## 2 Defaults, losses from sales of impaired and deteriorating bonds and write-downs for non-linked shareholder backed business

### 2.1 Jackson National Life

In general, the debt securities of Jackson are purchased with the intention and the ability to hold them for the longer-term.

The majority of Jackson's debt securities are classified as available-for-sale under IAS 39. Under this classification realised losses from defaults, sales of impaired and deteriorating bonds and write-downs are recorded in the income statement. Changes in unrealised appreciation and depreciation are recorded as a movement directly in shareholders' equity.

Jackson continues to review its investments on a case-by-case basis to determine whether any decline in fair value represents an impairment and therefore requires an accounting write-down. IFRS requires available-for-sale debt securities which are impaired to be written down to fair value through the profit and loss account.

In the first nine months of 2009, Jackson recorded £522 million (half year 2009: £366 million) of actual credit related losses which comprise the following:

	<b>Nine months to 30 Sept 2009 £m</b>	<b>Movement in quarter 3 £m</b>	<b>Six months to 30 June 2009 £m</b>
Corporate debt securities	(80)	-	(80)
Residential mortgage-backed securities (RMBS)			
Prime	(189)	(66)	(123)
Alt-A	(163)	(65)	(98)
Sub-prime	(23)	(5)	(18)
Other	(25)	(20)	(5)
Total bond write downs	(480)	(156)	(324)
Defaults	-	-	-

Losses on sale of impaired and deteriorating bonds net of recoveries	(42)	-	(42)
Total	(522)	(156)	(366)

## 2.2 Other shareholder backed business (excluding Jackson National Life)

For the Group's operations, other than Jackson National Life, debt securities are accounted for on a fair value through P&L basis with all value movements recorded in the income statement. The defaults for the 3 months to 30 September 2009 (measured against market value) for other shareholder backed business excluding Jackson National Life were as follows:

	Defaults £m
UK Insurance operations	-
Asia long-term business	-
Other operations	-
Total	-

## 3. Jackson National Life - securities in an unrealised loss position

For Jackson's securities classified as available-for-sale under IAS 39, at 30 September 2009 there was a net unrealised loss position of £173 million. This amount comprised £1,056 million of gross unrealised gains and £1,229 million of gross unrealised losses on individual securities. Under IFRS unrealised losses are only applicable for securities which have not been impaired during the period. Securities impaired during the period are written down to fair value through the profit and loss in full. Note 2.1 shows the element of write downs in 2009. Included within the gross unrealised losses is £839 million for securities which are valued at less than 80 per cent of book value, of which 43 per cent have been at this level for less than 6 months.

IFRS requires securities to be carried at fair value, being the amount for which the security would be exchanged between knowledgeable, willing parties in an arm's length transaction. The best evidence of fair value is quoted prices in an active market, but if the market is not active then a valuation technique is used to establish fair value.

### (a) Movements in the values for the 3 months to 30 September 2009:

Movements in the values of available-for-sale securities for the three months to 30 September 2009 are included in the table shown below:

## **PRUDENTIAL PLC - NEW BUSINESS SCHEDULES**

### **BASIS OF PREPARATION**

The new business schedules are provided as an indicative volume measure of transactions undertaken in the reporting period that have the potential to generate profits for shareholders. The amounts shown are not, and not intended to be, reflective of premium income recorded in the IFRS income statement.

The format of the schedules is consistent with the distinction between insurance and investment products as applied for previous financial reporting periods. Products categorised as "insurance" refer to those classified as contracts of long-term insurance business for regulatory reporting purposes, i.e. falling within one of the classes of insurance specified in part II of Schedule 1 to the Regulated Activities Order under FSA regulations.

The details shown for insurance products include contributions for contracts that are classified under IFRS 4 "Insurance Contracts" as not containing significant insurance risk. These products are described as investment contracts or other financial instruments under IFRS. Contracts included in this category are primarily certain unit-linked and similar contracts written in UK Insurance Operations, and Guaranteed Investment Contracts and similar funding agreements written in US Operations.

New business premiums for regular premium products are shown on an annualised basis. Department of Work and Pensions rebate business is classified as single recurrent business. Internal vesting business is classified as new business where the contracts include an open market option.

Investment products referred to in the tables for funds under management are unit trusts, mutual funds and similar types of retail fund management arrangements. These are unrelated to insurance products that are classified as investment contracts under IFRS 4, as described in the preceding paragraph, although similar IFRS recognition and measurement principles apply to the acquisition costs and fees attaching to this type of business.

#### **Notes to Schedules 1 - 8**

- (1a) Insurance and investment new business for overseas operations has been calculated using average exchange rates. The applicable rate for Jackson is 1.54 (2008: 1.95).
- (1b) Insurance and investment new business for overseas operations has been calculated using constant exchange rates. The applicable rate for Jackson is 1.54.
- (2) Represents cash received from sale of investment products.
- (3) Annual Equivalents, calculated as regular new business contributions plus 10 per cent single new business contributions, are subject to roundings. PVNBPs are calculated as equalling single premiums plus the present value of expected premiums of new regular premium business. In determining the present value, allowance is made for lapses and other assumptions applied in determining the EEV new business profit.
- (4) In Asia, 'Other' insurance operations include Thailand, the Philippines and Vietnam.
- (5) Balance includes segregated and pooled pension funds, private finance assets and other institutional clients. Other movements reflect the net flows arising from the cash component of a tactical asset allocation fund managed by PPM South Africa.
- (6) New business in India is included at Prudential's 26 per cent interest in the India life operation.
- (7) Balance sheet figures have been calculated at the closing exchange rate. Prior year balance is shown on a constant exchange rate.
- (8) Sales are converted using the year to date average exchange rate applicable at the time. The sterling results for individual quarters represent the difference between the year to date reported sterling results at successive quarters and will include foreign exchange movements from earlier periods.
- (9) New business in China is included at Prudential's 50 per cent interest in the China life operation.

- (10) Mandatory Provident Fund (MPF) product sales in Hong Kong are included at Prudential's 36 per cent interest in Hong Kong MPF operation.
- (11) Pru Health sales exclude £6m (£3m 50% share) of Trust business
