FORADIL® CERTIHALER LAUNCHED IN GERMANY

LONDON, UK, 7 September 2005 -- SkyePharma PLC (Nasdaq: SKYE; LSE: SKP) announces today (Novartis) has launched FORADIL® CERTIHALER (formoterol fumarate inhalation powder) on the German and chronic obstructive pulmonary disease (COPD). The German pharmaceutical regulatory authority approved FORADIL® CERTIHALER in June. FORADIL® CERTIHALER is a trademark of Novartis. FORADIL® CERTIHALER, co-developed by SkyePharma and Novartis, was submitted for regulatory review in Europe on a country-by-country basis beginning in December 2004 in Switzerland, Austria, Finland, Portugal and the Netherlands as well as in Germany. It has also been approved in Latin America and in South Africa. FORADIL® CERTIHALER was also submitted for regulatory review in the United States. The Food and Drug Administration (FDA) has assessed the product as "approvable" and Novartis has provided the data that were requested. The US FORADIL® franchise has been licensed by Novartis to Schering-Plough Company.

Michael Ashton, SkyePharma's Chief Executive Officer, commented: "We are delighted that FORADIL® CERTIHALER is available in the market in Germany, and we expect patients to appreciate the design features in this sophisticated inhaler."

FORADIL® CERTIHALER embodies two proprietary SkyePharma technologies, the SKYEHALER, a novel breath-actuated inhaler ("MDDPI") device, and SKYEPROTECT, a powder formulation that protects the drug from moisture, ensuring stability and dose-to-dose reproducibility.

Formoterol, the active ingredient in FORADIL® CERTIHALER, is a long-acting beta2-agonist bronchodilator with a rapid onset of action (within 5 minutes) with a long-lasting bronchodilation effect for 12 hours. This provides relief for patients who suffer from asthma and COPD. The breath-actuated FORADIL® CERTIHALER dry-powder inhaler provides patients the convenience of 30 days of therapy in a single inhaler. This evolution of the FORADIL® franchise is a valuable and convenient option for asthma and COPD patients who require maintenance therapy with a long-acting beta2-agonist.

SkyePharma will earn a royalty on future sales of FORADIL® CERTIHALER in all markets. SkyePharma is a subsidiary of Novartis. FORADIL® CERTIHALER .
