EASYWEB, INC.

PART I. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

PLAN OF OPERATION

EasyWeb's business plan is to design, market, sell and maintain customized and template, turnkey sites on the Internet, hosted by third parties. Our business plan is prepared based upon the popularity of the Internet and the growing number of businesses interested in advertising and marketing online. We have generated only \$9,547 in revenue and have a retained deficit of \$274,928 through September 30, 2004. We have not performed any services or earned any revenue during 2004 or 2003.

Our future success will be dependent upon our ability to (1) locate and consummate a merger or acquisition with an operating company, (2) finance Internet opportunities if we are allowed to trade publicly and raise capital and, ultimately, (3) attain profitability. There is no assurance that we will be successful in consummating a merger or acquisition with an operating company, financing Internet investments, or attaining profitability. As of the date of this filing, we have had no discussions and no agreements have been reached with any third parties regarding such a business combination.

We are experiencing capital shortages and are currently dependent upon an affiliate, Summit Financial Relations, Inc. ("Summit"), which has paid expenses on our behalf, in order to maintain our limited operations. There is no assurance that Summit will continue to pay our expenses in the future. On May 13, 2004, the Company issued 400,000 restricted common shares to Summit valued at \$10,000, or \$.025 per share, to repay Summit for past disbursements. As of September 30, 2004, we still owed Summit \$9,584 for expenses paid on our behalf. In addition, an officer advanced us \$100 for working capital during the three months ended September 30, 2004. This advance remained unpaid at September 30, 2004.

Edgar Filing: EASYWEB INC - Form 10QSB

As a result of our inability to generate significant revenue, together with sizeable continuing operating expenses, access to capital may be unavailable in the future except from affiliated persons. If we are able to obtain access to outside capital in the future, it is expected to be necessarily costly because of high rates of interest and fees. Through September 30, 2004, in addition to the expenses paid by Summit, we have been funded through the sale of our common stock for gross proceeds in the amount of \$136,050 including proceeds of \$6,000 through the sale of 240,000 shares of our common stock (\$.025 per share) during March 2004.

While our independent auditor has presented our financial statements on the basis that we are a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable length of time, they have noted that our significant operating losses and net capital deficit raise a substantial doubt about our ability to continue as a going concern.

We do not intend to hire any additional employees in the foreseeable future. We do not intend to make significant equipment purchases or conduct any research and development within the next twelve months.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of federal securities laws. These statements plan for or anticipate the future. Forward-looking statements include statements about our future business plans and strategies, statements about our need for working capital, future revenues, results of operations and most other statements that are not historical in nature. In this Report, forward-looking statements are generally identified by the words "intend", "plan", "believe", "expect", "estimate", and the like.

8

Investors are cautioned not to put undue reliance on forward-looking statements. Except as otherwise required by applicable securities statutes or regulations, the Company disclaims any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise. Because forward-looking statements involve future risks and uncertainties, these are factors that could cause actual results to differ materially from those expressed or implied.

PART I. ITEM 3. CONTROLS AND PROCEDURES

EasyWeb, Inc. management, including the Principal Executive Officer and Principal Financial Officer, has conducted an evaluation of the effectiveness of disclosure controls and procedures pursuant to Exchange Act Rule 13a-14(c) and 15d-14(c). This evaluation was conducted within 90 days prior to the filing of this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this annual report has been made known to them in a timely fashion. There have been no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date the Principal Executive Officer and Principal Financial Officer completed his evaluation.
