Full year outlook remains unchanged

Ian Livingston, Chief Executive, commenting on the first quarter results, said:

"We have made an acceptable start to the year, delivering improved financial results while investing in the future of the business. In TV we are offering great value premium sports packages and can now compete on a more even playing field. We hit the first major milestone in our fibre roll out, passing over 1.5m premises, and we are now running at an average rate of around 100,000 premises passed every week. In BT Global Services we continue to win significant contracts due to our ability to deliver a world class service to our customers.

"Despite the challenging environment, these financial results underpin our outlook for the full year."

Notes:

Unless otherwise stated, any reference to earnings before interest, tax, depreciation and amortisation (EBITDA), operating profit, operating costs, profit before tax and earnings per share (EPS) are measured before specific items. From Q1 2010/11 onwards, specific items also include net interest on pensions due to the volatile nature of this item. The commentary focuses on the trading results before specific items. This is consistent with the way that financial performance is measured by management and is reported to the Board and the Operating Committee and assists in providing a meaningful analysis of the trading results of the group. The directors believe that presentation of the group's results in this way is relevant to the understanding of the group's financial performance as specific items are significant one-off or unusual in nature and have little predictive value.

Specific items may not be comparable to similarly titled measures used by other companies.

Unless otherwise stated, the change in results is year on year. Reported EBITDA, reported operating profit, reported profit before tax and reported EPS are the equivalent statutory measures.
