement, FASB Statement No. 64, "Extinguishments of Debt Made to Satisfy Sinking-Fund Requirements" and FASB Statement No. 44, "Accounting for Intangible Assets of Motor Carriers". This Statement amends FASB Statement No. 13, "Accounting for Leases", to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

In June 2002, the FASB issued Statement No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." This Statement addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Issues Task Force (EITF) Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." The provisions of this Statement are effective for exit or disposal activities that are initiated after December 31, 2002, with early application encouraged. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

In October 2002, the FASB issued Statement No. 147, "Acquisitions of Certain Financial Institutions--an amendment of FASB Statements No. 72 and 144 and FASB Interpretation No. 9", which removes acquisitions of financial institutions from the scope of both Statement 72 and Interpretation 9 and requires that those transactions be accounted for in accordance with Statements No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets. In addition,

Edgar Filing: TOGS FOR TYKES INC - Form 10KSB/A

this Statement amends SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, to include in its scope long-term customer-relationship intangible assets of financial institutions such as depositor- and borrower-relationship intangible assets and credit cardholder intangible assets. The requirements relating to acquisitions of financial institutions is effective for acquisitions for which the date of acquisition is on or after October 1, 2002. The provisions related to accounting for the impairment or disposal of certain long-term customer-relationship intangible assets are effective on October 1, 2002. The adoption of this Statement did not have a material impact to the Company's financial position or results of operations as the Company has not engaged in either of these activities.

New Accounting Pronouncements, Continued:

In December 2002, the FASB issued Statement No. 148, "Accounting for Stock-Based Compensation--Transition and Disclosure", which amends FASB Statement No. 123, Accounting for Stock-Based Compensation, to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of Statement 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The transition guidance and annual disclosure provisions of Statement 148 are effective for fiscal years ending after December 15, 2002, with earlier application permitted in certain circumstances. The interim disclosure provisions are effective for financial reports containing financial statements for interim periods beginning after December 15, 2002. The adoption of this statement did not have a material impact on the Company's financial position or results of operations as the Company has not elected to change to the fair value based method of accounting for stock-based employee compensation.

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities." Interpretation 46 changes the criteria by which one company includes another entity in its consolidated financial statements. Previously, the criteria were based on control through voting interest. Interpretation 46 requires a variable interest entity to be consolidated by a company if that company is subject to a

Edgar Filing: TOGS FOR TYKES INC - Form 10KSB/A

majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. A company that consolidates a variable interest entity is called the primary beneficiary of that entity. The consolidation requirements of Interpretation 46 apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements apply to older entities in the first fiscal year or interim period beginning after June 15, 2003. Certain of the disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.
